

When thinking about trying a new variety, it helps to see how it performed in different trials and situations. The data below is from a collaborative trial between Mr. Wade Parker, UGA Extension Agent, and Clemson University – EREC. These trials were conducted under irrigation in Jenkins County and Midville, Georgia.

Evaluation of Peanut Varieties Midville - Irrigated Two Year Summary 2014-2015

Evaluation of Peanut Varieties in Jenkins County 2015 Johnson Farms
