

Six-Mile Creek Waterfall & Rock Slide

aka: Mystery Falls!!

Group 3:

Grant Robertson
David Platt

Jocelyn Kohn
Lindsay Burton

Why Go?
I'll show you why...

How to get there

- ▶ Cross Highway 123
 - ▶ Go to the North forest entrance near Maw's
 - ▶ Continue 200 ft past Wildcat Creek Picnic Area
 - ▶ Hike up the old logging road to your right (a gate is blocking it)
 - ▶ You will need to wade across Six Mile Creek
 - ▶ At the first intersection of trails, take the straight path and continue half a mile.
 - ▶ Make a sharp right turn. Now you will be in hearing distance of the falls.
 - ▶ Walk about 30 yards to the right (off the trail) and you will arrive at the falls.
- 

If you are feeling adventurous...

- ▶ Head approximately 150 yards up stream.
- ▶ A rock slide is clearly visible, as it takes up the width of the stream.

** We are not responsible for any injuries sustained while playing on rockslide

Fast Facts:
