

Instructions for Participants to Join a Cisco Meeting Server Space

Intermediate

Accessing a Cisco Meeting Server Space from a web browser.....	1
Joining a meeting from the Meeting Invitation.....	1

Accessing a Cisco Meeting Server Space from a web browser

NOTE: Recommended web browser is Chrome. Do NOT use Edge or Internet Explorer.

NOTE: We highly recommend connecting to the meeting space through the app directly instead of using a web browser. The app for Windows and Mac can be downloaded from:

<http://ccit.clemson.edu/support/current-students/software-and-applications/web-downloads/>

1. Open your web browser and navigate to <https://cmse1.clemson.edu>.
2. Click Join call.
3. Enter the number part of the video address. For the example provided in the Call ID field enter 4017.
4. Enter your Name.
5. If you have the Cisco Meeting Server application installed, you will be prompted to run the meeting space through the app.
6. Accept opening the meeting space in the app.
7. You will then be taken into the meeting space.

Joining a meeting from the Meeting Invitation

NOTE: Recommended web browser is Chrome. Do NOT use Edge or Internet Explorer.

NOTE: We highly recommend connecting to the meeting space through the app directly instead of using a web browser. The app for Windows and Mac can be downloaded from:

<http://ccit.clemson.edu/support/current-students/software-and-applications/web-downloads/>

1. From the Meeting invitation, click the join using the web browser link. In this example, it would be: <https://cmse1.clemson.edu/invited.sf?id=4017&secret=70e2a3df-5973-46a2-b750-790b6bdddaba1>.
2. Your computer will launch a web browser and ask you to enter your name.
3. Enter your Name.

4. If you have the Cisco Meeting Server application installed, you will be prompted to run the meeting space through the app.
5. Accept opening the meeting space in the app.
6. You will then be taken into the meeting space.
