

# STUDY ABROAD

## JAPAN

### SUMMER UNDERGRADUATE RESEARCH IN JAPAN

#### DESCRIPTION

This program will provide research experience for students in world-class research laboratories at the NITech in Nagoya, Kansai University in Osaka or the University of Tokyo. Each student will be paired with a graduate research mentor who will work side-by-side in the laboratory and will help acclimate the student to life outside of the university. Based on lab space and availability and students' research interest and background, students will be assigned to a lab at one of the three locations: Nagoya, Osaka, or Tokyo.

#### PROGRAM HIGHLIGHTS

- Gain experience conducting mentored research at a world-class research institution
- Pre-departure international virtual exchange (IVE) with host students to work on group projects
- Field trip to a corporate (e.g., Terumo, Kyocera) or a national lab
- Free weekends to explore different parts of Japan (e.g. Okinawa, Mt. Fuji, Hiroshima)

**ENGINEERING, COMPUTING  
AND APPLIED SCIENCES**

#### LOCATION:

Nagoya, Osaka or Tokyo

#### DATES

End May/Early June – End June/Early August 2024 (8 weeks)

#### FIELDS OF STUDY

Open to rising Juniors or Seniors in Engineering (BioE, Civil, ChemE, CompSci, ECE, ME, MSE) and Science (Biol, Biochem, Chem, Gen, and MathSci) majors. Previous research experience is a plus.

#### COURSE CREDIT

BIOE 4600 (6 credits) or equivalent elective (research course) credits in other disciplines

#### HOW TO APPLY

[www.clemson.edu/studyabroad](http://www.clemson.edu/studyabroad)
