DESCRIPTION
Come to Spain, one of the foremost countries in sustainability, to study both Environmental Sustainability and Geographic Information Systems (GIS). Instructors from Clemson University will team with local experts to deliver a world-class teaching experience related to addressing some of the global engineering challenges of the 21st Century. This program blends in-class activities with field trips to wind/solar farms, recycling depots, and sustainable buildings.

PROGRAM HIGHLIGHTS
- Study sustainability in Spain
- Immerse yourself in Spanish culture and improve your Spanish language skills
- Learn hands-on, highly demanded skills in life cycle assessment (LCA) and GIS
- Experience Pamplona, one of Spain’s most exciting cities

LOCATION
- Pamplona, Spain

DATES
- Summer: June 2023

FIELDS OF STUDY
- Open to Engineering majors, Junior standing or higher

COURSE CREDIT
- EES 4860; EES 4910
