This program will provide research experience for students in world-class bioengineering research laboratories at the University of Tokyo or Kansai University in Osaka. Students will be paired with a graduate research mentor and tutor who will work side-by-side with participants in the laboratory and will help acclimate the student to life outside of the university. Based on lab space and availability, students will be chosen to conduct research at one of two locations: Tokyo or Osaka.

**DESCRIPTION**

- Gain experience conducting mentored research at a world-class research institution
- Hike Mount Fuji and see the sunrise over the peaks
- Travel on the famous bullet train to Kyoto to experience traditional Japanese culture

**TWO LOCATIONS**
- Multiple Cities in Japan: Tokyo or Osaka

**DATES**
- Summer Term: May - July

**FIELDS OF STUDY**
- Engineering: Open to rising Juniors or Seniors in any engineering discipline (previous research experience a plus)

**COURSE CREDIT**
- BIOE 4600 (6 credits)

**HOW TO APPLY**
