STUDY ABROAD
BEIJING, CHINA
PKU PEKING UNIVERSITY GLOBEX SUMMER SCHOOL

DESCRIPTION
The Globex Julmester at Peking University in Beijing, China is a study abroad program with a worldwide exchange of students from all disciplines of study, based in China’s bustling capital city. To enhance students’ global and professional experience, Globex offers courses that focus on general science and engineering, as well as China-focused study. Societies everywhere are profoundly impacted by China as it grows to become the world’s largest economy. Globex offers students an opportunity to study cutting edge topics in bioengineering, materials science, electrical and computer engineering, computer science, engineering management, as well as China and its people. There are no prerequisites for any of the courses offered through Globex. See the website for course details.

PROGRAM HIGHLIGHTS
- Study at the number one ranked university in China
- Earn 3-6 credits in engineering, science or China studies
- Very affordable: ~ $2,946- $3,742 (based on housing)
- Optional field trips and tours of Beijing and surroundings

LOCATION
- Beijing, China

DATES
- Summer Term 2: July 2 - 20, 2018

FIELDS OF STUDY
Bioengineering, Electrical and Computer Engineering, Materials Science and Engineering, and Computer Science.

COURSE CREDIT
Students may earn 3-6 credits toward technical electives or other major requirements, pending dept. approval
