

**CLEMSON FOREST RECORD SYSTEM \*\*\* RESEARCH SITE APPLICATION**

The Clemson Experimental Forest (CEF) management office must approve all research installations on the CEF. All research and teaching projects involving the use of live vertebrate animals must be approved by the Clemson University Institutional Animal Care and Use Committee (IACUC). Areas used for long term teaching and demonstration should fill out a form for notification of management activities. Forest management staff will assist with locating appropriate locations for research and education projects.

**STUDY/EXERCISE Title:** \_\_\_\_\_

**PRIMARY RESPONSIBILITY (NAME)** \_\_\_\_\_

**email:** \_\_\_\_\_ **Phone:** \_\_\_\_\_

**Address:** \_\_\_\_\_

**Current Date:** \_\_\_\_\_ **Start Date:** \_\_\_\_\_ **End Date:** \_\_\_\_\_

**Location of Site requested: Latitude (dd):** \_\_\_\_\_ **Longitude (dd):** \_\_\_\_\_

**Stand ID:** \_\_\_\_\_ (CEF Management Staff will assist with determination of Stand ID)

**STUDY AREA SIZE/UNITS:** \_\_\_\_\_

**SOURCE OF FUNDING:** \_\_\_\_\_

**Description of Project** (attach project abstract): \_\_\_\_\_

**Site layout and method of marking boundaries** (attach diagram): \_\_\_\_\_

**REMARKS** (forest operations management restrictions/requirements, permit/protocols required, infrastructure):

Note: Research site approval is required to avoid conflicting use, assure compliance with regulatory and institutional requirements and provide for notification of silvicultural practices, wildfire, storm damage or other event. Contractor or vendor agreements are subject to approval by the Forest Manager. The principal investigator is responsible for maintaining site safety, trash cleanup and removal of equipment after completion.
