WHEP Written Management Plan Template:
Must be written in paragraph format, Team ID should be written on the BACK of each page

Part I: Plan Background (10 points)
What are the species to be managed (based on scenario given) and what are the management objectives? Are the objectives measureable?

Species to be Managed:

Management Objectives:

Part II: Plant Development (40 points)
Species Habitat Requirements (20 points):
What type of habitat does each species need to survive? What type of cover? Etc.

Species A:

Species B:

How large is the site? What type of vegetation is currently present? Is there cover available? What type of habitat is lacking? The habitat assessment is a brief overview about the site. This information is gathered by walking around, assessing the property, and make note of important land features.

Habitat Assessment (20 points):
Part III: Plan Implementation (40 points)
What Wildlife Management Practices will be used to meet the habitat requirements of the species being managed for? Demonstrate that WMPs are used correctly, understand the effect of the practices on the habitat/species.

Part IV: Plan Evaluation (15 points)
How will you measure the success of your management plan? Is it realistic?
Part V: Format of Plan and Drawing of Map (20 points)

Is the management plan logical and in proper format? The map is to be drawn on this sheet of paper. This map should illustrate where WMPs should be implemented.
