Mentor Supported

Photography Entrepreneur Certificate Program with Externship

Course Code:	CLEM-L-PE
Program Duration:	6 Months
Course Contact Hours:	495
Student Tuition:	\$3,799

The Photography Entrepreneur Specialist

Photographer entrepreneurs start their own photography businesses. Often they work within a specialized niche or group of niches and market their services to specific target markets. In addition to having photography knowledge and skills, the photography entrepreneur must also acquire business savvy, including how to establish a legal form of the business, how to write a business plan, how to brand and market the business, and how to use the numerous types of contracts required to comply with copyright and other types of photography-related laws. If you're looking to strike out on your own as a photographer, any small business needs a good business plan and this course will walk you through the ins and outs of the business aspects of photography so that you can start to earn a living and be your own boss without having to leave your passion for photography behind. This course covers the basics of setting up a photography business.

The Photography Entrepreneur Specialist Program

The photography industry is expected to grow 3 percent from 2014 to 2024. The photography entrepreneur can use their great communication skills, excellent eye for detail and technical expertise to help their business advance. The photography entrepreneur can expect to obtain clients in their own town, however, willingness to travel makes way for more opportunity and a larger clientel. Photography Entrepreneurs require a variety of business and communication skills over and above the artistic skills of a photographer. Opportunities will continue to grow for Photography Entrepreneurs as they continue to sharpen their business skills with marketing, sales and advertising in order to land more projects from weddings and special events, to portraits and specialty shoots.

Education and National Certifications

- Students should have or be pursuing a high school diploma or GED.
- There are no state approval and/or state requirements associated with this program.
- There is a National Certification exam available to students who successfully complete this program:
 - **Microsoft Office Specialist (MOS) Certification Exam.**

Program Objectives

At the end of this course, students will be able to:

Describe a career as a professional photographer including the different niches

- Explain the different types of business structures common for professional photographers
- Explain the different components of a business plan for a photography business
- Explain how a professional photography can brand a photography business endeavor and how effective branding can help the photography business
- Explain the different components of a marketing plan for a photography business
- Explain common ways that a professional photographer can use social media to advance a photography business
- Explain the concepts related to costs and pricing in a photography business
- Detail the important considerations and legal and ethical principles related to the required contracts for a photography business

National Certification

Upon successful completion of this Clemson University program, students would be eligible to sit for the Microsoft Office Specialist (MOS) exam. Although there are no state approval, state registration or other state requirements for this program, students who complete this program at Clemson University will be prepared and are eligible to sit for this national certification exam. Students who complete this program are encouraged to complete the externship option with their program. Students who complete this program can and do sit for the MOS national certification exams and are qualified, eligible and prepared to do so. Clemson University works with each student to complete the exam application and register the student to take their national certification exam.

Externship / Hands on Training / Practicum

Although not a requirement, once students complete the program, they have the ability to participate in an externship and/or hands on practicum so as to practice the skills necessary to perform the job requirements of a professional in this field. Students will be assisted with completing a resume and/or other requirements necessary to work in this field. All students who complete this program are eligible to participate in an externship and will be placed with a participating organization near their location. Clemson University works with national organizations and has the ability to place students in externship opportunities nationwide.

Clemson University contact: If students have any questions regarding this program including national certification and externships, **they should call Juanita Durham of Clemson University at 864.656.3984 or via email at jdrhm@clemson.edu.**

Note: No refunds can be issued after the start date published in your Financial Award document.

About Clemson University!

Clemson Online, a unit reporting directly to the Provost, works closely with leadership teams across the University to develop, market, and deliver top-quality courses and programs in blended and online formats. The office provides vision, leadership, coordination, and expertise in support of faculty design, delivery, and evaluation of technology-enhanced, blended, and fully online courses and instructional materials. Dynamic, transformative, and unique eLearning opportunities characterize Clemson's approach to online teaching and learning.

Our Mission: Clemson Online provides strategic leadership for online education, emphasizing innovative teaching and superior learning outcomes to maximize student success in 21st-century academic and professional contexts.

Our Vision: Clemson Online will define the public web-grant university through measurable achievements in online education, research, and service.

The office is committed to pursuing strategic opportunities, providing supportive resources, promoting superior educational quality, and ensuring faculty involvement and responsibility in shaping Clemson's online future.

Clemson University and Pearson Education

The Clemson University's Office of Professional and Continuing Education eLearning programs were developed in partnership with Pearson Education to produce the highest quality, best-in-class content and delivery necessary to enhance the overall student learning experience, boost understanding and ensure retention. Pearson Education is the premier content and learning company in North America offering solutions to the higher education and career training divisions of colleges and universities across the country aimed at driving quality education programs to ensure student success. Please visit us at www.pearson.com.

About Pearson Education

Welcome to Pearson. We have a simple mission: to help people make more of their lives through learning. We are the world's leading learning company, with 40,000 employees in more than 80 countries helping people of all ages to make measurable progress in their lives. We provide a range of education products and services to institutions, governments and direct to individual learners, that help people everywhere aim higher and fulfil their true potential. Our commitment to them requires a holistic approach to education. It begins by using research to understand what sort of learning works best, it continues by bringing together people and organizations to develop ideas, and it comes back round by measuring the outcomes of our products.
