

Department of Mechanical Engineering Clemson University
Proposal for Honors Undergraduate Research (ME 4150)

Please fill out this form to request approval to enroll in an **honors section of ME 4150**. Students who have been accepted into the departmental honors program may count six credit hours of honors undergraduate research as both of their ME technical requirements. Once you have filled out this request form, send the filled form to your faculty research advisor along with your problem statement and research schedule. If the form is received without attachments, it will not be processed. Your proposal must be approved by both your faculty research advisor and the Departmental Honors Coordinator before you will be permitted to enroll in ME 4150.

Project Title:

Research Advisor:

Student:

CID#:

Semester:

Cumulative GPA:

Total Credits:

Minimum student commitment (hours/week):

When you send this form to your research advisor for signature, please attach the following documents in PDF format.
