Entrance Requirements
To facilitate admission of students who can achieve at an appropriate level in the program, admission is selective. Applicants are reviewed by the Office of Admissions and consideration is given to performance in secondary school and on the College Board Examination (SAT). Those seeking admission are advised to apply to the University early in the fall of their senior year of high school.

Transfer admission is competitive. Students are encouraged to apply early to the Office of Admissions. The University admits ten new transfer students to the Health Science major during the fall semester only. Potential students should have a minimum grade point average of 3.0 and completion of 30 semester hours of transferable courses. Placement in the Health Science curriculum is determined after credit evaluation is complete.

Students may apply to change majors into Health Science with decisions based on available space and approval by the department advisory committee. Applications are accepted in the fall semester beginning on the first day of class with a deadline of the last day of classes. Accepted change-of-major students must be signed into the program by the academic advisor. Minimally, applicants must have a cumulative grade-point average of 2.25 with 49 or fewer earned credits or a 2.5 with 50 or more earned credits. Students with 50 or more earned credits must also have taken and passed the math requirement, statistics requirements and science requirement per the General Education requirements listed in the Undergraduate Announcements. Students are allowed to apply only twice. Detailed information is available in the Academic Advising Center located in 309 Edwards Hall.

CARDIOVASCULAR IMAGING LEADERSHIP CONCENTRATION

Freshman Year

First Semester
1. BIOL 1030 General Biology I and
2. BIOL 1050 General Biology Lab. I or
3. BIOL 1100 Principles of Biology I
4. CH 1010 General Chemistry
5. HLTH 2020 Introduction to Public Health

Second Semester
1. BIOL 1040 General Biology II and
2. BIOL 1060 General Biology Lab. II or
3. BIOL 1110 Principles of Biology II
4. CH 1020 General Chemistry
5. ENGL 1010 Composition and Rhetoric
6. HLTH 2030 Overview of Health Care Systems

Sophomore Year

First Semester
1. BIOL 2220 Human Anatomy and Phys. I
2. CVT 2260 Intro. to Cardiovascular Sonography
3. HLTH 2980 Human Health and Disease
4. PHYS 2070 General Physics I
5. PHYS 2090 General Physics I Laboratory
6. - Statistics Requirement

Second Semester
4. BIOL 2230 Human Anatomy and Physiology II
3. COMM 1500 Introduction to Human Comm. or
5. COMM 2500 Public Speaking
3. CVT 2250 Ultrasound Physics
3. HLTH 2400 Determinants of Health Behavior
3. Health Requirement

Junior Year

First Semester
4. CVT 3250 Echocardiography Principles
4. CVT 3350 Vascular Sonography Principles
3. HLTH 3800 Epidemiology
3. Arts and Humanities (Literature) Requirement

Second Semester
4. CVT 3260 Echocardiography Methods
4. CVT 3360 Vascular Sonography Methods
3. HLTH 4900 Research and Evaluation Strategies for Public Health
3. Leadership Requirement
3. Social Science Requirement

Summer
3. CVT 4240 Introduction to Field Experience

Senior Year

First Semester
4. CVT 4250 CVS Field Experience II
3. HLTH 4180 CVT Professional Development
3. Arts and Humanities (Non-Lit.) Requirement

Second Semester
6. CVT 4260 CVS Field Experience III
3. Health Requirement
3. Leadership Requirement

12

122–125 Total Semester Hours

See General Education Requirements. Six of these credits must also satisfy the Cross-Cultural Awareness and Science and Technology in Society Requirements.

MATH 1020 or 1060

STAT 2300 or 3090

Any HLTH course not otherwise required.

Select from HEHD 4000, 4100 or 4200

Note: A minimum grade-point average of 2.0 is required for registration in each HLTH course.

HEALTH PROMOTION AND BEHAVIOR CONCENTRATION

Freshman Year

First Semester
3. BIOL 1030 General Biology I and
1. BIOL 1050 General Biology Lab. I or
5. BIOL 1100 Principles of Biology I
4. CH 1010 General Chemistry
3. HLTH 2020 Introduction to Public Health

HEALTH SCIENCE
Bachelor of Science
The Department of Public Health Sciences prepares students for careers in the health field, one of the largest industries in the United States. It includes hospitals and other medical service providers, public health organizations, health insurance companies, health/medical related sales, health fitness organizations, and community and nonprofit health agencies.

Plans of study can be arranged in health promotion and behavior, health services administration, leadership for cardiovascular technology, and pre-professional health studies. Students in the Health Promotion and Behavior Concentration have the skills to assess, plan, communicate, implement, manage, and evaluate public health promotion programs. Students in the Preprofessional Health Studies Concentration obtain the coursework and experience necessary for acceptance into various graduate programs in clinical health professions. The Cardiovascular Imaging Leadership Concentration provides a core of health science classes and training in diagnostic cardiovascular sonography and leadership. The Health Services Administration Concentration allows students to develop skills and competencies in health administration/management for entry-level careers or graduate study in this area. A minor in Business Administration is integral to the concentration. The department, in cooperation with the College of Architecture, Arts and Humanities, also offers a joint Bachelor of Science degree in Language and International Health (see pages 63-64).
Second Semester
3 - ENGL 1030 Composition and Rhetoric
3 - HLTH 2030 Overview of Health Care Systems
3 - Mathematics Requirement
3 - Social Science Requirement
3 - Elective
16-17

Sophomore Year
First Semester
4 - CH 1010 General Chemistry
4 - CH 1050 Chemistry in Context I
3 - HLTH 2980 Human Health and Disease
3 - NUTR 2030 Introduction to Principles of Human Nutrition
3 - Guided Requirement
3 - Statistics Requirement
3 - Elective

Second Semester
4 - HLTH 2400 Determinants of Health Behavior
3 - HLTH 3980 Health Appraisal Skills
3 - PSYC 3400 Lifespan Developmental Psych.

Junior Year
First Semester
4 - BIOL 2220 Human Anatomy and Phys. I

**LANGUAGE AND INTERNATIONAL HEALTH**

**Bachelor of Science**

The Language and International Health program is administered by the College of Architecture, Arts and Humanities and the College of Behavioral, Social and Health Sciences. See pages 63-64 for the curriculum.

**NURSING**

**Bachelor of Science**

The Bachelor of Science degree program in Nursing prepares students for professional nursing practice in a variety of settings, such as hospitals, industry, clinics, and public health agencies. Throughout the first two years, emphasis is on liberal arts and basic science courses arranged to provide a foundation for the nursing major. Junior and senior courses emphasize the study of nursing. Clinical nursing experiences, guided by the Nursing faculty, involve acute and community-based settings. Students are responsible for their own transportation to clinical laboratory experiences, which may extend throughout the Upstate.

Throughout the clinical laboratory period, Nursing majors are required to carry current, valid student nurses’ professional liability insurance with minimum limits of liability of $1,000,000 per occurrence and $5,000,000 in aggregate. Documentation of such coverage must be provided to the Director of the School of Nursing. No student may participate in clinical learning activities without this insurance coverage.

To comply with clinical agency contract requirements and South Carolina law, students enrolled in nursing courses with a clinical laboratory must meet specific requirements listed in the School of Nursing Student Handbook at www.clemson.edu/hsed/nursing.

The School of Nursing programs are accredited by the CCNE (Commission on Collegiate Nursing Education), One Dupont Circle NW, Suite 530, Washington, DC 20036-1120.

**Entrance Requirements**

To facilitate admission of students who can achieve at an appropriate level in the program, admission is selective. Consideration is given to performance in secondary school and on the College Board Examination (SAT). Those seeking admission are advised to apply to the University early in the fall of the senior year in high school.

Transfer admission is competitive. Students are encouraged to apply early to the Office of Admissions. The University admits ten new transfer students to the Nursing major during the fall semester only. Potential students should have a minimum grade point average of 3.0 and completion of 30 semester hours of transferable courses. Placement in the Nursing curriculum will be determined after credit evaluation is completed.

Students may change majors into Nursing based on approval of an Admissions Committee in the School of Nursing. Applications are accepted each year during January with a deadline of January 31. Decisions are made by February 28. Change-of-major students will have a start date of the following January into upper division (junior-level) nursing courses. Applicants
