

# STUDY ABROAD

## UNITED KINGDOM

### HEALTHCARE AND NURSING

#### DESCRIPTION

The 9-day program is designed to engage students in the history of medicine and medical research, starting by tracing the footsteps of Florence Nightingale, mother of modern nursing through Victorian London, and learning how a fine balance of compassion and innovation fueled the evolution of Britain's healthcare system. The program ends with a visit to Edinburgh to learn about the city's medical community.

#### PROGRAM HIGHLIGHTS

- Gain insight from a local health professional (e.g., a registered nurse) about Britain's healthcare system
- Enjoy the cultural highlights of Britain's cosmopolitan capital city
- Tours to an old operating theatre, London's medical district, and a museum dedicated to medical artifacts.
- Visits to Edinburgh Castle and the Surgeon's Hall Museum

#### LOCATIONS

London and Edinburgh, UK

#### DATES

June 9 – June 17, 2024

#### FIELDS OF STUDY

Open to all students interested in a career in healthcare

#### COURSE CREDIT

BIOE 4610: International Study in Bioengineering (3 credits)
