The following forms must be postmarked to Katie Shaw at Sandhill Rec-Clemson University, Post Office Box 23205, Columbia, SC 29224 by June 19, 2018:
- Photography Consent/Model Release Form (Page 11)
- Clemson University Youth Camp/Program Examination Form (Page 12-14)
- SC State 4-H Horse Program Assumption of Risk and Release from Liability (Page 15)
- South Carolina 4-H Behavior Agreement (Page 16)
- CU Acknowledgement of Responsibility and Liability Waiver Form – Summer Programs (Page 17)
- CU Parental Permission Form and Release of Liability for Youth Camps or Programs (Page 18)
- 4-H Horsemanship Camp Horse Health Record (Page 19)

**Health Requirement:** A 4-H Health Form is included in this packet. It is very important for youth and parents to alert the camp staff with regard to any physical limitations or allergic reactions a youth may have to specific medicine(s), insect stings, food, diabetes, etc. Any special conditions/limitations should be given in writing to the camp director. Your cooperation in this matter is appreciated and is designed to keep your youth safe.

**Horse:** Each youth must bring their own mount and submit the required health records/forms for his/her horse or pony. Horse/pony must have a current negative Coggins test (within 12 months – drawn since July 5, 2017). Youth are encouraged to provide minor horse first-aid supplies. Horses and ponies must be sound and in good physical condition. Horses exhibiting unsoundness or behavioral problems will be sent home (at check in time or later in the week). Although shoes are not required, it is recommended that horses be
shod at least on their front feet. If not shod, hooves should be properly trimmed. A farrier & veterinarian will be available for emergency situations at the owner's expense. Every effort will be made to contact the parent/guardian should the animal require medical attention. Each youth will be responsible for all care of his/her mount. This includes, but is not limited to, feeding, watering, grooming, cooling out, stable cleaning, tack cleaning, and removing manure and urine from the stall in a regular and timely fashion.

**Insurance:** The SC 4-H Horse Program nor Clemson Extension does not insure horse equipment and/or horses. Any loss or damage to equipment or injury to horse or rider is at the owner's risk and expense. All campers must have primary health insurance for illness and accidents.

**Arrival Procedures:** Campers will be accepted at camp between 12:00 pm and 1:00 pm on Wednesday, July 1, 2018. It will not be possible for the staff to check campers in before 12:00 pm. When you arrive at camp, go to the front of Barn D and check in with the Horsemanship Camp Office. No horse may be unloaded until all paperwork has been checked. **No parents may leave until horses have been checked for soundness and all medical forms are on file with camp staff.** There will be no exception for not having all required paperwork for the camper and their horse on file with camp staff. Any camper or horse that cannot provide the required paperwork will be sent home with no refund. Trailers may be unhitched and left in the trailer parking area. It is requested that all unloading be done as efficiently as possible to help relieve congestion in the barn area. There will be a horse show underway in another area of the T. Ed Garrison facility during camp move-in, so it is imperative to remain in designated areas and avoid congestion.

Stalls will be assigned randomly. Campers may request to be stalled near another camper. Youth may store their equipment, grain and hay in their trailer or in their assigned tack stall. Three campers share a tack stall, so space is limited. Two bags of initial bedding will be provided for all stalls. Additional bedding may be purchased on site, on an as needed basis, for $6.00 a bag.

All parents and campers are required to attend the Camper and Parent Orientation held in the main arena at 2:00 pm. Following orientation, campers will tack their horse and lead them to their assigned riding evaluation ring as determined at the Orientation Meeting. A check for tack safety and appropriateness will be conducted before the campers mount their horse/pony and soundness will be assessed during this initial riding session. **Parents may not leave until the check for soundness and riding evaluation is complete, but must be vacated by 4 pm on Wednesday, July 1st.** It is the camper’s responsibility to take care of their horse/pony after the riding session, so parents should not complete those activities for their youth. Camp is not only designed to develop your rider's equation and riding skills, but also to foster these barn horsemanship skills. We appreciate your willingness to leave promptly so we can move on with our evening chores and activities.

**Departure Procedures:** Parents are requested to arrive for pick-up of youth and horses on Thursday, July 5, 2018 at 9:00 am to watch the final riding sessions. Parents or guardians must check-in with the camp director, as all visitors must be registered. Packing of tack and supplies may begin after the final riding sessions. Special recognition, fun camp awards and lunch will be provided at 12:00 pm. Lunch for the camper is included in their camp tuition; if parents wish to eat during this lunch session, they should purchase their lunch ticket on Sunday, July 1st at the Camp Check-In/Registration table with the camp director. **No youth will be allowed to leave until their stable area passes inspection and their parent or guardian properly checks out the youth.**

Please be sure all the supplies that the camper needs during camp are delivered and stored before you leave on July 1, 2018. We ask that you do not bring supplies during the week. If you are concerned about your child or just want to check in with camp staff, please feel free to call Katie Shaw at 803-940-3190 at any time.

South Carolina State 4-H Policy on Headgear Safety Equipment: The South Carolina Cooperative Extension Service 4-H Horse Program (4-H Program) requires that all riders wear protective headgear that meets or surpasses current applicable ASTM (American Society for Testing and Materials/SEI (Safety Equipment Institute) standards while riding in all 4-H Horse Program sponsored events and activities, including events and activities offered at the County, District or State level. The headgear must be properly fitted, properly worn on the top of the head, and worn with the strap or harness securely fastened. Events and activities covered by this policy include but are not limited to State 4-H Horse Show, 4-H Horsemanship Camp, District 4-H Horse Shows and Southern Regional 4-H Horse Championship. The term “riding” as used in this policy refers to the mounting, riding or driving of a horse or pony in any 4-H sponsored event or activity. The term “rider” refers to a person engaged in riding.
It is the responsibility of the rider, and the parent or guardian of the rider, to confirm that the headgear worn by the rider complies with the safety standards set forth above; is properly fitted, fastened and worn; and is in sufficiently good condition that it would protect the rider in the event of an accident. The 4-H Program and the show committees, officials, judges, extension personnel and volunteers associated with the 4-H Program are not responsible for providing headgear and are not responsible for checking headgear worn by riders in order to comply with this rule.

Any rider found to be riding in violation of this policy by 4-H Horse Program employees or volunteers will be immediately prohibited from further riding, and shall be barred or disqualified from the event or activity in which the rider is engaged at the time of the violation.

The 4-H Horse Program makes no representation or warranty, expressed or implied, concerning the headgear worn by any rider during a 4-H Program sponsored event or activity. In particular, the 4-H Program makes no representation or warranty concerning the safety performance of any headgear worn by any rider. The 4-H Program cautions riders and their parents and legal guardians that death or serious injury may occur despite wearing safety headgear as all equestrian sports involve inherent dangerous risk. No headgear can protect against all possible injuries.

- Manure fork – R
- Extension cord*
- Manure bucket/wheelbarrow*
- Fan for stall (to keep horse cool) – R
- Feed scoop*
- Broom*
- Water hose with nozzle*
- Grain, hay, salt/electrolytes (see note below) – R

Do not begin a new feeding program before camp. For your horse's sake, establish a regular feeding program at least two weeks prior to camp. If your horse is unaccustomed to living in a stall, begin acclimating him/her to a stall at least two weeks prior to camp. Turnout is NOT available at 4-H Horsemanship Camp, and horses are expected to live in a stall at all times. Hand walking of horses for light grazing is customary and expected for the horse’s health and mental wellbeing.

Bring enough hay and grain for 5 days (Sunday pm through Thursday am – twice daily feeding – 8 feedings minimum). Bring a salt block or salt supplement. Due to the hot weather typical for July, it is very important for the horse to eat hay and drink lots of water in order to maintain gut motility. Extra hay may be stored in one’s horse trailer if desired. It is also recommended that you bring electrolytes for your horse to encourage hydration. You should acclimate your horse to consuming these electrolytes PRIOR to camp. Often, the introduction of electrolytes can make your horse go off feed, so prepare the horse for consumption in advance.

Important:
Each horse and pony must have a negative Coggins test completed between 7/5/17 and 7/1/18 and a recent health form presented for inspection at time of arrival. There will be no exceptions!!

Stable Management Guidelines: The safety and health of the 4-Her and his/her horse will be emphasized. Morning barn inspections serve to determine whether or not the horse has been properly fed and watered, the stall cleaned, the tack serviceably clean for the day’s activities, and the general area neat and safe. Afternoon barn inspections are conducted to make sure that horses have been properly cooled out, groomed, watered, left in a clean stall, and that the general area is neat and safe. Aisles should be swept clear of hay, shavings and other debris twice daily. Evening barn checks are conducted to make certain that all horses have water, doors are properly closed, halters and leads visibly available for emergencies and that there are no indications of colic or other problems following the day’s activities.
Generally, the following rules will be observed:

- Stalls should be clean and well bedded. Stall floors are concrete; four bags of shavings are recommended. 4-H’ers should plan to purchase additional shavings from camp director or bring additional bedding.
- Stall doors must always be closed and properly latched.
- Horses must be cooled and brushed properly after each ride.
- Tack should be safe, clean and in good condition.
- Water and grain buckets should be placed in the front of the stall and for safety’s sake not on the ground (unless it is a feed pan, which should be removed and cleaned out and stored after each meal). Hay nets (large opening string type) are not allowed, but canvas or nylon closed-type hay bags or smaller weave nibble nets may be used if hung safely attached to baling twine. Hay may be fed on the ground at the front of the stall.
- Salt should be available daily due to loss of electrolytes during sweating.
- Stall fronts and aisles must be kept free of obstacles. The tack area should be neat with equipment and tools stored safely in tack rooms or horse trailer.
- Each horse must have a halter and lead line hanging on his stall front at all times.
- 4-H’ers must be properly attired at all times when in the barn area and around the horses (long pants and leather, hard soled shoes – tennis shoes and duck boots are not acceptable).
- Each youth will be held responsible for the care and feeding of his/her horse while attending camp.
- All horses must have a prior history of being tied! Horses may only be tied in their stall to baling string attached to the front grill of their stall NOT the door. Horses may not be tied in the wash racks unless tied to baling string – no exception. This is for the safety of the horse.
  - Never hard tie your horse to a hitching post in the wash rack or in the stall. Always tie to a piece of baling twine instead, so that if your horse panics it can break free without injury.

Save time and trouble . . . set your stall up correctly when you move in! Below is a diagram of the suggested stall set up. It would be helpful to bring a bucket hanging straps, fan holder straps or bungee cords, etc. to make stall set up easier.

- **Buckets** – Two water buckets ensure that the horse has plenty of water at all times. Place water buckets in the front of stall. Place feed bucket by the door to avoid fights at feeding time. Buckets can be hung with chains and snaps or bucket straps.
- **Bedding** – Stalls should have adequate bedding to absorb wetness and provide cushion. Frequent stall picking keeps bedding cleaner for a longer period of time. Two (2) bags of bedding will be provided for each horse; however, it is strongly recommended to use at least four (4) bags upon stall set up for cushioning (or bring your own rubber mats). Additional bedding will be available for purchase at $6.00 per bag on site.
- **Halter and Lead Rope** – These should be hung on the outside of door in case of emergency.
- **Fan** – A fan should be hung outside the front of the stall so that horses cannot chew the cord. In some stalls, fans can be hung in the area outside and over water buckets. In other stalls, receptacles may be located near the door such that fan is hung on door and will need to be unplugged when the door is opened. Horses will need fans for ventilation due to extreme heat. Fans can be hung with “Bungee” cords or baling twine.
- **Hay Nets** – String type nets (large holes) are not allowed. present a serious threat to your horse or pony if not hung correctly. Smaller holed nibble nets or canvas hay bags are the only safe means of hanging hay. Hang bags only from baling twine to the top rails of the stall front.
- **Stall identification** - Campers may bring stall placards or posters describing their horse and rider name. A stall card will be provided for the camper to include emergency information. Please complete with parent of guardian upon check-in of camp.
Tips for Horsemanship Camp

• If your horse is not ridden regularly, begin a gradual exercise program to condition your mount at least a month prior to camp. If you ride occasionally, begin with riding 30 minutes per day, 4 times per week. Gradually add time until you are riding your horse one hour per day 3-4 times a week. Remember, this is your best friend. Don’t ask him to do something he may not be prepared for!

• Make arrangements for a knowledgeable farrier to evaluate and either trim or shoe your horse before camp. We suggest having horses/ponies shod on their front feet unless they are accustomed to rocks and hard footing. A lame horse will not be very useful at camp.

• Plan to have deworming and vaccinations completed several weeks prior to camp. Maximal horse health allows your horse to withstand the heat and stress of the week’s activities.

• If your horse does not stay in a stall regularly, acclimate him to a stall gradually by putting him in a stall a few hours at a time and feeding him in the stall until he is comfortable staying in overnight.

• Do NOT make sudden feed changes! If your horse has not been receiving grain or hay daily, you can stress him and his digestive system and cause severe colic or choke by suddenly putting him into an unfamiliar stall and giving him grains when he has been out on pasture with minimal stress.

• If your horse kicks at other horses, bring a red ribbon and tie it in his tail. Please make your instructor aware of any problem you may be having with your horse. Never crowd other horses. Leave enough room between your horse, yourself and others so that no one will be harmed if a horse kicks out.

• Check all tack for fit, wear and tear. String girths, leather cinch straps, cheek pieces, chin straps, and reins tend to wear quickly. Make sure all of your equipment is in good working order. When in doubt replace it with good adjustable equipment.

• Have your horse’s Coggins and health record available at check in.

• Wear hard-soled leather shoes at check in. Tennis or open toed shoes are not allowed in the stable are at any time.

• All riders, regardless of discipline, are required to wear a properly fitted ASTM/SEI current standards riding helmet at all times when mounted. Horses should be hand walked to and from the riding rings and 4-H’ers will mount their horses at the ring. Riders must have their helmets properly fitted and fastened at all times when mounted.

• Lastly, come with an open mind. No one knows everything! Not everyone does things the same way. What is important is the result, which may be achieved through a variety of methods. A good horseman is a person who is receptive to what others are doing and is able to learn from other people’s successes or failures.
