

Caye Drapcho, Ph.D.

Associate Professor, Biosystems Engineering

- Research interests are in the areas of sustainable biofuels and bioproducts formation; environmental remediation; microbial kinetics and bioreactor modeling
- Received her Ph.D. from Clemson University in 1993

Dr. Drapcho's current research projects include: Biofuels Engineering Textbook, Biological Hydrogen Production, Biological Reactor Modeling, Algal Culture for Nutraceutical Production and Carbon Capture and Microbial Fuel Cells. She was named the Lund BE Professor of the Year in 2004, 2005, 2008 and 2011.
