Lowcountry 4-H Visual Arts Project

About

The Lowcountry 4-H Visual Arts Project teaches artistic skills and the elements and principles of design. 4-H members explore techniques, study art history, culture, and discover their talents. Be creative; draw, paint, and work with different mediums.

Youth will become confident in expressing themselves through various art forms and master the basics of making great art – its elements and principals. Youth are free to express themselves, be creative, and make an impression.

Registered youth will receive a record book, have event opportunities, and be eligible to enter their project and completed record book as part of Lowcountry 4-H Project Achievement Day.

For registration or more information visit the website below or contact your local Clemson Extension Office.
