

**Ashok Mishra, Ph.D.**  
**Associate Professor, Civil Engineering**

- Has been at Clemson for 6 years
- Reseaches and teaches hydrology
- Recieved the Board of Trustees Award for Excellence in 2019

Ashok Mishra earned his Ph.D. in Civil Engineering at the Indian Institute of Technology in 2017. Dr. Mishra's postdoctoral experience included McMaster University in Canada, Texas A&M University and the Department of Energy National Lab. His areas of research interest include, but are not limited to, drought, flood and precipitation extremes, hydroclimatic modeling and forecasting, climate change impact on water resources, hydrometric network design, stochastic hydrology and the water-food-energy-climate nexus. Dr. Mishra is exceptionally knowledgeable on the topic of water resources and hydrology. He typically teaches the following four courses: applied hydraulics and hydrology, hydrologic analysis and design, stochastic hydrology and water resources planning and management. Dr. Mishra received the Board of Trustees Award for Excellence in 2019. His work has been widely published.
