

Creative Inquiry and other Projects in the Clemson Experimental Forest

College of Agriculture, Forestry and Life Sciences

Survey of Furbearer Species on the Clemson University Environmental Forest

Rickie Davis, Wildlife Biologist, Department of Forestry & Natural Resources

Inventory of Streams and Watersheds in the Clemson Experimental Forest

William English, Ph.D., Department of Forestry & Natural Resources

Biological Inventory of the Six Mile Creek Issaqueena Forest

Jeff Foltz, Ph.D., Department of Forestry

Inventory and Mapping of Wetlands on the Clemson University Experimental Forest

Louwanda Jolley, Department of Forestry & Natural Resources

Monitoring the Impacts of Silvicultural Practices on Vertebrate Fauna of the Clemson Experimental Forest

J. Drew Lanham, Ph.D., Department of Forestry

Survey of Wildlife Management Programs and Activities on the Clemson Experimental Forest

Skip Still, Department of Natural Resources

Biological Inventory of the Six Mile Creek Issaquenna Recreation Area-tree, shrubs, vines and herbaceous vegetation

Vic Shelburne, Ph.D., Department of Forestry

Interdisciplinary Student Research and Service-Learning in a Top-20 Forest: A Biodiversity Program for The Clemson Experimental Forest

Herbaceous Plants - Patrick McMillan, Curator, Herbarium, Biological Sciences

Interdisciplinary Student Research and Service-Learning in a Top-20 Forest: A Biodiversity Program for The Clemson Experimental Forest

Aquatic Insects – John Morse, Ph.D., Entomology, Soils, and Plant Sciences

Survey of Woody Invasive Species on the Clemson University Experimental Forest

Larry Nelson, Ph.D., Forest and Natural Resources and Saara DeWalt, Ph.D., Biological Sciences

New Hope Road Project

Mary Haque, Alumni Distinguished Professor, Horticulture

College of Architecture, Arts and Humanities

Historical and Cultural Resources Survey of the Clemson University Experimental Forest

Will Hiott, Ph. D., Department of History

College of Business and Behavioral Science

Department of Graphic Communications Creative Inquiry Class for Recording, Archiving, and Communicating Materials for the Experimental Forest Project

Suzanne Edlein, Ph.D., Graphic Communications

College of Engineering and Science

The Groundwater Project

Larry Murdoch, Ph. D., Department of Geology

Water, People, and Environment: An Exploration of Resource Sustainability at Clemson and Abroad

Stewart Moysey, Ph.D., School of the Environment

Utilizing the Forest as a Research area for Geological Science Majors

John Wagner, Ph.D, School of the Environment

College of Health, Education, and Human Development

Clemson University Forest Recreation Planning Project

Bill Norman, Ph. D., Bob Powell, Ph. D., Department of Parks, Recreation & Tourism Management
