Purpose

Clemson University’s Student Fee policy defines fee categories and establishes authority, responsibility, and accountability for all student fees. The Student Fee process is a mechanism for communication, review and approval of student fees. Additionally, it provides a basis for estimating revenue for effective budgeting and planning. Budget Centers are encouraged to seek student referenda and/or appropriate and meaningful consultation with student government or other constituencies affected by the proposed increase for mandatory student fees in Category V.

Policy

Chapter VI of the Clemson University Board of Trustees (BOT) manual provides that the Board of Trustees retain the authority to establish academic and student room and board fees which include: matriculation fees, full-time student, part-time student, graduate, graduate assistant and off-campus academic fees, tuition fees, laboratory fees, residence hall fees, and meal plan fees.

Each year, the BOT establishes the fees charged to students. All fees established shall be based upon the recommendation of the Executive Leadership Team. The final decision regarding the submission of fee proposals to the BOT remains with the President.

I. The Student Fee process is required of departments or divisions charging mandatory or non-mandatory fees to enrolled students. New fees and changes to existing student fees must be submitted to the Student Fee Committee in accordance with the process required for the fee category and approved by the designated authorities as described in the Student Fee Procedures. All student fees are subject to annual review as prescribed in section IV. A student fee for the purposes of this document is defined as any fee and/or charge applied only to students (i.e. student activity fee, technology fee, etc.).

II. Each budget center is required to appoint a student fee liaison(s) to ensure effective communication throughout the student fee process. The liaison should be knowledgeable of the courses or other requirements for the budget center. The liaison is responsible for coordinating student fee proposals for new and existing student fees in collaboration with Vice Presidents, Deans, Department Chairs and faculty within the respective budget center, as well as student government and/or advisory groups, and submitting proposals to the Student Fee Committee as prescribed in the Student Fee Procedures.
III. Student Fee Categories shall be defined as follows:
