Lowcountry 4-H20 Ambassador Project

About

The Lowcountry 4-H20 project provides youth a fun and hands-on learning experience that develops life skills, as well as teaches valuable information about critical thinking.

4-H20 is a hands-on science inquiry program that provides youth with knowledge about their local water resources and teaches them the field, analytical and critical thinking skills they need to intelligently participate in making decisions that affect the quality of these aquatic systems. 4-H20 Ambassadors will become leaders in environmental stewardship.

Registered youth will receive a guided record book, have event opportunities, and be eligible to present their project and completed record book as part of Lowcountry 4-H Project Achievement Day.

For registration or more information visit the website below or contact your local Clemson Extension Office.

County Website: https://www.clemson.edu/extension/beaufort/4h/index.html
Contact your local 4-H agent to register or with any questions.

Should you require special accommodations due to a disability, please notify our office ten days prior to the event.

Clemson University Cooperative Extension Service offers its programs to people of all ages, regardless of race, color, gender, religion, national origin, disability, political beliefs, sexual orientation, gender identity, marital or family status and is an equal opportunity employer.

Lowcountry 4-H20 Ambassador Project

Participant Responsibilities and Details

Objectives
• The objectives of 4-H Personal Development projects are that youth will:
  • Set goals, plan activities and strategies to achieve desired outcomes.
  • Reflect on their yearly work by documenting their skill development and learning experiences.
  • Give back to their communities through educational and service activities.
  • Learn valuable skills in record keeping, financial management, and written communication.

Registration
• Participants must be members in good standing and register online.
• Registration website: http://lowcountry4H.eventbrite.com
• Participants between the ages 5-18 as of January 1, 2020, may register for the project.
• Registration closes April 30, 2020 to be eligible for year end awards.

Project Expectations
• Learn what a watershed is and how to protect it.
• Spend time outdoors while learning about water quality.
• Maintain accurate records.

Project Achievement Day
• Project achievement day is an opportunity for youth to present their project to the judges to be eligible for 4-H awards. Please bring the following with you to achievement day:
  • Completed record book
  • Completed project (may be poster, visual presentation, model, and/or oral presentation)
    • Entry topics ideas:
      • Watersheds
      • Aquatic species
      • Aquatic habitats
      • Aquaponics
      • Mariculture

Resources
• National 4-H Water Conservation Curriculum
