

Amy Lawton-Rauh, Ph.D.

Professor, Genetics and Biochemistry Department

- Has been at Clemson for 8 years
- Associate Provost for Faculty Affairs
- Researches adaptive genomics of crops, crop wild relatives and weedy species

Amy Lawton-Rauh began her collegiate studies at the University of Missouri in 1997 pursuing a degree in biology with a minor in chemistry and anthropology. She then went on to earn her Ph.D. in genetics with a minor in botany from the North Carolina State University in 2003. Dr. Lawton-Rauh is both a Professor and an Associate Provost for Clemson University. As a populations and quantitative geneticist, she works with others to address global and local agricultural challenges. She has developed numerous advanced undergraduate and graduate courses related to her research interests. Dr. Lawton-Rauh is committed to her student's development as well as the faculty around her. Her role as a Professor and an Associate Provost for Faculty Affairs has allowed her to make many connections in academia. Her work has been published in a variety of academic outlets.
