Use Paper–Paragraph style for paragraphs. Upon your submission, you are asked to agree with [the Privacy Policy of Japan Laser Processing Society](#); an organizer of LMP2026, and with that authors' names, affiliations, countries and abstract title (presentation attributes), will be indicated on the advance and final program to be shown on the LMP2026 open-access website, and with that the presentation attributes and abstract content will be published at the LMP2026 congress sites with restricted access to participants. Program Committee will review all the submitted abstracts.

Up to 2 abstract submissions will be allowed per one registration. The abstract must be written in English. The abstract will be distributed in an electric file on an access-controlled website. There will be no formatting done to the abstract prior to publication in the abstract book. Therefore, it is very important for you to ensure that your abstract follows the style guidelines presented in this template in order to provide a uniform and consistent appearance. **Abstract should not exceed one page in length.** The dimension of the paper is A4 size paper: 210 mm x 297 mm. Margins should be 20 mm on all sides, and the text should be written in 9 point [Noto Serif](#). Letter sized file is not acceptable. In case your abstract is too short, you will be asked to modify it with more texts and/or figures. The abstract must be submitted in a [PDF](#) format. The quality of figures should be clear enough. The size of the PDF file should not exceed 3.5 MB. Use the styles predefined in the template file. It is highly recommended to use Noto Serif font throughout the abstract file. A couple of Figures/Tables may be included to the abstract. Large figures should be centred as shown in the Figure 1, and small ones may be placed side by side. In all cases, the figures must be located completely inside the paper margins. Figure captions, in 8 pt, should be positioned in centre below the figures as shown in Figure 1. Table captions, also in 8 point, should be positioned centred above the tables.

(a)

(b)

Figure 1 (a) The figure, as well as each axis coordinates and titles must be large enough to be easily read. (b) Any micrographs being used should have very good contrast in order to ensure proper visibility. The font of text in the figures should be Noto Serif (and Symbol, if necessary), or the characters are completely part of the picture as (b). (Use Paper–Figure style)

All references should be numbered and appear at the end of the abstract in the same order as used in the text. The font should be the same as the main body of the text but with an 8 pt size. Reference should be aligned to the left. In the main body of the text, the reference designation should be with square brackets [1], and several references can be included together using a comma [2, 3]. If three or more consecutive references occur together, a dash is to be used [1-3].
