As of May 8, we have uploaded proposals from Info-Ed.

There are a few things to consider when viewing this page.

**Report Year**
Data from funded projects comes out of InfoEd. The report year is based on the fiscal year, so report year 2018-2019 would mean fiscal year 2019. We have designed the screen so that Digital Measures reports will pull fiscal year data to match the review year. Don’t be concerned if you see May dates – those are included to coincide with the Digital Measures reporting structure. The data under consideration runs on a fiscal year basis, which would mean that report year 2018-2019 covers data from July 1, 2018 until June 30, 2019. Report year 2019-2020 covers data from July 1, 2019 until June 30, 2019. Project expenditures will be updated throughout the summer to reflect the end of the fiscal year, and department chairs should keep that in mind as they are performing annual reviews.

**Project Team Members/Project Totals**
These numbers represent award allocations and project expenditures in the fiscal year.

**Principal Investigator/Co-Principal Investigator**
The title and the Abstract list the principal investigator. All other faculty who are in Info-Ed show up as Co-Principal Investigators. We are working with Digital Measures Technical Staff to move the role and allocated percentage into the main area of the screen so it can be updated. Once that happens, we will populate that information from Info-Ed as well.

If you have questions or concerns about the data in this section, please email DMAdmin@clemson.edu.
