FROM: Jay Crouch, Area Agronomy Agent

Travis Mitchell, Area Livestock & Forages Agent

RE: Initial Training for Private Applicator Licensing

The Clemson University Cooperative Extension Service of Newberry and Saluda counties will be conducting an initial training for Private Applicator Licensing.

The Private Pesticide Applicator Training is an education program for private pesticide applicators. Individuals who purchase and/or apply Restricted Use Pesticides (RUP) must be certified to do so under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) and the South Carolina Pesticide Control Act of 1975. Individuals must have at least a current Private Applicator license, or to be working under the supervision of someone who has such a license.

Attending this program will provide individuals with an opportunity to obtain their Private Applicator License.

The Clemson University Cooperative Extension Service offers its programs to people of all ages, regardless of race, color, gender, religion, national origin, disability, political beliefs, sexual orientation, gender identity, marital or family status and is an equal opportunity employer.

If you need special accommodations due to a disability in order to participate in these trainings, please notify Penny Clary at the Saluda County Clemson Extension Office at (864) 445-8117 or [pclary@clemson.edu](mailto:pclary@clemson.edu). In the Newberry County Clemson Extension Office contact Nancy Pitts (803) 276-1091, or [npitts@clemson.edu](mailto:npitts@clemson.edu).
