

- The data to be shared (“baseline data set”) does not contain any personally identifiable information. The following is a description of the database tables:

SULLIVAN_RESULTS_SUMMARY: High-level summary information on test results from the Sullivan Center and Redfern prior to 8/20/2020.

HCU_TEST_COMBINED_DEDUP: Summarized, de-duplicated information from all test result tables (i.e. Athletics, Redfern, Contractor, Rymedi, Upload).

CASE_REPORT: General information related to positive cases.

CONTACT: General information about potentially exposed CU affiliates.

CONTACT_EXPOSURE: Information about contact exposures (e.g. affiliation, exposure date).

CONTACT_REPORT: General date information (e.g. quarantine end date) related to exposed contacts.

QUARANTINE_ISOLATION: Isolation and quarantine information (e.g. start date, end date, symptomatic).
