The Killam Fellowship Program is a scholarship program which allows undergraduate students from accredited degree granting universities to participate in a bi-national residential exchange program between Canada and the US. Scholarship recipients spend one or two semesters as an exchange student in the other country. The scholarships are $5,000 per semester; students can apply to any participating Canadian Universities.

Global Engineering Exchange

Global E³ is an exchange program specifically for engineering students. With member universities in 24 countries, students at over 70 universities have the opportunity to study abroad among partner universities. For more information and a list of universities that participate, visit www.globale3.studioabroad.com.
