NOTIFICATION OF RIGHTS UNDER THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.

A student should submit to the registrar, dean, head of the academic department, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

A student who wishes to ask the University to amend a record should write the University official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the University decides not to amend the record as requested, the University will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

Note: The challenge of a student under this paragraph is limited to information which relates directly to the student and which the student asserts is inaccurate or misleading. With regard to a student’s grade, this right does not permit the student to contest a grade on the grounds that a higher grade is deserved, but only to show that the grade has been inaccurately recorded.

(3) The right to provide written consent before the University discloses personally identifiable information from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

The University discloses education records without a student’s prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health services); contractors, consultants, volunteers and other outside parties to whom the institution has outsourced institutional services or functions instead of using University employees or officials (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the University.

Upon request, the University also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

(4) The right to refuse to permit the designation of any or all of the following categories of personally-identifiable information as directory information, which is not subject to the above restrictions on disclosure: student’s full name, permanent address and telephone number, local address and telephone number, e-mail address, Clemson identification number (the number that begins with a C on the student ID card and is also referred to as a student’s XID), username, state of residence, date and place of birth, marital status, academic class, class schedule and class roster, name of advisor, major field of study, including the college, division, department or program in which the student is enrolled, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance and graduation, degrees and honors and awards received including selection to a dean’s list or honorary organization; and the grade point average of students selected, and the most previous educational institution attended. Photographic, video, or electronic images of students taken and maintained by the University are also considered directory information.

Directory information may be disclosed by the University for any purpose, at its discretion. Any student wishing to exercise his/her right to refuse to permit the designation of any or all of the above categories as directory information must give written notification to the Registration Services Office (E-206 Martin Hall) by the last day to register for the enrollment period concerned as published in the Clemson University calendar.

(5) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-5901.
DISCLOSURE OF EDUCATION RECORDS IN HEALTH AND SAFETY EMERGENCIES

If the University determines that there is an articulable and significant threat to the health or safety of a student or other individuals, FERPA allows disclosure of information from education records to appropriate parties whose knowledge of the information is necessary to protect the health and safety of the student or other individuals. ¹

- “Articulable and significant threat” means that if a school official can explain why, based on all the information then available, he or she reasonably believes that a student poses a significant threat, such as a threat of substantial bodily harm, to any person, including the student, the University may disclose education records to any person whose knowledge of information from those records will assist in protecting a person from that threat.
- “Appropriate parties” include parents of the student; parents may be notified when there is a health or safety emergency involving their son or daughter.

In making a determination to disclose information, the University may take into account the totality of the circumstances pertaining to a threat to the safety or health of the student or other individuals. An emergency can be related to the threat of an actual, impending, or imminent emergency, such as a terrorist attack, a natural disaster, a campus shooting, or the outbreak of an epidemic such as e-coli. An emergency can also be a situation in which a student gives sufficient, cumulative warning signs that lead the school official to believe the student may harm himself at any moment.

The FERPA recordkeeping requirements require the University to record 1) the articulable and significant threat that formed the basis for the disclosure and 2) the parties to whom the information was disclosed. This record will demonstrate what circumstances led to the determination that a health or safety emergency existed and how the disclosure was justified. The record must be made within a reasonable period of time after the disclosure was made. The record must be maintained with the education records of the student for as long as the student’s education records are maintained. After disclosing information under the FERPA health and safety exception, employee(s) must document the following information and forward the records to the dean of students.

- Student’s name
- Name(s) of person(s) to whom the student posed a significant health or safety threat
- Description of the significant threat to health or safety
- Description of the circumstances and the information available (including relevant dates)
- Description of all the information that was disclosed
- Name(s) of person(s) to whom the information was disclosed (person(s) whose knowledge of the information would have assisted in protecting a person or persons from the threat; or student’s parent)
- Date(s) disclosure was made
- Name(s) of CU employee(s) who determined a health and safety emergency existed
- Name(s) of CU employee(s) who disclosed the information
- Date the record of disclosure was made

¹Note: The FERPA health and safety requirements do not apply to disclosures to a Clemson University employee with a legitimate educational interest in the information. Information from education records may be disclosed to University employee if the information is necessary for that employee to perform work appropriate to his or her position.

Note: Dates on this calendar were accurate at the time of printing. Dates, however, may change as conditions warrant. Current information is available at [www.registrar.clemson.edu/html/Acad_Cal.htm](http://www.registrar.clemson.edu/html/Acad_Cal.htm).
ADMINISTRATION

UNIVERSITY GOVERNANCE AND ADMINISTRATION

The University is governed by a board of 13 members, six selected by the state Legislature and seven self-perpetuating life members, in accord with the will of Thomas Green Clemson. The Board of Trustees is primarily responsible for adopting the long-range objectives of the University and the basic policies for achieving them; providing policy instruction for long-range planning; adopting the statutes of the University; electing the president of the University; employing the secretary of the board; maintaining ownership of University assets; and overseeing the evaluation of the University.

The president is the chief executive officer of the University, providing leadership to all phases of University planning, coordinating the operations of all units of the University, carrying out major University public relations functions, evaluating the results of University plans, and appointing personnel who report to the president. The day-to-day operations of the University are administered by the president and executive officers for advancement, public service and agriculture, student affairs, and research and economic development.

The provost and vice president for academic affairs is the chief academic officer of the University. The provost is responsible directly to the president for all academic matters and has administrative jurisdiction over teaching and computing services. Vice provosts assist in administering and performing duties in coordinating graduate and undergraduate curricula; supervising computer information services, the libraries, scholarship and award programs; and other duties assigned by the provost.

Academic deans are the chief administrative officers of their individual colleges and report directly to the provost. They provide leadership in formulating and carrying out educational policy; review and make recommendations on personnel matters; and carry out and administer the academic and financial affairs of their colleges.

BOARD OF TRUSTEES
David H. Wilkins, Greenville, SC, Chair
John N. McCarter Jr., Columbia, SC, Vice Chair
David E. Duke, Columbia, SC

2015-2016 Undergraduate Announcements
GENERAL INFORMATION

PURPOSE OF CATALOG
This catalog gives a general description of Clemson University and provides prospective students with detailed information regarding the various colleges and departments within the University and curricula offered by the University. Inasmuch as the educational process necessitates change, the information and educational requirements in this catalog represent a flexible program that may be altered where such alterations are thought to be in the mutual interest of the University and its students.

The provisions of this catalog do not constitute a contract that may be accepted by students through registration and enrollment in the University. The University reserves the right to change without notice any fee, provision, offering, or requirement in this catalog and to determine whether a student has satisfactorily met its requirements for admission or graduation. The University further reserves the right to require a student to withdraw from the University for cause at any time.

Each curriculum shall be governed by the requirements in effect on the date of enrollment. If a student withdraws from the University and subsequently returns or does not remain continuously enrolled (summers excluded), the requirements in effect at the time of return will normally prevail.

STUDENT RESPONSIBILITY
All colleges and departments establish certain academic requirements that must be met before a degree is granted. Advisors, department chairs, and deans are available to help the student understand and meet these requirements; but the student is responsible for fulfilling them. If, at the end of a student's course of study, the requirements for graduation have not been satisfied, the degree will not be granted. For this reason, it is important that students acquaint themselves with all curriculum requirements throughout their college career and be responsible for completing all requirements within prescribed deadlines and time limits.

VISION STATEMENT
Clemson University will be one of the nation's top 20 public universities.

MISSION STATEMENT
Clemson University was established to fulfill our founder's vision of a "high seminary of learning" to develop "the material resources of the State" for the people of South Carolina. Nurtured by an abiding land grant commitment, Clemson has emerged as a research university with a global vision. Our primary purpose is educating undergraduate and graduate students to think deeply about and engage in social, scientific, economic, and professional challenges of our times. The foundation of this mission is the generation, preservation, communication, and application of knowledge. The University also is committed to the personal growth of the individual and promotes an environment of good decision making, healthy and ethical lifestyles, and tolerance and respect for others. Our distinctive character is shaped by a legacy of service, collaboration, and fellowship forged from and renewed by the spirit of Thomas Green Clemson's covenant.

UNIVERSITY DESCRIPTION
Clemson University is a selective, public, research university in a college-town setting. Clemson's desire is to attract a capable, dedicated and diverse student body of approximately 20,000 undergraduate and graduate students, with priority to students from South Carolina. The University offers a wide array of high quality baccalaureate programs built around a distinctive core curriculum. Graduate, continuing education, doctoral and research programs contribute to the state of knowledge and to the economic future of the state, nation and world. The University provides bachelor's, master's and doctoral degrees in more than 100 majors.

Clemson combines the benefits of a major research university with a strong commitment to undergraduate teaching and individual student success. Students, both undergraduate and graduate, have opportunities for unique educational experiences throughout South Carolina, as well as in other countries. Experiential learning is a valued component of the Clemson experience, and students are encouraged through Creative Inquiry, internships, and study abroad, to apply their learning beyond the classroom. Electronic delivery of courses and degree programs also provide a variety of learning opportunities. Clemson's extended campus includes teaching sites in Greenville and Charleston, five research campuses, and five public service centers throughout the state of South Carolina, as well as four international sites.

The University is committed to exemplary teaching, research and public service in the context of general education, student engagement and development, and continued education. In all areas, the goal is to develop students' communication and critical-thinking skills, critical judgment, global awareness, and scientific and technological knowledge. The distinctive character of Clemson is reflected in the culture of collegiality and collaboration among faculty, students, staff, the administration, and the university board.

HISTORY
When one man of wisdom and foresight can look beyond the despair of troubled times and imagine what good things can happen. That is what the University's founder, Thomas Green Clemson, was able to do in the post-Civil War days. He looked upon a South that lay in economic ruin, once remarking that "conditions are wretched in the extreme" and that "people are quitting the land." Still, among the ashes he saw hope. Joined by his wife, Anna Maria Calhoun Clemson, Mr. Clemson envisioned what could be possible if the South's youth were given an opportunity to receive instruction in scientific agriculture and the mechanical arts. He once wrote, "The only hope we have for the advancement of agriculture (in the U.S.) is through the sciences, and yet there is not one single institution on this continent where a proper scientific education can be obtained." When he was president of the Pendleton Farmers Society in 1866, Mr. Clemson served on a committee whose purpose was to promote the idea of founding an institution for "educating the people in the science and art which will in time secure permanent prosperity." When he died on April 6, 1888, a series of events began that marked the start of a new era in higher education in the state of South Carolina, especially in the study of science, agriculture, and engineering. Mr. Clemson's passing set the stage for the founding of the university that bears his name—the beginning of a true "people's university," which opened the doors of higher education to all South Carolinians, rich and poor alike. In his will, which he signed November 6, 1886, Mr. Clemson bequeathed the Fort Hill plantation and a considerable sum from his personal assets for the establishment of an educational institution of the kind he envisioned. He left a cash endowment of approximately $80,000, as well as the 814-acre Fort Hill estate, to South Carolina for such a college. The biggest obstacle in the creation of an agricultural college—the initial expense—was removed by Mr. Clemson's bequest.

On November 27, 1889, Governor John Richardson signed the bill accepting Thomas Clemson's gift. Soon after, a measure was introduced to establish the Clemson Agricultural College, with its trustees becoming custodians of Morrill Act and Hatch Act funds made available for agricultural education and research by federal legislative acts. The founding of Clemson Agricultural College supplanted the South Carolina College of Agriculture and Mechanics in Columbia, which had been designated in 1880.

Thomas Green Clemson came to South Carolina when he married Anna Maria Calhoun, daughter of South Carolina's famous statesman John C. Calhoun. Born in Philadelphia, Mr. Clemson was educated at schools both in the United States and France, where he attended lectures at the Royal School of Mines, studied with prominent scientists in the private laboratories of the Sorbonne Royal College of France, and received his diploma as an assayer from the Royal Mint in Paris. Mr. Clemson, then in his mid-20s, returned to America greatly influenced by his European studies. He became a great advocate of the natural sciences, achieving a considerable reputation as a mining engineer and a theorist in agricultural chemistry. He also was a diplomat who represented the U.S. government as chargé d'affaires to Belgium for almost seven years.

Mr. Clemson had a lifelong interest in farming and agricultural affairs. He served as the nation's first superintendent of agricultural affairs (predecessor to the present secretary of agriculture position) and actively promoted the establishment and endowment of the Maryland Agricultural College in the 1850s. Though remembered today for these accomplishments, Thomas Clemson made his greatest historical contribution when, as a champion of formal scientific education, his life became intertwined with the destiny of educational and economic development in South Carolina. Although he never lived to see it, his dedicated efforts culminated in the founding of Clemson Agricultural College.

At the time of his death, Mr. Clemson was living at the Fort Hill homestead, which by today is a national historic landmark and provides a historic centerpiece for the Clemson University campus. He had inherited the house and plantation lands upon the death of Mrs. Clemson in 1875.
Clemson College formally opened in July 1893, with an enrollment of 446. From the beginning, the college was an all-male military school. It remained this way until 1955, when the change was made to “civilian” status for students and Clemson became a coeducational institution. In 1964, the college was renamed Clemson University as the state legislature and the state courts formally recognized the school’s expanded academic offerings, Ph.D. granting status, and research purt. On November 27, 1989, the University observed the 100th anniversary of the state’s acceptance of the terms and conditions of Mr. Clemson’s bequest.

The enrollment of Clemson has grown from 446 students at the opening of the University to 21,857 for the first semester 2014-2015. Since the opening of the University, 125,568 students have been awarded bachelor’s degrees. During this same period, 426 associate degrees, 35,130 master’s, 460 education specialist, and 4,292 doctor’s degrees have been awarded, a total of 165,876 degrees.

Today, more than a century later, the University is much more than its founder ever could have imagined. With its diverse learning and research facilities, the University provides an educational opportunity not only for the people of the state, as Mr. Clemson dreamed, but for thousands of young men and women throughout the country and the world.

THE CAMPUS

The 1,400-acre Clemson University campus is sited on the former homestead of statesman John C. Calhoun. Nestled in the foothills of the Blue Ridge Mountains and adjacent to Lake Hartwell, the campus commands an excellent view of the mountains to the north and west, some of which attain an altitude of over 5,000 feet above mean sea level.

The Norfolk and Southern Railway and U.S. highways 76 and 123 provide easy access to the city of Clemson and to the University. Oconee County Airport is four miles from the library. Both Atlanta and Charlotte are two hours driving time away.

Clemson University’s real estate holdings include more than 32,000 acres of forestry and agricultural lands throughout the state, the majority of which are dedicated to Clemson’s research and public-service missions.

Fort Hill, the former home of John C. Calhoun inherited by Thomas Clemson, and the Hanover House are both listed on the National Register of Historic Places and are open to the public. The campus also has two recognized historic districts.

The Strom Thurmond Institute houses the institute offices, Senator Thurmond’s papers and memorabilia, and the special collections of the Cooper Library, including papers of John C. Calhoun and James Byrnes, two of the most important South Carolinians since 1787. The institute is a part of an instructional and public-service district that includes the Brooks Center for the Performing Arts and the Madren Center for Continuing Education. Clemson offers limited graduate and undergradate coursework in Greenville, SC. Also located in Greenville is the Clemson University International Center for Automotive Research (CU-ICAR), a 250-acre advanced-technology research campus where university, industry and government organizations collaborate.

ACCREDITATION

Clemson University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor’s, master’s, education specialist, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Clemson University.

Curricula are accredited by the Association to Advance Collegiate Schools of Business (AACSB), Accrediting Board for Engineering and Technology (ABET), American Council for Construction Education, Accreditation Council for Education in Nutrition and Dietetics (ACEND), American Society of Landscape Architects, Commission on Collegiate Nursing Education (CCNE), Council for Accreditation of Counseling and Related Education Programs (CACREP), National Architectural Accrediting Board (NAAB), National Association of Schools of Art and Design, National Council for Accreditation of Teacher Education (NCATE, CAEP), National Recreation and Park Association Accreditation Commission on Accreditation for Parks and Recreation Education (PARA), Planning Accreditation Board, and Society of American Foresters. Documentation of accreditation is available in the college-deans’ offices.

ADVISING POLICY

Academic advising is an ongoing educational process that connects the student to the University. Academic advising supports the University’s mission of preparing the student for learning beyond the confines of the academy. Academic advisors represent and interpret University policies and procedures to the student and help the student navigate the academic and organizational path of the institution.

To ensure that students receive both personal and professional assistance in navigating through curricular and community requirements toward degree completion and graduation, each student is assigned to an academic advisor (either professional or faculty advisor). Advisors are available to assist students with issues related to degree planning, course selection, withdrawals, degree requirements, academic policies, academic difficulty, campus resources, internships/practicum opportunities, and career/graduate school planning. Students are responsible for adhering to academic policies, preparing for advising meetings and taking ownership for their educational experience. Students receive academic advising materials from their advisors during pre-registration advising meetings. Students uncertain of their assigned advisor are encouraged to seek assistance from the departmental office/advising center for their major. For more information, visit http://www.clemson.edu/academics/advising/.

LIBRARIES

The Libraries’ website at www.clemson.edu/library provides access to a multitude of information resources, including the library catalog, hundreds of databases, more than 40,000 electronic journals, and information regarding library services.

The Libraries’ services include circulation, reference, interlibrary loan, class instruction, and tours. Cooper Library houses a computer lab (maintained by CCIT), Java City Cyber Cafe, Snax & Stax convenience store, and a popular reading and audiobooks collection. Equipment available includes photocopyers, scanners, fax machines, and wireless laptops. A Cooper Library and a color laser printer, engineering plotter, and large-format photocopier in the Gunnin Architecture Library.

The Strom Thurmond Institute, houses the rare book collection, University Archives, and many manuscript collections, including the papers of John C. Calhoun and the Thomas Green Clemson.

Total holdings for the library system include more than 1.5 million items, including books, periodicals, electronic resources, government publications and patents, musical recordings, DVDs and videos, audiobooks, maps, and microforms.

COMPUTING RESOURCES

Clemson Computing and Information Technology (CCIT) provides comprehensive services to students and employees, including laptop support, training, printing and plotting, computer repair, software licenses, wireless access points, network and information security, course management system and more.

Public access computer labs across campus contain high-end Windows PCs or Macs, and black and white laser printing equipment. Students receive a specified quota of pages and plots per semester in these labs. Any printing and plotting beyond the limit is charged to the student. Lab computers provide the same access as personal student laptops using the Clemson software image. Software and access available in the labs include Internet, e-mail, Google Apps for Education, and the Microsoft Office Suite with Word, Excel, Access, Outlook, and PowerPoint applications, as well as other software. Clemson provides site licenses for several software packages, including Trend Micro virus protection, Microsoft Office and Adobe Creative Cloud. Visit the CCIT website for more details before purchasing expensive software that may be provided for all students.

Getting Help

The Customer Support Center, located on the second floor of Cooper Library, serves as a central point of contact for general computing assistance, laptop support and repair, and consulting services. Students may call 864-656-5494, e-mail ITHELP@clemson.edu or walk in during hours of operation (check the CCIT website at http://www.clemson.edu/ccit). CCIT help is also available in the Cooper Library Learning Commons on Level 4.

E-mail and Accessing Your Account

Each student’s e-mail address is username@clemson.edu. CCIT automatically creates a Google Apps for Education account at http://g.clemson.edu for all incoming students. Google Apps offers full e-mail services.
functionality and large data storage, plus Google Calendar, Google Docs and Google Sites. Google Mail is the recommended student e-mail system, and it allows students to use Google’s e-mail with their Clemson e-mail address while at Clemson and following graduation. Student e-mail accounts (username@clemson.edu) are automatically forwarded to their Google Mail accounts (username@g.clemson.edu). Students can change and verify their e-mail forwarding preferences at http://www.clemson.edu/email_forwarding.

Computer Training
CCIT provides computer training and support to faculty, staff and students in the use of the MyCLE portal and the Web-based course management system (Blackboard), the Clemson computer network and many desktop applications. Training is offered as part of regular University courses, short courses, special training programs and e-learning courses.

Distance-learning processes and technologies are also supported. A part-time trainer is available in the Cooper Library Learning Commons for individual and group assistance. Visit the CCIT website for a complete list of training resources.

Wired and Wireless Access
The university computer network is accessible through wired network connections in all on-campus residences or through the University’s extensive wireless network, which provides coverage to most areas of campus. Eduroam is Clemson’s primary wireless network, allowing students to connect securely with their Clemson user name and password. Visit the CCIT website for more information and complete coverage details, including a list of compatible wireless cards.

Security
Clemson University requires all users to run virus protection and install the latest operating system patches on their computers for the security of all network users. Clemson has a site license for the Trend Micro virus protection products. These and other licensed software options are available on the CCIT website.

Laptop Program
Laptops are required for all undergraduate and MBA graduate students. While students may bring any laptop that meets the minimum specifications, recommended laptops are posted on the CCIT website. Clemson University works with vendors to offer recommended laptops with custom warranties at special prices. Students with recommended laptops receive priority support on campus for both software and hardware issues as a part of their purchase package. Repair technicians on campus can complete warranty repairs on these laptops. Students with recommended laptops kept in Hardware Repair for an extended period of time may be able to check out a loaner laptop if available. CCIT also services and repairs many other brands of computers for a fee, or under manufacturer’s warranty, if applicable.

Additional Information
Additional information—including information about Google Apps for Education (GAE); computing and research, software licensing; IT e-mail alerts; ClemsonGuest wireless access service; the Acceptable Use Policy for Students; and the Campus Computer Store—is available at http://www.clemson.edu/ccit or by e-mailing ITHELP@clemson.edu.

CALHOUN HONORS COLLEGE
Established in 1962, the Calhoun Honors College strives to enrich the educational experience of highly motivated, academically talented students by providing opportunities for scholarship and research not always available to undergraduates. Honors students become part of a dynamic academic community dedicated to the study of ideas and the life of the mind.

Calhoun Honors students are offered the opportunity to take a wide variety of specialized honors courses. These include a series of intensive honors seminars emphasizing multidisciplinary approaches and contemporary issues; and numerous courses satisfying general education, major or minor requirements. Honors students are also encouraged to pursue research-based programs leading to departmental honors.

Freshman admission to Calhoun Honors College requires the submission of an application separate from and in addition to the application for undergraduate admission to Clemson University. In addition to the student’s application, the Honors College requires a copy of the student’s high school transcript and two letters of recommendation, one from a high school guidance counselor and one from a teacher. Admission is highly selective and is based, in part, on the quality of the applicant pool and the availability of space for freshmen in the Honors College.

Currently-enrolled Clemson students may apply for membership if they are full-time degree-seeking undergraduates and have earned a cumulative grade-point average of 3.50 or higher. In general, students must have at least four semesters remaining to complete their degree requirements.

Additional special opportunities for honors students include study programs in Brussels, Belgium; Strasbourg, France, and Berlin, Germany; EUREKA!, a summer research program for entering freshmen, and the Dresden Fellows Program, which promotes cultural and intellectual engagement with leading faculty members. Each of these programs is competitive and requires a separate application.

The Calhoun Honors College is institutionally responsible for nationally competitive fellowships and awards, including Rhodes, Marshall, Truman, Goldwater and Fulbright.

In addition to the intellectual challenge of Honors, advantages of membership include priority course scheduling, honors housing (on a space-available basis), extended library loan privileges, a series of discussion programs, and special lectures and cultural events. Visit www.clemson.edu/cuhonors for more information.

COOPERATIVE EDUCATION PROGRAM
The Cooperative Education Program (Coop) is an academic engaged-learning program and is one of three units which comprise the Center for Career and Professional Development. The program provides students with an opportunity to alternate semesters of academic study with semesters of paid, discipline-specific experience as they work and learn under mentors in their fields of study. Co-op assignments add a contextual dimension to the curriculum and challenge students to think critically and creatively as they engage in problem-solving activities and projects within the work setting. Through this program, companies serve as teaching partners of the University and the co-op experience becomes an integral part of the student’s education. The student’s experience is closely monitored/evaluated by the program’s academic staff throughout his/her participation. Cooperative Education, as the term implies, represents a collaborative effort between the University and participating companies.

Students may qualify for the Cooperative Education Program after satisfactorily completing 30 credit hours of academic coursework and declaring a major. Transfer students may qualify after one semester of coursework at the University. Students normally enter the program as sophomores or juniors and complete from two to five rotations in a co-op assignment. Engineering majors must do a minimum of three rotations to complete the program. Participation in the program is a curricular requirement for some majors, such as Packaging Science. Packaging Science students normally complete two back-to-back co-op rotations during a six-month period.

Students enrolled in the program register for the appropriate co-op course number (e.g. COOP 1010, 1020, etc.) for each rotation and receive a grade of No Pass. Students receive academic recognition on the transcript for each co-op course, although no credit hours are awarded. Students pay a program participation fee each academic term that coincides with a co-op rotation/course. In responding to questions about student status related to health insurance, taxes, loans, etc., the University classifies a student on a co-op rotation as a full-time continuing student.

Additional information is available at http://career.clemson.edu/cooperative_education/ or by calling 864-656-3150. The program shares space with its partner, the Michelin Career Center, located on the third floor of the Hendrix Student Center.

INTERNSHIP PROGRAMS
An internship is a form of experiential learning that integrates classroom knowledge with career-related work experience. Internships can be a vital link between college majors and the exploration of professional opportunities. Students are able to participate in on-campus internships, domestic internships, and international internships. Specific requirements vary depending on the type of internship and a student’s major. Internships are typically offered for a specific period of time during the spring or fall semesters (14-16 weeks) or during the summer (10-14 weeks). Depending on the type of internship, students are strongly advised to begin their searches at least four to eight months in advance. Students are also advised to contact their departments, visit with a career counselor, or attend a workshop at the beginning of each semester in order to determine all available internship opportunities.

Departments/Majors
Internships typically involve a structured project with a professional mentor that relates to a student’s major or career interests. Credit bearing internship courses may be available through a student’s academic college or department. Some majors may also require students to complete an internship as part of the curriculum. Further inquiries about departmental internship requirements should be directed to the specific department.
Center for Career and Professional Development
The Center for Career and Professional Development offers a variety of services to help students identify internship experiences. In addition to providing counseling and resources that aid in the internship search process, the Center also offers part-time and full-time, zero-credit-hour internship courses (which are denoted on students’ academic transcripts). The full-time INT courses allow students to maintain their University enrollment status while interning. Students enrolled in off-campus internships must register for the appropriate course and section number (e.g., INT 2010-001) for each rotation to receive a grade of Pass or No Pass. Students pay a participation fee each academic term that coincides with an internship rotation. Additional information is available at http://career.clemson.edu or by calling 864-656-6000.

UPIC
The University Professional Internship and Co-op (UPIC) Program offers students on-campus professional learning experiences. Students have the opportunity to work with Clemson faculty and staff on Clemson’s main campus, as well as other sites across the state, while receiving an academic internship notation on their transcripts. Enrollments in the appropriate INT course and payment of the corresponding fee is a requirement of the program (e.g. INT 1010-001). In order to be eligible for the program, a student must have completed at least one full semester at Clemson University and be an enrolled and matriculating undergraduate student in good standing. Available internships are typically listed in ClemsonJobLink halfway through the semester prior to the experience. Additional information is available at http://career.clemson.edu or by calling the program office at 864-656-2282.

Clemson Abroad Programs

Through the Clemson Abroad Office, students may choose from a variety of study abroad programs, Clemson faculty-directed programs, and Clemson sponsored exchange programs. Program lengths range from short-term, such as during spring break, to a summer session, to a full semester or year abroad. Programs vary to fulfill the academic and discipline-specific needs of students. There are programs for every academic major at Clemson. Exchange programs are available with top institutions around the world, such as The University of Aberdeen in Scotland; Bond University and University of Newcastle in Australia; and University of Strathclyde in United Kingdom. Programs are available in virtually every country in the world: Argentina, Australia, Belgium, Brazil, Costa Rica, Dominican Republic, France, Germany, Italy, Spain, United Kingdom, and many more.

Both Clemson sponsored programs and exchange programs allow students to enroll and pay fees directly to Clemson while they study abroad. Transfer credit normally applies within the major with prior academic department approval. Financial aid and scholarships also transfer for many of the programs abroad.

International internships and co-op programs are also available. Students should plan early for their study abroad experience. First priority application deadlines are usually in September/October for spring programs, in February/March for fall, academic year, and summer programs. Interested students should contact the Clemson Abroad Office, E-301 Martin Hall, at the beginning of each semester and throughout the academic year to explore opportunities abroad. Additional information is available at www.clemson.edu/studyabroad or by e-mailing abroad@ clemson.edu.

RESERVE OFFICERS TRAINING CORPS

Air Force and Army
The departments of the Air Force and the Army maintain ROTC units at Clemson University. Their mission is to produce officers of high quality for technical and nontechnical careers in the U.S. Air Force and Army. Two-, three-, and four-year programs are available. The four-year program consists of the basic course for freshmen and seniors and the advanced course for juniors and seniors. Scholarships, available to selected ROTC students, pay for tuition, books, and laboratory expenses, in addition to a variable stipend ranging from $300–$500 (depending on their group) per month during the school year. Nonscholarship advanced Cadets also receive a stipend. Basic course credit may be awarded to students having prior military service. Reserve or National Guard duty can be guaranteed by the U.S. Army. Cadets who complete the Advanced Professional Course and satisfy commissioning requirements are appointed Second Lieutenants. Ample opportunities exist for graduate study in both services, with temporary deferments possible.

HONOR ORGANIZATIONS

Clemson University has a number of academic honorary societies that recognize outstanding scholarship by students faculty and staff:

- Alpha Epsilon Delta (Premedical)
- Alpha Lambda Lambda (Graduate Students)
- Alpha Kappa Delta (Sociology)
- Alpha Lamina Delta (Freshmen)
- Alpha Pi Mu (Industrial Engineering)
- Alpha Zeta (Agriculture)
- Beta Alpha Psi (Accounting and Financial Management)
- Beta Gamma Sigma (Business)
- Beta Key (Juniors and Seniors)
- Calhoun Honors Society (Honors College)
- Chi Epsilon (Civil Engineering)
- Eta Kappa Nu (Electrical and Computer Engineering)
- Eta Sigma Gamma (Health Education)
- Gamma Epsilon Tau (Graphic Communications)
- Golden Key National Honor Society (Juniors/Seniors)
- Kappa Delta Phi (Education)
- Keramos (Ceramic and Materials Engineering)
- Lambda Pi Eta (Communication Studies)
- Mortar Board (Seniors)
- Mu Beta Psi (Music)
- Mu Kappa Tau (Marketing)
- Omicron Delta Epsilon (Economics)
- Omicron Delta Kappa (Leadership)
- Order of Omega (Seniors)
- Phi Beta Kappa
- Phi Kappa Phi
- Phi Psi (Textiles)
- Phi Sigma Pi (Honorary)
- Pi Delta Phi (French)
- Pi Sigma Alpha (Political Science)
- Pi Tau Sigma (Mechanical Engineering)
- Psi Chi (Psychology)
- Sigma Tau Delta (English)
- Tau Beta Pi (Engineering)
- Tau Sigma Delta
- Upsilon Pi Epsilon (Computer Science)
- Xi Sigma Pi (Forestry)

Clemson University Experiment Station

The Clemson University Experiment Station is part of a nationwide system of scientists working to improve the quality of life for people in their home states, the nation, and the world. Both undergraduate and graduate students work with researchers to develop science-based information needed to address issues such as agricultural productivity and profitability, economic and community development, environmental conservation, food safety and nutrition and youth development. Clemson scientists have been involved in agricultural and forestry research since the University was founded in 1889. Today research is conducted in state-of-the-art laboratories, on farms and forests on Clemson’s campus, and at five research and education centers strategically located in the states’ distinct soil and climate regions.

Clemson researchers collaborate with colleagues on studies that span the globe. These include the genetic structure and functions for plants and animals, the impact of urban sprawl on the environment, techniques to reduce bullying in schools, the active ingredients in medicinal plants, and the use of nanotechnology in food packaging to detect contamination. Their work has produced more than 100 new varieties of food and fiber crops and more than 40 patents. Each year work is conducted on more than 150 projects funded through federal, state and private sources, including the U.S. Department of Agriculture, the U.S. Forest Service, the National Science Foundation, the South Carolina General Assembly, and corporate partners.

Clemson University Foundation

The Clemson University Foundation is a nonprofit organization that solicits, manages, and administers gifts from private sources for academic programs at Clemson University.

Chartered in 1933, the foundation is a primary component of the Advancement Division of the University. There are 41 elected members of the Board of Directors. Currently, 40 of those are Clemson alumni. The board also includes seven automatic directors; 16 ex officio directors, including a graduate and an undergraduate student representative; and 11 honorary directors.

The foundation operates through committees that report via an executive committee to the full board. These include the Audit, Finance, Development, Human Resources, Investment, Nominations, and Policy and Constitution Committees. Fund raising is in concert with the University and through the Development Committee and, as is currently the case, a Campaign Executive Committee. This includes solicitation of annual, major, planned, corporate and foundation gifts in support of University priorities and coordination of college-based fundraising initiatives. Organizations affiliated with the Foundation include the Clemson University Continuing Education/Conference Complex Corporation, the Clemson University Land Stewardship Foundation, the
Clemson University Real Estate Foundation, and the Wallace F. Pate Foundation for Environmental Research and Education. As of June 30, 2014, the Clemson University foundation managed over 1,700 endowments. As of December 31, 2014, the combined CUF-CU Endowment totaled approximately $616 million.

CLEMSON ALUMNI ASSOCIATION
The Clemson Alumni Association’s action phrase is “Your Lifelong Connection to Clemson.” Its mission is to serve, to inform, to involve. The Alumni Association works for the more than 112,000 alumni located around the world, sponsoring programs to provide a link between students of yesterday, today, and tomorrow.

In conjunction with volunteers and traveling University staff, Clemson Clubs and Clemson activities are conducted around the world. Alumni are kept informed through the award-winning Clemson World magazine and at alumni.clemson.edu. Students, alumni, and constituency programs, as well as publications and electronic resources, form the basis for an array of services offered to alumni, students, parents, and friends of the University.

All services of the Alumni Association are coordinated out of the Alumni Center, a campus focal point built, furnished, and equipped entirely by gifts from alumni specifically for that purpose. The University Visitors Center, a gift of the Class of 1944, is adjacent to the Alumni Center and is an excellent stop for anyone visiting or returning to campus.

Alumni-sponsored awards programs, such as the Distinguished Service Award, Alumni Fellows, professorships, scholarships, and awards for outstanding teaching, research, and public service, are among the prestigious awards given by the Clemson Alumni Association.

Alumni employees coordinate the Alumni Career Services program and the activities of the open-membership student organization, Student Alumni Association. From the Welcome Back Festival held each August to the Senior Picnic held each April, the Alumni Association provides a lifelong connection to Clemson.

CAMPUS VISITS AND TOURS
One of the best ways to discover all Clemson has to offer is through a visit to the campus. The Class of 1944 Visitors Center helps host the Clemson experience of prospective students. Information, audio-visuals, and tours are all easily accessible. The Visitors Center is located just off of Highway 93 adjacent to the Alumni Center. Regular hours of operation are Monday–Friday, 8:00 a.m.–4:30 p.m.; Saturday, 9:00 a.m.–4:30 p.m.; and Sunday, 1:00–4:30 p.m. Hours vary according to the academic calendar, university holidays, and the home football schedule. Tours are conducted rain or shine, last about two hours, and include an information segment at the beginning. Reservations are required and can be arranged online at www.clemson.edu/visitors/index.html or by calling 864-656-4789.
ADMISSION
Complete Admission information is available at www.clemson.edu/admission.

APPLICATION INFORMATION
Applicants should apply online at www.clemson.edu. Freshman candidates are especially encouraged to sit for the SAT or ACT, including the writing test, during the spring semester of their junior year.

Applicants should understand that admission is closed when all classroom space has been committed. The majority of freshman admission decisions are communicated during the middle of February. Transfer students seeking entrance in August are usually notified between February and July. Applicants must pay a nonrefundable application fee. This fee is not applicable toward tuition and/or other University fees.

FRESHMEN
Admission to the University is competitive and is based primarily upon high school curriculum, grades, class standing, and SAT or ACT scores. An applicant’s intended major and state residency may receive consideration. To apply for admission, a candidate must submit an official high school transcript through his/her counselor and have results of the SAT or ACT sent directly from the testing agency. In addition, all applicants for freshman admission should complete the following courses in high school:

English—4 credits
All four courses must have strong grammar and composition components, with at least one in English literature and at least one in American literature. College preparatory English I, II, III, and IV will meet these requirements.

Mathematics—3 credits
These include algebra I (for which applied mathematics I and II may count together as a substitute if a student successfully completes algebra II), algebra II, and geometry.

Laboratory Science—3 credits
Two must be selected from biology I, chemistry I, or physics I.

Foreign Language—3 credits
All three must be earned in the same language.

Social Sciences—3 credits
American history is required. One-half credit of government and one-half credit of economics are also recommended.

Fine Arts—1 credit

Physical Education/ROTC—1 credit

Other—2 credits
One of these must be a fourth year of mathematics, laboratory science, or foreign language. Students interested in engineering are strongly encouraged to take a fourth year of mathematics. This course should be selected from precalculus, calculus, statistics, or discrete mathematics. The second credit must be in advanced mathematics, computer science, or a combination of these, or one unit of world history, world geography, or western civilization.

The SAT or ACT examination scores, rank in class, and academic preparation will be weighed carefully in the decision-making process. The applicant’s acceptance will be confirmed upon presentation of a final high school transcript indicating continued academic progress and graduation.

TRANSFER STUDENTS
Students should have official transcript(s) sent directly to Clemson’s Admissions Office from the registrar of each college or university where credit has been earned. A transcript that states “Issued to Student” is considered unofficial. Unless so stated on the transcript, the applicant should also present statements of honorable dismissal and of eligibility to return to the institution last attended. Transfer admission is moderately competitive. To increase their chances for admission, applicants should have the following qualifications:

• Completion of a year of college study after high school graduation with 30 semester hours (or 45 quarter hours) of transferable credit
• A minimum 2.5 grade-point average (3.0 preferred).

Note: Majors such as Communication Studies; Construction Science and Management; General Engineering; Health Sciences; Landscape Architecture; Nursing; Parks, Recreation, and Tourism Management; Production Studies in Performing Arts; Visual Arts; Early Childhood Education; Elementary Education; Special Education; and some of the Secondary Education majors may have more selective admission standards. Students interested in these majors are encouraged to apply early and contact the Office of Admissions for current admission requirements.

• Freshman-level math, science, and English requirements for the intended major at Clemson
• Applicant must be in good standing and eligible to return to the institution last attended

Application deadlines are December 1 for consideration for the spring semester and July 1 for consideration for the fall semester. In most cases, admission decisions will be made once the year of college study is completed. Summer school applicants should have all credentials sent at least two weeks prior to the beginning of the term. Admission is closed when all classroom space has been committed.

Information regarding transfer from a South Carolina technical college is contained in the brochure Advanced Standing, available through the Office of Admissions at the address below. Prospective transfer students are also encouraged to refer to the University’s website at www.clemson.edu or the South Carolina Commission on Higher Education’s website at www.che400.state.sc.us.

Students who are unsure to which South Carolina college or university they would like to transfer after their initial coursework at a South Carolina technical college may follow the transfer block system. These transfer blocks are posted at www.clemson.edu/admissions/undergraduate/transferring-credits/equivalency.html. Depending on the student’s chosen major, some courses may not be applicable toward a Clemson degree. Contact the Office of Admissions for information.

Transfer Credit
Coursework completed with a grade of C or better at other regionally accredited institutions, including correspondence courses, telecourses, on-line courses, and exempted courses, will be evaluated for transfer credit. This does not guarantee that all courses taken at other institutions will be accepted for transfer. The acceptability of each course or exemption will be determined through an evaluation by the Office of Admissions, and will be based on content, level, comparability to Clemson courses, and applicability to Clemson degree requirements. Transfer courses are evaluated as a direct Clemson equivalent, elective credit, or not college transferable credit. Subject area electives are listed on the transfer course summary as 1999, 2999, 3999 or 4999. Courses that do not have direct Clemson equivalencies may possibly be substituted for required courses in a degree program with approval of the student’s major advisor. Questions about how a course has been evaluated should be directed to the department responsible for teaching the course. If a course does not have a direct Clemson equivalency, the following abbreviations are used: NCT 0001 (Not College Transferable), ELEC 0001 (free elective credit), and 1999, 2999, 3999 or 4999 (subject area elective). To view a listing of how courses have been evaluated previously, visit the Transfer Course Equivalency List at http://virtual.clemson.edu/groups/tcel. Coursework earned at different institutions will not be joined to equate with one Clemson course. No course taken at a nonbaccalaureate-degree granting institution may be used as an equivalent or substitute for any 3000- or 4000-level Clemson course. Students must submit a registrar’s explanation stating that a grade of P or S is equivalent to a C or better before transfer credit may be awarded.

Learning experiences including, but not limited to, military service schools, non-collegiate sponsored instruction, work-related experiences, etc., will not be evaluated for transfer; however, enrolled students may request credit by examination from the appropriate department for any non-transferable learning experience. For additional information, see Advanced Placement and Credit by Examination on page 27.
Students transferring may select the curriculum that was outlined in the Clemson University Undergraduate Announcements at the time they entered the sending institution, provided they have been in continuous enrollment. Further, transfer students may select any curriculum adopted subsequent to that initial curriculum. After enrolling at Clemson, if a transfer student changes from one major to another, the student will complete all of the requirements included in the new curriculum that are in effect at the time of the change. If all coursework toward a degree is not completed within six years after the initial enrollment at the sending institution, the student may be required to complete additional courses.

For students taking the calculus sequence, MATH 1060 and 1080, a score of 4 or 5 on the HL Mathematics examination earns placement in MATH 1080. Upon completion of MATH 1080 with a grade of C or better, credit will be given for MATH 1060. For students taking the MATH 1020 and 2070 calculus sequence, a score of 4 or 5 on the HL Mathematics examination earns placement in MATH 2070. Upon completion of MATH 2070 with a grade of C or better, credit will be given for MATH 1020. If the student does not enroll in MATH 1080 or 2070, or does not pass the sequential class (MATH 2070 or 1080) with a grade of C or higher, three credits of elective (ELEC 0001) will be awarded for a score of 4 or 5 on the Mathematics HL exam.

A score of 6 or 7 on the HL Mathematics examination earns credit for either MATH 1020 or 1060 but not both. Credit is awarded for a score of 4 or 5 on the Mathematics HL exam if the student does not enroll in MATH 1080 or 2070 or does not pass the sequential class (MATH 2070 or 1080) with a C or higher.

1For students taking the calculus sequence, MATH 1060 and 1080, a score of 4 or 5 on the HL Mathematics examination earns placement in MATH 1080. Upon completion of MATH 1080 with a grade of C or better, credit will be given for MATH 1060. For students taking the MATH 1020 and 2070 calculus sequence, a score of 4 or 5 on the HL Mathematics examination earns placement in MATH 2070. Upon completion of MATH 2070 with a grade of C or better, credit will be given for MATH 1020. If the student does not enroll in MATH 1080 or 2070, or does not pass the sequential class (MATH 2070 or 1080) with a grade of C or higher, three credits of elective (ELEC 0001) will be awarded for a score of 4 or 5 on the Mathematics HL exam.

2A score of 6 or 7 on the HL Mathematics examination earns credit for either MATH 1020 or 1060 but not both. Credit is awarded for a score of 4 or 5 on the Mathematics HL exam if the student does not enroll in MATH 1080 or 2070 or does not pass the sequential class (MATH 2070 or 1080) with a C or higher.

3Courses determined on an individual basis. See department.

4ENGL 1999 is an English elective credit.

International Baccalaureate (IB) Credit Policy

Clemson University endorses the International Baccalaureate (IB) Program and awards credit for IB Higher Level scores as indicated below.

College Board Advanced Placement Program

DUAL ENROLLMENT

Dual enrollment courses enable high school students to take college-level courses and earn college credit before graduating from high school. Students should have official transcript(s) sent directly to Clemson’s Admissions Office from the registrar of each college or university where credit was earned. A transcript that states “Issued to Student” is considered unofficial. Courses that have previously been evaluated are listed on the Transfer Course Equivalency List (TCEL) at virtual.clemson.edu/groups/tcel. If a student has taken a course not listed on the TCEL, the course will be evaluated by the Office of Admissions once the student has been accepted by Clemson. Students will be notified by letter of the credit they will receive at Clemson before they enroll in the fall.

Dual Enrollment

Mathematics Placement—All new freshman and transfer students are required to complete the Clemson Mathematics Placement Test (CMPT). Placement in a mathematics course is determined by each student’s CMPT score. Failure to complete the CMPT satisfactorily will result in placement in preparatory work that, in most cases, will not apply toward the general education mathematics requirement. Placement will be adjusted as appropriate after AP and IB scores or credits for previous mathematics courses have been received by Clemson.
Foreign Language Placement—The Department of Languages offers placement tests that students are required to take during summer orientation. Any student who has had at least one year of a foreign language and who decides to continue with the same language at Clemson, must take one of these tests. Applicants desiring advanced placement in a foreign language may take the College Board’s SAT Subject Test, Advanced Placement (AP) Examinations, or the International Baccalaureate (IB) Higher Level Examination. SAT Subject Test scores of 450 or higher enable students to exempt one or more language courses. These students will receive credit following the successful completion (grade of C or better) of a qualifying course at Clemson.

GED Candidates submitting General Educational Development (GED) credentials in lieu of a high school diploma must be 19 years of age or older. Official GED score results must be received directly from the General Educational Development Testing Service along with an official copy of the high school transcript and SAT or ACT scores. Applicants presenting the GED will be reviewed by the Undergraduate Admissions Committee.

Appeals Any freshman or transfer candidate who is denied admission may appeal for reconsideration provided the student (1) presents new information, such as improved grades and/or class rank, improved SAT or ACT scores; and (2) submits an on-line appeal form outlining the rationale for the appeal. All appeals will be reviewed by the Office of Admissions and referred to the Undergraduate Admissions Committee.

Freshman students who are accepted and enrolled in Clemson University in a conditional admissions program through the appeals process must meet the conditions of their admission or be subject to disenrollment.

Admission Exceptions If it is not possible to make a positive decision on the basis of previous academic performance and SAT or ACT scores, other factors, such as special talents or high school profile, may be considered. Where appropriate, the Office of Admissions will refer such cases to the Undergraduate Admissions Committee. Student athletes who do not meet regular admissions standards may be admitted if they meet Atlantic Coast Conference (ACC) and National Collegiate Athletic Association (NCAA) eligibility requirements.

College Board College-Level Examination Program (CLEP) CLEP is designed primarily for adults with nontraditional learning experiences. This program has very limited recognition at Clemson. A few departments accept credit for CLEP subject-matter examinations; however, CLEP General Examinations are not recognized. Credit is awarded for introductory-level courses according to criteria established by the following departments: Chemistry, English (composition only). Numerical scores plus essays, required when offered as part of a CLEP examination, will be evaluated by the appropriate department.

ADMISSION DEPOSIT All accepted freshman and transfer candidates for fall semester are required to submit a nonrefundable $200 admission deposit. This deposit is applicable toward tuition and other University fees and may be paid by credit card.

HOUSING All freshmen who are under the age of 21 at the time of enrollment, who do not live with parent/guardian(s) within a 50-mile radius of campus, are required to live in University housing for the fall and spring semesters.

For the purpose of this agreement, transfer students are not considered freshmen. Transfer students are housed on a space available basis.

*Students who earn a score of 3 or 4 should register for ENGL 1030.

*Students who earn a score of 2 on the Calculus BC examination, but earn a score of 3 (or better) on the AB subscore of the BC examination, may receive credit for MATH 1060.

*Students enrolling in a degree program requiring calculus-based physics (PHYS 1220, 1240, 2210, 2220, 2230, 2240), who earns a grade of 5 on Physics B, will be asked to meet with a departmental representative for further evaluation and placement counseling.

*ELEC 0001 is a transfer elective credit

*ENGL 1999 is English elective credit
ORIENTATION PROGRAMS
The University offers a series of orientation programs during the summer for freshmen and transfer students and their parents/guests. All accepted students are required to attend one of the sessions. During orientation, students will have an opportunity to discuss their educational objectives with an advisor, to register for the fall semester, and to learn about student life and other co-curricular activities. All new students will register for their first semester at Clemson during orientation. For more information about the orientation programs fee structure, visit www.clemson.edu/orientation.

International students are expected to attend an additional session, which is conducted by the International Services office. Additional information is available at www.clemson.edu/administration/iu/services or by emailing iu@clemson.edu.

INTERNATIONAL UNDERGRADUATES
Admission services for undergraduate international students are provided by the Office of Admissions. International students who come from abroad or transfer from another school must meet academic, language, and financial qualifications as determined by Clemson University. Transcripts, mark sheets, and academic records must be verified by a certified U.S. educational consultant agency. Prospective transfer students must provide translated course descriptions for coursework to be evaluated for Clemson academic credit. The SAT or ACT is required of all international applicants (freshman or transfer). The Test of English as a Foreign Language (TOEFL) is required of applicants from countries where English is not the native language. Financial qualifications are determined by the submission of a financial certification form and bank statements verifying adequate funding. The International Services office provides visa enabling documents and advising services. For more information, visit http://www.clemson.edu/admissions/undergraduate/index.html. For International Student Procedures and Requirements, visit http://www.clemson.edu/admissions/undergraduate/requirements/international.html.

SPECIAL STUDENT STATUS
Special students can enroll in a limited number of undergraduate credit hours and are classified with a non-degree status. Examples of special students include: high school students wishing to dual enroll in preapproved courses, individuals wishing to take courses for personal enjoyment and professional development, and individuals needing prerequisites for professional schools. Students interested in graduate studies at Clemson who need undergraduate prerequisites should apply non-degree through the Clemson Graduate School.

The special student status is not a "trial admission" status and students who have been denied regular admission are not eligible.

The number of undergraduate credit hours taken in this status may vary by program, but no more than 18 semester hours will be allowed. Once the credit hour limit has been reached, the student must apply to a degree seeking program if he wishes to take additional courses. Applicants should apply online at www.clemson.edu and supporting documents may be required if needed. Financial aid is not available.

READMISSION OF FORMER UNDERGRADUATES
Undergraduate students (not special or transient students) who have previously attended Clemson, and are not currently enrolled in the current term and wish to return, must apply online at http://www.registrar.clemson.edu/html/formerStu.html. The Undergraduate Application for Re-Admission fee is $25.00 and online instructions for payment are provided in the application. Acceptance letters and registration materials are e-mailed to returning students at the e-mail address provided on the application once the student has been re-admitted. Students who have graduated from Clemson applying for former students returning have assigned a program of "Non-Degree Seeking Undergraduate". These students must complete the Change of Program form through the Office of Enrolled Student Services located in 104 Sikes Hall. Students who have not graduated from Clemson applying as former students returning to continue their undergraduate studies are readmitted into their previous major, but under the catalog year during which they are readmitted. Students with senior status—90+ hours—are readmitted into their previous major and the catalog year during which they last attended the University. If a student’s previous major has been discontinued, the student is assigned a program of "Non-Degree Seeking Undergraduate" and must complete a Change of Program form and select a degree-granting program. Students are required to satisfy the University’s general education requirements in addition to curricular requirements. Any variations in curricular requirements will be considered under the substitution procedures. If all work toward a degree is not completed within six years after entrance, the student may be required to take additional courses. Other information can be obtained from the Registrar’s Office.

Any student who is classified as an in-state student for tuition and fees purposes must reaffirm his or her resident status upon application for readmission to the University. If the resident status of an individual changes, that student will be classified as out-of-state for tuition and fees purposes upon readmission to the University. If the resident status is not immediately clear, the student may be required to submit an application for resident status to the Office of Residency Classification.

ILLEGAL IMMIGRATION REFORM ACT PROCESS
Section 59-101-430 of the South Carolina Code of Laws states:

“(A) An alien unlawfully present in the United States is not eligible to attend a public institution of higher learning in this State, as defined in Section 59-103-5. The trustees of a public institution of higher learning in this State shall develop and institute a process by which lawful presence in the United States is verified. In doing so, institution personnel shall not attempt to independently verify the immigration status of any alien, but shall verify any alien’s immigration status with the federal government pursuant to 8 U.S.C. Section 1373 (c).

(B) An alien unlawfully present in the United States is not eligible on the basis of residence for a public higher education benefit including, but not limited to, scholarships, financial aid, grants, or resident tuition.”

In accordance with section 59-101-430 of the SC Code of Laws, also known as the South Carolina Illegal Immigration Reform Act, the Clemson University Board of Trustees hereby institutes the following process:

I. PROCESS
All applicants to Clemson University are required to verify on their application whether they are a U.S. citizen, Permanent Legal Resident or will be lawfully present in the United States at the time of enrollment on some other grounds. Enrollment at Clemson University for both undergraduate and graduate students is conditioned upon verification of lawful presence in the United States.

South Carolina Code of Law section 59-101-430 prohibits Clemson University from independently verifying the status of any legal alien. An alien’s status must be verified with the federal government. Therefore, Clemson University will use either the Student and Exchange Visitor Program (SEVIS), a Web-based technology that tracks and monitors schools and programs, students, exchange visitors and their dependents throughout the duration of approved participation with the U.S. education system, or the Systematic Alien Verification for Entitlements (SAVE) program, Homeland Security’s online system of alien status determination or any federal source of information about lawful alien presence that becomes available to Clemson University.

The Board of Trustees delegates responsibility for administering the details of this process to the Provost and the Office of Academic Affairs.
FINANCIAL INFORMATION

The annual State Appropriation Act imposes the general requirement that student fees be fixed by the University Board of Trustees. The act imposes two specific requirements on the board: (1) In fixing fees applicable to academic and general maintenance and operation costs, the board must maintain a minimum student fee not less than the fee charged the previous year. (2) In fixing fees applicable to residence hall rental, dining halls, laundry, infirmary, and all other personal subsistence expenses, the Board must charge students an amount sufficient to cover fully the cost of providing such facilities and services.

The tuition and fees for all students—full or part time and auditing—are available at www.clemson.edu/cfo/student_financials/. Satisfactory settlement of all expenses is a requirement for completing each semester’s class registration, and no student is officially enrolled until all past due accounts have been satisfied. Financial aid cannot be used to satisfy balances forward from a prior academic year.

Currently enrolled students who expect to continue enrollment may make housing reservations by preregistering on-line during the spring semester at a time designated by the Housing Office. New students who are offered on-campus housing accommodations must pay a nonrefundable $100 housing application fee and a $200 admission deposit. The admissions deposit is deducted from the amount otherwise due for the first semester expenses. (Note: Policies regarding priority to offering of on-campus housing are subject to change.)

All College of Business and Behavioral Science majors, and other non-majors taking 3000- and 4000-level courses offered by the college, are required to pay a differential fee to fund significant infrastructure and program enhancements. Additional information about this fee is available at business.clemson.edu/special/enhanced/enhanced_fees.htm.

TUITION AND FEES

Detailed tuition and fee information is available at www.clemson.edu/cfo/student_financials/. Note: A late payment fee will be assessed if fees are not satisfied by published deadlines.

Full-Time Fees

Students must be enrolled in 12 semester hours to pay full-time fees. Students enrolled in less than 12 hours or who drop below 12 hours may become ineligible for some student services, financial aid, or other programs.

Part-Time Fees

Students taking less than 12 semester credit hours will be charged according to the schedule at www.clemson.edu/cfo/student_financials/. These fees do not provide for admission to athletic events, concert series, and other such activities.

Notice to Customers Making Payment by Check

If a check is mailed for payment, it may be converted into an electronic funds transfer (EFT). This means a copy of the check will be made and the account information will be used to debit the bank account electronically for the amount of the check. The debit from the bank account will usually occur within 24 hours and will be shown on the drawer’s bank account statement. The original check will not be returned to the drawer. It will be destroyed, but Student Financial Services will retain a copy of it. If the EFT cannot be processed for technical reasons, the drawer authorizes the University to process the copy in place of the original check. If the EFT cannot be completed due to insufficient funds, the University may try twice more to make the transfer. A returned item fee of $30 will be charged and collected by EFT.

Returned Checks, EFTs, and Credit Card Payments

A check, EFT, or credit card given in payment of University expenses that is returned unpaid by the bank creates an indebtedness to the University. Student Financial Services will re-present returned items for payment of academic fees. A $30 fee will be charged for each returned item. If a check is returned or dishonored for any reason, the student’s account may be debited electronically for the amount of the check plus the $30 returned item fee.

If the item is returned to the University in a timely manner with no response from the student or drawer, a written request to disenroll the student will be made to the Registrar. If the request is approved, the percentage of refund will be applied to the debt. If the item is returned after the mid-point of the semester with no response, a decision will be made by the Director of Student Financial Services and the Registrar as to the effect of disenrollment.

Any individual who uses a two-party check for payment of University expenses will be held responsible for that check if it is returned unpaid by the bank. Items used as payment for various University services such as meal plans, housing, etc., that are later returned unpaid by the bank, give the University the right to cancel such services and cause forfeiture of any refund.

Any returned items not collected by the above procedures may be turned over to a collection agency, the indebtedness reported to a credit bureau and collection fees will be added to the account. Transcripts and diplomas will be withheld pending payment, and the debt may be deducted from state income tax refunds. Abuse of check payment privileges may result in the restriction of such privileges for an indefinite period of time based on the frequency and/or dollar amount, as determined by Student Financial Services.

Past Due Accounts

Any indebtedness to the University that becomes past due, immediately jeopardizes the student’s enrollment, and no such student will be permitted to re-enroll for an ensuing semester or summer term. Billing fees and/or collection fees may be added to the indebtedness. Further, any student who fails to pay all indebtedness, including collection fees, to the University may not be issued a transcript or diploma. Unresolved debts may be turned over to a collection agency, reported to a credit bureau, and deducted from state income tax refunds. Debts include, but are not limited to, parking violations, library fines, rent, and academic fees.

Refund of Academic Fees

(Tuition, University Fee, and Health Fee) for Students Withdrawing, Dropping to Part Time, or Part-Time Students Dropping Credit Hours

No refunds will be made on a semester’s tuition and fees after four weeks from the last day to register. In the case of a withdrawal from the University, refunds will be based on the effective date of the withdrawal. In the case of a withdrawal from a course, refunds will be based on the date the student drops the course using the on-line registration system. To be eligible for a refund, the student’s request must be received by Student Financial Services prior to the beginning of the next fall/spring semester or subsequent summer term. Beginning with the day following the last day to register, refunds for periods of four weeks or less during fall/spring semester shall be made on the following basis. Students receiving Title IV Financial Aid follow a different policy.

Refund of Dining Hall Fees

See the section on Dining on page 23.
Cancellations of the Housing Contract for All New Students

Cancellation of the Contract Prior to May 15, 2015

Students who sign contracts after May 15, 2015 are subject to all cancellation procedures and charges outlined below.

New freshman may only use this option if commuting from home (living with parent/guardian(s)) and only within a 50-mile radius of campus.

Cancellation of the Contract After May 15, 2015

The contract may be terminated after May 15, 2015 for the following reasons: withdrawal from school; marriage (no more than four weeks prior to the wedding date); or, circumstances determined by the University to be sufficiently extenuating as to warrant cancellation (documentary evidence will be required).

Appeals Committee
Please visit the Housing & Dining website and follow the navigation to the Appeals Process for forms and instructions.

Continuing students have the option to cancel their electronically signed contract within 72 hours of receiving their assignment notification.

Appeals Committee
Students are encouraged first to contact the Assignments Office with concerns regarding the contract cancellation process. If the concerns are not resolved satisfactorily, the student is encouraged to submit such concerns to the Appeals Committee.

Proper Notice of Cancellation Request
Students who desire to request cancellation of this contract must contact University Housing at 864-656-2295 or clemsonhome@clemson.edu for instructions.

Refunds of Financial Aid for Students Withdrawal from the University

Refunds of academic fees are made in accordance with semester and summer session refund policies. University housing refunds are made according to the policy above. Meal plan refunds are made on a pro rata basis.

Since financial aid is expected to meet or help meet educational costs, any academic fee, housing, or meal plan fee for students withdrawing from the University up to the amount of financial aid received for that semester or summer session, will be refunded to the Financial Aid Program(s) from which the student received assistance.

Students receiving Title IV Funds (Federal Pell Grant, Federal SEOG, Federal Perkins, Federal Direct Loans—unsub or sub) or Federal PLUS Loans who withdraw from the University are subject to the Return of Title IV Funds regulations. Students with funds from any of these programs earn their financial aid dollars while enrolled. If a student withdraws prior to completing more than 60% of a term, a prorated portion of the federal financial aid dollars must be considered unearned and returned to the federal programs and could cause students to owe the University a significant amount upon withdrawal.

In addition to the amount of federal aid that Clemson must return, students who received financial aid for other educational costs, including off-campus living expenses, may be required to repay a portion of these funds to the federal programs. Failure to return aid owed to the federal aid programs may result in loss of eligibility for federal aid assistance.

Federal aid funds to be returned are distributed to the programs in the following order:

- Unsubsidized Federal Direct Loan
- Subsidized Federal Direct Loan
- Federal Perkins Loan
- Federal PLUS Loan
- Federal Pell Grant
- Federal SEOG
- Other Title IV Programs
- Non-Title IV Programs

After the refund has been applied to the Title IV and non-TITLE IV programs, any refund balance will be refunded to the student.

If debts were incurred before withdrawing, such as bad checks, unpaid traffic or library fines, etc., the refund will cover these obligations first. Academic fees, housing, and meal plan refunds for students withdrawing will be paid to the student.

RESIDENT TUTION AND FEES

Application for Resident Status

Any undergraduate student or prospective student whose status concerning entitlement to payment of in-state tuition and fees is uncertain has the responsibility of securing a ruling from the University by providing all relevant information on special application forms. These forms can be obtained online, and must be completed and returned to that office prior to the first day of class for any semester or summer session in which the student is attempting to qualify for payment of the in-state tuition and fee rate. For more information, visit clemson.edu/financialaid/resident/index.html.

Entitlement

Eligibility for payment of in-state tuition and fees shall be determined under the provisions of Sections 59-112-10 through 59-112-100, South Carolina Code of Laws, 1976, as amended. This law is set forth in its entirety as follows (subject to further amendment by the General Assembly).

Statutes

59-112-10—Definitions. As used in this chapter:
A. The words “State Institution” shall mean those post-secondary educational institutions under the jurisdiction of the following: (1) Board of Trustees, Clemson University; (2) Board of Trustees, Medical University of South Carolina; (3) Board of Trustees, South Carolina State College; (4) State College Board of Trustees; (5) Board of Visitors, The Citadel; (6) Board of Trustees, University of South Carolina; (7) Board of Trustees, Winthrop University; and (8) State Board of Technical and Comprehensive Education.

B. The word “student” shall mean any person enrolled for studies in any State institution.

C. The word “residence” or “reside” shall mean continuous and permanent physical presence within this State, provided, that temporary absences for short periods of time shall not affect the establishment of a residence.

D. The word “domicile” shall mean a person’s true, fixed, principal residence and place of habitation; it shall indicate the place where such person intends to remain, and to which such person expects to return upon leaving without establishing a new domicile in another state. For purposes of this section one may have only one legal domicile; one is presumed to abandon automatically an old domicile upon establishing a new one. Housing provided on an academic session basis for students at State institutions shall be presumed not to be a place of principal residence, as residency in such housing is by nature temporary.

E. The words “in-state rates” shall mean charges for tuition and fees established by State Institutions for persons who are domiciled in South Carolina in accordance with this act; the words “out-of-state rates” shall mean charges for tuition and fees established by other educational institutions for persons who are not domiciled in South Carolina in accordance with this act.

F. The words “independent person” shall mean a person in his majority, or an emancipated minor, whose predominant source of income is his own earnings or income from employment, investments, or payments from trusts, grants, scholarships, loans, or payments of alimony or separate maintenance made pursuant to court order.

G. The words “dependent” or “dependent person” mean: (1) one whose financial support is provided not through his own earnings or entitlements, but whose predominant source of income or support is payments from a parent, spouse, or guardian, and who qualifies as a dependent or an exemption on the federal tax return of the parent, spouse, or guardian; or (2) one for whom payments are made, under court order, for child support and the cost of his college education by an independent person meeting the provisions of Section 59-112-20 A or B. However, the words “dependent” or “dependent person” do not include a spouse or former spouse who is the recipient of alimony or separate maintenance payments made pursuant to court order.

H. The word “minor” shall mean a person who has not attained the age of eighteen years; and the words “emancipated minor” shall mean a minor whose parents have entirely surrendered the right to the care, custody and earnings of such minor and are no longer under any legal obligation to support or maintain such minor.

I. The word “parent” shall mean a person’s natural or adoptive father or mother; or, if one parent has custody of the child, the parent having custody; or if there is a guardian or other legal custodian of such person, then such guardian or legal custodian; provided, however, that where circumstances indicate that such guardianship or custodianship was created primarily for the purpose of conferring South Carolina domicile for tuition and fee purposes on such child or dependent person, it shall not be given such effect.

J. The word “spouse” shall mean the husband or wife of a married person.
59-112-20—South Carolina Domicile Defined for Purposes of Rates of Tuition and Fees. South Carolina domicile for tuition and fee purposes shall be established as follows in determinations of rates of tuition and fees to be paid by students entering or attending State Institutions:

A. Independent persons who reside in and have been domiciled in South Carolina for a period of at least twelve months with an intention of making a permanent home therein, and their dependents, may be considered eligible for in-state rates.

B. Independent persons who reside in and have been domiciled in South Carolina for fewer than twelve months but who have full-time employment in the State, and their dependents, may be considered eligible for in-state rates for as long as such independent person is employed on a full-time basis in the State.

C. Where an independent person meeting the provisions of Section 59-112-20 B above, is living apart from his spouse, or where such person and his spouse are separated or divorced, the spouse and dependents of such independent person shall have domiciliary status for tuition and fee purposes only under the following circumstances: (1) if the spouse requesting domiciliary status for tuition and fee purposes remains domiciled in South Carolina although living apart or separated from his or her employed spouse, (2) if the dependent requesting domiciliary status for tuition and fee purposes is under the legal custody of a guardian.

D. The residence and domicile of a dependent minor shall be presumed to be that of the parent of such dependent minor.

59-112-30—Effect of Change of Residency. When the domicile of a student or of the person upon whom a student is dependent changes after enrollment at a State Institution, tuition charges shall be adjusted as follows:

A. Except as provided in Section 59-112-20B above, when domicile is taken in South Carolina, a student shall not become eligible for in-state rates until the beginning of the next academic session after expiration of twelve months from date of domicile in this State.

B. When South Carolina domicile is lost, eligibility for in-state rates shall end on the last day of the academic session in which the loss occurs; however, application of this subsection shall be at the discretion of the institution involved.

C. Notwithstanding the other provisions of this section, any dependent person who has been domiciled with his family in South Carolina for a period of not less than three years immediately prior to his enrollment may enroll in a state-supported institution of higher learning at the in-state rate and may continue to be enrolled at such rate even if the parent, spouse, or guardian upon whom he is dependent moves his domicile from this State.

59-112-40—Effect of Marriage. Except as provided in Section 59-112-20 above, marriage shall affect determinations of domicile for tuition and fee purposes only insofar as it operates to evince an intention by the parties to make a permanent home in South Carolina.

59-112-50—Military Personnel and Their Dependents. Notwithstanding other provisions of this act, during the period of their assignment to duty in South Carolina members of the armed services of the United States stationed in South Carolina and their dependents may be considered eligible for in-state rates. When such armed service personnel are ordered away from the State, their dependents may continue for an additional twelve months to have this eligibility at the State Institutions where they are enrolled at the time such assignment ends. Such persons and their dependents may be considered eligible for in-state rates for a period of twelve months after their discharge from the armed services even though they were not enrolled at a State Institution at the time of their discharge, if they have evinced an intent to establish domicile in South Carolina and if they have resided in South Carolina for at least twelve months immediately preceding their discharge.

59-112-60—Faculty, Administrative Employees and Dependents Thereof. Full-time faculty and administrative employees of State Institutions, and the spouses and children of such persons, shall be excluded from the provisions of this chapter.

59-112-70—Abatement of Rates for Nonresidents on Scholarship. Notwithstanding other provisions of this act, the governing boards listed in Section 59-112-10A above are authorized to adopt policies for the abatement of any part or all of the out-of-state rates charged to students who are recipients of scholarship aid.

59-112-80—Administration of Chapter. Burden of Proving Eligibility of Students. Each State Institution shall designate an official to administer the provisions of this act. Students making application to pay tuition and fees at in-state rates shall have the burden of proving to the satisfaction of the aforesaid officials of State Institutions that they have fulfilled the requirements of this act before they shall be permitted to pay tuition and fees at such rate.

59-112-90—Penalties for Willful Misrepresentation. Where it appears to the satisfaction of officials charged with administration of these provisions that a person has gained domiciliary status improperly by making or presenting willful misrepresentations of fact, such persons should be charged tuition and fees past due and unpaid at the out-of-state rate, plus interest at a rate of eight percent per annum, plus a penalty amounting to twenty-five percent of the out-of-state rate for one semester; and until these charges have been paid no such student shall be allowed to receive transcripts or graduate from any State Institution.

59-112-100—Regulations. The Commission on Higher Education may prescribe uniform regulations for application of the provisions of this act and may provide for annual review of such regulations.

ARTICLE V
Determination of Rates of Tuition and Fees

(Statutory Authority: 1976 Code Sections 59-112-10 to 59-112-100)

62-600. Rates of Tuition and Fees.

A. Resident classification is an essential part of tuition and fee determination, admission regulations, scholarship eligibility, and other relevant policies of the state. It is important that institutions have fair and equitable regulations that can be administered consistently and are sensitive to the interests of both students and the state. The Commission on Higher Education hereby establishes regulations for the statute governing residency for tuition and fee purposes to be applied consistently by all South Carolina institutions of higher education. These regulations do not address residency matters relating to in county categories used within the State’s technical colleges.

B. Institutions of higher education are required by the statute to determine the residence classification of applicants. The initial determination of one’s resident status is made at the time of admission. The determination made at that time, and any determination made thereafter, prevails for each subsequent semester until information becomes available that would impact the existing residency status and the determination is successfully challenged. The burden of proof rests with the students to show evidence as deemed necessary to establish and maintain their residency status.

62-601. Code of Laws Governing Residence. Rules regarding the establishment of legal residence for tuition and fee purposes for institutions of higher education are governed by Title 59, Chapter 112 of the 1976 South Carolina Code of Laws, as amended.

A. “Academic Session” is defined as a term or semester of enrollment. (62-607.B)

B. “Continue to be Enrolled” is defined as continuous enrollment without an interruption that would require the student to pursue a formal process of readmission to that institution. Formal petitions or applications for change of degree level shall be considered readmissions. (62-607.A)

C. “Dependent Person” is defined as one whose predominant source of income or support is from payments from a parent, spouse, or guardian, who claims the dependent person on his/her federal income tax return. In the case of those individuals who are supported by family members who do not earn enough reportable income for taxation purposes, a dependent person can be defined as one who qualifies as a dependent or exemption on the federal income tax return of the parent, spouse, or guardian. A dependent person is also one for whom payments are made, under court order, for child support and the cost of the dependent person’s college education. A dependent person’s residency is based upon the residency of the person upon whom they are dependent. (62-602.G) (62-602.N) (62-603.B) (62-605.O) (62-607.A)

F. "Full-time employment" is defined as employment that consists of at least thirty seven and one half hours a week in a full time status, with gross earnings of at least minimum wage. However, a person who works less than thirty seven and one half hours a week but receives or is entitled to receive full time employee benefits shall be considered to be employed full time if such status is verified by the employer. A person who meets the eligibility requirements of the Americans with Disabilities Act must present acceptable evidence that they satisfy their prescribed employment specifications in order to qualify as having full time employment. (62-605.C.1) (62-609.A.2) (62-609.A.3)

G. "Guardian" is defined as one legally responsible for the care and management of the person or property of a minor child based upon the five tests for dependency prescribed by the Internal Revenue Service; provided, however, that where circumstances indicate that such guardianship or custodianship was created primarily for the purpose of conferring South Carolina domicile for tuition and fee purposes on such child or dependent person, it shall not be given such effect. (62-602.C) (62-602.D) (62-602.E) (62-602.F) (62-602.G) (62-603.B) (62-605.C)

H. "Immediately Prior" is defined as the period of time between the offer of admission and the first day of class of the term for which the offer was made, not to exceed one calendar year. (62-607.A)

I. "Independent Person" is defined as one in his/her majority (eighteen years of age or older) or an emancipated minor, whose predominant source of income is his/her own earnings or income from employment, investments, or payments from trusts, grants, scholarships, commercial loans, or payments made in accordance with court order. An independent person must provide more than half of his or her support during the twelve months immediately prior to the date that classes begin for the semester for which resident status is requested. An independent person cannot claim the domicile of another individual as their own for the purposes of establishing intent to become a South Carolina resident. An independent person must have established his/her own domicile for twelve months prior to receiving instate tuition and fees. An independent person cannot be claimed as a dependent or exemption on the federal tax return of his or her parent, spouse, or guardian for the year in which resident status is requested. (62-602.N) (62-603.A) (62-605.C) (62-607.B) (62-608.B)

J. "Minor" is defined as a person who has not attained the age of eighteen years. An "emancipated minor" shall mean a minor whose parents have entirely surrendered the right to the care, custody, and earnings of such minor and are no longer under any legal obligation to support or maintain such minor. (62-602.G)

K. "Nonresident Alien" is defined as a person who is not a citizen or permanent resident of the United States. By virtue of their non-resident status "nonresident aliens" generally do not have the capacity to establish domicile in South Carolina. (62-602.M) (62-604.A)

P. "Temporary Absence" is defined as a break in enrollment during a fall or spring semester (or its equivalent) during which a student is not registered for class. (62-606.A)

Q. "Terminal Leave" is defined as a transition period following active employment and immediately preceding retirement (with a pension or annuity), during which the individual may use accumulated leave. (62-609.A.4)

S. "Trust" is defined as a legal entity created by a grantor for the benefit of designated beneficiaries under the laws of the state and the valid trust instrument. However, that where circumstances indicate that such trust was created primarily for the purpose of conferring South Carolina domicile for tuition and fee purposes on such child or independent person, it shall not be given such effect.

A. Independent persons who have physically resided and been domiciled in South Carolina for twelve continuous months immediately preceding the date the classes begin for the semester for which resident status is claimed may qualify to pay in state tuition and fees. The twelve month residency period starts when the independent person establishes the intent to become a South Carolina resident per Section 62-605 entitled "Establishing the Requisite Intent to Become a South Carolina Domiciliary." The twelve month residency period cannot start until the absence of indicia in other states is proven. Absences from the State during the twelve month period may affect the establishment of permanent residence for tuition and fee purposes.

B. The resident status of a dependent person is based on the resident status of the person who provides more than half of the dependent person’s support and claims or, only in the case of those individuals who are supported by family members who do not earn enough reportable income for taxation purposes, qualifies to claim the dependent person as a dependent for federal income tax purposes. Thus, the residence and domicile of a dependent person shall be presumed to be that of their parent, spouse, or guardian.

C. In the case of divorced or separated parents, the resident status of the dependent person may be based on the resident status of the parent who claims the dependent person as a dependent for tax purposes; or based on the resident status of the parent who has legal custody or legal joint custody of the dependent person; or based on the resident status of the person who makes payments under a court order for child support and at least the cost of his/her college tuition and fees.

A. Except as otherwise specified in this section or as provided in Section 62-609 (1) & (2), independent non-citizens and non-permanent residents of the United States will be assessed tuition and fees at the non-resident, out of state rate. Independent non-resident aliens, including refugees, asylees, and parolees may be entitled to resident, in-state classification once they have been awarded permanent resident status by the U.S. Department of Justice and meet all the statutory residency requirements provided that all other domiciliary requirements are met. Time spent living in South Carolina immediately prior to the awarding of permanent resident status does not count toward the twelve month residency period. Certain non-resident aliens present in the United States in specified visa categories are eligible to receive in-state residency status for tuition and fee purposes as prescribed by the Commission on Higher Education. They are not, however, eligible to receive state sponsored tuition assistance/scholarships.

B. Title 8 of the Code of Federal Regulations (CFR) serves as the primary resource for defining visa categories.
2015-16 Pay in State Rates.

The State. Steps a person should take to retain South Carolina residency eligibility until the applicant obtains a registration card. Failure to obtain this within 45 days of the establishment of the intent to become a South Carolina resident will delay the beginning date of residency eligibility until a South Carolina driver's license is obtained;

(4) Possession of a valid South Carolina vehicle registration card. Failure to obtain this within 90 days of the establishment of the intent to become a South Carolina resident will delay the beginning date of residency eligibility until the applicant obtains a South Carolina vehicle registration card;

(5) Maintenance of domicile in South Carolina;

(6) Paying South Carolina income taxes as a resident during the past tax year, including income earned outside of South Carolina from the date South Carolina domicile was claimed;

(7) Ownership of principal residence in South Carolina; and

(8) Licensing for professional practice (if applicable) in South Carolina.

D. No person shall be deemed solely by reason of marriage to a person domiciled in South Carolina to have established or maintained domicile in South Carolina and consequently be eligible for or to retain eligibility for South Carolina residency.

A. Persons in the following categories qualify to pay in state tuition and fees without having to establish a permanent home in the state for twelve months. Persons who qualify under any of these categories must meet the conditions of the specific category on or before the first day of class of the term for which payment of in state tuition and fees is requested. The following categories apply only to in state tuition and do not apply to State supported scholarships and grants. Individuals who qualify for in state tuition and fees under the following exceptions do not automatically qualify for LIFE, SC HOPE or Palmetto Fellows Scholarships.

(1) "Military Personnel and their Dependents": Members of the United States Armed Forces who are permanently assigned in South Carolina on active duty and their dependents are eligible to pay in state tuition and fees. When such personnel are transferred from the State, their dependents may continue to pay in state tuition and fees as long as they are continuously enrolled. Such persons (and their dependents) may also be eligible to pay in state tuition and fees as long as they are continuously enrolled after their discharge from the military, provided they have demonstrated an intent to establish a permanent home in South Carolina and they have resided in South Carolina for a period of at least twelve months immediately preceding their discharge. Military personnel who are not stationed in South Carolina and/or former military personnel who intend to establish South Carolina residency must fulfill the twelve month "physical presence" requirement for them or their dependents to qualify to pay in state tuition and fees.

(2) "Faculty and Administrative Employees with Full Time Employment and their Dependents": Full time faculty and administrative employees of South Carolina state supported colleges and universities and their dependents are eligible to pay in state tuition and fees.

(3) "Residents with Full Time Employment and their Dependents": Persons who reside, are domiciled, and are full time employed in the State and who continue to work full time until they meet the twelve month requirement and their dependents are eligible to pay in state tuition and fees, provided that they have taken steps to establish a permanent home in the State. Steps an independent person must take to establish residency in South Carolina are listed in Section 62-605 entitled ("Establishing the Requisite Intent to Become a South Carolina Domiciliary.").

(4) "Retired Persons and their Dependents": Retired persons who are receiving a pension or annuity who reside in South Carolina and have been domiciled in South Carolina as prescribed in the Statute for less than a year may be eligible for in state rates if they maintain residence and domicile in this State. Persons on terminal leave who have established residency in South Carolina may be eligible for in state rates even if domiciled in the State for less than one year if they present documentary evidence from their employer showing they are on terminal leave. The evidence should show beginning and ending dates.
for the terminal leave period and that the person will receive a pension or annuity when he/she retires.

B. South Carolina residents who wish to participate in the Contract for Services program sponsored by the Southern Regional Education Board must have continuously resided in the State for other than educational purposes for at least two years immediately preceding application for consideration and must meet all other residency requirements during this two year period.

A. Persons applying for a change of resident classification must complete a residency application/petition and provide supporting documentation prior to a reclassification deadline as established by the institution.
B. The burden of proof rests with those persons applying for a change of resident classification who must show required evidence to document the change in resident status.

62-611. Incorrect classification.
A. Persons incorrectly classified as residents are subject to reclassification and to payment of all nonresident tuition and fees not paid. If incorrect classification results from false or concealed facts, such persons may be charged tuition and fees past due and unpaid at the out of state rate. The violator may also be subject to administrative, civil, and financial penalties. Until these charges are paid, such persons will not be allowed to receive transcripts or graduate from a South Carolina institution.
B. Residents whose resident status changes are responsible for notifying the Residency Official of the institution attended of such changes.

62-612. Inquiries and Appeals.
A. Inquiries regarding residency requirements and determinations should be directed to the institutional residency official.
B. Each institution will develop an appeals process to accommodate persons wishing to appeal residency determinations made by the institutional residency official. Each institutions appeals process should be directed by that institutions primary residency officer, in conjunction with those individuals who practice the application of State residency regulations on a daily basis. The professional judgement of the residency officer and administrators will constitute the institutional appeal process. Neither the primary residency official nor appellate official(s) may waive the provisions of the Statute or regulation governing residency for tuition and fee purposes.

DINING
The University provides a variety of meal plans to meet student needs. The meal plan dining halls, Harcombe, Schilletter, and Clemson House, are located in different areas of the campus and feature an all-you-can-eat-a-cost policy per meal. Meals may also be purchased on a cash basis or by using a debit/credit card, Paw Points, or TigerStripe account. Meal Plans become effective when University Housing is opened for occupancy at the beginning of each semester. Meal Plans expire after the evening meal on the day of graduation at the end of each semester. Meal Plans are not effective during official University breaks.

Eastside Food Court, Canteen, Fernow Street Café, Einstein Bros. Bagels, and Java City provide a wide assortment of dining selections on an a la carte basis. Nationally branded concepts are available in dining locations on campus: Papa John’s and Subway in the Eastside Food Court, Chick-fil-a in the Canteen, Pizza Hut Express in Fernow Street Café, Wendy’s adjacent to Schilletter Dining Hall, and Chili’s Too and Starbucks in the Johnstone Complex next to Harcombe Dining Hall. All retail dining facilities and dining halls accept cash, credit/debit, Paw Points, and TigerStripe.

All first-year students who live in University Housing, excluding apartments with kitchens (Clemson House does not fulfill the apartment exception) are required to subscribe to a first-year resident meal plan for their first two semesters. All other students may choose a meal plan on a semester basis or pay for individual meals. First-year students living in University Housing (excluding the aforementioned housing) may terminate their meal plan for one of the following reasons ONLY:

- withdrawal from the University
- change in housing assignment to an apartment with kitchen facilities
- medical condition with dietary requirements that cannot be met by Dining. Documentation from a medical doctor must be provided along with specific dietary requirements. This documentation will be reviewed by the Student Disability Services and the Health and Wellness director.
- other circumstances determined by the University to be beyond the student’s control.

First-year students must provide the necessary documentation prior to any of the above reasons before cancellation of their meal plan will be considered. Upperclassmen may terminate their meal plans for any reason on the prescribed dates listed on Housing & Dining website. Failure to participate in a meal plan does not automatically release a student from the first-year student requirements listed above, all first-year students who live on campus are required to participate in one of the three meal plans that meet the first-year requirement.

First-year students living on campus does not sign up for one of the required resident choices, a meal plan will be assigned. All meal plans for all meal plan participants will automatically rollover to the spring semester. If an upperclassmen chooses to not subscribe to a meal plan for the spring semester they must opt out before payment of the spring tuition statement.

Students may change meal plans during certain periods. Visit the University Housing & Dining website for applicable dates and locations. All adjustments will be prorated. Students may upgrade meal plans at anytime.

The meals available charge applies to the meals that have been prepared, not those that have been eaten by the individual student. Paw Points are not refundable; however, they do carry forward to the next semester. Students will be responsible for all service charges related to changes or termination of a meal plan. Note: Meal plans may not be shared with other students. Only the meal plan purchaser may utilize his/her meal plan.

Information is available at www.clemson.edu/housing-dining or by calling 864-656-1237. More information is available at www.clemson.edu/tigerone, by calling 864-656-0763, or e-mailing tigeronecard@lists.clemson.edu.

TIGERSTRIPE ACCOUNT
The TigerStripe account is a declining balance account which students access using a TigerOne card and is accepted at more than 200 participating locations on and off campus. Participating merchants are listed at www.clemson.edu/tigerone. There is no daily limit on the number of purchases that may be made; however, no charges shall exceed the amount of deposited funds.

Funds may be added to a TigerStripe account via roAR under the optional fees option, and are limited to $2500 per semester. In addition, deposits can be made online using the TigerOne Card Services website at t1online.clemson.edu, at the TigerOne Card Services office, or with cash at one of the Value Port Stations. Students can easily manage their accounts and view their balances and history using the online card service.

TigerStripe accounts are non-transferable and non-refundable and remain open until a student graduates, transfers or withdraws from the university and notifies TigerOne Card Services. Any indebtedness to the University will be deducted from the balance remaining.

For more information about the TigerOne card and Terms and conditions, visit www.clemson.edu/tigerone. TigerOne Card Services office is located at 111 Hendrix Center, Clemson, SC 29634. Office hours are Monday-Friday 8:00am-4:30pm.

FINANCIAL AID
The Office of Student Financial Aid administers and coordinates various types of undergraduate financial aid administered by Clemson University: scholarships, loans, grants, and workstudy employment. The office works jointly with the University Scholarships and Awards Committee.

Students may apply after January 1 for financial assistance for the next academic year. Financial aid requests, based on financial need, must be supported by a processed Free Application for Federal Student Aid (FAFSA) and renewed annually. No application is required for the LIFE Scholarship.

The FAFSA must be submitted by April 1 for continuing students for need-based scholarships, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal WorkStudy, Federal Perkins Loan, and South Carolina State NEED-Based Grant. April 1 is the suggested deadline for application for the Federal Pell Grant and the Federal Direct Loan. June 15 is the suggested deadline for application for private/alternative loans and the Federal PLUS Loan. PLUS and private loans require a separate online application.

Transfer students applying for student loans will be considered as entering freshmen in determining maximum loan limits. Following enrollment, after the credit evaluation process has been completed, students may submit a request for additional funds due to changes in class standing.
Information regarding financial aid programs at Clemson University is available at www.clemson.edu/finaid or from the Office of Student Financial Aid, G-01 Sikes Hall, Box 345123, Clemson, SC 29634-5123.

Satisfactory Academic Progress for Financial Aid Eligibility
Students must maintain satisfactory academic progress to be eligible for financial aid. This policy contains both qualitative (grade-point average) and quantitative (credit hours completed) requirements. Students must meet the grade-point average requirement as stated under the Academic Eligibility Policy, and must complete their degrees within 150% of the published time frame. Details are available at www.clemson.edu/finaid. Students wishing to appeal their academic progress status may submit a letter to the Office of Student Financial Aid. This appeals process is separate from the Appeals Committee on Academic Eligibility.

Institutional Aid Policy for Suspended Students
An undergraduate student who has been suspended from the University for a violation of the Academic Integrity Policy, or suspended from the University due to a violation of any Student Regulation as defined and enforced by the Office of Community and Ethical Standards, becomes immediately ineligible for University merit or need-based scholarship or grant aid for the remainder of the student’s undergraduate enrollment at Clemson.

Educational Benefits for Veterans, War Orphans, and Children of Deceased or Disabled Law Enforcement Officers or Fire Fighters
The Veterans Administration provides educational assistance for veterans and children of deceased or totally disabled veterans who meet requirements of applicable laws and regulations. Any veteran or child of a deceased or totally disabled veteran should communicate with the nearest Veterans Administration Office to determine whether he/she is entitled to any educational benefits. Free tuition is available to children of South Carolina law enforcement officers or fire fighters who were totally disabled or killed in the line of duty. Certification is required from the agency of the parent’s employment. Upon presentation of proof of eligibility, a student shall not become eligible for educational assistance until the beginning of the next academic term.

Educational Benefits for Senior Citizens
South Carolina residents who are at least 60 year of age may qualify for free tuition. Applicants may obtain a waiver application and an audit card (if auditing courses) from the Registrar’s Office in 102 Sikes Hall. Seniors submit the waiver application and a photocopy of their SC driver’s license to the Office of Student Financial Aid in G-01 Sikes Hall. Seniors who are auditing courses must submit an audit card to 102 Sikes Hall each semester. The waiver application must be submitted prior to the first day of class and is not retroactive to prior terms. Questions may be directed to the Office of Student Financial Aid at 864-656-2280.
STUDENT SERVICES

HOUSING

Single Student Housing
University housing is equipped to meet the needs of today’s college student and provides a “home away from home” for approximately 6,300 single students in 24 residence halls, and three apartment communities. Most rooms are double occupancy and two most two-bedroom apartments accommodate four students. After acceptance to the University, housing information is mailed to the students. Incoming freshmen should sign up for on-campus housing at www.clemson.edu/housing/dining. Transfer students and former students returning are offered on-campus housing if space is available.

REDFERN HEALTH CENTER

Redfern Health Center (RHC) is an integrated outpatient facility comprised of three divisions: Medical Services, Counseling and Psychological Services (CAPS), and Healthy Campus. Hours of operation are Monday-Friday 8:00 a.m.-5:00 p.m., except Wednesday 9:00 a.m.-5:00 p.m. (summer and break hours, Monday-Friday 8:00 a.m.-4:30 p.m., except Wednesday 9:00 a.m.-4:30 p.m.)

Medical Services
The student health center offers outpatient ambulatory care for illnesses and injury, pharmacy, lab, x-ray, and specialty clinics, including women’s health, orthopedic injury and allergy/immunization clinics. Students are seen on an appointment basis. Appointments can be made by calling the appointment line. Students without an appointment are seen in the Nurses Clinic.

Medical clearance is required for all students enrolled at the University. For information regarding immunization requirements, visit the Redfern Health Center website at www.clemson.edu/redfern and click on “Immunization Requirements.” Students not in compliance with immunization requirements will not be allowed to complete registration for the next semester and may be subject to a late fee.

After Hours
Emergency 911 services are available after hours. Students with questions about their health care needs should call the NurseLine at 656-2233, option 2. A registered nurse is available by telephone to answer questions and offer advice about health care needs. Students requiring the care of a physician after hours can choose from area emergency rooms and urgent care facilities, including CareConnect Clemson (an urgent care facility), Oconee Memorial Hospital, AnMed Health, Baptist Easley Hospital, and Greenville Memorial Hospital. Medical costs incurred are the student’s responsibility. Students should contact Redfern the next business day for follow-up care.

The University ambulance transports on-campus medical emergencies to the closest community medical resource. The University ambulance is staffed with licensed emergency medical personnel 24 hours a day. Students are required to pay for off-campus ambulance transportation.

Counseling and Psychological Services (CAPS)
CAPS provides comprehensive mental health services from a holistic perspective. Students are seen within their context and developmental stages as psychotherapy/counseling is delivered in individual, group, or couples format. Specialized services are delivered by a psychiatrist and addictions counselors. All services are confidential.

CAPS offers a walk-in clinic Monday through Friday, from 10:00 a.m.-2:30 p.m. for the initial access to services. Students complete paperwork and are seen for this initial brief evaluation on a first-come, first-served basis. Students who cannot meet the walk-in clinic times may call 656-2451 for an appointment during the 8:00 a.m.-5:00 p.m. hours of operation.

The Assessment, Choices, Transitions and Training (ACTT) Program assists students with substance misuse/abuse concerns. CAPS also provides counseling, advocacy, referral, education, and support services for students with concerns about relationship and sexual violence. Students with eating concerns/disorders are treated from a multidisciplinary approach that involves psychological, medical and nutritional perspectives.

In case of emergency, assistance and consultation are available by calling 656-2451 during regular business hours. After hours and on weekends, the on-call counselor can be reached through the University Police Department at 656-2222.

Healthy Campus
Healthy Campus seeks to create a culture and environment that fosters health, wellness, safety and sustainability and enables our campus community members to achieve, learn and serve. Healthy Campus achieves this by providing exemplary leadership and advocacy for public health policies and structures intended to improve health; engaged learning activities - creative inquiry teams, internships, class projects; partnerships and networks of collaborators to achieve Healthy Campus objectives; and population-level interventions.

Healthy Campus coordinates Aspire to Be Well, a peer-led health and safety focused dialogue presented by Healthy Campus facilitators. This 70-minute dialogue covers three areas key to maintaining a safe campus, including mental health and wellness, alcohol and other drug misuse, and interpersonal violence prevention, while focusing on bystander intervention. Presentations, individual counseling and information focused on the following areas are available as requested: alcohol and other drugs, building social connections, nutrition, tobacco cessation, sexual health, stress management and other health-related issues.

Health Fee
University policy requires that all students registered for six or more credit hours on campus during the fall or spring semester or three or more on-campus credit hours during a summer session pay the University health fee. The health fee provides access to the professional service of physicians, nurse practitioners, psychologists, counselors, and health educators at no additional cost; reduced costs for medical diagnostics; and an after-hours urgent care excess insurance benefit for injuries. Students pay for pharmaceuticals, orthopedic equipment, specialty clinics, and the psychiatrist. Payment is expected at the time of service and may be made by cash, check, most credit cards, or TigerStripe.

Health Insurance
The University offers a student health insurance plan to help cover major medical expenses. Information is available at www.studentinsurancce.com/schools/clemson. Students are strongly encouraged to have comprehensive health insurance coverage during their tenure at the University. Call the Student Insurance Office at 864-656-3561 or email redfern@clemson.edu with questions.

ACADEMIC SUCCESS CENTER

The Academic Success Center (ASC) supports undergraduate student success by delivering a diverse array of services designed to foster the skills and mindset students need to enhance their learning and achieve their educational goals. Through the delivery of its programs, the ASC strives to enhance student learning and development, meet the needs of students, and promote student success, continued enrollment and timely graduation. ASC programs include:

• Supplemental Instruction (SI) – SI is offered for historically difficult courses and provides students the opportunity to engage in peer-led learning sessions facilitated by trained upperclass SI leaders who have successfully completed the course.
• Tutoring – Course-specific tutoring is delivered on a drop-in basis Sunday through Friday, and allows students to meet with trained upper-class tutors who assist them with questions about course content and provide helpful learning and study strategies.
• Educational workshops – Workshops on a variety of topics are presented throughout the academic year. Participating in workshops gives students the opportunity to learn new skills, strategies and approaches that enhance their learning and academic success.
• Academic counseling – Academic counseling is available by individual appointment, and equips students with tools and strategies for improving their study and learning habits and behaviors.
• Academic coaching – Academic coaching is available by appointment, and provides students the opportunity to meet with a coach on an ongoing basis to enhance self-management and life skills.
• Cross-college advising — Cross-college advising is available by appointment, and provides students in transition with guidance to develop an individualized academic plan compatible with their educational and career goals, and facilitates intentional academic decision making and planning, successful completion of degree requirements, and timely graduation.

• Academic recovery program — This program is delivered to students on academic probation, and is designed to assist students with developing a plan for returning to good academic standing.

For additional information about the Academic Success Center, visit www.clemson.edu/asc or call 864-656-6452.

CENTER FOR CAREER AND PROFESSIONAL DEVELOPMENT

The Michelin® Career Center, in the Center for Career and Professional Development, assists undergraduate and graduate students in selecting appropriate fields of study, furthering their education, learning effective job searching strategies, and making connections with employers.

Career counselors are available to meet one-on-one with students to explore career or educational options, devise résumés and cover letters, hone interviewing techniques, conduct searches for internships and full-time jobs, and ready themselves for interviewing with employers. In addition, students may utilize ClemsonJobLink, the Career Center’s on-line recruiting system, to view part-time jobs, internships, and full-time job postings and to sign up for on-campus interviews.

Experiential learning opportunities are designed to provide students with an experience in which they are required to be active and intentional learners. The goal is for students to transfer their knowledge and experiences from the classroom and apply them in work environments outside the classroom. The Michelin® Career Center’s Internship Program is geared to bringing students and employers together to facilitate an academically viable and mutually beneficial work experience. This program offers zero-credit-hour internship courses (INT 1010 and INT 2010) for students in majors that do not offer internship credit. Students may participate in either part-time or full-time internships.

The Center’s goal is to empower students with the skills and tools to find part-time jobs and off-campus internships while in school, as well as full-time jobs following graduation. More than 6,000 employers use the Center to connect with students through job postings, on campus interviews, information sessions and career events via our on-line recruiting system ClemsonJobLink. The Center hosts a number of events throughout the year to further connect students and employers, including an all-majors career fair each spring and fall, and several fairs for specific fields such as education and construction.

Other information can be obtained from the Career Center’s website at career.clemson.edu or by calling 864-656-6000.

DISABILITY SERVICES

Student Disability Services (SDS) coordinates the provision of reasonable accommodations for students with physical, psychological, attentional, or learning disabilities. Accommodations are individualized, flexible, and confidential based on the nature of the disability and the academic environment in compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990.

Students are encouraged to consult with the Student Disability Services staff as early as possible, preferably prior to the first day of classes. Current documentation of a specific disability from a licensed professional is needed. For additional information or to schedule an appointment, contact Student Disability Services at 864-656-6848 or sds@clemson.edu. Details on policies and procedures are available at www.clemson.edu/sds.
ADDITIONAL REGULATIONS

Proper discharge of all duties is required at Clemson University, and a student's first duty is his/her scholarical work. All students should be thoroughly acquainted with these basic requirements.

CREDIT SYSTEM

The semester hour is the basis of all credits. Generally, one recitation hour or two-three laboratory hours a week for a semester constitute a semester hour. Thus, in HIST 1930 Modern World History 3(3), as this subject is listed in the Courses of Instruction section of this catalog, the student takes three semester hours. When the course is completed satisfactorily, three credit hours are entered on the student's record. The notation "3(3)" means that the course carries three credits and has three clock hours of class time per week. CH 1010 General Chemistry 4(3) carries four semester hours, and has three clock hours of class time per week. However, CH 1010 has a required lab course associated with it (CH 1011), which carries no additional credit, but has three clock hours associated with it. CH 1011 would therefore read 0(3), and the three clock hours associated with CH 1011 account for the fourth credit CH 1010 carries.

Credit Load

Except for an entering freshman, who is restricted to the curriculum requirements of his/her major, the credit load for an undergraduate must be approved by the academic advisor. The class advisor will approve a credit load deemed in the best interest of the student based on such factors as course requirements, grade-point average, participation in other activities, and expected date of graduation.

For fall and spring semesters, the maximum number of hours in which a student may enroll is 12 or more credit hours. Permission of the student's academic advisor is required for all registration in more than 19 hours, the maximum number of hours in which a student may enroll is 19, and 16 hours is the maximum credit load for those on probation.

Advanced Placement and Credit by Examination

In addition to earning credit by the usual method involving classroom attendance, a student may receive credit toward his/her degree by completing a course successfully by examination only. Freshmen interested in exempting some elementary courses in this manner should participate in the College Board Advanced Placement or International Baccalaureate program and have the results of these tests sent to Clemson.

Certain departments will also grant credit for successful completion of College-Level Examination Program (CLEP) subject examinations, which are administered by the College Board.

Enrolled students may earn credit by means of a special examination without the necessity of class attendance subject to the following requirements:

1. The applicant must present evidence that he/she has received training or taken work which is approximately equivalent to that given in the course at Clemson for which an examination is requested.

2. The applicant must have not previously failed or audited the course at Clemson.

3. The applicant must apply in writing for the examination; the request must be approved by the instructor, chair of the department in which the course is taught, and the Enrolled Student Services Office.

Application forms are available in the Enrolled Student Services Office, 104 Sikes Hall.

Credit (CR) will be awarded for acceptable work in lieu of letter grades in recognition of college-level achievement as determined by College Board Advanced Placement Examinations, International Baccalaureate Program, College-Level Examination Program subject examinations, institutional special examinations, and similar instruments.

Transfer Credit

Coursework completed with a grade of C or better by currently enrolled Clemson students at other regionally accredited institutions, including correspondence courses, teletext courses, online courses, and exempted courses, will be evaluated for transfer in terms of equivalent courses included in the Clemson curriculum of the student's choice. This does not guarantee that all courses taken at other institutions will be accepted for transfer. The acceptability of each course or exemption will be based on an evaluation by the Office of Admissions. Students must obtain approval from the academic advisor for a course prior to enrolling in the course. By obtaining advance approval, the student is assured of receiving proper credit at Clemson upon satisfactory completion of the course. Information and forms relative to this approval may be obtained in the Enrolled Student Services Office, 104 Sikes Hall. Coursework earned at different institutions will not be joined to equate with one Clemson course. No course taken at a nonbaccalaureate degree granting institution may be used as an equivalent or substitute for any 3000- or 4000-level Clemson course. Relative to academic eligibility, graduation, and transcripts, only grades earned at Clemson are used in computing the student's grade-point average. Grades earned in qualifying (i.e., nonremedial) transfer courses will be used in calculating the student's grade-point average for South Carolina LIFE Scholarship awards. Nonremedial college classes completed while in high school are also included in this calculation.

Learning experiences including, but not limited to, military service schools, non-collegiate sponsored instruction, work-related experiences, etc., will not be evaluated for transfer; however, enrolled students may request credit by examination for any non-transferable learning experience. For additional information, see Advanced Placement and Credit by Examination above.

Learning Experiences

All "for credit" learning experiences conducted with organizations other than accredited higher education institutions must be regularly supervised by appropriate members of the Clemson University faculty or staff. The student must be enrolled at the time the credit is generated, and the level of credit (grade) is the responsibility of the faculty member(s) in the discipline from which the grade originates.

External Education Experiences

In all "for credit" external educational programs that Clemson University may have with professional, vocational, technical, clinical, and foreign study, the agreements are to be agreed to through signature of the provost and the president. In such cases, learning experiences for which credit is awarded must be under the ultimate control and supervision of Clemson University.

GRADING SYSTEM

The grading system is as follows:

A—Excellent indicates work of a very high character, the highest grade given.

B—Good indicates work that is definitely above average, though not of the highest quality.

C—Fair indicates work of average or medium character.

D—Pass indicates work below average and unsatisfactory, the lowest passing grade.

F—Failed indicates that the student knows so little of the subject that it must be repeated in order that credit can be received.

I—Incomplete indicates that a relatively small part of the semester's work remains undone. Grade I is not given a student who made a grade F on his/her daily work. The incomplete grade is calculated as an F in the student's grade-point average until the work is made up and a final grade is assigned. Instructors and students will resolve the Incomplete grade as soon as possible, but not to exceed thirty days from the first day of classes in the next scheduled session (excluding summer sessions and regardless of the student's enrollment status). Students will contact instructors in a timely manner so that instructors can provide a reasonable opportunity to complete remaining work. Normally, only one extension for each I may be granted, and this under unusual circumstances. The extension must be submitted by the instructor of the course and will indicate the time limit. (Students under this policy are prohibited from removing the I by repeating the course.) A letter grade of I converts to F unless the incomplete is removed within the time specified.
W–Withdraw indicates that the student withdrew from the course or was withdrawn by the instructor after the first two weeks of classwork and prior to the last five weeks of classes, not including the examination period. Proportionate time periods apply during summer and other shortened sessions. For financial aid purposes, enrollment is defined and satisfactory academic progress levels are established as of midnight on the last day to drop without a W grade. Withdrawal can negatively impact financial aid eligibility if a student does not complete a sufficient number of hours. Details are available at www.clemson.edu/finaid.

Grade-Point Average
In calculating a student’s grade-point average, the total number of quality points accumulated by the student is divided by the total number of GPA hours at Clemson during the semester, session, or other period for which the grade-point average is calculated. For each credit hour, the student receives quality points as follows: A–4, B–3, C–2, D–1. No quality points are assigned for grades F, I, P, NP or W.

Pass/No Pass Option
Only courses to be used as electives may be taken optionally as Pass/No Pass. If a degree program includes elective credit(s), a student may apply up to 12 elective credit hours earned using the Pass/No Pass option. If a degree program does not include elective credits, a student may take courses using the Pass/No Pass option but the credits will not apply to the degree.

Registration in Pass/No Pass courses will be handled in the same manner as letter-graded courses. Departmental approval must be obtained for the Pass/No Pass option via approval form and returned to the Registration Services Office in E206 Martin Hall by the last day to register or add a class, as stipulated in the Academic Calendar.

Instructors will submit letter grades to the Registration Services Office. These grades will be converted as follows: A, B, C to P (Pass); D, F to NP (No Pass).

Only P (minimum letter grade of C) or NP will be shown on a student’s permanent record and will not affect the grade-point average.

If a student changes to a major that requires a previously passed course and this course has been taken during a different session and other shortened sessions.

Mid-Term Evaluation
Once, near midterm, but no later than ten days before the last day students can drop courses without receiving final grades, instructors of every undergraduate course shall make available for each student (a) that student’s numerical course grade or (b) that student’s letter ranking to date in that course (A–F or P/ NP). More frequent feedback is strongly encouraged.

Academic Eligibility Policy
All students are expected to study and perform to the best of their abilities. The academic eligibility standards listed below represent minimum levels to be met to remain academically eligible. If a student fails to meet these standards, that student is placed on academic probation. No notation concerning academic alert will appear on the student’s permanent record.

Academic Probation: A student who fails to meet the academic eligibility criteria listed below. The student is eligible to reenroll the following semester.

Academic Alert: A student who fails to meet the academic eligibility criteria listed below. The student is eligible to reenroll the following semester.

Academic Probation: A student who fails to meet the academic eligibility criteria listed below. The student is eligible to reenroll the following semester.

Academic Alert: A student who fails to meet the academic eligibility criteria listed below. The student is eligible to reenroll the following semester.

Academic Eligibility Standards
A student on academic probation for two consecutively enrolled semesters is evaluated to determine academic eligibility. Eligibility for continued enrollment is evaluated at the end of each semester unless otherwise indicated in this policy. Students with only one complete semester will not be evaluated.

The evaluation for academic eligibility is separate from the evaluation for satisfactory academic progress required for Student Financial Aid. Further information on satisfactory academic progress for financial aid purposes is available in the Financial Information section of this catalog and at www.clemson.edu/finaid.

Academic Eligibility Standards
A student on academic probation (cumulative grade-point average below 2.0) will remain academically eligible if one of the following conditions is met.

1. The student passes at least 12 credit hours and earns a 2.4 or higher semester grade-point average. Duplicate credits do not count as credits passed unless otherwise required to meet an alternative departmental standard.

2. The student achieves the Minimum Cumulative Grade-Point Average (MCGPA) listed below.

<table>
<thead>
<tr>
<th>Total Attempted Hours</th>
<th>MCGPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>16-29</td>
<td>1.75</td>
</tr>
<tr>
<td>30-59</td>
<td>1.85</td>
</tr>
<tr>
<td>60-89</td>
<td>1.95</td>
</tr>
<tr>
<td>90+</td>
<td>2.00</td>
</tr>
</tbody>
</table>

*Total Attempted Hours includes all credit hours attempted at Clemson, plus any advanced standing received from transfer credits and credits based on approved examination programs. Only grade points earned at Clemson are used to calculate the MCGPA.

3. The student achieves a cumulative grade-point average of 2.0 or higher.

Academic Eligibility Evaluation
Academic eligibility criteria are different for students who have completed fewer than three semesters, students who have completed at least three semesters, students who have been suspended, and students returning on appeal, as described below. Conditions of academic eligibility standards are described in the previous section.
1. A student who has completed fewer than three fall and spring semesters will be evaluated at the end of his/her first spring semester, unless he/she entered the university that semester. If the student has two consecutive semesters on academic probation, he/she is eligible to enroll in the subsequent summer and fall semester, but must meet academic eligibility standards at the end of fall semester to avoid suspension for the following spring semester. This term of suspension is not appealable.

2. After a student has completed three regular (fall and spring) semesters, he/she will be evaluated at the end of each fall and spring semester. If the student has two consecutive semesters on academic probation and fails to meet academic eligibility standards, he/she will be suspended for the next regular (fall or spring) semester. A student subject to suspension at the end of spring semester may enroll in summer school and will avoid suspension if he/she meets academic eligibility standards.

3. A student enrolled after being suspended is evaluated at the end of each fall and spring semester until a cumulative grade-point average of 2.0 or higher is achieved. A previously suspended student on academic probation who fails to meet academic eligibility standards will be dismissed at the end of the following fall or spring term for one calendar year and permitted to enroll only as a result of a successful appeal.

4. A student permitted to reenroll due to a successful appeal of suspension or dismissal is evaluated at the end of each fall and spring semester until a cumulative grade-point average of 2.0 or higher is achieved. A student who fails to meet academic eligibility standards will be suspended or dismissed, according to his/her academic situation.

Appealing Suspension or Dismissal

In the event a student subject to suspension or dismissal is unable to achieve one of the above outcomes as a result of extenuating circumstances, the student may file a written appeal with the Appeals Committee on Academic Eligibility. If this appeal is denied, the student may file subsequent appeals for readmission after any subsequent semester.

The Appeals Committee on Academic Eligibility meets approximately one week after final examinations in May and August. The committee meets in early January to read the appeals of students wishing to enroll for the spring semester. Students should contact the Office of Undergraduate Studies for further information on the appeals process. Appeals will be granted only in the most exceptional cases and may require the student to adhere to additional criteria in order to remain enrolled at the University.

Grade Protests

A student wishing to protest a final course grade must first try to resolve any disagreement with the instructor. If unable to reach a resolution, the student may follow the procedures listed under Academic Grievance Policy. Grievances must be filed within 30 calendar days (exclusive of summer vacation) of the date of the last exam for the term involved.

Repeating Courses Passed

A student may repeat a course passed with a grade lower than B. Repeating a course graded D or C does not erase the original D or C grade. If a student elects to apply Academic Forgiveness to a course graded D, the Academic Forgiveness Policy below will apply.

Otherwise, both grades appear on the record and are computed in the cumulative grade-point average. A course graded C cannot be forgiven. Credit for the same course will be counted only once toward the number of hours required for graduation. For academic eligibility purposes, duplicate credits do not count as credits passed. For financial aid purposes, duplicate credits do not count as credits completed for satisfactory progress. If a student repeats a course passed with grade of B or better, the credits and grade points earned in the repeat attempt will be removed from the cumulative summary.

Repeating Courses Failed

A student who has failed a course cannot receive credit for that course until it has been satisfactorily repeated for hour for hour in a class; except that in the case of co-related laboratory work, the number of hours to be taken shall be determined by the instructor.

Where separate grades for class and laboratory work are given, that part of the subject shall be repeated in which the failure occurs. Successfully repeating a course previously graded D does not erase the original F grade from the student’s record. If a student elects to apply Academic Forgiveness to a failed course, the Academic Forgiveness Policy below will apply. Otherwise, both grades appear on the record and are computed in the cumulative grade-point average.

Academic Forgiveness Policy

The Academic Forgiveness Policy (AFP) allows a student enrolled beginning Fall 2011 or after to eliminate from the GPA calculation up to three courses in which a D or F was earned. Students enrolled prior to Fall 2011 who were under the former Academic Redemption Policy will be allowed academic forgiveness on a modified scale. Detailed information is available at www.registrar.clemson.edu.

The following conditions apply:

Courses taken prior to fall semester 2003 may not be considered for academic forgiveness. Where the F grade in required courses may be eliminated before the course is repeated, any course used to meet a graduation requirement must be repeated satisfactorily at Clemson University. Both grades will remain on the transcript, degree progress report, and other official documents. For financial aid purposes, courses repeated under this policy resulting in duplicate credit do not count for satisfactory academic progress.

The AFP shall apply only to courses taken at Clemson University. Course substitutions are not permitted. Students may not invoke the AFP after they have graduated. After graduation, students may repeat coursework, but both grades will be calculated in the grade-point average.

The AFP may not be applied to a course taken on a Pass/No Pass basis or to any course in which the student was previously found in violation of the academic integrity policy.

Further information on specific questions related to the use of Academic Forgiveness can be found at http://www.registrar.clemson.edu/html/acdForgiveness.htm.

CLASSWORK

Academic Advising

Each student is assigned an academic advisor in his/her major area. It is the responsibility of the student to consult with his/her advisor during registration. The advisor will assist the student in scheduling courses so as to fulfill the requirements of the degree program; nevertheless, it is the responsibility of the student to fulfill the relevant requirements of the degree. For more information, visit http://www.registrar.clemson.edu/academic/advising/.

Course Prerequisites

Prerequisites for each course are enumerated in the Courses of Instruction section of this catalog. In addition to these requirements, colleges and departments may also establish other standards as conditions for enrollment. It is the student’s responsibility to refer to individual college and curriculum information for specific standards.

Course Substitutions

A student may request substitution of a course, whether Clemson credits or transfer credits, for a curriculum requirement in the major, the minor, or General Education. Course substitutions will be applied toward degree requirements only after approval by all the appropriate academic signatories. Students should initiate the request with their assigned academic advisor using the Form to Request Substitution for an Academic Requirement, available on the Registrar’s website, www.registrar.clemson.edu.

All requests for course/requirement substitutions must be submitted and approved as early as possible and prior to the start of the student’s final semester at Clemson University (i.e., the graduation semester). It is the student’s responsibility to ensure that the necessary forms have been processed and signed. Failure to follow these guidelines may result in the student’s graduation being delayed to at least the following semester.

Attendance Policy

The academic resources of Clemson University are provided for the intellectual growth and development of students. Class attendance is critical to the educational process; therefore, students should attend scheduled courses regularly if they are to attain their academic goals.

In the event of an emergency, the student should make direct contact with the course instructor, preferably before a class or an exam takes place. Students should speak with their course instructors regarding any scheduled absence as soon as possible and develop a plan for any make-up work. It is the student’s responsibility to secure documentation of emergencies, if required. A student with an excessive number of absences may be withdrawn at the discretion of the course instructor.

Course instructors must implement fair grading procedures and provide an opportunity to make up missed assignments and examinations that does not unfairly penalize the student when an excused absence is accepted. Such make-up work shall be at the same level of difficulty with the missed assignment or examination. Course instructors shall hold all students with excused absences to the same stan-
dard for making up missed assignments or examinations. While course instructors should seek to make reasonable accommodation for a student involved in University-sponsored activities, students should understand that not every course can accommodate absences and that absences do not lessen the need to meet all course objectives.

Absence from class is detrimental to the learning process, so course instructors may use reasonable academic penalties which reflect the importance of work missed because of unexcused absences. Course instructors who penalize students for unexcused absences must specify attendance requirements as related to grading in the course syllabus and must keep accurate attendance records. Course instructors are obligated to honor exceptions to the university attendance policy for students covered by the Americans with Disabilities Act, as verified through paperwork issued by Student Disability Services.

Enrollment

Only students who are officially registered and have paid appropriate fees may attend classes. Students have the responsibility to insure that drop/add transactions are completed in a timely manner. Registered students who cease attending class will be assigned a failing grade.

All students are required to attend the first scheduled day of classes and labs. Students who cannot attend the first class are responsible for contacting the instructor to indicate their intent to remain in that class. If a student does not attend the first class meeting or contact the course instructor by the second meeting or the last day to add, whichever comes first, the course instructor has the option of dropping that student from the roll. Students must not assume that course instructors are obligated to drop them if they fail to attend the first few days of class.

Anticipated Absences

Students should use the Notification of Absence module in Blackboard, or other reasonable means, to notify the course instructor of a future absence from class. This communication is only for information and does not verify the student’s reason for absence or impact the course instructor’s evaluation of the student’s academic work. If the student is unable to contact course instructors, the student (or representative) should contact the Office of the Dean of Students, who will notify the course instructors of the circumstances, providing a liaison in cases limited by medical confidentiality. A student may be excused from attending class in cases of emergency or other compelling reasons deemed appropriate by the course instructor. Exceptions for emergency absences must be reported to the course instructor as soon as possible (for example, through e-mail), but not more than one week after the return to class. In certain cases, the Dean of Undergraduate Studies (or designee) may provide a letter verifying the student’s absence as excused. Course instructors are expected to excuse absences for reasons including:

1. A medical complication (pregnancy/childbirth-related, physical injury, illness, etc.) too severe or contagious for the student to attend class, when certified by an attending physician. Physicians and staff at Redfern Health Center do not provide written excuses; however, students should retain paperwork of medical visits affirming date and time. Whenever possible, students should visit Redfern for appropriate care without missing class. An absence for urgent medical service does not constitute an excused absence. Course instructors may, at their discretion, require documentation of medical absences.

2. Death, serious illness, or emergency in a student’s immediate family (course instructors may require documentation).

3. Participation in court-imposed legal proceedings (e.g., jury duty or subpoena).

4. Required participation in military obligations as certified by the student’s commanding officer.

In the event of a regional or national emergency (e.g., pandemic, hurricane, etc.), students missing classes may not be charged with unexcused absences if the nature and extent of the emergency is defined and disseminated by the Provost (or designee).

Appeals

Any student who feels that a grade has been affected by a legitimate absence that an instructor did not excuse may appeal the grade through the Academic Grievance process. Students may appeal, in writing, a course instructor’s decision not to excuse an absence to the academic Associate Dean of the academic unit offering the course. Before taking action, the Associate Dean should request that the course instructor explain his or her denial in writing.

Dead Days

During the last two class days of the fall and spring semesters, commonly referred to as Dead Days, all regularly scheduled classes are conducted; however, course testing on these days is limited to scheduled laboratory and one-semester-hour course final exams and make-up tests. Dead Days are observed during fall and spring semesters only. Dead Days do not apply to courses numbered 6000 or above.

Auditing Policies

Qualified students may audit courses upon written approval of the instructor. Auditors are under no obligation of regular attendance, preparation, recitation, or examination and receive no credit. Participation in classroom discussion and laboratory exercises by auditors is at the discretion of the instructor. A student who has previously audited a course is ineligible for credit by examination.

Undergraduate and graduate students enrolled in 12 or more hours may audit courses at no additional charge. Others interested in auditing should verify their eligibility through the Registrar’s Office.

Combined Bachelor’s/Master’s Plan

Students may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements. To be eligible, the student must have completed the bachelor’s curriculum through the junior year (minimum 90 credits) and have a minimum overall grade-point average of 3.4. A maximum of 12 credit hours of graduate courses in the master’s program may be applied to the bachelor’s program. The combined bachelor’s/master’s degree (documented on GS6BS/MS) must have a minimum combined total of 150 credit hours. This total may contain a maximum of six credit hours of master’s thesis research and all credit hours taken after receiving the baccalaureate degree must be at the 6000 level or higher. As determined by the participating bachelor’s program, graduate courses may be applied to the bachelor’s degree as electives or technical requirements or by substitution of 7000- or 8000-level courses for required undergraduate courses. Under no circumstances may 6000-level counterparts of 4000-level courses required for the bachelor’s degree be counted toward master’s requirements. Combined bachelor’s/master’s plan students are not eligible for graduate appointments for financial aid until their bachelor’s degrees have been awarded.

Procedure for Students

Since neither all undergraduate nor graduate programs participate in this academic option, seniors should consult both their academic advisor and the graduate program coordinator of the master’s program they wish to pursue. Students must officially request participation in the combined bachelor’s/master’s program by completion of Form GS6BS/MS, “Request for Combined Bachelor’s/Master’s Education Plan,” available online at www.grad.clemson.edu/forms/GeneralForm.php. Endorsements by the program coordinator or department chair of both programs are required.

Procedure for Departments

Departments and graduate programs desiring to participate in the combined bachelor’s/master’s program should submit a written notification to the dean of the Graduate School identifying the date on which they intend to make this option available to their students.
Senior Enrollment in Graduate Courses
Clemson University seniors meeting the accepted academic standard for graduate work (3.0 cumulative grade-point average) are eligible to request enrollment in graduate level courses. Enrollment of seniors in any graduate course is subject to approval by the department offering the course and the Graduate School. The total course workload for the semester must not exceed 18 hours, and the cumulative graduate credits earned by seniors shall not exceed 12 semester hours. The credits and quality points associated with senior enrollment in graduate courses will be part of the undergraduate record. Graduate courses that are not satisfying undergraduate requirements cannot be used to meet enrollment requirements for financial aid.

Seniors with a 3.4 or Higher GPA
Seniors with 3.4 or higher grade-point averages are eligible for participation in the combined bachelor’s/master’s plan (see “Combined Bachelor’s/Master’s Plan”).

Seniors with a 3.0 or Higher GPA
Seniors with 3.0 or higher grade-point averages are eligible to request enrollment in graduate level courses to meet requirements for the bachelor’s degree; however, courses used for this purpose cannot be counted later towards an advanced degree. Alternatively, these students may also take courses in excess of the requirements for their undergraduate degrees and may request that these courses be included as a part of their graduate program if they are subsequently admitted to the Graduate School. Courses cannot be taken at the 6000 level if their 4000-level counterparts are required for the undergraduate degree in the same academic major as the proposed graduate degree.

Procedure for Students
Prior to registration, the Graduate School will approve and register the student in the graduate level courses requested on the GS6 or GS6 BS/MS. Senior enrollment forms, GS6, Request for Senior Enrollment, and GS6BS/MS, are available at www.grad.clemson.edu/forms/GeneralForms.php.

GRADUATION REQUIREMENTS
A candidate for an undergraduate degree is a student who has submitted a completed diploma application by the deadline prescribed in the University calendar for a particular graduation date. Candidates who do not apply by the deadline will be subject to a late fee.

A student may specify up to two completed majors, two minors, and if applicable, two concentration/ emphasis areas per degree when applying for graduation. Second (double) majors and additional fields of study will not be retroactively added to a student’s record once the degree is conferred.

Only candidates who have completed all graduation requirements are permitted to participate in the graduation ceremony.

Residence Requirement
To qualify for an undergraduate degree, a student must complete through instruction from Clemson a minimum of 37 of the last 43 credits presented for the degree. A waiver may be obtained for approved study abroad experiences through the Undergraduate Studies Office, E-103 Martin Hall.

Makeup of Incompletes Received in Last Semester
The 30 day makeup period does not apply to candidates who receive an I in the semester of graduation. All final grades for candidates must be submitted by the deadline (including all makeup grades for Incompletes) in order for a candidate to graduate on the date of graduation for that semester.

Special Requirements
A cumulative grade-point average of 2.0 is required for graduation. Candidates for graduation must be officially accepted in the major in which they are applying for a degree no later than the date applications for diplomas are due.

Bachelor of Arts degree programs require completion of a minor and four semesters (through 2020) of a modern foreign language.

Awarding of Degrees Posthumously
An undergraduate student may be awarded a degree posthumously on the recommendation of the faculty of the college concerned, subject to the following conditions:

1. The student had at least a 2.0 grade-point average at the date of last enrollment;
2. Including credits scheduled in the term of last enrollment, the student has met 75% of the degree requirements and can meet the residence requirement for a degree which requires that 37 of the last 43 credits presented for a degree be earned at Clemson University; and
3. The student’s death occurred within two years of the end of the term of last enrollment at Clemson University.

Credit Limitation
Full work toward a degree is not completed within six years after entrance, the student may be required to take additional courses.

Academic Honors
Honor Graduates
To be graduated with honors, a student must have a minimum cumulative grade-point average as follows:
- Cum Laude—3.70
- Magna Cum Laude—3.85
- Summa Cum Laude—3.95

Honor Lists
At the end of the fall and spring semesters, the following lists shall be compiled of undergraduate students who have achieved grade-point averages of 3.50–4.00 on a minimum of 12 semester hours, exclusive of Pass/No Pass coursework.
- Dean’s List—3.50 to 3.99 grade-point average
- President’s List—4.00 grade-point average

Honors and Awards
The University offers a number of awards for outstanding achievement in specific fields and endeavors. Recipients are chosen by selection committees and are announced at the annual Honors and Awards Day program or other appropriate ceremonies. Detailed information relating to such awards is available in the offices of the academic deans and department chairs.

Second Baccalaureate Degree
To complete a second baccalaureate degree, a student must complete a minimum of 30 semester hours at Clemson in addition to the greater number of hours required for either degree and satisfy all course and grade requirements for the second degree.

Double Major
A student in a Bachelor of Arts degree program may be awarded a single baccalaureate degree with a double major. The two majors may be within a single college or may involve two colleges but are limited to Bachelor of Arts degree programs. All major requirements for both programs must be satisfied.
Graduate Degrees
Graduate degrees are available from all five colleges in addition to several interdisciplinary programs. Clemson University offers more than 100 graduate degree programs. The degrees of Doctor of Philosophy, Education Specialist, Master of Arts, Master of Science, Master of Agricultural Education, Master of Architecture, Master of Arts in Teaching, Master of Business Administration, Master of City and Regional Planning, Master of Construction Science and Management, Master of Education, Master of Engineering, Master of Fine Arts, Master of Forest Resources, Master of Human Resource Development, Master of Landscape Architecture, Master of Parks, Recreation and Tourism Management, Master of Professional Accountancy, Master of Public Administration, and Master of Real Estate Development are awarded to students who complete prescribed graduate programs.

Additional information is available from the Graduate School.

ACADEMIC RECORDS
The student’s permanent academic record is maintained in the Registrar’s Office and contains personal identifying information, grades, and credits. Where appropriate, statements of a corrective nature, withdrawals, suspension for failure to meet academic standards, suspension for disciplinary reasons, and graduation data are added. The academic record is a historical record of the student’s academic progress.

Classification
All new students are classified as freshmen unless they have attended another college prior to entrance. Students who have completed college work elsewhere will be classified on the basis of semester hours accepted at Clemson rather than the amount of work presented. To be classified as a member of any class other than freshman, students must meet the credit-hour requirements below:
- Sophomore—minimum 30 credit hours
- Junior—minimum 60 credit hours
- Senior—minimum 90 credit hours

Change of Major
Any undergraduate student who meets the Academic Eligibility Policy after attempting 12 credit hours at Clemson University (or who is allowed to continue by virtue of a semester 2.4 grade-point average on 12 earned credits or who is allowed to continue through appeal to the Appeals Committee on Academic Eligibility or by other authorization of this committee) may transfer from one major to another. Any college or department that seeks an exception to this policy must have the approval of the collegiate dean and the provost.

Withdrawal from the University
A student may withdraw from the University subject to the restrictions in the section on W—Withdraw. All University withdrawals (including withdrawing from the only course in which a student is enrolled) must be processed by the Associate Dean of Undergraduate Studies. Students should report to E-103 Martin Hall. Students receiving financial aid who withdraw from the University may have to repay significant portions of their financial aid. Students should report to G-01 Sikes Hall to determine the amount. For financial aid purposes, enrollment is defined and satisfactory academic progress levels are established as of midnight on the last day to drop without a W grade. Withdrawing from the University can negatively impact financial aid eligibility if a student has not completed a sufficient number of hours. Details are available at www.clemson.edu/finaid.

Academic Renewal
The student who has not enrolled at Clemson for a period of two or more academic years may apply to the Appeals Committee on Academic Eligibility for readmission under special conditions known as academic renewal, unless the student has been permanently dismissed. Under the academic renewal conditions, the previous credits attempted and grade-point deficit will not constitute a liability in a new grade-point computation; however, no credits passed or their attending grade points will be available to the student for a degree at Clemson, and any courses previously passed may not be validated by special examination. The previous record will appear on the permanent record as well as the notation of readmission under the policy of academic renewal. Students returning under the academic renewal policy will apply for financial aid should submit written notification of their status to the Office of Student Financial Aid in order to update their academic progress record. For financial aid purposes, terms enrolled in prior to academic renewal are still counted when evaluating satisfactory academic progress.

Transcripts
Official transcripts are issued only to the authorized, written request of the student. Requests should be directed to Transcripts, 104 Sikes Hall, Box 345125, Clemson, SC 29634-5125. Transcript Request forms may be downloaded at http://www.registrar.clemson.edu/transcript.html. Payment in advance is required and may be made by Discover, MasterCard, American Express, VISA and TigerStripe. The following must be included with the transcript request: full name (including any names used while at Clemson), social security number, current address, date of birth, and the student last attended Clemson, where the transcript is to be sent, student signature, and payment of $12 per transcript. Telephone requests will not be honored. Transcript requests are normally processed within 48 hours, but additional processing time may be required at the end of a semester. Information is available from the Enrolled Student Services Office at the address above or by telephone at 864-656-2173. Official transcripts are not issued for those who are indebted to the University.

UNDERGRADUATE ACADEMIC INTEGRITY
As members of the Clemson University community, we have inherited Thomas Green Clemson’s vision of this institution as a “high seminary of learning.” Fundamental to this vision is a mutual commitment to truthfulness, honor, and responsibility, without which we cannot earn the trust and respect of others. Furthermore, we recognize that academic dishonesty detracts from the value of a Clemson degree. Therefore, we shall not tolerate lying, cheating, or stealing in any form.

I. Academic Integrity Policy
A. Any breach of the principles outlined in the Academic Integrity Statement is considered an act of academic dishonesty.
B. Academic dishonesty is further defined as:
1. Giving, receiving, or using unauthorized aid, including the inappropriate use of electronic devices, on any work submitted to fulfill academic requirements. In examination situations all electronic devices must be off and stowed unless otherwise authorized by the instructor.
2. Plagiarism, which includes the intentional or unintentional copying of language, structure, or ideas of another and attributing the work to one’s own efforts;
3. Attempts to copy, edit, or delete computer files that belong to another person or use of computer accounts that belong to another person without the permission of the file owner or account owner;
C. All academic work submitted for grading or to fulfill academic requirements contains an implicit pledge and may contain, at the request of an instructor, an explicit pledge by the student that no unauthorized aid has been received.
D. It is the responsibility of every member of the Clemson University community to enforce the Academic Integrity Policy.

II. Academic Integrity Committee
The power to hear cases of academic dishonesty is vested in an Academic Integrity Committee.

A. Structure—The Academic Integrity Committee is composed as follows:
1. Two tenured faculty members from each college elected by their respective collegiate faculties. Faculty members will be elected on a staggered term basis, serving for a period of two years after initiation of staggered terms. Terms commence with fall semester late registration.
2. Two undergraduate students from each college. Student members are nominated by the Student Body President, through an application and interview process in the spring semester, approved by the Student Senate, and appointed by the provost for terms of two years. Student members must have a 3.0 grade-point average at the time of appointment and must have completed 30 hours by the end of the spring semester. Nominations will be made in the spring semester with terms of service commencing with fall semester late registration.
3. The committee is divided into four standing hearing boards, which will hear the cases of academic dishonesty. Hearing boards convene on a weekly, rotational basis unless there are no cases to be heard. For summer sessions, the Associate Dean of Undergraduate Studies must maintain at least one hearing board to hear cases.
4. Hearing boards are composed of two faculty members, two students, and one chairperson. Quorum, for a hearing board, is one student, one faculty member, and a chairperson. Decisions by the hearing board will be by majority vote.
5. Chairpersons will be elected from within the Committee’s membership. Two chairpersons are selected from the faculty membership and two from the student membership.
6. Before hearing any cases, a new member of the committee must undergo a training session(s) with the Associate Dean of Undergraduate Studies.

7. The Associate Dean of Undergraduate Studies is the administrative coordinator of the Academic Integrity Committee.

B. Procedures
1. When, in the opinion of a course instructor, there is evidence that a student has committed an act of academic dishonesty, that person must make a formal written charge of academic dishonesty, including a description of the misconduct, to the Associate Dean of Undergraduate Studies. The reporting person may, at his/her discretion, inform each involved student privately of the nature of the alleged charge. In cases of plagiarism (I.B.2.) instructors may use, as an option, the Plagiarism Resolution Form available from the Office of Undergraduate Studies.

2. When, in the opinion of a student, there is evidence that another student has committed an act of academic dishonesty, he/she should contact the instructor for the course to discuss the incident. After being contacted, if, in the opinion of the instructor, there is evidence that a student has committed an act of academic dishonesty, the instructor must make a formal written charge of academic dishonesty, including a description of the misconduct, to the Associate Dean of Undergraduate Studies. The instructor may, at his/her discretion, inform each student involved privately of the nature of the alleged charge.

3. If, for any reason, the person who first discovered an integrity violation is not available to present a charge, the department chair (or designee) or college Associate Dean for the department in which the course is taught may submit the charge to the Associate Dean of Undergraduate Studies.

4. When the Associate Dean of Undergraduate Studies has received a formal charge of an alleged violation, he/she will contact the student involved privately to notify him/her of the charge and will provide the student with a copy of the charge and a copy of the procedures that the Academic Integrity Committee has adopted, pursuant to number 7 below. If a student is charged with academic dishonesty, he/she may not withdraw from the course unless he/she is exonerated of the charge. If a student is found in violation of the academic integrity policy and receives a forgivable grade, he/she will not be allowed to have that grade forgiven under the Academic Forgiveness Policy. If the student fails to respond to the Associate Dean’s requests for a meeting within ten university working days, the student is considered to have waived his/her right to a hearing, thus admitting to being in violation of the Academic Integrity Policy.

5. After informing the student involved, the Associate Dean of Undergraduate Studies will convene one of the boards of the Academic Integrity Committee within 14 calendar days (exclusive of University holidays) from the date that the accused student provides a written rebuttal to the charge. The student will provide the rebuttal no later than five university working days following notification of the charge from Undergraduate Studies. (Students charged in the spring term, but not enrolled in summer sessions, may be given a continuance to the next fall term. Should the University schedule be interrupted due to emergency circumstances, academic integrity cases will be resolved as soon as possible once classes resume.) All students will be presumed not in violation of a charge until found in violation by a hearing board. Each party is responsible for having present at the hearing all witnesses that he/she wishes to speak on his/her behalf. Witnesses must have firsthand knowledge of the events under discussion.

6. A charge of academic dishonesty in a course must be made within thirty days after the beginning of the next term, exclusive of summer vacation. For cases that are not resolved before course grades are due, instructors will assign an Incomplete as a placeholder for the grade. This Incomplete grade will be replaced with the course grade once the case is resolved.

7. The Academic Integrity Committee will adopt its procedures, to be followed by all hearing boards, prior to the first case heard by a hearing board. In addition to providing the student with a copy of the procedures, as stated in number 4 above, the Associate Dean of Undergraduate Studies will provide a copy of the procedures to the involved course instructor and also the hearing board members. The Associate Dean of Undergraduate Studies will also retain copies of these procedures. The procedures must afford both instructors and students the opportunity to present their cases and the opportunity for rebuttal.

8. In cases in which there is a finding of “in violation,” the course instructor may consult with the Associate Dean of Undergraduate Studies to consider any past precedent established regarding academic penalties levied in similar cases. Instructors must inform the Associate Dean of Undergraduate Studies of the academic penalty for a student found “in violation” by a hearing board.

9. The Associate Dean of Undergraduate Studies is responsible for notifying the registrar and all other appropriate University personnel of the finding of “in violation” and the academic penalty. The Associate Dean of Undergraduate Studies retains all records of academic dishonesty cases and their findings in accordance with the University’s Records Retention Policy.

C. Penalties
1. Upon a finding of “not in violation” by a hearing board, the student’s record will not reflect the student.

2. Upon a finding of “in violation” by a hearing board, the Associate Dean of Undergraduate Studies will notify the student and course instructor of the decision immediately. If the offense is the first for the student, then the instructor has the ability to determine the academic penalty, which shall not exceed a grade of F for the course.

3. If the finding of “in violation” is not the student’s first offense, the student will receive a grade of F in the instance of coursework, and, in all cases, will be suspended from the University for one or more full semesters, and may be permanently dismissed from the University. The hearing board will determine the period for which the student will be suspended or, if applicable, permanently dismissed. If the accused student waives his/her right to a hearing and the incident is not a first offense, the student will receive a grade of F in the case of coursework and, in all cases, will be suspended from the University for one or more semesters or will be permanently dismissed, at the discretion of the Associate Dean of Undergraduate Studies.

D. Appeals
1. Students do not have the option to appeal a decision rendered by the hearing board, whether it is the first, second, or any subsequent offense. Students do not have the option to appeal the penalty determined by the course instructor for first offenses or to appeal the grade of F for the course given for second offenses.

2. For offenses resulting in suspension of two or more semesters or permanent dismissal, students have the option to present written information to the Dean of Undergraduate Studies to appeal the length of the suspension or to appeal a decision of permanent dismissal. Students must present information in their defense, as allowed in this paragraph, to the Dean within five university working days after receipt of written notification of the suspension or dismissal. However, as stated in number 1 above, students cannot appeal a decision rendered by the hearing board.
from each college. Faculty representatives are elected by their colleges and serve three-year terms. Student representatives are appointed by the President of the Student Senate and serve two-year terms. The Chair of the Academic Grievance Committee is appointed by the Dean of Undergraduate Studies.

Before hearing any cases, a new member of the Academic Grievance Board must undergo a training session(s) with the Associate Dean of Undergraduate Studies.

The Academic Grievance Expedited Committee is responsible for hearing certain grievances for students that are to be graduating in the same semester the contested grade is presented to the committee (see section V). The Academic Grievance Expedited Committee comprises the Dean of Undergraduate Studies, and two available members (one faculty, one student) of the Academic Grievance Committee. The Academic Grievance Expedited Committee will only follow the procedure established under "Supplementary Procedure for Graduating Seniors" (see section V below).

III. Grounds for Academic Grievances

The Academic Grievance Board provides for hearings on academic grievances that are based on either or both of the following claims:

A. The method used for arriving at a student's final grade was in clear violation of the method described in the instructor's course syllabus.

B. The method used for arriving at a student's final grade was in clear violation of departmental, college or university policy.

The Academic Grievance Board will not attempt to substitute its judgment for an instructor's on such matters as a) quality of the instructor's teaching, b) quality of the student's work, or c) quality of course content.

The Academic Grievance Committee shall not hear any grievances including allegations of discrimination based on age, color, disability, gender, gender identity, race, religion, sexual orientation, or veteran's status even if the grievance falls within one of the categories noted above. All such discrimination complaints should be submitted to the Office of Access and Equity in 110 Holtzendorff, 656-3181. The Academic Grievance Committee shall refer any such discrimination complaints it receives to the Office of Access and Equity.

IV. Rules and Procedures for Academic Grievances

1. Any student filing a grievance must first attempt to resolve it by consulting with the involved faculty member. In the event that the student and faculty member cannot arrive at a resolution, the student shall consult with the department chair of the faculty member and the Dean of the college of the faculty member. The department chair and Dean shall make every effort to help the student and the faculty member arrive at a resolution to the problem. Until a formal complaint is filed, the student may consult with the Undergraduate Student Ombudsman.

2. If the grievance remains unresolved, the student may bring the grievance before the Academic Grievance Board. The student must first meet with the Associate Dean in the Office of Undergraduate Studies. The Associate Dean will describe the grievance process to the student. If the student wishes to proceed with the grievance, the student will provide a written statement detailing the grievance to the Associate Dean. The written statement must specify the specific syllabus, departmental, college or university policy that the student alleges to have been violated.

In addition, the student will secure, from the Office of Undergraduate Studies, a grievance checklist form, which will then be returned to the Associate Dean for signature. Both the written statement and the completed checklist form must be delivered to the Office of Undergraduate Studies within the first 30 calendar days (exclusive of summer vacation) of the term following that in which the student alleges to have been aggrieved. The failure of a student to file a grievance within the 30-day period will cause him/her to forfeit his/her right to file a grievance under this procedure.

3. When all procedures described in item IV.1 have been completed, the Office of Undergraduate Studies will forward a copy of the grievance to the chair of the Academic Grievance Panel. The chair of the Academic Grievance Panel shall, upon receipt of the grievance, convene the Academic Grievance Panel to review the grievance. The Office of Undergraduate Studies shall retain the original documents.

4. The Academic Grievance Panel will review the grievance and ascertain whether the complaint meets the criteria for "Grievances for Academic Grievances" (III above). The Academic Grievance Panel will handle each case in a confidential manner.

5. Following the complaint review, the Academic Grievance Panel, within 14 days of receiving the complaint, will (a) make a written recommendation to the Associate Dean to dismiss the grievance, with the grievance identified by complaint number, or (b) make a written recommendation to the Academic Grievance Committee to hear the grievance and arrive at a recommendation. In the case that the Academic Grievance Panel recommends that the grievance be heard by the Academic Grievance Committee, a copy of the recommendation, identified by complaint number, will be forwarded to the Office of Undergraduate Studies.

6. If the Academic Grievance Panel recommends dismissal of the case, the Associate Dean will notify the student, the involved faculty member, the department chair of the involved faculty member, and the involved collegiate Dean. The involved collegiate Dean shall notify the student, the involved faculty member, the department chair of the involved faculty member, the involved collegiate Dean, and the Associate Dean of Undergraduate Studies of the decision.

7. If the Academic Grievance Panel recommends a hearing, the Chair of the Academic Grievance Committee shall, upon receipt of the recommendation from the Academic Grievance Panel and all relevant documents, appoint a three-person subcommittee to hold a hearing on the grievance. The subcommittee will be selected from among the members of the Academic Grievance Committee. The subcommittee will consist of a faculty member assigned to serve as the subcommittee chairperson, another faculty member, and a student representative to the subcommittee. If possible, the subcommittee shall include members who are not in the same college as the grievant or the faculty member against whom the grievance has been filed.

8. Prior to a hearing (see item 9 below) a representative of Undergraduate Studies will contact the student who has filed the grievance as well as the faculty member against whom the grievance has been filed. Undergraduate Studies will provide copies of the grievance to both parties, answer any procedural questions that the parties have, and also ask each party if they have anything to add to the written record prior to the hearing. If additional written materials are submitted prior to the hearing, copies will be distributed to all subcommittee members and to all parties to the grievance. The subcommittee will, to the extent possible, handle each case in a confidential manner.

9. Academic Grievance hearings shall convene at a standardized location and time, as defined by the Office of Undergraduate Studies. The hearing shall take place during the next available standard meeting time after the subcommittee has received the necessary materials.

10. The hearing of the grievance will be informal and shall be closed to the public. The Associate Dean of Undergraduate Studies shall, as facilitator, take necessary action to ensure an equitable, orderly, and expeditious hearing. All parties to the grievance shall be given an opportunity to be heard. In addition, the chairperson may request the presence of any other person who can supply information pertinent to the grievance. Witnesses shall not be present during the hearing proceedings except when they are called to speak before the committee. The parties shall be permitted to question all individuals who are heard by the committee. If any witness is unable to be present at the hearing, the chairperson may, at his/her discretion, accept a written statement from that witness to be presented at the hearing. The parties shall be accorded the right to assistance of counsel of their own choice; however, counsel shall not be permitted to participate actively in the proceedings.

11. Upon conclusion of the hearing, the subcommittee shall reach, by majority vote, a posed solution to the grievance. The subcommittee chairperson shall then formulate the findings in writing. Copies of the written findings and recommended solution will be forwarded to both parties to the grievance for acceptance. Each party will be asked to indicate acceptance of the posed solution within 14 calendar days of its date. Failure to respond within 14 calendar days will constitute acceptance. In the event that both parties agree to a change in grade, the Associate Dean of Undergraduate Studies will also notify the Office of Records and Registration of the decision.

12. If, after the conclusion of the hearing on the grievance, acceptance of the posed solution cannot be secured, the grievance shall be referred to the Dean of Undergraduate Studies. When grievances are referred in this manner, the Dean of Undergraduate Studies, on behalf of the University, shall make the final decision on the solution to the grievance and will then notify the student, the involved faculty member, the department chair of the involved faculty member, the involved collegiate Dean, and the Associate Dean of Undergraduate Studies of the University's final decision. In the event that the Dean of Undergraduate Studies decides in favor of a change in grade, the Dean of Undergraduate Studies will also notify the Office of Records and Registration of the University's decision.
I. Submission of Fraudulent Admissions Credentials

The submission of fraudulent admissions credentials in the student’s application or any other documents submitted for admission to Clemson University may result in initiation of action under the Policy and Procedure on Revocation of Academic Degrees.

II. Academic Dishonesty in Coursework

A. In the event that the act is alleged to have occurred within the context of a course and is consistent with the general definition of academic dishonesty presented in Sections 1 of the Academic Integrity Policy, the same procedures in that policy will apply except for academic misconduct listed in III below.

B. Graduate Students—If the resulting penalty is either the assignment of a grade of D or F in a required graduate course, or the issuance of any grade that causes the student not to possess a cumulative B average in both graduate courses and in all courses taken while in residence, action under the Policy and Procedures on Revocation of Academic Degrees may be initiated.

C. Undergraduate Students—If the resulting penalty causes the student to no longer have the necessary credit hours, coursework, or grade average for receiving a degree, action under the Policy and Procedures on Revocation of Academic Degrees may be initiated.

III. Falsification of Data and Plagiarism in Theses, Dissertations, or Other Final Projects

Data falsification, plagiarism (as defined in the Academic Integrity Policy) and other acts of academic dishonesty in a thesis, dissertation, or other final project may result in initiation of action under the Policy and Procedure on Revocation of Academic Degrees.

IV. REVOCAITION OF ACADEMIC DEGREES

A. Academic institutions have a critical responsibility to provide an environment that promotes integrity, while at the same time encouraging openness and creativity among scholars. Care must be taken to ensure that honest error and ambiguities of interpretation of scholarly activities are distinguishable from outright misconduct. This policy is applicable to fraudulent or other misconduct in obtaining an academic degree which is so egregious that a mechanism for revoking an academic degree, either graduate or undergraduate, must be undertaken. The Clemson University Board of Trustees has the authority to revoke any degree previously awarded.

Definitions

As used herein, the following terms shall apply:

A. When the degree holder was an undergraduate student:

1. “Dean” shall mean the Dean of the academic college where student was enrolled.

2. “Committee of Investigation and Recommendation” shall be composed of the members of the standing University Undergraduate Academic Eligibility Appeals Committee. An undergraduate student will be appointed to the Committee of Investigation and Recommendation by the President of the Student Body within ten (10) calendar days of notification by the President of the Faculty Senate.

Any member of the Academic Eligibility Appeals Committee who is a faculty member in the department which awarded the degree involved shall not be a member of the Committee of Investigation and Recommendation for that particular investigation. If there are fewer than three (3) non-disqualified faculty members, the President of the Faculty Senate shall appoint additional faculty members to bring the number of faculty committee members up to three (3). If the President of the Faculty Senate is from the same department that awarded the degree involved, the President-Elect of the Faculty Senate shall appoint the additional member.

B. When the degree holder was a graduate student:

1. “Dean” shall mean the Dean of the Graduate School.

2. “Committee of Investigation and Recommendation” shall be composed of the members of the standing University Graduate Admissions and Continuing Enrollment Appeals Committee, except for the Associate Dean of the Graduate School who shall not be a member of the Committee of Investigation and Recommendation. A graduate student will be appointed to the Committee of Investigations and Recommendation by the President of Graduate Student Government within ten (10) calendar days of notification by the President of the Faculty Senate.

Any member of the Graduate Admissions and Continuing Enrollment Appeals Committee who is a faculty member in the department which awarded the degree involved shall not be a member of the Committee of Investigation and Recommendation for that particular investigation. If there are fewer than three (3) non-disqualified faculty members, the President of the Faculty Senate shall appoint additional faculty members to bring the number of faculty committee members up to three (3). If the President of the Faculty Senate is from the same department that awarded the degree involved, the President-Elect of the Faculty Senate shall appoint the additional member.

Complaint

An allegation or complaint involving the possibility of misconduct can be raised by anyone. The allegation should be made in writing to the Dean.

Initial Review

The Dean will conduct the initial review to determine whether or not the allegation has merit. The Dean may discuss the matter with the former student’s advisory committee (if any) and other faculty as appropriate. The Dean may also contact persons outside the University who may be able to provide factual information on the alleged misconduct or who may otherwise have expertise concerning issues involved in the alleged misconduct. If the Dean determines that the allegation has no merit, he/she will terminate the investigation. If the Dean determines that serious academic misconduct is suspected, the Dean will notify the President of the Faculty Senate in writing in a confidential manner. The Dean shall also notify the Executive Vice President for Academic Affairs and Provost of the charge but will not discuss any details of the charge.
Committee of Inquiry

The President of the Faculty Senate shall, within (10) calendar days of receipt of the notification from the Dean, appoint three (3) faculty members to the Committee of Inquiry and notify the President of Graduate Student Government or the President of the Student Body, as appropriate, who shall appoint a graduate or undergraduate student, as appropriate, to the Committee of Inquiry within ten (10) calendar days of notification. The President of the Faculty Senate shall also notify the degree holder of the formation of a Committee of Inquiry.

If the Faculty Senate President is from the same department that awarded the degree involved, the President-Elect of the Faculty Senate shall appoint the Committee of Inquiry. The faculty members will be appointed from departments which did not award the degree involved. The Committee will elect its chairman from the faculty members on the Committee.

For each allegation, the Committee of Inquiry will review the complaint and any other information provided by the Dean and determine whether there is sufficient evidence to warrant a formal charge of academic misconduct and further investigation under this policy. While the Committee of Inquiry shall not make a recommendation as to whether a degree should be revoked, the purpose is to provide a review to separate frivolous, unjustified or mistaken allegations from those requiring a more detailed and formal investigation. The Committee of Inquiry will review the evidence and must determine that the alleged misconduct more probably than not occurred in order for the committee to recommend a formal charge and further investigation.

Within thirty (30) calendar days of the formation of the Committee of Inquiry, the Committee of Inquiry will submit a written report to the President of the Faculty Senate. If the Committee of Inquiry’s report finds that the investigation should not proceed, the President of the Faculty Senate shall terminate the investigation and notify the appropriate persons. If the Committee of Inquiry’s report finds that a formal charge and further investigation are warranted, the President of the Faculty Senate shall, within ten (10) calendar days of receipt of the report of the Committee of Inquiry, send a copy of that report to the Dean and to the Committee of Investigation and Recommendation. The President of the Faculty Senate shall also immediately notify the President of Graduate Student Government or President of the Student Body (whichever is appropriate) that a student representative needs to be appointed to the Committee of Investigation and Recommendation. The President of the Faculty Senate shall also notify the Executive Vice President for Academic Affairs and Provost of the Committee of Inquiry’s recommendation. No details of the charge will be discussed. Note: A majority vote of the Committee of Inquiry is necessary to recommend that a formal charge and further investigation be warranted. A tie vote means that the investigation is terminated as stated herein.

Notification to Degree Holder

The Dean shall issue in writing, within ten (10) calendar days of receipt of the report of the Committee of Inquiry, a formal charge of academic misconduct to the degree holder. This written notice shall detail the factual allegations for the charge and the evidence supporting the charge. This written notice shall also inform the degree holder that if the charges are substantiated, the degree holder’s degree could be revoked. This written notice shall also inform the degree holder of his/her right to appear at a hearing as stated in this policy. The Dean shall also send with this notice a copy of this Policy and Procedure on Revocation of Academic Degrees to the degree holder. This notice shall be delivered to the accused in person or sent by certified mail, return receipt requested.

Committee of Investigation and Recommendation

The Committee of Investigation and Recommendation shall extend to the degree holder the following process:

1. Notice of the nature of the complaint
2. Notice of the evidence supporting the complaint
3. Notice of the hearing
4. The opportunity to present evidence, including testimony
5. The opportunity to hear the testimony against the degree holder
6. The opportunity to ask questions of all witnesses
7. The opportunity to have an attorney or advisor present at the hearing; however, the role of the attorney or advisor shall be to assist the party, and the attorney or advisor shall not be permitted to participate actively in the proceedings.

The degree holder shall not be entitled to know the identity of the person(s) who originally made the complaint unless that person agrees that his/her identity can be revealed.

The chair of the Committee of Investigation and Recommendation shall inform the degree holder of the time and date of the hearing.

The Degree or her designee shall present the accusation against the degree holder at the hearing and may have one additional representative present during the hearing. Under this section the term “Dean” is understood to include the Dean’s designee, if such a designation is made.

The degree holder and the Dean may submit written materials to the Committee of Investigation and Recommendation prior to the hearing. The chair of the Committee of Investigation and Recommendation shall make available the materials received to the other party and to all committee members.

The hearing before the Committee of Investigation and Recommendation shall be held no sooner than thirty (30) calendar days and no later than ninety (90) calendar days after receipt of the report of the Committee of Inquiry unless the degree holder and the Dean agree to a different date. All matters pertaining to the hearing shall be kept as confidential as possible and the hearing shall be closed to the public. A verbatim record of the hearing will be made and shall be made a part of the hearing record. The degree holder and the Dean shall be responsible for having any witnesses they wish to testify in attendance at the hearing. Witnesses will be present only while testifying.

The chair of the Committee of Investigation and Recommendation shall take whatever action is necessary during the hearing to ensure a fair, orderly, and expeditious hearing. No formal rules of evidence will be followed. If any objection is made to any evidence being offered, the decision of the majority of the committee shall govern. Irrelevant, immaterial, or unduly repetitious evidence shall be excluded.

The degree holder and the Dean shall be permitted to offer evidence and witnesses pertinent to the issues. The Dean shall present the case against the accused first. The accused shall then present his/her response.

The chair will allow each party to ask questions of the other party and will allow each party to ask questions of the other party’s witnesses at the appropriate time during the hearing as determined by the chair.

Members of the committee may ask questions of any party or any witness at any time during the hearing.

Within fifteen (15) calendar days of the conclusion of the hearing, the Committee of Investigation and Recommendation shall submit a written report to the Executive Vice President for Academic Affairs and Provost. The report shall contain findings and a recommendation as to whether the degree holder’s degree should be revoked. The Committee of Investigation and Recommendation must find clear and convincing evidence that serious academic misconduct has been committed in order to recommend the revocation of the degree holder’s degree. If the Committee of Investigation and Recommendation does not find clear and convincing evidence of serious academic misconduct, the Committee of Investigation and Recommendation cannot recommend revocation of the degree holder’s degree and the matter shall be closed.

Note: A majority vote of the Committee of Investigation and Recommendation is necessary to recommend the revocation of a degree holder’s degree. This means that a tie vote will result in the matter being closed.

At the same time that the report is sent to the Executive Vice President for Academic Affairs and Provost, the chair of the Committee of Investigation and Recommendation shall send a copy of the report to the degree holder, the Dean, and other appropriate persons involved in the process.

If the Committee of Investigation and Recommendation recommends that the degree holder’s degree be revoked, the chair shall also send a complete copy of the hearing record to the Executive Vice President for Academic Affairs and Provost. The hearing record shall consist of the transcript of the hearing and all documents that were submitted to the committee. The chair of the Committee of Investigation and Recommendation shall label which documents were submitted by each party when forwarding this information to the Executive Vice President for Academic Affairs and Provost.

If the Committee of Investigation and Recommendation recommends that the degree holder’s degree be revoked, the chair shall also send a copy of the transcript of the hearing to the degree holder and the Dean at the same time that it is sent to the Executive Vice President for Academic Affairs and Provost.
Executive Vice President for Academic Affairs and Provost

If the Committee of Investigation and Recommendation recommends that the degree be revoked, the Executive Vice President for Academic Affairs and Provost shall review the hearing record and the report of the Committee of Investigation and Recommendation. If the Executive Vice President for Academic Affairs and Provost decides that the degree holder’s degree should not be revoked, he/she shall notify the degree holder, the Dean, the Committee of Investigation and Recommendation and other appropriate persons involved in the process, in writing, within twenty-one (21) calendar days of receipt of the transcript of the hearing, and the matter shall be closed. If the Executive Vice President for Academic Affairs and Provost decides to recommend that the degree holder’s degree should be revoked, the Executive Vice President for Academic Affairs and Provost shall send that recommendation in writing to the President of the University within twenty-one (21) calendar days of receipt of the hearing record. The Executive Vice President for Academic Affairs and Provost shall send a copy of his/her recommendation to the degree holder, the Dean, the Committee of Investigation and Recommendation, and other appropriate persons involved in the process.

If the Executive Vice President for Academic Affairs and Provost is disqualified from reviewing the case, the Dean of Undergraduate Studies shall be substituted for the Executive Vice President for Academic Affairs and Provost.

President

If the Executive Vice President for Academic Affairs and Provost recommends to the President that the degree holder’s degree should be revoked, the President shall transmit that recommendation along with the report of the Committee of Investigation and Recommendation and the hearing record to the Executive Secretary of the Board of Trustees within thirty (30) calendar days of receipt. If the President wishes to make a recommendation, he/she shall review the recommendation of the Executive Vice President for Academic Affairs and Provost, the report of the Committee of Investigation and Recommendation, and the hearing record and forward his recommendation to the Executive Secretary of the Board of Trustees within thirty (30) calendar days of receiving the recommendation of the Executive Vice President for Academic Affairs and Provost.

Board of Trustees

The Executive Secretary of the Board of Trustees shall send to all trustees the hearing record, the recommendation of the Executive Vice President for Academic Affairs and Provost, the report of the Committee of Investigation and Recommendation, and the recommendation of the President, if any. A majority vote by the Board of Trustees, at a duly constituted Board meeting, is required to revoke an academic degree. The decision of the Board of Trustees shall be final.

Guiding Principles

All actions taken by committees shall be effective by a majority vote.

All investigations, hearings, and actions shall be kept as confidential as possible except for notice of any revocation approved by the Board of Trustees.

A decision not to proceed at any stage of the proceedings set forth in this policy does not necessarily mean that the original complaint was groundless.

For good cause shown, at the request of either party and the approval of the other, the Executive Vice President for Academic Affairs and Provost shall extend any time limit set forth in this policy. Any such time extension shall be communicated in writing to all appropriate parties.

Administrative Action if Degree is Revoked

If a degree is revoked by the Board of Trustees, the former student’s transcript will be modified to reflect that the degree was revoked, and the former student will be informed of the revocation and requested to return the diploma. If the former student was enrolled in a program requiring a thesis or dissertation, all bound copies will be removed from the Clemson University Library. In addition, for doctoral students, University Microfilms, Inc. will be notified and requested to take appropriate action.

Students whose degrees have been revoked may be eligible to reapply for admission according to normal University procedures and policies in effect at the time of reapplication.
GENERAL EDUCATION

An undergraduate student whose enrollment in a curriculum occurs after May 15, 2005, must fulfill the general education requirements in effect at that time. If a student withdraws from the University and subsequently returns or does not remain continuously enrolled (summers excluded), the requirements in effect at the time of return will normally prevail. Any variation in curricular or general education requirements shall be considered under the curriculum year change or the substitution procedure.

MISSION STATEMENT

Academic institutions exist for the transmission of knowledge, the pursuit of truth, the intellectual and ethical development of students, and the general well-being of society. Undergraduate students must be broadly educated and technically skilled to be informed and productive citizens. As citizens, they need to be able to think critically about significant issues. Students also need to be prepared to complete undergraduate work and a major course of study. The mission requires a high level of knowledge about and competence in the following areas:

General Education Competencies

A. Arts and Humanities
Demonstrate an understanding of the arts and humanities in historical and cultural contexts.

B. Mathematics
Demonstrate mathematical literacy through solving problems, communicating concepts, reasoning mathematically, and applying mathematical or statistical methods, using multiple representations where applicable.

C. Natural Sciences
Demonstrate the process of scientific reasoning by performing an experiment and thoroughly discussing the results with reference to the scientific literature, or by studying a question through critical analysis of the evidence in the scientific literature.

D. Social Sciences
Describe and explain human actions using social science concepts and evidence.

E. Cross-Cultural Awareness
Demonstrate the ability to critically compare and contrast world cultures in historical and/or contemporary contexts.

F. Science and Technology in Society
Demonstrate an understanding of issues created by the complex interactions among science, technology, and society.

G. Communication
Effective oral and written communication is the means by which all competencies will be demonstrated.

H. Critical Thinking
Demonstrate the ability to assemble information relevant to a significant, complex issue, evaluate the quality and utility of the information, and use the outcome of the analysis to reach a logical conclusion about the issue.

I. Ethical Judgment
Demonstrate an ability to identify, comprehend, and deal with ethical problems and their ramifications in a systematic, thorough, and responsible way.

REQUIREMENTS—33 credit hours

To meet general education competencies, 33 total credit hours are required, distributed as follows: I. General Education Coursework—31 credit hours; II. Distributed Coursework—2 credit hours.

I. General Education Coursework—31 hours required

General education requirements in some curricula are more restrictive than those shown below. Science and Technology in Society and Cross-Cultural Awareness requirements may be satisfied by other General Education courses, as indicated in the footnotes below, as long as the student completes a total of 31 hours in area I. and satisfies requirements A-F below:

A. Communication: at least 6 credits

English Composition.......................................................... 3 credits

Oral Communication.......................................................... 3 credits

*B. Mathematical, Scientific, and Technological Literacy: at least 10 credits

Mathematics ................................................................................. 3 credits

Natural Science with Lab .................................................................. 4 credits

Mathematics or Natural Science .................................................. 3 credits

C. Arts and Humanities: at least 6 credits

Literature .............................................................................. 3 credits

Non-Literature ....................................................................... 3 credits

D. Social Sciences

E. Cross-Cultural Awareness

F. Science and Technology in Society

G. Communication

H. Critical Thinking

Any 2000-level ENGL literature course (ENGL 2020, 2120, 2130, 2140, 2150), CHIN 4010, FR 3000, 3040, GER 2600, 3060, 3600, 3610, HON 1900, 2210, ITAL 3010, 3020, JAPN 4010, 4060, RUSS 3600, 3610, SPAN 3110, 3130

Any 2000-level ENGL literature course (ENGL 2020, 2120, 2130, 2140, 2150), CHIN 4010, FR 3000, 3040, GER 2600, 3060, 3600, 3610, HON 1900, 2210, ITAL 3010, 3020, JAPN 4010, 4060, RUSS 3600, 3610, SPAN 3110, 3130
D. Social Sciences: at least 6 credits

Selected from two different fields................................................. 6 credits

Note: AGRB and ECON are considered the same field.

NOTE: Science and Technology in Society and Cross-Cultural Awareness requirements may be satisfied by other General Education courses, as indicated in the footnotes below, as long as the student completes a total of 31 hours in area I.

E. Cross-Cultural Awareness: at least 3 credits

AAH 1020, AGRB 2050, ANTH 2010, ART 2100, ASL 3050, CAAH 2010, COMM 1800, GEOG 1030, HIST 1720, 1730, 1930, HON 1930, 2090, HUM 3090, IS 1010, 2100, LANG 2500, 2540, MUSC 2100, 3140, PAS 3010, POSC 1020, 1040, PSYC 2500, REL 1010, 1020, WS 1030, or through a University-approved cross-cultural experience

F. Science and Technology in Society: at least 3 credits

AGED (EDF) 4800, AGRB 2050, (ECON) 4570, AVS 3150, 4150, BIOL 2000, 2010, 2030, 2040, 2100, 2110, 2200, 4730, CH 1050, 1060, COMM 1070, 3070, CTE 1150, 2210, ECE 1010, ECON 3190, (AGRB) 4570, EDF (AGED) 4800, ENGL 3490, ENGR 2200, ENR 3120, (FOR) 4160, ENSP (GEOG) 1250, 2000, (PES) 3150, 4000, ENT 2000, FDSC 2140, FOR (ENR) 4160, GEOL 1120, 1200, (ENSP) 1250, 2700, 3000, HCG (NURS) 3300, HIST 1220, 1240, 3210, 3220, 3230, 3920, 4240, 4910, HLTH 4310, HON 1940, 2010, 2060, IE 4880, LARC 1160, MKT 4450, MSE 1010, MUSC 3180, NURS 1400, (HCG) 3330, NUTR 2030, 2100, PES (ENSP) 3150, PHIL 1240, 2100, 3240, 3260, 3280, 3400, 3450, PHHS 2450, PKSC 3680, PLPA 2130, PRTM 2110, PSYC 2750, RS (SOC) 4010, SOC (RS) 4010, 4030, STAT 2220, STS 1010, 1020, 1200, 2110, 2150, 2160, 3010, 3030, 4980, 4990

1This course also satisfies the Science and Technology in Society Requirement.

2This course also satisfies the Cross-Cultural Awareness Requirement.

II. Distributed Coursework: 2 credits

A. Academic and Professional Development: at least 2 credits

Departmental courses approved by the Undergraduate Curriculum Committee addressing the general academic and professional development of the student.

B. Distributed Competencies Coursework

Courses in general education and the disciplines incorporate critical thinking, ethical judgment, and both written and oral communication skills into the curriculum. Some curricula use a cluster of courses to meet the oral communication competency.
MINORS

A minor consists of at least 15 semester hours, with no fewer than nine credits at the 3000 level or higher. A student cannot major and minor in the same field or acquire a minor that is not allowed by the degree program. In programs that require a minor, courses may not be used to fulfill both the major and minor requirements. Courses that count towards a student’s major, but are outside the major’s course rubric, may also be used to fulfill minor requirements. Students are encouraged to contact the department offering the minor for advising. Specific requirements are detailed below.

Note: Some courses in the minors have prerequisite courses. Students should select a minor and take any prerequisites as early as possible in their academic careers.

Accounting (18 credits)
A minor in Accounting requires ACCT 2010, 3110, 3120, and nine hours selected from 3000- or 4000-level accounting courses. Students planning to pursue the Master of Professional Accountancy degree program should select courses in consultation with the school’s graduate coordinator.

Adult/Extension Education (15 credits)
A minor in Adult/Extension Education requires AGED 4030, 4400, and nine additional credits selected from the following: AGED 4070, 4280, EDF (AGED) 4820, PRTM 3580.

Aerospace Studies (24 credits)
A minor in Aerospace Studies requires AS 1090, 1100, 2090, 2100, 3090, 3100, 4090, and 4100. Completion of AS Leadership Laboratory and participation in cadet activities are mandatory. Students must compete for an allocation and be accepted into the Professional Officer Course before enrolling in AS 3090.

Agricultural Business Management (15 credits)
A minor in Agricultural Business Management requires AGRB 3020, 3090, 3190, and at least two courses selected from AGRB 3510, 4020, 4080, 4090, 4520, 4560, 4600.

Agricultural Mechanization and Business (15 credits)
A minor in Agricultural Mechanization and Business requires six credit hours selected from AGM 2050, 2060, 2210, 3010, 3030, AGED 3050; and nine credit hours from AGM 4020, 4050, 4060, 4100, 4520, 4600, 4720.

American Sign Language Studies (15 credits)
A minor in American Sign Language Studies requires 15 credit hours in ASL at the 3000 or 4000 level.

Animal and Veterinary Sciences (15 credits)
A minor in Animal and Veterinary Sciences requires AVS 1500 and 1510; one course selected from AVS 2000, 2010, 2030, 2040, 2060, 2910, 3020, 3090, 3110, 3230, 4050, or 4550; and nine additional hours selected from any 3000- or 4000-level AVS courses. A maximum of three credits of AVS 3600, 3900, 4410, 4420, 4430 or 4910 may be used.

Anthropology (18 credits)
A minor in Anthropology requires ANTH 2010 and at least six hours selected from ANTH 3010, 3310, (BIOL) 3510, LANG (ANTH) 3710. Nine additional hours may be selected from any other Anthropology course, but at least three hours must be from a 4000-level course. No more than three credits of ANTH 4960 may be counted toward the minor.

Architecture (15 credits)
A minor in Architecture requires ARCH 1010, 4710, 4720, and DSGN 3700. ARCH 4710, 4720, and DSGN 3700 are only offered during the summer or abroad locations.

Art (18 credits)
A minor in Art requires ART 1030 or Art 1510 or Art 1520; AAH 1010, 1020 or 1025; at least nine hours of ART or AAH courses at the 2000 level or above; and at least three hours of ART or AAH courses at the 3000 or 4000 level.

Athletic Leadership (15 credits)
A minor in Athletic Leadership requires 17 credit hours arranged as follows: AL 3490, 3500, 3530, 4140, 4150, 4160, 4170, and three credits selected from AL 4000 level. Students must complete a coaching internship or athletic administration internship (AL 4000) with the approval of the Athletic Leadership Coordinator.

Biochemistry (16 credits)
A minor in biochemistry requires three credits of GEN 3000 or 3020, three credits of BCHM 3010 or 3050 and nine credits of 4000 level Biochemistry courses.

Biological Sciences (20 credits)
A minor in Biological Sciences requires BIOL 1030/1050, 1040/1060, or BIOL 1100 and 1110 and 12 additional credits selected from BIOL courses at the 3000 level or above, BCHM 3050, GEN 3000, or MICR 3050.

British and Irish Studies (15 credits)
A minor in British and Irish Studies requires 15 credits at the 3000-4000 level, with at least six credits selected from Group I, at least six credits selected from Group II, and the remaining three credits selected from either group at the student’s option.

Chemistry (23 credits)
A minor in Chemistry requires CH 1010, 1020, and 15 additional credits in Chemistry, at least nine of which must be at the 3000 or 4000 level, selected in consultation with the Department of Chemistry.

Cluster (15 credits)
The Cluster minor allows students a somewhat wider choice of course materials than is possible with the conventional subject-matter minor. The general requirement for the Cluster minor is 15 credits in courses numbered higher than 3000, except where noted differently, chosen according to one of the plans below. Courses within the student’s major area may not be included in the Cluster minor.

Group I—Social Sciences: anthropology, economics, geography, history, political science, psychology, sociology

Group II—Life Sciences 1: biochemistry, biological sciences, genetics, microbiology

Group III—Physical Sciences: chemistry, geology, physics

Group IV—Engineering: courses in all engineering majors plus engineering mechanics and engineering graphics

No course in the 1000 series is acceptable toward the minor and not more than six hours in the 2000 series are acceptable.

Communication Studies (16 credits)
A minor in Communication Studies requires completion of one of the following options:

General—COMM 2010 (with a C or better) and 12 additional credits in communication studies at the 3000 level or higher.

Sports Communication—COMM 2010 (with a C or better) and 12 additional credits in sports communication selected from COMM 3240, 3250, 3260, 3270, 4250, 4260, 4270 or 4280.

Computer Science (16 credits)
A minor in Computer Science requires CPSC 2120 and 12 additional credits in computer science of which at least nine credits must be at the 3000 level or higher.

Crop and Soil Environmental Science (16 credits)
A minor in Crop and Soil Environmental Science requires PES 1040, 2020, and nine or more PES credits at the 3000 level or higher.

Digital Production Arts (15 credits)
A minor in Digital Production Arts requires DPA 3070 and completion of one of the following options:

Group I (for Architecture or Visual Arts majors)—DPA 4000, 4010 and six credits selected from CPSC 4040, 4050, 4160, PKSC 2200, 3200, THEA 2880, 4870, 4970.

Group II (for Computer Science, Computer Engineering, and Computer Information Systems majors)—DPA 4020, 4030, and six credits selected from ART 2050, 2130, 4210, GC 3400, PKSC 2200, 3200, THEA 2880, 4870, 4970.

Group III (for all other majors)—DPA 4000, 4010, 4020, and three credits selected from CPSC 4040, 4050, 4160, PKSC 2200.
East Asian Studies (15 credits)
A minor in East Asian Studies requires 15 credits, of which at least six credits must be at the 4000 level, distributed as follows: three credits from Group I, six additional credits selected from Group I or from Group II, and six credits from Group III:

Group I—CHIN (ANTH) 4180, HIST 3340, JAPN (ANTH) 4170, POSC 3720
Group II—HIST 3300, 3330, PHIL (CHIN) 3120, (CHIN) 3130, POSC 4720, 4770, REL 3140, or any other approved courses selected from department list.
Group III—EAS 1230, JAPN 4010, 4990, any Chinese or Japanese language course, or any other approved courses selected from department list.

Courses in Groups II and III must represent a combination of Chinese and Japanese courses.

Economics (15 credits)
A minor in Economics requires ECON 3140, 3150, and nine additional credits from economics courses numbered 3000 or higher.

Education (15 credits)
A minor in Education requires EDF 3010, 3020, 3340 or 3350, EDSP 3700, and three hours from any AL, CTE, EDC, NURS, PRTM, PHIL, POSC, PSYC, or SOC course at the 2000 level or higher. This minor does not meet the requirements for teacher certification and is not intended for persons who plan to teach in grades K–12.

English (15 credits)
A minor in English requires 15 credits in English above the sophomore level, arranged as follows:

Shakespeare—ENGL 4110
British—Three credits from ENGL 3960, 3970, 4070, 4080, 4100, 4140, 4150, 4160, 4170, 4180, 4330, 4440
American—Three credits from ENGL 3980, 4000, 4200, 4210, 4250, 4260, 4550
Electives—Six additional credits above the sophomore level, including at least three credits from the 4000 level

Entomology (16 credits)
A minor in Entomology requires ENT (BIOL) 3010 and 12 credits selected from ENT or IPM courses at the 3000 level or higher.

Entrepreneurship (15 credits)
A minor in Entrepreneurship consists of 15 credits including the following: ELE 3010 and MGT (ELE) 3150. Nine credit hours from the following courses are also required: ECON (ELE) 3210, ELE 4010, 4990, MGT 4970, MKT (ELE) 3140, MKT 4200, 4250, 4260, 4270, 4280, 4290, 4300, SOC (ELE, PSYO) 3560.

Note: Not open to business majors, except those pursuing a BA in Economics.

Environmental Science and Policy (18 credits)
A minor in Environmental Science and Policy requires at least 18 credits including ENSP 2000, 4000, and at least 12 credits from the following:

Group I—Science and Engineering: at least six credits selected from BIOL 4100, 4140, 4240, 4430, 4460, CH 4130, EES 4010, 4020, 4300, 4850, ENT 3000, ETOX 4000, 4210, 4300, FOR 2060, PES 2020, (BE) 4080, 4990, WFB 4140
Group II—Resource Management: at least two credits selected from AGRB 3750, BE 4640, ECON 3190, EES (BE) 4840, FOR 4060, GEOL 3000, MGE 4330, PES (ENSP) 3150, WFB 3060, (BIOL) 3130, 3500, 4120, 4620
Group III—Environmental Policy and Social Impacts: at least two credits selected from ENSP 4720, HIST 3920, HLTH 4310, PHIL 3450, RS (SOC) 4010, WFB 4300

Equine Industry (15 credits)
A minor in Equine Industry requires AVS 1500 and 1510; three hours from any 3000- or 4000-level AVS courses; and eight additional hours from AVS 2040, 2050, 2080, 3090, 3850, 4120, 4160, or 4170.

Film Studies (15 credits)
A minor in Film Studies requires 15 credits in ENGL at or above the sophomore level, arranged as follows: ENGL 3480, 3570, 4500, (COMM) 4510, 4520, and one of the following: ART 2130, 3100, ENGL (THEA) 4300, ENGL 4530, 4590, 4830 or other approved course approved by the departmental Director of Undergraduate Studies.

Financial Management (15 credits)
A minor in Financial Management requires FIN 3050, 3070, 3080, 3120, and either FIN 3060 or 3070.

Food Science (15 credits)
A minor in Food Science requires FDSC 2140, 4010, and nine additional credits in FDSC or NUTR courses numbered 3000 or higher.

Forest Products (15 credits)
A minor in Forest Products requires 15 credits, which must include at least four courses selected from FOR 3410, 4410, 4420, 4440, 4470. Other courses at the 3000 level or above may be selected with a Forest Products advisor’s approval.

Forest Resource Management (15 credits)
A minor in Forest Resource Management requires FOR 2050, 2060, and at least ten additional credits of forestry courses at the 3000 level or higher, excluding FOR 4190 and 4470.

Gender, Sexuality and Women’s Studies (15 Credits)
A minor in Gender, Sexuality and Women’s Studies requires 15 credits with no more than three credits at the 1000 level, selected in consultation with the Gender, Sexuality and Women’s Studies Coordinator.

Genetics (15 credits)
A minor in Genetics requires three credits of GEN 3000 or 3020, three credits of BCHM 3010 or 3050, and nine credits of 4000 level Genetics courses.

Geography (18 credits)
The Geography minor consists of three credits of geography at the 1000 level and 15 credits of geography at the 3000 or 4000 level. At least one 4000-level geography course must be taken. One of the following courses may be taken as part of the 15-credit, upper-level requirements but may not be substituted for the required 4000-level geography course: BIOL 4420, SOC 4710.

Geology (20 credits)
A minor in Geology requires GEOL 1010/1030, 2020, and 12 additional credits in geology, at least nine of which must be drawn from 3000–4000-level geology courses.

Global Politics (18 credits)
A minor in Global Politics requires POSC 1020 or 1040, 3610; and 12 additional credits chosen from the list below. At least three of these credits must be from Group I and at least three credits must be from Group II:

Group I—Comparative Politics: POSC 3710, 3720, 4660, 4710, 4760, 4770, (LANG) 4850
Group II—International Relations: POSC 3620, 3630, 3750, 4280, 4290, 4470, 4480, 4560, 4570, 4590, 4610

With the approval of the Political Science department, a maximum of three credits from POSC 3050, 3110, 3130, or 4100 also may be applied toward a Global Politics minor. Students majoring in Political Science may not minor in Global Politics.

Great Works (18 credits)
The Great Works minor requires GW (ENGL) 3010 plus one course from each of the following groups. A minimum of nine credits must be at the 4000 level.

Group I—Classical Civilization: Three credits from ENGL 4030 (THEA) 4290, (COMM) 4910, HIST 3540, 3550, 4500, PHIL 3150
Group II—Post-Classical Literature: Three credits from ENGL 4080, 4110, 4140, 4160, FR 4000, GW 4030, SPAN 3130, 4010
Group III—Philosophy, Religion, and Social Thought: Three credits from ENGL 3500, HIST 4950, PHIL 3160, 3170, POSC 4500, REL 3010, 3020, 4010
Group IV—The Arts: Three credits from AAH 4300, 4240, HUM 3010, 3020, MUSC 4150, 4160, THEA 3150, 3160
Group V—The Sciences: BIOL 4860, ENGL 4340, GW 4020, 4050

History (15 credits)
A minor in History requires 15 credits in history at the 3000 and 4000 level. Three credits at the 4000 level must be included.

Horticulture (15 credits)
A minor in Horticulture requires HORT 1010 and 12 additional credits in horticulture courses (excluding HORT 4080 and 4710), nine credits of which must be at the 3000 level or higher. HORT 2710 is highly recommended.
Human Resource Management (15 credits)
A minor in Human Resources Management requires 15 credit hours, including MGT 3070, 4000, 4310 and 4350, and three additional credit hours selected from MGT 4160 or 4250.

International Engineering and Science (15 credits)
The minor in International Engineering and Science, open to students in any major in the College of Engineering and Science, requires
1. Completion of a foreign language through at least 2020 and
2. Either (a) nine credits of engineering or science courses at the 3000 level or higher transferred from a foreign institution during an approved study abroad program of at least three months or (b) an approved international internship or research program in engineering or science of at least three months duration, plus nine credits chosen from the following list: 3000-level or higher foreign language courses; ECON 3100, 4120, 4130; POSC 3610, 3620, 3710, 3750, 4720, 4770, 4780.

The international study, internship, or research program must be approved in advance by the Associate Dean for Undergraduate Studies of the College of Engineering and Science.

Legal Studies (15 credits)
A minor in Legal Studies requires 15 credits at the 3000–4000 level selected from any LAW course, or COMM 4300, 4310, ECON 4020, ENR 4280, HIST 3190, 3280, 3290, 4960, HLTH 4780, PHIL 3210, 3430, POSC 4360, 4370, 4380, 4470, SOC 3880, 4680.

Management (15 credits)
A minor in Management requires 15 credits as follows: MGT 2010, 3070, 3100, 3180, 3900.

Management Information Systems (15 credits)
A minor in Management Information Systems requires 15 credits as follows: ACCT 3220 or MGT 3180; MGT 4110, 4520, and two of the following: MGT 3120, 4540, 4550, 4560.

Mathematical Sciences (16 credits)
A minor in Mathematical Sciences requires MATH 2080 and 12 additional credits in MATH or STAT courses numbered 3000 or higher, excluding MATH 3080, 3150, 3160, 3820, 3990, 4080, 4300, 4320, 4810, 4820, 4910, 4920, and 4990, and STAT 3090. Students may not use both MATH 3650 and MATH 4600.

Microbiology (15 credits)
A minor in Microbiology requires MICR 3050 and 11 additional credits selected from 4000-level microbiology courses.

Military Leadership (19 credits)
A minor in Military Leadership requires at least 19 credits, including ML 3010, 3020, 4010, 4020, and one of the following: HIST 3900, ML 3900, POSC 4580, or POSC 6580. Completion of Leadership Laboratory and participation in cadet activities are mandatory. (ML 1000 and 2000 levels may be taken concurrently in the sophomore year.)

Modern Languages (15 credits)
A minor in Modern Languages requires 15 credits from one modern language (Chinese, French, German, Italian, Japanese, or Spanish) from courses at the 3000 and 4000 levels, including at least one literature course at the 4000 level. In French, one of the 3000-level courses must be FR 3050. FR 4380 and 4390, JAPN 4010, (ANTH) 4170, 4990, and SPAN 4380 and 4390 may not be used to satisfy requirements for the French, Japanese, or Spanish minor.

Music (18 credits)
A minor in Music requires MUSC 1420, 1430, 1510, 1520, 2510, 2520, 4150 or 4160; four semesters of ensemble, totaling four credits, selected from MUSC 3230, 3610, 3620, 3630, 3690, 3700, 3710, 3720, and one three-hour MUSC course at the 3000–4000 level. All four semesters of applied music and the ensemble must be on the student’s primary instrument.

Natural Resource Economics (15 credits)
A minor in Natural Resource Economics requires AGRB 3570, 4570, and three courses selected from AGRB 3520, 4090, 4220, 4230, 4250, 4750, ECON 3190.

Nonprofit Leadership (15 credits)
A minor in Nonprofit Leadership requires completion of 18 credits: MGT 3000, 3010, 3020, 3030, 3040, 3820.

Nuclear Engineering and Radiological Sciences (15 credits)
A minor in Nuclear Engineering and Radiological Sciences (NERS) requires 15 credits: EES 3100, 4100, 4120, and ME 4260; and one course selected from: EES 4110, 4800, PHYS 4520, or another course approved by a NERS advisor.

Packaging Science (19 credits)
A minor in Packaging Science requires PKSC 1020, 2020, 2040, and 2060; and at least nine credits selected from the following: FDSC 4010, 4020, FOR 4410, 4420, GC 4060, PKSC 3200, 3680, 4010, 4040, 4160, 4200, 4300, 4400, 4540, 4640.

Pan African Studies (18 credits)
A minor in Pan African Studies requires 18 credits as follows: HIST 3110 or 3120, PAS 3010, and 12 credits arranged as follows:
Group I—Three credits from GEOG 3300, HIST 3370, 3380, 3390, 4380, PAS 1010, 4980
Group II—Three credits from ENGL 4820, 4830, POSC 3810, SOC 4600, THEA 3170
Group III—Three credits in any 3000–4000-level course in the social sciences approved by the Director of the Pan African Studies Program
Group IV—Three credits in any 3000–4000-level course in the humanities approved by the Director of the Pan African Studies Program

Courses are to be scheduled in consultation with the appropriate advisors. Pan African Studies advisors will provide all affected advisors with a list of approved courses prior to registration.

Park and Protected Area Management (15 credits)
A minor in Park and Protected Area Management requires PRTRM 3100, 3120, 3130, 4030, (GEOG) 4300, 4310.

Philosophy (15 credits)
A minor in Philosophy requires 15 credits in philosophy, none of which must be at the 3000 level or above.

Physics (18 credits)
A minor in Physics requires PHYS 1220, 2210, 2220, and nine additional credits in physics courses at the 3000 level or higher.

Plant Pathology (15 credits)
A minor in Plant Pathology requires PLPA 3100 and 15 credits from the following: BIOL (PLPA) 4250, (PLPA) 4260, IPM 4010, MICR 3050, or any 3000–4000-level PLPA courses.

Political Science (18 credits)
A minor in Political Science requires POSC 1010 or 1020 or 1030 or 1040 and 15 additional credits at the 3000–4000 level, none of which must be selected from three different fields of political science as follows:
American Politics—POSC 4030, 4050, 4160, 4360, 4420
Comparative Politics—POSC 3710, 3720, 4660, 4710, 4760, 4770, 4780
International Relations—POSC 3610, 3620, 3630, 3750, 4290, 4470, 4480
Political Theory—POSC 4490, 4500, 4530, 4550
Public Policy and Public Administration—POSC 3020, 3210, 4210, 4230, 4240, 4300

No more than a total of three credits from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied to the requirements for a Political Science minor.

Precision Agriculture (18 credits)
A minor in Precision Agriculture requires AGM 2060 and 4100; and FOR 4340 or GEOI 4210; and a least nine credits selected from the following: AGRB 3020 or 4020; ENT 4070; FOR 4330; IPM 4010; or PES 4210, 4220, 4230, 4260, 4330, 4460 or 4520.

Psychology (18 credits)
A minor in Psychology requires PSYC 2010 and 15 credits from PSYC 2750 and/or 3000 and 4000-level psychology courses. At least nine hours from courses other than PSYC 4970 and 4980 must be taken.

Public Policy (18 credits)
A minor in Public Policy requires POSC 3210, 4210, and 4300, plus nine credit hours in courses dealing with specific policy domains and approved by the Department of Political Science.

Recreational Therapy (16 credits)
A minor in Recreational Therapy requires PRTM 2600, 3220, 3240, 3260, and 3270.
Minors

Religion (15 credits)
A minor in Religion requires 15 credits, nine of which must be at the 3000 level or above. PHIL 3030 and POSC 4070 may be included.

Russian Area Studies (15 credits)
A minor in Russian Area Studies requires 15 credit hours of which three credits must be in Russian language courses at the 2000 level or above. The remaining twelve credits are distributed as follows:
- **Group I**—Three credits from RUSS 3070, 3400, 3600, 3610, 3980, 4600
- **Group II**—Three credits from HIST 3850, 3860, 3870, 4940
- **Group III**—Three credits from POSC 4710, 4730
- **Group IV**—Three additional credits from any of the courses listed above

Science and Technology in Society (15 credits)
A minor in Science and Technology in Society requires 15 credits, at least six of which must be at the 4000 level. See History Department advisor for list of approved courses.

Screenwriting (15 credits)
A minor in Screenwriting requires 15 credits in ENGL above the sophomore level as follows: ENGL 3480, 3570, 4480 (six credits); and one of the following: ENGL 4500, (COMM) 4510, 4520, 4530, THEA (ENGL) 3470, or other course approved by the departmental Director of Undergraduate Studies.

Sociology (18 credits)
A minor in Sociology requires SOC 2010 and 15 credits from sociology and rural sociology courses numbered 3000 or higher. At least one 4000-level course must be included.

Spanish-American Area Studies (18 credits)
A minor in Spanish-American Area Studies requires the equivalent of SPAN 2020, ECON 4100, and 12 credits distributed as follows: six credits from GEOG 3400, HIST 3400, 3410, 3420, 4400; and six credits from SPAN 3080, 3110, 3820, 4030, 4220, 4350.

Sustainability (18 credits)
A minor in Sustainability requires 18 credits, including CU 2010; three credits of approved engagement activities, such as creative inquiry, study abroad, independent research, co-ops, or capstone projects; and 12 credits of courses that focus on sustainability issues, selected from AGRB 4570*, ARCH 4710*, 4720*, BE 4400, 4640, BIOL 2040*, 3130, 4410, CE 4360, 4370, ECE 4200, 4610, 4570, ECON 3190, EES 4860, ENR 4130, 4500*, ENSP 2000, 4000*, FOR 4340, GEOL 1200, 2700*, HIST 1240*, HON 2060 (when the course covers sustainable energy innovation or experimental forest topics), HORT 1010, 3080, 4580, ME 4200, 4570, PES 3150*, PHIL 3430*, PHYS 2450, PKSC 3680*, RS 4010*, WFB 3130, 4180, 4300. Other courses may be substituted with departmental approval.

At least nine credits must be selected from 3000- or 4000-level courses. At least three and no more than nine credits must be from courses addressing the social dimension of sustainability. These courses are identified by an asterisk in the list above.

Theatre (20 credits)
A minor in Theatre requires 20 credits arranged as follows: three credits of dramatic literature (ENGL) 4100, 4110, (ENGL) 4290, THEA 4300; THEA (ENGL) 3470; three credits of theatre history (THEA 3150, 3160, 3170, 3180); six credits in a sequence (THEA 2780/4790, THEA (ENGL) 3470/4470, THEA 3670/4670, THEA 3720/4720, 3760/4760; 2880 or 3770 and one of the following: 4770, 4870 or 4970); six credits in THEA at the 3000–4000 level; and two credits of THEA 2790.

Travel and Tourism (15 credits)
A minor in Travel and Tourism requires PRTM 3010, 3420, and nine additional credits from PRTM 3430, 3440, 3490, 3920, 3980, (GEOG) 4300, 4410, 4440, 4450, 4460, 4470, 4980.

Turfgrass (16 credits)
A minor in Turfgrass requires HORT 2120, 4120, 4200, 4300, 4400, 4970, and two of the following: CRP 4020, HORT (PES) 4330, PLPA (ENT) 4060, 4070.

Urban Forestry (16 credits)
A minor in Urban Forestry requires a minimum of 16 credits, distributed as follows:
- **Group I**—FOR (HORT) 4270, 4500, 4800, HORT 2080
- **Group II**—A minimum of three credits selected from CRP 4010, HORT 3080
- **Group III**—A minimum of three credits selected from HORT 4730

Wildlife and Fisheries Biology (15 credits)
A minor in Wildlife and Fisheries Biology requires WFB 3000, 3500; and nine additional hours selected from 3000-level or higher WFB courses, except 4630.

Women’s Leadership (18 credits)
A minor in Women’s Leadership requires HEHD 4100; WS 1030 or 3010; WS 2300; WS 3900 or 4010; and six additional credits selected in consultation with a departmental advisor.

Writing (15 credits)
A minor in Writing requires 15 credits as follows:
- **Creative Writing Options**
  - Drama—ENGL (THEA) 4300, THEA (ENGL) 3470, (ENGL) 4470 (six credits), and one of the following: ENGL 3120, 4100, 4110
  - Fiction—ENGL 3450, 4320, 4450 (six credits), and one of the following: ENGL 3120, 4180, 4250, 4260, 4280
  - Poetry—ENGL 3460, 4310, 4460 (six credits), and one of the following: ENGL 3120, 4160, 4170, 4280, 4440

  **Creative Writing Options**
  - Drama—ENGL (THEA) 4300, THEA (ENGL) 3470, (ENGL) 4470 (six credits), and one of the following: ENGL 3120, 4100, 4110
  - Fiction—ENGL 3450, 4320, 4450 (six credits), and one of the following: ENGL 3120, 4180, 4250, 4260, 4280
  - Poetry—ENGL 3460, 4310, 4460 (six credits), and one of the following: ENGL 3120, 4160, 4170, 4280, 4440

Theatre—ENGL (THEA) 3120, 3470, 4100, 4110, 4250, 4450, 4570, (COMM) 4910, (COMM) 4920, or any course approved by the Chair of the English Department Writing Pedagogy Option—ENGL 3120, 4000, 4100, (EDSO) 4850, and any 3000- or 4000-level writing course offered by the Department of English
The College of Agriculture, Forestry and Life Sciences (CAFLS) supports Clemson University’s land-grant mission to provide education, research and service to the public. The College of Agriculture, Forestry and Life Sciences serves more than 3,800 graduate and undergraduate students.

The College of Agriculture, Forestry and Life Sciences is a multi-disciplinary college of life-based sciences that prepares students to be leaders and innovators in their chosen careers. The shared biological foundation of the CAFLS Departments stimulates student learning and undergraduate research across disciplines; increases opportunities for team-based faculty research across departments, colleges and institutions; and makes available the latest scientific knowledge for the greater benefit of society.

To assist students in achieving these goals, the William B. Bookhart Jr. Student Services Center provides academic advising and developmental services to promote success for students in the related degree programs. These services involve recruitment and retention, academic advising, multicultural affairs, study abroad, career development, and placement.

The College of Agriculture, Forestry and Life Sciences is impacting the world one graduate at a time—from cell research to food production to packaged materials to the globe—developing partnerships for the future to make the world greener, healthier, tastier, and wealthier.

AGribusiness Bachelor of Science

The Agribusiness curriculum provides strong training in economic and business principles as applied in agribusiness enterprises. Core classes in the major focus on agribusiness economics and management, leadership, marketing and sales, finance, accounting, and business skill development. Employment opportunities for graduates are many and diverse. Private sector opportunities include national and international careers in agribusiness management, banking, finance, sales, marketing, and public relations. Public sector opportunities include positions in organizations that promote food, agriculture, and natural resource interests; government agencies; and educational institutions. Moreover, the curriculum design provides graduates with the skills necessary to successfully establish their own businesses. By completing this curriculum, graduates will have fulfilled the requirements for an approved minor in the college, allowing students to tailor the program to meet specific career objectives.

The curriculum also emphasizes training on globalization, information technology, and interdisciplinary skills needed to analyze the complex interrelationships between business, the environment and society. Students are encouraged to participate on a creative inquiry student research team and to take advantage of an internship and/or study abroad opportunity. The program provides an excellent background for professional or graduate study in several disciplines.

Freshman Year

First Semester
3 - AGRB 2050 Agriculture and Society
3 - MATH 1020 Intro. to Mathematical Analysis
4 - Natural Science Requirement1
3 - Oral Communication Requirement2
16

Second Semester
3 - AGRB 2020 Agricultural Economics
3 - ENGL 1030 Accelerated Composition
3 - STAT 2220 Statistics in Everyday Life1
3 - Arts and Humanities (Non-Lit.) Requirement1
3 - Elective
15

Sophomore Year

First Semester
3 - ACCT 2010 Financial Accounting Concepts
3 - AGRB 3020 Economics of Farm Management
3 - ECON 2120 Principles of Macroeconomics
3 - MGT 2010 Principles of Management
3 - Arts and Humanities (Non-Lit.) Requirement1
15

Second Semester
3 - ACCT 2020 Managerial Accounting Concepts
3 - AGRB 3570 Natural Resource Economics
3 - Leadership Requirement2
3 - Minor Requirement3
3 - Social Science Requirement1
15

Junior Year

First Semester
3 - ACM 3190 Agribusiness Decision Analysis
3 - AGRB 3090 Econ. of Agricultural Marketing or
3 - MKT 3010 Principles of Marketing
3 - ECON (MGT) 3060 Managerial Economics or
3 - ECON 3140 Intermediate Microeconomics
3 - ENGL 3140 Technical Writing
3 - Minor Requirement4
15

Second Semester
3 - AGRB 3190 Agribusiness Management
3 - AGRB 4080 Quantitative Applied Economics
3 - AGRB 4210 Globalization or
3 - ECON 3000 International Economy
3 - ECON 3020 Money and Banking or
3 - ECON 3550 Intermediate Macroeconomics
3 - Minor Requirement4
15

Senior Year

First Semester
3 - AGRB 4090 Commodity Futures Markets
3 - AGRB 4120 Regional Economic Dev.
3 - AGRB 4600 Agricultural Finance
3 - LAW 3220 Legal Environment of Business
3 - Minor Requirement1
15

Second Semester
3 - AGRB 4200 Production Economics
3 - AGRB 4520 Agricultural Policy
3 - AGRB 4560 Prices
3 - Internship, Creative Inquiry or Selected Topics4

Agricultural Education Bachelor of Science

Agricultural Education provides broad preparation in agricultural sciences and professional education, including communications and human relations skills. In addition to required courses, students may select a minor (see page 63).

The Bachelor’s degree prepares students for professional education positions in the mainstream of agriculture, including teaching, cooperative extension service, and government agricultural agencies. The Agricultural Education degree also prepares students for other educational work, such as agricultural missionary, public relations, and training officers in agricultural industry.

In consultation with the departmental advisor, students choose one of the following emphasis areas: Communications, Leadership, or Teaching.

Admission to Teaching Emphasis Students

Professional application to the professional level of a program is processed during the term in which a candidate is to complete 60 semester hours of work. At that time, the candidate is notified of his/her status. Prior to admission, the candidate must have passed all areas of the Praxis CORE and have a minimum cumulative grade-point average of 2.75. A candidate may exempt the CORE by meeting minimum ACT or SAT requirements as determined by the South Carolina Department of Education.

Directed Teaching/Teaching Internship—A candidate shall apply to the field experience director prior to the semester in which block methods courses are scheduled. The following conditions must be met prior to registration for directed teaching: (1) admission to the professional level of a program; (2) completion of at least 95 semester hours; (3) a minimum cumulative grade-point average of 2.75.
Freshman Year
First Semester
1. AGED 1020 Agric. Ed. Freshman Seminar
2. AGED 3650 Multiculturalism in Agric. Ed.
3. AVS 1500 Introduction to Animal Science
4. BIOL 1030 General Biology I
5. HORT 1010 Horticulture
6. Mathematics Requirement

Second Semester
1. AGED 1000 Orientation and Field Experience
2. AGM 2050 Principles of Fabrication
3. BIOL 1040 General Biology II
4. CH 1010 General Chemistry
5. ENGL 1030 Accelerated Composition
6. Social Science Requirement

Sophomore Year
First Semester
1. AGED 2010 Intro. to Agricultural Education
2. AGED 2040 Applied Agriculture Calculations
3. BT 2200 Biosystems Technology I
4. CH 1010 General Chemistry
5. HORT 2120 Introduction to Turfgrass Culture
6. HORT 2130 Turfgrass Culture Lab.

Second Semester
1. CH 1020 General Chemistry
2. BT 2200 Biosystems Technology I
3. AGM 2050 Principles of Fabrication
4. BIOL 1040 General Biology II
5. CH 1010 General Chemistry
6. ENGL 1030 Accelerated Composition

Junior Year
First Semester
2. AGED 4150 Leadership of Volunteers
3. AGED 4160 Ethics and Issues in Agriculture and the Food and Fiber System
4. MGT 2010 Principles of Management

AGRICULTURAL MECHANIZATION AND BUSINESS
Bachelor of Science
The Agricultural Mechanization and Business major provides a program for students who desire training in areas relevant to dynamic agricultural enterprises. The program is organized with strength in both business management and technical support of agriculture and agribusiness. To produce well-routed individuals with good communication skills, the curriculum includes courses in the humanities, social sciences, English composition, and public speaking. Graduates in Agricultural Mechanization and Business find meaningful and remunerative employment in a variety of situations directly and indirectly related to agricultural production, processing, marketing, and the many services connected therewith. Farming and technical sales in the agricultural, industrial, and heavy equipment industries are frequently chosen careers.

COMMUNICATIONS EMPHASIS AREA
Junior Year
First Semester
1. AGED 3030 Mechanical Technology for Agriculture Education
2. AGM 2210 Surveying
3. HORT 3030 Landscape Plants
4. PES 2020 Soils
5. Arts and Humanities (Non-Lit.) and Science and Technology in Society Requirement

Second Semester
1. EDF 3020 Educational Psychology
2. ENGL 3020 Natural Resources Measurements
3. HORT 4040 Plant Propagation
4. HORT 4050 Plant Propagation Techniques Lab.
5. Advanced Writing Requirement
6. Oral Communication Requirement

ANIMAL AND VETERINARY SCIENCES

Bachelor of Science

The Animal and Veterinary Sciences curriculum provides students with both a basic and applied understanding of the scientific principles needed for successful careers in the scientific, technical, and business phases of livestock and poultry production, processing, and marketing. Strengths of this program include extensive hands-on instruction at Clemson’s six animal farms, personalized advising, and the opportunity for valued-added experiences, including involvement in research, teaching, extension, international travel, and internships. Students choose from three concentrations.

The Animal Agribusiness Concentration prepares students for careers in the many facets of the animal industries, including production, sales and marketing, business management, advertising, and extension. The Equine Business Concentration prepares students for such professions as trainers, managers, riding instructors, sales or media representatives, breed association representatives or for equine entrepreneurial careers such as owners of tack shops, boarding facilities, or riding schools. The Pre-veterinary Medicine. Experienced preprofessional advising is provided for all students pursuing advanced degrees.

Students who change majors into Animal and Veterinary Sciences must have a 2.5 minimum cumulative grade point average.

**BIOCHEMISTRY**

**Bachelor of Science**

Biochemistry is the study of the molecular basis of life. To comprehend current biochemical information and make future contributions to our molecular understanding of life processes, students must obtain a broad background in biology and a firm foundation in chemistry, mathematics, and physics. This is the basis of the biochemistry curriculum.

The program provides an excellent educational background for professional school (medicine, dentistry, or veterinary medicine) and graduate school in biochemistry, molecular biology, or another biological science discipline. Graduates will find employment opportunities in the research and service programs of universities, medical schools, hospitals, research institutions, and industrial and government laboratories.

**Freshman Year**

**First Semester**
1. BIOL 1010 Frontiers in Biology
2. BIOL 1100 Principles of Biology I
3. CH 1010 General Chemistry
4. MATH 1080 Calculus of One Variable II

**Second Semester**

7. Social Science Requirement

---

**Notes:**
1. A minimum grade of C is required in all science and mathematics courses. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any science or mathematics course.
2. A student is allowed to enroll in science and mathematics courses only when all prerequisites have been passed with a grade of C or higher.
3. Two semesters of a foreign language are strongly recommended.
4. A student is allowed to enroll in science and mathematics courses. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any science or mathematics course.
5. See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.
6. A student is allowed to enroll in science and mathematics courses. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any science or mathematics course.
7. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.
Second Semester

3 - Elective
13
121 Total Semester Hours
*Students seeking a double major in Science Teaching and Biological Sciences should substitute ED 1050 for BIOL 1010.
*BIOL 1100 and 1110 are strongly recommended; however, BIOL 1030/1050 may substitute for BIOL 1100, and BIOL 1040/1060 may substitute for BIOL 1110. The remaining 1-2 credits required must be completed by completing 1-2 extra credits.
*See General Education Requirements.
*MATH 1080, STAT 2300, or other approved coursework. See advisor. Medical and dental schools have different mathematics requirements. The Medical Colleges Admissions Test (MCAT) includes questions on statistics.
*Most professional health sciences schools require a second semester of organic chemistry with laboratory, CH 2240/2280.
*CH 2010 and CH 2020 may substitute.
*GEN 3020 may substitute.
*See General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness and the Science and Technology in Society Requirements. The Medical Colleges Admissions Test (MCAT) includes questions on psychology and sociology.
*Four semesters (through 2020) in the same modern foreign language are required.
*BIOL 3100 may substitute.
*Four credit hours must be selected from BIOL or MICR courses at the 3000 level or above or CH 2240/2280, or from the department-approved list. Students seeking a double major in Science Teaching/Biological Sciences should substitute EDSC 4470 for Major Requirement.
*At least one lecture and associated laboratory selected from BIOL 3010, 3020/3060, 3030/3070, 3040/3080, 3200, 4060/4070, 4250/4260.
*ENGL 3140 may substitute.
*See page 63 for approved minors.
*At least one course selected from BIOL 4410, 4420, 4430, 4460, 4700, or MICR 4010.
*Students seeking a double major in Science Teaching/Biological Sciences should substitute EDSC 4470 for BIOL 4430 or MICR 4930.
*PHYS 1220/1240 may substitute.
*At least one course selected from BIOL 3160, 4060, 4070, 4890, 4800.
*PHYS 2210/2230 may substitute.

Double Major in Biological Sciences/Science Teaching—Biological Sciences
The Bachelor of Arts Degree in Biological Sciences and Science Teaching—Biological Sciences prepares students for teaching biology on the secondary school level and for graduate studies in any of the life science areas. See page 126 for the curriculum.

Note: To receive a double major in Biological Sciences and Science Teaching—Biological Sciences, the student must complete a change-of-program form to declare both majors.

*STAT 2300 or other approved coursework. See advisor. Professional schools have different mathematics requirements.
*CH 2010 and 2020 may substitute.
*Most professional health sciences schools require two semesters of organic chemistry with laboratory, CH 2230/2270 and 2240/2280.
*GEN 3020 may substitute.
*Four semesters (through 2020) in the same modern foreign language are required.

At least one lecture and associated laboratory selected from BIOL 3010, 3020/3060, 3030/3070, 3040/3080, 3200, 4060/4070, 4250/4260.
*BIOL 4780 or 4790 or MICR 3050. BIOL 4780 or 4790 is recommended for physician assistant programs.
*GEN 3140 may substitute.
*PHYS 1220/1240 may substitute.
*At least one course selected from BIOL 4410, 4420, 4430, 4460, 4700, or MICR 4010.
*BIOL 4780 or 4790 or MICR 3050. BIOL 4780 or 4790 is recommended for physical and occupational therapy programs. MICR 3050 is recommended for physician assistant programs.
*PHYS 2210/2230 may substitute.

BIOLICAL SCIENCES

Bachelor of Science
Biology encompasses the broad spectrum of the modern life sciences, including the study of all aspects of life from the structure and function of the whole organism down to the subcellular levels and up through the interactions of organisms to the integrated existence of life on the entire planet. Descriptive, structural, functional, and evolutionary questions are explored through the hierarchy of the organization of life. Applications of current advances to the health and well-being of man and society, to nature and the continuation of earth as a balanced ecosystem, and to an appreciation of the place of natural science in our cultural heritage receive emphasis.

Majors in Biological Sciences receive classroom, laboratory, and field training in biology with an emphasis on chemistry, mathematics, and physics as necessary tools. The Bachelor of Science in Biological Sciences curriculum prepares students for graduate study in any of the life science areas (such as agricultural sciences, biochemistry, botany, cell and molecular biology, conservation, ecology and environmental science, entomology, forestry, genetics, industrial and regulatory biology, microbiology, morphology, physiology, wildlife biology, and zoology; for the health professions (medicine, dentistry, etc.), veterinary medicine; and for science teaching.)
### Freshman Year

**First Semester**
- 1 - BIOL 1010 Frontiers in Biology I
- 5 - BIOL 1100 Principles of Biology I
- 4 - CH 1010 General Chemistry
- 4 - PHYS 1220/1240 General Physics I
- 4 - ARTS 1020/1060 General Psychology I
- 3 - Oral Communications Requirement

**Second Semester**
- 5 - BIOL 1110 Principles of Biology II
- 4 - CH 1020 General Chemistry
- 3 - ENGL 1030 Accelerated Composition
- 3 - Mathematical Sciences Requirement

---

**Sophomore Year**

**First Semester**
- 3 - CH 2230 Organic Chemistry
- 1 - CH 2270 Organic Chemistry Lab.
- 3 - GEN 3000 Fundamental Genetics
- 3 - Arts and Humanities (Literature) Requirement
- 4 - Organismal Diversity Requirement
- 2 - Elective

**Second Semester**
- 3 - BCHM 3050 Essential Elements of Bioch.
- 3 - BIOL 3350 Evolutionary Biology or Elective
- 4 - Major Requirement
- 3 - Social Science Requirement
- 3 - Elective

**Junior Year**

**First Semester**
- 3 - BIOL 3350 Evolutionary Biology or Elective
- 3 - BIOL 4610 Cell Biology
- 2 - BIOL 4620 Cell Biology Lab.
- 3 - PHYS 2070 General Physics I
- 1 - PHYS 2090 General Physics I Lab.
- 3 - Ecology Requirement

**Second Semester**
- 3 - ENGL 3140 Accelerated Composition
- 4 - Major Requirement
- 3 - Elective
- 3 - Oral Communications Requirement

**Senior Year**

**First Semester**
- 2 - BIOL 4930 Senior Seminar or
- 2 - MICR 4930 Senior Seminar
- 4 - Entomology Requirement
- 3 - Social Science Requirement
- 4 - Elective

**Second Semester**
- Elective

---

**Freshman Year**

**First Semester**
- 1 - BIOL 1010 Frontiers in Biology I
- 5 - BIOL 1100 Principles of Biology I
- 4 - CH 1010 General Chemistry
- 4 - PHYS 1220/1240 General Physics I
- 4 - ARTS 1020/1060 General Psychology I
- 3 - Oral Communications Requirement

**Second Semester**
- 5 - BIOL 1110 Principles of Biology II
- 4 - CH 1020 General Chemistry
- 3 - ENGL 1030 Accelerated Composition
- 3 - Mathematical Sciences Requirement

---

**Sophomore Year**

**First Semester**
- 3 - CH 2230 Organic Chemistry
- 1 - CH 2270 Organic Chemistry Lab.
- 3 - GEN 3000 Fundamental Genetics
- 3 - Arts and Humanities (Literature) Requirement
- 4 - Organismal Diversity Requirement
- 2 - Elective

**Second Semester**
- 3 - BCHM 3050 Essential Elements of Bioch.
- 3 - BIOL 3350 Evolutionary Biology or Elective
- 4 - Major Requirement
- 3 - Social Science Requirement
- 3 - Elective

**Junior Year**

**First Semester**
- 3 - CH 2230 Organic Chemistry
- 1 - CH 2270 Organic Chemistry Lab.
- 3 - PHYS 2070 General Physics I
- 1 - PHYS 2090 General Physics I Lab.
- 3 - Ecology Requirement
- 4 - Major Requirement
- 3 - Social Science Requirement
- 3 - Elective

**Second Semester**
- Elective

---

**Senior Year**

**First Semester**
- 2 - BIOL 4930 Senior Seminar or
- 2 - MICR 4930 Senior Seminar
- 4 - Entomology Requirement
- 3 - Social Science Requirement
- 4 - Elective

4 - Major Requirement
3 - Social Science Requirement
3 - Elective

Junior Year
First Semester
3 - BIOL 4610 Cell Biology
2 - BIOL 4620 Cell Biology Laboratory
3 - ETOX 4300 Toxicology
1 - PHYS 2090 General Physics I Lab.
3 - Economics Requirement

Second Semester
3 - Elective
3 - Social Science Requirement
3 - GEN 3000 Fundamental Genetics
2 - Elective

Senior Year
First Semester
2 - BIOL 4930 Senior Seminar or
2 - MICR 4930 Senior Seminar
3 - CH 3130 Quantitative Analysis
2 - PHYS 2090 General Physics I Lab.
3 - Arts and Humanities (Literature) Requirement
3 - Functional Biology Requirement
2 - Elective

Second Semester
3 - CH 4130 Chemistry of Aqueous Systems or
3 - ETOX 4210 Chemical Sources and Fate in Environmental Systems
3 - Arts and Humanities (Non-Lit.) Requirement
3 - Toxicology Requirement
2 - Elective

121 Total Semester Hours

TOXICOLOGY EMPHASIS AREA
See Bachelor of Science curriculum for freshman year requirements.

Combined Bachelor of Science in Biological Sciences/Master of Science in Bioengineering
Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits in both undergraduate and graduate program requirements. See Academic Regulations in this catalog for enrollment guidelines and procedures. Students are encouraged to obtain the specific requirements for the dual degree from the Department of Biological Sciences or Bioengineering as early as possible in their undergraduate program as a number of required courses have prerequisites not normally taken by Biological Sciences majors.

ENVIRONMENTAL AND NATURAL RESOURCES
Bachelor of Science
The Environmental and Natural Resources curricu- lum produces professionals who have a broad-based knowledge in natural resources and an ability to interact with other resource professionals to provide thoughtful solutions to environmental and natural resource problems. The world is blessed with an abundance of natural resources, but the problems associated with their conservation are immense. Protection of rare and endangered species, preventing and controlling invasions of exotics, protecting old growth forests, restoring degraded ecosystems, and balancing the resource demands of industry and the public are some of the environmental issues which are enmeshed in politicized environments.

Three concentrations are offered within the Environmental and Natural Resources major, which is administered by the Department of Forestry and Environmental Conservation. The Conservation Biology Concentration is oriented toward students who desire a greater exposure to taxa, their habitats, and their interrelationships. The Natural Resources Management Concentration emphasizes both resource management and negotiation skills. The Natural Resource and Economic Policy Concentration provides more in-depth study in economics and policy applications.
Graduates in Environmental and Natural Resources are well prepared for further graduate studies in natural resources and related fields. Potential public sector employers of graduates include federal, state, and municipal resource management agencies, private industries impacting land and water resources, environmental management consulting firms, and various environmental advocacy groups.

Freshman Year
First Semester
3 - BIOL 1030 General Biology I
1 - BIOL 1050 General Biology Lab. I
4 - CH 1010 General Chemistry or
4 - CH 1050 Chemistry in Context I
1 - ENR 1010 Introduction to Environmental and Natural Resources I
3 - MATH 1020 Intro. to Mathematical Analysis
3 - Oral Communications Requirement
15
Second Semester
3 - BIOL 1040 General Biology II
1 - BIOL 1060 General Biology Lab. II
4 - CH 1020 General Chemistry or
4 - CH 1060 Chemistry in Context II
1 - ENL 1030 Accelerated Composition
1 - ENR 1020 Introduction to Environmental and Natural Resources II
3 - STAT 2300 Statistical Methods I
15
Note: See footnotes after each Concentration.

CONSERVATION BIOLOGY CONCENTRATION
Sophomore Year
First Semester
3 - AGRB 2570 Natural Resources, Environment, and Economics or
3 - ECON 2110 Principles of Microeconomics
4 - BIOL 3200 Field Botany and
1 - Elective or
2 - FOR 2050 Dendrology and
3 - FOR 2210 Forest Biology
3 - CH 2230 Organic Chemistry
4 - FNR 2040 Soil Information Systems or
4 - PES 2020 Soils
15
Second Semester

NATURAL RESOURCES MANAGEMENT CONCENTRATION
Sophomore Year
First Semester
- FNR 2040 Soil Information Systems or 4
- FOR 2020 Soils
- FOR 2210 Forest Biology
- WFB 3000 Wildlife Biology
- Arts and Humanities (Literature) Requirement
Second Semester
- ENR 3020 Natural Resources Measurements
- FOR 2060 Forest Ecology
- WFB 3500 Principles of Fish and Wildlife Biol.
- Arts and Humanities (Non-Lit.) Requirement
- Social Science Requirement
Junior Year
First Semester
- AGRB 2570 Natural Resources, Environment and Economics or
- ECON 2110 Principles of Microeconomics
- BIOL 3200 Field Botany or
- BIOL 4060 Intro. Plant Taxonomy and
- BIOL 4070 Plant Taxonomy Lab.
- ENR 4290 Environmental Law and Policy
- Minor Requirement
- Elective
Second Semester
- AGRB 3570 Natural Res. Economics
- GEOL 1010 Physical Geology
- GEOL 1030 Physical Geology Lab.
- WFB (BIOL) 3130 Conservation Biology
- Minor Requirement
Senior Year
First Semester
- FOR (ENR) 4160 Forest Policy and Admin.
- FOR (ENR) 4340 GIS for Landscape Planning
- Internship, Creative Inquiry or Directed Research Requirement
- Minor Requirement
- Elective
Second Semester
- ENGL 3140 Technical Writing
- ENR 4500 Conservation Issues
- FOR 4660 Forested Watershed Management
- WFB 4620 Wetland Wildlife Biology
- Minor Requirement

121 Total Semester Hours

1A minor is required and must be selected from the following: Biochemistry, Biological Sciences, Chemistry, Crop and Soil Environmental Science, Environmental Science and Policy, Forest Resource Management, Geology, Horticulture, Legal Studies, Microbiology, Natural Resource Economics, Non-profit Leadership, Park and Protected Area Management, Recreational Therapy, Travel and Tourism, Urban Forestry, Wildlife and Fisheries Biology.
2Minor Requirement.
3Emphasis Area Requirement.
4Additional sciences that complement requirements.

FOOD SCIENCE
Bachelor of Science
Food Science majors apply principles of basic and applied sciences to design and manufacture safe and quality foods in addition to identifying the relationship between nutrients and human health. The curriculum allows flexibility for concentrating in one of two areas:

In the Food Science and Technology Concentration, students may emphasize business, culinary science (one of three national programs that have been approved by the Research Chef’s Association as Culinary education programs), or technology, food packaging, and additional sciences that complement requirements of the Institute of Food Technologists.

Food processing industries, ingredient manufacturers, and packaging suppliers employ graduates in new food product development, quality assurance, production management, and technical sales. State and federal agencies also need graduates for food safety and regulatory positions.

The Nutrition and Dietetics Concentration prepares students for graduate study in nutrition and a variety of health related fields as well as dietetic internship programs to become a Registered Dietitian.

Examples of career opportunities include employment as dietitians, nutritionists, consultants and food specialists. The Nutrition and Dietetics curriculum is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND).

The Department of Food, Nutrition and Packaging Sciences also offers an accelerated five year combined bachelor’s/master’s program that allows students to count up to twelve hours of graduate credit toward both the BS degree in Food Science and the MS degree in Food, Nutrition and Culinary Sciences. Details are available from the Department of Food, Nutrition and Packaging Sciences or at www.clemson.edu/fnps.

FOOD SCIENCE AND TECHNOLOGY CONCENTRATION
Freshman Year
First Semester
- BIOL 1030 General Biology I and
- 4 - MATH 1060 Calculus of One Variable I
- 5 - BIOL 1100 Principles of Biology I
- 4 - CH 1010 General Chemistry
- 3 - COMM 1500 Intro. to Human Comm. or
- 3 - COMM 2500 Public Speaking
- 1 - FDSC 1020 Perspectives in Food and Human Nutrition
- 1 - FDSC 2140 Food Resources and Society
- 4 - MICR 3050 General Microbiology
- 3 - NUTR 4510 Human Nutrition
- 1 - FDSC 4100 Food Product Development
- 4 - FDSC 4500 Creative Inquiry
- 3 - STAT 2300 Statistical Methods I
- 3 - Arts and Humanities (Non-Lit.) Requirement
- Elective
Second Semester
- FDSC 2020 Survey of Organic Chemistry and
- 4 - FDSC 3010 Food Regulations and Policy
- 1 - FDSC 4500 Creative Inquiry
- 3 - MAC 2311 Calculus I
- 3 - MATH 1020 Intro. to Math. Analysis or
- 4 - PHYS 2070 General Physics I and
- 3 - Arts and Humanities (Literature) Requirement
- Social Science Requirement

Second Semester
- BIOL 1040 Introduction to Biology I
- 1 - BIOL 1060 General Biology Lab. I or
- 5 - BIOL 1110 Principles of Biology II
- 4 - CH 1020 General Chemistry
- 3 - ENGL 1030 Accelerated Composition
- 1 - FDSC 1020 Perspectives in Food and Nutrition Sciences
- 1 - FDSC 4500 Creative Inquiry
- 3 - PSYC 2010 Introduction to Psychology

Sophomore Year
First Semester
- 3 - CH 2100 Survey of Organic Chemistry and
- 3 - CH 2230 Organic Chemistry and
- 1 - CH 2270 Organic Chemistry Lab.
- 1 - FDSC 4500 Creative Inquiry
- 3 - FDSC 4500 Creative Inquiry
- 3 - PHYS 1212 Physics with Calculus I and
- 1 - PHYS 1240 Physics Lab. I or
- 4 - PHYS 2000 Introductory Physics or
- 3 - PHYS 2070 General Physics I and
- 3 - PHYS 2090 General Physics I Lab.
- 3 - Arts and Humanities (Non-Lit.) Requirement
- Elective
Junior Year
First Semester
- FDSC 3010 Food Regulations and Policy
- 1 - FDSC 4470 Seminar
- 1 - FDSC 4500 Creative Inquiry
- 3 - MICR 3050 General Microbiology
- 3 - NUTR 4510 Human Nutrition
- 3 - PES 2020 Soils
- 4 - FNR 2040 Soil Information Systems
- 3 - Emphasis Area Requirement
- 3 - Elective
Second Semester
- FDSC 3010 Food Regulations and Policy
- 1 - FDSC 4470 Seminar
- 1 - FDSC 4500 Creative Inquiry
- 4 - CH 2020 Survey of Organic Chemistry and
- 4 - FDSC 4030 Food Chemistry and Analysis
- 4 - FDSC 4100 Food Product Development
- 1 - FDSC 4500 Creative Inquiry
- 3 - MAC 2311 Calculus I
- 3 - Arts and Humanities (Non-Lit.) Requirement
- Elective
Junior Year
First Semester
- 3 - ENGL 3040 Business Writing or
- 3 - ENGL 3140 Technical Writing
- 2 - FDSC 4030 Food Chemistry and Analysis
- 4 - FDSC 4100 Food Product Development
- 1 - FDSC 4500 Creative Inquiry
- 4 - MICR 4070 Food and Dairy Microbiology
- 3 - Emphasis Area Requirement

Second Semester
- 3 - ENGL 3040 Business Writing or
- 3 - ENGL 3140 Technical Writing
- 2 - FDSC 4030 Food Chemistry and Analysis
- 4 - FDSC 4100 Food Product Development
- 1 - FDSC 4500 Creative Inquiry
- 4 - MICR 4070 Food and Dairy Microbiology
- 3 - Emphasis Area Requirement

Senior Year
First Semester
- FDSC 3060 Institutional Food Service Mgmt. or
- 3 - FDSC 3070 Restaurant Food Service Mgmt.
- 3 - FDSC 4010 Food Chemistry I
- 3 - FDSC 4040 Food Preservation and Processing
- 2 - FDSC 4070 Quantity Food Production
- 1 - FDSC 4500 Creative Inquiry
- 3 - Arts and Humanities (Literature) Requirement

53
### Second Semester
- 3 - FDSC 4020 Food Chemistry II
- 4 - FDSC 4080 Food Process Engineering
- 3 - FDSC (PKSC) 4090 Total Quality Mgt. for the Food and Packaging Industries
- 1 - FDSC 4500 Creative Inquiry
- 3 - Emphasis Area Requirement

#### Junior Year

**First Semester**
- 4 - BIOL 2220 Human Anatomy and Phys. I
- 1 - FDSC 3010 Food Regulations and Policy
- 1 - FDSC 4500 Creative Inquiry
- 4 - MICR 3050 General Microbiology
- 1 - NUTR 4180 Professional Dev. in Dietetics
- 1 - NUTR 4190 Professional Dev. in Nutrition
- 3 - NUTR 4550 Nutrition and Metabolism

**Second Semester**
- 4 - BIOL 2230 Human Anatomy and Phys. II
- 3 - FDSC 3060 Institutional Food Service Mgt.
- 1 - FDSC 4500 Creative Inquiry
- 4 - MICR 4070 Food and Dairy Microbiology
- 1 - NUTR 4180 Professional Dev. in Dietetics
- 1 - NUTR 4190 Professional Dev. in Nutrition
- 3 - NUTR 4550 Nutrition and Metabolism

### Senior Year

**First Semester**
- 3 - ENGL 3040 Business Writing
- 3 - ENGL 3140 Technical Writing
- 3 - FDSC 4020 Food Chemistry II
- 3 - FDSC 4070 Quantity Food Production
- 4 - NUTR 4250 Medical Nutrition Therapy I

**Second Semester**
- 3 - FDSC 4020 Food Chemistry II
- 3 - FDSC 4070 Quantity Food Production
- 4 - NUTR 4250 Medical Nutrition Therapy II
- 3 - NUTR 4260 Community Nutrition
- 1 - NUTR 4270 Nutrition Counseling

### Sophomore Year

**First Semester**
- 3 - AGRB 2020 Agricultural Economics or ECON 2110 Principles of Microeconomics or ECON 2120 Principles of Macroeconomics
- 3 - CH 2230 Organic Chemistry and 1
- 1 - CC 2270 Organic Chemistry Lab.
- 3 - NUTR 2030 Introduction to Principles of Human Nutrition
- 1 - NUTR 2160 Evidence-Based Nutrition
- 3 - PHYS 1220 Physics with Calculus I and 1
- 1 - PHYS 1240 Physics I and 3
- 3 - PHYS 2020 Introductory Physics or 3
- 3 - PHYS 2090 General Physics I and
- 1 - PHYS 2090 General Physics I Lab.

**Second Semester**
- 3 - BCHM 3050 Essential Elements of Biochem.
- 2 - BIOL 4340 Biological Chemistry Lab. Techniq.
- 3 - NUTR 2040 Nutrition Across the Life Cycle
- 3 - STAT 2300 Statistical Methods I
- 4 - Arts and Humanities (Literature) Requirement
- 3 - Arts and Humanities (Non-Lit.) Requirement

### NUTRITION AND DIETETICS CONCENTRATION

#### Freshman Year

**First Semester**
- 3 - BIOL 1030 General Biology I and 1
- 1 - BIOL 1050 General Biology Lab. I or 5
- 5 - BIOL 1100 Principles of Biology I
- 4 - CH 1010 General Chemistry
- 3 - COMM 1500 Intro. to Human Comm. or 3
- 3 - COMM 2500 Public Speaking
- 1 - FDSC 1010 Introduction to Food Science and Human Nutrition
- 3 - MATH 1020 Intro. to Math. Analysis or 4
- 3 - MATH 1060 Calculus of One Variable I

**Second Semester**
- 3 - BIOL 1040 General Biology II and 1
- 1 - BIOL 1060 General Biology Lab. II or 5
- 5 - BIOL 1110 Principles of Biology II
- 4 - CH 1020 General Chemistry
- 3 - ENGL 1030 Accelerated Composition
- 1 - FDSC 1020 Perspectives in Food and Nutrition Sciences
- 3 - PSYC 2010 Introduction to Psychology

**Sophomore Year**

**First Semester**
- 3 - AGRB 2020 Agricultural Economics or ECON 2110 Principles of Microeconomics or ECON 2120 Principles of Macroeconomics
- 3 - CH 2020 Survey of Organic Chemistry and 1
- 1 - CH 2050 Survey of Organic Chemistry Lab. or 3
- 3 - CH 2230 Organic Chemistry and 1
- 1 - CH 2270 Organic Chemistry Lab.
- 3 - NUTR 2030 Introduction to Principles of Human Nutrition
- 1 - NUTR 2160 Evidence-Based Nutrition
- 3 - PHYS 1220 Physics with Calculus I and 1
- 1 - PHYS 1240 Physics I and 3
- 4 - PHYS 2020 Introductory Physics or 3
- 3 - PHYS 2090 General Physics I and
- 1 - PHYS 2090 General Physics I Lab.

- 1 - NUTR 4190 is recommended for students not pursuing registered dietitian (RD) status.

**FOREST RESOURCE MANAGEMENT**

**Bachelor of Science**

The Forest Resource Management curriculum combines a broad education in the arts and sciences with applied forest sciences. This combination provides the necessary foundation for the scientific management of forest resources, products, and services.

Foresters are qualified for a broad spectrum of employment opportunities in the public and private sectors. They may be engaged as managers, administrators, or owners of forest lands or forest-based businesses; as technical specialists in the production of timber, usable water, wildlife, and aesthetic values, and in the recreational use of the forest; or as professionals in other areas where the conservation of natural resources is a concern. Foresters earning advanced degrees find employment in academic work and in research conducted by public and private agencies.

The curriculum, accredited by the Society of American Foresters, provides a strong program in the basic knowledge and skills required of a professional forester. Forest Resource Management majors will select a minor (see page 63). The curriculum also provides the necessary prerequisites for graduate study.

For students interested in conservation biology, water, and natural resources, the Department of Forestry and Environmental Conservation also administers the Conservation Biology Concentration and the Natural Resources Management Concentration within the Environmental and Natural Resources degree program. See pages 52-53 for program details.

**Freshman Year**

**First Semester**
- 3 - BIOL 1030 General Biology I
- 1 - BIOL 1050 General Biology Lab. I
- 4 - CH 1010 General Chemistry
- 1 - ENR 1010 Intro. to Environ. and Natural Res. I
- 3 - MATH 1020 Intro. to Mathematical Analysis
- 3 - Oral Communication Requirement

**Second Semester**
- 3 - BIOL 1040 General Biology II
- 1 - BIOL 1060 General Biology Lab. II
- 3 - ENGL 1030 Accelerated Composition
- 1 - FDSC 1020 Perspectives in Food and Nutrition Sciences
- 3 - PSYC 2010 Introduction to Psychology

**Sophomore Year**

**First Semester**
- 4 - ENR 2040 Soil Information Systems
- 2 - FOR 2050 Dendrology
- 3 - FOR 2210 Forest Biology
- 3 - Arts and Humanities (Literature) Requirement
- 3 - Economics Requirement

**Second Semester**
- 3 - ENGL 3140 Technical Writing
- 3 - FOR 2060 Forest Ecology
- 3 - Arts and Humanities (Non-Lit.) Requirement
- 3 - Social Science Requirement
- 3 - Minor Requirement

**Forestry Summer Camp**
- 2 - FOR 2510 Forest Communities
- 1 - FOR 2520 Forest Operations
- 4 - FOR 2530 Forest Mensuration
- 1 - FOR 2540 Forest Products
2015-2016 Undergraduate Announcements
College of Agriculture, Forestry and Life Sciences

Junior Year
First Semester
2 - FOR 3020 Forest Biometrics
3 - FOR 1040 Forest Resource Economics
3 - FOR 3410 Wood Procurement Practices in the Forest Industry
4 - FOR 4310 Remote Sensing in Forestry
5 - ENR 4160 GIS for Landscape Planning
1 - Internship, Creative Inquiry or Directed Research Requirement
1
Second Semester
2 - FOR 4310 Remote Sensing in Forestry
3 - FOR 4180 Forest Resource Valuation
4 - FOR 4650 Silviculture
3 - Minor Requirement
1 - Internship, Creative Inquiry or Directed Research Requirement
15

Senior Year
First Semester
4 - FOR 4100 Harvesting Processes
3 - FOR (ENR) 4160 Forest Policy and Admin.
3 - FOR 4170 Forest Wildlife Management
2 - FOR 4250 Forest Resource Management Plans
2 - Minor Requirement
1 - Internship, Creative Inquiry or Directed Research Requirement
16
Second Semester
1 - FNR 4900 Natural Resources Seminar
2 - FOR 4060 Forested Watershed Management
3 - FOR 4150 Forest Wildlife Management
2 - FOR 4250 Forest Resource Management Plans
6 - Minor Requirement
14
130 Total Semester Hours

Second Year
First Semester
2 - FOR 3020 Forest Biometrics
3 - FOR 1040 Forest Resource Economics
3 - FOR 3410 Wood Procurement Practices in the Forest Industry
4 - FOR 4170 Forest Resource Management Plans
3 - Minor Requirement
1 - Internship, Creative Inquiry or Directed Research Requirement
15
Second Semester
1 - GEN 1030 Careers in Biochem. and Genetics
1 - MATH 1080 Calculus of One Variable I
5 - BIOL 1040 General Biology II
1 - MATH 1060 Calculus of One Variable I
1 - General Education Requirement
2 - Physics course. PHYS 2000 is highly recommended.
3 - Social Science Requirement
14
14
129 Total Semester Hours

GENETICS
Bachelor of Science
Genetics is the study of heredity. Genetics research takes many forms, from the study of heredity at the level of individual molecules to study at the level of cells and chromosomes, individuals, or populations. To comprehend current genetic information and to make future contributions to our molecular understanding of life processes, students must obtain a broad background in biology and a firm foundation in chemistry and mathematics. This is the basis of the genetics curriculum. A degree in Genetics is a strong preparation for many careers. The degree provides an excellent foundation for medical, veterinary, or pharmacy school, as well as graduate research in any discipline related to biology, including bioinformatics, forensic technology, and genetic counseling. Because of the increasing emphasis on genetics in everyday life, a Bachelor of Science in Genetics can also be a direct path to a career in the emerging biotechnology industries (pharmaceuticals, agricultural technologies, biomimetic minerals) in research, sales, or business operations. Combined with a law degree, a genetics bachelor of science is a good background for a career as a patent attorney.

Freshman Year
First Semester
5 - BIOL 1010 Principles of Biology I
4 - CH 1010 General Chemistry
1 - GEN 1030 Careers in Biochem. and Genetics
4 - MATH 1060 Calculus of One Variable I
14
Second Semester
5 - BIOL 1110 Principles of Biology II
4 - CH 1020 General Chemistry
3 - ENGL 1030 Accelerated Composition
4 - MATH 1080 Calculus of One Variable II

Notes:
1. A student is allowed to enroll in science and mathematics courses only when all prerequisites have been passed with a grade of C or better.
2. A minimum grade of C is required in all science and mathematics courses. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any science or mathematics course.

HORTICULTURE
Bachelor of Science
Horticulture connects plants and people to improve our world, be it through the enhancement of the foods we eat, the creation of healthy natural living spaces, the economic and aesthetic enhancement of our homes and communities, or the application of green solutions to the challenges of environmental quality. The plants of horticulture are the foundation of human and environmental well being, and it is horticulture professionals who have the knowledge, skills, and passion to utilize those plants for the betterment of humankind.

The Horticulture degree program includes courses in science, mathematics, business, leadership, law, and communication, combined with a strong foundation in horticultural sciences and arts. The curriculum provides the flexibility to choose courses within those categories that best support the student’s personal interests, goals, and success. Career opportunities are endless.

Students work closely with faculty in creative inquiry groups to investigate and implement solutions to real problems. Internships are excellent opportunities to learn and explore potential careers.

2. A minimum grade of C is required in all science and mathematics courses. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any science or mathematics course.

MICROBIOLOGY
Bachelor of Science
Microbiology deals with the study of bacteria, viruses, yeasts, filamentous fungi, protozoa, and unicellular algae. Microbiologists seek to describe these organisms in terms of their structures, functions, and processes of reproduction, growth, and death at both the cellular and molecular levels. They are also concerned with their ecology, particularly in regard to their pathological effects on man, and with their economic importance.

The Microbiology major provides a thorough training in the basic microbiological skills. Further, students receive instruction in mathematics, physics, chemistry, and biochemistry, all essential to the training of a modern microbiologist. Students can prepare for a variety of careers through a wide choice of electives. The Microbiology curriculum with a Biomedicine
Concentration is recommended for students planning postgraduate programs. Microbiology graduates may enter graduate school in microbiology, biochemistry, bioengineering, or related disciplines; they may enter medical or dental schools or pursue careers in one of the many industries or public service departments dependent upon microbiology. Some of these are the fermentation and drug industries, medical and public health microbiology, various food industries, and agriculture.

Microbiology majors planning to apply for admission to a medical or dental school should inform their advisors immediately upon entering the program.

**Freshman Year**

First Semester
1. BIOL 1010 Frontiers in Biology I or
   1. MICR 1010 Microbes and Human Affairs
2. BIOL 1100 Principles of Biology I
3. CH 1010 General Chemistry
4. COMM 1500 Intro. to Human Comm. or
5. COMM 2500 Public Speaking
6. MATH 1060 Calculus of One Variable I

Second Semester
5. BIOL 1110 Principles of Biology II
6. CH 1020 General Chemistry
7. ENGL 1030 Accelerated Composition
8. Mathematical Sciences Requirement

**Sophomore Year**

First Semester
1. CH 2230 Organic Chemistry
2. CH 2270 Organic Chemistry Lab.
3. ENGL 3150 Scientific Writing and Comm.
4. Arts and Humanities (Literature) Requirement
5. Elective

Second Semester
2. BIOL 4340 Biol. Chemistry Lab. Techniques
3. CH 2240 Organic Chemistry
4. CH 2280 Organic Chemistry Lab.
5. Arts and Humanities (Non-Lit.) Requirement
6. Biochemistry Requirement
7. General Microbiology Requirement

**Junior Year**

First Semester
3. MICR 4010 Microbial Diversity and Ecology
4. PHYS 1220 Physics with Calculus I
5. PHYS 2070 General Physics I
6. PHYS 2090 General Physics I Lab.
7. Social Science Requirement

Second Semester
3. MICR 4150 Microbial Genetics
4. MICR 4500 Advanced Micro Lab I
5. MICR 4930 Senior Seminar
6. Elective

**Senior Year**

First Semester
3. BIOL 4610 Cell Biology
4. MICR 4150 Microbial Genetics
5. MICR 4510 Advanced Micro Lab II
6. Virology Requirement
7. Elective

Second Semester
1. BIOL 1010 Frontiers in Biology I or
   1. MICR 1010 Microbes and Human Affairs
2. BIOL 1100 Principles of Biology I
3. CH 1010 General Chemistry
4. ENGL 1030 Accelerated Composition
5. Mathematical Sciences Requirement

**Biomedicine Concentration**

Freshman Year

First Semester
1. BIOL 1010 Frontiers in Biology I or
   1. MICR 1010 Microbes and Human Affairs
2. BIOL 1100 Principles of Biology I
3. CH 1010 General Chemistry
4. COMM 1500 Intro. to Human Comm. or
5. COMM 2500 Public Speaking
6. MATH 1060 Calculus of One Variable I

Second Semester
3. MICR 4110 Principles of Biology II
4. CH 1020 General Chemistry
5. ENGL 1030 Acceleration
6. Mathematical Sciences Requirement

**Senior Year**

First Semester
3. CH 2230 Organic Chemistry
4. MICR 4150 Microbial Genetics
5. MICR 4160 Introductory Virology
6. MICR 4510 Advanced Micro Lab II
7. Biomedicine Requirement

Second Semester
2. BIOL 4930 Senior Seminar or
   2. MICR 4930 Senior Seminar
3. MICR 4520 Advanced Micro Lab III
4. Elective

1. BIOL 1010 and 1110 are strongly recommended; however, BIOL 1030/1050 may substitute for BIOL 1100, and BIOL 1040/1060 may substitute for BIOL 1110. The remaining 1-2 credits required must be satisfied by completing 1-2 extra credits from departmental course offerings at the 3000 level or above. See advisor.
2. MATH 1100 or STAT 2300 or other approved coursework. See advisor. Medical and dental schools have different mathematics requirements.
3. General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness and Science and Technology in Society requirements.
4. Elective hours may be used toward satisfying the requirements of a minor.
5. BCHM 3010 or 3050, or other approved coursework at the 3000 level or higher.
6. MICR 3050 or other approved coursework at the 3000 level or higher.
7. See advisor. Minimum of 12 credits is required. At least one course must be selected from each of the following fields: Biomedicine—BIOL 4200, 4350, 4550, 4670, 4840, 4890, GEN 3000, HPLH 3800, MICR 4000, 4050, 4110, (AVS, BIOL) 4040, 4170.
8. Environmental-BIOL 4250, MICR 4020, 4030, 4100.
10. Remaining credits can be satisfied by any 3000- or 4000-level course in the above listed courses, or any of the following: BCHM 4400, BIOL 3150, 3160, 3940, 4910, 4940.
11. Students planning to apply to medical/dental schools should take PHYS 2080 and 2100 during the second semester of the junior year.
12. BIOL 4540 or MICR 4160.
PACKAGING SCIENCE

Bachelor of Science

The Bachelor of Science degree in Packaging Science prepares students for careers in industries producing and utilizing packages for all types of products. Packaging is an essential part of industrialized economies, protecting, preserving, and helping to market products. The field of packaging is highly competitive and highly innovative, requiring an ever-increasing number of professional positions.

Opportunities for employment include a wide variety of career paths such as manufacturing, marketing, sales, design, purchasing, quality assurance, and customer services. Most career opportunities are in positions requiring technical knowledge combined with marketing and management skills.

The core curriculum assures graduates of having the skills and knowledge required by most entry-level packaging positions. Emphasis area choices or minors allow students to select courses to improve career preparation for specific industry segments, including: Distribution, Transportation and Engineering Technology; Food and Health Care Packaging; Materials; and Package Design and Graphics. Alternatively, any University-approved minor may be completed.

Students changing majors into Packaging Science must:
1. have an overall minimum GPA of 2.0; and
2. have completed four of the following courses with an average GPA of 2.7:
   - BIOL 1030, 1040, CH 1010, 1020, MATH 1060, PHYS 1220, 2070, 2080, 2210; or both MATH 1040 and 1070; and
3. have completed PKSC 1020 with a grade of B or higher.

Combined Bachelor of Science/Master of Science Degree Program

The Department of Food, Nutrition and Packaging Sciences also offers an accelerated five-year combined bachelor’s/master’s program that allows students to count up to twelve hours of graduate credit toward both the BS degree in Packaging Science and the MS degree in Packaging Science. Details are available from the Department of Food, Nutrition and Packaging Sciences or at www.clemson.edu/foods.

PLANT AND ENVIRONMENTAL SCIENCES

Bachelor of Science

The BS degree program in Plant and Environmental Sciences is a multidisciplinary program that educates students with expertise in soils, crop sciences, and applied agricultural biotechnology. It offers students a rigorous, science-based degree with educational opportunities related to management of agricultural commodities and natural resources, as well as soil and water resources. Students can tailor the program to fit their professional and academic goals by selecting one of three concentrations.

The Agricultural Biotechnology Concentration integrates conventional disciplines with molecular advances in plants, pathogens, and biosystem interactions and responds to the educational void between the rapid adoption of biotechnology products into agricultural production and the intermediate- and end-users, farmers, and consumers. Graduates in this concentration will be competitive as scientists in emerging agricultural biotechnology industries, as educators, and as policy makers and officers in regulatory agencies.
Students with a concentration in Agronomy will graduate with comprehensive knowledge to increase farm profits by decreasing the costs of crop production; build soil tilth and fertility through rotations, multiple cropping, and nutrient cycling; protect the environment by minimizing or more efficiently using synthetic agrichemicals; manage crop pests and weeds with integrated, ecologically sound strategies; develop strategies for profitable marketing of agricultural commodities; and create a strong, diversified agriculture that is stable through market and weather fluctuations. Graduates can assume positions as self-employed farmers, farm managers, state and federal natural resource managers, research technicians, agricultural industry employees, greenhouse managers, consultants in pest management and sustainable agriculture, field ecology professionals, agritourism industry specialists, extension personnel, or regulatory officers.

Students with a concentration in Soil and Water Science can address compelling problems such as land application of agricultural and industrial wastes, reduction of contamination of ground and surface waters, establishment of functional septic drain fields, and production of food and fiber crops. Graduates will be able to establish careers in traditional agrarian fields such as soil scientists and conservationists, extension agents, and farm consultants, and in the broader environmental arenas of DHEC, consulting engineering firms, and environmental consulting. Graduates will be well prepared for graduate work in fields ranging from soil science to environmental engineering and law.

**Freshman Year**

**First Semester**
- BIOL 1030 General Biology I
- BIOL 1050 General Biology Lab. I

PREPROFESSIONAL HEALTH STUDIES

Non-degree
The health professions need individuals with a diversity of educational backgrounds and a wide variety of talents and interests. The philosophies of education, the specific preprofessional course requirements, the noncognitive qualifications for enrollment, and the systems of training vary among the professional health schools; but all recognize the desirability of a broad education—a good foundation in the natural sciences, highly developed communication skills, and a solid background in the humanities and social sciences. The absolute requirements for admission to professional health schools are limited to allow latitude for developing individualized undergraduate programs of study; however, most schools of medicine and dentistry require 16 semester hours of chemistry, including organic chemistry, eight hours of biological sciences, eight hours of physics, and six hours of mathematics. These requirements should be balanced with courses in vocabulary building, the humanities, and social sciences. The basic requirements in the natural sciences and as many of the courses in the humanities and social sciences as possible should be completed by the third year so students are prepared to take the Dental Admission Test or the Medical College Admission Test prior to applying to a professional school.

Undergraduates may also prepare to study optometry, podiatry, and other health professions. While the basic requirements for these professional schools are essentially the same as those for schools of medicine and dentistry, specific requirements for individual schools in these professions vary somewhat; consequently, interested students are advised to consult with the chief health professionals advisor.

At Clemson, rather than having a separate, organized preprofessional health studies program, students are allowed to major in any curriculum, as long as the basic entrance requirements of the professional health schools are fulfilled. These schools are not as concerned about a student’s major as they are about academic performance in whichever curriculum the student chooses. Professional health schools have neither preferences nor prejudices concerning any curriculum, which is evidenced by the fact that their entering students represent a broad spectrum of curricula. The emphasis is placed on the student’s doing well in the curriculum chosen, and this becomes critical as competition increases for the limited number of places available in professional health schools.

PREPHARMACY

The two-year Prepharmacy program requires 66–72 credit hours, depending on the pharmacy school of interest. Upon completion of the program, students will be eligible to apply to a college of pharmacy, usually the South Carolina College of Pharmacy (MUSC and USC campuses), and may be eligible to apply for the Bachelor of Science in Preprofessional Studies. The degree in Pharmacy is awarded by the institution attended. It is important for students to work closely with their advisor as there are variations in courses required by the pharmacy schools.

For financial aid purposes, students in the Prepharmacy program are considered to be enrolled in a degree-seeking program.

PREREHABILITATION SCIENCES

The Prerehabilitation Sciences major includes concentrations in physical therapy, occupational therapy, communication sciences and disorders, as well as in physician assisting and allied health areas. This curriculum is designed to meet the requirements of the programs in the College of Health Professions at the Medical University of South Carolina and other professional schools. The program requires a minimum of 90 semester hours of undergraduate coursework. In addition, students must apply to a professional school for acceptance into its program.
Because preparation for some of the concentrations, such as the physical therapy, occupational therapy, and communication sciences and disorders programs at MUSC, requires a baccalaureate degree in any area, students are advised to select a major with similar requirements after consultation with the Prehabilitation Sciences advisor. The following curriculum fulfills the general requirements for those fields requiring less than a baccalaureate degree. Electives should be chosen after consultation with the advisor. Professional schools may change their requirements at any time, so it is imperative that students in this major stay in close contact with their advisor.

For financial aid purposes, students in the Prehabilitation Sciences program are considered to be enrolled in a degree-seeking program.

### PREVETERINARY MEDICINE

Under a regional plan, the South Carolina Prevet-
erinary Advisory Committee coordinates a program for South Carolina residents who are interested in pursuing careers in veterinary medicine. South Carolina residents attending any college or university may apply through the Veterinary Medical College Application Service (VMCAS) to the University of Georgia College of Veterinary Medicine. Currently the University of Georgia admits up to 17 students each year through arrangements with the Southern Regional Education Board. The State of South Caro-

olina has a contract with Mississippi State University to admit up to five South Carolina residents. The State of South Carolina also has a contract with Tuskegee University to admit up to four South Carolina residents. Application must be made directly to Tuskegee University.

Minimum requirements for admission to a college of veterinary medicine generally include the satisfactory completion of prescribed courses in a well-rounded undergraduate degree program. Specific requirements for admission to the University of Georgia College of Veterinary Medicine include the following undergraduate courses: six credits of English, nine credits of humanities and social studies, eight credits of physics, eight credits of general biology, eight credits of advanced biology, three credits of biochemistry, and 16 credits of organic and inorganic chemistry. (Chemistry and physics courses must be at the baccalaureate level; they may not be survey courses.)

To be in the best competitive position, applicants should complete courses in animal agriculture, genetics, nutrition, biochemistry, and advanced biology. Consideration for selection is character, scholastic achievement, personality, experience with large and small animals, general knowledge, and motivation. In the past, competition has been keen, and only those applicants who have shown exceptional ability have been admitted. Specific considerations may include a minimal grade-point average and completion of standardized tests such as the Graduate Record Examination and the Veterinary College Admission Test.

Since out-of-state students attending Clemson are ineligible to apply to the University of Georgia or Tuskegee University under the South Carolina quota, they should contact the college(s) of veterinary medicine to which they plan to apply. They may apply at the University of Georgia for at-large admission.

Veterinary schools accept students with a broad range of academic backgrounds; therefore, it is recommended that the beginning university student select an undergraduate major and simultaneously complete the courses required for veterinary school entrance and those required for completion of a BS or BA degree. For students selecting Animal and Veterinary Sciences or Biological Sciences at Clemson University, the basic curricula have been designed to accommodate Georgia’s entrance requirements. Further information is available from the Department of Animal and Veterinary Sciences at 864-656-3427.

---

### TURFGRASS

#### Bachelor of Science

Turfgrass is a major part of our built environment and daily life, including home lawns, sports fields, and golf courses. Grasstips are aesthetically attrac-
tive and provide many environmental benefits, including the prevention of soil erosion, noise reduc-
tion, improved water quality, and reduced injuries from sports.

Graduates pursue careers in management of profes-
sional golf courses and sports fields and in lawn care; production and sale of seed, sod, supplies, and equipment; or as technicians for businesses or govern-
ment agencies. The curriculum provides a strong foundation in science, advanced business, and environmental and leadership skills that are needed for success in today’s competitive environment.

Courses in horticulture also provide a background for turfgrass managers who may have responsibilities for landscaped areas.

Students work closely with faculty in creative inquiry to investigate and implement solutions to real problems. Student interns experience a wide range of turf facilities, businesses, and public institutions to develop skills and experience needed for successful careers. In addition, the University’s golf course (Walker Golf Course) and athletic fields offer great employment and learning opportunities.

6 - Related Science Requirement*
16
123 Total Semester Hours

*See General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness and the Science and Technology in Society Requirements.
*Internship must be completed in one or two semesters. First internship must be completed within one year after successfully passing HORT 2120/2130. Prior approval is required for internships, and a GPA of 2.0 is required for registration. Students are strongly encouraged to take multiple internships.
*See advisor. Select from approved departmental list. A total of nine hours is required.
*Turfgrass majors are required to take six hours of HORT specialization courses. Turfgrass internship courses do not count as HORT specialization courses.
*In addition to PES 2020, 4460, 4520, and 4530, students must select one additional soils course from PES 4030, 4080 or 4900.
*Choose nine hours from the recommended list of courses.

Note: Turfgrass majors must earn a C or better in all HORT courses. Courses may be repeated as often as necessary to achieve the minimum grade.

WILDLIFE AND FISHERIES BIOLOGY
Bachelor of Science
Increased interest in conservation of natural resources and the environment and demand for seafood products has resulted in these areas becoming increasingly technical and requiring highly qualified wildlife and fisheries biologists. Greatest demands for graduates are in the areas of management, research, survey, and regulatory positions with state and federal agencies; industrial research and quality control laboratories; conservation, recreation, and other public service agencies; and private enterprises.

The Bachelor of Science degree program in Wildlife and Fisheries Biology provides a solid foundation for many careers in the sciences. The curriculum is strong in basic and applied sciences, communication skills, and the social sciences. In addition, three credit hours are available for field training with appropriate natural resource agencies. Students may satisfy coursework requirements for professional certification by the Wildlife Society and/or the American Fisheries Society.

For students interested in conservation biology, water, and natural resources, the Department of Forestry and Environmental Conservation also administers the Conservation Biology and Natural Resources Management Concentrations within the Environmental and Natural Resources degree program. See pages 52-53 for program details.

Combined Bachelor of Science/Master of Science Degree Program
Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits toward undergraduate and graduate program requirements. Students are encouraged to obtain the specific requirements for the dual degree from the Department of Forestry and Environmental Conservation as early as possible in their undergraduate program, as a number of required courses have prerequisites not normally taken by Wildlife and Fisheries Biology majors. Enrollment guidelines and procedures can be found under Academic Regulations in this catalog.

Freshman Year
First Semester

See pages 40-43 for details.
COLLEGE OF ARCHITECTURE, ARTS AND HUMANITIES

By uniting the humanities with the disciplines of design and building and the arts, the College of Architecture, Arts and Humanities offers one-of-a-kind opportunities for interdisciplinary exploration and achievement—opportunities that are at once rigorous and imaginative, classical and innovative. Students and faculty see their ideas expressed in a myriad of forms—as buildings and landscapes, as the written word, as music and drama, as paintings, pots, prints and photographs. They work in the very oldest media and the very newest. They work alone. They work together. They seek not only the imaginative answers, but the enduring questions.

The College of Architecture, Arts and Humanities is organized into three schools. The School of the Arts includes the departments of Art and Performing Arts. The School of Design and Building includes the School of Architecture, the Department of Construction Science and Management, and the Department of Planning and Landscape Architecture. The School of the Humanities includes the departments of Communication Studies; English; History; Languages; and Philosophy and Religion. In addition to the undergraduate and graduate degrees offered by the ten departments, an array of interdisciplinary programs is housed in the Office of the Dean, including the doctoral programs in Planning, Design and the Built Environment; and in Rhetorics, Communication and Information Design.

SCHOOL OF DESIGN AND BUILDING AND SCHOOL OF THE ARTS

The Bachelor of Arts in Architecture degree is the preprofessional preparation for graduate study leading to the Master of Architecture degree, which is the fully accredited professional degree in the field. The accredited Bachelor of Science in Construction Science and Management program prepares students for careers as professional managers in the construction industry. A graduate program is also offered leading to the Master of Construction Science and Management. The Visual Arts program offers professional study in the studio visual arts leading to the Bachelor of Fine Arts degree. A graduate program leading to the Master of Fine Arts is also offered. The accredited four-year Bachelor of Landscape Architecture and three-year Master of Landscape Architecture degree programs prepare students for careers as professional landscape architects and are offered by the Department of Landscape Architecture. The Bachelor of Arts in Production Studies in Performing Arts is a distinctive degree program that combines practical hands-on experiences in performing arts production technologies with classes in music and theatre performance, history, and theory.

A graduate program in City and Regional Planning is housed within the school and accepts graduates from a variety of baccalaureate programs and prepares them for careers in both public and private sector planning through its Master of City and Regional Planning degree. The Master of Science in Historic Preservation degree is a professional degree program designed for students who will specialize in working with historic buildings, landscapes, and the decorative arts. The Master of Real Estate Development is a full-time, two-year professional degree jointly offered by the Department of Planning, Development and Preservation and the Department of Finance in the College of Business and Behavioral Science.

In addition to the facilities housed on the Clemson campus, the College offers third- and fourth-year Architecture and third-year Landscape Architecture students the opportunity to earn credit toward their degrees at three off-campus sites. Students may spend a semester at the Charleston Architecture Center earning credit from both Clemson University and the College of Charleston. Additionally, the Charles E. Daniel Center for Building Research and Urban Studies in Genoa, Italy, and the Barcelona Program in Barcelona, Spain, provide students with an intensive program of study and travel in Europe.

Architecture Charleston Program
Located in Charleston, South Carolina, this program is available to qualified undergraduates in Architecture, Construction Science and Management, Landscape Architecture, and Visual Arts. Studio work is oriented toward design within the historic setting. Students also enroll in classes at the College of Charleston campus. The program is enriched by visiting scholars and professionals from the area.

Architecture Overseas Program
The Daniel Center for Building Research and Urban Studies in Genoa, Italy, is available to qualified Bachelor of Arts in Architecture, Master of Architecture, Construction Science and Management, Fine Arts, City and Regional Planning, and professional year Landscape Architecture students. The Barcelona program in Barcelona, Spain, is available to qualified Bachelor of Arts in Architecture and professional year Landscape Architecture students. In both Genoa and Barcelona, studio and classroom work is enriched by visiting scholars and complemented by scheduled field trips in the country of program origin and in continental Europe.

Entrance Requirements
Admission to degree programs in the School of Design and Building and the School of the Arts is based on academic performance and is limited based on space availability in the various programs. Students seeking admission are advised to apply to the Admissions Office early in the fall of their senior year in high school. They are also encouraged to visit the school during their senior year. Faculty are available to meet with them and their parents informally and answer questions and discuss individual programs in more detail. Prospective students may schedule appointments by calling the individual department.

Advancement in Architecture
Students enrolled in second-, third-, or fourth-year design studios and theory courses must attain at least a 2.0 grade point average in each year level (by repeating one or both semesters, if necessary) to qualify for advancement to the next year level or, in the case of fourth-year Architecture studios, to qualify for the Architecture degree, or in Landscape Architecture at the final year, to qualify for the Bachelor of Landscape Architecture degree.

SCHOOL OF HUMANITIES

The Bachelor of Arts degree is offered in Communication Studies, English, History, Language and International Trade, Modern Languages, Pan African Studies, Philosophy, Religious Studies, Sports Communication, Women’s Leadership, and World Cinema. The Bachelor of Science degree is offered in Language and International Health.

To achieve depth as well as breadth in their education experiences, students majoring in Communication Studies, English, History, Modern Languages, Pan African Studies, Philosophy, Religious Studies, Sports Communication, or Women’s Leadership complete at least 24 semester hours from courses above the sophomore level. As soon as feasible and not later than the end of the sophomore year, students in these fields also select a minor consisting of at least 15 additional semester hours. Courses satisfying the minor may not also be included in the minor. A second major (a double major) may substitute for the minor, provided all requirements are fulfilled for each major.

The foreign language requirement is a proficiency requirement. Students must complete through 2020 in Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, or Spanish. Some majors allow American Sign Language to fulfill the foreign language requirement.

Students enrolled in degree programs offered in the humanities who expect to teach in the public schools may elect education courses required for teaching certificates by the South Carolina Department of Education. Such courses are to be approved by their own department advisors.

Students may transfer into the Undeclared category in the humanities only if they have completed 45 or fewer credit hours. For more information, contact the College of Architecture, Arts and Humanities Advisement Center in 101 Strode Tower.

ARCHITECTURE

Bachelor of Arts
The Bachelor of Arts in Architecture prepares students for subsequent professional education by providing a sound general education, focused design studies, complementary support courses, and the requirement to study in an off campus location. The School of Architecture emphasizes the relationship of buildings to the rest of the environment: built, natural, and cultural. The curriculum includes seven semesters of studio in addition to complementary courses in architectural history and theory and building technology. The first three studios are collaborative, taught by faculty in Architecture, and Communication Studies. The Bachelor of Arts also includes requirements for a minor and foreign language.

In the first two years of the program, students learn to apply the thinking and communications skills needed to pursue higher-level work in the discipline. The curriculum in the first two years also allows students to complete most of the University’s general education requirements. In the junior year, students must
select an off-campus, location-specific studio and co-required coursework in order to fulfill their off-campus study requirement. The final studio focuses on reflection and synthesis.

**Accreditation and Registration**

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Clemson University, College of Architecture, Arts and Humanities, School of Architecture offers the following NAAB-accredited degree programs:

- M.Arch. (pre-professional degree + 60 graduate credits)
- M.Arch. (pre-professional degree + 61 credits)
- Architecture + Health
- M.Arch. (non-pre-professional degree + 90 credits)
- M.Arch. (non-pre-professional degree + 91 credits)
- Architecture + Health

The next accreditation visit for all programs will be in 2017.

**COMMUNICATION STUDIES**

**Bachelor of Arts**

The Bachelor of Arts in Communication Studies provides a thoroughly integrated yet individual degree program that prepares students for careers in business, government, and public sectors. In addition, the program provides a foundation for graduates who wish to pursue advanced degrees in the humanities, social sciences, business, and law. Through their coursework and extracurricular experiences, Communication Studies majors develop a set of skills in oral, written, and visual communication that enables them to research, design, present, and evaluate messages across diverse contexts and from a variety of platforms, including digital communication technology.

Students may change majors into the Communication Studies program based on approval of a committee of faculty from the Department of Communication Studies. The deadline for applying for a change of major during the fall semester is September 15, with decisions made by October 1. For spring semester changes of major, the deadline is February 15, with decisions made by March 1. The Department of Communication Studies accepts a maximum of 30 changes of major per year. To qualify for acceptance, applicants should have completed 15 credit hours including ENGL 1030 and COMM 2010 (with a C or better). All students requesting a transfer into the Communication Studies program must have a grade-point average of 2.5 or higher. An application form and a writing sample are also required. Detailed information is available from the Communication Studies Department, 408 Strode Tower or the department website: www.clemson.edu/caah/communication.

120 Total Semester Hours

1The foreign language requirement is a proficiency requirement. Students must complete through 2020 in Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, or Spanish.  
2See General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness Requirement and, if STAT 2220 is not selected, the Science and Technology in Society Requirement.  
3See advisor. Emphasis area consists of 12 credit hours of COMM coursework at the 3000–4000 level with a single theme.  
4Select from 3000–4000 level COMM courses.

### ENGLISH

#### Bachelor of Arts

The core courses of the English major help students acquire an understanding of literature as a humanistic study; develop an appreciation and practical knowledge of the modes of literary expression, research, and criticism; and improve the ability to communicate effectively and intelligently.

By the end of the sophomore year, students choose between two emphasis areas: Literature or Writing and Publication Studies. The Literature Emphasis Area offers an extensive exploration of American and British literature, literary theory, and related disciplines such as creative writing and film. The Writing and Publication Studies Emphasis Area focuses on digital publishing, professional communication, rhetoric, creative writing, and writing about the arts. By teaching students to read closely, think critically, and communicate effectively, both emphasis areas prepare English majors for work in a variety of professional and academic fields.

The standard program of study consists of courses stipulated in the map below, which includes 24 credit hours of core courses and 15 hours chosen from one of the two emphasis areas.

### Core Courses

- ENGL 3000 and 3100 and 18 additional credits selected from the following:
  - Literature Survey Requirement—Six credit hours from ENGL 3960, 3970, 3980, 3990
  - Shakespeare—ENGL 4110
  - Language, Criticism, and Theory—Three credits from ENGL 4000, 4010, 4350, (WS) 4360, 4400, 4420, 4430, (COMM) 4510, 4880, (COMM) 4910, (COMM) 4920
  - Advanced Writing—Three credits selected from ENGL 3040, 3120, 3140, 3150, 3450, 3460, (THEA) 3470, 3480, 4450, 4460, (THEA) 4470, 4480, 4490, 4900, 4940
  - Major Electives—Three credits from 3000- or 4000-level ENGL courses

#### Capstone Seminar—ENGL 4960

### Literature Emphasis Area

1. **Literature I** (to 1699)—Three credits from ENGL 4030, 4070, 4080, 4100, 4140, 4200, (THEA) 4290, 4440, 4630
2. **Literature II** (1700–1899)—Three credits from ENGL 4150, 4160, 4170, 4180, 4210, 4250, 4260, 4640
3. **Literature III** (from 1900)—Three credits from ENGL 4280, (THEA) 4300, 4310, 4320, 4330, 4340, 4550, 4650
4. **Diversity**—Three credits from ENGL 3530, 3800, 490, (HUM) 4560, 4820, 4830
5. **Major Electives**—Three additional credits from 3000- or 4000-level ENGL courses

#### Writing and Publication Studies Emphasis Area

ENGL 4990 plus 12 additional credits selected from the following:

- Language, Criticism, and Theory—Three credits in addition to core requirements from ENGL 4000, 4010, 4350, (WS) 4360, 4400, 4420, 4430, (COMM) 4510, 4880, (COMM) 4910, (COMM) 4920

---

### College of Architecture, Arts and Humanities 2015-2016 Undergraduate Announcements
Advanced Writing—Three credits, in addition to the Core Advanced Writing Requirement, selected from ENGL 3040, 3120, 3140, 3150, 3450, 3460, (THEA) 3470, 3480, 4450, 4460, (THEA) 4470, 4480, 4490, 4940

WPS Courses—Six credits from ENGL 3320, 3330, 3490, 3870, 4410, 4600, 4750, 4780, 4870, 4980, 4990

HISTORY
Bachelor of Arts
The History major provides students with flexibility to pursue their particular interests in history. The major includes 34 credit hours in history, in addition to HIST 1720 and 1730, as outlined below.
History Major—HIST 2990, 4900 or 4980 and 27 additional credits in History. Students must take three hours each of United States history, European history and non-Western history, in addition to three hours of history at the 4000 level. No more than 16 hours of 1000- and 2000-level history courses (in addition to HIST 2990) may be counted towards the Major Requirements.

History Major (Public History Emphasis Area)—HIST 2990, HIST 4900 or HIST 4980, HIST 4940, HIST 4800; HIST 2020; GEOG 4400; HIST 4150, 4170, 4180 or another course approved by the emphasis area coordinator; and 21 additional credits in History. Students must take three hours each of United States history, European history, and non-Western history, in addition to three hours of history at the 4000 level. No more than 16 hours of 1000- and 2000-level history courses (in addition to HIST 2020 and 2990) may be counted towards the Major Requirements.

Pre-law students majoring in History should consult the pre-law advisor for a recommended program. Students who change majors into History must have completed at least 12 credit hours at Clemson and have either a minimum 2.0 cumulative grade-point average or have earned a B or better in HIST 1720 or 1730, taken at Clemson.

Double Major in History/Secondary Education—Social Studies (History)
The Bachelor of Arts Degree in History and Secondary Education—Social Studies (History) prepares students for teaching at the secondary school level and for graduate studies in History. See pages 129-130 for the curriculum.

Note: To receive a double major in History and Secondary Education—Social Studies (History), the student must complete a change-of-program form to declare both majors.

No more than six hours of 1000- and 2000-level history courses (in addition to HIST 2990 or HIST 2020 and 2990 for students in the Public History Emphasis Area) may be counted towards the Major Requirements.
**LANDSCAPE ARCHITECTURE**

**Bachelor of Landscape Architecture**

The profession of landscape architecture is broad and interdisciplinary. Practicing landscape architects work on a wide range of project types, including, but not limited to, urban design, community design, historic preservation, ecological restoration, parks and park systems, institutional landscapes, memorials, cemeteries, industrial site reclamation, golf courses, wilderness areas and trails, residential landscapes, and gardens.

The profession is both an art and a science. Successful landscape architects are creative professionals who hold an environmental imperative and a social conscience. They are also excellent facilitators, able to bring numerous disciplines and professions together to work on complex projects in the landscape. Landscape Architecture students gain an understanding of this diverse range of subjects by participating in Clemson University’s Creative Inquiry Initiative. As a consequence of numerous creative inquiry experiences within the program, students develop greater skills in teamwork, creative thinking, problem solving, and communication.

Clemson’s Landscape Architecture program is noted for a special emphasis on the art of design. Consequently, the landscape architecture design studio experience is at the center of the student’s education. 42 hours of studio are required. The program leads to a nationally accredited Bachelor of Landscape Architecture degree. The program is designed to provide a generalist, covering the major areas of practice and building from design basics to sophisticated studio experiences, such as large scale landscape planning, parks, recreation, and open space planning; and regional, urban, and community design. The studio experience is supported by other courses inside and outside the Landscape Architecture curriculum that provide the necessary grounding in landscape history and social, cultural, environmental, and aesthetic theories. Students may also choose to focus elective credits on one of three areas: cultural issues, aesthetic theories. Students may also choose to focus elective credits on one of three areas: cultural issues, aesthetic theories, and environmental issues, or professional development. Outstanding final year students may apply for admission to a shortened Master of City and Regional Planning, Master of Landscape Architecture, or Master of Real Estate Development program.

Any undergraduate student who meets the Academic Eligibility Policy after attempting 12 credit hours at Clemson University (or who is allowed to continue by virtue of a semester 2.4 gradepoint average on 12 earned credits or who is allowed to continue through appeal to the Appeals Committee on Academic Eligibility) may transfer from one major to another. Any college or department that seeks an exception to this policy must have the approval of the collegiate dean and the provost.

**LANGUAGE AND INTERNATIONAL HEALTH**

**Bachelor of Science**

The Bachelor of Science program in Language and International Health is jointly administered by the Department of Languages and the Department of Public Health Sciences in the College of Health, Education and Human Development. Students acquire knowledge in public health theory and practice, including the history and philosophy of public health and medicine; the organization, management, and financing of health services; the social and behavioral aspects of health, epidemiology, health evaluation methods, and health communications. Students also acquire communicative competence in the target language and its culture, literatures, health environments, and multicultural issues.

The program requires the completion of a semester internship abroad. Graduates will be qualified to assume positions in a variety of settings, including integrated hospital systems, consulting firms, managed care organizations, pharmaceutical companies, as well as multicultural community centers. They can also pursue graduate degrees in community health, epidemiology/biostatistics, health administration, health systems and research.

In addition to the curriculum requirements below, students in the Language and International Health program will be required to pass a noncredit examination and submit a noncredit senior dossier to assess their language competence in various areas. Both assessments take place in the student’s last full semester at the University.

Students who have completed fewer than 50 credit hours may change majors into Language and International Health with a minimum cumulative grade-point average of 2.5. Students with 50 or more credit hours may apply for a change of major into Language and International Health, based on space availability, with a minimum cumulative grade-point average of 2.75.

Rural Sociology—RS (SOC) 4010, (SOC) 4590, SOC 3710, (RS) 4170
Sociology—SOC 4330
*General Education Requirements. For students not taking the CH 1050/1060 sequence, three of these credit hours must also satisfy the Science and Technology in Society Requirement.
Internship must be taken in a country where the target language is spoken. The study abroad courses and internship must be taken concurrently as listed during the second semester of the junior year or later or during the summer.
*Select from any 3000–4000 level courses in the target language except SPAN 3050.
*Select from any 3000–4000 level courses in HLTH.

LANGUAGE AND INTERNATIONAL TRADE
Bachelor of Arts
Students in the Bachelor of Arts program in Language and International Trade acquire communicative competence in the target language; a familiarity with specific peoples, cultures, literatures, and business environments; and the knowledge and skills to pursue graduate studies or careers in business within their language of specialization.

The Language and International Trade program combines foreign languages and international trade. Students choose one language concentration (Chinese, French, German, Japanese, or Spanish) and one professional concentration (Applied International Economics, International Trade, or Tourism).

The language component emphasizes speaking and writing skills, culture, civilization, and business/technical languages. The professional component introduces students to the core content of their preferred concentration, as well as to the international dimensions of that concentration.

Study abroad of at least one semester in the target language setting is mandatory. In addition, each student is required to complete an internship with an international company in the United States or a summer internship with a company abroad. Internships are subject to approval by the Language and International Trade Director. Students are strongly encouraged to participate in the Clemson Language Immersion Program (CLIP) prior to enrolling in study abroad programs.

In addition to the curriculum requirements below, students are required, as a condition of graduation, to pass a noncredit examination and submit a noncredit senior dossier to assess their language competence in various areas. Both assessments take place in the student’s last full semester at the University.

Freshman Year
First Semester
4 - CHIN 1010 Elementary Chinese or
4 - FR 1010 Elementary French or
4 - GER 1010 Elementary German or
4 - JAPN 1010 Elementary Japanese or
4 - SPAN 1040 Basic Spanish
3 - ENGL 1030 Accelerated Composition
1 - LIT 1270 Introduction to LIT
1 - MATH 1020 Intro. to Mathematical Analysis
4 - Natural Science Requirement
— 15
Second Semester
3 - ACCT 2010 Financial Accounting Concepts or
3 - ACC 2020 Managerial Account. Concepts
4 - CHIN 1020 Elementary Chinese or

MODERN LANGUAGES

Bachelor of Arts
The Bachelor of Arts degree in Modern Languages provides a broadly humanistic course of study in seven areas of concentration: American Sign Language, Chinese, French, German, Italian, Japanese, and Spanish. This course of study seeks to provide students with basic competence in both the relevant language and the literary and cultural heritage pertaining to that language. Moreover, students will be required to take at least two courses in cultural inquiry which are designed to sharpen their sense of cultural difference, to enhance their critical thinking skills, and to prepare them for citizenship in a global community of diverse cultural precepts and practices. In this respect, the Bachelor of Arts in Modern Languages is intended to prepare students for a wide range of careers in the international arena as well as for the kinds of graduate programs that are an appropriate starting point for such careers.

As a condition of graduation, students in the Modern Languages program will be required to pass a noncredit examination and to submit an electronic portfolio in the relevant language to assess their competence in that language. Students should see their advisor for details. Both assessments take place in the student’s last full semester of study.

The Bachelor of Arts in Pan African Studies combines the interdisciplinary study of the African Diaspora, with an emphasis on the contributions Africans have made to contemporary Western society. Majors learn to ask critical questions about the social, economic, political, and familial contributions Africans have made to Western society and to identify the connections between Africans in diverse cultures. An interdisciplinary curriculum that combines coursework in African and African American studies is supplemented by numerous practical work experiences and opportunities.

The major provides a strong foundation for students interested in advanced degrees in the humanities or social sciences and for students pursuing careers in law, business, government, non-profit organizations, social work, and work related to improving the lives of economically and socially disadvantaged people locally, nationally, and internationally. Students develop strong oral and written communication skills, gain exposure to different cultures, and learn the skills they need to navigate ethnically diverse environments. The program is designed to work well as a double major for students in the humanities/social sciences, education, engineering and business fields.

The program of study includes the courses stipulated in the curriculum below. The major consists of 33 credits. All students take an 18 credit core of required courses (Group I) that consist of an introductory class, Introduction to Pan African Studies (PAS 3010), and two advanced courses from the humanities or social sciences (Group II courses); and two advanced courses from courses that focus on race or ethnicity (Group III courses); and three credit hours from courses that involve a substantial focus on racial issues (Group IV courses); and three credit hours in approved race or ethnicity courses from the humanities or social sciences (Group IV).

Students who have had previous instruction in Spanish may take an accelerated one-semester course that covers the material presented in the standard first-year sequence. They must then take four additional elective credit hours.

See General Education Requirements. Three of these credit hours must also satisfy the Science and Technology in Society Requirement.

See advisor.

Select from 3000- or 4000-level courses in Spanish.

Select from 4000-level courses in Spanish.

Select from 4000-level courses in Spanish.
The foreign language requirement is a proficiency requirement. Students must complete through 2020 in American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian, or Spanish.

See General Education Requirements. Three of these credit hours must also satisfy the Science and Technology in Society Requirement.

PHILOSOPHY
Bachelor of Arts
The required course of study in Philosophy consists of the basic curriculum and either the standard Philosophy major or the Philosophy major with a Law, Liberty and Justice Emphasis Area. Philosophy majors must meet the requirements of the School of Humanities plus complete HIST 1720 and 1730 and 12 hours of 3000-4000-level coursework in one of the following areas: humanities (other than philosophy), math, science, or social science. Some courses may meet more than one requirement. All Philosophy majors must take PHIL 3990 in the junior year. Preparation of the portfolio should begin as soon as the major is declared. Specific requirements include the following:

Standard Philosophy Major—PHIL 3150, 3160, 4010 or 4020, and 24 additional credits in PHIL selected with the advice and consent of the advisor. Six of these credits may be at the 1000 level.

Law, Liberty and Justice Emphasis Area—PHIL 1020, 3150, 3160, 3040 or 3200 or 3210, 3430, 4010 or 4020, HIST 3280, 3290, and nine additional credits in philosophy selected with the advice and consent of the pre-law advisor. Three of these credits may be at the 1000 level. Students with this emphasis area are strongly advised to include POSC 4370 and/or 4380 as an elective, minor, or advanced area requirement.

Pre-law and Pre-medicine students majoring in Philosophy should consult the departmental advisor for help in tailoring the program to their needs.

120 Total Semester Hours

The curriculum features a senior capstone project in which students spend a semester of their final year working as a production team—writing, composing, designing, marketing, and performing a final project with a strong service component. To be considered for admission to this program, students must undergo an interview/audition with the Department of Performing Arts. Please note that students will not be eligible for admission to Clemson University in Production Studies in Performing Arts until this interview/audition is completed. Contact the department for specific requirements.

As a requirement for graduation, all Music Concentration students will be required to demonstrate piano competence equivalent to the 1020 level, and all Audio Technology students will be required to demonstrate piano competence equivalent to the 1010 level.

AUDIO TECHNOLOGY CONCENTRATION
Freshman Year
First Semester
3 - AUD 1850 Introduction to Audio Technology

The Production Studies in Performing Arts degree is a nationally distinctive Bachelor of Arts degree that prepares students for careers in many aspects of the arts, including but not limited to performance, design, arts administration, and arts technologies. The curriculum offers specialized study in music, theatre, and audio technology. In addition to discipline-specific concentrations, all performing arts students take classes in production, performance, history, theory, and arts technology. The Brooks Center for the Performing Arts is a living performing arts laboratory where visiting artists and industry professionals provide additional experiential educational opportunities for Clemson students. Students may choose from more than 70 minors and select elective courses to tailor their degrees to their individual interests.

The degree is rooted in the liberal arts tradition with specific training in the performing arts. It provides the background for a number of career options or advanced studies such as graduate school, professional internships, and specialized postgraduate training.
Junior Year
First Semester
3 - AUD 2790 Audio Practicum
1 - PA 2800 Performing Arts Practicum II
3 - PA 3010 Principles of Arts Administration

121 Total Semester Hours
*Students are expected to complete the first year of language in high school or in a Clemson summer session before the first semester of the freshman year, except for Chinese or Japanese.
*See General Education Requirements. Three of these credit hours must also satisfy the Science and Technology in Society Requirements.
*Select from 3000- or 4000-level courses in THEA. At least three hours must be at the 4000 level.
*Must be chosen from ENGL (THEA) 4290, THEA (ENGL) 4500, ENGL 4100 or 4110.

RELIGIOUS STUDIES
Bachelor of Arts
The Religious Studies major is an interdisciplinary humanities program that focuses on the academic study of the world’s religious traditions and how they are related to various aspects of human experience (psychology, sociology, ethics, philosophy, economics, politics, science, etc.). The Bachelor of Religious Studies provides grounding in the histories, scriptures, rituals, mythologies, ethics, and beliefs of religious communities as they have been situated in specific geo-political contexts throughout the past three millennia. It should be emphasized that the program is not intended to indoctrinate students into one particular religion or to teach them to become religious, but is focused rather on studying how religion both historically and theoretically motivates, provides meaning for, and helps to organize human life. The program trains students to be global thinkers with a deeper understanding of the world’s cultural, political, and social differences. Historically, Religious Studies majors have gone on to pursue graduate work and employment in a number of fields, including law, medicine, ministry, non-profit and service related industries, in addition to numerous others.

In addition to completing the General Education curriculum, the Religious Studies major must meet the requirements of the School of Humanities; complete HIST 1720 and 1730; and complete six hours of 3000-4000 level coursework in Philosophy. Students are encouraged to substitute a double-major for their minor and should speak with their advisor early during their academic tenure at Clemson to ensure that both majors are completed within four years.

All majors must take REL 1020, 3000, 3990, and 4900. They must also take one course each in Judaism (REL 3010 or 3060), Christianity (REL 3020 or 3070), and Islam (REL 3030 or 3150), as well as 12 additional credits in Religious Studies at the 3000-4000 level. Students may also take ENGL 4140, HIST 3960, 4120, PHIL 3030, PSOC 4070, and SOC 4320 for this last requirement. PHIL 3030 may only be used to satisfy one major requirement.

Freshman Year

¹The Foreign Language Requirement for the School of Humanities is proficiency requirement. Students must complete through 2020 in Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian or Spanish.
²See General Education Requirements.
³See major requirements in program description above.
⁴See the CAAH list of approved minors. Students who want to minor in philosophy must complete the requisite coursework above and beyond the two required philosophy courses for the major. Students who want to double major in philosophy, on the other hand, may count these hours towards a double major.
⁵Any 3000- or 4000-level PHIL course.

SPORTS COMMUNICATION
Bachelor of Arts
The Bachelor of Arts in Sports Communication provides a thoroughly integrated yet individualized degree program that prepares students for communication careers in the sports industry. In addition, the program provides a foundation for graduates who wish to pursue advanced degrees in sports communication. Through their coursework and extracurricular experiences, Sports Communication majors develop a set of skills in oral, written, and visual communication that enables them to research, design, present, and evaluate messages across diverse contexts and from a variety of platforms, including social media and digital communication technology.

Students may change majors into the Sports Communication program based on approval of a committee from the Department of Communication Studies. The deadline for applying for a change of major during the fall semester is September 15, with decisions made by October 1. For spring semester changes of major, the deadline is February 15, with decisions made by March 1. Acceptance to the major is competitive and applicants should have completed 15 credit hours, including ENGL 1030 and COMM 2010 (with a B or better). All students requesting a transfer into the Sports Communication major must have a grade-point average of 3.0 or higher. An application form and a writing sample are also required. Detailed information is available from the Communication Studies Department, 408 Strode Tower, or on the departmental website: www.clemson.edu/caah/communication.

VISUAL ARTS
Bachelor of Fine Arts
The Bachelor of Fine Arts degree is the recognized professional undergraduate degree in the visual arts. The program offers students a balanced curriculum of academic coursework, studio art and art history courses in preparation for careers in studio related areas of the visual arts. The department offers coursework in a number of studio disciplines, including ceramics, drawing, painting, printmaking, photography, sculpture and the new media arts.

First-year art students participate in a foundations program comprised of four studio classes. These classes expose first-year art students to 2-D, 3-D and 4-D studio practices; utilize traditional and new media; and place special emphasis on drawing. Near the end of the freshmen year, students exhibit their work in a mandatory Foundations Review.

In the sophomore year, students take studio courses in six disciplines, which provides an overview of the studio arts and exposes students to a broad range of studio experiences. Upon completion of this core of courses, students identify one studio discipline as their emphasis area in the Bachelor of Fine Arts program.

In the junior year, students fulfill requirements in their emphasis area in preparation for the Senior Studio experience. Requirements include intermediate and advanced courses in their chosen studio discipline.

The Senior Studio experience is comprised of three courses and provides students an opportunity to focus study and refine their personal art concepts and skills, produce a cumulative body of artworks for their BFA exhibition, and develop their portfolio for graduate study or a career in studio-related art professions.

Freshman Year
First Semester
3 - AAH 1010 Survey of Art and Arch. History I

WOMEN’S LEADERSHIP
Bachelor of Arts
The Bachelor of Arts in Women’s Leadership combines the interdisciplinary study of women’s experience and representation with an emphasis on the key principles and practice of leadership. Students learn to ask critical questions about women’s lives in social, economic, political, and familial contexts, and to see connections in women’s lives across diverse cultures. This interdisciplinary curriculum combines coursework in women’s studies and leadership studies and is supplemented by a semester-long internship that provides students with practical work experience and opportunites to test leadership skills and strategies.

The major provides a solid foundation for students interested in advanced degrees in the humanities or social sciences, and for students pursuing careers in law, business, government, non-profit organizations, and work related to improving the lives of women locally, nationally, and internationally. Students...
develop strong oral and written communication skills, gain exposure to different leadership styles and paths to leadership, and learn the competitive skills they need to lead ethically in a rapidly changing global environment. The program is designed to work well as a double-major for students in the humanities, social sciences, and business fields.

The major consists of 33 credits and the program of study includes the courses stipulated in the curriculum map below. All students take a 12-credit core of required courses (Group I), which consists of an introductory women’s studies course (WS 1030 or 3010); a women and leadership course (WS 2300); a theories and methods course (WS 3490, 4230, 4360, or 4590); and a capstone senior seminar (WS 4010). In addition to this core, students select six credit hours from courses that focus entirely on women or gender (Group II); six credit hours from courses that involve a substantial focus on women and gender issues (Group III); and six credit hours from approved leadership courses (Group IV). In addition, students complete a three-credit internship. While program faculty and staff help with internship placement, it is each student’s responsibility to identify and secure an internship in line with her or his career goals.

**Group I—Core Courses (12 hours)**
- WS 1030 or 3010 (students may count only one of these toward the major)
- WS 2300 (required of all majors)
- One of WS 3490, 4230, 4360, or 4590 (students who take more than one of these may apply the others toward the Group II distribution requirement)
- WS 4010

**Group II—Courses that focus entirely on women or gender issues (six hours).**
Select from ANTH 4230 COMM 4550, ENGL 3800, ENGL 4360, FR 4990, HIST 3180, 3190, 3530, HLTH 3100, PHIL 3490, POSC 4800, PRTM 3250, PSYC 3080, 4990, SOC 4610, SPAN 4030, THEA 3170, 3180, WS 3490, 4230, 4360, 4590, 4900, 4950. Special topics courses in various departments may qualify as Group II courses. Students should consult an advisor.

**Group III—Courses with a substantial focus on women or gender issues (six hours).**
Select from AAH 3050, COMM 3060, 3070, 3150, 4800, ENGL 3350, 4320, 4560, FR 4100, HIST 3160, 3520, PHIL 3280, PSYC 3060, 4620, SOC 3100, 3110, 4600, 4840. Special topics courses in various departments may qualify as Group III courses. Students should consult an advisor.

**Group IV—Approved leadership courses (six hours).**
Select from HEHD 4000, 4120, 4200, ED 1900, ELE 3010, ML 1010, NPL 3000, POSC 4580.

**COLLEGE OF BUSINESS AND BEHAVIORAL SCIENCE**

Students in the College of Business and Behavioral Science seek to understand and organize human behavior in a business, economic, and social context. The College promotes scholarship with broad awareness of the individual, cultural, political, and global levels and develops distinctive leaders in industry, higher education, professional, and public service. The College includes the School of Accountancy and Finance, and the Departments of Aerospace Studies, Economics, Graphic Communications, Management, Marketing, Military Leadership, Political Science, Psychology, and Sociology and Anthropology.

All College of Business and Behavioral Science majors, and other non-majors taking 3000- and 4000-level courses offered by the College, are required to pay a major and course fee to fund significant infrastructure and program enhancements. Additional information about this fee and the benefits derived from it is available at www.clemson.edu/cbbs/academic/fees.

**BUSINESS AND PROFESSIONAL PROGRAMS**

Bachelor of Science degrees are offered in Accounting, Economics, Financial Management, Graphic Communications, Management, and Marketing. With the exception of Graphic Communications, these programs share a common curriculum during the first year, allowing the student maximum flexibility in choosing an appropriate major. The Business programs in Accounting, Financial Management, Management, and Marketing are accredited by AACSB International (Association to Advance Collegiate Schools of Business). The Accounting program has earned additional accounting accreditation by AACSB International. All business and professional curricula prepare students for a variety of careers and furnish an education that recognizes the need for an understanding of the basic principles of science, appreciation for the nature of human interaction, and the comprehension of the economic, political, and social environment.

**Pre-Business Program**

The Pre-Business program provides students planning to earn Bachelor of Science degrees in Accounting, Economics, Financial Management, Management, and Marketing with a sound academic preparation for these degrees. All Pre-Business students complete a common curriculum during the freshman year. All new Business students (including transfer students) are admitted into the Pre-Business program until the following core classes are satisfactorily completed and the grade-point average requirement is met: BUS 1010, ECON 2110, 2120, MATH 1020, 2070 or acceptable sequence, ENGL 1030, and a natural science with laboratory requirement.

**Change of Major into Pre-Business**

Students who change majors into Pre-Business must have completed at least 12 credit hours at Clemson and must have a 2.0 minimum cumulative grade-point average.

**Freshman Curriculum**

**First Semester**

1. BUS 1010 Business Foundations
2. ECON 2110 Principles of Microeconomics
3. MATH 1020 Intro to Math. Analysis or MATH 1060 Intro to Math.
4. MATH 1060 Calculus of One Variable
5. PSYC 2010 Introduction to Psychology or PSYC 2060 Introduction to Psychology
6. Natural Science Requirement

**Second Semester**

1. Elective

**Freshman core curriculum class. Students must complete core classes before submitting a change-of-major request from Business to a business major.**

The following sequences are acceptable: MATH 1020/2070, 1060/1080, 1060/1080, 1060/1080 for each of the required credit-hour courses taken, one credit will be applied toward the elective credit-hour requirement. Students considering a graduate degree in Economics in related fields should take MATH 1080/1080.

**ROTC PROGRAMS**

**Aerospace Studies (AFROTC)**

Air Force Reserve Officer Training Corps (AFROTC) is designed to “develop quality leaders for the Air Force.” Students can earn a minor in Aerospace Studies and commission as second lieutenants while pursuing a bachelor’s degree. Clemson’s program has won numerous local and national awards for excellence. The program includes courses in foundations of the Air Force, air power history, leadership and management, and national security affairs. Students who fail to meet the requirements for admission into the Bachelor of Science degree programs in Accounting, Economics, Financial Management, or Management, must have completed the courses outlined in the freshman core curriculum and have a cumulative grade-point average of 2.0 or higher. Students wishing to enter the Marketing Program must have completed the freshman core curriculum and have a Clemson/Bridge cumulative grade-point average of 3.0 or higher.

Students should initiate a Request to Change Academic Program form with the College of Business and Behavioral Science Academic Advising Center in G02 Sirrine Hall after completing the freshman core curriculum. Students who fail to meet the requirements for admission to a degree-granting business program may remain in Pre-Business until those requirements are met, but only until 64 semester hours of coursework have been completed. Students who exceed 64 credit hours and still do not meet the requirements for admission into a degree program must declare another major.

**Transfer Credit Policy**

For upper level undergraduates business courses (3000- and 4000-level courses with the rubrics of ACCT, BUS, ELE, FIN, LAW, MGT and MKT) transfer credits will only be accepted from AACSB International and/or EQUIS accredited institutions. Transfer credits from non-US institutions that do not hold either accreditation may be evaluated on a case-by-case basis.

**BEHAVIORAL AND SOCIAL SCIENCE PROGRAMS**

Bachelor of Arts degrees are offered in Anthropology, Economics, Political Science, Psychology, and Sociology. Bachelor of Science degrees are also offered in Anthropology, Political Science, Psychology, and Sociology. These programs are designed to meet the needs of students seeking a broad general education as preparation for intelligent citizenship, commercial and industrial life, government service, research, and teaching. These curricula also provide an excellent background for the study of law, journalism, and medicine.

To achieve depth as well as breadth in the educational experience, students select a major consisting of courses above the sophomore level. Students also choose a minor consisting of additional credit hours. Students should contact their advisor for additional information and approval before pursuing a minor. See page 93 for a list of acceptable minors.

Students in Bachelor of Arts programs who plan to teach in public schools may elect education courses required for certification by the South Carolina State Department of Education. Such courses are to be approved by their own department advisors.

Air Force Reserve Officer Training Corps (AFROTC) is designed to “develop quality leaders for the Air Force.” Students can earn a minor in Aerospace Studies and commission as second lieutenants while pursuing a bachelor’s degree. Clemson’s program has won numerous local and national awards for excellence. The program includes courses in foundations of the Air Force, air power history, leadership and management, and national security affairs. Students who fail to meet the requirements for admission into the Bachelor of Science degree programs in Accounting, Economics, Financial Management, or Management, must have completed the courses outlined in the freshman core curriculum and have a cumulative grade-point average of 2.0 or higher. Students wishing to enter the Marketing Program must have completed the freshman core curriculum and have a Clemson/Bridge cumulative grade-point average of 3.0 or higher.

Transfer credits from non-US institutions that do not hold either accreditation may be evaluated on a case-by-case basis.
Military Leadership (Army ROTC)

Army Reserve Officer Training Corps (Army ROTC) is all about leadership. Students that complete the entire program may earn a commission as a Lieutenant in the Army Reserve, National Guard, or Active Army. The first two years of the program are open to all students. During the freshman year, the focus is on learning individual leadership skills such as time management, leadership character, values, setting goals, and conducting meetings. The sophomore year emphasizes teamwork, team leading, communication, decision making, team values, and organizational culture and vision. Juniors primarily learn how to plan and conduct training for large groups and are evaluated in leadership positions. Seniors focus on organizational leadership. They plan and run the organization, conduct individual counseling, and evaluate the juniors’ performance in leadership positions. This prepares them for their career as an Army Officer once they graduate. A minor in Military Leadership can be earned by completing the program. Enrollment requires no military obligation until the sophomore year for those on an Army scholarship or the junior year for those without a scholarship. Additional information is available from the Military Leadership Department.

ACCOUNTING

Bachelor of Science

The program leading to the Bachelor of Science degree in Accounting prepares students for careers as professional accountants. Students completing this program are well prepared to begin professional careers in corporate accounting or internal auditing or to continue study at the graduate level.

Students planning to become Certified Public Accountants should note that the requirements for certification in South Carolina include 150 hours of collegiate education and completion of a bachelor’s degree. Other states have similar requirements. The Accounting faculty of the School of Accountancy and Finance believes these requirements are best met with a bachelor’s degree in Accounting and completion of the Master of Professional Accountancy (MPAcc) degree program. The MPAcc program also enhances the preparation of students pursuing accounting careers in areas of specialization such as assurance services and taxation.

Admission to the MPAcc program is separate from admission to the undergraduate program. It is based on the student’s undergraduate record and score on the Graduate Management Admissions Test (GMAT). For information, contact the School of Accountancy and Finance, 300 Sirrine Hall.

In addition to accounting and business courses, the Bachelor of Science curriculum is devoted to social sciences, and the humanities. Thus, students in the accounting program obtain a broad-based education that not only gives them accounting expertise but also contributes to their proficiency in analytical, communication, and interpersonal skills. Along with the general business accreditation held by the College, the Accounting degree programs offered by the School of Accountancy and Finance are separately accredited by AACSB International, the only accrediting agency for accounting programs. Students wishing to change majors into the accounting program must have a 2.0 or higher Clemson/Bridge cumulative grade-point average.

Sophomore Year

First Semester
3 - ACCT 2010 Financial Accounting Concepts
3 - MGT 2030 Principles of Management
3 - MGT 3200 Introductory Business Statistics

15
122 Total Semester Hours

1See General Education Requirements. Note: Cross-Cultural Awareness Requirement may also be satisfied by some of these courses.
2ART 2100, MUSC 2100, or THEA 2100
3Students planning to pursue the Master of Professional Accountancy degree program should take ACCT 4040.
4ECON 3110, FIN 4110, LAW 4200, MGT 4230, or MKT 4270
5Internship may be completed in the summer between junior and senior years with ACCT 4100, MGT 4150, and six hours of Business Requirement completed in the second semester of the senior year; or internship may be completed in the second semester of the senior year with ACCT 4100, MGT 4150, and six hours of Business Requirement completed during the summer sessions.
6Any three-credit 3000-, 4000- or 8000-level course in ACCT or any three-credit 1000- or 4000-level course in ECON, FIN, LAW or MGT.
7MGT 4150 must be taken at Clemson University.

Note: At least 50 percent of the total credits taken in ACCT, ECON, FIN, LAW, MGT, and MKT must be taken at Clemson University.

ANTHROPOLOGY

Bachelor of Arts

The Anthropology BA major prepares students for a variety of professional careers related to human resources, international business, public relations, museum and park service interpretation, health services, and other people-oriented positions in the public and private sector. In addition, the degree provides excellent preparation for graduate training in anthropology, law, health care, and business. The degree requires a total of 124-125 semester hours, including 39 credit hours in anthropology and sociology, identified below. In addition, students take a foreign language and nine additional hours of social science or humanities courses related to Anthropology (from a department-approved list). These additional courses provide students with a greater depth and broader diversity of interdisciplinary knowledge useful for the direct application of an anthropological perspective to potential career paths. Courses used to fulfill General Education Requirements and Departmental Social Science and Humanities courses may be used to fulfill minor requirements.

Students wishing to change majors into the Anthropology BA program must have a 2.0 or higher Clemson/Bridge cumulative grade-point average.

124-125 Total Semester Hours

Bachelor’s degree provides excellent preparation for graduate training in anthropology, medicine, and human factors engineering. The degree requires a total of 124 semester hours, including 39 credit hours in anthropology and sociology, as identified below. In addition, students take 15 hours of math and/or science courses (from a department-approved list). These additional courses provide students with a greater depth and broader diversity of interdisciplinary knowledge useful for the direct application of an anthropological perspective to potential career paths. Courses used to fulfill General Education Requirements and Departmental Science and Math courses may be used to fulfill minor requirements.

Students wishing to change majors into the Anthropology B.S. program must have a 2.0 or higher Clemson/Bridge cumulative grade-point average.

ECONOMICS
A bachelor’s degree in Economics provides a thorough understanding of business, society, and public policy and prepares students for a wide range of careers. By combining general education courses and a strong course of study in economics, students can prepare for graduate studies in business, law, or any of the social sciences, as well as for careers in business and government.

The Department of Economics offers two undergraduate degree paths. The Bachelor of Arts degree emphasizes foreign language skills and offers students maximum freedom to tailor their course of study to their specific interests and career goals. A broad choice of minors is available for this program. The Bachelor of Arts program requires 30 credit hours in economics, which should be satisfied by completing ECON 2110, 2120, and 24 credits of coursework above the sophomore level. Bachelor of Arts majors must complete ECON 3140 and 3150. ECON 4050 is strongly recommended but not required.

The Bachelor of Science program emphasizes business applications. It requires 31 credit hours in economics, which should be satisfied by completing ECON 2110, 2120, and 25 credits of coursework above the sophomore level. Bachelor of Science majors must complete ECON 4050 in addition to 3140 and 3150. Students wishing to change majors into the Bachelor of Science program in Economics must have a 2.0 or higher Clemson/Bridge cumulative grade-point average.

Minors
A minor field is required of students in both the Bachelor of Arts and the Bachelor of Science degree programs. Economics majors may choose, in consultation with their advisors, any University-approved minor (see page 93).
Students who wish to combine the curriculum in Economics with secondary-school teaching should take the degree in Education with a teaching area in Economics. The courses taken will be those required for teaching certification as specified by the South Carolina Department of Education, as well as those required for an Economics major.

Combined Bachelor’s/Master’s Plan

The Department of Economics allows students to count up to 12 hours of graduate credit (8000-level courses) toward both the bachelor’s and master’s degrees. Students participating in this program must have a minimum grade-point average of 3.4 and be admitted to the Graduate School prior to registering for graduate courses. Details of the suggested curriculum and program information are available from the Department of Economics.

Dual Degree Program with Université Catholique de Louvain in Belgium

The Economics Department has a dual degree program with the Université Catholique de Louvain in Belgium. Students spend one semester taking courses at the University of Maastricht in The Netherlands and two semesters at UCL in Louvain la Neuve, Belgium. The instruction at Maastricht is in English, and the instruction at UCL is in French. After returning to Clemson to complete their studies, students will earn bachelor degrees from both Clemson and UCL. Students must be proficient in French to participate in the program. Interested students should contact the Department of Economics for information.

Change of Major into Bachelor of Arts in Economics

Students who change majors into Bachelor of Arts in Economics must have a 2.0 minimum Clemson/Bridge cumulative grade-point average.

Dual Degree Program (120 Total Semester Hours)

The following requirements are also required: MATH 1060/1080, and MATH 1060/1080. Students considering a graduate degree in Economics should begin with MATH 1060. Two semesters (through 2020) in the same modern foreign language are required.

See General Education Requirements. This requirement may be satisfied by other courses in the curriculum. In this case, elective hours must be substituted.

Students considering a graduate degree in Economics or related fields should take MATH 3020.

See General Education Requirements. Note: Cross-Cultural Awareness Requirement may be satisfied by other General Education courses, by the International Studies Requirement, or through the use of elective hours.

FIN 310 is recommended for Students minorin in Financial Management.

Three credit hours must be selected from ECON 3440, 3500, 3600, 4020, 4040, 4100, 4240, 4260, 4350, 4351, 4352. Note: Only ECON courses numbered 3160 and above may be used to satisfy the Major Requirement.

FINANCIAL MANAGEMENT Bachelor of Science

The Bachelor of Science in Financial Management is designed to develop an understanding of financial markets in the contemporary economy, the operation of financial institutions, and the financial management of business operations. The curriculum prepares students for careers in such areas as corporate finance, banking, investments, financial planning, insurance, and real estate. Governments of all levels also employ finance graduates in many of their divisions. The curriculum also provides excellent preparation for students interested in graduate studies or law school.
The core of the curriculum provides a broad range of subjects with an emphasis on technical and communication skills. Students then have the flexibility to tailor courses to their own needs by choosing emphasis areas that will enhance career preparation in specific areas of finance. Students who complete a specific set of courses are eligible to sit for the certified financial planner (CFP®) examination.

Students wishing to change majors into the financial management program must have a 2.0 or higher Clemson/Bridge cumulative grade-point average.

**Sophomore Year**

**First Semester**
- ACCT 2010 Financial Accounting Concepts
- CPSC 2200 Microcomputer Applications or
- MGT 2180 Mgt. Personal Computer Appl.
- MGT 2010 Principles of Management
- STAT 3090 Introductory Business Statistics
- Arts and Humanities (Non-Lit.) Requirement
- Elective

**Second Semester**
- MGT 3100 Intermediate Business Statistics
- MKT 3010 Principles of Marketing
- Arts and Humanities (Literature) Requirement
- Cross-Cultural Awareness Requirement
- Elective
- Elective

**Junior Year**

- ENGL 3040 Business Writing
- FIN 3100 Financial Management I
- LAW 3220 Legal Environment of Business
- Elective

**Second Semester**
- ACCT 3120 Intermediate Financial Acct. II
- FIN 3050 Investment Analysis
- FIN 3070 Principles of Real Estate
- FIN 3120 Financial Management II
- Emphasis Area Requirement

**Senior Year**

**First Semester**
- ACCT 3030 Cost Accounting
- ACCT 3130 Intermediate Financial Acct. III
- FIN 3080 Financial Institutions and Markets
- Emphasis Area Requirement

**Second Semester**
- MGT 4150 Business Strategy
- Elective Area Requirement
- Elective

**121 Total Semester Hours**

*See General Education Requirements. Note: Cross-Cultural Awareness Requirement may also be satisfied by some of these courses.

If this requirement is met through the completion of another General Education requirement, students will have three additional elective hours. Students must complete 121 hours total.

Fifteen credit hours from one of the following emphasis areas are required. Emphasis area should be selected before the end of the junior year in consultation with the advisor (not all courses are offered every semester).

**Corporate Finance**—FIN 4110, two courses from FIN 4010, 4020, 4030, 4040; plus two courses from FIN 3040, 3990 (three credits), or any three-credit 4000-level FIN courses, and any 3000- or 4000-level ACCT course. Credit will only be given for one of FIN 4030 or 4040. Only one 3000-4000-level ACCT course may count toward the emphasis area and no course required by the major may be used to fulfill the emphasis area requirements.

**Financial Planning**—ACCT 4040 (should be taken spring of Junior year), 4080, FIN 3040, 4050, 4060, 4100 (due to CFP board requirements, no substitutions are allowed).

**Financial Services**—FIN 4050, 4060, 4080, 4110, and one course from ACCT 4010, 4030, CRP 4010, ECON 3060, or 4000 or any 4000-level three-credit ACCT course not already required by the major may substitute for one of FIN 3040 or 4170.

**Real Estate**—FIN 4150, 4160, 4170, LAW 3330, plus one course from ACCT 4040, 4050, CRP 4010, or 4000 or any 4000-level three-credit ACCT course. Completion of three hours of FIN 3990 may be substituted for the additional 4000-level course requirement.

*MGT 4150 must be taken at Clemson University.

**Notes:**

1. Financial Management majors are required to have a minimum grade-point average of 2.0 in all FIN-designated courses to graduate. Only the last grade for courses that are repeated is used in computing this grade-point average.

2. At least 50 percent of the total credits taken in ACCT, ECON, FIN, LAW, MGT, and MKT must be taken at Clemson University.

**GRAPHIC COMMUNICATIONS**

**Bachelor of Science**

The Bachelor of Science degree in Graphic Communications prepares students for professional careers in printing, publishing, packaging, and related industries. The core curriculum assures graduates of having the skills and knowledge required by most entry-level jobs. The major requirements allow each student to select courses that enhance career preparation in specific segments of graphic communications. Coursework is heavily oriented around individual laboratory performance, which stresses the development of problem-solving skills in a broad cross-section of manufacturing areas. Applications include all major processes and a variety of industry segments, including commercial printing, publishing, package production, specialty printing, and industrial applications of printing technology beyond communications. The most common career opportunities are in printing management, production planning and supervision, and commercial and technical sales.

The Graphic Communications program is designed to be completed in four years (eight semesters and one or two summers). While students must take one internship during a fall or spring semester, one or two summers are typically used to make up for that semester. The department schedule courses in summers for that purpose. Taking a reduced load per term or other circumstances could extend the time needed to meet graduation requirements.

**Policy on Advancement in Graphic Communications**

Graphic Communications majors must earn a C or better in prerequisite GC courses before enrolling in the next level GC course. Registration priority is given to those students for whom the course is a requirement.

**Change of Major into Graphic Communications**

Students who change majors into Graphic Communications must have completed at least 12 credit hours at Clemson, must have a 2.0 minimum cumulative grade-point average, and must have earned a B or better in GC 1020.

**Freshman Year**

**First Semester**
- GC 1010 Orientation to Graphic Comm.
- GC 1020 Foundations in Graphic Comm.
- PSYC 1010 Introduction to Psychology
- Approved Laboratory Science Requirement
- Major Requirement

**Second Semester**
- GC 1030 Accelerated Composition
- GC 1040 Graphic Communications I
- STAT 2300 Statistical Methods I or
- STAT 3090 Intro. Business Statistics or
- STAT 3300 Statistical Methods II
- Approved Laboratory Science Requirement
- Elective

**Sophomore Year**

**First Semester**
- ACCT 2010 Financial Accounting Concepts
- GC 2070 Graphic Communications II
- MGT 2010 Principles of Management
- PKGS 1020 Intro. to Packaging Science
- Arts and Humanities (Literature) Requirement

**Second Semester**
- ACCT 2020 Managerial Accounting Concepts
- ECON 2000 Economic Concepts
- ECON 2110 Principles of Microeconomics
- ENSP 2000 Intro. to Environmental Science
- GC 3400 Digital Imaging and eMedia
- GC 3460 Ink and Substrates

**Summer**
- COOP 2010 Cooperative Education
- GC 3500 Graphic Comm. Internship

**Junior Year**

**First Semester**
- COMM 1500 Intro. to Human Comm. or
- COMM 2500 Public Speaking
- GC 4060 Package and Specialty Printing
- MKT 3010 Principles of Marketing
- Major Requirement

3 - Major Requirement²
4 - Elective
12
122 Total Semester Hours

²Must include four credit hours in chemistry (CH 1010 or 1050) and four credit hours in physics (PHYS 1220/1240 or 2070/2090).
²Must be approved prior to registration. See advisor.
²Students who wish to minor in Business Administration may not select STAT 2300.
²Select any ENGL course from General Education Arts and Humanities (Literature) Requirement.
²One internship must be in a fall or spring semester (summer—at least 12 weeks; fall/spring—at least 15 weeks). GC 4500 will not substitute for 4500.
²See General Education Requirements. This course or three elective credit hours must also satisfy the Cross-Cultural Awareness Requirement.

MANAGEMENT Bachelor of Science
The Bachelor of Science degree in Management prepares students for careers as professional managers in corporations, governmental organizations, and small businesses. In addition, the program provides a foundation for graduates who wish to pursue advanced degrees in business and public administration, law, and the social sciences.

The curriculum gives students a broad exposure to the functional areas of business and allows each to select an emphasis area in a subject that is germane to individual career interests. The Management curriculum provides an examination of the social, legal, political, and economic environments in which organizations must operate; an understanding of the functional areas of business and their interrelationships; and a knowledge of behavioral science, applied statistics, and mathematics as they relate to organizational problem solving. The program is accredited by AASCB International.

Students wishing to change majors into the management program must have a 2.0 or higher Clemson/Bridge cumulative grade-point average.

Combined Bachelor of Science/Master of Science Degree Program
Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements. Students may apply up to 12 hours of graduate credits to both the BS and MS degrees. To be eligible for this program, students must have a 3.4 or higher grade-point average, have completed at least 90 credits of coursework and have been admitted to the Graduate School prior to registering for graduate courses. Students in this program are conditionally accepted to the graduate program until they have completed all BS degree requirements.

120 Total Semester Hours

³Grade of C or better in this course is required for graduation.
³See General Education Requirements. If this requirement is met through the completion of another General Education requirement, students will have three additional elective hours. Students must complete 120 total hours. Note: Cross-Cultural Awareness Requirement may also be satisfied by some of these courses.

Management majors must complete an emphasis area consisting of twelve hours beyond the coursework required by the management curriculum and the support area requirement. Students should choose ONE of the following ways to satisfy this requirement:

Enthusiast—ELE 3100, MGT (ELE) 3150 plus two courses from ECON (ELE) 3210, ELE 4010, 4990, MGT 4400, 4970, MKT (ELE) 3410, MGT 4200, 4250, 4260, 4270, 4280, 4290, 4300, 4350, 4540, 4550, 4560, 4600, 4650, 4700.

Opportunity Management—MGMT 4120, 4240 and two courses from MGT 4510, 4520, 4540, 4550, 4560, 4570, 4580, 4600, 4700.

Supply Chain Management—MGT 4120, 4240 and two courses from MGT 3050, 3170, 4020, 4050, 4070, 4270, 4440, MGT 4260.

General Management—Any four 3000- or 4000-level management courses.

³Management majors must complete a support area consisting of fifteen hours beyond the coursework required by the management curriculum and the management emphasis area requirement. Students should choose ONE of the following two ways to satisfy this requirement: (1) Declare and complete a minor requiring AT LEAST 15 hours of additional coursework; or (2) Complete any 15 hours of coursework selected from the approved list of management support courses.

³MGT 4510 must be taken at Clemson University.

Note: At least 50 percent of the total credits taken in ACCT, ECON, ELE, FIN, LAW, MGT, and MKT must be taken at Clemson University.

MARKETING Bachelor of Science
The Bachelor of Science degree program in Marketing develops an understanding of various aspects of marketing. The curriculum prepares students for professional marketing careers in industry, government, or the nonprofit sector. Graduates are also well prepared for entrance into the Master of Business Administration, law, or other graduate programs. For students who want a general perspective of marketing, the curriculum provides a broad range of subjects with the flexibility to tailor courses by choosing areas that enhance career preparation in various areas of marketing. Subjects include promotional strategy, professional selling, sales management, public and nonprofit marketing, entrepreneurship, marketing research, product management, marketing management, and international marketing. The Marketing curriculum provides the conceptual, quantitative, and analytical skills necessary to function in a dynamic business environment. The Marketing degree is accredited by AASCB International.

Students wishing to change majors into the Marketing program must have a Clemson/Bridge cumulative grade-point average of 3.0 or higher. Students must also have completed the Pre-Business Program.

121 Total Semester Hours

See General Education Requirements. Note: Cross-Cultural Awareness Requirement may also be satisfied by other General Education courses.
See Advisor. May include GC 1990, INT 1010 or 2010, MKT 3980, 3990, 4980, or 4990, or other professional development courses approved by a department advisor. Courses cannot count toward both Support Course Requirement and Professional Development Requirement.
Must be taken at Clemson University.
Chosen jointly by the student and the advisor. Certain minors may be used to satisfy the Support Courses Requirement. A maximum of six hours can be from MKT 2980, 3980, 3990, 4980, and 4990. See advisor.
Select any MKT 3000- and 4000-level content courses except for MKT 3980, 3990, 4980, or 4990.
Note: At least 50 percent of the total credits taken in ACCT, ECON, FIN, LAW, MGT, and MKT must be taken at Clemson University.

POLITICAL SCIENCE

The Department of Political Science offers two degree programs: a Bachelor of Arts and a Bachelor of Science, requiring 120–121 credit hours. Both prepare students for a wide range of graduate programs and career opportunities. The Bachelor of Arts program provides broad coverage of the political science discipline and emphasizes communication skills and humanities. The Bachelor of Science program is recommended for those with an aptitude for mathematics and/or an interest in political economy, public administration, public policy, or other fields requiring advanced quantitative skills. Both programs are appropriate for pre-law students and for students interested in either American or global politics. Note that the Bachelor of Arts degree requires a minor, and the Bachelor of Science degree requires a field of concentration and, depending on the concentration, requires or allows a minor.

Bachelor of Arts

The requirements for a Bachelor of Arts degree in Political Science consist of POSC 1010, 1020 or 1040, 1030, 1990, 4990, and at least 24 additional credit hours in political science at the 3000-4000 level, including at least one course from each of the following fields:

American Government—POSC 4030, 4050, 4080, 4360, 4420
Comparative Politics—POSC 3710, 4210, 4660, 4710, 4760, 4770, 4780
International Relations—POSC 3610, 3620, 3630, 3750, 4290, 4470, 4480
Political Theory—POSC 4490, 4530, 4550
Public Policy and Public Administration—POSC 3020, 3310, 3410, 4230, 4240, 4300

The student’s additional coursework in political science is chosen with the consent and advice of the department advisor to ensure an appropriate balance of breadth and specialization within the field of political science. In addition to the courses listed above, the department offers a wide range of specialized courses in each of the subfields of the political science discipline.

The Bachelor of Arts degree in Political Science also requires additional arts and humanities courses beyond the basic General Education Requirements.

Note: No more than three hours credit from POSC 3050, 3100, 3110, 3120, 3130, 4090, and 4010 may be applied toward a Political Science major.

See list of approved minors on page 89.

Any course in AAH, ART, DANC, MUSC, or THEA not already used to satisfy a General Education Requirement.
POLITICAL SCIENCE
Bachelor of Science
The requirements for a Bachelor of Science degree in Political Science consist of POSC 1010, 1020 or 1040, 1030, 1990, 3410, 4990, and at least 21 additional credit hours in political science at the 3000-4000 level, including one upper-level American politics course and one upper-level global politics course.

In consultation with the departmental advisor, students choose one of the following concentrations: American Politics, Global Politics, Political Economy, Public Administration, or Public Policy.

Note: No more than three hours credit from POSC 3050, 3100, 3110, 3120, 3130, 4090, and 4100 may be applied toward a Political Science major.

PSYCHOLOGY
Psychology is the study of human and animal behavior and the biological, psychological, and social processes related to that behavior. The Bachelor’s degree in Psychology prepares students for a variety of professional careers related to human resources, personnel, counseling, and other people-oriented positions in human services, business, and industry. Additionally, the Bachelor’s degree provides excellent preparation for graduate study in such areas as clinical, counseling, industrial, experimental, cognitive, social, biological, health, developmental, and school psychology. The program also provides excellent preparation for students who intend to pursue professional training in medicine, physical or occupational therapy, dentistry, pharmacy, veterinary science, or law. Further information is available at www.clemson.edu/psych/.

Change of Major into Psychology
Students who change majors into Psychology must have completed at least 12 credit hours at Clemson or in the Bridge Program and must have a 2.4 minimum Clemson/Bridge cumulative grade-point average.

Bachelor of Arts
The Bachelor of Arts program requires PSYC 2010, 2020, 3090, 3100, 4920, and 19 additional credits selected from PSYC 2750 and/or 3000–4000-level psychology courses arranged as follows:

At least six credits from Biological and Cognitive courses: PSYC 3240, 3330, 4220
At least three credits from each of the following:
Applied—PSYC 2750, 3640, 3680, 3830, 4350, 4560, 4800, 4880

Individuals and Groups—PSYC 3400, 3520, 3700
At least one credit from Laboratory/Research courses: PSYC 3250, 3340, 4230, 4560, 4710, 4900, 4930, 4950, 4970, 4980
At least six credits must be from 4000-level psychology courses, with at least three of those credits from psychology courses numbered between 4000 and 4890. BIOL 4700 may be taken in lieu of one elective psychology course. Students satisfying both the Applied and Laboratory requirements with PSYC 4560 must still satisfy the requirement for 19 additional credits in Psychology (see above). Students should consult their advisors for other degree requirements and course recommendations.

### SOCIOLOGY

The Sociology major offers two degree programs: a Bachelor of Arts and a Bachelor of Science. Both degrees prepare students for a variety of professional careers related to human resources, management, public relations, social services, criminal justice, health services, social research, and other people-oriented positions in the public and private sector. In addition, the Bachelor’s degree provides excellent preparation for graduate training in sociology, anthropology, social services, law, and business. Both degrees require a total of 121 semester hours, including 36 credit hours in sociology and/or anthropology, as identified below. Courses used to fulfill General Education Requirements may be used to fulfill minor requirements.

#### Change of Major into Sociology

Students who change majors into Sociology must have completed at least 12 credit hours at Clemson and must have a 2.0 minimum Clemson/Bridge cumulative grade-point average.

#### Emphasis Areas in Sociology

##### Community Studies

- RS (SOC) 4590, 4600, 4610, 4620, 4630, 4640, 4900, 4910, 4920, 4930, 4940, and ANTH 3530. No more than three hours of SOC 4860 may be taken to satisfy concentration electives.

##### Criminal Justice

- SOC 3880, 3890, and nine credits selected from SOC 3910, 3920, 3970, 3980, 4010, 4060, 4910, 4930, 4940; and ANTH 3530. No more than three hours of SOC 4860 may be taken to satisfy concentration electives.

##### General Sociology

- Three credit hours selected from SOC 3110, 3300, 3420, and 4410; three credit hours selected from SOC 3500, 3510, 3910, 4030, and 4330; nine credit hours selected from any courses offered in anthropology or sociology not already taken to fulfill requirements.

##### Social Services

- SOC 3100, 4140, (RS) 4950; and six credits from all courses offered in anthropology or sociology not already taken to fulfill requirements.

Additional electives are added to meet the minimum of 121 hours required for graduation.

#### Bachelor of Arts

### 121–122 Total Semester Hours

---

2Two semesters (through 2020) in the same modern foreign language are required.

3See General Education Requirements. (Note: Social Science Requirement must be in an area other than sociology.)

4See page 93 for approved minors.

5Humanities courses numbered 3000 or higher (ART 2100, MUSC 2100, THEA 2100) are accepted. The humanities for this purpose include art and architectural history, communication studies (except 3640 and 3680), English (except 3040, 3120, 3140, 3160, 3330, 4850, 4900, 4950), languages, music, philosophy, religion, theatre (except 3770, 4670, 4970), and women’s studies, as well as courses entitled Humanities.

6See emphasis area requirements in program description above.
SOCIOLOGY
Bachelor of Science

Freshman Year
First Semester
3 - MATH 1010 Essential Math. for Informed Soc. or
   3 - MATH 1020 Intro. to Mathemat. Analysis or
   4 - MATH 1060 Calculus of One Variable I
3 - SOC 2010 Introduction to Sociology
3 - Social Science Requirement¹
3 - Elective
16-17

Second Semester
3 - COMM 1500 Intro. to Human Comm. or
   3 - COMM 2500 Public Speaking
3 - ENGL 1030 Accelerated Composition
3 - STAT 2300 Statistical Methods I
3 - Departmental Math. or Science Requirement²
3 - Elective
15

Sophomore Year
First Semester
3 - Arts and Humanities (Literature) Requirement¹
3 - Cross-Cultural Awareness Requirement¹
3 - Departmental Math. or Science Requirement²
3 - Minor Requirement³
3 - Elective
15

Second Semester
1 - SOC 2050 Sociology Lab.
3 - Arts and Humanities (Non-Lit.) Requirement¹
3 - Departmental Math. or Science Requirement²
6 - Minor Requirement³
3 - Science and Tech. in Society Requirement¹
16

Junior Year
First Semester
3 - SOC 3020 Social Research Methods I
3 - SOC 3600 Social Class and Poverty or
   3 - SOC 4600 Race and Ethnicity or
   3 - SOC 4610 Sociology of Sex and Gender
3 - Advanced Humanities Requirement⁴
3 - Advanced Writing Requirement⁵
3 - Emphasis Area Requirement⁶
15

Second Semester
4 - SOC 3040 Social Research Methods II
3 - Advanced Humanities Requirement⁴
3 - Departmental Math. or Science Requirement²
3 - Emphasis Area Requirement⁶
3 - Minor Requirement¹
16

Senior Year
First Semester
3 - SOC 3600 Social Class and Poverty or
   3 - SOC 4600 Race and Ethnicity or
   3 - SOC 4610 Sociology of Sex and Gender
6 - Departmental Math. or Science Requirement²
3 - Emphasis Area Requirement⁶
3 - Elective
15

Second Semester
3 - SOC 4040 Sociological Theory
1 - SOC 4970 Sociology Senior Lab.
6 - Emphasis Area Requirement⁶
3 - Minor Requirement¹
13

121-122 Total Semester Hours

¹See General Education Requirements. (Note: Social Science
   Requirement must be in an area other than sociology.)
²See advisor. At least nine of the 18 hours must be at the 3000
   level or above.
³See page 93 for approved minors.
⁴Humanities courses numbered 3000 or higher (ART 2100,
   MUSC 2100, THEA 2100 are accepted). The humanities
   for this purpose include art and architectural history, com-
   munication studies (except 3640 and 3680), English (except
   3040, 3120, 3140, 3160, 3330, 4850, 4900, 4950), languages,
   music, philosophy, religion, theatre (except 3770, 4870, 4970),
   and women’s studies, as well as courses entitled Humanities.
⁵ENGL 3040, 3120, 3140, or 3160
⁶See emphasis area requirements in program description above.
MINORS

Following are minors acceptable for students in the College of Business and Behavioral Science. Students cannot major and minor in the same field or acquire a minor that is not allowed by the degree program.

- Accounting
- Adult/Extension Education
- Aerospace Studies
- Agricultural Business Management
- Agricultural Mechanization and Business
- American Sign Language Studies
- Animal and Veterinary Sciences
- Anthropology
- Architecture
- Art
- Athletic Leadership—*not open to Marketing majors*
- Biochemistry
- Biological Sciences
- British and Irish Studies
- Business Administration—*not open to Accounting, BS Economics (except students pursuing a second degree in a business related field)*, Financial Management, Management, or Marketing majors
- Chemistry
- Cluster
- Communication Studies
- Computer Science
- Crop and Soil Environmental Science
- Digital Production Arts
- East Asian Studies
- Economics
- Education—*not open to Graphic Communications majors*
- English
- Entomology
- Entrepreneurship—*not open to Accounting, BS Economics, Financial Management, Management, or Marketing majors*
- Environmental Science and Policy
- Equine Industry
- Film Studies
- Financial Management
- Food Science
- Forest Products
- Forest Resource Management
- Gender, Sexuality, and Women’s Studies
- Genetics
- Geography
- Geology
- Global Politics—*not open to Political Science majors*
- Great Works
- History
- Horticulture
- Human Resources Management—*not open to Management majors*
- Legal Studies
- Management
- Management Information Systems—*not open to Management Majors*
- Mathematical Sciences
- Microbiology
- Military Leadership
- Modern Languages
- Music
- Natural Resource Economics
- Nonprofit Leadership
- Nuclear Engineering and Radiological Sciences
- Packaging Science
- Pan African Studies
- Park and Protected Area Management
- Philosophy
- Physics
- Plant Pathology
- Political Science
- Precision Agriculture
- Psychology
- Public Policy—*not open to Political Science majors*
- Recreational Therapy
- Religion
- Russian Area Studies
- Science and Technology in Society
- Screenwriting
- Sociology
- Spanish-American Area Studies
- Sustainability
- Theatre
- Travel and Tourism
- Turfgrass
- Urban Forestry
- Wildlife and Fisheries Biology
- Women’s Leadership
- Writing

See pages 40-43 for details.
COLLEGE OF ENGINEERING AND SCIENCE

The College of Engineering and Science offers a broad range of rigorous and stimulating baccalaureate programs that provide unexcelled educational opportunities. The innovative combination of engineering and science disciplines that comprises the College, facilitates study and research in fields transcending the traditional disciplines. Students enjoy close interaction with a distinguished faculty committed to excellence in undergraduate education, as well as in research. Additional information on the College and its programs is available at www.clemson.edu/ces.

Minors

Engineering and science students can complement their majors by selecting minor concentrations of study. Available minors include International Engineering and Science, and one in each of the science majors (see page 113).

International Programs

The world economy has become very tightly integrated, making it highly important that engineering and science students prepare themselves for this global environment. The College offers a minor in International Engineering and Science coupled with several programs that provide opportunities for students to gain international experience. These include study abroad at many locations around the world and EPIC (an international co-op program). In addition, engineering and science students are encouraged to pursue study of a foreign language. A Certificate in International Engineering and Science, that combines language study and an international practicum, is also offered. Information is available in the Undergraduate Studies Office (107 Riggs Hall) and at www.clemson.edu/ces/students/global.

ENGINEERING PROGRAMS

The Bachelor of Science engineering degree programs in Bioengineering, Biosystems Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Environmental Engineering, Industrial Engineering, Materials Science and Engineering, Materials Science and Engineering (Polymeric Materials), Chemical Engineering, and Mechanical Engineering are each accredited by the Engineering Accreditation Commission (EAC) of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7800.

All engineering programs have the common goal of producing engineering graduates who are able to:

- understand engineering’s global, economic, environmental, and societal context
- understand contemporary engineering issues
- apply modern engineering methods and tools
- appreciate the need for lifelong learning

Each engineering program has objectives specific to the discipline. All prepare students for a wide range of career opportunities and provide sound preparation for graduate study. Each curriculum provides opportunities for students to pursue individual areas of interest.

Admission Requirements

The University admission requirements are given under the section entitled Admission. Engineering applicants are strongly advised to include the following in their high school programs:

- Mathematics—Four units, including geometry, trigonometry, and introductory calculus
- Laboratory Science—At least three units, including both chemistry and physics
- Computing—At least one unit, including introduction to a programming language. Applicants should have good keyboarding skills.

General Engineering Program

All new engineering students (excluding transfer students who have not completed all courses in the freshman engineering curriculum) are admitted into General Engineering. The General Engineering Program provides students an opportunity to explore various engineering fields while getting a sound academic preparation for engineering study.

Freshman Curriculum

First Semester

1 - ENGR 1070 Programming and Problem Solving I
2 - ENGR 1080 Programming and Problem Solving II
3 - MATH 1060 Calculus of One Variable I
4 - CH 1010 General Chemistry

Second Semester

1 - ENGR 1090 Programming and Problem Solving I
2 - ENGR 1100 Engineering Disciplines and Skills I
3 - MATH 1080 Calculus of One Variable II
4 - PHYS 1220 Physics with Calculus I

General Education Requirement

1 - ENGL 1010 General Chemistry
2 - ENGL 1030 Accelerated Composition
3 - ENGR 1050 Engineering Disciplines and Skills I
4 - ENGR 1070 Programming and Problem Solving I
5 - ENGR 1090 Programming and Problem Solving Applications
6 - CH 1010 Calculus of One Variable I
7 - PHYS 1220 Physics with Calculus I

Registration Requirements

A cumulative grade-point average of 2.0 or higher is required for registration in engineering courses numbered 3000 or higher. Priority for registration in engineering courses is given to those majors for whom the course is a degree requirement. Exceptions to this requirement may be granted by the department offering the course.

In addition, the student must have the minimum grade-point average specified by the engineering degree program for admission.

Students should initiate a change-of-major request prior to the registration period during the semester when they expect to complete the freshman curriculum. Students who fail to meet the requirements for admission into a degree program may remain in General Engineering until those requirements are met; however, General Engineering majors are not permitted to take 3000- or 4000-level engineering courses. Engineering departments may allow General Engineering majors to enroll in selected 2000-level engineering courses (policy varies by department). Students admitted into an engineering degree program will follow the curriculum in effect at the time of admission into General Engineering, unless otherwise approved by the specific engineering department.

General Education Requirements for Engineering Curricula

Engineers have an obligation to practice their profession in a socially responsible manner. The education of engineers must prepare them for this responsibility and make them aware of the constraints imposed by societal and cultural factors. Thus, the humanities and social sciences are an important component of the engineering curriculum. Further, the program of study must include educational experiences addressing the intersection of science and technology with society and cross-cultural awareness.

In addition to the University General Education Requirements, some engineering majors are required to complete additional credit hours from a college approved list. Individual engineering curricula may have more specific requirements. For a complete list of acceptable courses, please speak with an advisor.

Electives for Engineering Curricula

Advisors must approve any course taken for elective credit in the Engineering curricula. Courses excluded for elective credit include PHYS 2000, 2070/2090, 2080/2100.

94
Graduation Requirements
In addition to other institutional requirements, candidates for a baccalaureate degree in Engineering are required to have a 2.0 or higher cumulative grade-point average in all engineering courses taken at Clemson. All courses with “Engineering” in the course designator (e.g., ENGR 1300, ME 4530, etc.) are used in this calculation.

The baccalaureate programs in Engineering are designed to be completed in four years (eight regular semesters). Taking a reduced load or participating in cooperative education will extend this time. On average, Clemson engineering students take about four and one-half years to complete the requirements for graduation.

BIOENGINEERING
Bachelor of Science
The undergraduate program in Bioengineering is built upon a rigorous engineering science foundation that is, in turn, based upon a broad curriculum of applied and life sciences, mathematics, electives in humanities, social science, and design. Students select a formal focus that concentrates in a subfield of interest in bioengineering: Bioelectrical Concentration or Biomaterials Concentration.

The curriculum provides undergraduates with a solid background in engineering and life sciences in preparation for advanced studies. Through the Bioengineering program, graduates acquire an understanding of biology, biochemistry, and physiology and the capability to apply advanced mathematics, including differential equations and statistics, science, and engineering, to solve the problems at the interface of engineering and biology. Graduates also have an ability to make measurements on and interpret data from living systems, addressing the problems associated with the interaction between living and nonliving materials and systems.

Combined Bachelor’s/Master’s Plan
Bioengineering undergraduates may begin a Master of Science degree program or a Master of Engineering degree program while completing the Bachelor of Science degree and use a limited number of courses to satisfy the requirements of both the undergraduate and graduate degrees. Details are available from the Department of Bioengineering.

BIOELECTRICAL CONCENTRATION
Freshman Year
First Semester
4 - CH 1020 General Chemistry
1 - ENGR 1070 Programming and Problem Solving I
1 - ENGR 1090 Programming and Problem Solving Applications
1 - MATH 1080 Calculus of One Variable II
3 - PHYS 1220 Physics with Calculus I
1 - Arts and Humanities Requirement or
1 - Social Science Requirement
— 16

Second Semester
4 - CH 1020 General Chemistry
1 - ENGR 1070 Programming and Problem Solving I
1 - ENGR 1090 Programming and Problem Solving Applications
1 - MATH 1080 Calculus of One Variable II
3 - PHYS 1220 Physics with Calculus I
3 - Arts and Humanities Requirement or
3 - Social Science Requirement
1 - Biology Requirement
— 18

Sophomore Year
First Semester
3 - BIOE 2100 Intro. to Biomedical Engineering
2 - ECE 2110 Logic and Computing Devices
1 - ECE 2120 Electric Circuits I
1 - ECE 2120 Electrical Engineering Lab. I
4 - MATH 2060 Calculus of Several Variables
3 - PHYS 2110 Physics with Calculus II
— 17

Second Semester
0 - BIOE 2000 Bioengineering Professional Development
3 - CE 2010 Statics
1 - ECE 2120 Electrical Engineering Lab. II
3 - ECE 2620 Electric Circuits II
2 - ENGR 2080 Engineering Graphics and Machine Design
4 - MATH 2080 Intro. to Ordinary Diff. Equations
3 - MSE 2100 Introduction to Materials Science
— 16

Junior Year
First Semester
3 - BIOL 3150 Functional Human Anatomy
1 - CH 2010 Survey of Organic Chemistry and
1 - CH 2230/2270 instead of CH 2010/2020 and take CH 2210/2250
3 - ECE 3170 Electrical Engineering Lab. III
3 - ECE 3200 Electronics I
3 - ECE 3250 Signals, Systems, and Transforms
— 15

Second Semester
3 - BCHM 3050 Essential Elements of Biochem.
0 - BIOE 3000 Bioengineering Ethics and Entrepreneurship
3 - BIOE 3020 Biomaterials
3 - BIOE 3700 Bioinstrumentation and Bioimaging
3 - ECE 3800 Electromagnetics
3 - BIOE or ECE Technical Requirement
— 15

Senior Year
First Semester
3 - BIOE 3200 Biomechanics
3 - BIOE 4010 Bioengineering Design Theory
3 - BIOL 4610 Cell Biology
3 - Arts and Humanities Requirement or
3 - Social Science Requirement
3 - BIOE or ECE Technical Requirement
— 18

Second Semester
1 - BIOE 4000 Bioengineering Leadership and MedTech Commercialization
3 - BIOE 4030 Applied Biomedical Design
3 - BIOE 4480 Tissue Engineering
3 - Arts and Humanities Requirement or
3 - Social Science Requirement
— 16

Biomaterials Concentration
Freshman Year
First Semester
4 - CH 1010 General Chemistry
3 - ENGL 1030 Accelerated Composition
1 - ENGR 1050 Engineering Disciplines and Skills I
1 - ENGR 1060 Engineering Disciplines and Skills II
4 - MATH 1060 Calculus of One Variable I
3 - Arts and Humanities Requirement or
3 - Social Science Requirement
— 16

Second Semester
4 - CH 1020 General Chemistry
1 - ENGR 1070 Programming and Problem Solving I
1 - ENGR 1090 Programming and Problem Solving Applications
1 - MATH 1080 Calculus of One Variable II
3 - PHYS 1220 Physics with Calculus I
1 - Arts and Humanities Requirement or
1 - Social Science Requirement
1 - Biology Requirement
— 15

Notes:
1. To transfer from General Engineering into the Bioengineering degree program, students must have a minimum cumulative grade-point average of 3.0 in courses taken at Clemson and must have earned a C or better in each course in the General Engineering freshman curriculum, including the Arts and Humanities/Social Science Requirements.
2. A student is allowed to enroll in ECE courses (excluding ECE 2070, 2080, 3080) only when all prerequisites have been passed with a grade of C or better.
3. All Bioelectrical Concentration students must have a cumulative engineering grade-point average of 2.0 to enroll in ANY 3000- or 4000-level ECE courses.
4. No student may exceed a maximum of two attempts, excluding a W, to complete successfully any ECE course.

BIOMATERIALS CONCENTRATION

College of Engineering and Science

2015-2016 Undergraduate Announcements
Sophomore Year
First Semester
3 - BIOE 2010 Intro. to Biomedical Engineering

4 - MATH 1080 Calculus of One Variable II
3 - Arts and Humanities Requirement or Social Science Requirement

128 Total Semester Hours

BIOSYSTEMS ENGINEERING
Bachelor of Science
Bioengineering engineering is the field of engineering most closely allied with advances in biology. Bioengineers apply engineering design and analysis to biological systems and incorporate fundamental biological principles to design and achieve ecological balance.

The Biosystems engineering program emphasizes two main areas - sustainable bioprocess engineering, with its basis in microbiology, and ecological engineering, with its basis in ecology. Bioprocess engineering focuses on the sustainable production of biorefinery compounds - biofuels, nutraceuticals, bioactive molecules, and biomaterials - using metabolic pathways found in nature and green processing technologies. Ecological engineering focuses on the design of sustainable communities utilizing low-impact development strategies such as bioretention basins, rainwater harvesting, and bioswales for stormwater retention, treatment, and management. Both emphasis areas interface with ecologically-sound food and energy crop and feedstock production systems.

Biosystems engineers work to:
- Design bioprocesses and systems for biofuels (biomass, hydrogen, ethanol), biopharmaceutical, biopharmaceutical, and food processing industries
- Develop ecological designs (permeable pavement, bioswales, green infrastructure) to integrate stormwater management into the landscape
- Integrate biological sustainability into energy, water, and food systems
- Provide engineering expertise for agriculture, food processing, and manufacturing industries.

Biosystems engineering graduates are highly qualified for graduate study in biosystems engineering, biomedical engineering or ecological engineering fields, or medical or veterinary school.

Students are urged to complete a minor and participate in the Cooperative Education, Biosystems Engineering Intern, and/or Study Abroad Programs. None interested in medical school can fulfill requirements with the Biosystems Engineering BS degree.

Additional information is available from the department offices or at: http://www.clemson.edu/majors/biosystems.engineering.

Combined Bachelor’s/Master’s Program
Under this plan, students may reduce the time necessary to earn both degrees by applying graduate credits to both undergraduate and graduate program requirements.

Undergraduate students in Biosystems Engineering may begin a Master of Science or a Master of Engineering Degree in Environmental Engineering and Science or Master of Science Degree in Bioengineering while completing the BS degree.

Students are encouraged to obtain the specific requirements for the dual degree from the academic departments involved as early as possible in their undergraduate program. See Academic Regulations in this catalog for enrollment guidelines and procedures.

Freshman Year
First Semester
4 - CH 1010 General Chemistry
3 - ENGL 1030 Accelerated Composition
1 - ENGR 1050 Engineering Disciplines and Skills I
1 - ENGR 1060 Engineering Disciplines and Skills II
4 - MATH 1050 Calculus of One Variable I
3 - Arts and Humanities Requirement or Social Science Requirement

Second Semester
4 - CH 1020 General Chemistry
1 - ENGR 1070 Programming and Problem Solving I
1 - ENGR 1080 Programming and Problem Solving II
4 - ENGR 1090 Programming and Problem Solving Applications
2 - ENGR 2010 Computer-Aided Design and Engineering Applications
4 - MATH 1080 Calculus of One Variable II
3 - PHYS 1220 Physics with Calculus I

Sophomore Year
First Semester
2 - BE 2120 Fundamentals of Biosystems Engr.
3 - CE 2010 Statics
4 - MATH 2060 Calculus of Several Variables
3 - PHYS 2210 Physics with Calculus II
4 - Biology Requirement

Second Semester
2 - BE 2100 Intro. to Biosystems Engineering
2 - CE 2080 Dynamics
4 - MATH 2080 Calculus of Several Variables
3 - PHYS 2210 Physics with Calculus II
4 - Biology Requirement

Junior Year
First Semester
3 - BE 3200 Principles and Practices of Geomatics
3 - BIOL 4100 Biol. Kinetics and Reactor Modeling
3 - BIOL 4410 Ecology
4 - CE 3410 Introduction to Fluid Mechanics
2 - ECE 2070 Basic Electrical Engineering
1 - ECE 2080 Electrical Engineering Lab. I

Second Semester
3 - Arts and Humanities Requirement
3 - Social Science Requirement

Note:
- Select from department-approved list.
- To transfer from General Engineering into the Bioengineering degree program, students must have a minimum cumulative grade-point average of 3.0 in courses taken at Clemson and must have earned a C or better in each course in the General Engineering freshman curriculum including the Arts and Humanities/Social Science Requirements.
- Undergraduate students in Biosystems Engineering may begin a Master of Science or a Master of Engineering Degree in Environmental Engineering and Science or Master of Science Degree in Bioengineering while completing the BS degree.
- Students are encouraged to obtain the specific requirements for the dual degree from the academic departments involved as early as possible in their undergraduate program. See Academic Regulations in this catalog for enrollment guidelines and procedures.

Additional information is available from the department offices or at: http://www.clemson.edu/majors/biosystems.engineering.

See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.

Students planning to enter medical school should take CH 2230/2270 instead of CH 2010/2020 and take CH 2240/2280 as an additional course sequence. Students planning to enter medical school should also take physics laboratories as additional courses (PHYS 1220 course with PHYS 1240 lab and PHYS 2210 course with PHYS 2230 lab).
Second Semester
3 - BE 3220 Small Watershed Hydrology and Sedimentology
3 - BE 4120 Heat and Mass Transport in Biosystems Engineering
4 - BE 4150 Instrumentation and Process Control for Biosystems Engineering
3 - BE 4380 Bioprocess Engineering Design
3 - CH 2230 Organic Chemistry
1 - CH 2270 Organic Chemistry Laboratory

17

*Students should choose courses to fulfill General Education requirements including Humanities, Social Science, Cross-Cultural Awareness and Science and Technology in society components. See Undergraduate Announcements and academic advisor for details.

3 - ME 2010 may be substituted for CE 2010 and 2080
3 - BIOL 1030/1050 or 1100

BIOPROCESS ENGINEERING

CHEMICAL ENGINEERING

Bachelor of Science
The Department of Chemical and Biomolecular Engineering offers the Bachelor of Science degree in Chemical Engineering. Chemical Engineering students select one of several emphasis areas (such as energy studies or environmental engineering), a concentration in Biomolecular Engineering (to prepare them for medical school or a career in biotechnology), or any approved minor.

Chemical engineering is based on chemistry, biology, physics, and mathematics. The curriculum at Clemson includes classroom and laboratory instruction and emphasizes broadly applicable fundamental principles and current technology to prepare graduates for professional practice and professional growth.

The Educational Objective of the BS degree program is for graduates to have careers characterized by:

- success in chemical engineering practice, postgraduate education, or other areas making use of engineering skills, as defined by accomplishments and/or job satisfaction;
- demonstrated success in the design of chemical processes and/or identification, formulation, and solution of chemical engineering problems;
- ethical behavior in all endeavors;
- demonstrated effectiveness in teamwork, communication, and service to society through professional contributions;
- demonstrated technical and/or managerial leadership; and
- demonstrated commitment to lifelong learning.

Chemical engineers are involved in the research, manufacture, sales, and use of commodity and specialty chemicals, fuels, pharmaceuticals, electronic components, synthetic fibers and textiles, food and consumer goods, and many other products. They work on environmental pollution prevention and remediation and apply engineering science to solve medical and health-related problems.

Combined Bachelor of Science/Master of Science
Qualified students can reduce the time to earn a Master’s Degree by applying graduate credits to both the Bachelor’s and Master’s program requirements. Undergraduate Chemical and Biomolecular Engineering students who have earned a grade-point average of 3.4 or above and completed 90 credit hours can begin work toward a Master of Science in Chemical Engineering or a Master of Science in Environmental Engineering and Science by selecting approved graduate courses for their emphasis area.

Details are available in the ChBE Undergraduate Handbook, which can be found at www.clemson.edu/ce/chbe.

Freshman Year

Note: No student may exceed a maximum of two attempts, including a W, to complete successfully any CHE course.

The first two years provide students with building blocks necessary to be successful civil engineers, including proficiency in calculus, engineering me-

The Civil Engineering program prepares students to work immediately upon graduation in most areas of civil engineering or to pursue graduate degrees. Students
are also exposed to issues related to professional practice, including professional registration, life-long learning, and communication and team skills. Because
a concerned society demands a realistic consideration of the impacts of engineering projects, civil engineering students are also educated in the broad areas of the
humanities and social sciences.

CIVIL ENGINEERING
Bachelor of Science
CIVIL ENGINEERING
Bachelor of Science
Civil Engineering involves the planning, design, construction management, operation, and maintenance of facilities and systems in the built environment,
including bridges, buildings, airports, water supply systems, ports, dams, and highways.

The Bachelor of Science degree program in Civil Engineering includes the common educational goals listed on page 94 for the College of Engineering and Science.
The complete objectives of the program can be found at www.clemson.edu/ce.
## Sophomore Year

**First Semester**
- 3 CE 2010 Statics
- 3 CE 2550 Geomatics
- 4 MATH 2060 Calculus of Several Variables
- 3 PHYS 2210 Physics with Calculus II
- 1 PHYS 2230 Physics Lab. II
- 3 Arts and Humanities Requirement or Social Science Requirement

**Second Semester**
- 4 CE 2060 Structural Mechanics
- 2 CE 2080 Dynamics
- 2 CE 3520 Economic Evaluation of Projects
- 3 COMM 2500 Public Speaking
- 4 MATH 2080 Intro. to Ordinary Diff. Equations

## Junior Year

**First Semester**
- 3 CE 3010 Structural Analysis
- 3 CE 3310 Construction Engineering and Mgt.
- 4 CE 3410 Introduction to Fluid Mechanics
- 3 CE 3510 Civil Engineering Materials
- 3 MATH 3020 Statistics for Engineering and Science

**Second Semester**
- 3 CE 3110 Transportation Engineering Planning and Design
- 4 CE 3210 Geotechnical Engineering
- 3 CE 3420 Applied Hydraulics and Hydrology
- 1 CE 3530 Professional Seminar
- 3 EES 4010 Environmental Engineering
- 3 Design Technical Requirement

**Senior Year**

**First Semester**
- 3 ENGL 3410 Technical Writing
- 3 Design Technical Requirement
- 6 Technical Requirement
- 3 Technical Requirement Restricted

**Second Semester**
- 3 CE 4590 Capstone Design Project
- 3 Arts and Humanities Requirement or Social Science Requirement
- 3 Arts and Humanities (Literature) Requirement
- 3 Technical Requirement
- 3 Elective

**Sophomore Year**

**First Semester**
- 3 CPSC 1110 Elementary Computer Programming in C/C++
- 2 ECE 2100 Logic and Computing Devices
- 3 ECE 2220 Systems Programming Concepts for Computer Engineering
- 3 ECE 2620 Electric Circuits II
- 3 ECE 2720 Computer Organization
- 1 ECE 2730 Computer Organization Laboratory
- 4 MATH 2080 Intro. to Ordinary Diff. Equations

## Freshman Year

**First Semester**
- 3 CH 1010 General Chemistry
- 3 ENGR 1060 Engineering Disciplines and Skills II
- 3 ENGL 1030 Accelerated Composition
- 1 ECE 2090 Logic and Computing Devices Lab.

**Second Semester**
- 2 ECE 2010 Logic and Computing Devices
- 1 ECE 2070 Programming System Lab.
- 3 ECE 2220 Systems Programming Concepts for Computer Engineering
- 2 ECE 2240 Electrical Engineering Lab. I
- 3 MATH 1060 Calculus of One Variable I
- 3 PHYS 1220 Physics with Calculus I

**Sophomore Year**

**First Semester**
- 4 CH 1010 General Chemistry
- 3 ENGR 1060 Engineering Disciplines and Skills II
- 3 ENGL 1030 Accelerated Composition
- 1 ECE 2090 Logic and Computing Devices Lab.

**Second Semester**
- 4 CH 1010 General Chemistry
- 3 ENGR 1060 Engineering Disciplines and Skills II
- 3 ENGL 1030 Accelerated Composition
- 1 ECE 2090 Logic and Computing Devices Lab.

**Junior Year**

**First Semester**
- 3 ENGR 1090 Programming and Problem Solving I
- 1 ECE 2730 Computer Organization Laboratory
- 3 ECE 2720 Computer Organization
- 3 ECE 2730 Computer Organization Laboratory
- 3 MATH 2080 Intro. to Ordinary Diff. Equations

**Second Semester**
- 3 ENGR 1090 Programming and Problem Solving I
- 1 ECE 2730 Computer Organization Laboratory
- 3 ECE 2720 Computer Organization
- 3 MATH 2080 Intro. to Ordinary Diff. Equations

**Senior Year**

**First Semester**
- 3 COMM 2500 Public Speaking
- 3 CE 3110 Environmental Engineering
- 3 CE 3210 Geotechnical Engineering
- 3 CE 3410 Introduction to Fluid Mechanics
- 3 CE 3510 Civil Engineering Materials
- 3 MATH 3020 Statistics for Engineering and Science

**Second Semester**
- 3 COMM 2500 Public Speaking
- 3 CE 3110 Environmental Engineering
- 3 CE 3210 Geotechnical Engineering
- 3 CE 3410 Introduction to Fluid Mechanics
- 3 CE 3510 Civil Engineering Materials
- 3 MATH 3020 Statistics for Engineering and Science

Notes:
1. Civil Engineering students may neither enroll in nor receive credit for any CE or EM course unless they have a 2.0 Engineering grade-point average.
2. Civil Engineering students enrolling in any CE course (except CE 4590) must have a grade of C or better in the prerequisites for that course.
3. See advisor for approved list.
4. See advisor for approved list. Technical Requirements and electives may be used to complete an emphasis area in one or more of the following fields: Applied Fluid Mechanics, Construction, Environmental Engineering, Geotechnical/Geoenvironmental Engineering, Structural Engineering, or Transportation Engineering.

**Total Semester Hours**
127 Total Semester Hours

See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credit hours must also satisfy General Education Cross-Cultural Awareness and Science and Technology in Society Requirements.

See advisor for approved list.

See advisor for approved list. Technical Requirements and electives may be used to complete an emphasis area in one or more of the following fields: Applied Fluid Mechanics, Construction, Environmental Engineering, Geotechnical/Geoenvironmental Engineering, Structural Engineering, or Transportation Engineering.

Notes:
1. A student is allowed to enroll in ECE courses (excluding ECE 2070, 2080, 3080) only when all prerequisites have been passed with a grade of C or better.
2. All Computer Engineering students must have a cumulative engineering grade-point average of 2.0 to enroll in any 3000- or 4000-level ECE courses.
3. No student may exceed a maximum of two attempts, excluding W, to complete successfully any ECE course.
ELECTRICAL ENGINEERING

Bachelor of Science

Electrical engineers are in high demand for a wide range of influential positions. Professional duties range from analytical problem solving to the design of components and systems. The scope of employment requires a unique breadth and depth of knowledge and technical skills, which are reflected in the Electrical Engineering program. This program also offers an excellent preparation for graduate education. Detailed information can be found at www.clemson.edu/ces/departments/ece/.

Building on a foundation of mathematical and physical sciences, students progress into the application of these in the engineering science areas of circuits, electronics, communications, controls, power, and electromagnetics. In these subjects, students also begin to apply the concepts and techniques learned to the design of circuits and systems. Senior technical design courses offer the opportunity to further develop expertise in a selected area.

In addition to these technical skills, students learn to communicate effectively, both orally and with the written word. Because engineers work for the benefit of society, the curriculum includes a strong component of humanities and social science courses. Also, many project design assignments enable the development of interpersonal, teamwork, and management skills, which are necessary for success in a professional engineering career.

Freshman Year

First Semester
- 4 - CH 1010 General Chemistry
- 3 - ENGL 1030 Accelerated Composition
- 1 - ENGR 1050 Engineering Disciplines and Skills I
- 1 - ENGR 1060 Engineering Disciplines and Skills II
- 4 - MATH 1060 Calculus of One Variable I
- 3 - Arts and Humanities Requirement* or 3 - Social Science Requirement*
- 16

Second Semester
- 4 - CH 1020 General Chemistry
- 1 - ENGR 1070 Programming and Problem Solving I
- 1 - ENGR 1080 Programming and Problem Solving II
- 1 - ENGR 1090 Programming and Problem Solving Applications
- 4 - MATH 1080 Calculus of One Variable II
- 3 - PHYS 1220 Physics with Calculus I
- 3 - Arts and Humanities Requirement* or 3 - Social Science Requirement*
- 17

Sophomore Year

First Semester
- 3 - CPSC 1110 Elementary Computer Programming in C/C++
- 2 - ECE 2120 Logic and Computing Devices
- 3 - ECE 2220 Electric Circuits I
- 1 - ECE 2290 Logic and Computing Devices Lab.
- 1 - ECE 2110 Electrical Engineering Lab. I
- 4 - MATH 2060 Calculus of Several Variables
- 3 - PHYS 2210 Physics with Calculus II
- 17

Second Semester
- 1 - ECE 2120 Electrical Engineering Lab. II
- 3 - ECE 2620 Electric Circuits II
- 3 - ECE 2720 Computer Organization
- 1 - ECE 2730 Computer Organization Laboratory
- 4 - MATH 2080 Intro. to Ordinary Diff. Equations
- 3 - Arts and Humanities Requirement* or 3 - Social Science Requirement*
- 15

Junior Year

First Semester
- 1 - ECE 3110 Electrical Engineering Lab. III
- 3 - ECE 3200 Electronics I
- 3 - ECE 3300 Signals, Systems, and Transforms
- 3 - ECE 3600 Electric Power Engineering
- 3 - ECE 3800 Electromagnetics
- 3 - Advanced Mathematics Requirement
- 16

Second Semester
- 3 - ECE 3120 Electrical Engineering Lab. IV
- 3 - ECE 3170 Random Signal Analysis
- 3 - ECE 3210 Electronics II
- 3 - ECE 3710 Microcontroller Interfacing
- 1 - ECE 3720 Microcontroller Interfacing Lab.
- 3 - ECE 3810 Fields, Waves, and Circuits
- 3 - ENGL 3140 Technical Writing
- 17

Senior Year

First Semester
- 3 - COMM 1500 Intro. to Human Comm. or 3 - COMM 2500 Public Speaking
- 3 - ECE 4900 Continuous and Discrete Syst. Des.
- 3 - ECE 4920 Communications Systems
- 1 - ECE 4950 Integrated Systems Design I
- 3 - Electrical Engineering Technical Requirement*
- 14

Second Semester
- 2 - ECE 4960 Integrated System Design II
- 3 - Arts and Humanities Requirement* or 3 - Social Science Requirement*
- 6 - Electrical Engineering Technical Requirement*
- 3 - Special Requirement*
- 15

Total Semester Hours: 126

Notes:
1. A student is allowed to enroll in ECE courses (excluding ECE 2070, 2080, 3080) only when all prerequisites have been passed with a grade of C or better.
2. All Electrical Engineering students must have a cumulative engineering grade-point average of 2.0 to enroll in any 3000- or 4000-level ECE courses.
3. No student may exceed a maximum of two attempts, excluding ECE 2070, 2080, 3080 courses.

ENVIRONMENTAL ENGINEERING

Bachelor of Science

Our complex world faces many challenges, including contaminated water supplies, hazardous wastes, an increasing population and limited resources. Environmental engineers help to solve many of the environmental problems faced by society using the principles of biology, chemistry, physics, mathematics and earth sciences. An undergraduate degree in Environmental Engineering opens the door to a variety of rewarding career options. Environmental engineers protect water quality by designing water and wastewater treatment systems; ensure public safety by managing solid, hazardous and radioactive wastes; improve air quality by controlling emissions from mobile and stationary sources; reduce human health risks by tracking contaminants as they move through the environment; clean up toxic waste spills and restore historically contaminated sites; and design a more sustainable future by understanding our use of resources.

The curriculum for the Bachelor of Science degree in Environmental Engineering consists of 127 credit hours. All students participate in one professional seminar course and complete a capstone design project.

Freshman Year

First Semester
- 4 - CH 1010 General Chemistry
- 3 - ENGL 1030 Accelerated Composition
- 1 - ENGR 1050 Engineering Disciplines and Skills I
- 1 - ENGR 1060 Engineering Disciplines and Skills II
- 4 - MATH 1060 Calculus of One Variable I
- 3 - Arts and Humanities Requirement* or 3 - Social Science Requirement*

Sophomore Year

First Semester
- 3 - BIOL 1030 General Biology*
- 1 - BIOL 1050 General Biology Lab*
- 3 - CE 2100 Statics
- 3 - EES 2010 Environmental Engineering Fund. I
- 4 - MATH 2060 Calculus of Several Variables
- 3 - PHYS 2210 Physics with Calculus II
- 17

Second Semester
- 2 - CE 2080 Dynamics
- 3 - CH 2010 Survey of Organic Chemistry 4
- 4 - EES 2020 Environmental Engineering Fund. II
- 2 - ENGR 2100 Computer-Aided Design and Engineering Applications
- 4 - MATH 2080 Intro. to Ordinary Diff. Equations
- 15
INDUSTRIAL ENGINEERING

Bachelor of Science

Industrial engineers design, install, and improve the complex systems that provide goods and services vital to our society and economy. These systems place unique demands for breadth of preparation on industrial engineers. The Industrial Engineering baccalaureate program prepares graduates to: (1) design, develop, implement, and improve integrated systems that include people, materials, information, equipment, and energy using appropriate analytical, computational and experimental practices; (2) apply information technologies to the practice of industrial engineering; (3) conduct themselves in a professional and ethical manner; and (4) work and communicate effectively with colleagues at every level in the organization.

The traditional arenas for the practice of industrial engineering are the manufacturing facilities of industry; however, many practicing industrial engineers are employed in non-manufacturing institutions such as hospitals, banks, and government agencies. In addition to numerous employment opportunities in professional practice, industrial engineering graduates may further their formal education. The Department of Industrial Engineering offers programs leading to the Master of Science and Doctor of Philosophy degrees.

The Department of Industrial Engineering allows students to count up to 12 hours of graduate credit (approved 6000- and 8000-level courses) toward both bachelor’s and master’s degrees. Moreover, the total number of hours for both the BS and MS degree must be at least 150; most BSIE students cannot double-count more than six units. To be eligible, the student must have completed the bachelor’s curriculum through the junior year (minimum 90 credits) and have a minimum overall grade-point average of 3.4. Details of the suggested curriculum and program information are available from the Industrial Engineering Department.

Detailed curriculum and department information are available at http://www.clemson.edu/ce/industrial-engineering/

Sophomore Year
First Semester
1 - IE 2000 Sophomore Seminar in IE

125 Total Semester Hours

This course must be passed with a C or better either to transfer into IE from General Engineering or to satisfy later course prerequisites.

See General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness and Science and Technology in Society Requirements.

Select from department-approved list. See advisor.

PHYS 1240 may be substituted.

ME 2100 may be substituted.

See General Education Requirements. COMM 1500 is recommended.
MATERIALS SCIENCE AND ENGINEERING

Bachelor of Science

Materials scientists and engineers design, develop, and produce traditional and new advanced materials with diverse applications intended for use in a wide variety of industries. These include traditional materials-intensive industries such as structural clay, foundry, whitemore, polymers, plastics, fibers, textiles, composite materials, and automotive industries. Also included are high performance technology industries such as semiconductor, defense, biomaterials, aerospace, and communication industries. The broad career responsibilities of this discipline require competence in science, engineering, mathematics, and the social sciences. The curriculum develops skills in problem solving, engineering analysis, and design, as well as oral and written communication.

The Department of Materials Science and Engineering offers two areas of concentration within the Bachelor of Science degree in Materials Science and Engineering. The Inorganic Materials Concentration provides more in-depth study of the engineering and science of materials such as ceramics, glasses, metals, optical and electronic materials; while the Polymeric Materials Concentration provides more emphasis on plastics, elastomers, fibers and fibrous materials, films, coatings and adhesives. Students select either the Inorganic Materials Concentration or the Polymeric Materials Concentration at the beginning of their sophomore year. Both concentrations in Materials Science and Engineering integrate laboratory with classroom experiences to prepare students for lifelong learning and exciting career opportunities. Courses covering thermodynamics, kinetics, mechanical behavior, processing, fabrication and characterization of materials prepare students for careers in industry and for graduate school.

In addition to the common educational objectives of all engineering programs, baccalaureate level graduates in Materials Science and Engineering will be able to:

- demonstrate learning consistent with Accreditation Board for Engineering and Technology Engineering Criteria 2011 for materials engineering programs;
- function easily and well in the laboratory and plant environments; and
- serve the local, national, and international materials communities.

Specifically, the Accreditation Board for Engineering and Technology Engineering Criteria 2011 requires that baccalaureate degree graduates in Materials Science and Engineering be able to:

- apply advanced scientific and engineering principles to materials systems;
- demonstrate an integrated understanding of the scientific and engineering principles underlying structure, properties, processing, and performance relationships;
- apply this understanding to the solution of materials engineering selection and design problems; and
- apply appropriate experimental, statistical, and computational methods to advantage in the solution of materials problems.

INORGANIC MATERIALS CONCENTRATION

Freshman Year
First Semester
4 - CH 1010 General Chemistry
3 - ENGL 1030 Accelerated Composition
1 - ENGR 1050 Engineering Disciplines and Skills I
1 - ENGR 1060 Engineering Disciplines and Skills II
4 - MATH 1060 Calculus of One Variable I
3 - Arts and Humanities Requirement1 or 3 - Social Science Requirement1
Second Semester
4 - CH 1020 General Chemistry
1 - ENGR 1070 Programming and Problem Solving I
1 - ENGR 1080 Programming and Problem Solving II
1 - ENGR 1090 Programming and Problem Solving Applications
4 - MATH 1080 Calculus of One Variable II
3 - PHYS 1220 Physics with Calculus I
3 - Arts and Humanities Requirement1 or 3 - Social Science Requirement1

Sophomore Year
First Semester
3 - CH 2010 Survey of Organic Chemistry
3 - MSE 2100 Introduction to Materials Science
4 - MATH 2060 Calculus of Several Variables
3 - PHYS 2210 Physics with Calculus II
3 - Arts and Humanities Requirement1 or 3 - Social Science Requirement1
Second Semester
3 - CH 2100 Statics
2 - ENGR 2080 Engineering Graphics and Machine Design
1 - MSE 2410 Metrics Laboratory
4 - MATH 2560 Intro. to Ordinary Diff. Equations
6 - Arts and Humanities Requirement1 or 6 - Social Science Requirement1

Junior Year
First Semester
3 - COMM 2500 Public Speaking
3 - MSE 3190 Materials Processing I
3 - MSE 3260 Thermodynamics of Materials
3 - MSE 3270 Transport Phenomena
3 - MSE 4150 Intro. to Polymer Sci. and Engr.
Second Semester
3 - IE 3840 Engineering Economic Analysis
3 - MATH 3020 Statistics for Science and Engr. or 3 - STAT 2300 Statistical Methods I
3 - MSE 3820 Phase Diagrams for Materials Processing and Applications
2 - MSE 3420 Structure/Property Laboratory
3 - MSE 3610 Proc. Metals and Their Composites
3 - MSE 4220 Mechanical Behavior of Materials

Senior Year
First Semester
3 - MSE 4020 Solid State Materials
3 - MSE 4130 Noncrystalline Materials
3 - MSE 4320 Manufacturing Processes and Sys.
1 - MSE 4410 Manufacturing Laboratory
3 - MSE 4910 Undergraduate Research

124 Total Semester Hours

1See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credits must also satisfy the Cross-Cultural Awareness and the Science and Technology in Society General Education requirements.
Preparation for a 40-45-year professional career requires development of the whole person through a balanced program encompassing the humanities, social sciences, communication and computer skills, physical and engineering sciences, design, and laboratory experience. Students start with the physical sciences and communication skills and progress through the engineering sciences, ultimately applying the principles learned in such areas as energy conversion, transfer, mechanical design, and systems analysis. Throughout the curriculum, the fundamental nature of engineering as a problem-solving discipline is emphasized.

Most graduates take positions in industry, government, or business. Many, however, continue their formal education in a graduate program. The Department of Mechanical Engineering offers study leading to the Master of Science and Doctor of Philosophy degrees.

Mechanical Engineering students who have a cumulative grade-point average or cumulative engineering grade-point average (EGPA) below 2.0 are on probation and will have restricted enrollment in classes. Students whose cumulative grade-point average or EGPA below 2.0 are subject to the regulations stipulated under Academic Eligibility Policy. Students on probation for EGPA below 2.0 who fail to recover in the first regular semester (fall or spring) will not be allowed to register for mechanical engineering classes. After one year, such students may petition the Mechanical Engineering Department for continued enrollment. An advising policy for students on probation is available from the Mechanical Engineering Department.

Additional information can be found at www.clemson.edu/me.

MECHANICAL ENGINEERING

Bachelor of Science

Breadth, individuality, and flexibility are inherent characteristics of the mechanical engineering profession. Mechanical engineers, in a broad sense, make major contributions to the creation of products and systems that benefit mankind. They work in a variety of areas, including bioengineering, energy systems, environmental and life-support systems, propulsion and transportation systems, food production, materials processing, automated manufacturing, and construction. A wide spectrum of career opportunities is open to them. The practice of mechanical engineering includes one or more of the following activities: manufacturing, testing, research, development, design, technical management, technical sales and marketing, construction, and teaching.

Sophomore Year

First Semester
1. ME 2000 Sophomore Seminar
3. ME 2220 Mechanical Engineering Lab. I or
   3. MATH 2100 Intro. to Materials Science
4. MATH 2060 Calculus of Several Variables
5. PHYS 2210 Physics with Calculus II

Second Semester
1. ECE 2070 Basic Electrical Engineering
2. ECE 2080 Electrical Engineering Lab. I
3. ME 2030 Found. of Thermal and Fluid Systems
4. ME 2040 Mechanics of Materials
5. ME 2220 Mechanical Engineering Lab. I or
   3. MATH 2100 Intro. to Materials Science
4. MATH 2080 Intro. to Ordinary Diff. Equations

Junior Year

First Semester
1. ME 3040 Heat Transfer
2. ME 3050 Model. and Analysis of Dynamic Syst.
3. ME 3060 Fundamentals of Machine Design
4. ME 3330 Manufacturing Processes and Their Application
5. ME 3330 Mechanical Engineering Lab. II or
   3. Statistics Requirement
6. ME 3330 Mechanical Engineering Technical Requirement

Second Semester
1. ME 3330 Mechanical Engineering Design
2. ME 4030 Control and Integration of Multi-Domain Dynamic Systems
3. ME 4440 Mechanical Engineering Lab. III or
   3. Technical Requirement
4. Arts and Humanities Requirement
5. Social Science Requirement
6. Mechanical Engineering Technical Requirement

3. Arts and Humanities (Lit.) Requirement
4. Arts and Humanities (Non-Lit.) Requirement or
3. Social Science Requirement

125 Total Semester Hours

1See Policy on Humanities and Social Sciences for Engineering Curricula. Six of these credits must also satisfy General Education requirements.
2See advisor.
SCIENCE PROGRAMS
The College of Engineering and Science offers curricula leading to the Bachelor of Science in Chemistry, Computer Information Systems, Computer Science, Geology, Mathematical Sciences, and Physics. The Bachelor of Arts is offered in Chemistry, Computer Science, Mathematical Sciences, and Physics.

The science departments in the College work closely with the other academic departments in the University, including such disciplines as economics and management as well as engineering. This allows students in the sciences great flexibility and responsibility in designing their own programs.

Bachelor of Science Curricula
The Bachelor of Science degree prepares graduates for professional employment or graduate study in the chosen science discipline. BS curricula are more highly structured than BA curricula but nonetheless offer opportunity for students to pursue a minor or secondary area of interest.

Bachelor of Arts Curricula
The curricula leading to the Bachelor of Arts degree is designed to meet the needs of students who desire a broad general education. They require a minor (or a second major) as well as the major concentration. A major requires a minimum of 24 credits from courses above the sophomore level, including or in addition to courses specified by the major department. In some major disciplines, certain prescribed courses at the sophomore level are counted toward the 24-credit requirement.

Students have a large degree of flexibility and responsibility in selecting a minor from those listed on page 113. Courses for these minors are to be selected in consultation with the appropriate department.

CHEMISTRY
Bachelor of Science
Chemistry, an experimental discipline based on observation guided by molecular theory, is of fundamental importance in much of modern science and technology. Its molecular concepts form the basis for ideas about complex material behavior. Due to the fundamental nature and extensive application of chemistry, an unusually large variety of challenging opportunities to contribute in the science-oriented community are open to students whose education is built around the principles of this discipline.

The Chemistry curriculum, through the career requirement options and the large number of electives, provides students the opportunity to select a coherent program of study beyond the basic courses. Career requirement options are provided for students anticipating graduate study in chemistry or related fields; employment following the BS degree in laboratory, production, technical sales, or management positions; professional studies (e.g., medicine); chemical physics; geochemistry; and employment in fields requiring extensive preparation in courses other than sciences (e.g., patent law and technical writing). Significant features of the curriculum are the student's extensive participation in experimental work and the opportunity to take part in a research investigation during the junior and senior years.

Freshman Year
First Semester
1 - CH 1010 General Chemistry
1 - CH 1410 Chemistry Orientation
1 - MATH 1030 Calculus of One Variable I

COMPUTER INFORMATION SYSTEMS
Bachelor of Science
The Computer Information Systems degree program is oriented toward computer applications in management-related problems. The program emphasizes functional areas of management, including accounting, production, marketing, and finance and the applications of computers in these areas. The curriculum is designed to prepare students for careers in areas such as systems design and analysis, applications programming, database administration, and information retrieval, as well as for continued study toward an advanced degree.

Students who change majors into Computer Information Systems must have a cumulative grade-point average of 2.0 or higher.

122 Total Semester Hours

Notes:
1. For graduation, a candidate for the BS degree in Computer Information Systems must have earned a grade of C or better in each CPSC course applied to the non-elective requirements of the degree.
2. A grade of C or better must be earned in all prerequisite courses (including CPSC and MATH courses) before enrolling in the next CPSC course.
3. General Education Cross-Cultural Awareness and Science and Technology in Society requirements must be satisfied.

COMPUTER SCIENCE
Bachelor of Science
The Computer Science program is oriented toward design, implementation, and application of software systems to solve information processing problems. Emphasis areas outside computer science allow students to tailor the program to their individual needs and interests. This program is more technically oriented than the Computer Information Systems curriculum. It prepares students for employment in the computer software field or for continued study toward an advanced degree in computer science. This program is accredited by the Computing Accreditation Commission (CAC) of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012; telephone: (410) 347-7700. Additional information can be found at www.cs.clemson.edu.

Students who change majors into Computer Science must have a cumulative grade-point average of 2.0 or higher.

Combined Bachelor’s/Master’s Plan
The School of Computing allows students to count up to nine hours of graduate credit (6000- and 8000-level courses) toward both the bachelor’s and master’s degrees. Students participating in this program must have a minimum grade-point average of ...
3.4 and be admitted to the Graduate School prior to registering for graduate courses. Details of the suggested curriculum and program information are available from the Department.

121 Total Semester Hours

1. The sequence of CPSC 1110 and 2100 will be accepted in place of CPSC 1010 and 1020.
2. Select either the MATH 1020/2070, 1060/2070, or 1060/1080 sequence. Students who select the MATH 1060/1080 sequence will have satisfied the elective credits in the freshman year. Students interested in computer graphics should select the MATH 1060/1080 sequence.
3. Four semesters (through 2020) in the same modern foreign language are required.
4. MATH 1190 may be substituted.
5. See General Education Requirements.
6. Select from: ENGL 3040, 3120, 3140, 3150, 3160, 3330; AS 3090, 3100, 4090, 4100, or ML 1010, 1020.
7. Select from courses in BIOL, BCHM, CH, GEOL, MICR, PHYS, or ENSP 2000. At least one course must include a laboratory and satisfy the Natural Science General Education Requirement.
8. Select from 3000-level or higher CPSC courses or DPA 3070. No more than three credits of CPSC 3990 or 4810 may be applied to this requirement, and no more than six credits of CPSC 4820 may be applied. Up to three credits of approved ECE 3000-level or higher courses, or MATH 3650, or MATH 4000-level courses may be substituted.
GEOL 2920 Introduction to Research II
GEOL 2020 Earth History

First Semester
1 - GEOL 1030 Physical Geology Lab.
3 - GEOL 1010 Physical Geology
4 - CH 1010 General Chemistry

Second Semester
15
4 - MATH 1060 Calculus of One Variable I

120 Total Semester Hours

¹See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.
²Twenty-eight credit hours selected from department approved list. No more than 14 hours below the 3000 level and no more than eight hours below the 2000 level. Courses may not be used to satisfy any other requirement.
³Select from department approved list. Courses may not be used to satisfy any other requirement.
⁴Fifteen credit hours. Select from GEOL 3130, 3180, 4050, 4090, 4150, 4210, or (CE) 4820. Only excess hours may be used to satisfy STEM requirement hours.
⁵GEOL 4570 or other six-credit summer geology field camp, or a combination of GEOL 2750 plus a three-credit field course in geology or other approved discipline. Students desiring to become registered professional geologists should take a six-credit summer field camp in geology/hydrogeology.

MATHMATICAL SCIENCES  
The Mathematical Sciences curriculum is designed to be versatile. Students gain a broad knowledge of mathematical concepts and methods that are applicable in sciences, engineering, business, industry, and other professions requiring a strong mathematical background. In addition to the basic courses that provide necessary mathematical skills, the curriculum allows students to select an emphasis area or concentration, providing an introduction to a specific area where mathematics is used. These are Abstract Mathematics, Actuarial Science/Financial Mathematics, Applied and Computational Mathematics, Biology, Computer Science, Operations Research/Management Science, and Statistics.  

In addition to the overall goal of preparing students to cope with a variety of mathematical problems, the curriculum seeks to provide an adequate background for students who plan to pursue graduate study or positions in business, industry, or government. Students electing the Biology Concentration will have the necessary preparation for entering medical school. More information about the degree program can be found at www.clemson.edu/ces/departments/math.  

All mathematical sciences majors are required to complete a capstone experience that provides an opportunity to pursue research, independent study, or an approved internship under the direction of a faculty member, or the opportunity to study mathematical models in some area of the mathematical sciences. The capstone experience requires a written report (thesis, computer code, project description, intern experience, etc.) and an oral or poster presentation by each student.  

Combined Bachelor’s/Master’s Plan  
Under this plan, students may reduce the time necessary to earn both degrees by applying up to 12 graduate credits to both undergraduate and graduate program requirements. Students are encouraged to obtain the specific requirements for pursuing the combined degree from the Department of Mathematical Sciences www.clemson.edu/ces/departments/math. as early as possible in their undergraduate program. Enrollment guidelines and procedures can be found under Academic Regulations in this catalog.

PHYSICS

Bachelor of Science

Physics, the most fundamental of the natural sciences, forms the basis of study upon which the other branches of science are founded. Physics is concerned with the fundamental behavior of matter and energy. Classical physics encompasses the fields of mechanics, heat and thermodynamics, electricity and magnetism, acoustics and optics. Modern physics is concerned with the study of atoms and molecules, atomic nuclei, elementary particles and the properties of liquids, crystalline solids, and other materials, as well as the areas of relativity, cosmology, and the large-scale structure of the universe.

The undergraduate Physics curricula provide students with a strong background in the classical areas of physics, as well as an introduction to the more important aspects of modern physics. The BS curriculum is directed toward preparing students for graduate study ultimately leading to the PhD degree or toward research and development work in industrial or governmental laboratories. It also provides a good background for graduate study or industrial work in many areas or engineering physics and applied science.

Freshman Year
First Semester
1. CH 1010 General Chemistry
2. ENGL 1030 Accelerated Composition
3. MATH 1060 Calculus of One Variable I
4. PHYS 1220 Physics with Calculus I
1. PHYS 1240 Physics Lab I
15
Second Semester
1. CH 1020 General Chemistry
2. ENGL 1040 Accelerated Composition
3. MATH 2060 Calculus of One Variable II
4. PHYS 2210 Physics with Calculus II
1. PHYS 2230 Physics Lab II
3. Arts and Humanities (Non-Lit.) Requirement
15
Sophomore Year
First Semester
1. MATH 2060 Calculus of Several Variables
2. PHYS 2210 Physics with Calculus I
3. PHYS 2220 Physics with Calculus II
2. PHYS 3000 Introduction to Research
3. PHYS 3250 Experimental Physics I
4. Foreign Language Requirement
16

Notes:
1. For graduation, a candidate for the BA degree in Mathematical Sciences will be required to have a 2.0 or higher cumulative grade-point average in all required MATH courses.
2. A grade of C or better must be earned in all prerequisite courses before enrolling in the next MATH course.
3. Students who change majors to Mathematical Sciences must have achieved the Minimum Cumulative Grade-Point Average (MCGPA) by Total Credit Hour Level as defined in the Undergraduate Announcements and must have received a grade of C or better in all MATH courses taken.

MATHETICAL SCIENCES

Bachelor of Arts

Freshman Year
First Semester
1. ENGL 1030 Accelerated Composition
2. MATH 1060 Calculus of One Variable I
3. Foreign Language Requirement
4. Social Science Requirement
1. Elective

3 - Emphasis Area RequirementⅢ
15

SECOND SEMESTER
3 - HIST 1720: The West and the World I or
3 - HIST 1730: The West and the World II
3 - PHYS 4420: Electromagnetics II
3 - PHYS 4560: Quantum Physics II
3 - Emphasis Area RequirementⅢ
3 - Social Science RequirementⅠ
15

121 Total Semester Hours

See General Education Requirements. Three of these credit hours must also satisfy the Science and Technology in Society Requirement.

‘Two semesters (through 1020) in the same modern foreign language are required.

‘See advisor. Select from the following emphasis areas: Chemistry, Computer Science, Engineering, Environmental Engineering, Geology, Mathematical Sciences, or Physics and Astronomy. Twelve credit hours in one of these areas, with at least six at the 3000–4000 level, are required. Note: Requirements for a minor in one of these areas might be satisfied with three additional credits at the 3000–4000 level.

‘ENGL 3040, 3120, 3140, 3150, 3160, 3450, 3460, 3480, ML 4020, or THEA (ENGL) 3470

A Bachelor of Science: Student transcripts record a Bachelor of Science degree in Physics; the interdisciplinary emphasis area is not included on transcripts.

INTÉRDISCIPLINARY EMPHASIS AREA

Students who select the Bachelor of Science degree in Physics with an interdisciplinary emphasis supplement their study of physics with core courses in complementary fields of study. This emphasis area is an excellent option for students preparing for direct entry into the job market or for medical, law or business school. Depending on a student’s academic goals, it may also be a good option for students preparing for graduate school or for those pursuing both a major and minor or a double major.

Because students choosing the interdisciplinary emphasis have a wide variety of academic and career goals, and because the interdisciplinary emphasis requirements cannot be tracked via Clemson’s degree audit system, detailed departmental advising is vital. Students, in consultation with their advisor, must select a technical or professional emphasis area subject to departmental approval no later than the end of the second semester of their sophomore year. Additionally, all potential prerequisite courses for a minor should be completed in the student’s first or second year. For additional information, please visit http://physics.clemson.edu.

Freshman Year

First Semester
4 - CH 1010: General Chemistry
3 - ENGL 1030: Accelerated Composition
4 - MATH 1060: Calculus of One Variable I

123 Total Semester Hours

See General Education Requirements. Three of these credit hours must also satisfy the Science and Technology in Society Requirement.

Select from department-approved list of courses in biological sciences, chemistry, mathematical sciences, and physics. At least six credit hours must be in biological sciences.

Two semesters (through 1020) in same modern foreign language are required.

‘ENGL 3040, 3120, 3140, 3150, 3160, 3450, 3460, 3480, ML 4020, or THEA (ENGL) 3470

Any introductory-level science course

An approved physics course may be substituted if CH 3310 and 3320 have been completed.

BIOPHYSICS CONCENTRATION

The Biophysics Concentration offers an excellent preparation for medical school or graduate work in biological sciences. It includes the flexibility of selecting courses in chemistry, biological sciences, physics, and mathematics. This concentration also provides the necessary background for employment in industry, manufacturing, and instrumentation for clinical or molecular biology applications.

First Semester
4 - CH 1010: General Chemistry
3 - ENGL 1030: Accelerated Composition
4 - MATH 1060: Calculus of One Variable I
3 - PHYS 1220: Physics with Calculus I

PHYSICS
Bachelor of Arts
The Bachelor of Arts in Physics program is ideal for students interested in acquiring a broad-based liberal education that includes a strong and solid understanding of either science or a broad exposure to engineering with a strong physics foundation.

Double Major in Physics/Science Teaching—Physics
The Bachelor of Arts Degree in Physics and Science Teaching—Physics prepares students for teaching physics on the secondary school level and for graduate studies in physics. See page 128 for the curriculum.

Note: To receive a double major in Physics and Science Teaching—Physics, the student must complete a change-of-program form to declare both majors.

Freshman Year
First Semester
4 - MATH 1010 General Algebra

See advisor.

Any 3000- or 4000-level physics course.
MINORS

Following are minors acceptable for students in the College of Engineering and Science. Students cannot major and minor in the same field or acquire a minor that is not allowed by the degree program.

Accounting
Adult/Extension Education
Aerospace Studies
Agricultural Business Management
Agricultural Mechanization and Business
American Sign Language Studies
Animal and Veterinary Sciences
Anthropology
Architecture
Art
Athletic Leadership
Biochemistry
Biological Sciences
British and Irish Studies
Business Administration
Chemistry
Cluster
Communication Studies
Computer Science—not open to Computer Information Systems majors
Crop and Soil Environmental Science
Digital Production Arts
East Asian Studies
Economics
Education
English
Entomology
Entrepreneurship
Environmental Science and Policy
Equine Industry
Film Studies
Financial Management
Food Science
Forest Products
Forest Resource Management
Gender, Sexuality and Women’s Studies
Genetics
Geography
Geology
Global Politics
Great Works
History
Horticulture

Human Resource Management
International Engineering and Science
Legal Studies
Management
Management Information Systems
Mathematical Sciences
Microbiology
Military Leadership
Modern Languages
Music
Natural Resource Economics
Nonprofit Leadership
Nuclear Engineering and Radiological Sciences
Packaging Science
Pan African Studies
Park and Protected Area Management
Philosophy
Physics
Plant Pathology
Political Science
Precision Agriculture
Psychology
Public Policy
Recreational Therapy
Religion
Russian Area Studies

COLLEGE OF HEALTH, EDUCATION AND HUMAN DEVELOPMENT

The College of Health, Education and Human Development provides students the means by which to pursue careers in the fields of nursing, health, and recreation management. The “Engaged College with a Personal Touch” is home to the academic programs offered by the School of Nursing; the Department of Public Health Sciences; and the Department of Parks, Recreation and Tourism Management. The College also offers outreach services available through the Joseph F. Sullivan Center; the National Dropout Prevention Center; and the Outdoor Laboratory. Collaboration within the college between academics and community outreach services prepares students to be professional leaders in health and recreation management. As with all programs at the University, students take course offerings from all colleges on campus to achieve the most complete education possible.

HEALTH SCIENCE

Bachelor of Science

The Department of Public Health Sciences prepares students for careers in the health field, one of the largest industries in the United States. It includes hospitals and other medical service providers, public health organizations, health insurance companies, health/medical related sales, health fitness organizations, and community and nonprofit health agencies.

Plans of study can be arranged in health promotion and education, health services administration, leadership for cardiovascular technology, and professional health studies. Students in the Health Promotion and Education Concentration have the skills to assess, plan, communicate, implement, manage, and evaluate public health promotion programs. Students in the Preprofessional Health Studies Concentration obtain the coursework and experience necessary for acceptance into various graduate programs in clinical health professions. The Cardiovascular Imaging Leadership Concentration provides a core of health science classes, training in diagnostic cardiovascular sonography, and a leadership certificate. The Health Services Administration Concentration allows students to develop skills and competencies in health administration/management for entry-level careers or graduate study in this area. A minor in Business Administration is integral to the concentration. The department, in cooperation with the College of Architecture, Arts and Humanities, also offers a joint Bachelor of Science degree in Language and International Health (see pages 68-69).

When space is available, students with fewer than 50 credit hours earned may apply to change majors into Health Science with a minimum cumulative grade-point average of 2.25. Students with 50 or more credit hours may apply for a change-of-major into Health Science when space is available based on grade-point average of 2.25. Students with 50 or more credit hours earned may apply to change majors into Health Science with a minimum cumulative grade-point average of 2.5. Additional information is available at www.hehd.clemson.edu/PublicHealth/index.htm.

CARDIOVASCULAR IMAGING LEADERSHIP CONCENTRATION

Freshman Year

First Semester
3 - BIOL 1030 General Biology I and
1 - BIOL 1050 General Biology Lab. I or
5 - BIOL 1100 Principles of Biology I
4 - CH 1010 General Chemistry
3 - HLTH 2020 Introduction to Public Health

120–123 Total Semester Hours

1 See General Education Requirements. Six of these credit hours must also satisfy the Cross-Cultural Awareness and Science and Technology in Society Requirements.
2 MATH 1020 or 1060
3 See advisor. Courses in Spanish are strongly recommended.
4 Any HLTH course not otherwise required
5 STAT 2300 or 3090
6 Physician’s Assistant, premedicine, and premed students must also take BCHM 3010 and eight credit hours of organic chemistry. Some programs may also require a course in microbiology.
7 Internship must be completed in one or two semesters. Internship may be done fall, spring, or summer after completing HLTH 4100. Prior approval is required for summer internships. A grade-point average of 2.0 is required for registration.

**LANGUAGE AND INTERNATIONAL HEALTH**

**Bachelor of Science**

The Language and International Health program is administered by the College of Architecture, Arts and Humanities and the College of Health, Education and Human Development. See pages 68-69 for the curriculum.

**NURSING**

**Bachelor of Science**

The Bachelor of Science degree program in nursing prepares students for professional nursing practice in a variety of settings, such as hospitals, industry, clinics, and public health agencies. During the first two years, emphasis is on liberal arts and basic science courses arranged to provide a foundation for the nursing major. Junior and senior courses emphasize the study of nursing. Clinical nursing experiences, guided by the Nursing faculty, involve acute and community-based settings. Students are responsible for their own transportation to clinical laboratory experiences, which may extend throughout the Upstate.

Throughout the clinical laboratory period, Nursing majors are required to carry current, valid student nurses’ professional liability insurance with minimum limits of liability of $1,000,000 per occurrence and $6,000,000 in aggregate. Documentation of such coverage must be provided to the Director of the School of Nursing. No student may participate in clinical learning activities without this insurance coverage.

To comply with clinical agency contract requirements and South Carolina law, students enrolled in nursing courses with a clinical laboratory must meet specific requirements listed in the School of Nursing Student Handbook at [www.clemson.edu/hehd/nursing](http://www.clemson.edu/hehd/nursing).

The School of Nursing programs are accredited by the CCNE (Commission on Collegiate Nursing Education), One Dupont Circle NW, Suite 530, Washington, DC 20036-1120.

**Entrance Requirements**

To facilitate admission of students who can achieve at an appropriate level in the program, admission is selective. Consideration is given to performance in secondary school and on the College Board Examination for the SAT. Those seeking admission are advised to apply to the University early in the fall of the senior year in high school.

Transfer admission is competitive. Students are encouraged to apply early to the Office of Admissions. The University admits ten new transfer students to the Nursing major during the fall semester only. Potential students should have a minimum grade point average of 2.0 and completion of 30 semester hours of transferable courses. Placement in the Nursing curriculum will be determined after credit evaluation is completed.

Students may change majors into Nursing based on approval of the Admissions Committee in the School of Nursing. Applications are accepted each year during January with a deadline of January 31. Students are made by February 28. Change-of-major students will have a start date of the following January into a junior-division (junior-level) nursing courses. Applicants must meet the following requirements prior to the semester of application: a minimum cumulative grade-point average of 2.0, completion of a minimum of two required sciences within the Nursing curriculum with a C or better. Selection for priority is based on grade-point average and number of completed nursing prerequisites. Students are allowed to apply only twice.

Information regarding the admission process to the Accelerated Second-Degree nursing program can be found on the School of Nursing website.

Detailed information is available from the Academic Advising Center in 309 Edwards Hall or at [www.clemson.edu/hehd/nursing](http://www.clemson.edu/hehd/nursing).

**Sophomore Year**

**First Semester**

- 5 - NURS 4140 Community Health Nursing and Health Promotion
- 4 - NURS 4150 Community Health Nursing

15 or 16

124 or 125 Total Semester Hours

1 Students scoring below the designated score on the CMPT must take MATH 1010 as a prerequisite for CH 1010 during this semester.
2 Students enrolled at the University Center of Greenville may substitute CSPC 1200.
3 See General Education Requirements.
4 If this requirement is satisfied by another course in the curriculum, elective hours must be taken to cover the credit hours.
5 Students enrolled at the University Center of Greenville will substitute NURS 4140 for NURS 3110 and 4150.
Registered Nurse BS Completion Program

The RN/BS curriculum offers an individualized study option for the registered nurse to obtain a baccalaureate degree in Nursing. Credits may be earned through an accelerated program of study, combining transfer credits for selected courses from accredited institutions of higher learning, credit by examination for previously completed nursing courses, and enrollment in courses at Clemson University. Qualified students may take up to six hours of graduate courses toward the master's degree in Nursing. Registered nurses interested in pursuing a baccalaureate degree should contact the School of Nursing for curriculum requirements. This program is offered at the University Center of Greenville.

Freshman Year
First Semester
3 - BIOL 1030 General Biology I and
1 - BIOL 1050 General Biology Laboratory I

125 Total Semester Hours
STAT 3090 may be substituted.

See General Education Requirements. Three of these credit hours must also satisfy the Cross-Cultural Awareness Requirement.

NURS 3340 or 4860.

*This course is exempt if the student achieves a B or better in NURS 4060.

Notes:
1. A minimum grade of a C is required in the following courses for progression to junior year clinical courses: BIOL 1030/1050, 2220, 2230, CH 1010, MICR 2050, 3050, MATH 1010, NUTR 2050, STAT 2300.
2. A minimum grade of C is required in all nursing courses.
3. To progress to junior-level nursing courses, students must have a minimum grade-point average of 2.5 and may not have received more than two final course grades of less than a C in the last five years.
4. A minimum nursing grade-point average of 2.5 must be achieved in all required nursing (NURS) courses for progression to the next level. The nursing GPA will include only NURS courses.
5. Students may repeat only one nursing course. Further, students may repeat that nursing course one time only. Withdrawing with a W from the course or applying Academic Forgiveness counts as an attempt. Students who are unsuccessful on the second attempt in a nursing course will be counseled to select another major and will not be permitted to continue in the Nursing program.
6. Students must pass didactic and clinical components to pass all clinical courses.

PARKS, RECREATION AND TOURISM MANAGEMENT
Bachelor of Science

The Department of Parks, Recreation and Tourism Management prepares students for a variety of careers in public and private leisure services. The curriculum provides a broad exposure to the management of leisure service programs and resources, such as those for municipalities, institutions, voluntary and youth-serving agencies, management positions within the travel and tourism industry, and as resource managers of local, state, and federal parks and related lands and waters.

The curriculum allows students to select from five concentrations. This latitude permits accommodation of each student’s career objectives in positions in community recreation, sport management, recreation programming, cultural arts management, commercial recreation, wilderness management, nature interpretation, park management, historic site management, rehabilitation services, leisure counseling, camp administration, recreation therapy, programs for people with disabilities or senior citizens, travel industry, resort management, convention and visitor bureaus, these parks, community tourism, and special event/festival planning, to name a few.

The Parks, Recreation and Tourism Management program is accredited by the National Council on Accreditation (National Recreation and Park Association/Council on Postsecondary Accreditation). Graduates are immediately eligible to apply to become “Certified Park and Recreation Professionals,” a valuable credential for professional advancement.

When space is available, a student may change majors to one of the degree concentrations in the Department of Parks, Recreation and Tourism Management with a 2.0 cumulative grade-point average and approval of the department chair or his/her designee. Students are encouraged to speak with the PRMT advisor about changing their major prior to the start of their sophomore year to avoid a delay in graduation due to course sequencing and course prerequisite requirements.

Graduate degrees offered are Master of Parks, Recreation and Tourism Management; Master of Science; and Doctor of Philosophy.

COMMUNITY RECREATION, SPORT AND CAMP MANAGEMENT CONCENTRATION

The Community Recreation, Sport and Camp Management (CRRSCM) Concentration prepares students for careers in community recreation, amateur athletics, and camp management by developing theoretical, conceptual, and applied knowledge bases necessary for success in its diverse field. The focus of this program is on community, family, and individual development. Career opportunities include, but are not limited to, community recreation programming, community athletic programming, camp administration, facility operation and management, special events, campus recreation, and fitness and wellness programming.

PARKS AND CONSERVATION AREA MANAGEMENT CONCENTRATION

Students in Park Conservation Area Management (PCAM) prepare for work as park rangers, planners, educators, law enforcement officers, and administrators of our nation’s federal, state, and county public lands that hold unique natural, cultural, and historic resources. PCAM focuses on helping visitors enjoy and appreciate parklands while protecting those resources for future generations. Besides taking coursework in PRTM, many students choose to complete a minor field of study in forest resource management, wildlife and fisheries biology, history, or anthropology.

PROFESSIONAL GOLF MANAGEMENT CONCENTRATION

The Professional Golf Management (PGM) Concentration provides a unique educational background for students who desire to become PGA professionals. Students obtain specialized knowledge and skills which prepare them to become leaders in the golf industry. The PGM Concentration combines academics, career training, and extensive internship experience to develop well-rounded, service-oriented professionals who can meet and respond to the personal as well as business management requirements of golf programs and facilities. See advisor for new/additional General Education Requirements.

Students must take at least 31 additional credits of General Education as outlined in the Undergraduate Announcements General Education section. See your advisor for choosing general education requirements that meet the prerequisites for the Recreational Therapy concentration specific classes.

RECREATIONAL THERAPY
CONCENTRATION
The Recreational Therapy (RT) Concentration prepares students for exciting careers working with people with disabilities in a variety of settings, including community-based recreation agencies, camps, children’s hospitals, psychiatric and physical rehabilitation hospitals, and assisted-living facilities, to name a few. Recreational Therapy consists of the delivery of recreation services designed to enhance participants’ leisure experiences, quality of life, and functional capabilities. Students who complete these requirements will be eligible to sit for an examination to become a Certified Therapeutic Recreation Specialist (CTRS). Students take courses and preceptorships at the University Center and agencies in Greenville, SC and the surrounding area, during their junior year.

TRAVEL AND TOURISM
CONCENTRATION
The Travel and Tourism (T&T) Concentration prepares students for interesting and challenging careers working in one of the world’s most diverse and dynamic industries. Students in this concentration are introduced to issues pertaining to the management, planning, and promotion of places and events such as tourist attractions. The program is designed to provide an understanding of the linkages that exist between local communities, their populations, and various public, private, and special interest groups. Students in Travel and Tourism can pursue careers in private sector enterprises, government agencies, convention and visitor bureaus, as well as other tourism-affiliated organizations.

120 Total Semester Hours

Admission
Students who have completed a minimum of 60 credit hours, including all Clemson University General Education credits (33 hours) and approved electives (27 hours), are eligible for admission to the B.S. degree in Youth Development Studies. Students must initiate an application to Clemson University as a transfer student, and must have a cumulative grade point average of 2.5 on all prior college coursework to be eligible for admission. All students accepted into the program are required to attend an on-campus orientation program prior to starting the program.

Curriculum
As an upper-level degree completion program, the Youth Development Studies curriculum encompasses only core academic coursework and field experience in youth development and the approved concentration area. All required coursework, including prerequisite courses, youth development core courses, and approved concentration area courses, is designed to build a set of core competencies for effective youth workers. Required coursework is designed to facilitate the Ten Core Knowledge and Competencies for Afterschool and Youth Development Professionals as outlined by the National Afterschool Association (NAA) and National Institute on Out-of-School Time (NIOST).

First Year
First Semester
3 - YDP 3000 Youth Development in Society\(^3\)
3 - YDP 3050 Theory & Phil. of Youth Dev. Work

Second Semester
3 - YDP 3100 Youth Development and the Family
3 - YDP 3150 Community Youth Dev. Systems

Summer
3 - YDP 3200 Youth Development in Sport & Physical Activities
3 - YDP 3250 Working with Diverse Youth

Second Year

YOUTH DEVELOPMENT STUDIES
Bachelor of Science Degree Completion Program
The B.S. degree in Youth Development Studies is specifically designed as an upper-level degree completion program for professional youth workers who wish to complete a bachelor’s degree in youth development. As such, all classes are offered in the evenings and are delivered online using web-enhanced technologies. Classes are designed to be taken part-time and students are admitted in the fall and spring of each year.

The Youth Development Studies program equips students with the competencies, knowledge and skills necessary to help young people develop into healthy, competent, coping and contributing citizens. Through academic coursework and practical field-based experiences, the program integrates positive youth development theory with practical skills needed to design, deliver and assess intentional and effective youth-serving programs. Studies also prepare students for graduate work in a variety of youth-oriented fields, including programs such as Clemson University’s M.S. in Youth Development Leadership.

The term “youth development” encompasses a specific set of principles and practices that help to mold and shape the successful developmental processes of school-aged youth. These principles include a focus on building and strengthening the assets of young people, and emphasizing the strengths, abilities and potential of youth. Effective youth development programs are exemplified by supportive adult relationships, healthy and stimulating environments conducive to learning and skill attainment, availability of challenging programs and activities, and ample opportunity to engage young people in the process of their own development. Youth-serving organizations include those whose primary mission focuses on youth development, principally for young people and their families, during out-of-school time hours. Examples include afterschool programs, YH, YMCA/YWCA, Boys and Girls Clubs; health, fitness and sports programs; organized camping and mentoring programs; programs for children with disabilities; and faith-based ministries.

Program Objectives
The B.S. in Youth Development Studies (1) prepares entry- and mid-career level professional youth development leaders for careers in agencies, institutions, schools, and community organizations that serve youth; (2) enhances youth-serving agencies and organizations by supplying professionals who are competent in child and adolescent growth and development, and who understand the connections between problem-focused and positive youth development approaches to working with youth; (3) educates and empowers students to focus on strengths and assets within the context of culturally diverse family and community structures that promote positive youth development; (4) identifies and examines physical, emotional, cognitive, environmental and social issues related to being a young person in today’s society, and teaches students to provide programmatic and policy solutions to help solve pressing youth issues; (5) provides ethical leaders with skills necessary to effect change in complex and changing environments in their communities, in the State of South Carolina, and across the nation; (6) prepares students to design, deliver and evaluate intentional, outcomes-focused youth programs and services based on national best-practices; (7) creates a community of scholars and practitioners that enhances professional connections in the youth development field, and provides a forum for the development and maintenance of meaningful collaborations and partnerships with diverse individuals, families and community groups; (8) educates students in organizational behavior and how governance and youth development systems work; (9) prepares students to demonstrate flexibility, resilience, adaptability, caring, ethical decision-making and ethical conduct; and (10) connects students to professional development opportunities in youth development for continual growth and lifelong learning.
Second Semester
3 - YDP 4500 Prof. Issues & Ethics in Youth Dev.
3 - YDP 4990 Youth Development Fieldwork\(^2\) or
   3 - Concentration Requirement\(^3\)

Summer
6 - YDP 4990 Youth Development Fieldwork\(^2\) or
   6 - Concentration Requirement\(^3\)

Fourth Year
First Semester
3 - YDP 4990 Youth Development Fieldwork\(^2\) or
   3 - Concentration Requirement\(^3\)

Second Semester
3 - YDP 4550 Youth and Technology

\(^1\)YDP 3000 is also offered spring semester for students who transfer into the program at that time.
\(^2\)Completion of three to six credits of supervised hands-on fieldwork in a youth serving organization is required.
\(^3\)A concentration comprised of 12 to 15 credits of online Clemson University courses is required. The concentration area must be approved in advance, and courses are selected by the student in consultation with an advisor or program representative. Possible concentrations include Athletic Leadership, Camp Management, Event Management, and Nonprofit Leadership.
MINORS

Following are minors acceptable for students in the College of Health, Education and Human Development. Students cannot major and minor in the same field or acquire a minor that is not allowed by the degree program.

Accounting
Adult/Extension Education
Aerospace Studies
Agricultural Business Management
Agricultural Mechanization and Business
American Sign Language Studies
Animal and Veterinary Sciences
Anthropology
Architecture
Art
Athletic Leadership

See pages 40-43 for details.
CRIMINAL RECORDS CHECK

A criminal record check could prevent a person enrolled in a teacher education program in South Carolina from being licensed as a teacher in this state in accordance with State Board of Education guidelines.

Section 59-25-115 of the South Carolina Code of Laws specifies that before beginning the full-time clinical teaching experience in South Carolina, a teacher education candidate shall undergo a state criminal records check by the South Carolina Law Enforcement Division (SLED) and a national criminal records check supported by fingerprints by the Federal Bureau of Investigation (FBI). The applicant is responsible for the cost associated with the FBI background checks. Information reported relative to prior arrests or convictions will be reviewed by the State Department of Education, and the State Board of Education when warranted, according to board guidelines. A teacher education candidate with prior arrests or convictions of a serious nature that could affect his/her/herself to teach in the public schools of South Carolina may be denied the opportunity to complete the clinical teaching experience, and thus affect eligibility for initial teacher licensure. An individual who is denied this opportunity as a result of prior arrests or convictions, after one year, may request reconsideration under guidelines established by the State Board of Education.

The criminal records check will be handled through the Office of Educator Services at the South Carolina State Department of Education and will be considered phase one of a personal application for a teaching credential. Provided the criminal records check is conducted within 18 months of a time the teacher candidate formally applies for a teaching license, the fingerprinting will not have to be repeated at the time of application. A graduate of a teacher education program applying for initial teacher licensure must have completed the FBI fingerprint process within 18 months of formally applying for initial teacher licensure or the fingerprint process must be repeated. The background check normally requires six (6) to eight (8) weeks to process. If the electronic fingerprints cannot be processed, the South Carolina State Department will inform the individual that it will be necessary to complete another electronic fingerprinting appointment.

Additionally, School of Education teacher candidates must complete a SLED check, a National Sex Offender check and a Tuberculosis (TB) test prior to beginning field and practicum experiences in public schools. Candidates complete field and practicum experiences prior to the full-time clinical teaching experience. Therefore, the teacher education candidate will complete a SLED check for field and practicum experiences and a SLED and FBI background check for the full time clinical teaching experience.

ADMISSION

Professional—Application to the professional level of a program will be processed during the term in which a candidate is to complete 60 semester hours of work. At that time, the candidate will be notified of his/her status. Prior to admission, the candidate must have passed all areas of the Praxis CORE and have a minimum cumulative grade-point average of 2.75. A candidate may exempt the CORE by meeting minimum ACT or SAT requirements as determined by the South Carolina Department of Education.

ENROLLMENT IN PROFESSIONAL COURSES

Once admitted to the professional level, candidates must maintain a 2.75 GPA in order to continue through the coursework sequence. Please see the following pages for additional program-specific academic requirements. On occasion appeals may be reviewed by department chairs.

DIRECTED TEACHING/TEACHING INTERNSHIP—A candidate shall apply for student teaching with the Office of Field Experiences prior to the semester in which senior level teaching methods courses are to be scheduled. Admission and maintenance at the professional level and completion of at least 95 semester hours is required for registration to student teaching.

CHANGE OF MAJOR

Changing majors into Education is highly competitive. Change of major decisions are made on an annual basis at the end of the fall semester. Applications are due December 1 and can only be obtained after meeting with a School of Education academic advisor. Typically, candidates must have a minimum grade-point average of 2.75.

GRADUATION AND LICENSURE

To graduate, a candidate must have scores for all state-mandated licensure exams on file with the School of Education’s Office of Field Experience. Candidates must pass all required Praxis II tests, including the PLT (Principles of Learning and Teaching) test, before receiving recommendation for South Carolina teaching licensure.

ATHLETIC LEADERSHIP AND EDUCATION MINORS

Two minors are offered in the School of Education – Education and Athletic Leadership. For more information on these minors and the requirements, please see Minors, Programs and Degrees section of this catalog.

ATHLETIC LEADERSHIP CERTIFICATE

Students completing a nationally recognized coaching certification through the Athletic Leadership Program at Clemson may be eligible to meet the requirements for Athletic Leadership Certification. For more information, contact the Coordinator of Athletic Leadership at 864-656-0434.

GRADUATE STUDY

The School of Education offers a comprehensive set of programs at the masters, specialist and doctoral levels in preschool to grade 12 education, educational leadership, counselor education (clinical mental health counseling and school counseling), student affairs and higher education, and human resource development. Please see the Clemson University Office of Graduate Programs or School of Education websites for more information.
AGRICULTURAL EDUCATION

Bachelor of Science
The Eugene T. Moore School of Education and the College of Agriculture, Forestry and Life Sciences conduct a cooperative program to produce agricultural teachers (grades 9–12) for South Carolina. See page 44 for the curriculum.

EARLY CHILDHOOD EDUCATION

Bachelor of Arts
The Early Childhood Education curriculum prepares students for teaching positions on the pre-kindergarten and primary levels (Pre-K–3).

spring semester only.

SCIENCE TEACHING
The programs leading to a Bachelor of Arts or Bachelor of Science degree in Science Teaching are
accessed for students planning to teach biological sciences, chemistry, or physical sciences on the
secondary school level (grades 9–12). To be recommended for licensure, students must earn a grade of C
or higher in all required science content and education courses.

Double Majors in Science Teaching and Content Area
The Bachelor of Arts Degree in Science Teaching could result in a double major in Science Teaching and the select content area (Biological Sciences, Chemistry, or Physics). To receive a double major in Science Teaching and the selected content area, a Change of Academic Program form must be completed
to declare both majors. To achieve a double major, the appropriate plan of study listed under Science Teaching must be followed and all major requirements from both programs must be satisfied.

The double major prepares students for teaching science on the secondary level and graduate work in the respective content field.

3 - ANTH 2010 Introduction to Anthropology
3 - GEOG 1030 World Regional Geography
3 - BIOL 4610 Cell Biology
3 - EDF 3020 Educational Psychology
3 - EDSC 4370 Practicum in Secondary Science
3 - Ecology Requirement²
17
Second Semester
3 - BIOL 3350 Evolutionary Biology
3 - BIOL (EDSC) 4820 Laboratory Techniques for Teaching Science
3 - EDF 3510 Adolescent Growth and Development
3 - ENGL 3150 Scientific Writing and Comm.
3 - Functional Biology Requirement¹
15
Senior Year
First Semester
3 - COMM 1500 Intro. to Human Comm. or
1 - COMM 2500 Public Speaking
3 - EDSP 3700 Introduction to Special Education
3 - EDSC 4270 Teaching Secondary Science²
3 - EDLT 4980 Secondary Content Area Reading³
3 - Arts and Humanities (NonLit.) Requirement³
15
Second Semester
9 - EDSC 4470 Teaching Internship in Sec. Sci.¹⁰
3 - EDSC 4570 Sec. Science Capstone Seminar¹⁰
12
127–129 Total Semester Hours
¹Two semesters (through 2020) in any modern foreign language
(including American Sign Language) are required.
²STAT 2300 or 3090
³ENGL 2020, 2120, 2130, 2140 or 2150.
⁴One lecture course must be completed for both biochemistry
(BCHM 3010 or BCHM 3050) and for genetics (GEN 3000
or GEN 3020).
⁵One lecture and associated laboratory must be selected from
BIOL 3010, BIOL 3020/3060, BIOL 3030/3070, BIOL
3040/3080, BIOL 3200, BIOL 4060/4070, or BIOL
4250/4260.
¹⁰At least one selected from BIOL 4410, 4420, 4430, 4460, 4700,
or MICR 4630.
Second Semester
3 - ANTH 2010 Introduction to Anthropology or
3 - GEOG 1030 World Regional Geography
3 - BIOL (EDSC) 4820 Laboratory Techniques for Teaching Science
3 - EDF 3350 Adolescent Growth and Development
3 - Arts and Humanities (Literature) Requirement1
4 - Functional Biology Requirement6

***EDSC 4470 and 4570 must be taken concurrently. Offered spring semester only.

SECONDARY EDUCATION
The Bachelor of Arts degree in Secondary Education is available to students preparing to teach English, mathematics, or social studies on the secondary school level (grades 9-12). The teaching field should be selected as early as possible so appropriate freshman and sophomore courses may be taken.

Each curriculum may lead to a double major composed of the major concentration in the teaching field and the corresponding content major. To receive a double major in Secondary Education and the selected content area, a Change of Academic Program form must be completed to declare both majors. To achieve a double major, the appropriate plan of study under Secondary Education must be followed and all major requirements from both programs must be satisfied. Specific courses and sequences have been designated to meet requirements for those planning to teach. The professional education courses should be completed in sequence.

TEACHING AREA: ENGLISH
The Bachelor of Arts Degree in Secondary Education—English offers a double major in Secondary Education—English and English. To be recommended for licensure, students must earn a C or higher in all required English content and education courses.

Freshman Year
First Semester
3 - COMM 1500 Intro. to Human Comm. or
3 - COMM 2500 Public Speaking

SPECIAL EDUCATION

Bachelor of Arts

The Bachelor of Arts degree in Special Education prepares students to teach individuals with mild disabilities in grades P–12. The curriculum is designed to meet the competencies outlined by the Council for Exceptional Children for becoming special education teachers. Students completing the program receive instruction and practical experiences that lead to Multi-Categorical Special Education Licensure in South Carolina.

Freshman Year
First Semester
2 - ED 1050 Orientation to Education
3 - HIST 1240 Environmental History Survey or
   - HIST 1220 History, Technology, and Society
3 - MATH 1150 Contemporary Mathematics for
   Elementary School Teachers I
3 - Foreign Language Requirement
4 - Natural Science Requirement
15

Second Semester
3 - ENGL 1030 Accelerated Composition
3 - GEOG 1030 World Regional Geography
3 - MATH 1160 Contemporary Mathematics for
   Elementary School Teachers II
3 - Foreign Language Requirement
4 - Natural Science Requirement
16

Sophomore Year

   Collaboration in Special Education
12 - EDSP 4980 Directed Teaching in Special Ed.
122 Total Semester Hours

1 Two semesters (through 2020) in any modern foreign language, including American Sign Language, are required.
2 See General Education Requirements.
3 Any General Education course that satisfies the Mathematics.
4 Natural Science with Lab; or Mathematics or Natural Science
   General Education requirement may be substituted.
5 Select from ART 2100, MUSC 2100, THEA 2100, or any
   AAH, COMM (except 3640, 3680), ENGL (except 3040,
   3120, 3140, 3160, 3330, 4850, 4900, 4950), HUM, MUSC,
   PHIL, REL, THEA (except 3770, 4870, 4970), WS, or foreign
   language course numbered 3000 or higher.
6 See advisor. Students must complete a minimum of three hours
   each of United States history and European history, and six
   hours of non-Western history selected from 3000- or 4000-level
   HIST courses. At least one course must be at the 4000 level.
7 EDSC 4280, HIST 4900, and EDLT 4980 must be taken
   concurrently in the fall semester of the senior year.
8 EDSC 4480 and 4580 must be taken concurrently. Offered
   spring semester only.
9 EDSP 4950 and 4980 must be taken concurrently during the
   fall semester of the senior year.
MINORS

Following are minors acceptable for students in the Eugene T. Moore School of Education. Students cannot major and minor in the same field or acquire a minor that is not allowed by the degree program.

Accounting
Adult/Extension Education
Aerospace Studies
Agricultural Business Management
Agricultural Mechanization and Business
American Sign Language Studies
Animal and Veterinary Sciences
Anthropology
Architecture
Art
Athletic Leadership
Biochemistry
Biological Sciences—not open to Science Teaching–Biological Sciences majors
British and Irish Studies
Business Administration
Chemistry—not open to Science Teaching–Chemistry majors
Cluster
Communication Studies
Computer Science
Crop and Soil Environmental Science
Digital Production Arts
East Asian Studies
Economics
Education
English—not open to Secondary Education–English majors
Entomology
Entrepreneurship
Environmental Science and Policy
Equine Industry
Film Studies
Financial Management
Food Science
Forest Products
Forest Resource Management
Gender, Sexuality and Women’s Studies
Genetics
Geography
Geology
Global Politics
Great Works
History—not open to Secondary Education: Social Studies (History) majors
Horticulture
Human Resource Management
Legal Studies
Management
Management Information Systems
Mathematical Sciences—not open to Mathematics Teaching or Secondary Education–Mathematics majors
Microbiology
Military Leadership
Modern Languages
Music
Natural Resource Economics
Nonprofit Leadership
Nuclear Engineering and Radiological Sciences
Packaging Science
Pan African Studies
Park and Protected Area Management
Philosophy
Physics—not open to Science Teaching–Physical Sciences or Science Teaching–Physics majors
Plant Pathology
Political Science
Precision Agriculture
Psychology
Public Policy
Recreational Therapy
Religion
Russian Area Studies
Science and Technology in Society
Screenwriting
Sociology
Spanish-American Area Studies
Sustainability
Theatre
Travel and Tourism
Turfgrass
Urban Forestry
Wildlife and Fisheries Biology
Women’s Leadership
Writing

See pages 40-43 for details.
COURSES OF INSTRUCTION

This list includes for each course the subject abbreviation, catalog number, title, credit hours, class or laboratory hours per week, description, requirements and prerequisites.

4000/6000-Level Courses
4000-level courses with a 6000-level counterpart are identified with an asterisk. Students should refer to the Graduate Announcements for the 6000-level description and requirements.

Cross-Referenced Courses
A cross-referenced course is one that can be taken for credit under different departmental subjects. For example, students can take Herpetology for credit under different departmental subjects.

Cross-referenced courses are identified with an asterisk. Students should refer to the University calendar for adding a course.

ART AND ARCHITECTURAL HISTORY
Professor: W.W. Lew; Associate Professors: A.V. Feeseer, J.B. LeBlanc; Assistant Professor: K. Kourelis

AAH 1010 Survey of Art and Architectural History I 3 (3) Comprehensive survey of art and architectural history of Western heritage as well as significant coverage of Asian, African, Native American, and South American art. The arts are studied within the contexts of history, geography, politics, religion, and culture. Survey includes Ancient through Gothic. Includes Honors sections. Prev: AAH 1010.

AAH 2050 History and Theory of Art I 3 (3) First of a two-semester sequence on special topics and issues in the history of art. Emphasizes stylistic developments and specific art movements. Analyzes art within the larger context of social, political, and religious history. Examines art techniques and theory as they have developed. Includes Honors sections. Prev: AAH 1020.

AAH 2060 History and Theory of Art II 3 (3) Second of a two-semester sequence on special topics and issues in the history of art. Continued emphasis on stylistic developments and art movements, with specific attention directed toward post-Renaissance art. Analyzes the influence of past history on modern. Includes Honors sections. Prev: AAH 2050.

AAH 3050 Contemporary Art History 3 (3) Study of contemporary art from World War II to the present, exploring forces that have shaped various movements and directions. Prev: AAH 2060.
AAH 3300 Honors Colloquium 3 (0) Undergraduate honors colloquium emphasizing interdisciplinary interpretations. Focuses on an integration of art, architecture, landscape, and city planning. Prereq: AAH 2040 or AAH 2060.

AAH 3950 Special Topics in Visual Studies Abroad I 3 (3) On-site exposure to art and architecture in foreign countries, coupled with lectures and study problems. Different countries may be selected for study at faculty discretion. May be taught as a compact course during the academic year with a short stay in a foreign country or during summer with extended foreign experience. May not be taken Pass/No Pass. Prereq: AAH 2040 or AAH 2060.

AAH 4110* Directed Research in Art History I 3 (3) Comprehensive studies and research of special topics not covered in other courses. Emphasis is on field studies, research activities, and current developments in art history.

AAH 4120* Directed Research in Art History II 3 (3) Continuation of AAH 4110.

AAH 4240* Studies in the Art and Architecture of the Renaissance I 3 (3) Consideration of the visual arts and architectural monuments of the Renaissance (Western Europe from the 15th–18th centuries), with a study in depth of selected examples from the period. Prereq: AAH 2040 or AAH 2060.

AAH 4240* Studies in the Art and Architecture of the Renaissance II 3 (3) Consideration of the visual arts and architectural monuments of the Renaissance (Western Europe from the 15th–18th centuries), with a study in depth of selected examples from the period. Prereq: AAH 4240.

AAH 4300* Twentieth Century Art I 3 (3) Acquaints students with the major artists’ monuments and issues of the Modern period in art. Through lecture/discussions and the reading of primary sources, course places the major modern movements in the context of the period (1860–1945). Prereq: Consent of instructor.

AAH 4320* Twentieth Century Art II 3 (3) Overview of trends in art and architecture since World War II. Specific artists, artworks, and movements are presented in a socio/historic context, with specific emphasis on the transition from a late-modernist to a post-modern perspective. Prereq: Consent of instructor.

ACCOUNTING

ACCT 2010 Financial Accounting Concepts 3 (3) Introduction to accounting principles with emphasis on the use of financial data and analysis of financial statements. Includes Honors sections.

ACCT 2020 Managerial Accounting Concepts 3 (3) Introduction to managerial accounting with emphasis on using accounting information to make decisions. Includes Honors sections.

ACCT 3030 Cost Accounting 3 (3) Application of cost analysis to manufacturing and distributing problems; analysis of behavior characteristics of business costs and a study of principles involved in standard cost systems; lectures and problems. Includes Honors sections. Prereq: ACCT 2010 with a C or better.

ACCT 3110 Intermediate Financial Accounting I 3 (3) In-depth treatment of traditional financial accounting topics of standards setting, financial statement form and content, and accounting and reporting of current assets. Emphasizes basic theory, valuation, and measurement, as well as presentation and analysis of accounting information. Includes Honors sections. Prereq: ACCT 2010 with a C or better.

ACCT 3120 Intermediate Financial Accounting II 3 (3) Continuation of ACCT 3110. In-depth treatment of accounting and reporting for non-current assets, current and noncurrent liabilities, and equity. Emphasizes basic theory, valuation, and measurement issues, as well as presentation and analysis of accounting information. Includes Honors sections. Prereq: ACCT 3110 with a C or better.

ACCT 3130 Intermediate Financial Accounting III 3 (3) Continuation of ACCT 3120. In-depth treatment of selected accounting topics, such as investments, cash flows, tax allocation, post-retirement benefits, leases, and other corrections. Emphasizes basic theory, valuation, and measurement, as well as presentation and analysis of accounting information. Includes Honors sections. Prereq: ACCT 3120 with a C or better.

ACCT 3220 Accounting Information Systems 3 (3) Study of computer-based accounting systems with attention to systems design, application, internal audit, auditing the system, and system security. Prereq: ACCT 2180.

ACCT 3953 Creative Inquiry in Accounting 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. To be taken Pass/No Pass only. Prereq: Consent of instructor.

ACCT 3990 Internship in Accounting 1-3 (1-3) Faculty-supervised accounting internship designed to give students learning opportunities that support their classroom experiences. Requires a minimum of six full-time weeks. Course enrollment and internship must occur in the same semester. Simultaneous credit cannot be received for another internship offering. May be repeated for a maximum of three credits. To be taken Pass/No Pass only. Prereq: Junior standing and consent of instructor.

ACCT 4040* Individual Taxation 3 (3) Interpretation of Federal income tax laws, regulations, and court decisions with practice in application of these laws to the returns of individuals, partnerships, and corporations. Includes Honors sections. Prereq: ACCT 3110 with a C or better.

ACCT 4060 Business Taxation 3 (3) Introduction to the importance of taxation in business decision making. Emphasizes the interrelationship of taxes, the choice of business form, and various business transactions; exposes students to the breadth of business decisions which are affected by the Federal Income Tax. Prereq: ACCT 3110 with a C or better.

ACCT 4080 Retirement and Estate Planning 3 (3) Provides students with an understanding of the tax consequences of personal financial, retirement, and estate planning. Subjects include the basic concepts of retirement, gift, income shifting, and estate planning. Prereq: ACCT 4040 with a C or better.

ACCT 4100* Contemporary Reporting and Management Control Systems 3 (3) Application of analyses and management control systems for contemporary business needs, including sustainability reporting, lean systems, capacity management, performance measures and incentive measures and systems, and target costing. Prereq: ACCT 3030 with a C or better.

ACCT 4150 Auditing 3 (3) Study of professional and practical auditing theory. Includes a review of internal controls, audit procedures, and development of audit programs for various types of businesses. Considers auditors’ professional and ethical standards. Prereq: ACCT 3110 and ACCT 3220, each with a C or better.

AGRICULTURAL EDUCATION

Professor: T.R. Dobkins; Associate Professors: P.M. Fravel, K.D. Layfield

AGED 1000 Orientation and Field Experience 1 (2) Supervised observations and explanations of vocational agriculture teaching while serving as teacher aides. One full week of field experience in representative high schools is required.

AGED 1020 Agricultural Education Freshman Seminar 1 (2) Introduces students to the South Carolina agriculture education structure and provides opportunities to prepare oral presentations on selected agricultural education organizations. Assists students in understanding the value of professional organizations to agriculture education. May be taken Pass/No Pass only.

AGED 2010 Introduction to Agricultural Education 3 (2) Principles of education, development of agricultural education, and an introduction to the formulation of instructional programs for the teaching of agricultural courses. Conreq: AGED 2011.

AGED 2011 Introduction to Agricultural Education Laboratory 0 (3) Non-credit laboratory to accompany AGED 2010. Conreq: AGED 2010.
AGED 2020 Agricultural Education Sophomore Seminar 1 (2) Instruction on how to establish a comprehensive student record-keeping system. Includes integration of that data into the FFA Awards program. Allows students hands-on experience with the total FFA Awards program on the state and national level. Preq: AGED 1020.

AGED 2030 Teaching Agriscience 3 (2) Integrates biological and technological concepts appropriate for teaching introductory middle or secondary school-level courses in agricultural science. Topics emphasize disciplines, theories, and applications in modern agricultural production. Experiences include teaching techniques, materials, resources, and the design and implementation of new activities to facilitate teaching agriscience. Preq: BIOL 1040 and BIOL 1060. Coreq: AGED 2031.

AGED 2031 Teaching Agriscience Laboratory 0 (3) Non-credit laboratory to accompany AGED 2030. Coreq: AGED 2030.

AGED 2040 Applied Agriculture Calculations 3 (3) Demonstrates basic mathematical applications in crop and livestock production and agribusiness and financial management. These applications aid students in understanding the mathematical applications needed in the agriculture field.

AGED 3020 Agricultural Education Junior Seminar 1 (2) Allows students the opportunity to prepare and deliver information on Career Development Events (CDE) and to understand fully the CDE concepts. Students receive much needed hands-on experience at the state and national levels. Preq: AGED 2020.

AGED 3030 Mechanical Technology for Agriculture Education 3 (2) Study of technical content and new technology utilized in agriculture mechanics. Integrates agriculture mechanics topics such as electrical wiring and controls, green industry construction. Offers a delivery of mechanics instruction in the classroom and laboratory contexts. Coreq: AGED 3031.

AGED 3031 Mechanical Technology for Agriculture Education Laboratory 0 (3) Non-credit laboratory to accompany AGED 3030. Coreq: AGED 3030.

AGED 3550 Team and Organizational Leadership in the Food and Fiber System 3 (3) Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. Focuses on helping students better understand themselves and others; improving group communication; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies.

AGED 3650 Multiculturalism in Agricultural Education 3 (3) Investigation of the cultures (both domestic and foreign) commonly encountered by agriculture education professionals. Customs, traditions, beliefs, stereotypes, and myths are explored. Strategies for relationship building, impact, and successful interaction are developed for formal and informal agricultural learning environments. Preq: Junior standing.

AGED 4000 Supervised Field Experience II 1 (3) Special emphasis is placed on enhancing existing knowledge and experiences of the students. Primary focus is on becoming acquainted with the student teaching center well in advance of the customary twelve-week directed teaching experience.

AGED 4010* Instructional Methods in Agricultural Education 3 (2) Appropriate methods of teaching vocational agriculture in high schools. Includes procedures for organizing teaching programs, teaching high school students, and directing FFA activities. Coreq: AGED 4011.

AGED 4011* Instructional Methods in Agricultural Education Laboratory 0 (3) Non-credit laboratory to accompany AGED 4010. Coreq: AGED 4010.

AGED 4020 Agricultural Education Senior Seminar 1 (2) Provides an opportunity to prepare and deliver information on continuing adult education. Assists students in fully understanding the adult education component of the total Secondary Agriculture Education Program. Preq: AGED 3020.

AGED 4030* Principles of Adult/Extension Education 3 (3) Overview of adult/extension education and adult learning. Selection of adult education providers is reviewed with emphasis on extension. Preq: Junior standing.

AGED 4040 Directed Teaching 12 (36) Guided participation in the professional responsibilities of a teacher of vocational agriculture, including intensive study of the problems encountered and competencies developed. Twelve weeks of directed teaching in selected schools are required. Preq: AGED 4000 and AGED 4010.

AGED 4070 Internship in Extension and Leadership Education 6-12 (6-12) Internship placements may include county extension offices and other appropriate extension units. Six weeks of supervised experience must be completed for six hours of credit. Twelve weeks of supervised experience must be completed for 12 hours of credit. May be repeated for a maximum of 12 credits. Coreq: AGED 4000, AGED 4030 and Senior standing.

AGED 4120 Senior Agriculture Leadership Seminar 1-3 (1-3) Students study, individually or collectively, selected topics and/or problems in agricultural education to meet the particular needs of the clientele enrolled. May be repeated for a maximum of six credits.

AGED 4250* Teaching Agricultural Mechanics 2 (1) Instruction in organizing course content, conducting and managing an agricultural mechanics laboratory, shop safety, microteaching demonstrations of psychomotor skills, and methods of teaching manipulative abilities. Coreq: AGED 4251.

AGED 4251* Teaching Agricultural Mechanics Laboratory 0 (3) Non-credit laboratory to accompany AGED 4250. Coreq: AGED 4250.

AGED 4270* Special Studies in Agricultural Education 1-3 (1-3) Students study, individually or collectively, selected topics and/or problems in agricultural education to meet the particular needs of the clientele enrolled. May be repeated for a maximum of six credits.

AGED 4400 Program Development in Adult/Extension Education 3 (3) Principles, theory, and practice in planning and conducting educational programs in adult/extension settings. Preq: Junior standing.

AGED 4500* Modern Topics and Issues 3 (3) Students select a major area of concern to teachers of agriculture and county agents for intensive study at least one semester prior to offering the course. When feasible, team teaching with faculty from other departments in the College of Agriculture, Forestry and Life Sciences is utilized. Coreq: Senior standing.

AGED 4800* Foundations of Digital Media and Learning 3 (2) Critical use of digital media for leadership and learning within societal and educational contexts. Course focuses on learner impact while exploring, developing, and evaluating technology-enhanced applications. Further develops competencies with new media literacies and addresses societal, cultural, ethical, and participatory issues and uses of digital media. Coreq: AGED 4801.

AGED 4801* Foundations of Digital Media and Learning Laboratory 0 (2) Non-credit laboratory to accompany AGED 4800. Coreq: AGED 4800.

AGED 4810* Web Design for the Life Sciences and Agriculture 3 (2) Addresses basic principles and theories of Web design and site construction, including usability and accessibility considerations. Web and graphics design software are used to develop sites suitable for life science and agricultural organizations. Service-learning is used with student projects. Preq: AGED 2000 and CPSC 1200. Coreq: AGED 4811.

AGED 4811* Web Design for the Life Sciences and Agriculture Laboratory 0 (2) Non-credit laboratory to accompany AGED 4810. Coreq: AGED 4810.

AGED 4820* Advanced Educational Applications of Microcomputers 3 (2) Provides students with the knowledge and skills needed to apply microcomputer technology to the utilization and generation of educational software in accordance with sound educational principles. Preq: AGED 4800 or EDF 4800. Coreq: AGED 4821.

AGED 4821* Advanced Educational Applications of Microcomputers Laboratory 0 (2) Non-credit laboratory to accompany AGED 4820. Coreq: AGED 4820.
AGRICULTURAL MECHANIZATION

Professors: J.P. Chastain, Y.J. Han, A. Khalilian; Associate Professors: A. Jayakaran, C.V. Privette, III; Assistant Professors: D.R. Hitchcock, K.R. Kirk, C.B. Sawyer; Lecturer: H. Massey

AGM 1010 Introduction to Agricultural Mechanization and Business 1 (3) Introduces the Agricultural Mechanization and Business program. Gives an overview of the curriculum, introduces students to relevant extracurricular activities, exposes students to employment opportunities through alumni and interns, and helps students to prepare for careers relevant to the major.

AGM 2050 Principles of Fabrication 3 (2) Principles, techniques, and methods in the selection, proper use, and maintenance of hand and power tools. Principal topics include welding, tool fitting, met- alworking, woodworking, finishing and preserving, and heat treatment. Coreq: AGM 2051.

AGM 2051 Principles of Fabrication Laboratory 0 (3) Non-credit laboratory to accompany AGM 2050. Coreq: AGM 2050.

AGM 2060 Machinery Management 3 (2) Teaches agriculture students to apply physical principles and sound reasoning to the mechanization of modern agricultural production and processing enterprises. Stresses planning efficient operational systems and wise selection of equipment, based on function and economic suitability. Preq or concurrent enrollment: MATH 1020 or MATH 1060; and PHYS 2000 or PHYS 2070. Coreq: AGM 2061.

AGM 2061 Machinery Management Laboratory 0 (3) Non-credit laboratory to accompany AGM 2060. Coreq: AGM 2060.

AGM 2190 Agribusiness and Food Systems 3 (3) Provides a general introduction to the major activities associated with the movement of agricultural and food products from producers to consumers and the essential supply chain functions of buying, selling, transportation, storage, financing, standardized, pricing and risk bearing.

AGM 2210 Surveying: Earthwork and Area Measurements 3 (2) Fundamentals of surveying relative to earthwork and land area measurements, including linear measurements, leveling, angular measurements, and computations. Levels and total stations are used with an introduction to GPS. Preq or concurrent enrollment: MATH 1020 or MATH 1060. Coreq: AGM 2211.

AGM 2211 Surveying: Earthwork and Area Measurements Laboratory 0 (3) Non-credit laboratory to accompany AGM 2210. Coreq: AGM 2210.

AGM 3010 Soil and Water Conservation 3 (3) Soil and water management is studied by applying principles of mathematics, fluid flow, hydrology, and soil characteristics as related to soil-water-vegetation complexes in runoff, erosion control, channel design, water conservation, drainage, irrigation, stormwater best management practices and stream restoration. Preq or concurrent enrollment: MATH 1020 or MATH 1060.

AGM 3030 Calculations for Mechanized Agriculture 3 (2) Enhances students' ability to analyze and solve a wide range of problems requiring engineering technology. Laboratory periods introduce students to microcomputer hardware. Basic programming and typical applications to agricultural mechanization problems are included. Preq or concurrent enrollment: PHYS 2000 or PHYS 2070. Coreq: AGM 3031.

AGM 3031 Calculations for Mechanized Agriculture Laboratory 0 (3) Non-credit laboratory to accompany AGM 3030. Coreq: AGM 3030.

AGM 3190 Agribusiness Decision Analysis 3 (3) Improvement of the decision-making process in agricultural businesses through the use of decision-analysis software. Students build their own decision-making models using spreadsheets. Preq: AGM 2190 or AGRB 3020 or AGRB 3190 or MGT 2010.

AGM 3710 Agricultural Mechanization Practicum 1-3 (1-3) Pre-planned internship with an approved employer involved in agricultural technical or business endeavors. 130 hours of supervised responsibility are required per credit hour. A work journal, written/oral reports, company consent and evaluation must be on file. May be repeated for a maximum of twelve credits. To be taken Pass/No Pass only.

AGM 4000 Senior Seminar in Agricultural Mechanization and Business 1 (1) Seminar and project-based course providing information on a variety of topics to enhance the development of professionals in agricultural mechanization and business and in agricultural education. Topics include development of a professional resume, professional ethics, and current topics related to agricultural technology and systems management. Preq: Junior or senior standing in Agricultural Mechanization and Business or in Agricultural Education.

AGM 4020 Landscape Drainage and Irrigation 3 (2) Uses basic soil-water-plant relationships to determine the need for and methods of irrigation and drainage. Topics include irrigation methods, drainage needs and drainage methods. Preq or concurrent enrollment: AGM 3010, Coreq: AGM 4021.

AGM 4021 Landscape Drainage and Irrigation Laboratory 0 (3) Non-credit laboratory to accompany AGM 4020. Coreq: AGM 4020.

AGM 4050 Environmental Control in Animal Structures 3 (2) Design of environmental control systems for animal production facilities. Topics include effects of the thermal and chemical environment on animals, ventilation system design, thermal design of structural envelopes, design of heating, cooling, and lighting systems. Emphasis is on practical, energy-efficient applications to modern animal production facilities. Preq: AGM 3030 or AGRB 3010. Coreq: AGM 4051.

AGM 4051 Environmental Control in Animal Structures Laboratory 0 (3) Non-credit laboratory to accompany AGM 4050. Coreq: AGM 4050.

AGM 4060 Mechanical and Hydraulic Systems 3 (2) Study of power transmission systems for agricultural production emphasizing mobile equipment. Characteristics, requirements, and design of both V-belt drive and roller-chain drives are presented. Emphasizes hydraulic power transmission systems, including pumps, actuators, control devices, and hydraulic circuitry. Preq: AGM 2060; and PHYS 2000 or PHYS 2070. Coreq: AGM 4061.

AGM 4061 Mechanical and Hydraulic Systems Laboratory 0 (3) Non-credit laboratory to accompany AGM 4060. Coreq: AGM 4060.

AGM 4100 Precision Agriculture Technology 3 (2) Includes principles and hands-on application of technologies supporting precision agriculture. Topics include global positioning system (GPS), geographic information system software, variable rate technologies, collection of spatial data, automated guidance of equipment, spatial data mapping and analysis, remote sensing, and economic considerations. Preq: Junior standing. Coreq: AGM 4101.

AGM 4101 Precision Agriculture Technology Laboratory 0 (3) Non-credit laboratory to accompany AGM 4100. Coreq: AGM 4100.

AGM 4190 Agribusiness Innovation and Entrepreneurship 3 (3) Emphasis on assessing students' abilities as agribusiness entrepreneurs, evaluating the feasibility of a business idea, creating strategies for organizing and marketing the agricultural business, exploring pricing for products or services, developing capital needs and sound financial statements, and researching, developing, and writing a comprehensive plan for the business. May also be offered as ELE 4190. Preq: AGM 2190 or AGM 3190 or AGRB 3020 or AGRB 3190 or MGT 2010.

AGM 4520 Mobile Power 3 (2) Study of tractors, emphasizing internal combustion engines and support systems necessary for their proper functioning. Also considers application of power, maintenance, adjustment, and general repair. Preq: PHYS 2000 or PHYS 2070. Coreq: AGM 4521.

AGM 4521 Mobile Power Laboratory 0 (3) Non-credit laboratory to accompany AGM 4520. Coreq: AGM 4520.

AGM 4600 Electrical Systems 3 (2) Students in agriculture and related curricula study electric and other utilities on the farm and in the home. Emphasizes selection, installation, and maintenance of wiring systems, lighting systems, motors, controls, water systems, and waste disposal systems. Preq: Junior standing. Coreq: AGM 4601.

AGM 4601 Electrical Systems Laboratory 0 (3) Non-credit laboratory to accompany AGM 4600. Coreq: AGM 4600.

AGM 4720 Capstone 3 (2) Covers professional conduct, ethics, oral and written communication, and financial matters. Each student completes a comprehensive project on a technical subject. The results are given in a written report and oral presentation. Students use digital portfolio technology to assess their education. Coreq: AGM 4721.

AGM 4721 Capstone Laboratory 0 (3) Non-credit laboratory to accompany AGM 4720. Coreq: AGM 4720.
AGRB 2020 Agricultural Economics 3 (3) Analytical survey of the various subdivisions of agricultural economics, including farm organization, enterprise, land economics, marketing, farm prices, governmental farm policies, and the relation of agriculture to the national and international economy.

AGRB 2050 Agriculture and Society 3 (3) Introduction to the development of world society focusing on food production, from early hunting and gathering to modern biotechnology. Covers factors driving societal growth with a global perspective. Explores systematic impacts of growth in technical capacity to produce agricultural products on farm and community organization, industrialization, and the global economy.

AGRB 2570 Natural Resources, Environment and Economics 3 (3) Economic principles applied to resource allocation problems related to environmental and natural resource issues.

AGRB 3020 Economics of Farm Management 3 (3) Economic principles underlying the organization and operation of agricultural firms and related business enterprises. Particular emphasis is placed on management aspects of the farm as a production unit. Preq: AGRB 2020 or ECON 2110.

AGRB 3090 Economics of Agricultural Marketing 3 (3) General course in marketing agricultural commodities with particular emphasis upon firm products. Analyzes efficiency criteria, consumer behavior, market organizations and institutions, and marketing functions. Includes Honors sections. Preq: AGRB 2020 or ECON 2000 or ECON 2110.

AGRB 3130 Principles of Real Estate Appraisal 3 (3) Introduction to basic principles and procedures of real estate appraisal. Topics include the real estate market, principles of valuation, legal concepts, and the application of the comparable sales, cost, and income approaches to real estate valuation. Preq: FIN 3070.

AGRB 3190 Agribusiness Management 3 (3) Study of the principles used in making management decisions and the application of these principles in agribusiness. Emphasizes the application of economics to the solution of problems facing managers of agricultural supply and marketing firms. Preq: AGRB 3020.

AGRB 3510 Principles of Advertising 3 (3) Introduction to the various functions of advertising: research and audience analysis; various media formats; planning, research, and production necessary to create an advertising campaign; social effects, economic effects, and ethical considerations of advertising.

AGRB 3520 Public Finance 3 (3) Principles of financing government, sources of public revenue, objects of public expenditures, problems of fiscal administration, and the application of fiscal policies in stabilizing the national economy. Preq: Junior standing.

AGRB 3570 Natural Resources Economics 3 (3) Principles and problems involved in the use of soil, water, forest, and mineral resources, with special emphasis on economic aspects of alternative methods of resource utilization. Preq: AGRB 2020 or ECON 2000 or ECON 2110.

AGRB (HLTH) 3610 Introduction to Health Care Economics 3 (3) Introductory course in which students learn the basic economics of the institutions comprising the health-care industry. Topics include the underlying supply, demand, and institutional factors impacting health-care availability and cost of health care. May also be offered as HLTH 3610.

AGRB 4020* Production Economics 3 (3) Economic analysis of agricultural production involving the concept of the farm as a firm; principles for decision making; the quantitative nature and use of production and cost functions and the interrelationships and applications of these principles to resource allocation in farms and among areas. Preq: AGRB 3060; and ECON 3060 or ECON 3140.

AGRB 4080 Quantitative Applied Economics 3 (3) Regression analysis, linear programming, and risk efficiency analysis techniques are presented and applied to agribusiness firms to improve firm economic efficiency. Microcomputer optimization and statistical software packages are utilized to develop a firm's level strategic plan to achieve efficient agribusiness outcomes in uncertain economic environments. Preq: STAT 2300.

AGRB 4090 Commodity Futures Markets 3 (3) Introduction to the economic theory, organization, and operating principles of agricultural commodity futures markets in the United States. Emphasizes speculating, hedging, and investing in agricultural commodity futures contracts from the standpoint of the agribusiness entrepreneur. Preq: AGRB 2020 or ECON 2110.

AGRB 4110* Regional Impact Analysis 3 (3) Techniques for analysis of the growth and decline of regions, including economic-base theory, shift share, regional input-output, regional econometric models, and fixed impact models. Preq: AGRB 2020; or both ECON 2110 and ECON 2120.

AGRB 4130* Advanced Real Estate Appraisal 3 (3) Topics include highest and best use analysis, data collection, and analyses. Stresses advanced appraisal procedures for income, cost, and comparable sales approach to real estate valuation. Covers eminent domain, the appraisal of property in transition, and specialized property. Preq: AGRB 3130 or FIN 3070.

AGRB 4210* Globalization 3 (3) Utilizes basic principles of international economics (comparative advantage, free trade versus protectionism, exchange rate determination, etc.) to analyze the contemporary problems and issues of the world economy. Emphasizes application of economic principles to current globalization trends. Preq: AGRB 2020 or ECON 2000 or ECON 2110.

AGRB (PEO) 4260* Cropping Systems Analysis 3 (2) Application of agronomic and economic principles in solving problems related to the production and marketing of agronomic crops. Major part of the course is a case study in which detailed analysis of a farm, agribusiness, or environmental situation is made with students making written and oral presentations of results. May also be offered as PES 4260. Preq: PES 3140; and Junior standing; and AGRB 2020 or ECON 2000 or ECON 2110. Coreq: AGRB 4261.

AGRB (PES) 4261* Cropping Systems Analysis Laboratory 0 (1) Non-credit laboratory to accompany AGRB 4260. May also be offered as PES 4261. Coreq: AGRB 4260.

AGRB 4520* Agricultural Policy 3 (3) Review of public agricultural policy programs in the United States and a critical examination of current and proposed government policies and programs affecting the agricultural sector of the economy. Includes economic considerations as related to past and current farm price and income problems. Includes Honors sections. Preq: AGRB 2020 or ECON 2000 or ECON 2110.

AGRB 4560* Prices 3 (3) Review of the basic theory of price under competitive conditions and various modifications; nature, measurement, and causes of daily, seasonal, and cyclical price fluctuations; geographical price relationships; nature, function, and behavior of futures markets; government price programs. Includes Honors sections. Preq: AGRB 3080 or ECON 4050; and ECON 3060 or ECON 3140.

AGRB (ECON) 4570 Natural Resource Use, Technology and Policy 3 (3) Focuses on economic analyses of actual, efficient, and sustainable uses of natural resources, impacts of technologies that affect these uses, and policies that affect development and use of such technologies. Resource-technology-policy combinations may vary, but an example is crude oil, hybrid automotive engines, and fuel economy standards. May also be offered as ECON 4570. Preq: MATH 1020 or MATH 1060; and AGRB 3570 or ECON 3140.

AGRB 4600* Agricultural Finance 3 (3) Study of the principles and technique of financing in the agricultural sector. Topics include the capital situation in agriculture, concepts of farm financial management, use of credit, capital markets, lending agencies, and estate planning. Preq: ACCCT 2010; and AGRB 2020 or ECON 2000 or ECON 2110.

<tr>
<td>AL 3490</td>
<td>Principles of Coaching 3</td>
<td>Includes technical strategies, and current issues related to coaching. Preq: AL 3490 or BIOL 2200.</td>
</tr>
<tr>
<td>AL 3500</td>
<td>Scientific Basis of Coaching I</td>
<td>Increases understanding of basic scientific information concerning athletic performance by using the conceptual approach. Preq or concurrent enrollment: AL 3500 or BIOL 2200.</td>
</tr>
<tr>
<td>AL 3510</td>
<td>CPR/AED for Athletic Coaches 1</td>
<td>In this course, those with a duty to act learn the skills needed to respond appropriately to cardiac and breathing emergencies. Preq: Junior standing.</td>
</tr>
<tr>
<td>AL 3520</td>
<td>Coaching Basketball 1</td>
<td>Increases understanding of basic technical and practical information concerning the coaching of basketball by utilizing the conceptual approach. Preq: Completion of or concurrent enrollment in AL 3490; or junior standing with a minimum GPA of 2.3.</td>
</tr>
<tr>
<td>AL 3530</td>
<td>Theory of Prevention and Treatment of Athletic Injuries 2</td>
<td>Increases understanding of principles involved in the prevention and treatment of athletic injuries. Preq: AL 3520 or BIOL 2200.</td>
</tr>
<tr>
<td>AL 3531</td>
<td>Theory of Prevention and Treatment of Athletic Injuries Laboratory 0</td>
<td>Non-credit laboratory to accompany AL 3530.</td>
</tr>
<tr>
<td>AL 3532</td>
<td>Physics of Coaching 3</td>
<td>Increases understanding of basic scientific information concerning athletic movement by utilizing the conceptual approach. Preq or concurrent enrollment: AL 3500 or BIOL 2200 or BIOL 2230.</td>
</tr>
<tr>
<td>AL 3533</td>
<td>Psychology of Coaching 3</td>
<td>Increases understanding of basic scientific information concerning athletic movement by utilizing the conceptual approach. Preq or concurrent enrollment: AL 3520 or BIOL 2200 or BIOL 2230.</td>
</tr>
<tr>
<td>AL 3534</td>
<td>Athletic Injuries 3</td>
<td>Increases understanding of basic technical and practical information concerning the coaching of basketball by utilizing the conceptual approach. Preq: Completion of or concurrent enrollment in AL 3490; or junior standing with a minimum GPA of 2.3.</td>
</tr>
<tr>
<td>AL 3535</td>
<td>Coaching Football 1</td>
<td>Increases understanding of basic technical and practical information concerning the coaching of football by utilizing the conceptual approach. Preq: Completion of or concurrent enrollment in AL 3490; or junior standing with a minimum GPA of 2.3.</td>
</tr>
<tr>
<td>AL 3536</td>
<td>Coaching Soccer 1</td>
<td>Increases understanding of basic technical and practical information concerning the coaching of soccer by utilizing the conceptual approach. Preq: Completion of or concurrent enrollment in AL 3490; or junior standing with a minimum GPA of 2.3.</td>
</tr>
<tr>
<td>AL 3537</td>
<td>Coaching Strength and Conditioning 1</td>
<td>Increases understanding of basic technical and practical information concerning the coaching of strength and conditioning by utilizing the conceptual approach. Preq: Completion of or concurrent enrollment in AL 3490; or junior standing with a minimum GPA of 2.3.</td>
</tr>
<tr>
<td>AL 3538</td>
<td>Coaching Track and Field 1</td>
<td>Increases understanding of basic technical and practical information concerning the coaching of track and field by utilizing the conceptual approach. Preq: Completion of or concurrent enrollment in AL 3490; or junior standing with a minimum GPA of 2.3.</td>

Courses of Instruction

ANTH 2010 Introduction to Anthropology 3 (3) Focuses on basic themes in Japanese culture and society. Studies of humans as biological organisms. Examines human evolution, primate social behavior, human physiological variations and disease resistance, and human skeletal anatomy and forensics. May also be offered as BIL 3510. Coreq: ANTH 2010 or BIOL 1100.

ANTH (BIL) 3530 Forensic Anthropology 3 (3) Introduces forensic anthropology, the science that utilizes methods from skeletal biology and archaeology as tools in human identification in a medicolegal context. May also be offered as BIL 3530. Coreq: Junior standing.

ANTH (LANG) 3710 Language and Culture 3 (3) Surveys key topics, theories, and methodological approaches in linguistic anthropology. Examines the complex relationships among language, culture, and communicative behavior and provides students with conceptual tools that inform the study of languages in their cultural contexts. May also be offered as LANG 3710.

ANTH 4030 Qualitative Methods 3 (3) Methods and techniques of qualitative field research, including participant observation, ethnographic interviewing, data analysis, and report writing. Prereq: ANTH 2010.

ANTH 4040 Anthropological Theories 3 (3) Examines various anthropological theories and their utility in explaining contemporary global issues. Students read, discuss, and compare original theoretical works, and synthesize ideas through class discussions and debates. Course is offered every other year.

ANTH (JAPN) 4170 Japanese Culture and Society 3 (3) Examines basic cultural values and the patterns of Japanese social life. Focuses on Japanese social organization and interpersonal dynamics, including the family system, gender identities, social exchanges and networks. All readings and discussions are in English. May not be used to satisfy general foreign language requirements. May also be offered as CHIN 4180.

ANTH (WS) 4230* Women in the Developing World 3 (3) Comparative anthropological study of women and their status in developing countries around the world. A survey of women’s daily lives in a global context, emphasizing education, economics, and the environment. Case studies include microfinance, literacy, reproductive rights and practices, and the impact of religious fundamentalism on women. May also be offered as WS 4230. Prereq: Sophomore standing.

ANTH (BIL) 4510 Biological Variation in Human Populations 3 (3) Provides an in-depth discussion of the most influential topics in human skeletal biology. Course explores the history and ethical dilemmas of the field, and examines how biological anthropologists use skeletons to reconstruct patterns of diet, disease, demography and physical identity in human populations. May be offered as BIL 4510. Prereq: ANTH 2010.

ANTH 4530 Human Remains Recovery 3 (3) Provides an introduction to forensic anthropological field methods. Students locate, excavate, and recover simulated human remains, associated artifacts, and other materials from both surface scatters and simulated clandestine graves. Students also learn the basics of human identification using simulated skeletal remains. Prereq: Consent of instructor.

ANTH (BIL) 4660 Evolution of Human Behavior 3 (3) Familiarizes students with the evolutionary basis of human behavior. Examines topics such as altruism, cooperation, mating systems, parental investment, and social systems using diverse examples, from hunter-gatherer to technological societies. May also be offered as BIL 4660. Prereq: ANTH 3510 or BIL 3350 or BIOL 4700 or BIOL 6700 or PSYC 2010.

ANTH (BIL) 4740* Primatology Laboratory 0 (3) Non-credit laboratory to accompany ANTH 4740. May also be offered as BIL 4740. Coreq: ANTH 4740.

ANTH 4950 Field Studies 1-6 (1-6) Group field project in settings selected by the instructor to provide students with a variety of exposures to various cultural contexts. Archaeological digs are included. Project progress and student interpretations of findings are monitored by periodic group meetings and shared experiences. May be repeated for a maximum of six credits. Prereq: Consent of instructor.
ANTH 4960 Creative Inquiry 1-3 (1-3) Investigates topics in anthropology selected by faculty and students. Goals, research, and outcomes vary from semester to semester and project to project. May be repeated for a maximum of 12 credits. Prq: ANTH 2010 and consent of instructor.

ANTH 4980 Independent Study 1-3 (1-3) Individual readings or projects in anthropological areas not covered in other courses. May be repeated for a maximum of six credits with advisor’s approval. Prq: ANTH 2010 and consent of instructor.

ANTH 4990 Special Topics 1-3 (1-6) Anthropological topics of special interest are explored. May be repeated for a maximum of six credits if different topics are covered.

ARABIC
Lectures: S. Alousamra

ARAB 1000 Introduction to Arabic Conversation and Comprehension 3 (3) Introduction to the Arabic language and its different dialects and cultures. Also prepares students who wish to travel to Arabic speaking countries.

ARAB 1010 Elementary Arabic I 4 (3) Introductory course for beginners emphasizing acquisition of the Arabic alphabet and writing, basic grammar, vocabulary, speaking and listening skills, and developing strategies for the successful long-term acquisition of Arabic. Coreq: ARAB 1110.

ARAB 1011 Elementary Arabic I Laboratory 0 (1) Non-credit laboratory to accompany ARAB 1010. Coreq: ARAB 1010.

ARAB 1020 Elementary Arabic II 4 (3) Continuation of ARAB 1010 consisting of three hours a week of classroom instruction and one hour a week in the language laboratory. Prq: ARAB 1010. Coreq: ARAB 1021.

ARAB 1021 Elementary Arabic II Laboratory 0 (1) Non-credit laboratory to accompany ARAB 1020. Coreq: ARAB 1020.

ARAB 2011 Intermediate Arabic I Laboratory 0 (1) Non-credit laboratory to accompany ARAB 2010. Coreq: ARAB 2010.

ARAB 2021 Intermediate Arabic II Laboratory 0 (1) Non-credit laboratory to accompany ARAB 2020. Coreq: ARAB 2020.

ARAB 3050 Intermediate Arabic Conversation and Composition 3 (3) Practice in modern standard Arabic with emphasis on vocabulary, pronunciation, intonation and comprehension. Includes written work to increase accuracy and assignments in the language laboratory. Prq: ARAB 2020.

ARCHITECTURE

ARCH 1010 Introduction to Architecture 3 (3) Introduction to the discipline and profession of architecture. Lectures and discussion cover a broad range of architectural issues throughout history. Emphasizes the relationship between architecture and other disciplines as well as across cultures. Includes the development of individual design portfolio.

ARCH 1510 Architecture Communication 5 (2) Introduction to principles and elementary vocabulary of architectural design. Collaborative studio which offers instruction in the specific skills of formal design composition, visual communications, oral presentation, and computer literacy. Prq: ARCH 1010. Coreq: ARCH 1511.

ARCH 1511 Architecture Communication Laboratory 0 (6) Non-credit laboratory to accompany ARCH 1510. Coreq: ARCH 1510.

ARCH 1520 Collaborative Studio I 3 (1) Continuation of ARCH 1510. Introduction to an elementary vocabulary of architecture within basic design problems, emphasizing visual communications skills, oral presentations of work, and analysis and discussion of design issues through critical readings of canonical texts and buildings.

ARCH 1521 Collaborative Studio II 3 (1) Continuation of ARCH 1520. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 18 credits. Prq: ARCH 1520. Coreq: ARCH 1521.

ARCH 2510 Architecture Foundations II 6 (2) Continuation of ARCH 2510. Architectural design problems with a focus on structural and construction principles and their relationship to contextual situations. Instruction in oral communication skills and computer graphics support the design discussions. Prq: ARCH 2510. Coreq: ARCH 2521.

ARCH 2521 Architecture Foundations II Laboratory 0 (10) Non-credit laboratory to accompany ARCH 2520. Coreq: ARCH 2520.

ARCH 2700 Structures I 3 (3) The study of statically determinate structural elements and systems including load tracing through physical modeling and theoretical and analytical analysis, the interrelationship between stress and strain, stability and the implication of tension, compression, shear torsion and bending. Prq: PHYS 2070 and PHYS 2090.

ARCH 2710 Structures II 3 (3) The study of force distributions and behavior in building structures constructed of reinforced concrete, steel and wood. Exploration of typical building components including beams, slabs, columns and foundations and how they are used in high-rise and long span structural design. Prq: ARCH 2700 or CSM 2100.

ARCH 3510 Studio Clemson 6 (1) Addresses architectural problems with varied scales, programs, and locations. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 18 credits. Prq: ARCH 2520. Coreq: ARCH 3510.

ARCH 3511 Studio Clemson Laboratory 0 (11) Non-credit laboratory to accompany ARCH 3510. Coreq: ARCH 3510.

ARCH 3520 Studio Charleston 6 (1) Addresses architectural problems with varied scales and programs in the context of Charleston, South Carolina. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 12 credits. Prq: ARCH 3520. Coreq: ARCH 3521.

ARCH 3521 Studio Charleston Laboratory 0 (11) Non-credit laboratory to accompany ARCH 3520. Coreq: ARCH 3520.

ARCH 3530 Studio Genoa 6 (1) Addresses architectural problems with varied scales and programs in the context of Genoa, Italy, and historic Europe. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Design problems vary every semester according to current issues. Continued development of graphic and oral communication skills. May be repeated for a maximum of 12 credits. Prq: ARCH 3520. Coreq: ARCH 3531.

ARCH 3531 Studio Genoa Laboratory 0 (11) Non-credit laboratory to accompany ARCH 3530. Coreq: ARCH 3530.
ARCH 3540 Studio Barcelona 6 (1) Addresses architectural problems with varied scales and programs in the context of Barcelona, Spain. Emphasizes the relationship between architecture and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of 12 credits. Prereq: ARCH 2520. Coreq: ARCH 3541. 

ARCH 3541 Studio Barcelona Laboratory 0 (11) Noncredit laboratory to accompany ARCH 3540. Coreq: ARCH 3540. 

ARCH 3550 Studio South 6 (1) Addresses architectural problems with varied scales and programs in the context of the South. Emphasizes the relationship between architecture, community, and context. Projects include analysis, conceptual development, and architectonic resolutions. Continued development of graphic and oral communication skills. Design problems vary every semester according to current issues. May be repeated for a maximum of twelve credits. Prereq: ARCH 2520. Coreq: ARCH 3551. 

ARCH 3551 Studio South Laboratory 0 (11) Noncredit laboratory to accompany ARCH 3550. Coreq: ARCH 3550. 

ARCH 4010 Architectural Portfolio 3 (3) Continues portfolio development for Architecture students, including professional portfolio, academic portfolio, and digital portfolio. Prereq: ARCH 2520. 

ARCH 4030 The Modern Architectural Movement 3 (3) Seminar in the analysis and criticism of architectural and town building works. Course sequence includes historic and contemporary examples, literary searches, field trips, essays, and oral reports. Prereq: Senior standing. 

ARCH 4040 Current Directions in Architecture 3 (3) Critical analysis of the development and current directions of modern movements in architecture. Prereq: Senior standing. 

ARCH 4050 American Architectural Styles 1650–1980 3 (3) Survey of American architectural styles and of the architects responsible for them, from the Colonial period to our recent past. Considerable emphasis is placed on identifying those architectural elements which serve as clues in determining a building’s architectural style. 

ARCH 4120 Architectural History Research 3 (3) Directed investigations related to the art and architectural history of Europe. May be repeated for a maximum of six credits. Prereq: Junior standing. 

ARCH 4140 Design Seminar 3 (3) Exploration of topical issues in architecture, art, construction, and planning. May be repeated for a maximum of six credits. Prereq: Junior standing. 

ARCH 4160 Field Studies in Architecture and Related Arts 3 (3) Documentation and analysis of architectural structures observed during European travels in graphic and written form. May be repeated for a maximum of six credits. Prereq: Junior standing. 

ARCH 4210 Architectural Seminar 3 (3) Lectures and seminars dealing with pertinent topics related to environmental and technological considerations in architecture and the building industry. Prereq: Senior standing. 

ARCH 4240 Product Design 3 (9) Furniture and product system design with emphasis on ergonomics and the relationship of form and materials. Prereq: Senior standing. 

ARCH 4250 Energy in Architecture 3 (3) Climate design methodology and its influence on building energy patterns and architectural form. Prereq: Senior standing and consent of instructor. 

ARCH 4260 Architectural Color Graphics 3 (3) Architectural color graphics by computer. Theories of color classification and interaction; application of color theories to art and architecture. Prereq: Consent of instructor. 

ARCH 4270 Advanced Color Graphics 3 (3) Theories of color classification and interaction; three-dimensional color modeling by computer; advanced application of color theories to art and architecture. Prereq: ARCH 4260. 

ARCH 4280 Computer-Aided Design 3 (2) Introduction to the concepts, skills, and applications of computer-aided design as they relate to the practice of architecture. Prereq: Senior standing. Coreq: ARCH 4281. 

ARCH 4281 Computer-Aided Design Laboratory 0 (3) Noncredit laboratory to accompany ARCH 4280. Coreq: ARCH 4280. 

ARCH 4290 Architectural Graphics 3 (3) Provides students with an understanding of the concept, skills, techniques, and strategies of visual presentation/graphics as they relate to the design professions—architects/landscape architects. Prereq: Junior standing. 

ARCH 4300 Theories and Philosophies of Technology and Architecture 3 (3) Theoretical and practical examination of technology and architecture from pre-modern and modern viewpoints to study its nonneutral role in shaping and reflecting knowledge, beliefs, and actions within a cultural context. 

ARCH 4410 New York Field Study 3 (3) Study of architecture, art, planning, and urban design of New York. Two weeks of residence are required with scheduled field trips to relevant sites in all five boroughs, with counseling to determine research interests. Guidance is provided to resources in the city. A final report is required. Offered in the summer only. 

ARCH 4520 Synthesis Studio 6 (1) Integrates acquired skills, abilities, and interests from previous architecture studios. Projects emphasize the accumulation of architectural experiences and knowledge. Prereq: Senior standing. Coreq: ARCH 4521. 

ARCH 4521 Synthesis Studio Laboratory 0 (11) Noncredit laboratory to accompany ARCH 4520. Coreq: ARCH 4520. 

ARCH 4710 Architectural History of Place 3 (3) Survey of urban design and architectural history using examples viewed in a particular locale. Emphasizes an overview survey of design movements identifying specific design elements and understanding how they are used in shaping place. Course is offered only during the summer at study abroad locations. Prereq: ARCH 1010. 

ARCH 4720 Architectural Field Studies 3 (1) Students develop diagramming and writing skills and use them to document and analyze existing works of urban design and architecture observed during field trips. Course is only offered during the summer at study abroad locations. Prereq: ARCH 1010. Coreq: ARCH 4721. 

ARCH 4721 Architectural Field Studies Laboratory 0 (6) Noncredit laboratory to accompany ARCH 4720. Coreq: ARCH 4720. 

ARCH 4770 Introduction of Craft 1-3 (1-3) Architectural craft lab offered under different material specializations, all of which introduce students to design as informed by craft through a hands-on lab. Basic craft operations and material properties are introduced for the subject material (wood, steel, etc.) May be repeated for a maximum of six credits. 

ARCH 4850 History and Theory of Architecture + Health 3 (3) Introduces relationships between health and architectural settings for health. Examines connections between cultural context, medical thought, healthcare delivery, and health facility design within different time periods. Introduces contemporary theories on the relationship between human beings, their health and wellbeing, and the design of the physical environment. Prereq: Consent of instructor. 

ARCH 4880 Architectural Programming and Predesign 3 (3) Introduces the theory, mechanics, and practice of architectural programming and post-occupancy evaluation. Presents programming as a means to create architectural settings sensitive to the needs of their inhabitants. Emphasizes collaborative methodologies that involve identifying relevant goals, facts, issues, needs, and concepts. Students develop an architectural program. Prereq: Consent of instructor. 

ARCH 4980 Internship 1-6 (1-6) Practicum in professional practice. Paid work/study in a variety of related disciplines provides students with hands-on experience in design and fabrication fields relevant to the environmental design professions. Consists of two parts: a professional component, managed by an approved sponsor, and an academic component, taught by the instructor. May be repeated for a maximum of 18 credits. Prereq: Consent of instructor and acceptance by sponsor. 

ARCH 4990 Directed Studies 1-5 (1-5) Comprehensive studies and research of special topics not covered in other courses. Emphasis is on field studies, research activities, and current developments in architecture. May be repeated for a maximum of ten credits. Includes Honors sections. Prereq: Consent of department chair. 

ARCH 4990 Selected Topics in Architecture 1-3 (1-3) Study of selected topics in architecture. May be repeated for a maximum of nine credits, but only if different topics are covered. Includes Honors sections. Prereq: Junior standing.
ART

Professors: A.V. Feerer, D.M. Detrich, G.W. Shelnutt, Chair; Associate Professors: D. Donar, C.N. Hung, T. McDonald, A. Wrangle; Assistant Professors: B.A. Lauritis, K. Thum, V.A. Zimany; Assistant Professors: J.R. Manson, D.C. Woodward-Detrich; Lecturer: L. Dorsey

ART 1030 Visual Arts Studio 3 (6) Studio projects in basic visual elements and principles. The development of creative design process, visual organization, and design skills are introduced as a foundation for further study in visual arts.

ART 1050 Foundation Drawing I 3 (3) Introduction to drawing. Presents exploration of observational drawing practices with an emphasis on structural investigations of form and application of spatial systems. Basic materials and approaches associated with drawing are studied and applied. Preq: Visual Arts major.

ART 1060 Foundation Drawing II 3 (3) Further exploration of introductory drawing. Emphasizes use of tone and color. Students work primarily with representational categories, developing comprehension of complex forms and spaces in relation to the 2-D planes. Includes use of rigorous observational drawing practices in conjunction with thematic efforts. Preq: ART 1050 or ART 1510.

ART 1510 Foundations in Visual Art I 3 (6) Intensive introduction to the fundamentals of visual art. Studio projects, lectures, and discussions introduce topics and projects relative to foundation-level art students. Explores historical and contemporary applications of the elements and principles of design. Preq: Visual Arts major.

ART 1520 Foundations in Visual Art II 3 (6) Intensive introduction to the fundamentals of visual art. Studio projects, lectures, and discussions introduce topics and projects relative to foundation-level art students. Explores historical and contemporary applications of the elements and principles of design. Preq: Visual Arts major.

ART 1530 Orientation to Visual Art II 1 (1) Introduction to the visual art profession focusing on issues related to various career opportunities, creativity, problem-solving methodologies, and current thinking in contemporary art. Preq: Visual Arts major.

ART 2050 Beginning Life Drawing 3 (6) Primary emphasis is on drawing from the live model. Students’ drawing skills and fundamental understanding of the structure and form of the human figure are reviewed through studio practice, augmented by lectures, discussions, demonstrations, and critiques. Addresses historical and contemporary use of the human figure in visual arts. Preq: ART 1060 or ART 1510 or ART 1520.

ART 2070 Beginning Painting 3 (6) Introduction to basic materials, methods, and techniques of painting. Primary medium used is acrylic, and other painting media may also be introduced. Emphasizes basic skills in painting plus individual creative development. Preq: ART 1510 and ART 1530 and ART 2050 (Visual Arts majors); ART 1030 (non-Art Majors); ARCH 1520 (Architecture majors); LARC 1520 (Landscape Architecture majors).

ART 2090 Beginning Sculpture 3 (6) Studio course investigating the meaning of sculpture through traditional and nontraditional approaches. Establishes a working knowledge of material and process in several media. Personal expression is encouraged and enhanced by employment of problem-solving techniques. Static, temporal, installation, and site-specific sculpture is explored. Preq: ART 1510 and ART 1520 and ART 1530 and ART 1540 and ART 2050 (Visual Arts majors); ART 1030 (non-Art majors); ARCH 1520 (Architecture majors); LARC 1520 (Landscape Architecture majors).

ART 2100 Art Appreciation 3 (3) One-semester lecture survey that introduces the nonmajor to an overview of art and architecture from different time periods and cultures. Students are encouraged to appreciate the contribution to art made by the great masters and to discern different styles, art techniques, and creative traditions. Includes Honors sections.

ART 2110 Beginning Printmaking 3 (6) Studio course introducing basic techniques of relief, intaglio, lithography, silkscreen, and papermaking. Each semester concentrates on two or three of these techniques. Coursework integrates print-making processes and creativity. Preq: ART 1510 and ART 1520 and ART 1530 and ART 1540 and ART 2050 (Visual Arts majors); ART 1030 (non-Art majors); ARCH 1520 (Architecture majors); LARC 1520 (Landscape Architecture majors).

ART 2130 Beginning Photography 3 (6) Introduction to the use of photography as an art medium. Lectures and studio work cover the utilization of the camera, processing, and printing in black and white, with emphasis on perception and creative expression. Preq: ART 1510 and ART 1520 and ART 1540 and ART 2050 (Visual Arts majors); ART 1030 (non-Art majors); ARCH 1520 (Architecture majors); LARC 1520 (Landscape Architecture majors).

ART 2150 Beginning Graphic Design 3 (6) Introduction to fundamental techniques, concepts, and principles of visual communication. Through a series of projects and studio work, students explore techniques of communication through the use of type design, typography, photography, illustration, symbolism, and product design. Individual creative development is stressed. Preq: ART 1510 and ART 1520 and ART 1530 and ART 1540 and ART 2050 (Visual Arts majors); ART 1030 (non-Art majors); ARCH 1520 (Architecture majors); LARC 1520 (Landscape Architecture majors).

ART 2210 Beginning New Media 3 (6) Explores new media art practices and ideas. Digital tools and processes are explored relative to drawing, painting, printing, bookmaking, and photograpy. Introduces new media as a context of new collective, interactive, and social modes of art production. Preq: ART 1060 and ART 1510 and ART 1520.

ART 2230 Woodworking Studio 3 (6) Introduces woodworking explorations in sculpture and furniture design emphasizing technical understanding and creative application of woodworking processes and methodologies. Students experiment with wood as a vehicle for personal expression and thematic development and conduct research on the historical impact of woodworking in the visual arts. Preq: ART 1510; and one of ART 1520 or ARCH 1520 or LARC 1520.

ART 3070 Painting 3 (6) Continuation of ART 2070 with increased emphasis on personal expression and growth in technical competence. Some study of painting history is included in studio activity. Preq: ART 2070.

ART 3090 Sculpture 3 (6) Continuation of ART 2090 with increased emphasis on personal expression and content of work. Further exploration of materials and processes, including an introduction to foundry casting and advanced welding techniques. Individual investigation into current and historical aspects of sculpture is required. Preq: ART 2090.

ART 3110 Printmaking 3 (6) Continuation of processes in beginning printmaking emphasizing expanding the range and depth of technique. The relationship of technique and process to creative idea development is emphasized. Preq: ART 2110.

ART 3120 Printmaking Research 1-3 (1-3) Continuation of ART 3110. Technical and conceptual research in printmaking to develop self-expression. Special projects are constructed in consultation with instructor. May be repeated for a maximum of five credits. Preq: ART 3110.

ART 3130 Photography 3 (6) Continuation of ART 2130. Advanced techniques and more diverse types of film and paper are used in making images of personal and expressive nature. The design and construction of a view camera, printing in color, and multiple imagery may also be included. Preq: ART 2130.

ART 3150 Graphic Design 3 (6) Continuation of concepts and techniques introduced in ART 2150 with emphasis on more applied projects. Individual creative solutions are emphasized. Preq: ART 2150.

ART 3170 Ceramics Arts 3 (6) Continuation of skill development leading to more challenging projects and independent efforts. Further exposure to ceramic history and ceramic technology is presented. Preq: ART 2170.
ART 3180 Ceramics Research I 1-3 (1-3) Continuation of ART 3170. Technical and conceptual research in ceramics for the purpose of self-expression. Projects are constructed in consultation with instructor. May be repeated for a maximum of five credits. Prreq: ART 3170.

ART 3210 New Media Art II 3 (6) Intermediate-level course that introduces students to time-based art practices such as video art, installation, and performance art forms. Through regularly scheduled studio projects, readings, and screenings, students develop video, installation, and motion graphic techniques, and receive a historical overview of time-based art practices. Prreq: ART 2210.

ART 3550 Atelier InSite Creative Inquiry I 3 (6) An in-depth examination and research of Site Specific Public Art as it currently exists. Course provides critically considered and appropriate artwork for new building projects on the Clemson University campus. Open to students from a wide variety of programs who are interested in this interdisciplinary collaborative endeavor.

ART 3570 Community Supported Art—Creative Inquiry 1-3 (2-6) Examination and research of arts non-profit fundraising models in various iterations. This course provides a sampling of professional marketing, social networking and other professional development practices for artists and arts organizations through real-world problem solving and application on the Clemson University campus or in the surrounding community. May be repeated for a maximum of nine credits.

ART 3750 Writing for the Arts in Charleston 3-6 (5-6) Using Charleston’s international Spoleto Festival USA as a laboratory, students engage in interdisciplinary, critical readings and observations of multiple elements of performing and visual arts programs, and write extensively about their place in a global, contemporary society. Students develop professional and technological literacies using print and digital media. Offered summer only. May be repeated for a maximum of six credits. Prreq: ENGL 1030.

ART 4050* Advanced Drawing 3 (6) Culmination of process, techniques, and individual development. Students are expected to have mastered process and technique for the benefit of the image produced. Creativity and self-expression are highly emphasized as students select a process for concentrated study. Prreq: ART 3110.

ART 4150 Advanced Graphic Design 3 (6) Continuation of ART 3510. Personal expression through communication techniques is further explored. Individual projects are emphasized. Prreq: ART 3510.

ART 4160 Advanced Media Arts: Interactive Objects and Environments 3 (6) Students apply advanced media art production skills to create objects and environments that respond to user input or interaction. Tools used may include, but are not limited to, microcontrollers, sensors, RFID systems and electronic circuits, as well as traditional input devices. Prreq: ART 3210.

ART 4210* Advanced Ceramic Arts 3 (6) Students are directed toward further development of ideas and skills. Glaze calculation and firing processes are incorporated to allow for a dynamic integration of form and ideas. Prreq: ART 3170.

ART 4420 Selected Topics in Art 1-3 (1-3) Intensive course in studio art. May be repeated for a maximum of six credits. May be repeated for a maximum of six credits. Prreq: Senior standing.

ART 4210 Two-Dimensional Digital Animation 3 (6) Explores students to the principles of animation with traditional techniques, while incorporating the latest 2-D digital tools. Students also develop interactive animations and showcase their work on the Internet. Prreq: ART 3210.

ART 4300* Atelier InSite Creative Inquiry II 3 (6) An in-depth examination and research of Site Specific Public Art as it currently exists. Course provides critically considered and appropriate artwork for new building projects on the Clemson University campus. Continuation of ART 3550. Open to students from a wide variety of programs who are interested in this interdisciplinary collaborative endeavor. Prreq: ART 3550.

ART 4710 Bachelor of Fine Arts Senior Studio I 3 (6) Individual studio project directed by an instructor and determined by the student in consultation with the instructor. Focuses on a particular studio area, concept, or theme. May be repeated for a maximum of six credits. Prreq: Senior standing and completion of 3000/4000 sequence in the chosen studio area, minimum grade-point average of 3.0 in focus studio area, participation in senior studio interview. Conreq: ART 4730.

ART 4720 Bachelor of Fine Arts Senior Studio II 4 (12) Individual studio project directed by an instructor and determined by the student in consultation with the instructor. Usually focuses upon a particular studio area, concept, or theme. Prreq: ART 4710 with a B or better.

ART 4730 Senior Seminar in Professional Career Preparation 3 (3) Seminar and practical guide to prepare students for entry into the professional art world. Focuses on issues concerning visual artists in the early years of their professional activities. Presents career options and practical information for the graduating senior, including portfolio development. Conreq: ART 4710.

ART 4740 Travel Seminar 1 (1) Students travel with faculty to museums, galleries and festivals that directly affect studio practice, art history knowledge and engagement in historical and contemporary art practice. Students plan trips, conduct research, keep a journal and make presentations on works and sites visited and matters pertaining to professional practice. To be taken Pass/Fail only. May be repeated for a maximum of three credits. Prreq: Junior standing.

ART 4750 Senior Exhibition Internship 1 (3) Students complete various projects related to their BFA Senior Exhibition during this weekly internship through Clemson University’s Lee Gallery. The internship compliments the BFA studio curriculum by providing students access to professional practices in exhibition design and execution. Prreq: ART 4710.

ART 4790 Art and Art History Internship 1-3 (1-3) Internship with an approved sponsoring art institution in support of professional development and best art practices. May be repeated for a maximum of six credits. Prreq: Junior standing in Visual Arts and consent of instructor and acceptance by sponsor.

ART 4900 Directed Studies 1-5 (1-5) Study of areas in the visual arts not included in other courses or additional advanced work. Must be arranged with a specific instructor prior to registration. May be repeated for a maximum of 18 credits. Includes Honors sections. Prreq: Consent of instructor.

AEROSPACE STUDIES

Professor: C.R. Mann, Chair; Assistant Professors: S.P. Jordan, S.D. Wiggins

AS 1090 Air Force Today I 2 (1) Deals with Air Force in the contemporary world through a study of the total force structure: strategic offensive and defensive, general purpose, and aerospace support. Leadership laboratory activities include drill fundamentals, customs, and courtesies of the service. Conreq: AS 1091.

AS 1091 Air Force Today I Laboratory 0 (2) Noncredit laboratory to accompany AS 1090. Conreq: AS 1090.

AS 1101 Air Force Today II Laboratory 0 (2) Noncredit laboratory to accompany AS 1100. Conreq: AS 1100.

AS 2090 Development of Air Power 1-2 (1) Study of the development of air power from balloons and dirigibles through the peaceful employment of U.S. air power in relief missions and civic action programs in the late 1960s and also the air war in Southeast Asia. Leadership laboratory provides experience in guiding, directing, and controlling an Air Force unit. Conreq: AS 2091.
AS 2091 Development of Air Power I Laboratory 0 (2) Non-credit laboratory to accompany AS 2090. Coreq: AS 2090.

AS 2101 Development of Air Power II Laboratory 0 (2) Non-credit laboratory to accompany AS 2100. Coreq: AS 2100.

AS 3090 Air Force Leadership and Management I 4 (3) Emphasizes the individual as a manager. Individual motivational and behavioral processes, leadership, communication, and group dynamics are covered to provide a foundation for the development of the Air Force officer’s professional skills. Students prepare individual and group presentations, write reports, participate in group discussions, seminars, and conferences. Coreq: AS 3091.

AS 3091 Air Force Leadership and Management I Laboratory 0 (2) Non-credit laboratory to accompany AS 3090. Coreq: AS 3090.

AS 3100 Air Force Leadership and Management II 4 (3) Continuation of AS 3090. Uses the basic managerial processes involving decision making, utilization of analytical aids in planning, organizing, and controlling environment. Actual case studies are used to enhance learning and communication processes. Coreq: AS 3101.

AS 3101 Air Force Leadership and Management II Laboratory 0 (2) Non-credit laboratory to accompany AS 3100. Coreq: AS 3100.

AS 4090 National Security Policy I 4 (3) Analysis of the role and function of the military officer in a democratic society and the relationships involved in civil-military interactions. Students prepare individual and group presentations, write reports, and participate in group discussions. Coreq: AS 4091.

AS 4091 National Security Policy I Laboratory 0 (2) Non-credit laboratory to accompany AS 4090. Coreq: AS 4090.

AS 4100 National Security Policy II 4 (3) Continuation of AS 4090. Examines the environmental context in which U.S. defense policy is formulated and implemented. Emphasis is on the commissioned service and military justice. Students prepare individual and group presentations for the class, write reports, and participate in group discussions, seminars, and conferences. Coreq: AS 4101.

AS 4101 National Security Policy II Laboratory 0 (2) Non-credit laboratory to accompany AS 4100. Coreq: AS 4100.

AMERICAN SIGN LANGUAGE
Assistant Professor: S. Fitzmaurice; Lecturers: A. Brant, P. May, K. Misener Dunn

ASL 1010 American Sign Language I 3 (4) Introduction to the basics of American Sign Language, its history, and culture. Visual-gestural communication techniques are used. Coreq: ASL 1011.

ASL 1011 American Sign Language I Laboratory 0 (1) Non-credit laboratory to accompany ASL 1010. Coreq: ASL 1010.

ASL 1020 American Sign Language I 4 (3) Continuation of ASL 1010 and culture to develop further communicative competencies. Proficiency oriented with the use of visual-gestural communication skills. Preq: ASL 1010. Coreq: ASL 1021.

ASL 1021 American Sign Language I Laboratory 0 (1) Non-credit laboratory to accompany ASL 1020. Coreq: ASL 1020.

ASL 2010 American Sign Language II 3 (3) Continuation of ASL 1020. Covers additional vocabulary, sentences, and grammar structures. Main focus is on conversational and receptive skills as well as a better understanding of Deaf culture. Preq: ASL 1020.

ASL 2020 American Sign Language II Laboratory 0 (2) Non-credit laboratory to accompany ASL 2020. Coreq: ASL 2020.

ASL 2970 Creative Inquiry—American Sign Language I 4-14 (4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Preq: Consent of faculty member because arrangements must be made prior to registration.

ASL 3000 Fingerspelling and Numbers in American Sign Language I 1 (1) Advanced study of the manual alphabet (fingerspelling) and the numerical system in American Sign Language, with extensive practice in both expressive and receptive skills. Preq: ASL 2010.

ASL 3020 Advanced American Sign Language II 3 (3) Continuation of ASL 3010. Focuses on American Sign Language fluency, vocabulary development, grammatical structures of American Sign Language, use of classifiers, conversational skills, translating written texts into American Sign Language, and vice versa. Emphasis is on making formal presentations in American Sign Language. Preq: ASL 3010.

ASL 3040 Internship in American Sign Language 3 (4) Minimum 60 contact hours in an environment exclusively using American Sign Language. Frequent opportunities to converse with native signers in classroom settings, dormitory settings, meals, excursions, sporting events, cultural events, and meetings. Preq: ASL 2020.

ASL 3050 Deaf Studies in the United States 3 (3) In-depth look into language, culture, and daily lives of approximately one million people who use American Sign Language as their primary language. Traces the roots of American Sign Language from pre-revolutionary times to current science and knowledge and how it applies to professional fields. Preq: ASL 2020.

ASL 3150 Survey of Interpreting in Public Schools 3 (3) Overview of the ASL/English interpreting profession in public schools. Includes discussions about the role, function, and aptitudes of educational interpreters, the bilingual and bicultural context, history of interpreting, principles of professional practice, laws that affect educational interpreting, and analysis of the impact of classroom variables on accessibility and interpretability. Preq: ASL 3010.

ASL 3200 American Sign Language—English Interpreting in Elementary Schools I 3 (3) ASL/English interpreting in the elementary classroom. Includes analysis of the discourse features of elementary classrooms; translation of materials encountered in elementary classrooms; rendering of interpretations of elementary classroom discourse, both consecutively and simultaneously; and assessment of the effectiveness of interpreted products. Preq: ASL 3150.

ASL 3250 American Sign Language—English Interpreting in Secondary Schools I 3 (3) ASL/English interpreting in the high school classroom. Includes analysis of the discourse features of several high school courses; translation of materials encountered in high school classrooms; rendering interpretations, both consecutively and simultaneously; and assessment of the effectiveness of interpreted products. Preq: ASL 3150.

ASL 3450 American Sign Language for Health Care Practitioners I 3 (3) Intermediate instruction of specific health care and medical terminology in American Sign Language. Topics relate to specific body systems, medical terminology, and cultural aspects that have a direct bearing on medical treatment and understanding the deaf patient. Preq: ASL 3020.

ASL 3970 Creative Inquiry—American Sign Language I 4-14 (4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

ASL 4010 Discourse in American Sign Language I 3 (3) Designed for advanced-level students in American Sign Language. Primary goal is to further develop students’ understanding and knowledge of American Sign Language by incorporating in-depth analysis of American Sign Language’s historical development, linguistic structures, syntax, grammar, and pragmatics. Preq: ASL 3020.

ASL 4020 Discourse in American Sign Language II 3 (3) Continuation of American Sign Language 4010. Primary goal is to further develop students’ understanding and knowledge of American Sign Language by incorporating analysis of time concepts, variations due to region and ethnicity, pluralization, classifiers, locatives, temporal aspects, and pronoun usage in American Sign Language. Preq: ASL 4010.
ASTR 1030 Solar System Astronomy Laboratory 1 (2)
Optional laboratory to accompany ASTR 1030. Demonstrations, laboratory exercises, and planetarium visits supplement the lecture course. Prereq or concurrent enrollment: ASTR 1030.

ASTR 1040 Stellar Astronomy Laboratory 1 (2)
Optional laboratory to accompany ASTR 1040. Demonstrations, laboratory exercises, and planetarium visits supplement the lecture course. Prereq or concurrent enrollment: ASTR 1040.

ASTR 1050 Physics of the Universe 3 (3)
Basic physics principles of Newtonian mechanics, special and general relativity, quantum mechanics, atomic structure, thermal physics, optics, and radiation physics are qualitatively and quantitatively presented. These principles are then applied to demonstrate their usefulness in understanding fundamental astrophysical objects and processes in the cosmos. Prereq: MATH 1050.

ASTR (GEOL) 2200 Planetary Science 3 (3)
Survey of the formation and evolution of planetary bodies. Emphasizes the origin of planetary material and comparative study of the primary processes operative on planetary surfaces. Describes major features of the planets and moons in our solar system, as revealed by recent space missions. May also be offered as GEOL 2200.

ASTR 3020 Stellar Astrophysics 3 (3)
Study of the basic physical concepts necessary for understanding the sun, other stars, and their evolution. Topics include star formation, stellar structure and evolution, binary stars, and observational techniques. Prereq: PHYS 2210.

ASTR 3030 Galactic Astrophysics 3 (3)
Study of basic physical concepts necessary for understanding the structure of the galaxy, the motions of the stars within it, the nature of the interstellar matter, other galaxies, the large scale structure of the universe, and the origin of the solar system. Prereq: PHYS 2210.

ASTR 4200 American Sign Language/English Interpreting in Elementary Schools II 3 (3)
Continuation of ASL 4200. Further analyses of elementary school curricular discourse; rendering interpretations of elementary school classroom discourse simultaneously; preparation and interpretation or presentations from second language into first language; and assessment of the effectiveness or interpreted products. Prereq: ASL 3250.

ASL 4350 American Sign Language/English Interpreting in Secondary Schools II 3 (3)
Continuation of ASL 4350. Further analyses of high school curricular discourse; rendering interpretations of high school classroom discourse simultaneously; preparing and interpreting presentations from second language to first language; and assessment of the effectiveness of interpreted products. Prereq: ASL 3250.

ASL 4450 American Sign Language for Health Care Practitioners II 3 (3)
Continuation of ASL 4450. Expands health care and medical terminology in American Sign Language. Topics relate to specific body systems, ASL medical terminology, insurance, and medications. Prereq: ASL 3450.

ASL 4600 Deaf Literature and Folklore 3 (3)
Designed for advanced-level students in American Sign Language. Primary goal is to further develop students’ knowledge and understanding of Deaf literature, folklore, and the community at large. Includes introductions to deaf authors, literary works, plays, poetry, painting, and sculpture. Prereq: ASL 3020.

ASL 4700 Creative Inquiry—American Sign Language 1-4 (1-4)
Continuation of research initiated in ASL 3970. Students complete their projects and disseminate their research results. Prereq: ASL 3970.

ASL 4970 Independent Study 1-3 (1-3)
Supervised research and study on topics related to the origins and growth of American Sign Language and the Deaf Community in the United States (1800-present). May be repeated for a maximum of six credits. Prereq: ASL 3020.

AUD 1850 Introduction to Audio Technology 3 (2)

AUD 1851 Introduction to Audio Technology Laboratory 0 (2)
Non-credit laboratory to accompany AUD 1850. Prereq: Production Studies in Performing Arts major. Coreq: AUD 1850.

AUD 1870 Audio Practicum Laboratory 0 (2)
Non-credit laboratory to accompany AUD 1870. Prereq: Production Studies in Performing Arts major. Coreq: AUD 1870.

AUD 2790 Audio Practicum Laboratory 0 (5)
Non-credit laboratory to accompany AUD 2790. Prereq: MUSC 1850 with a C or better. Coreq: AUD 2791.

AUD 2800 Sound Reinforcement 3 (2)

AUD 2801 Sound Reinforcement Laboratory 0 (2) Non-credit laboratory to accompany AUD 2800. Coreq: AUD 2800.

AUD 2850 Acoustics of Music 3 (3)
Study of the relationship between the laws of physics and the production of music from an audio engineering perspective. Topics include mechanical and acoustical laws, harmonic analysis, musical scales, sound production in instruments, and the physiology of hearing. Prereq: Production Studies in Performing Arts major.

AUD 2950 Creative Inquiry II 1-4 (1-4)
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereq: Consent of instructor.

AUD 3800 Audio Engineering I 3 (2)
Intermediate-level course in music technology focusing on digital hard-disc recording and acoustical considerations in audio engineering. Prereq: PHYS 1220 with a C or better or PHYS 2070 with a C or better; and MUSC 1800 with a C or better or AUD 1850 with a C or better. Coreq: AUD 3801.

AUD 3801 Audio Engineering I Laboratory 0 (2) Non-credit laboratory to accompany AUD 3800. Coreq: AUD 3800.

AUD 3850 Advanced Live Sound Reinforcement 3 (2) Advanced course in live sound reinforcement focused on digital consoles and sound system design. Prereq: AUD 2800 with a C or better. Coreq: AUD 3851.

AUD 3851 Advanced Live Sound Reinforcement Laboratory 0 (2) Non-credit laboratory to accompany AUD 3850. Coreq: AUD 3850.

AUD 3860 Electronic Composition and Sound Design 3 (2) Intermediate-to-advanced-level course covering techniques, methods and issues associated with electronic music composition and production. Topics include advanced MIDI/sequencing techniques, electronic orchestral arrangements, scoring/sound design, and picture and audio processing. Prereq: AUD 1850 or MUSC 1800. Coreq: AUD 3861.

AUD 3861 Electronic Composition and Sound Design Laboratory 0 (2) Non-credit laboratory to accompany AUD 3860. Coreq: AUD 3860.

AVS 3100 Animal Health 3 (3) Discusses basic principles of animal health. Emphasizes disease prevention in beef cattle, dairy cattle, goats, horses, poultry, and swine. The most common and important diseases and zoonosis of farm animals are explained. Preq: AVS 1500.

AVS 3110 Dairy Cattle Selection 2 (1) Dairy selection and evaluation methods are studied, including evaluation according to the Purebred Dairy Cattle Association scorecard, linear evaluation, pedigrees, and Dairy Heel Improvement Association records. Emphasizes presentation of oral reasons. Coreq: AVS 3111.

AVS 3111 Dairy Cattle Selection Laboratory 0 (2) Non-credit laboratory to accompany AVS 3110. Coreq: AVS 3110.

AVS 3150 Animal Welfare 3 (3) Discussion of past, present, and future human/animal interaction. Topics include wild animals, domestication, animal welfare organizations, animal rights organizations, welfare assessment, animal agriculture, animal research, and other current topics. Preq: Junior standing.

AVS 3230 Poultry and Poultry Products Evaluation 2 (4) Selection of layers, broilers, and turkeys. Grading of poultry products according to USDA grade standards is also studied. Students are eligible to compete in intercollegiate poultry judging contests. May be repeated for a maximum of four credits.

AVS 3600 Internship 1-12 (1-12) Offcampus, pre-planned, reviewed, approved, and supervised educational experience in an area related to animal and veterinary sciences. Based on a multifaceted work experience in a highly structured professional environment. Students submit periodic written reports and a final written and oral report. To be taken Pass/No Pass only. Preq: Consent of instructor.

AVS 3700 Principles of Animal Nutrition 3 (3) Familiarizes students with nutrients and feeds used in livestock and specialty animal production. Methods of evaluating common feed-stuffs are covered along with a survey of the functioning of the various digestive systems. Practical aspects of feeding each species is covered. Includes Honors sections. Preq: AVS 1500 and CH 1020.

AVS 3751 Applied Animal Nutrition Laboratory 0 (2) Non-credit laboratory to accompany AVS 3750. Coreq: AVS 3750.

AVS 3850 Equine Behavior and Training 2 (6) Introduces students to the initial processes in gentling and riding young horses. Students work with two- and three-year-old horses to desensitize them to stimuli in preparation for riding. Students do groundwork and put the initial rides on the horses. Preq: AVS 2050.

AVS 3860 Advanced Equine Behavior and Training 2 (6) Students train young horses advanced skills in western or English disciplines. Students actively prepare horses for show or sale, participate in a show or marketing/sale of their assigned horse. Develops students’ negotiation and communication skills, industry insight, and industry-specific jargon. May be repeated for a maximum of four credits. Preq: AVS 3850.

AVS 3900 Practicum 1-3 (1-3) On-campus, pre-planned, supervised learning experience in an area related to animal and veterinary sciences. Gives experience not covered in other coursework. May be repeated for a maximum of four credits. To be taken Pass/No Pass only. Preq: Consent of instructor supervising practicum.

AVS 4000 Animal and Veterinary Sciences Professional Development 1 (1) Career development in the animal and veterinary sciences field by resume and interview preparation, learning about career opportunities, and interaction with industry professionals.

AVS 4010 Beef Production 3 (2) Discusses breeding, feeding, reproduction, and management of beef cattle. Emphasizes production systems, integrating disciplines of animal agriculture into management plans and alternatives. Practical application of beef production and management practices are also presented. Includes Honors sections. Preq: AVS 3700. Coreq: AVS 4011.

AVS 4011 Beef Production Laboratory 0 (2) Non-credit laboratory to accompany AVS 4010. Coreq: AVS 4010.

AVS 4050 Advanced Selection and Evaluation 2 (4) Specialized and advanced training in selection and evaluation of feeding, performance, and market animals or their products. Species used are beef and dairy cattle, sheep, swine, and horses. Preq: AVS 3020 or AVS 3090 or AVS 3110 or FDS 3040; and consent of instructor.

AVS 4060 Seminars and Related Topics 2 (3) Students conduct in-depth library research on current topics related to animal science and give formal presentations using multimedia technology. Students also prepare scientific posters, learn interviewing skills, prepare résumés, and observe professional speakers. Preq: Senior standing.

AVS 4090 Selected Topics 1-3 (1-3) Topics of interest to students at the undergraduate, graduate, and professional levels. Provides experience with problems not covered in other courses or on thesis research. May be repeated for a maximum of six credits, but only if different topics are covered.

AVS 4100 Domestic Animal Behavior 3 (3) Provides knowledge and understanding of behavior related to perception, learning, sociality, reproduction, feeding, and health for application in production, training, and design of environments for optimum health and welfare of domestic animals. Preq: AVS 1500 and AVS 1510; and Junior standing.

AVS 4110 Animal Growth and Development 3 (3) Integration of the nutritional, physiological, and genetic basis for animal growth and development with application to livestock and poultry production. Includes the cellular and molecular mechanisms controlling these processes and emphasizes the genes that regulate animal products (meat, eggs, wool, and milk). Preq: AVS 3010.

AVS 4121* Advanced Equine Management Laboratory 0 (2) Non-credit laboratory to accompany AVS 4120. Coreq: AVS 4120.

AVS 4130 Animal Products 3 (2) Introduction to the safe and humane production of red meat, poultry, and dairy products. Includes HACCP principles and production of value-added animal products. Coreq: AVS 4131.

AVS 4131* Animal Products Laboratory 0 (3) Non-credit laboratory to accompany AVS 4130. Coreq: AVS 4130.

AVS/BIOL, MIRC 4140* Basic Immunology 3 (3) Introduction to the immune system of vertebrate animals, with an emphasis on structure, function, regulation, and cellular and molecular mechanisms of immune responses. May also be offered as BIOL 4410 or MIRC 4140. Preq: BIOL 4610 and MIRC 3050.

AVS 4150* Contemporary Issues in Animal Science 3 (3) Provides knowledge, understanding, and critical analytical skills on current issues in animal agriculture in diverse regional, national, and global social-cultural and political environments as they impact animals and man. Preq: Junior standing.

AVS 4160* Equine Exercise Physiology 4 (3) Integration of muscle, bone, cartilage, cardiovascular, and respiratory systems as related to the equine athlete. Encompasses biomechanics, kinetics, and kinesiology related concepts specific to the horse. Further discussion of diseases related to specific systems is covered. Preq: AVS 3010. Coreq: AVS 4161.

AVS 4161* Equine Exercise Physiology Laboratory 0 (2) Non-credit laboratory to accompany AVS 4160. Coreq: AVS 4160.

AVS 4170* Animal Agribusiness Development 2 (1) Team-based development of a business relating to the animal industries. Students develop the business from the initial idea through operations. Focuses on the development of the business plan, including financials, personnel management, and resources needed. Preq: ACCT 2010; and ECON 2110 or ECON 2120. Coreq: AVS 4171.

AVS 4171* Animal Agribusiness Development Laboratory 0 (2) Non-credit laboratory to accompany AVS 4170. Coreq: AVS 4170.

AVS 4200* Poultry Science Online 3 (3) Online course covering the physiology, nutrition, health, reproduction, genetics, breeding, housing, and management of commercial poultry species, including the processing of meat and egg products.

AVS 4220 Special Problems 1-3 (1-3) Laboratory, library, or field study of problems related to animal and veterinary sciences, emphasizing development and testing of hypothesis and reporting of results. May be repeated for a maximum of four credits. Preq: Junior standing and consent of instructor supervising study.
AVS (BIOL, MICR) 4240 Immunology Laboratory 1 (3) This course is designed to apply the knowledge gained in MICR 4140, Immunology lecture, in an applied setting. The experiments in this beginning immunology laboratory are designed to study both the innate and acquired immune systems. Experimentation into the formation, function and detection of antibodies provides students with skills in basic immunologic techniques. May also be offered as BIOL 4240 or MICR 4240. Preq or concurrent enrollment: MICR 4140.

AVS 4410 Animal and Veterinary Sciences Teaching Experience 1-3 (1-3) Formal teaching experience related to animal and veterinary sciences supervised by a faculty member. May involve classroom instruction, educational material development, and/or student evaluation and assessment. Students submit periodic written reports and a final written and oral report. May be repeated for a maximum of four credits. To be taken Pass/No Pass only. Preq: Consent of instructor.

AVS 4420 Animal and Veterinary Sciences Extension Experience 1-3 (1-3) Formal experience in extension education. Students are involved in development, implementation, or assessment of adult or youth educational programs related to animal and veterinary sciences, under supervision of extension professionals. Students submit periodic written reports and a final written and oral report. May be repeated for a maximum of four credits. To be taken Pass/No Pass only. Preq: Consent of instructor.

AVS 4430* AVS International Experience 1-3 (1-3) Preplanned and approved international educational/cultural experience supervised by an Animal and Veterinary Sciences faculty member. Periodic reports or record keeping are required. Final report and oral presentation are required at the end of the experience. May be repeated for a maximum of four credits. To be taken Pass/No Pass only. Preq: Consent of instructor.

AVS 4440 AVS Animal Agribusiness Travel Experience 2 (1) Classroom and travel course to expose students to animal production operations, agribusiness, and industry leaders across various geographical areas. Travel is conducted during spring break and includes visits to farms, universities, and agribusinesses. Additional fee is required. To be taken Pass/Fail only. Preq: Junior standing in Animal and Veterinary Sciences and consent of instructor. Conq: AVS 4441.

AVS 4441 AVS Animal Agribusiness Travel Experience Laboratory 0 (2) Noncredit laboratory to accompany AVS 4440. Conq: AVS 4440.

AVS 4501 Sustainable Livestock Production Systems Laboratory 0 (2) Noncredit laboratory to accompany AVS 4500. Conq: AVS 4500.

AVS 4530* Animal Reproduction 3 (2) Reproductive physiology and endocrinology of mammary emphasis on farm animals and frequent reference to reproduction in laboratory animals and humans. Includes Honors sections. Preq: AVS 1500 and AVS 3010. Conq: AVS 4531.

AVS 4531* Animal Reproduction Laboratory 0 (2) Noncredit laboratory to accompany AVS 4530. Conq: AVS 4530.

AVS 4550* Animal Reproductive Management 2 (1) Physiology and endocrinology of pregnant and nonpregnant cows are discussed. Emphasizes methods of artificial insemination, pregnancy detection, and computer record keeping to achieve a high level of reproductive efficiency in cattle. Preq: AVS 1500 and AVS 3010. Preq or concurrent enrollment: AVS 4530. Conq: AVS 4551.

AVS 4551* Animal Reproductive Management Laboratory 0 (3) Noncredit laboratory to accompany AVS 4550. Conq: AVS 4550.

AVS 4560* Animal Physiology I 3 (3) Advanced study of the physiological systems of domestic animals as these systems relate to the integrated functions of the body. Exposes students to advanced physiological concepts and current literature perspectives on a variety of body systems and processes. Students are expected to have completed introductory coursework in physiology and biochemistry. Preq: AVS 4531 and AVS 4530.

AVS 4670* Animal Physiology II 3 (3) Advanced course extending coverage of major and current topics in animal physiology across species not previously covered in AVS 4530. Major topics include digestive physiology in omnivorous and ruminant species, reproductive physiology, muscle physiology, and general aspects of avian physiology. Students are expected to have completed introductory coursework in physiology and biochemistry. Preq: AVS 4551 and AVS 4550.

AVS 4700* Animal Genetics 3 (3) Fundamental principles relating to the breeding and improvement of livestock, including variation, heredity, selection, inbreeding, outbreeding, crossing, and other related factors. Includes Honors sections. Preq: BIOL 1100 or BIOL 1105 or consent of instructor.

AVS (BIOL, BCHM) 4800 Vertebrate Endocrinology 3 (3) Introduction to the basic principles of neuroendocrine integration and homeostatic maintenance in vertebrates. Comparative morphology and physiology of various endocrine tissues and hormone chemistry and modes of action are considered. May also be offered as BCHM 4800. Preq: BIOL 3030. Students who have not completed BIOL 3030, but who have completed coursework in organic chemistry, may request an override from the instructor.

AVS 4910 Animal and Veterinary Sciences Undergraduate Research Experience 1-3 (1-3) Formal laboratory, library, or field study of problems related to animal and veterinary sciences, emphasizing hypothesis development, testing, and reporting results. Projects are preplanned, reviewed, and approved. Students submit periodic written reports and final written and oral reports. May be repeated for a maximum of four credits. Preq: Consent of instructor.

AVS 4950 Animal Reproduction 3 (2) Reproductive physiology and endocrinology of mammals with emphasis on farm animals and frequent reference to reproduction in laboratory animals and humans. Includes Honors sections. Preq: AVS 1500 and AVS 3010. Conq: AVS 4531.

AVS 4951 Animal Reproduction Laboratory 0 (2) Noncredit laboratory to accompany AVS 4950. Conq: AVS 4950.

AVS 4970 Animal Reproductive Management 2 (1) Physiology and endocrinology of pregnant and nonpregnant cows are discussed. Emphasizes methods of artificial insemination, pregnancy detection, and computer record keeping to achieve a high level of reproductive efficiency in cattle. Preq: AVS 1500 and AVS 3010. Preq or concurrent enrollment: AVS 4970. Conq: AVS 4971.

AVS 4971 Animal Reproductive Management Laboratory 0 (3) Noncredit laboratory to accompany AVS 4970. Conq: AVS 4970.

AVS 6050* Animal Physiology I 3 (3) Advanced study of the physiological systems of domestic animals as these systems relate to the integrated functions of the body. Exposes students to advanced physiological concepts and current literature perspectives on a variety of body systems and processes. Students are expected to have completed introductory coursework in physiology and biochemistry. Preq: AVS 4531 and AVS 4530.

AVS 6700* Animal Physiology II 3 (3) Advanced course extending coverage of major and current topics in animal physiology across species not previously covered in AVS 4530. Major topics include digestive physiology in omnivorous and ruminant species, reproductive physiology, muscle physiology, and general aspects of avian physiology. Students are expected to have completed introductory coursework in physiology and biochemistry. Preq: AVS 4551 and AVS 4550.

AVS 4700* Animal Genetics 3 (3) Fundamental principles relating to the breeding and improvement of livestock, including variation, heredity, selection, inbreeding, outbreeding, crossing, and other related factors. Includes Honors sections. Preq: BIOL 1100 or BIOL 1105 or consent of instructor.

AVS (BIOL, BCHM) 4800 Vertebrate Endocrinology 3 (3) Introduction to the basic principles of neuroendocrine integration and homeostatic maintenance in vertebrates. Comparative morphology and physiology of various endocrine tissues and hormone chemistry and modes of action are considered. May also be offered as BCHM 4800. Preq: BIOL 3030. Students who have not completed BIOL 3030, but who have completed coursework in organic chemistry, may request an override from the instructor.

AVS 4910 Animal and Veterinary Sciences Undergraduate Research Experience 1-3 (1-3) Formal laboratory, library, or field study of problems related to animal and veterinary sciences, emphasizing hypothesis development, testing, and reporting results. Projects are preplanned, reviewed, and approved. Students submit periodic written reports and final written and oral reports. May be repeated for a maximum of four credits. Preq: Consent of instructor.

AVS 4950 Animal Reproduction 3 (2) Reproductive physiology and endocrinology of mammals with emphasis on farm animals and frequent reference to reproduction in laboratory animals and humans. Includes Honors sections. Preq: AVS 1500 and AVS 3010. Conq: AVS 4531.

AVS 4951 Animal Reproduction Laboratory 0 (2) Noncredit laboratory to accompany AVS 4950. Conq: AVS 4950.
BE 2100 Introduction to Biosystems Engineering 2 (1) Overview of topics and engineering application areas that comprise the biosystems engineering profession. Significant emphasis is also given to development of oral and written communication skills needed by the engineering professional, introduction to design methodology, and application of engineering fundamentals to biological systems. Prq or concurrent enrollment: ENGR 1070. Coreq: BE 2101.

BE 2101 Introduction to Biosystems Engineering Laboratory 0 (3) Non-credit laboratory to accompany BE 2100. Coreq: BE 2100.

BE 2120 Fundamentals of Biosystems Engineering 2 (1) Introduction to fundamental concepts in biosystems engineering, including mass, energy, and momentum balances; mass, heat, and momentum transfer; biological response to environmental variables, biological materials, biological kinetics, and techniques of measurement and analysis of engineering and biological data. Laboratory includes hand-on exercises, problem solving and computer sessions, and oral presentations. Prq or concurrent enrollment: MATH 1060 and ENGR 1070. Coreq: BE 2121.

BE 2121 Fundamentals of Biosystems Engineering Laboratory 0 (3) Non-credit laboratory to accompany BE 2120. Coreq: BE 2120.

BE 2990 Creative Inquiry—Biosystems Engineering II 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be taken twice for a maximum of six credits. To be taken Pass/No Pass only. Prq or concurrent enrollment: BE 2120.

BE 3000 Biosystems Engineering Honors Seminar 0 (1-4) Comprehensive study of selected topics not covered in other courses. May be repeated for a maximum of eight credits, but only if different topics are covered. Prq: Consent of instructor.

BE 3010 Biosystems Engineering Honors Seminar 0 (1) Senior project seminar. Prq: Junior standing and consent of department.

BE 3140 Biosystems Engineering Mechanical Design 3 (3) Study of basic mechanical design of biosystems. Includes an introduction to biomechanics and biomaterial properties. Studies applications of machine components and their selection related to specific types of biosystems. Team design project is required. Prq: CE 2060 or ME 3020.

BE 3201 Principles and Practices of Geomatics Laboratory 0 (3) Non-credit laboratory to accompany BE 3200. Coreq: BE 3200.

BE 3220 Small Watershed Hydrology and Sedimentology 3 (3) Fundamental relationships governing rainfall disposition are used as bases for defining the hydrology of watersheds. Emphasizes application of modeling techniques appropriate for runoff and sediment control. Prq or concurrent enrollment: CE 3410.

BE 3700 Practicum 1-3 (1-3) Prepracticedip with an approved employer involved with biosystems engineering endeavors. A minimum 1300 hours of supervised responsibility is required per credit hour. Evaluation is based on activity journal, written/oral report, and an evaluation from the supervisor. May be repeated for a maximum of three credits. To be taken Pass/No Pass only. Prq: Junior standing and consent of department.

BE 3990 Creative Inquiry—Biosystems Engineering III 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be taken twice for a maximum of six credits. To be taken Pass/No Pass only. Prq or concurrent enrollment: BE 3010.

BE (PES) 4080* Land Treatment of Wastewater and Sludges 3 (3) Principles for designing environmentally acceptable land application systems using municipal and industrial wastewater and sludges are presented. Topics include land liming constituent analysis; soil-potential interactions; sustainable interactions; system operation and management; public acceptance, social, and regulatory issues. Case studies and field trips are planned. May also be offered as PES 4080. Prq: Senior standing.

BE 4101* Biological Kinetics and Reactor Modeling 3 (2) Fundamentals of microbial and biochemical kinetics used in analysis and design of biological systems. Topics include mathematical and computer modeling of biological kinetics and systems, estimating model coefficients, and development of microbial kinetic models as basis for batch and continuous reactor design. Prq: BE 2120. Prq or concurrent enrollment: MATH 2080. Coreq: BE 4101.

BE 4101* Biological Kinetics and Reactor Modeling Laboratory 0 (3) Non-credit laboratory to accompany BE 4100. Coreq: BE 4100.

BE 4120* Heat and Mass Transport in Biosystems Engineering 3 (3) Fundamentals of heat and mass transport used in engineering design and analysis of biological systems; principles of steady state and transient energy and mass balances, including chemical and biological generation terms. Prq: BE 4100.

BE 4140 Biosystems Engineering Unit Operations 3 (2) Applies the basic principles of statics, dynamics, and thermodynamics to design of mechanical and electrical systems supporting biological operations and processes. Prq: BE 3140 and ME 3100. Coreq: BE 4141.

BE 4141 Biosystems Engineering Unit Operations Laboratory 0 (3) Non-credit laboratory to accompany BE 4140. Coreq: BE 4140.
BE 4150* Instrumentation and Control for Biosystems Engineers 4 (3) Overview of modern instrumentation techniques and digital electronic components and subsystems to integrate them into digital data acquisition and control systems for biosystems. Laboratory use of equipment is emphasized. Topics include characteristics of instruments, signal conditioning, transducer theory and applications, programmable logic controllers, and digital data acquisition and control. Preq or concurrent enrollment: ECE 2070. Coreq: BE 4151.

BE 4151* Instrumentation and Control for Biosystems Engineers Laboratory 0 (3) Non-credit laboratory to accompany BE 4150. Coreq: BE 4150.

BE 4170* Applied Instrumentation and Control for Biosystems 2 (1) Hardware and software implementation of digital data acquisition and control systems for application to agriculture, aquaculture, biotechnology, and other biosystems. Topics include digital electronic circuits and components, microcomputer architecture, interfacing, and programming. Preq: BE 4150. Coreq: BE 4171.

BE 4171* Applied Instrumentation and Control for Biosystems Laboratory 0 (3) Non-credit laboratory to accompany BE 4170. Coreq: BE 4170.

BE 4210 Engineering Systems for Soil Water Management 2 (1) Presents fundamentals of design related to drainage of lands, irrigation, and modification of the microenvironment for optimum productivity. Preq or concurrent enrollment: CE 3410 and MATH 2080. Coreq: BE 4211.

BE 4211 Engineering Systems for Soil Water Management Laboratory 0 (3) Non-credit laboratory to accompany BE 4210. Coreq: BE 4210.

BE 4220* Hydrologic Modeling of Small Watersheds 3 (3) Design of structures and development of best management practices for runoff, flood, and sediment control from rural and urban areas, including natural and disturbed watersheds. Topics include modeling of prismatic and non-prismatic channels, culverts, and detention retention ponds. Preq: BE 3220.

BE 4240 Ecological Engineering 3 (3) Focuses on engineering solutions to environmental and socioeconomic problems using ecological design principles. Explores ecosystem processes as they pertain to sustainable development, natural resource protection, food and energy production, waste management, and environmental restoration. Engineering fundamentals and ecological modeling are integral components of this course.

BE 4280* Biochemical Engineering 3 (3) Use of microorganisms and enzymes for the production of chemical feedstocks, single-cell protein, antibiotics, and other fermentation products. Topics include kinetics and energetics of microbial metabolism, design and analysis of reactors for microbial growth and enzyme-catalyzed reactions, and considerations of scale-up, mass transfer, and sterilization during reactor design. Preq or concurrent enrollment: BE 4400 or CHE 3300.

BE 4350* Applications in Biotechnology Engineering 3 (2) Biotechnology principles applied to the expanding fields of agricultural biotechnology, ecotechnology, and biomedical technology. Specific applications include waste treatment and ecological engineering, bio reactor propagation of plant and animal cells and tissues, applied genomics and synthetic seed production, biosensors and biomonitoring, biological implants and materials biocompatibility. Preq: BE 4280 or CHE 4280. Coreq: BE 4351.

BE 4351* Applications in Biotechnology Engineering Laboratory 0 (3) Non-credit laboratory to accompany BE 4350. Coreq: BE 4350.

BE 4380* Bioprocess Engineering Design 3 (2) Design and analysis of systems for processing biological materials. Topics include biotechnology, thermodynamics, transport processes, and biological properties related to bioprocess design and computational simulation. Unit operations include basic bioprocess operation, bioprocesses, and preservation techniques. Preq or concurrent enrollment: BE 4100 or CHE 3300 or EES 4420. Coreq: BE 4381.

BE 4381 Bioprocess Engineering Design Laboratory 0 (2) Non-credit laboratory to accompany BE 4380. Coreq: BE 4380.

BE (CE) 4400* Sustainable Energy Engineering 3 (2) Investigation into emerging renewable energy resources, including detailed study of solar, wind, and bioenergy. Emphasizes also includes principles, technologies, and performance evaluation of components for these technologies and an introduction to nuclear, hydro, geothermal, and other energy conservation; cogeneration; financial; technical, and other issues related to alternative energy sources. May also be offered as CE 4400. Preq: Junior standing in an engineering major. Coreq: BE 4401.

BE (CE) 4401* Sustainable Energy Engineering Laboratory 0 (2) Non-credit laboratory to accompany BE 4400. May also be offered as CE 4401. Coreq: BE 4400.

BE (EES, FOR) 4510* Newman Seminar and Lecture Series in Natural Resources Engineering 1-3 (1-3) Topics dealing with development and protection of land, air, water, and related resources are covered by seminar with instructor and invited lecturers. Current environmental and/or resource conservation issues are addressed. Includes Honors sections. May also be offered as EES 4510 or FOR 4510. Preq: Senior standing.

BE 4640* Non-Point Source Management in Engineered Ecosystems 3 (2) Fundamentals of non-point source pollution, including quantification of environmental impact and ecosystem management related to contaminants and nutrients and to planning and design of ecological systems. Preq: MICR 3050 and Senior standing in engineering. Coreq: BE 4641.

BE 4641* Non-Point Source Management in Engineered Ecosystems Laboratory 0 (3) Non-credit laboratory to accompany BE 4640. Coreq: BE 4640.

BE 4730 Special Topics in Biosystems Engineering 1-3 (1-3) Comprehensive study of special topics not covered in other courses. Emphasizes independent pursuit of detailed investigations. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

BE 4740 Biosystems Engineering Design/Project Management 2 (1) Study of biological systems design using hydrology principles, fluid mechanics, bioprocessing, heat/mass transfer, instrumentation, mechanical unit operations, and structural principles for project design, scheduling, and cost estimation. Topics also include engineering ethics, professional development, written and oral communication, and job skills. Senior portfolios are also developed. Preq: Senior standing in Biosystems Engineering. Coreq: BE 4741.

BE 4741 Biosystems Engineering Design/Project Management Laboratory 0 (3) Non-credit laboratory to accompany BE 4740. Coreq: BE 4740.

BE 4750 Biosystems Engineering Capstone Design 2 (4) Applications of hydrology, fluid mechanics, bioprocessing, heat/mass transfer, instrumentation, mechanical unit operations, and structural principles in design; project scheduling; cost estimation; ethics; environmental and social impacts; design drawings; and report documentation. Preq: Senior standing in Biosystems Engineering.

BE (EES) 4840* Municipal Solid Waste Management 3 (3) Introduction to the problems, regulations, collection, handling, recycling, and disposal of municipal solid wastes in the urban and rural sectors. Emphasizes an integrated waste-management system with resource recovery, composting, incineration, landfill disposals, and their costs. May also be offered as EES 4840. Preq: EES 2020 or EES 4010.

BE 4990 Creative Inquiry—Biosystems Engineering IV 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be taken twice for a maximum of six credits. To be taken Pass/No Pass only.

BIOENGINEERING

BIOE 1010 Biology for Bioengineers 1 (1) Provides basic introduction to fundamental principles of molecular and cellular biology. Preq: CH 1010.

BIOE 2000 Bioengineering Professional Development 0 (1) Provides an introduction to the professional opportunities available for bioengineering students. Students learn best practices and prepare for a bioengineering career. To be taken Pass/No Pass only. Preq: Sophomore standing in bioengineering.
BIOE 2010 Introduction to Biomedical Engineering 3 (3) Provides engineering, biological, and physical science students with an overview of the replacement of human body parts and the problems related to artificial devices. Preq: CH 1020; and one of BIOE 1010 or BIOL 1030 or BIOL 1100.

BIOE 3000 Bioengineering Ethics and Entrepreneurship 0 (1) Introduction to the ethical considerations of performing human and animal research in support of medical technology development. Students are exposed to fundamental business concepts related to translating technology to the marketplace. To be taken Pass/No Pass only. Preq: BIOE 2000.

BIOE 3020 Biomaterials 3 (2) Study of metallic, ceramic, and polymer materials used for surgical and dental implants; materials selection, implant design, physical and mechanical testing; corrosion and wear in the body. In addition, physical and mechanical properties of tissue as related to microstructure are studied. Preq: BIOE 2010 and MEE 2100; and either both CH 2010 and CH 2200 or both CH 2230 and CH 2270. Coreq: BIOE 3021.

BIOE 3021 Biomaterials Laboratory 0 (3) Non-credit laboratory to accompany BIOE 3020. Coreq: BIOE 3020.

BIOE 3200 Biomechanics 3 (3) Study of relation between biological and mechanical functions of musculoskeletal tissues such as bone, ligaments, muscles, cartilage, etc.; mechanics of human joints; analysis of implants and implant failure. Preq: CE 2010 and MATH 2080.

BIOE 3210 Biophysical Mechanics 3 (3) Introduces mechanics of biological fluids (e.g., blood, synovial fluid and physiological solutions) with an emphasis on the formation of biological problems within the context of (1) kinematics, (2) the concept of stress, (3) linear momentum balance, (4) constitutive relations and (5) boundary conditions. Preq: CE 2010 and MATH 2080.

BIOE 3700 Biostatistics and Bioinformatics 3 (2) Introduction of fundamental topics in biostatistics and bioinformatics focusing on the acquisition and monitoring of vital signals. Basic principles for the selection and appropriate use of instruments for solving bioengineering and medical problems such as microscopy, magnetic resonance imaging, and ultrasounds, among others, are addressed. Preq: MATH 2080; and ECE 2020 or ECE 2020. Coreq: BIOE 3701.

BIOE 3701 Bioinstrumentation and Bioimaging Laboratory 0 (3) Non-credit laboratory to accompany BIOE 3700. Coreq: BIOE 3700.

BIOE 4000 Bioengineering Leadership and MedTech Commercialization 1 (1) Introduction to common leadership techniques and managerial approaches. Students are exposed to various product/technology valuation techniques that contribute to how business decisions are made in the MedTech sector. To be taken Pass/No Pass only. Preq: BIOE 3000.

BIOE 4010 Bioengineering Design Theory 3 (3) Introduces principles of engineering design and applies them to the design of medical devices. Covers materials selection, fabrication processes, performance standards, cost analysis, and design optimization. Students defend a design project proposal in written and oral form before a faculty jury. Preq: BIOE 3020 or BIOE 3700 or BIOE 3200.

BIOE 4020 Biocompatibility 3 (2) Guides students through the theory and practice of determining biocompatibility of biomaterials and medical devices as required by the FDA. Hands-on experiments emphasize host-implant interactions such as toxicity towards tissues using specific techniques, including cell culture, implantation of biomaterials in experimental animals and histopathology. Preq: BIOE 3020 and BIOE 4610. Coreq: BIOE 4021.

BIOE 4021 Biocompatibility Laboratory 0 (3) Non-credit laboratory to accompany BIOE 4020. Coreq: BIOE 4020.

BIOE 4030 Applied Biomedical Design 3 (1) Creative application of bioengineering and design principles to solving clinically relevant design problems. Team-based development, construction, and evaluation of design prototypes in accordance with design theory. Students present results to faculty jury and external collaborators through written reports and oral presentations. Preq: BIOE 4010. Coreq: BIOE 4031.

BIOE 4031 Applied Biomedical Design Laboratory 0 (6) Non-credit laboratory to accompany BIOE 4030. Coreq: BIOE 4030.

BIOE 4120 Orthopaedic Engineering and Pathology 3 (3) Interdisciplinary study of clinical orthopaedic cases (bone growth, bone remodeling, osteoarthritis, implant fixation and joint replacement); biomechanical, biomaterials, tribology and clinical diagnosis of failed implants (total joint replacement, fracture fixation and spinal instrumentation); basic concepts of orthopaedic pathology for engineers. Preq: BIOE 3020 and BIOE 3200; Preq or concurrent enrollment: BIOE 3150.

BIOE 4150 Research Principles and Concepts 1 (1) Introduces seniors and graduate students to principles and practices of scientific research. Topics include developing scientific concepts, developing projects, pursuing research, collaborating in multidisciplinary teams, patenting and publishing technical and scientific information, and reviewing professional and ethical standards of performance. Includes Honors sections.

BIOE 4230 Cardiovascular Engineering and Pathology 3 (3) Medical and bioengineering aspects of artificial cardiovascular and vascular devices; physiology and pathological aspects of patients with need for such devices; diagnostic techniques and surgical management of diseases and pathology; the design aspects of current devices and selection; state of the art in experiments and human clinical trials. Preq: BIOE 3020 and BIOE BIOL 3150; and either BIOE 3200 or BIOE 3210.

BIOE 4310 Medical Imaging 3 (2) Introduction to the history, physics, and basis of medical imaging devices; including X-ray, Computed Tomography, Magnetic Resonance Imaging, and Ultrasound. Students will understand imaging from both an engineering and clinical prospective. Students will have the opportunity to work with real medical images, to understand the trade-offs between modalities. Preq: MATH 2080; and one of ECE 2020 or ECE 2070. Preq or concurrent enrollment: BIOE 3700. Coreq: BIOE 4311.

BIOE 4311 Medical Imaging Laboratory 0 (2) Non-credit laboratory to accompany BIOE 4310. Coreq: BIOE 4310.

BIOE 4350 Computer Modeling of Multiphysics Problems 3 (3) This course will introduce students to a holistic way to deal with complicated engineering problems using a computer modeling approach. For example, a real-world problem governed by combined mechanical, electrical, thermal, electro-chemical and mass-transport phenomena will be dealt with in an integrated and multidisciplinary way rather than the conventional piece-wise single-discipline way. Preq: MATH 2080.

BIOE 4400 Biopharmaceutical Engineering 3 (3) This course examines the design principles necessary to use bacteria, fungi, and mammalian cells in bioengineering applications, including molecular techniques, fermentation, process scale-up, purification processes, and FDA regulations. The production of biopharmaceuticals derived from recombinant systems, including uses in medical systems, is emphasized. Preq: BCHM 3050.

BIOE 4480 Tissue Engineering 3 (2) Explores the application of engineering principles toward the development of biologically based substances that restore, maintain, or improve tissue function. Topics include biodegradable scaffolds, wound healing and tissue repair, cell-matrix interactions, immunology and biocompatibility, stem cells. Preq: BIOE 3020 and BIOE 3150. Preq or concurrent enrollment: BIOE 4610. Coreq: BIOE 4481.

BIOE 4481 Tissue Engineering Laboratory 0 (3) Non-credit laboratory to accompany BIOE 4480. Coreq: BIOE 4480.

BIOE 4490 Drug Delivery 3 (3) Fundamental principles of controlled drug delivery including drug release mechanisms, physiological barriers, and various types of delivery routes. Specific emphasis is placed on understanding drug delivery technologies and processes to scale up the fabrication of drug delivery systems. Preq: BIOE 3020.

BIOE 4500 Special Topics in Bioengineering 1-4 (1-4) Comprehensive study of a topic of current interest in the field of biomedical engineering under the direct supervision and guidance of a faculty member. May be repeated for a maximum of six credits, but only if different topics are covered. Includes Honors sections. Preq: Consent of instructor.

BIOE 4510 Creative Inquiry—Bioengineering 1-3 (1-3) Disciplinary and multidisciplinary team research projects with the goal of developing the students’ skills in literature research, engineering design, and data analysis. May be repeated. Preq: Consent of instructor.
BIOE 4600 International Bioengineering Research Topics 1-6 (1-6) Comprehensive study and research exposing graduate students to international research topics at an international institution through the Bioengineering study abroad program. Students are exposed to laboratory and research methods while under the direct supervision of approved international mentors. May be repeated for a maximum of six credits. Includes Honors sections. Prereq: Consent of instructor.

BIOE 4610 International Study in Bioengineering 3 (3) Introduction to selected bioengineering topics through participation in international study abroad summer programs. Offers an international study experience to undergraduates through lectures, guest speakers, tours, and/or laboratory exposure. Offers an international study experience to undergraduates through lectures, guest speakers, tours, and/or laboratory exposure. Consent of instructor.

BIOE 4690 International Bioengineering Internship 1-3 (1-3) Observation and assignment by the department. Consent of instructor.

BIOE 4710* Biophotonics 3 (3) Biophotonics is an interdisciplinary subject of applying photonics to study biological samples from individual cells to the entire body. Introduces fundamental and frontier topics in optical imaging aspects of biophotonics for senior-level undergraduates and graduate students to gain the ability to solve biologically related biomedical problems. Prereq: MATH 2080; and PHYS 2210; and either ECE 2070 or ECE 3200.

BIOE 4760 Biosurface Engineering 3 (2) Study of how surface design influences the interactions of biomolecules with biomaterials and how this in turn influences implant biocompatibility. Laboratory addresses both the theory and application of various analytical instruments commonly used in bioengineering to characterize biomaterials and investigate biomolecule-surface interactions. Prereq: Senior standing in Bioengineering and BCHM 3050. Coreq: BIOE 4761.

BIOE 4761 Biosurface Engineering Laboratory 0 (3) Non-credit laboratory to accompany BIOE 4760. Coreq: BIOE 4760.

BIOE 4820* Biomaterial Implantology 3 (2) Provides training in the planning and conduct of experimental surgery, including laws and regulations; institutional requirements; selection of animal models; ethical considerations of animal research; preparation of animals for surgery; general and special surgical techniques; aseptic surgical techniques; and basic and applied instrumentation. Prereq: Junior standing in Bioengineering. Coreq: BIOE 4821.

BIOE 4821* Biomaterial Implantology Laboratory 0 (3) Non-credit laboratory to accompany BIOE 4820. Coreq: BIOE 4820.

BIOE 4900 Internship 1 (3) Observation and assignment in a medical school, dental school, hospital, regulatory agency, or industrial department. May be repeated for a maximum of two credits. To be taken Pass/No Pass only. Prereq: Senior standing in Bioengineering and consent of department chair.

BIOE 4910 Mentored Research in Bioengineering 1-6 (1-6) Mentored research training for under-graduate students working with a faculty advisor, including literature review, experimental design, research documentation, and presentation of results. May be repeated. Honors students must take six credits under a single advisor and write an honors thesis. Includes Honors sections. Prereq: Consent of instructor.

BIOLOGY

BIOL 2000 Biology in the News 3 (3) For non-science majors. Students examine current topics of biology appearing in newspapers and other current media. Uses a problem-based learning approach, with students working as teams and individually on areas of interest identified by the class. Students are expected to have completed the General Education Natural Science Requirement prior to enrolling in this course. Preq: ENGL 1030.

BIOL 2010 Biotechnology and Society 3 (3) Introduction to the theories, fields, and applications of biotechnology, including the structure and function of genes and their manipulation to improve plant and animal productivity and human health. Individual case studies are examined, including social and ethical issues surrounding biotechnology-based research and development. Not open to Genetics majors. Preq: BIOL 1200; and one of BIOL 1220 or BIOL 1230; and General Education Natural Science requirement.

BIOL 2030 Human Disease and Society 3 (3) Focuses on the basic biology underlying human disease, how disease is understood, and current methods of prevention and treatment of disease. The economics as well as the social and ethical issues surrounding human disease are a common thread throughout the course. Preq: Both BIOL 1040 and BIOL 1060; or BIOL 1110; or BIOL 1220; or BIOL 1230.

BIOL 2040 Environment, Energy and Society 3 (3) Examines power and energy production, the resultant environmental effects, and the relationship between this technology and society. Introduces historical and contemporary sources of energy and power; the economic, social, and political forces important for types and patterns of development; and the resultant impacts to ecosystems and the environment.

BIOL 2050 Plant Form and Function 3 (3) Introductory course for students majoring in plant sciences. Integrates lecture and laboratory, and emphasizes fundamental structures and functions of higher plants. Preq: BIOL 1030 and BIOL1050.

BIOL 2060 Plant Form and Function Laboratory 1 (1) Laboratory for BIOL 2050. Preq or concurrent enrollment: BIOL 2050.

BIOL 2100 Evolution and Creationism 3 (3) Critical review of the scientific and technological basis for evolutionary theory compared to creationist explanations for the origin and diversity of life. Includes a historical survey of the impact that the evolution/creation debate has had on law, politics, education, and other important aspects of society. Credit toward a degree will be given for only one of BIOL 2100 or PHIL 2100. Preq: BIOL 1040 or BIOL 1110; and one of BIOL 1220 or BIOL 1230; and General Education Natural Science requirement.

BIOL 2110 Introduction to Toxicology 3 (3) Acquaints students with the field of toxicology, integrates the science of toxicology with regulatory policy, and demonstrates its impact on our daily lives. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110.

BIOL 2200 Biology: Concepts, Issues, and Values 3 (3) Develops a thorough knowledge of basic biological concepts and issues and explores how these can be incorporated into a system of human values affecting technology, society, and life.

BIOL 2220 Human Anatomy and Physiology I 4 (3) Basic introductory course in integrated human anatomy and physiology covering cells and tissues; integumentary, skeletal, muscular, and nervous systems; sensory organs. Physiology is stressed. Structured for Nursing and other health-related curricula. Preq: BIOL 1030 and BIOL 1050; or BIOL 1100; and CH 1010 or CH 1050. Coreq: BIOL 2221.

BIOL 2221 Human Anatomy and Physiology I Laboratory 0 (2) Non-credit laboratory to accompany BIOL 2220. Coreq: BIOL 2220.

BIOL 2231 Human Anatomy and Physiology II Laboratory 0 (2) Non-credit laboratory to accompany BIOL 2230. Coreq: BIOL 2230.

BIOL 2300 Emergency Medical Responders 3 (3) Students are prepared to provide emergency pre-hospital assessment and care for patients with a variety of medical conditions and traumatic injuries. Study areas include introduction to emergency medical services systems, EMT roles and responsibilities, anatomy and physiology, medical emergencies, trauma, and working in the pre-hospital setting. Preq: BIOL 1030 and BIOL 1040, and BIOL 1050 and BIOL 1060; or BIOL 1100 and BIOL 1110.

BIOL 3010 Insect Biology and Diversity 4 (3) Introduction to the study of insects, with emphasis on their structure, function, ecology, and behavior. Identification of commonly encountered species is highlighted. Relationships between insect and human populations are discussed. Control technologies are introduced, with emphasis on environmentally responsible tactics. Offered fall semester only. Coreq: BIOL 3011.

BIOL 3011 Insect Biology and Diversity Laboratory 0 (2) Non-credit laboratory to accompany BIOL 3010. Coreq: BIOL 3010.

BIOL 3020 Invertebrate Biology 3 (3) In-depth survey and comparison of free-living invertebrate animals emphasizing functional anatomy, development, and evolutionary relationships. Includes Honors sections. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110. Preq or concurrent enrollment: BIOL 3060.

BIOL 3030 Vertebrate Biology Laboratory 4 (3) Comprehensive survey of vertebrate animals, including their taxonomy, morphology, evolution, and selected aspects of the natural history and behavior. Includes Honors sections. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110.

BIOL 3040 Biology of Plants 3 (3) Survey of the major groups of plants, their biology, diversity, and evolution. Includes Honors sections. Preq: BIOL 1040 and BIOL1060; or BIOL 1110. Preq or concurrent enrollment: BIOL 3080.

BIOL 3060 Invertebrate Biology Laboratory 1 (3) Survey and comparison of the biology of living invertebrates, examples of which are drawn primarily from the southeastern coast of the United States. Preq: Introductory two-semester biology sequence with laboratory. Preq or concurrent enrollment: BIOL 3020.

BIOL 3070 Vertebrate Biology Laboratory 1 (3) Comparative and phylogenetic study of the gross morphology of vertebrates. Preq or concurrent enrollment: BIOL 3030.

BIOL 3080 Biology of Plants Practicum 1 (3) Laboratory exercises that explore the major groups of plants, their biology, diversity, and evolution. Preq or concurrent enrollment: BIOL 3040.

BIOL (WFB) 3130 Conservation Biology 3 (3) Study of the biological bases for the conservation of flora, fauna, and habitats. Biological factors that influence the decision-making process are also addressed. May also be offered as WFB 3130. Preq: BIOL 1030 and BIOL 1050 and BIOL 1040 and BIOL 1060; or BIOL 1100 and BIOL 1110.

BIOL 3150 Functional Human Anatomy 4 (3) Introduction to the anatomical structures associated with all organ systems found in the human body at both the gross and microscopic level. Basic physiology is integrated to assist with understanding the function of the anatomical systems. Preq: BIOL 1030 and BIOL 1050; or BIOL 1100; and junior standing. Coreq: BIOL 3151.

BIOL 3151 Functional Human Anatomy Laboratory 0 (3) Non-credit laboratory to accompany BIOL 3150. Coreq: BIOL 3150.

BIOL 3160 Human Physiology 4 (3) Study of the functional processes associated with the various organ systems in the human body. Students develop a basic understanding of the important and fundamental concepts in human physiology and how organ systems maintain homeostasis. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110; and CH 1020; and junior standing. Coreq: BIOL 3161.

BIOL 3161 Human Physiology Laboratory 0 (3) Non-credit laboratory to accompany BIOL 3160. Coreq: BIOL 3160.

BIOL 3200 Field Botany 4 (2) Introductory study of the taxonomy, ecology, and evolution of plants in their natural environment with an emphasis on identification and characteristics of representative species and plant communities in the Carolinas. Includes one or two required Saturday field trips. Coreq: BIOL 3201.

BIOL 3201 Field Botany Laboratory 0 (4) Non-credit laboratory to accompany BIOL 3200. Coreq: BIOL 3200.

BIOL 3330 Evolutionary Biology 3 (3) Introduction to basic concepts and underlying principles of modern evolutionary biology. Topics include a historical overview of evolutionary theories, elementary population genetics, principles of adaptation, speciation, systematics and phylogenetic inference, fossil record, biogeography, molecular evolution, and human evolution. Preq: GEN 3000 or GEN 3020.

BIOL (PES) 3400 Medical Botany 3 (3) Study of use of compounds of plant and fungal origin as poisons, hallucinogens, and pharmaceuticals. May also be offered as PES 3400. Preq: BIOL 1040 and BIOL 1060 and CH 1020.

BIOL (ANTH) 3510 Biological Anthropology 3 (3) Study of humans as biological organisms. Examines human evolution, primate social behavior, human physiological variations and disease resistance, and human skeletal anatomy and forensics. May also be offered as ANTH 3510. Preq: ANTH 2010 or BIOL 1100.
Biol (ANTH) 3530 Forensic Anthropology
3 (3) Introduction to forensic anthropology, the science that utilizes methods from skeletal biology and archaeology as tools in human identification in a medico-legal context. May also be offered as ANTH 3530. Preq: Junior standing.

Biol 3940 Selected Topics in Creative Inquiry 1 3 (1) Disciplinary and multidisciplinary group research projects develop the student's ability to discover, analyze, and evaluate data. Students are required to document their research activities in their portfolios. May be repeated for a maximum of six credits. Honors students must take at least six credits over a two-semester period with the same research advisor and write an honors thesis. These credits may include Biol 3940, Biol 4940 or both. Includes Honors sections. Preq: Consent of instructor. Coreq: Biol 3941.

Biol 3941 Selected Topics in Creative Inquiry I Laboratory 0 (6) Non-credit laboratory to accompany Biol 3940. Coreq: Biol 3940.

Biol (ENT) 4001* Insect Morphology 3 (3) Study of insect structure in relation to function and of the variation of form in insects. Includes Honors sections. May also be offered as ENT 4000. Preq: ENT 3010. Coreq: Biol 4001.

Biol (ENT) 4001* Insect Morphology Laboratory 0 (3) Non-credit laboratory to accompany Biol 4000. May also be offered as ENT 4001. Coreq: Biol 4000.

Biol 4001* Plant Physiology 3 (3) Relations and processes pertaining to maintenance, growth, and reproduction of plants, including absorption of matter and energy, water relations of the plant, utilization of reserve products and liberation of energy. Includes Honors sections. Preq: Biol 1040 and Biol 1060; or Biol 1110; and CH 1020. Preq or concurrent enrollment: Biol 4020.

Biol 4020* Plant Physiology Laboratory 1 (3) Laboratory exercises and experiments designed to indicate the relations and processes which pertain to maintenance, growth, and reproduction of plants, including absorption of matter and energy, water relations of the plant, utilization of reserve products and liberation of energy. Preq or concurrent enrollment: Biol 4010.

Biol 4030* Introduction to Applied Genomics 3 (3) Emphasizes the practical application of bioinformatic/genomic skills to solve biological problems. The course includes an introduction to the Linux operating system, the bash command line environment, principles of next-generation sequencing, genome assembly, gene prediction, annotation, databases, gene/genome clustering, recombinant detection, phylogenetics, transcriptomics, and metagenomics. Preq: Gen 3000 or Gen 3020 or Micr 4150.

Biol (GEN) 4050* Molecular Genetics of Eukaryotes 3 (3) Molecular genetic analyses of eukaryotes in relation to mutations and repair, complex phenotypes, biochemical pathways, short- and long-term regulation of gene expression, and evolution. May also be offered as Gen 4050. Preq: one of the following combinations: BCHM 3010 or BCHM 3050; or Gen 3000 and Gen 3020.

Biol 4060* Introductory Plant Taxonomy 3 (3) Introduction to the basic principles and concepts of plant systematics with emphasis on the plants of South Carolina. Includes Honors sections. Preq: Biol 1040 and Biol 1060; or Biol 1110. Coreq: Biol 4070.

Biol 4070* Plant Taxonomy Laboratory 1 (3) Introduction to basic techniques of plant taxonomy with laboratory and field emphasis on the flora of South Carolina. Coreq: Biol 4060.

Biol 4080* Comparative Vertebrate Morphology 3 (3) Phylogeny and diversity of vertebrates and study of their comparative morphology, leading to an understanding of the relationships and functioning of living organisms. Includes Honors sections. Preq: Biol 1040 and Biol 1060; or Biol 1110. Coreq: Biol 4090.

Biol 4090* Comparative Vertebrate Morphology Laboratory 2 (5) Comparative anatomy of representative vertebrates; methods used in preparing specimens for study and display. Includes Honors sections. Coreq: Biol 4080.

Biol 4100* Limnology 3 (3) Detailed introduction to the physical, chemical, and biological interrelationships that characterize inland water environments. A fundamental approach to the interactions of components of the environment is developed at a theoretical level. Preq: Biol 3100 and Biol 1060; or Biol 1110.

Biol 4110* Limnological Analyses 2 (2) Examines a broad range of topics covered with both standing and running fresh water, about one-third of the laboratory exercises address major physical components of lakes and streams. The remainder provides rationale and methods for quantitative analyses of organisms as well as some integrated analyses of whole ecosystems. Includes Honors sections. Preq or concurrent enrollment: Biol 4100 or Biol 4430. Coreq: Biol 4111.

Biol 4111* Limnological Analyses Laboratory 0 (2) Non-credit laboratory to accompany Biol 4110. Coreq: Biol 4111.

Biol (AVS, MICR) 4140* Basic Immunology 3 (3) Introduction to the immune system of vertebrate animals, with emphasis on structure, function, regulation, and cellular and molecular mechanisms of immune responses. Includes Honors sections. May also be offered as AVS 4140 or MICR 4140. Preq: Biol 4610 and MICR 3050.

Biol (AVS, MICR) 4140* Basic Immunology Laboratory 0 (2) Non-credit laboratory to accompany Biol 4140. Coreq: Biol 4140.

Biol (PLPA) 4250 Introductory Mycology 3 (3) Application of the principles of mycological techniques, microscopic study of fungi. Examples from all major groups of fungi are included. May also be offered as PLPA 4250. Preq or concurrent enrollment: Biol 4250 or PLPA 4250. Coreq: Biol 4261.

Biol (PLPA) 4261* Mycology Practicum Laboratory 0 (2) Non-credit laboratory to accompany Biol 4260. May also be offered as PLPA 4261. Coreq: Biol 4260.

Biol 4280* Quantitative Biology 4 (3) Applies quantitative methods to a wide range of biological problems. Main focus is on building modeling skills using population, physiological, genetic, and evolutionary problems. Also includes a review of statistical principles and introduces basic bioinformatics techniques. Preq: Biol 1040 and Biol 1060; or Biol 1110; and Math 1080 or Math 1110. Coreq: Biol 4281.

Biol 4281* Quantitative Biology Laboratory 0 (3) Non-credit laboratory to accompany Biol 4280. Coreq: Biol 4280.

Biol 4320* Animal Histology 3 (3) Structural and functional study of the basic tissues of animals and tissue makeup of organs. Emphasizes light microscopy level with selected tissue studied at the electron microscope level. Includes Honors sections. Preq: Biol 1040 and Biol 1060; or Biol 1110. Coreq: Biol 4330.
BIOL 4340 Biological Chemistry Laboratory Techniques 2 (1) Theory and application of some of the routine tools and techniques used in biological chemistry. Lectures introduce laboratory theory and provide additional laboratory instructions; discuss results; and conduct student evaluations. Laboratory periods are used to conduct each activity. 

BIOL 4450* Ecology Laboratory (Lecture Portion) 2 (1) Modern and classical approaches to the study of ecological problems discussed in BIOL 4410. Students are introduced to field, laboratory, and computer-based analyses of plant and animal populations and communities. Includes Honors sections. Preq or concurrent enrollment: BIOL 4410. Coreq: BIOL 4451.

BIOL 4460* Plant Ecology 3 (3) Ecology of plants in relation to their biotic and abiotic environments. Individual organisms, populations, and communities are considered with an emphasis on seed plants in terrestrial environments. Includes Honors sections. Preq: BIOL 4400 and BIOL 1060; or BIOL 1110.

BIOL 4470* Plant Ecology Laboratory (Lecture Portion) 2 (1) Experimental and observational approach to addressing problems discussed in BIOL 4460. Students are introduced to field and laboratory methods involving individual organisms, populations, and communities. Includes Honors sections. Preq or concurrent enrollment: BIOL 4460. Coreq: BIOL 4471.

BIOL 4471* Plant Ecology Laboratory (Lecture Portion) 2 (1) Examination of a broad range of topics concerned with the development of multicellular animals such as gametogenesis, fertilization, embryonic development, cell differentiation, morphogenesis, larval metamorphosis, and regeneration. Laboratory exercises provide the rationale and methods for the descriptive and experimental analysis of development in representative invertebrates and vertebrates. Includes Honors sections. Preq or concurrent enrollment: BIOL 4470.

BIOL 4500* Developmental Biology Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4500. Coreq: BIOL 4501.

BIOL 4501* Developmental Biology Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4500. Coreq: BIOL 4500.

BIOL 4502* Biological Variation in Human Populations 3 (3) Provides an in-depth discussion of the most influential topics in human skeletal biology. Course explores the history and ethical dilemmas of the field, and examines how biological anthropologists use skeletons to reconstruct patterns of diet, disease, demography and physical activity in human populations. May be offered as ANTH 4501. Preq: ANTH 4510.

BIOL (PLPA) 4540* Plant Virology 4 (3) Study of plant viruses: their morphology, biochemistry, purification, and transmission; symptoms resulting from virus infection; virus vector relationships. Serological and necelic acid hybridization procedures. Diagnosis of viral diseases and the identification of causal agents. Replication of plant viruses, the interaction between viral host and plant genome. Control of plant viral diseases. May also be offered as PLPA 4540. Preq: BCHM 3010 or BCHM 3050; or MICR 3050. Coreq: BIOL 4541.

BIOL (PLPA) 4541* Plant Virology Laboratory 0 (3) Non-credit laboratory to accompany BIOL 4540. May also be offered as PLPA 4541. Coreq: BIOL 4540.

BIOL (MICR) 4560* Medical and Veterinary Parasitology 3 (3) Introduction to parasitism in the animal kingdom. Emphasizes basic and applied principles related to economically and medically important diseases. Classical and experimental approaches to the study of parasitism are examined in reference to protozoa, helminths, and arthropods. Includes Honors sections. May also be offered as MICR 4560. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110. Coreq: BIOL 4570.

BIOL 4570* Medical and Veterinary Parasitology Laboratory (Lecture Portion) 2 (1) Laboratory to reinforce material presented in BIOL 4560. Introduces students to both live and preserved human/animal parasites. Also introduces techniques used in collection, preservation, and examination of animal parasites. Includes Honors sections. May also be offered as MICR 4570. Coreq: BIOL 4560 and BIOL 4571.

BIOL 4571* Medical and Veterinary Parasitology Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4570. Coreq: BIOL 4570.

BIOL 4580* Cell Physiology 3 (3) Study of the chemical and physical principles of cell function emphasizing bioenergetics and membrane phenomena. Includes Honors sections. Preq: BCHM 3010 or BCHM 3050.

BIOL 4590* Systems Physiology Laboratory (Lecture Portion) 2 (1) Modern and classical experimental methods are used to demonstrate fundamental physiological principles discussed in BIOL 4590. Students are introduced to computer-aided data acquisition and computer simulations of physiological function. Preq or concurrent enrollment: BIOL 4590. Coreq: BIOL 4601.

BIOL 4601* Systems Physiology Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4600. Coreq: BIOL 4600.

BIOL 4610* Cell Biology 3 (3) In-depth analysis of how and where intracellular and extracellular molecules control general and specific cellular functions such as gene expression, secretion, motility, signaling, cell-cycle control and differentiation. Taught and graded at a level where students are expected to infer from and integrate cellular events. Includes Honors sections. Preq: BCHM 3010 or BCHM 3050.

BIOL 4620* Cell Biology Laboratory (Lecture Portion) 2 (1) Laboratory to accompany BIOL 4610. Focuses on molecular and microscopic analysis of eukaryotic cells. Preq or concurrent enrollment: BIOL 4610. Coreq: BIOL 4621.

BIOL 4621* Cell Biology Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4620. Coreq: BIOL 4620.

BIOL 4641* Mammalogy Laboratory 0 (3) Non-credit laboratory to accompany BIOL 4640. Coreq: BIOL 4640.

BIOL (ANTH) 4660* Evolution of Human Behavior 3 (3) Familiarizes students with the evolutionary basis of human behavior. Examines topics such as altruism, cooperation, mating systems, parental investment, and social systems using diverse examples, from hunter-gatherer to technological societies. May also be offered as ANTH 4660. Preq: ANTH 3510 or BIOL 3350 or BIOL 4700 or PSYC 2010.

BIOL 4670 Principles of Hematology 3 (3) Basic hematomal principles as they relate to normal blood cell production, as well as in abnormal conditions that result in diseases of the hematological system. Clinical practice, ethics and controversies in hematology are discussed. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110.

BIOL (WFB) 4680* Herpetology 4 (3) Physiology, functional morphology, ecology, evolution, biomechanics and current literature of amphibians and reptiles. Laboratory study examines morphology and identification of world families and United States genera, as well as southeastern species. Field trips are required. May also be offered as WFB 4680. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110. Coreq: BIOL 4681.

BIOL (WFB) 4681* Herpetology Laboratory 0 (3) Non-credit laboratory to accompany BIOL 4680. May also be offered as WFB 4681. Coreq: BIOL 4680.

BIOL (ENT, WFB) 4690* Aquatic Insects 3 (1) Identification, life history, habitats, and inter-relationships of aquatic insects; techniques of qualitative field collecting; important literature and research workers. Includes Honors sections. May also be offered as ENT 4690 or WFB 4690. Preq: ENT 3010. Coreq: BIOL 4691.

BIOL (ENT, WFB) 4691* Aquatic Insects Laboratory 0 (6) Non-credit laboratory to accompany BIOL 4690. May also be offered as ENT 4691 or WFB 4691. Coreq: BIOL 4690.

BIOL 4700* Behavioral Ecology 3 (3) Historical and modern developments in animal behavior emphasizing the evolutionary and ecological determinants of behavior. A synthesis of ethology and comparative psychology. Includes Honors sections. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110.

BIOL 4710* Behavioral Ecology Laboratory (Lecture Portion) 2 (1) Laboratory exercises that explore the behavior of animals. Emphasizes behavioral observation and analysis and presentation of findings in a report format. Includes a semester-long independent research project. Preq or concurrent enrollment: BIOL 4700. Coreq: BIOL 4711.

BIOL 4711* Behavioral Ecology Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4710. Coreq: BIOL 4710.

BIOL 4720* Ornithology 4 (3) Biology of birds: their origin and diversification, adaptations, phylogeny, classification, structure and function, behavior, ecology, and biogeography. Field identification is emphasized, and field trips are required. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110. Coreq: BIOL 4721.

BIOL 4721* Ornithology Laboratory 0 (3) Non-credit laboratory to accompany BIOL 4720. Coreq: BIOL 4720.

BIOL 4730* History of Modern Biology 3 (3) Examines the intellectual and social factors defining the study of life from the scientific revolution of the 1600's to the modern biological sciences. Investigates the historical origins of biological disciplines and explores the differing cultures, methodologies, and philosophical commitments of these communities. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110.

BIOL (ANTH) 4740* Primatology 4 (3) Biology of nonhuman primates, including their evolution, taxonomy, physiology, life history, behavioral ecology and conservation. Three field trips are required, during which students conduct behavioral observations and later analyze their data and present it in report format. May also be offered as ANTH 4740. Preq: ANTH 3510; and either BIOL 1110 or both BIOL 1040 and BIOL 1060. Coreq: BIOL 4741.

BIOL (ANTH) 4741* Primatology Laboratory 0 (3) Non-credit laboratory to accompany BIOL 4740. May also be offered as ANTH 4741. Coreq: BIOL 4740.

BIOL 4750* Comparative Physiology 3 (3) Physiological systems of invertebrates and vertebrates emphasizing environmental adaptations. Physiological principles as they relate to metabolism, thermoregulation, osmoregulation, respiration, and neural and integrative physiology. Includes Honors sections. Preq: Coreq: BIOL 4750. or both BIOL 1040 and BIOL 1060.

BIOL 4760* Comparative Physiology Laboratory (Lecture Portion) 2 (1) Modern classical experimental methods are used to demonstrate fundamental physiological principles discussed in BIOL 4750. Introduces students to computer-aided data acquisition and manipulation as well as computer simulation of physiological function. Includes Honors sections. Preq or concurrent enrollment: BIOL 4750. Coreq: BIOL 4761.

BIOL 4761* Comparative Physiology Laboratory 0 (6) Non-credit laboratory to accompany BIOL 4760. Coreq: BIOL 4760.

BIOL 4770* Ichthyology 3 (2) Systematics, life history, distribution, ecology, and current literature of fish. Laboratory study of morphology and identification of U.S. genera, as well as all southeastern species. Field trips are required. Preq: BIOL 4710 and BIOL 1060; or BIOL 1110. Coreq: BIOL 4771.

BIOL 4771* Ichthyology Laboratory 0 (3) Non-credit laboratory to accompany BIOL 4770. Coreq: BIOL 4770.

BIOL 4780 Exercise Physiology 3 (3) Introduction to the physiology of exercise. Focuses on the function and adaptations of body systems in response to exercise. Structured primarily for students interested in Prehabilitation Sciences. Preq: BIOL 2220 and BIOL 2230; or BIOL 3150 and BIOL 3160.

BIOL 4790 Kinesiology 3 (3) Introduction to the study of human movement. Focuses on the application of biomechanical and motor control principles to human movement, including daily living, sport, and work activities. Structured primarily for students interested in Prehabilitation Sciences. Preq: BIOL 2220 or BIOL 3150.

BIOL (AVS) 4800* Vertebrate Endocrinology 3 (3) Introduction to the basic principles of neuro-endocrine integration and homeostatic maintenance in vertebrates. Comparative morphology and physiology of various endocrine tissues and hormone chemistry and modes of action are considered. May also be offered as AVS 4800. Preq: BCHM 3030 or BCHM 3050.

BIOL (EDSC) 4820* Laboratory Techniques for Teaching Science 3 (1) Focuses on basic lab skills needed to plan, prepare, and conduct inquiry-based laboratories and to familiarize pre-service teachers with a variety of scientific equipment and their methodologies. Topics include ways to integrate technology into the classroom, lab safety, and the development of inquiry-based classroom activities. May also be offered as EDSC 4820. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110. Coreq: BIOL 4821.

BIOL (EDSC) 4821* Laboratory Techniques for Teaching Science 0 (6) Non-credit laboratory to accompany BIOL 4820. May also be offered as EDSC 4821. Coreq: BIOL 4820.

BIOL 4830* Stem Cell Biology 3 (3) Stem cells are the focus of intense interest because of their utility for treating human diseases. This course provides a broad treatment of the biology of stem cells and assesses their current therapeutic capacity in clinical medicine. Preq: BIOL 4610.

BIOL 4840* Human and Comparative Vertebrate Embryology 3 (3) Study of human and comparative embryology with an introduction to related clinical correlations. Students develop an understanding of normal and abnormal human and comparative vertebrate embryonic development. Includes Honors sections. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110.

BIOL 4860* Natural History 3 (3) Interdisciplinary examination, through readings and critical discussion, of concepts of nature and biodiversity in relation to human endeavors. Course seeks to achieve a balanced perspective from which to seek compromises between conflicting views of nature. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110.

BIOL 4870* Electron and Optical Microscopy Theory 3 (2) Offers a theoretical and practical introduction to light and electron microscopy. Topics include Koehler illumination, polarization, interference, phase contrast, DIC, epifluorescence, laser scanning light microscopy, SEM, TEM, EDS, ultramicrotomy, tomography, and digital imaging. Preq: Consent of instructor. Coreq: BIOL 4871.

BIOL 4871* Electron and Optical Microscopy Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4870. Coreq: BIOL 4870.

BIOL 4890 Clinical Applications and Medical Practice 3 (2) Explores the various fields, specialties, and subspecialties in medicine. Provides students with the opportunity to shadow physicians in a hospital and/or office setting and to discuss current issues and advances in medicine with practicing physicians and other health care professionals. Preq: Consent of instructor. Coreq: BIOL 4891.

BIOL 4891 Clinical Applications and Medical Practice Laboratory 0 (2) Non-credit laboratory to accompany BIOL 4890. Coreq: BIOL 4890.
BIOL 4910 Undergraduate Research in Biological Sciences 1-4 (1-6) Mentored research projects introduce undergraduate students to the planning and execution of research and the presentation of research findings. May be repeated for a maximum of eight credits. Honors students must take at least six credits under a single research advisor over two semesters and must write an honors thesis. Includes Honors sections. Prereq: Consent of instructor.

BIOL 4920 Internship in Biological Sciences 0-4 (3-12) Preplanned internship at an advisor-approved facility to give students learning opportunities beyond their classroom experiences. Students submit a Student Internship Contract and a study plan before the internship and a comprehensive report within one week of the end of the internship. May be repeated for a maximum of six credits. To be taken Pass/Fail only. Prereq: Consent of instructor.

BIOL 4930 Senior Seminar 2 (2) Capstone course engaging students in analysis and discussion of publications from the technical and non-technical literature in biological sciences and from current topics of biology appearing in other media. Students complete their undergraduate on-line digital portfolios. Emphasis is placed on ethical issues that arise as a result of biological research. Prereq: Senior standing; COMM 1500 or COMM 2500 or ENGL 3140 or ENGL 3150.

BIOL (MICR) 4940 Selected Topics in Creative Inquiry II 2-3 (1) Disciplinary and multidisciplinary group research projects with the goal of developing the students’ ability to discover, analyze, and evaluate data. Students are required to document their research activities in their portfolios. May be repeated for a maximum of six credits. Honors students must take at least six credits over a two-semester period with the same research advisor and write an honors thesis. These credits may include BIOL 3940, BIOL 4940 or both. Includes Honors sections. May also be offered as MICR 4940. Prereq: Consent of instructor. Coreq: BIOL 4941.

BIOL (MICR) 4941 Selected Topics in Creative Inquiry II Laboratory 0-3 (6) Non-credit laboratory to accompany BIOL 4940. May also be offered as MICR 4941. Coreq: BIOL 4940.

BIOL 4950 Service Learning in Biology 2-4 (1-2) Combines service and academic learning while helping pre-college or college students learn about the fundamental aspects of science. Provides lecture and laboratory experiences as students learn to prepare and participate in supervised laboratory teaching for pre-college or college students. May be repeated for a maximum of six credits. Prereq: Consent of instructor. Coreq: BIOL 4950.

BIOL 4951 Service Learning in Biology Laboratory 0 (3-9) Non-credit laboratory to accompany BIOL 4950. Coreq: BIOL 4950.

BIOL 4960 Selected Topics 1-4 (1-4) Lecture coverage of selected topics in cellular and developmental biology, ecology, behavior, evolutionary biology, molecular biology, physiology, systematics, and other topics in the biological sciences. May be repeated for a maximum of nine credits, but only if different topics are covered. Prereq: Consent of instructor.

BIOL 4970 Special Topics Laboratory 1-3 (2-9) Specialized laboratory experiences in cellular and developmental biology, ecology, behavior, evolutionary biology, molecular biology, physiology, systematics, and other topics of interest in the biological sciences. May be repeated for a maximum of nine credits, but only if different topics are covered. Prereq: Consent of instructor.

BIOMOLECULAR ENGINEERING

BMOL 4030* Biotransport Phenomena 3 (3) Analysis of single and multidimensional steady-state and transient problems in momentum, mass, and energy transfer in biological systems. Mathematical similarities and differences in these mechanisms are stressed, and mathematical descriptions of physiological and engineering systems are formulated. Prereq: CHE 3300 and MATH 2080.

BMOL 4230* Bioseparations 3 (3) Study of principal methods of separation and purification of bioprocesses, such as proteins, amino acids, and pharmaceuticals. Topics include analytical bioseparations, membrane separations, sedimentation, oil disruption, extraction, adsorption, chromatography, precipitation, crystallization, and dialysis. Prereq: CHE 3300; and BCHM 3010 or BCHM 3050 or BCHM 4230.

BMOL 4250* Biomolecular Engineering 3 (3) Introduction to basic principles of biomolecular engineering, the purposeful manipulation of biological molecules and processes, and issues in the life sciences, biotechnology, and medicine. Topics include carbohydrates, proteins, nucleic acids, and lipids with emphasis on their structure–property–function relations; molecular recognition; biochemical pathway engineering, and cell growth. Prereq: CHE 2300 and CHE 3190.

BMOL 4260* Biosensors and Bioelectronic Devices 3 (3) Development of methodologies used to design, fabricate, and apply biosensors and bioelectronic devices for the environmental, medical, and chemical industries. Application of fundamentals of measurement science to optical, electrochemical, mass, and thermal means of signal transduction. Use of the fundamentals of surface science to interpret bioimmobilization and biomolecule-surface interactions. Prereq: CHE 3300; and BCHM 3010 or BCHM 3050.

BMOL 4270* Membranes for Biotechnology and Biomedicine 3 (3) Students learn principles of membrane science and technology and study membrane applications in the biotechnology and biomedical industries. Advanced topics include surface modification of membranes, synthesis of porous membranes for biomedical applications such as tissue engineering, environmentally responsive membranes, and membrane-based biomedical devices. Prereq: CHE 3300.

BUSINESS

BUS 1010 Business Foundations 1 (1) Introduction to a variety of topics critical to student success, including an overview of Clemson business degrees, on-campus resources available to ensure success, academic advising, business ethics, internships, co-ops, study abroad programs, student organizations, ePortfolios, and Clemson history.

BUS 2910. Honors Seminar in International Business 1 (1) Introduction to the International Business Honors Program presented through a discussion of thesis expectations, study abroad experiences, and seminars given by returning senior International Business Honors students. To be taken Pass/No Pass only. Prereq: Membership in Calhoun Honors College.

BUS 2990 Creative Inquiry—Business 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarship activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits.

BUS 3910 International Business Honors Thesis Research 1 (1) Students work with a Clemson advisor and an international advisor to develop a research topic for the senior thesis. Students work and conduct research while participating in an approved study abroad. To be taken Pass/No Pass only. Prereq: BUS 2910.
BUS 3920 International Business Honors Thesis Proposal 1 (1) Students work with a Clemson advisor and an international advisor to complete a proposal for the senior thesis. Students work and conduct research while participating in an approved study abroad. To be taken Pass/No Pass only. Prereq: BUS 3910.

BUS 3990 Creative Inquiry—Business 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits.

BUS 4910 International Business Honors Thesis 1 3 (3) Students work with an advisor to conduct literature review and research on a senior thesis topic and prepare presentations and thesis drafts based on this work. Prereq: BUS 3920.

BUS 4920 International Business Honors Thesis II 3 (3) Students work with an advisor to complete a senior thesis. They prepare and present a seminar on the topic for presentation to faculty and other International Business Honors students. Prereq: BUS 4910.

BUS 4990 Creative Inquiry—Business 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits.

COLLEGE OF ARCHITECTURE, ARTS AND HUMANITIES

CAAH 2010 Cultural Literacies Across Media 3 (3) Hands-on practicum course in which students reflect critically on the cultural, racial, visual, professional and technological literacies learned as a result of a semester-long study abroad experience. May be repeated for a maximum of six credits. Prereq: Enrollment in a study abroad program and ENGL 1030.

CIVIL ENGINEERING

CE 1900 Creative Inquiry—Civil Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits. Prereq: Consent of faculty member/mentor.

CE 2010 Statics 3 (3) Forces and force systems and their external effect on bodies, principally the condition of equilibrium. The techniques of vector mathematics are employed, and the rigour of physical analysis is emphasized. Includes Honors sections. Prereq: PHYS 1220 with a C or better. Prereq or concurrent enrollment: ENGR 1090 and MATH 2060.

CE 2060 Structural Mechanics 4 (3) Builds on statics to develop relationships between external loads on structural elements of civil engineering interest and the resulting internal loads and deformations. Students are exposed to the development of stress and deformation formulas and the identification and use of significant mechanical properties of civil engineering materials. Prereq: CE 2010 and ENGR 1090 and MATH 2060. Coreq: CE 2061.

CE 2061 Structural Mechanics Laboratory 0 (3) Non-credit laboratory to accompany CE 2060. Coreq: CE 2060.

CE 2080 Dynamics 2 (2) Study of kinetics and kinematics of particles and rigid bodies, work and energy, impact and momentum. Prereq: CE 2010 and ENGR 1090, each with a C or better, and MATH 2060.

CE 2550 Geometrics 3 (2) Spatial data collection methods, including surveying, digital photogrammetry and remote sensing, and global positioning systems. Methods and technologies used to manage, manipulate, and analyze spatial and associated attribute data, including geographic information systems. Prereq or concurrent enrollment: ENGR 2100. Coreq: CE 2551.

CE 2551 Geometrics Laboratory 0 (3) Non-credit laboratory to accompany CE 2550. Coreq: CE 2550.

CE 2990 Creative Inquiry—Civil Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits. Prereq: Consent of faculty member/mentor.

CE 3010 Structural Analysis 3 (3) Calculation of design loads and load paths for buildings and other structures. Use of classical analysis techniques to determine support reactions, internal member forces, and structural displacements of statically determinate and indeterminate structural systems. Prereq: CE 2060.

CE 3110 Transportation Engineering Planning and Design 3 (3) Covers planning, design, and operation of transportation facilities, including highways and airports. Includes economic, safety, and environmental considerations. Public transit systems are covered. Prereq: CE 2550. Prereq or concurrent enrollment: MATH 3020.

CE 3210 Geotechnical Engineering 4 (3) Mechanical and physical properties of soils and their relation to soil action in problems of engineering, such as classification, permeability, shearing strength, and consolidation: design of embankments and retaining walls with geotextiles. Prereq: CE 2060 and GEOL 1010 and GEOL 1030. Coreq: CE 3211.

CE 3211 Geotechnical Engineering Laboratory 0 (3) Non-credit laboratory to accompany CE 3210. Coreq: CE 3210.

CE 3310 Construction Engineering and Management 3 (3) Considers construction contracts, technical specifications, cost estimating, project scheduling, cost control, materials management, quality control, and quality assurance. Prereq: Junior standing.

CE 3410 Introduction to Fluid Mechanics 4 (3) Introduction to fluid mechanics, including hydrostatics and fluid flow. Includes principles of mass, momentum, and energy conservation. Other topics include conduit flow, pump systems, and open channel flow. Laboratory experiments familiarize students with laboratory techniques and instrumentation. The Effective Technical Communications Laboratory is used to prepare a presentation for a lab assignment. Prereq: CE 2080 with a C or better or EM 2020 with a C or better. Coreq: CE 3411.

CE 3411 Introduction to Fluid Mechanics Laboratory 0 (3) Non-credit laboratory to accompany CE 3410. Coreq: CE 3410.

CE 3420 Applied Hydraulics and Hydrology 3 (3) Study of hydrologic cycle, including precipitation, evapotranspiration, infiltration, and runoff. Includes hydrograph analysis, gradually varied flow in open channel flow, design of stable channels, flood routing, groundwater hydraulics, flood frequency analysis, and hydrologic design. Prereq: CE 3410.

CE 3510 Civil Engineering Materials 4 (3) Introduces students to material science and basic properties of construction materials such as aggregate, Portland cement, asphalt cement, concrete, steel, ceramics, wood, and fibers. Experiments in lab and field trips to nearby plants are required. Oral and written communication skills are an integral part of this course. Prereq: ENGR 1090 and GEOL 1010 and GEOL 1030. Prereq or concurrent enrollment: CE 2060 and MATH 3020. Coreq: CE 3511.

CE 3511 Civil Engineering Materials Laboratory 0 (3) Non-credit laboratory to accompany CE 3510. Coreq: CE 3510.

CE 3520 Economic Evaluation of Projects 2 (2) Comparison of design alternatives based on engineering economic analysis. Introduces present worth, annual cost, rate of return, and benefit-cost ratio methods. Use of depreciation and taxation in project analysis.

CE 3530 Professional Seminar 1 (1) Discusses various professional topics related to skills and techniques for evaluating career opportunities, seeking and obtaining civil engineering employment, career development, professional registration, professional ethics, and other factors necessary for achieving success in a professional career. Enables students to make better decisions that will help them succeed in their careers. Prereq: Junior standing.

CE 3870 Junior Honors Project 1-3 (1-3) Studies or laboratory investigations on special topics in the civil engineering field which are of interest to individual students and faculty members. Arranged on a project basis for a maximum of individual student effort under faculty guidance. May be repeated for a maximum of three credits. Prereq: Junior standing in Civil Engineering Senior Departmental Honors Program.

Courses of Instruction 2015-2016 Undergraduate Announcements

Consent of faculty member/mentor.

Preq or concurrent enrollment: CE 3420.

Preq: Junior standing in engineering.

Preq: CE 3210 and MATH 3020.

Preq: CE 3110 and MATH 3020.

Preq: Consent of faculty member/mentor.

Preq: Junior standing in engineering.

Preq: CE 3110.

Preq: CE 3310.

Preq: CE 3210 and MATH 3020.

Preq: CE 3310.

Preq: CE 3310.
CE 4470* Stormwater Management 3 (3) Evaluation of peak discharges for urban and rural basins, design of highway drainage structures such as inlets and culverts; stormwater and receiving water quality; best management practices, detention and retention ponds, and erosion and sediment control. Preq: CE 3420. Preq or concurrent enrollment: EES 4010.

CE 4560 Pavement Design and Construction 3 (3) Introduction to design methods, construction practices, maintenance strategies, and decision making process related to pavements. Other topics, such as environmental considerations and special pavement types and materials, are also covered. Preq: CE 3110 and CE 3510. Preq or concurrent enrollment: CE 3210.

CE 4570 Materials Testing and Inspection 3 (3) Introduction to the role of testing and inspection professionals in civil engineering projects. Uses a practical approach to applying concepts to real-world situations through the completion of several team projects such as material characterization, construction QC/QA, forensic evaluation, and proposal development. Preq: CE 3210 and 3510.

CE 4590 Honors Research II 3 (3) Individual research under the direction of a Civil Engineering faculty member. Preq: CE 4880.

CE 4900 Special Projects 1-3 (1-3) Studies or laboratory investigations on special topics in civil engineering, which are of interest to individual students and staff members. Arranged on a project basis with a maximum of individual student effort and a minimum of staff guidance. May be repeated for a maximum of three credits. Preq: Senior standing.

CE 4910* Selected Topics in Civil Engineering 1-6 (1-6) Structured study of civil engineering topics not found in other courses. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

CE 4990 Creative Inquiry—Civil Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits. Includes Honors sections. Preq: Consent of faculty member/mentor.

COLLEGE OF ENGINEERING AND SCIENCE

CES 1900 Creative Inquiry in Engineering and Science I 1-3 (1-3) Individual or group projects in engineering and/or science. Projects may be interdisciplinary and involve analysis, design, and/or implementation. In addition to methods, tools, and equipment will be included where appropriate. May be repeated for a maximum of six credits. Includes Honors sections. Preq: Consent of instructor.

CES 2000 Creative Inquiry in Engineering and Science II 1-3 (1-3) Individual or group projects in engineering and/or science. Projects may be interdisciplinary and involve analysis, design, and/or implementation. In addition to methods, tools, and equipment will be included where appropriate. May be repeated for a maximum of six credits. Includes Honors sections. Preq: Sophomore standing and consent of instructor.

CES 3000 Creative Inquiry in Engineering and Science III 1-3 (1-3) Individual or group projects in engineering and/or science. Projects may be interdisciplinary and involve analysis, design, and/or implementation. Instruction in methods, tools, and equipment will be included where appropriate. May be repeated for a maximum of six credits. Includes Honors sections. Preq: Junior standing and consent of instructor.

CES 4900 Creative Inquiry in Engineering and Science IV 1-3 (1-3) Individual or group projects in engineering and/or science. Projects may be interdisciplinary and involve analysis, design, and/or implementation. Instruction in methods, tools, and equipment will be included when appropriate. May be repeated for a maximum of six credits. Includes Honors sections. Preq: Senior standing and consent of instructor.

CHEMISTRY

CH 1010 General Chemistry 4 (3) Introduction to the elementary concepts of chemistry through classroom and laboratory experience. Emphasizes chemical reactions and the use of symbolic representation, the mole concept and its applications and molecular structure. Includes Honors sections. Credit toward a degree will be given for only one of CH 1010 and CH 1050. Preq: CMPT score of 60 or higher; or CH 1040 or MATH 1050; or MATH 1010 or MATH 1020 or MATH 1030 with a C or better; or Preq or concurrent enrollment: MATH 1040 or MATH 1060 or MATH 1070 or MATH 1080 or MATH 2060 or MATH 2080 or STAT 2300. Coreq: CH 1011.

CH 1011 General Chemistry Laboratory 0 (3) Non-credit laboratory to accompany CH 1010. Coreq: CH 1010.

CH 1020 General Chemistry 4 (3) Continuation of CH 1010, treating solutions, rates of reactions, chemical equilibrium, electrochemistry, chemistry of selected elements, and an introduction to organic chemistry. Credit toward a degree will be given for only one of CH 1020 or CH 1060. Includes Honors sections. Preq: CH 1010 with a C or better. Coreq: CH 1021.

CH 1021 General Chemistry Laboratory 0 (3) Non-credit laboratory to accompany CH 1020. Coreq: CH 1020.

CH 1040 Concepts in Chemistry 2 (2) Covers chemical ideas and mathematical skills as applied to important topics including the particulate nature of matter, visualization of chemical behavior, and application of mathematical principles to describe chemical systems. Students who have received credit for any other chemistry course will not be allowed to enroll in or receive credit for CH 1040. To be taken Pass/No Pass only.

CH 1050 Chemistry in Context 1 4 (3) The chemistry of societal issues, including air quality, global warming, acid rain, and alternative energy sources is discussed in the context of their impact on society. May not be taken as a prerequisite for organic chemistry. Credit toward a degree will be given for only one of CH 1010 or CH 1050. Coreq: CH 1051.

CH 1051 Chemistry in Context I Laboratory 0 (3) Non-credit laboratory to accompany CH 1050. Coreq: CH 1050.

CH 1060 Chemistry in Context II 4 (3) Continuation of CH 1050. Topics include the chemistry of nuclear energy, new energy sources, nutrition, medicines, new materials, and genetic engineering. May not be taken as a prerequisite for organic chemistry. Credit toward a degree will be given for only one of CH 1020 or CH 1060. Preq: CH 1010 or CH 1050. Coreq: CH 1061.
CH 1061 Chemistry in Context II Laboratory (3) Non-credit laboratory to accompany CH 1060. Coreq: CH 1060.

CH 1410 Chemistry Orientation 1 (1) Lectures, discussions, and demonstrations devoted to health and safety in chemistry laboratories; use of the chemical literature; and career planning. Prereg or concurrent enrollment: CH 1010.

CH 1520 Chemistry Communication I 2 (2) Methods for scientific communication, including oral, written, and electronic formats. Service-learning projects engage participants with community needs pertaining to chemistry issues.

CH 1990 Creative Inquiry—Chemistry I 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereg: Consent of faculty member/mentor.

CH 2010 Survey of Organic Chemistry 3 (3) Introduction to organic chemistry emphasizing nomenclature, classes of organic compounds, and chemical literature; and career planning. Credit toward a degree will be given for only one of CH 2020 or CH 2270. Prereg: CH 1020.

CH 2020 Survey of Organic Chemistry Laboratory 1 (3) Laboratory emphasizing standard techniques of organic laboratory analysis with the synthesis and characterization of organic molecules discussed in CH 2010. Credit will be given for only one of CH 2020 or CH 2270. Prereg or concurrent enrollment: CH 1020.

CH 2050 Introduction to Inorganic Chemistry 3 (3) One semester treatment which emphasizes the properties and reactions of the more common chemical elements. Prereg: CH 1020.

CH 2230 Organic Chemistry 3 (3) Introductory course in the principles of organic chemistry with the derivation of these principles from a study of the properties, preparations, and interrelationships of the important classes of organic compounds. Credit toward a degree will be given for only one of CH 2230 or CH 2220. Prereg: CH 1020.

CH 2240 Organic Chemistry 3 (3) Continuation of CH 2230. Prereg: CH 2230.

CH 2270 Organic Chemistry Laboratory 1 (3) Synthesis and properties of typical examples of the classes of organic compounds. Credit toward a degree will be given for only one of CH 2270 or CH 2290. Prereg or concurrent enrollment: CH 2230.

CH 2280 Organic Chemistry Laboratory 1 (3) Continuation of CH 2270. Prereg: CH 2270. Prereg or concurrent enrollment: CH 2240.

CH 2290 Organic Chemistry Laboratory 1 (3) One-semester laboratory for Chemical Engineering students. Credit toward a degree will be given for only one of CH 2270 or CH 2290. Prereg: CH 2230.

CH 2990 Creative Inquiry—Chemistry II 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereg: Consent of faculty member/mentor.

CH 3100 Physical Chemistry 3 (3) Includes the gaseous state, thermodynamics, chemical equilibria, acid-base and molecular structure, from both experimental and theoretical points of view. Credit toward a degree will be given for only one of CH 3310 or CH 3320. Prereg: MATH 1060.

CH 3310 Physical Chemistry 3 (3) Physical Chemistry 3 (3) One-semester treatment of physical chemistry emphasizing topics that are especially useful in the life sciences, agriculture, and medicine: chemical thermodynamics, equilibrium, solutions, kinetics, electrochemistry, macromolecules, and surface phenomena. Credit toward a degree will be given for only one of CH 3310 or CH 3320. Prereg or concurrent enrollment: CH 3130.

CH 3310 Physical Chemistry 1 (3) Topics include basic electronics, statistics, optical, mass, magnetic resonance, electron and x-ray spectroscopies, radiochemistry, and separation science. Prereg: CH 3310. Prereg or concurrent enrollment: CH 3320.

CH 3320 Physical Chemistry 3 (3) Continuation of CH 3310, including chemical kinetics, liquid and solid state, phase equilibria, solutions, electrochemistry, and surfaces. Includes Honors sections. Prereg: CH 3310 or CHE 2200.

CH 3390 Physical Chemistry Laboratory 1 (3) Experiments are selected to be of maximum value to Chemistry and Chemical Engineering majors. Prereg or concurrent enrollment: CH 3310 or CHE 2200.

CH 3400 Physical Chemistry Laboratory 1 (3) Continuation of CH 3390. Prereg or concurrent enrollment: CH 3320.

CH 3600 Chemical Biology 3 (3) Introduction to the chemical foundations of biological phenomena, focusing on bioorganic, biophysical, bioinorganic, and biochemical chemistry principles. Prereg: CH 2010 or CH 2230.

CH 3990 Creative Inquiry—Chemistry III 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereg: Consent of faculty member/mentor.

CH 4000 Selected Topics in Chemistry 1-3 (1-3) Comprehensive study of topics of current interest in chemistry. May be repeated for a maximum of twelve credits, but only if different topics are covered.

CH 4010 Organometallic Chemistry 3 (3) Organometallic compounds are useful in applications ranging from large-scale industrial reactions to antibiotics, and this versatility arises from the chemically unique metal-carbon bond. Course begins with fundamental coordination chemistry, then progresses through ligand substitution, oxidative addition/reductive elimination, catalytic transformations and polymerization reactions. Includes honors sections. Prereg: CH 2230.

CH 4020 Inorganic Chemistry 3 (3) Basic principles of inorganic chemistry are discussed with special emphasis on atomic structure, chemical bonding, solid state, coordination chemistry, organometallic chemistry, and acid-base theories. The chemistry of certain selected elements is treated. Includes Honors sections. Prereg: CH 3310 and CH 3320.

CH 4030 Advanced Synthetic Techniques 2 (6) Introduction to advanced laboratory techniques in synthesis and characterization of inorganic and organic compounds. Laboratory sessions consist of a set of eight experiments in modern fields of chemistry, including superconductivity, buckminsterfullerene, bioinorganic chemistry, medicinal chemistry, asymmetric synthesis, and polymer chemistry. Prereg: CH 2050 or CH 4020; and CH 2270; and CH 2280; and CH 3400 or CH 4120.

CH 4040 Bioinorganic Chemistry 3 (3) Covers fundamentals of bioinorganic chemistry with review of necessary inorganic and biochemical concepts. Topics include metal uptake, transport, and storage in biological systems; functions of metals in proteins; metal ion interactions with nucleic acids; physical methods used in bioinorganic chemistry; heavy element toxicity, radiopharmaceuticals and other metalloids. Includes Honors sections. Prereg: BCHM 3010 or CH 2050.

CH 4110 Instrumental Analysis 3 (3) Principles of operation and application of modern chemical instrumentation in the field of analytical chemistry. Topics include basic electronics, statistics, optical, mass, magnetic resonance, electron and x-ray spectroscopies, radiochemistry, and separation science. Prereg: CH 3310. Prereg or concurrent enrollment: CH 3320.

CH 4120 Instrumental Analysis Laboratory 2 (5) Reinforces principles of chemical instrumentation described in CH 4110 by practical, hands-on experience. Aspects of sample preparation, standardization, data acquisition and interpretation, and report formulation procedures common in chemical analyses are considered for a range of modern instrumental methods. Prereg or concurrent enrollment: CH 4110.

CH 4130 Chemistry of Aqueous Systems 3 (3) Study of chemical equilibria in aqueous systems, especially natural waters; acids and bases, dissolved CO2, precipitation and dissolution, oxidation-reduction, adsorption, etc. Includes Honors sections. Prereg: CH 1020 or 1060.
CH 4140* Bioanalytical Chemistry 3 (3) Survey of selected areas of importance in bioanalytical chemistry. Fundamental principles, advanced topics, and applications of analytical measurements of biomolecules, bioassays, immunomas, separations, mass spectrometry, method validation, macromolecular crystallography, microscopy, and imaging. Preq: CH 3130 and CH 4110.

CH 4250* Medicinal Chemistry 3 (3) Survey of the pharmaceutical drug discovery process. Covers discovery of candidate compounds, bioassay methods, and associated regulatory and commercial issues. Case studies are selected from the current literature. Preq: CH 2240.

CH 4270* Organic Spectroscopy 3 (2) Survey of modern spectroscopic techniques used in the determination of molecular structure. Emphasizes the interpretation of spectra: nuclear magnetic resonance, ultraviolet, infrared, mass spectrometry, optical rotatory dispersion, and circular dichroism. Includes Honors sections. Students are expected to have completed one year each of organic chemistry and physical chemistry. Coreq: CH 4271.

CH 4271* Organic Spectroscopy Laboratory 0 (3) Non-credit laboratory to accompany CH 4270. Coreq: CH 4270.

CH 4350* Atomic and Molecular Structure 3 (3) Introduction to quantum theory and its application to atomic and molecular systems. Topics include harmonic oscillator, hydrogen atom, atomic and molecular orbital methods, vector model of the atom, atomic spectroscopy, and molecular spectroscopy. Includes Honors sections. Preq: CH 3320.

CH 4360 Computational Quantum Chemistry and Electronic Structure Methods 3 (3) Hands-on introduction to electronic structure calculations. Topics include types of quantum mechanical calculations, the theory behind ab initio and density functional theory methods, basis sets and basis set effects. Emphasis is placed on understanding the results of calculations and relating them to basic chemical principles. Preq: CH 3320.

CH 4430 Research Problems 1-6 (3-18) Original investigation of an assigned problem in a fundamental branch of chemistry. Work must be carried out under the supervision of a member of the staff. May be repeated for a maximum of six credits. Includes Honors sections. Preq: Consent of instructor.

CH 4440 Research Problems 1-6 (3-18) Continuation of CH 4430. Original investigation of an assigned problem in a fundamental branch of chemistry. Work must be carried out under the supervision of a member of the staff. May be repeated for a maximum of six credits. Includes Honors sections. Preq: Consent of instructor.

CH 4500 Chemistry Capstone Laboratory 0 (6) Non-credit laboratory to accompany CH 4500. Coreq: CH 4500.

CH 4510* Frontiers in Polymer Chemistry 3 (3) Survey of selected areas of current research in polymer science with particular emphasis on polymer synthesis. Although a text is required for review and reference, course is primarily literature based and focused on areas of high impact to multidisciplined technology. Preq: CH 2230 and CH 2240 and MSE 4150.

CH 4520 Chemistry Communication II 1 (1) Methods for scientific communication, including oral, written, and electronic formats. Student presentations focus on current chemical literature topics pertinent to their CH 4430/444 undergraduate research or results of that work are appropriate. Preq: CH 1520.

CH 4710* Teaching Chemistry 3 (3) Study of topics in chemistry addressed in the context of constructivist methodologies. Also considers laboratory work, management, laboratory safety, and the use of technology in the chemistry classroom. Preq: Any 3000-level chemistry course. Students who have not completed a 3000-level chemistry course but have high school teaching experience may request an override from the instructor.

CHE 1000 Honors Seminar 1 (1) Acquaints students enrolled in the Departmental Honors Program with current research issues in the profession. This assists the student in preparing a research proposal for the Senior Thesis. To be taken Pass/No Pass only. Preq: CHE 2200 and CHE 2300; and admission to departmental honors program.

CHE 1070 Unit Operations Laboratory I 3 (2) Laboratory work in the unit operations of fluid flow, heat transfer, and evaporation. Stress is on the relation between theory and experimental results and the statistical interpretation of those results and on report preparation and presentation. Preq: CHE 2200 and CHE 2300. Coreq: CHE 3071.

CHE 1071 Unit Operations Laboratory I Laboratory 0 (3) Non-credit laboratory to accompany CHE 3070. Coreq: CHE 3070.

CHE 1101 Introduction to Chemical Engineering 4 (3) Introduction to fundamental concepts of chemical engineering, including mass and energy balances, PVT relationships for gases and vapors, and elementary phase equilibria; problem-solving and computer skills are developed in lab. Preq: CH 1020 and MATH 1080 and PHYS 1220 and CHE 1300. Coreq: CHE 2111.

CHE 1111 Introduction to Chemical Engineering Laboratory 0 (2) Non-credit laboratory to accompany CHE 2110. Coreq: CHE 2110.

CHE 2200 Chemical Engineering Thermodynamics 1 3 (3) Topics include first and second laws of thermodynamics, ideal gases, PVT properties of real fluids, energy balances with chemical reactions, and thermodynamic properties of real fluids. Preq: CHE 2110 and MATH 2060.

CHE 2300 Fluids/Heat Transfer 4 (3) General principles of chemical engineering and study of fluid flow, fluid transportation, and heat transmission. Special emphasis is placed on theory and its practical application to design. Preq: CHE 2110. Preq or concurrent enrollment: CHE 2200 and MATH 2060. Coreq: CHE 2301.

CHE 2301 Fluids/Heat Transfer Laboratory 0 (2) Non-credit laboratory to accompany CHE 2300. Coreq: CHE 2300.

CHE 2990 Creative Inquiry—Chemical and Biomolecular Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of faculty member/mentor.

CHEMICAL ENGINEERING

CHE 1300 Chemical Engineering Tools 2 (1) Tools and methods for analyzing engineering problems with applications in chemical and biochemical processes, including development of process flow diagrams, numerical methods, graphing, and applied statistics. Problem-solving and computer skills are developed in the lecture and laboratory activities. Preq: CH 1010 and ENGR 1060, each with a C or better. Preq or concurrent enrollment: MATH 1060 or MATH 1070; and PHYS 1220. Coreq: CHE 1301.

CHE 1301 Chemical Engineering Tools Laboratory 0 (2) Non-credit laboratory to accompany CHE 1300. Coreq: CHE 1300.

CHE 1990 Creative Inquiry—Chemical and Biomolecular Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of faculty member/mentor.

CHE 2110 Introduction to Chemical Engineering 4 (3) Introduction to fundamental concepts of chemical engineering, including mass and energy balances, PVT relationships for gases and vapors, and elementary phase equilibria; problem-solving and computer skills are developed in lab. Preq: CH 1020 and MATH 1080 and PHYS 1220 and CHE 1300. Coreq: CHE 2111.

CHE 2111 Introduction to Chemical Engineering Laboratory 0 (2) Non-credit laboratory to accompany CHE 2110. Coreq: CHE 2110.

CHE 2200 Chemical Engineering Thermodynamics 1 3 (3) Topics include first and second laws of thermodynamics, ideal gases, PVT properties of real fluids, energy balances with chemical reactions, and thermodynamic properties of real fluids. Preq: CHE 2110 and MATH 2060.

CHE 2300 Fluids/Heat Transfer 4 (3) General principles of chemical engineering and study of fluid flow, fluid transportation, and heat transmission. Special emphasis is placed on theory and its practical application to design. Preq: CHE 2110. Preq or concurrent enrollment: CHE 2200 and MATH 2060. Coreq: CHE 2301.

CHE 2301 Fluids/Heat Transfer Laboratory 0 (2) Non-credit laboratory to accompany CHE 2300. Coreq: CHE 2300.

CHE 2990 Creative Inquiry—Chemical and Biomolecular Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of faculty member/mentor.

CHE 3000 Honors Seminar 1 (1) Acquaints students enrolled in the Departmental Honors Program with current research issues in the profession. This assists the student in preparing a research proposal for the Senior Thesis. To be taken Pass/No Pass only. Preq: CHE 2200 and CHE 2300; and admission to departmental honors program.

CHE 3070 Unit Operations Laboratory I 3 (2) Laboratory work in the unit operations of fluid flow, heat transfer, and evaporation. Stress is on the relation between theory and experimental results and the statistical interpretation of those results and on report preparation and presentation. Preq: CHE 2200 and CHE 2300. Coreq: CHE 3071.

CHE 3071 Unit Operations Laboratory I Laboratory 0 (3) Non-credit laboratory to accompany CHE 3070. Coreq: CHE 3070.

CHE 3120 Chemical Engineering Thermodynamics II 3 (3) Continuation of CHE 2200. Topics include thermodynamics of power cycles and refrigeration/liquefaction, thermodynamic properties of homogeneous mixtures, phase equilibria, and chemical reaction equilibria. Preq: CHE 2200 and MATH 2080.
CHE 3300 Mass Transfer and Separation Processes 4 (3) Study of mass transport fundamentals and application of these fundamentals to separation technologies, with emphasis on gas absorption, stripping, distillation, and liquid-liquid extraction. Preq: CHE 2300. Coreq: CHE 3301.

CHE 3301 Mass Transfer and Separation Processes Laboratory 0 (2) Non-credit laboratory to accompany CHE 3300. Coreq: CHE 3300.

CHE 3530 Process Dynamics and Control 3 (3) Mathematical analysis of the dynamic response of process systems. Basic automatic control theory and design of control systems for process applications. Preq: CHE 2300 and MATH 2080. Coreq or concurrent enrollment: CHE 3300.

CHE 3950 Honors Research 1 3 (9) Individual research under the direction of a Chemical Engineering faculty member. Preq: CHE 3000.

CHE 3990 Creative Inquiry—Chemical and Biomolecular Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Coreq: Consent of faculty member/mentor.

CHE 4010* Transport Phenomena 3 (3) Mathematical analysis of single and multidimensional steady-state and transient problems in momentum, energy, and mass transfer. Both the similarities and differences in these mechanisms are stressed. Preq: CHE 3300 and MATH 2080.

CHE 4070 Unit Operations Laboratory II 3 (1) Continuation of CHE 4070 with experiments primarily on the distillations operation. Additional lecture material on report writing and general techniques for experimental measurements and analysis of data, including statistical design of experiments. Preq: CHE 3070 and CHE 3300. Coreq: CHE 4070.

CHE 4071 Unit Operations Laboratory II Laboratory 0 (6) Non-credit laboratory to accompany CHE 4070. Coreq: CHE 4070.

CHE 4120* Polymer Engineering 3 (3) Design oriented course in synthetic polymers. Topics include reactor design used in polymer production, effect of step versus addition kinetics on reactor design, epoxide curing reactions, polymer solubility, influence of polymerization and processing conditions on polymer crystallinity. Preq: CH 2240 and CH 3320.

CHE 4310 Chemical Process Design I 3 (3) Steps in creating a chemical process design from original concept to successful completion and operation. Topics include process layout, equipment selection and sizing, safety and environmental evaluation, engineering economics, simulation, evaluation of alternatives, and optimization. Preq: CHE 3070 and CHE 3210 and CHE 3300. Coreq or concurrent enrollment: CHE 4500.

CHE 4330 Process Design II Laboratory 0 (6) Non-credit laboratory to accompany CHE 4330. Coreq: CHE 4330.

CHE 4430 Chemical Engineering Senior Seminar 1 1 (1) Preparation of senior chemical engineering students for entry into the profession. Timely information on job interviewing skills, career placement and guidance, professional registration, professional behavior and ethics, and management of personal finances. Outside speakers are used frequently. To be taken Pass/No Pass only. Coreq or concurrent enrollment: CHE 4310.

CHE 4440 Chemical Engineering Senior Seminar II 1 (1) Working in groups, students present and discuss topics related to professional practice, ethics, business, industrial safety, the environment, and selected technical subjects of interest to society. To be taken Pass/No Pass only. Preq: CHE 4430. Coreq or concurrent enrollment: CHE 4330.

CHE 4450* Selected Topics in Chemical Engineering 3 (3) Topics not covered in other courses, emphasizing current literature, research, and practice of chemical engineering. Topics vary from year to year. May be repeated, but only if different topics are covered. Coreq: Consent of instructor.

CHE 4500* Chemical Reaction Engineering 3 (3) Review of kinetics of chemical reactions and an introduction to the analysis and design of chemical reactors. Topics include homogeneous and heterogeneous reactions, batch and continuous flow reaction systems, catalysis, and design of industrial reactors. Preq: CHE 3210 and CHE 3300 and CH 3320.

CHE 4910* Special Projects in Chemical Engineering 1-3 (1-3) Topics requested by students or offered by faculty as the need arises. Topics may include review of current research in an area, technological advances, and national engineering goals. May be repeated for a maximum of six credits, but only in different topics are covered. Includes Honors sections. Coreq: CHE 3950.

CHE 4950* Honors Research II 3 (9) Individual research under the direction of a chemical engineering faculty member. Preq: CHE 3950.

CHE 4970* Honors Thesis 1 (1) Preparation of honors thesis based on research conducted in CHE 3950 and CHE 4950. Preq: CHE 4950.

CHE 4990 Creative Inquiry—Chemical and Biomolecular Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Coreq: Consent of faculty member/mentor.

CHINESE Associate Professors: Y. An, Y. Zhang; Lecturer: S. Chen

CHIN 1010 Elementary Chinese Laboratory 0 (1) Non-credit laboratory to accompany CHIN 1010. Coreq: CHIN 1010.

CHIN 1021 Elementary Chinese Laboratory 0 (1) Non-credit laboratory to accompany CHIN 1020. Coreq: CHIN 1020.

CHIN 2010 Intermediate Chinese 3 (3) Intermediate course with more emphasis on communication skills and structure. Reading and writing practice without phonetic aids; oral practice in and outside the class, paying special attention to idiomatic usage; introduction to cultural perspectives through readings and cultural activities. Preq: CHIN 1020. Coreq: CHIN 2011.

CHIN 2970 Creative Inquiry—Chinese 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration. Coreq: Consent of faculty member(s).

CHIN 3050 Chinese Conversation and Composition 1 3 (3) Practice in the spoken language emphasizing vocabulary, word-combinations, pronunciation, and comprehension. Learning practical language skills and intercultural communication by studying various topics. Preq: CHIN 2020.

CHIN 3060 Chinese Conversation and Composition II 3 (3) Continuation of CHIN 3050. More practice in the spoken language emphasizing vocabulary, word combinations, pronunciation, and comprehension. Learning practical language skills and intercultural communication by studying various topics. Preq: CHIN 3050.

CHIN (PHIL) 3120 Philosophy in Ancient China 3 (3) Study of the history of Chinese philosophy from fifth century BCE, including Confucianism, Daoism, Moism, legalism, Buddhism, Neo-Daoism, and Neo-Confucianism. Examination of Chinese philosophers’ views and arguments on questions of life and death, history and society, education and personal cultivation. May not be used to satisfy general foreign language requirements. May also be offered as PHIL 3120.

CHIN (PHIL) 3130 Philosophy in Modern China 3 (3) Study of the history of Chinese philosophy from the 19th century BCE, including Confucianism, Daoism, Moism, legalism, Buddhism, Neo-Daoism, and Neo-Confucianism. Examination of Chinese philosophers’ views and arguments on questions of life and death, history and society, education and personal cultivation. May not be used to satisfy general foreign language requirements. May also be offered as PHIL 3130.

CHIN 3170 Chinese for Health Professionals I 3 (3) Study of medical concepts and terminology emphasizing communicative competence in health-related settings in a Chinese-speaking community. Designed for students who plan to work in public health related professions. Preq: CHIN 2020 and CHIN 3050.

CHIN 3970 Creative Inquiry—Chinese 1-4 (1-4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic. Preq or concurrent enrollment: CHIN 3010. Coreq: CHIN 3060.

CHIN 4010 Pre-Modern Chinese Literature in Translation 3 (3) Chinese literature from 8th century B.C.E. to 19th century C.E., including poetry, prose, drama, fiction, and literary criticism. All readings and discussions are in English.

CHIN 4110 Studies in the Chinese Language I: Literature 3 (3) Advanced training in the spoken and written language through readings in contemporary literature emphasizing vocabulary, syntax, and stylistics. All readings and discussions are in Chinese. Preq: CHIN 3060.

CHIN 4120 Studies in the Chinese Language II: Social Issues 3 (3) In-depth study of terminology and syntax for specific subject areas in contemporary social issues. All readings and discussions are in Chinese. Preq: CHIN 3060.

CHIN 4160 Chinese for International Trade II 3 (3) Study of language, concepts, and the environment of Chinese-speaking markets of the world. Considers sociocultural, political, and economic issues relevant to the Chinese-speaking business world and the ramifications of these issues in global marketing. Classes are conducted in Chinese. Preq: CHIN 3160.

CHIN 4170 Chinese for Health Professionals II 3 (3) Continuation of CHIN 3170 with increased emphasis on managerial aspects of the health-care system in China. Taught in Chinese. Preq: CHIN 3170.

CHIN (ANTH) 4180 Chinese Culture and Society 3 (3) Examines basic cultural values and the patterns of Chinese social life. Focuses on Chinese social organization and interpersonal dynamics, including the family system, gender identities, social exchanges and networks. All readings and discussions are in English. May not be used to satisfy general foreign language requirements. May also be offered as ANTH 4180.

CHIN 4970 Creative Inquiry—Chinese 1-4 (1-4) Continuation of research initiated in CHIN 3970. Students complete their projects and disseminate their research results. Preq: CHIN 3970.

CHIN 4980 Independent Study 1-3 (1-3) Supervised study and research on selected topics in Chinese studies. May be repeated for a maximum of six credits. Preq: Junior standing and consent of department chair.

CHIN 4990 Selected Topics in Chinese Culture 3 (3) Examination of various social and cultural topics, including art and literature, philosophical and religious traditions, health and healing, and folk and popular cultures. May be repeated for a maximum of six credits, but only if different topics are covered. Readings and discussions are in English. May not be used to satisfy general foreign language requirements.

COMM 1010 Communication Academic and Professional Development I 1 (1) Introduces students to General Education and Communication Studies major requirements, develops connections between general education and major courses, explores careers in communication, and prepares students to develop digital portfolios, résumés, and interview skills specific to communication professions and/or graduate school. To be taken Pass/No Pass only.

COMM 1500 Introduction to Human Communication 3 (2) Overview of theoretical approaches to the study of communication, including the theory and practice of interpersonal/small group/intercultural/public communication. Includes a laboratory. Coreq: COMM 1501.

COMM 1501 Introduction to Human Communication Laboratory 0 (2) Non-credit laboratory to accompany COMM 1500. Coreq: COMM 1500.

COMM 1620 Forensic Laboratory 1 (3) Research, preparation, and practice leading to participation in on-campus and intercollegiate debate and individual events competition. May be repeated for a maximum of four credits.

COMM 1630 Advanced Forensic Laboratory 1 (3) Advanced research, preparation, and practice leading to continued participation in on-campus and intercollegiate debate and individual events competition. May be repeated for a maximum of four credits. Preq: COMM 1620.

COMM 1800 Introduction to Cross-Cultural Communication 3 (3) Introductory course designed to provide an overview to intercultural communication questions stemming from the growing diversity and interconnectedness of the world. Students are challenged to learn about the ways people from different cultural backgrounds think, communicate and behave based on the value systems and worldviews that ground them.

COMM 2010 Introduction to Communication Studies 4 (3) Introduces Communication Studies majors to and prepares them for continued study in the discipline by providing them with an overview of important issues, areas of study, and approaches to the field. Includes a writing laboratory experience. Preq: COMM 1010. Coreq: COMM 1111.

COMM 2501 Public Speaking 0 (1) Non-credit laboratory to accompany COMM 2500. Coreq: COMM 2501.

COMM 2502 Public Speaking Laboratory 0 (1) Non-credit laboratory to accompany COMM 2502. Coreq: COMM 2500.

COMM 3010 Communication Theory 3 (3) Students explore the breadth and depth of theories within the major frameworks of the communication studies discipline. Preq: COMM 2010 with a C or better.

COMM 3020 Mass Communication Theory 3 (3) Survey of the breadth and history of theories of mass communication and mass media from the 19th century to the present. Emphasizes contemporary schools of thought, theoretical debates, and the continuing controversies in the field. Preq: COMM 2010 with a C or better.

COMM 3030 Communication Law and Ethics 3 (3) Major topics in communication law and free expression and in communication ethics. Preq: COMM 3020 with a C or better.

COMM 3050 Persuasion 3 (3) Study of the processes by which communication influences attitudes, beliefs, and behaviors in our personal, social, civic, and professional lives. After discussion of definitional and methodological issues, particular theories of persuasion are examined. Treatment of political, market-driven, and social persuasion concludes the course. Preq: COMM 2010 with a C or better.

COMM 3060 Discourse, Criticism, and Society 3 (3) Students explore theoretically-grounded methods of critical and cultural description, analysis, interpretation, and evaluation of public discourse. Preq: COMM 2010 with a C or better.

COMM 3070 Public Communication of Science and Technology 3 (3) Examines the role of science and technology in society from a communication perspective. Particular attention is paid to this dynamic in public culture. Students examine an array of theoretical issues and case studies in this area. Preq: COMM 2010 with a C or better.
COMM 3080 Public Communication and Popular Culture 3 (3) Examines artifacts of popular culture, paying particular attention to their relationship to politics and public life. Explores the structures and constraints of the culture industry. Students apply communication principles to various examples. Preq: COMM 2010 with a C or better.

COMM 3090 Visual Discourse and the Public 3 (3) Examines the role of visuality in society and the cultural implications for ways of seeing. Using visual artifacts of various types, students learn the logic of visual representation. Preq: COMM 2010 with a C or better.

COMM 3100 Qualitative Research Methods in Communication Studies 3 (3) Explores methods of quantitative communication inquiry, including theory/research relationship, conducting studies, and utilizing statistical software. Methods may include experiments, surveys, and content analysis. Preq: COMM 2010 with a C or better.

COMM 3110 Qualitative Research Methods in Communication Studies 3 (3) Explores methods of qualitative communication inquiry, including theory/research relationship, conducting studies, and utilizing statistical software. Methods may include interviewing, focus groups, textual analysis, and ethnography. Preq: COMM 2010 with a C or better.

COMM 3150 Critical Discourse Theory 3 (3) Introduction to a variety of theoretical concepts associated with the critical study of public discourse. Students analyze theories related to the strategic use of language and its epistemological characteristics. Theoretical topics may include critical/cultural studies, visual communication, ideology, persona, social change, and identity studies. Preq: COMM 2010 with a C or better.

COMM (WS) 3160 Girlhood, Media, and Popular Culture 3 (3) Explores how the mass media and popular culture contribute to social constructions of girlhood. Employing the critical lens of feminist and communication theories, students examine mediated depictions of girls as well as how girls actively produce and negotiate media and popular culture. May also be offered as WS 3160. Preq: COMM 2010 with a C or better or WS 3100.

COMM 3200 Broadcast Production 3 (2) Explores the broadcast side of journalism. Students produce broadcast video packages, as well as newscasts. Students learn news writing, filming and video editing. Coreq: COMM 3201.

COMM 3201 Broadcast Production Laboratory 0 (2) Non-credit laboratory to accompany COMM 3200. Coreq: COMM 3200.

COMM 3210 Communication Across Media Platforms 3 (3) Provides an overview of the communication convergence strategies and practices used across multiple media platforms, including print, broadcast, Internet and social media. Emphasis is placed on media law, ethics and communication practices used across multiple media platforms. Preq: COMM 2010 with a C or better.

COMM 3220 Communication Design 3 (2) Provides an overview of the communication theories, tools and techniques available to design, manipulate and convey technological messages and experiences in digital contexts. Provides knowledge and critical skills necessary to consider communication design as an important and inevitable component of communication studies careers.

COMM 3221 Communication Design Laboratory 0 (2) Non-credit laboratory to accompany COMM 3220.

COMM 3240 Communication, Sport and Society 3 (3) Covers the cultural influence of communication about sports on society. Explores how communication enables cultural meanings and values to become associated and established within sports. Exposes students to the ways factors such as race, gender and nationalism manifest and perpetuate via communication about sports. Preq: COMM 2010 with a C or better.

COMM 3250 Survey of Sports Communication 3 (3) Covers fundamentals of communicating in a sports environment. Includes the basics of communicating for print and broadcast news, as well as communicating for sports information. Also covers ethical considerations in sports communications. Preq: COMM 2010 with a C or better.

COMM 3260 Public Relations in Sports 3 (3) Focuses on the preparation of professional sporting communication materials for both internal and external audiences. Topics include the mechanics of creating press releases and other materials, as well as techniques in managing crises. Preq: COMM 2010 with a C or better.

COMM 3270 Sports Media Criticism 3 (3) Students gain in-depth understanding of sports communication issues through critically analyzing actual media content of sporting events, addressing social issues involved in college and professional sports, and developing an understanding of sports promotion and advertising. Preq: COMM 2010 with a C or better.

COMM 3300 Nonverbal Communication 3 (3) Develops a knowledge of the functions of nonverbal behaviors in human interaction. This includes the study of gesture and movement, physical appearance, vocal behavior, immediacy, time and space, and intercultural differences. Promotes understanding of nonverbal rules. Preq: COMM 2010 with a C or better.

COMM 3480 Interpersonal Communication 3 (3) Survey of the theories and research in interpersonal communication with an emphasis on the application of research findings and developmental strategies for intra- and intercultural relationships. Preq: COMM 2010 with a C or better.

COMM 3500 Small Group and Team Communication 3 (3) Examines the principles and skills involved in effective small-group communication. Preq: COMM 2010 with a C or better.

COMM 3550 Principles of Public Relations 3 (3) Students learn the principles, theories, process, history and contexts of public relations. Preq: COMM 2010 with a C or better.

COMM 3560 Stakeholder Communication 3 (3) Focuses on external stakeholders such as the media, the community, and the government. Students learn theory- and research-based communication tactics to manage various stakeholder relationships. Preq: COMM 3550.

COMM 3610 Argumentation and Debate 3 (3) Basic principles of argumentation with emphasis on developing skills in argumentative speech. The role of the advocate in contemporary society with an emphasis on and an appreciation of formal debate. Preq: COMM 2500.

COMM 3620 Communication and Conflict Management 3 (3) Introduces the study of communication practices in conflict situations within various personal and professional settings. Emphasis is on the central role of communication in the understanding and management of conflict. Preq: COMM 2010 with a C or better.

COMM 3640 Organizational Communication 3 (3) Examination of the process, theories, and techniques of communications within small groups and other organized bodies. Preq: COMM 2010 with a C or better.

COMM 3660 Special Topics in Communication Studies 3 (3) Consideration of select major areas of practice in the field with a focus on application of communication concepts. May be repeated for a maximum of nine credits, but only if different topics are covered.

COMM 3680 Applied Communication 3 (3) Students apply and develop practical knowledge and skills relevant to specific research areas in communication studies as determined by instructor. Areas may include organizational, health, media and technological communication. Preq: COMM 2010 with a C or better; and COMM 3060 or 3100 or 3110, each with a C or better.

COMM 3690 Political Communication 3 (3) Examination of American political rhetoric after 1900, focusing on such notable speakers as Franklin D. Roosevelt, John F. Kennedy, and Martin Luther King Jr. Preq: COMM 2010 with a C or better.

COMM 3900 Communication Studies Internship 3 (9) Preplanned, preapproved, faculty-supervised internship provides Communication Studies majors with field experience in areas related to their curriculum. May be repeated for a maximum of six credits. To be taken Pass/No Pass only. Preq: Junior standing and consent of faculty advisor.

COMM 3990 Creative Inquiry in Communication Studies 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue small group work on a particular research topic or practical problem. Arrangements with mentors must be established prior to registration. Content varies. May be repeated for a maximum of nine credits. Preq: COMM 2010 with a C or better.

COMM 4000 Communication and Globalization 3 (3) In-depth examination of the role communication plays in globalization processes, including case studies of contemporary social, technical, professional and ethical issues. Preq: COMM 2010 with a C or better.
COMM 4280 Interpersonal/Family Communication 3 (3) Introduces the process of communication between and among individuals from different cultures or subcultures. Emphasizes the effect of cultural practices within various communication relational contexts such as interpersonal, small group, and organizational communication. Preq: COMM 2010 with a C or better.

COMM 4910* Classical Rhetoric 3 (3) Traces the development of rhetoric from Protagoras through Isocrates, Plato, Aristotle, Cicero and Quintillian and considers questions essential to understanding persuasive theory and practice. May also be offered as ENGL 4910. Preq: ENGL 3100.

COMM 4920* Modern Rhetoric 3 (3) Examines the new rhetorics of the 20th century, which are grounded in classical rhetoric but include findings from biology, psychology, linguistics and anthropology, among other disciplines. May also be offered as ENGL 4920. Preq: ENGL 3100.

COMM 4950 Senior Capstone Seminar 3 (3) In-depth exploration and analysis of a special topic in Communication Studies, culminating in a senior project documented in written, oral, visual and/or multimedia presentations. Topics vary based on faculty expertise and research interests. May be repeated for a maximum of six credits. Preq: Senior standing in Communication Studies and one of the following courses with a C or better: COMM 3010 or COMM 3020 or COMM 3100.

COMM 4960 Honors Creative Inquiry Capstone 3 (3) Capstone course for honors students in the department's creative inquiry sequence. Working with their departmental honors advisor, students apply theoretical understanding and research skills in completing a written product of conference or publication length/quality. Must be taken for a total of six credits over the course of two semesters. Preq: Two of the following courses with a C or better in each: COMM 3060 or COMM 3100 or COMM 3110; and Senior standing in Communication Studies.

COMM 4800 Communication Academic and Professional Development II 1 (1) Students reflect upon curricular relationships among general education, major, and minor courses. They complete and revise digital portfolios for presentation to the major, University, graduate schools, or potential employers. Students participate in resume building, job seeking, and interviewing activities. Preq or concurrent enrollment: COMM 4950 or COMM 4960.

COMM 4990 Independent Study 1-3 (1-3) Tutorial work for students with special interests or projects in communication studies outside the scope of existing courses. May be repeated for a maximum of nine credits. Preq: Consent of department chair.
## Courses of Instruction

### COMPUTER SCIENCE

**CPSC 1010 Computer Science I 4 (3) Introduction to modern problem solving and programming methods. Special emphasis is placed on algorithm development and software life cycle concepts. Includes use of appropriate tools and discusses ethical issues arising from the impact of computing upon society. Intended for students concentrating in computer science or related fields. Includes Honors sections.\(\text{Preq or concurrent enrollment: MATH 1020 or MATH 1040 or MATH 1050 or MATH 1060 or MATH 1080 or MATH 2070.}\)** Students who do not meet the prerequisite, but who score a satisfactory score on the Clemson Mathematics Placement Test, or have AP or transfer credit for their math requirements, may request a registration override from the instructor. *Coreq: CPSC 1011.*

**CPSC 1011 Computer Science I Laboratory 0 (2)** Non-credit laboratory to accompany CPSC 1010. *Coreq: CPSC 1010.*

**CPSC 1020 Computer Science II 4 (3) Continuation of CPSC 1010. Continued emphasis on problem solving and program development techniques. Examines typical numerical, nonnumerical, and data processing problems. Introduces basic data structures. Credit may not be received for both CPSC 1010 and 2100. Includes Honors sections.\(\text{Preq: CPSC 1010 with a C or better.}\)**

**CPSC 1021 Computer Science II Laboratory 0 (2)** Non-credit laboratory to accompany CPSC 1020. *Coreq: CPSC 1020.*

**CPSC 1040 Introduction to the Concepts and Logic of Computer Programming 2 (1) Introduction to the concepts and logic of computer programming. Simple models are used to introduce basic techniques for developing a programmed solution to a given problem. Problem solving techniques are considered. Not open to students who have received credit for CPSC 1010, CPSC 1100, CPSC 1570, or CPSC 2100.\(\text{Coreq: CPSC 1041.}\)**

**CPSC 1041 Introduction to the Concepts and Logic of Computer Programming Laboratory 0 (2)** Non-credit laboratory to accompany CPSC 1040. *Coreq: CPSC 1040.*

**CPSC 1110 Introduction to Programming in C 3 (2)** Introduction to computer programming in C and its use in solving problems. Intended primarily for technical majors. Basic instruction in programming techniques, algorithms and standard Unix software development tools and utilities. Credit may not be received for both CPSC 1010 and CPSC 1110. *Coreq: CPSC 1111.*

**CPSC 1111 Introduction to Programming in C Laboratory 0 (2) Non-credit laboratory to accompany CPSC 1110. Coreq: CPSC 1110.*

**CPSC 1150 Introduction to Computational Science 3 (3) Introduction to systems thinking. Includes development of dynamical systems models using visual modeling tools and development of dynamical systems using agent based software. Class material investigates elementary science and engineering models.**

**CPSC 1200 Introduction to Information Technology 3 (3) Investigation of ethical and societal issues based on the expanding integration of computers into our everyday lives. Considers historical background, terminology, new technologies and the projected future of computers. Includes practical experience with common computer software technologies. Will not satisfy Computer Science Requirements in any Computer Science major. Coreq: CPSC 1201.*

**CPSC 1201 Introduction to Information Technology Laboratory 0 (2) Non-credit laboratory to accompany CPSC 1200. Coreq: CPSC 1200.*

**CPSC 1610 Introduction to Visual Basic Programming 3 (2) Introduction to programming using the Visual Basic language. Topics include simple and complex data types, arithmetic operations, control flow, files, and database programming. Several projects are implemented during the semester. Coreq: CPSC 1611.*

**CPSC 1611 Introduction to Visual Basic Programming Laboratory 0 (2)** Non-credit laboratory to accompany CPSC 1610. *Coreq: CPSC 1610.*

**CPSC 1650 Creative Inquiry in Computing I 3-1 (1-3)** Students engage in faculty-led research in the context of a team effort. May be repeated for a maximum of six credits.

**CPSC 2070 Discrete Structures for Computing 3 (3)** Introduces ideas and techniques from discrete structures that are widely used in the computing sciences. Topics emphasize techniques of rigorous argumentation and application to the computing disciplines. \(\text{Preq: CPSC 1010 or CPSC 1110; and MATH 1020 or MATH 1060.}\)

**CPSC 2100 Programming Methodology 4 (3)** Introduction to programming techniques and methodology. Topics include structured programming, stepwise refinement, program design and implementation techniques, modularization criteria, program testing and verification, basic data structures, and analysis of algorithms. Credit may not be received for both CPSC 2010 and 2100. *Preq: CPSC 1110 and satisfactory performance on a pretest. Coreq: CPSC 2101.*

**CPSC 2101 Programming Methodology Laboratory 0 (2)** Non-credit laboratory to accompany CPSC 2100. *Coreq: CPSC 2100.*

**CPSC 2120 Algorithms and Data Structures 4 (3)** Study of data structures and algorithms fundamental to computer science; abstract data-type concepts; measures of program running time and time complexity; algorithm analysis and design techniques. \(\text{Preq: CPSC 1020 with a C or better or CPSC 2100 with a C or better.}\)

**CPSC 2121 Algorithms and Data Structures Laboratory 0 (2) Non-credit laboratory to accompany CPSC 2120. Coreq: CPSC 2120.*

**CPSC 2150 Software Development Foundations 3 (2)** Intensive study of software development foundations. Advanced coverage of programming language primitives, function-level design principles, and standard development and debugging tools. Introductory coverage of module-level design principles, program specification and reasoning principles, and validation and verification techniques. *Preq: CPSC 1020 with a C or better or 2100 with a C or better. Coreq: CPSC 2151.*

**CPSC 2151 Software Development Foundations Laboratory 0 (2) Non-credit laboratory to accompany CPSC 2150. Coreq: CPSC 2150.*

**CPSC 2199 Microcomputer Applications 3 (3)** Applications of microcomputers to formulate and solve problem models. Emphasizes applications development in database and spreadsheet environments. Current software products are used. Students are expected to have experience with word processing and spreadsheet applications.

**CPSC 2310 Introduction to Computer Organization 4 (3)** Study of the machine architectures on which algorithms are implemented and requirements of architectures that support high-level languages, programming environments, and applications. \(\text{Preq: CPSC 1020 with a C or better or 2100 with a C or better. Coreq: CPSC 2311.}\)

**CPSC 2311 Introduction to Computer Organization Laboratory 0 (2)** Non-credit laboratory to accompany CPSC 2310. *Coreq: CPSC 2310.*

**CPSC 2810 Selected Topics in Computer Science 1-4 (1-4)** Areas of computer science in which new trends arise. Innovative approaches to a variety of problems from the use and understanding of basic computing concepts are developed and implemented. May be repeated for a maximum of eight credits, but only if different topics are covered.

**CPSC 2910 Seminar in Professional Issues I 1 (1)** Considers the impact of computer use on society. Discusses ethical use of software and protection of intellectual property rights. Professor is viewed historically; organizations important to the profession are discussed; the development process for standards is presented; and students are introduced to the professional literature. \(\text{Preq: CPSC 1020 or CPSC 2100.}\)

**CPSC (ECE) 3220 Introduction to Operating Systems 3 (3)** Detailed study of management techniques for the control of computer hardware resources. Topics include interrupt systems, primitive level characteristics of hardware and the management of memory, processor, devices, and data. May also be offered as ECE 3220. \(\text{Preq: CPSC 2120 and CPSC 2310, each with a C or better; or ECE 2230 and ECE 2720, each with a C or better.}\)
CPSC 3300 Computer Systems Organization 3 (3)
Introduction to the structure of computer systems. Various hardware/software configurations are explored and presented as integrated systems. Topics include digital logic, basic computer organization, computer arithmetic, memory organization, input/output organizations, interrupt processing, multiprocessors, and cluster computers. Preq: CPSC 2120 and CPSC 2130, each with a C or better.

CPSC 3500 Foundations of Computer Science 3 (3)
Development of the theoretical foundations of programming, algorithms, languages, automata, computability, complexity, data structures, and operating systems; a broad range of fundamental topics is consolidated and extended in preparation for further study. Preq: CPSC 2070 and CPSC 2120, each with a C or better.

CPSC (ECE) 3520 Programming Systems 3 (3)
Second course in programming languages and systems. Topics include assemblers, compilers, and syntactical methods; string manipulation and list processing; concepts of executive programs and operating systems; introduction to timesharing systems. May also be offered as ECE 3520. Preq: ECE 2230; or CPSC 2120 and CPSC 2150. Preq or concurrent enrollment: CPSC 2070 or MATH 4190.

CPSC 3600 Networks and Network Programming 3 (3)
Introduction to basic concepts of computer network technologies and network programming. Topics include network programming, layered protocol architectures, local and wide area networks, internetwork and intranetwork concepts, security, socket level programming is introduced and used throughout the course. Preq: CPSC 2120 and CPSC 2150, each with a C or better.

CPSC 3620 Distributed and Cluster Computing 3 (3)
Introduction to the basic technology of and programming techniques for distributed and cluster computing. Standard techniques for developing parallel solutions to problems are introduced and implemented. Software systems that provide high-level abstractions for data communication are considered. Preq: CPSC 3600 with a C or better.

CPSC 3710 Systems Analysis 3 (3)
Contains a study of the decision-making process at all levels with the logical design of information systems. Extensive study of the system life cycle with emphasis on current as well as classical techniques for describing data flows, data structures, file design, etc. Preq: CPSC 3600.

CPSC 3720 Introduction to Software Engineering 3 (3)
Intensive introduction to software engineering. Focuses on each major phase of the software lifecycle. Introductory coverage of requirements analysis, requirements modeling, design modeling, and project management. Intermediate coverage of module-level design principles, program specification and reasoning principles, and program validation and verification techniques. Preq: CPSC 2120 and CPSC 2150, each with a C or better.

CPSC 3950 Honors Seminar 1 (1)
Research topics in various areas of computer science are presented. Methods for identifying and initiating research projects are considered. May be repeated for a maximum of two credits. Preq: Admission to Departmental Honors Program.

CPSC 3990 Advanced Creative Inquiry in Computing 1-3 (1-3)
Upper-division students engage in faculty-led research in the context of a team effort. May be repeated for a maximum of six credits. Preq: Junior standing.

CPSC 4040 Computer Graphics Images 3 (3)
The theory and practice behind the generation and manipulation of two-dimensional digital images within a computer graphics context. Image representation and storage, sampling and reconstruction, color systems, affine and general warps, enhancement and morphology, compositing, morphing, and non-photorealistic transformations. Preq: CPSC 2120 and MATH 3110; or DPA 4101.

CPSC 4051* Computer Graphics 3 (3)
Computational, mathematical, physical, and perceptual principles underlying the production of effective three-dimensional computer graphics imagery. Preq: CPSC 2120 and MATH 3110; or DPA 4101.

CPSC 4101 Virtual Reality Systems 3 (3)
Design and implementation of software systems necessary to create virtual environments. Discusses techniques for achieving real-time, dynamic display of photorealistic, synthetic images. Includes hands-on experience with electromagnetic-tracked, head-mounted displays and requires a final project, the design and construction of a virtual environment. Preq: CPSC 2120 and 2150, both with a C or better.

CPSC 4120* Eye Tracking Methodology and Applications 3 (3)
Introduction to the human visual system; visual perception; eye movements; eye tracking systems and applications in psychology, industrial engineering, marketing, and computer science; hands-on experience with real-time, commercial eye tracking equipment and experimental issues. Final project requires the execution and analysis of an eye tracking experiment. Preq: CPSC 2120 or MKT 4531 or PSYC 3100.

CPSC 4140 Human and Computer Interaction 3 (3)
Survey of human and computer interaction, its literature, history, and techniques. Covers cognitive and social models and limitations, hardware and software interface components, design methods, support for design, and evaluation methods. Preq: CPSC 2120 and 2150, each with a C or better.

CPSC 4161* 2-D Game Engine Construction 3 (3)
Introduction to tools and techniques necessary to build 2-D games. Techniques draw from subject areas such as software engineering, algorithms, and artificial intelligence. Students employ techniques such as sprite animation, parallax scrolling, sound, AI incorporated into game sprites, and the construction of a game shell. Preq: CPSC 2120 and 2150, each with a C or better.

CPSC 4200 Computer Security Principles 3 (3)
Covers principles of information systems security, including security policies, cryptography, authentication, access control mechanisms, system evaluation models, auditing, and intrusion detection. Computer security system case studies are analyzed. Preq: CPSC 3220 or ECE 3220; and 3600, each with a C or better.

CPSC 4240* System Administration and Security 3 (3)
Covers topics related to the administration and security of computer systems. Primary emphasis is on the administration and security of contemporary operating systems. Preq: CPSC 3220 or ECE 3220; and 3600, each with a C or better.

CPSC 4280 Design and Implementation of Programming Languages 3 (3)
Overview of programming language structures and features and their implementation. Control and data structures found in various languages are studied. Also includes runtime organization and environment and implementation models. Preq: CPSC 2310 and 3500, each with a C or better.

CPSC 4550 Computational Science 3 (3)
Introduction to the methods and problems of computational science. Uses problems from engineering and science to develop mathematical and computational solutions. Case studies use techniques from Grand Challenge problems. Emphasizes the use of networking, group development, and modern programming environments. Preq: MATH 1080 and MATH 3110. Students are expected to have previous programming experience in a higher level language.

CPSC 4620 Database Management Systems 3 (3)
Introduction to database/data communications concepts as related to the design of online information systems. Problems involving structuring, creating, maintaining, and accessing multiple-user databases are presented and solutions developed. Comparison of several commercially available teleprocessing monitor and database management systems is made. Includes Honors sections. Preq: CPSC 2120 and CPSC 2150, each with a C or better.

CPSC 4630 On-line Systems 3 (3)
In-depth study of the design and implementation of transaction processing systems and an introduction to basic communications concepts. A survey of commercially available software and a project using one of the systems are included. Preq: CPSC 4620.

CPSC 4720 Software Development Methodology 3 (3)
Advanced topics in software development methodology. Techniques such as chief programmer teams, structured design and structured walkthroughs are discussed and used in a major project. Emphasizes the application of these techniques to large-scale software implementation projects. Also includes additional topics such as mathematical foundations of structured programming and verification techniques. Includes Honors sections. Preq: CPSC 3720 with a C or better.

CPSC (ECE) 4780 General Purpose Computation on Graphical Processing Units 3 (3)
Instruction in the design and implementation of highly parallel, GPU-based solutions to computationally intensive problems from a variety of disciplines. The OpenCL language with interoperable OpenCL components is used. Applications to models of physical systems are discussed in detail. May also be offered as ECE 4780. Preq: CPSC 2120 or ECE 2230.

CPSC 4810 Selected Topics 1-3 (1-3)
Areas of computer science in which nonstandard problems arise. Innovative approaches to problem solutions which draw from a variety of support courses are developed and implemented. Emphasizes independent study and projects. May be repeated for a maximum of six credits, but only if different topics are covered. Includes Honors sections.
CONSTRUCTION SCIENCE AND MANAGEMENT

Professors: D.C. Baussman, S. N. Clarke, R.W. Liska, C.A. Piper; Assistant Professors: J.M. Burgett, J.D. Lucas, J.P. Smith; Senior Lecturer: J.A. Wintz

CSC 1000 Introduction to Construction Science and Management 3 (3) Introduction to the construction industry and the Construction Science and Management Department. Preq: Construction Science and Management major.

CSC 1500 Construction Problem Solving 3 (3) Fundamentals and application of formal problem solving, critical thinking and ethics. Preq: CSC 1000 and Construction Science and Management major.

CSC 2100 Structures I 3 (3) Study of statically determinate structural components and systems, including force applications and distributions in structural elements and the resulting stress-strain patterns in axial, shear, and bearing mechanisms. Preq: MATH 1020 or MATH 1060; and PHYS 2070 and PHYS 2090; and Construction Science and Management or Architecture major.

CSC 2200 Structures II 4 (3) Study of force distribution and behavior in statically indeterminate structural components and systems, analysis and design of basic reinforced concrete, steel, wood, and formwork components and systems, including shear and moment stress, combined loading/stress conditions, and deflections. Preq: CSC 2100; and Construction Science and Management or Architecture major.

CSC 2350 Construction Management 3 (2) Principles and practice of construction management, focusing on nomenclature, building materials, and construction methods. Preq: CSC 2100 and MGT 2180, all required MATH courses, Construction Science and Management major. Preq or concurrent enrollment: AGM 2510 and CSC 3030.

CSC 3030 Soils and Foundations 3 (2) Study of various types of soils and foundations, including soil testing, reports, compaction, stability, and function, as they relate to the construction process. Preq: CSC 2040, and Construction Science and Management major.

CSC 3031 Soils and Foundations Laboratory 0 (3) Non-credit laboratory to accompany CSC 3030. Coreq: CSC 3030.

CSC 3040 Environmental Systems I 3 (3) Theory and practice of heating, ventilating, air conditioning, and plumbing systems for buildings. Preq: CSC 2050 and PHYS 2080 and PHYS 2100, and Construction Science and Management or Architecture major.

CSC 3050 Environmental Systems II 3 (3) Theory and practice of fire protection, specialty piping, lighting, and electrical systems for buildings. Preq: CSC 3040 and Construction Science and Management or Architecture major.

CSC 3510 Construction Estimating 3 (2) Study of basic estimating as applied to construction projects. Includes the take-off of material quantities, assigning labor and equipment production rates, and applying material prices, wage rates, and equipment costs to derive a total job cost. Preq: CSC 2040 and CSC 2050 and MGT 2180, all required MATH courses, Construction Science and Management major. Preq or concurrent enrollment: AGM 2210 and CSC 3030. Coreq: CSC 3511.

CSC 3511 Construction Estimating Laboratory 0 (2) Non-credit laboratory to accompany CSC 3510. Coreq: CSC 3510.

CSC 3521 Construction Scheduling Laboratory 0 (2) Non-credit laboratory to accompany CSC 3520. Coreq: CSC 3520.

CSC 3530 Construction Estimating II 3 (3) Continuation of basic construction estimating with the additional component of computerized estimating. Includes material, labor, and equipment costs, production rates, bid ethics, constructability analysis, and understanding of other types of estimating procedures. Preq: CSC 3510 and Construction Science and Management major. Preq or concurrent enrollment: CSC 3040. Coreq: CSC 3520 and CSC 3531.

CSC 3531 Construction Estimating II Laboratory 0 (2) Non-credit laboratory to accompany CSC 3530. Coreq: CSC 3530.

CSC 4200 Highway Construction and Contracting 3 (3) Study of contracting and construction of highways, including selection and use of equipment, construction of pavements, bridges, and drainage structures, and related processes. Preq: CSC 3030 and CSC 3520 and CSC 3530.
CSM 4500 Construction Internship 1 (1)  
Documentation of 8000 hours of approved experience in the construction industry with evaluation of student portfolio and preparation and sitting for the American Institute of Constructors CPC Level 1 examination. **Preq:** Consent of department chair.

CSM 4530 Construction Project Management 3 (3)  
Study of construction business organization, methods of project delivery, field organization, policy, ethics, project management, control systems, labor management relations, and productivity. **Preq:** CSM 3520 and CSM 3530, and Construction Science and Management major. **Preq or concurrent enrollment:** LAW 3220 and MGT 3070. **Coreq:** CSM 4110 and CSM 4610.

CSM 4540 Construction Capstone 6 (5)  
Students develop a capstone project that entails the knowledge obtained in all previous courses in the Construction Science and Management Program. Students must take the capstone course at Clemson University. **Preq:** CSM 4530 and Construction Science and Management major. **Coreq:** CSM 4541.

CSM 4541 Construction Capstone Laboratory 0 (3)  
Non-credit laboratory to accompany CSM 4540. **Coreq:** CSM 4540.

CSM 4550 Reducing Adversarial Relations in Construction 3 (3)  
Focuses on the study of the delivery of projects and how adversarial relations can affect the successful completion of the venture. Topics include management of human resources, understanding the needs and processes of the participants, where problems lie, methods of avoiding and settling disputes. **Preq:** Construction Science and Management or Architecture major, and senior standing.

CSM 4610 Construction Economics Seminar 3 (3)  
Studies in the financial performance of construction companies. **Preq:** ACCT 2010 and ECON 2110 and ECON 2120, and Construction Science and Management major. **Coreq:** CSM 4530.

CSM 4920 Directed Studies 1-3 (1-3)  
Computes, research, and other topics not covered in other courses. Emphasizes field studies, research activities, and current developments in construction science. May be repeated for a maximum of six credits. Includes Honors sections. **Preq:** Consent of instructor.

CSM 4980 Current Topics in Construction 1-3 (1-3)  
Study of current topics in the construction industry not central to other construction science courses. Specific titles and course descriptions are announced for each semester. May be repeated for a maximum of six credits. **Preq:** Consent of department chair.

**CAREER AND TECHNOLOGY EDUCATION**

CTE 1150 Contemporary Technological Problems 3 (3)  
Provides students with an understanding of the problems and contributions of technology. Examples are taken from historical accounts and from analyses of contemporary technological intervention both in industrialized and non-industrialized countries.

CTE 2210 Exploring Technology 3 (3)  
Covers a wide range of technological concepts along with familiar examples of how technology impacts our lives as individuals, a society, and a global community.

CTE 3100 Designing Creative Instruction 3 (2)  
Provides preservice teachers with opportunities to develop skills in technological literacy, design, inquiry-based instruction, and problem solving using a variety of media, with emphasis on their applications in the elementary curriculum. **Preq:** Junior standing in Early Childhood or Elementary Education. **Coreq:** CTE 3101.

CTE 3101 Designing Creative Instruction Laboratory 0 (2)  
Non-credit laboratory to accompany CTE 3100. **Coreq:** CTE 3100.

**CLEMSON UNIVERSITY**

CU 1000 Clemson Connect 0 (0)  
Introduction to the learning experience at Clemson University. Includes instruction in information technology and information skills. To be taken Pass/No Pass only.

CU 1040 University Success Skills 2 (1)  
Introduction to a variety of topics critical to students’ success. Topics include time management, goal setting, test taking, campus resources and problem solving, critical thinking, and diversity. Students are given opportunities to discover and practice many problem-solving techniques and tips. Limited to freshmen and first semester transfer students.

CU 1100 Introduction to Tutoring (1)  
Students develop and reinforce skills in tutoring and communication through use of techniques based in educational research. To be taken Pass/No Pass only.

CU 1110 Introduction to Supplemental Instruction 1 (1)  
Students develop and reinforce interpersonal relationship skills in listening, decision making, communicating, group dynamics, leadership, assertiveness, time management, problem solving, and conflict resolution. To be taken Pass/No Pass only.

CU 1200 Introduction to Career Development 1 (1)  
The course educates students about career planning, equips them to evaluate prospective career fields, and enables them to pursue career aspirations. Upon completion, students have a greater awareness of their career interests, and understand the connection between their studies and their career goals.

CU 1400 The Entrepreneurial Mindset 2 (2)  
The course introduces the thought processes and entrepreneurial methods by which big problems in business, industry and society can be solved. It introduces skills in critical and integrative thinking and strategic problem solving. After essential concepts and frameworks are presented, students are introduced to problem-solving techniques. The latter part of the course provides occasion for students to practice these skills through a small team project.

CU 1410 Creativity, Innovation and Entrepreneurship 3 (3)  
The course introduces creativity and innovation thinking skills and processes critical in the generation of entrepreneurial teams and opportunities. These include the concepts of observation, problem identification, lateral thinking, design thinking, brainstorming, interdisciplinary teams, problem solving, and generation of a value proposition. Best practices of entrepreneurship are introduced and these skills are then applied towards the identification of an early stage entrepreneurial opportunity. **Preq:** CU 1400.

CU 1970 New Student Seminar 1-3 (1-3)  
Introduction to the university academic environment. Class meeting instruction focuses on discussion of a topic selected by a faculty member. Includes additional online and workshop instruction in information technology, global citizenship and academic success skills. To be taken Pass/No Pass only.

CU 2010 Sustainability Leadership 3 (3)  
Participants learn how principles of environmental, social and economic sustainability apply in contexts ranging from personal lifestyle choices, to the built environment, to operation of public and private institutions. Participants also develop and practice skills that act as agents of change in the university and the broader community.

**CARDIOVASCULAR TECHNOLOGY**

CU 2250 Ultrasound Physics 3 (3)  
Explanation of the basic principles and characteristics associated with diagnostic ultrasound. **Preq:** CU 2260.

CU 2260 Introduction to Cardiovascular Sonography 3 (3)  
Introduces students to patient care, patient confidentiality, blood components, lymphatics, cardiovascular pharmacology, heart embrology, cardiovascular anatomy and physiology, standard sonography views, and Doppler/instrumentation. **Preq or concurrent enrollment:** BIOL 2220.

CU 3250 Echocardiography Principles 4 (3)  
Study of two-dimensional, m-mode, Doppler echocardiography and left ventricular systolic function. Includes discussion of various pathologies, the resulting echocardiographic findings and treatments. **Preq:** CU 2250 and CU 2260. **Coreq:** CU 3251.

CU 3251 Echocardiography Principles Laboratory 0 (2)  
Non-credit laboratory to accompany CU 3250. **Coreq:** CU 3250.

CU 3260 Echocardiography Methods 4 (3)  
Study of two-dimensional, Doppler echocardiography and transesophageal echocardiography. Includes discussion of various pathologies, the resulting echocardiographic findings and treatments. **Preq:** CU 3250. **Coreq:** CU 3261.

CU 3261 Echocardiography Methods Laboratory 0 (2)  
Non-credit laboratory to accompany CU 3260. **Coreq:** CU 3260.

CU 3350 Vascular Sonography Principles 4 (3)  
Study of two-dimensional, color Doppler, spectral Doppler and other testing modalities in peripheral and cerebrovascular disease. Includes discussion of various pathologies, the resulting sonographic findings and treatments. **Preq:** CU 2260. **Coreq:** CU 3351.
CVT 3351 Vascular Sonography Principles Laboratory 0 (2) Non-credit laboratory to accompany CVT 3350. Coreq: CVT 3350.

CVT 3360 Vascular Sonography Methods 4 (3) Study of two-dimensional, color Doppler, spectral Doppler and other testing modalities in peripheral arterial, abdominal vascular and intracranial cerebrovascular disease. Includes discussion of various pathologies, the resulting sonographic findings and treatments. Coreq: CVT 3350. Coreq: CVT 3361.

CVT 3361 Vascular Sonography Methods Laboratory 0 (2) Non-credit laboratory to accompany CVT 3360. Coreq: CVT 3360.

CVT 4240 CVS Field Experience I 3 (18) Students complete 440 hours of uninterrupted, supervised work in a clinical care setting. Under direct supervision of GHS registered sonographers, students are introduced to scanning protocols and techniques, instructed in principles, techniques and applications of multiple diagnostic modalities, including echocardiography, vascular duplex imaging, Doppler, and plethysmography. Coreq: CVT 3260 and 3360.

CVT 4250 CVS Field Experience II 6 (18) Intermediate level course expands on introductory skills learned in CVT 4240. Students apply scanning protocols and techniques, and improve their use of multiple diagnostic modalities, including echocardiography, vascular duplex imaging, Doppler, and plethysmography. Students become proficient with all aspects of paperwork and communications within the health care organization. Coreq: CVT 4240.

CVT 4260 CVS Field Experience III 6 (18) In this advanced course, students complete 440 hours in a clinical setting under the supervision of registered sonographers. Students are tested in all aspects of fundamental principles, techniques and applications of echocardiography, vascular duplex imaging, Doppler and plethysmography. Students become proficient with all aspects of paperwork and communications within the health care organization. Coreq: CVT 4240.

DANCE Lecture: C.L. Hosler

DANCE 1300 Tap Dance I 1 (3) Introduces fundamentals and vocabulary of tap dancing with opportunities to develop rhythmic patterns of various origins. Applied dance fee is assessed.

DANCE 1400 Jazz Dance I 1 (3) Introduces basic principles and fundamentals of jazz technique and explores flexibility and strength-building exercises. Applied dance fee is assessed.

DANCE 1500 Modern Dance I 1 (3) Introduces basic principles of dance movement and vocabulary, and actively explores and applies different methods of body alignment and theory. Applied dance fee is assessed.

DANCE 1600 Ballet Dance I 1 (3) Introduces basic principles and fundamentals of classical ballet, with emphasis on good technique, center work, and across the floor work. Applied dance fee is assessed.

DANCE 3300 University Dance Company I 1 (3) Performance ensemble for advanced dance students. Provides opportunities to learn and develop choreographic skills as well as to improve personal dance technique. Company is selected by audition. May include public recital(s). May be repeated for a maximum of 24 credits. Applied dance fee is assessed.

DPA 3070 Studio Methods for Digital Production 3 (1) Introduces studio practice in the development of 3-D computer graphics and animation for film, electronic games, and visualization. Topics include modeling, rigging, animation, texturing, lighting, rendering, compositing and editing. Open source tools are used so methods are transportable to most computing environments. Coreq: DPA 3071.

DPA 3071 Studio Methods for Digital Production 4 (1) Non-credit laboratory to accompany DPA 3070.

DPA 4000 Technical Foundations of Digital Production I 3 (3) The technical, conceptual, and algorithmic foundations of computer graphics. Covers the Unix operating system, scripting, C programming, and an interactive graphics API. Not open to Computer Engineering, Computer Information Systems or Computer Science majors.

DPA 4020 Visual Foundations of Digital Production I 3 (3) Introduces the visual foundations applicable to computer graphics production. Covers perspective, observational drawing, color and value, principles of composition and design, and storyboarding. Incorporates the studio method, involves students in hands-on work and the critique process, and stresses examples from the history of art, animation and film. Not open to Architecture or Visual Arts majors.

DPA 4030 Visual Foundations of Digital Production II 3 (3) Extends the foundational visual principles underlying computer graphics production begun in DPA 4020. Stresses representation of the figure in drawing and the use of cameras. Incorporates the studio method and the critique process, and stresses examples from the history of art, animation and film. Coreq: DPA 4020. Not open to Architecture or Visual Arts majors.

DPS 3070 Design Principles 3 (3) Students develop graphic skills, including plans, sections, elevations, axonometric and perspective drawings, and develop creative problem solving skills incorporating precedent studies, contextual analysis, concept development, modeling and presentation skills. Course is offered only during the summer at study abroad locations. Coreq: ARCH 1010. Coreq: BSN 3701.

DSGN 3700 Design Principles Laboratory 0 (10) Non-credit laboratory to accompany DSGN 3700. Coreq: DSGN 3700.

EAST ASIAN STUDIES

EAS 1110 Introduction to Chinese Language and Culture 3 (3) Introductory course for beginners to Chinese language skills and cultural aspects. Topics are selected for learners to interact and communicate addressing everyday situations. The course may not be used as a substitute for any other CHIN course.

EAS 1120 Introduction to Japanese Language and Culture 3 (3) Introductory course for beginners to Japanese language skills and cultural aspects. Topics are selected for learners to interact and communicate addressing everyday situations. The course may not be used as a substitute for any other JAPN course.

EAS 1230 Introduction to China 3 (3) Introduction to various aspects of Chinese civilization, including geography, ethnic groups, language, history, philosophy, religion, literature, arts, architecture, and social customs. All readings and discussions are in English.
ECE 1010 Robots in Business and Society 3 (3) Explores the significant role that robotics and automation play in society. Students gain an appreciation of the ethics, economics, psychology, politics and technologies that must be considered in the use of robots. Includes hands-on exercises using Legos to explore robot construction and intelligence. Open only to non-engineering majors.

ECE 1990 Creative Inquiry—Electrical and Computer Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereg: Consent of faculty member/mentor.

ECE 2020 Electric Circuits I 3 (3) Study of DC resistive circuits, Kirchhoff’s Laws, Nodal and Mesh emphasis, sources, Thévenin’s and Norton’s theorems, RC, RL, RCL circuit solutions with initial condition using homogenous or nonhomogenous ordinary differential equations having constant coefficients. Develop sinusoidal steady state solution. Includes Honors sections. Prereg: MATH 1080 and PHYS 1220, each with a C or better.

ECE 2070 Basic Electrical Engineering 2 (2) A first course in electrical engineering to provide non-Electrical Engineering majors with a knowledge of DC and AC circuit theory, AC power distribution, and numerous electrical devices, apparatus, and digital systems. Credit may not be received for both ECE 2070 and ECE 3080. Prereg: MATH 2060 and PHYS 2210.

ECE 2080 Electrical Engineering Laboratory I 1 (2) Laboratory to accompany ECE 2070. Basic electrical circuits and instrumentation. Prereg or concurrent enrollment: ECE 2070.

ECE 2090 Logic and Computing Devices Laboratory I 2 (2) Introduction to design, building, simulating and testing digital logic circuits. Topics include digital components: NAND, NOR gates, logic functions, etc. Prereg or concurrent enrollment: ECE 2070.

ECE 3000 Junior Honors Seminar 1 (2) Acquaints students enrolled in the Departmental Honors Program with current research activities in the Department. Faculty provide seminars where research interests are summarized. Seminars are planned to prepare students in choosing research topics for their senior theses.

ECE 3110 Electrical Engineering Laboratory I 2 (2) Measurements and characteristics of electronic devices and circuits, use of manual and automated instruments to acquire data; oral and written engineering reports. Prereg: ECE 2120 and ECE 2620 and MATH 2080 and PHYS 2210, each with a C or better. Prereg or concurrent enrollment: ECE 3200 with a C or better.

ECE 3120 Electrical Engineering Laboratory IV 1 (2) Design and characterization of functional circuits using solid-state devices; use of manual and automated instruments for measurements; statistical analysis of data; preparation of engineering reports. Prereg: ECE 3110 and ECE 3200, each with a C or better. Prereg or concurrent enrollment: ECE 3210 with a C or better.

ECE 3170 Random Signal Analysis 3 (3) Introduction to engineering problems of a probabilistic nature. Systems transformations, statistical averages, simulation, and estimation of system parameters. Includes Honors sections. Prereg: ECE 2620 and MATH 2080, each with a C or better. Prereg or concurrent enrollment: ECE 3300 with a C or better.

ECE 3210 Electrical Engineering Laboratory I 2 (2) Laboratory to accompany ECE 3110. Basic electrical circuits and instrumentation. Prereg or concurrent enrollment: ECE 3300 with a C or better.

ECE 3230 Computer Systems Engineering 3 (3) Analysis of implementation techniques for systems software. Topics include code reading, design of data structures and algorithms for low level computer systems, embedded systems, and software/hardware systems. Prereg: MATH 2080 and PHYS 2210, each with a C or better. Prereg or concurrent enrollment: ECE 2070 with a C or better.

ECE 3260 Electric Circuits II 3 (3) Continuation of the study of electric circuits, including three-phase circuits, complex frequency and network functions, frequency response, two-port parameters, magnetically-coupled circuits, Laplace transforms, and introduction to Fourier series and transforms. Includes Honors sections. Prereg: ECE 2020 and MATH 2060 and PHYS 2210, each with a C or better. Prereg or concurrent enrollment: MATH 2080 with a C or better.
ECE (CPSC) 3220 Introduction to Operating Systems 3 (3) Detailed study of management techniques for the control of computer hardware resources. Topics include interrupt systems, primitive level characteristics of hardware and the management of memory, processor, devices, and data. May also be offered as CPSC 3220. Preq: CPSC 2120 and CPSC 2310, each with a C or better; or ECE 2230 and ECE 2720, each with a C or better.

ECE 3270 Digital Computer Design 3 (3) Design of high-speed ALUs, control and timing circuitry, memory systems and I/O circuitry; microprogrammed computer design using bit-slice microprocessors; current hardware topics related to computer design; hands-on design experience; and use of logic analyzer for system debugging. Preq: ECE 3710 with a C or better.

ECE 3290 Computer Systems Structures 3 (3) Fundamental structures and issues that arise in the analysis and implementation of computer systems. Topics include operating systems structures and data structures and their relationship to computer organization. Engineering science background for computer systems design. Preq: ECE 2230 and ECE 2720, each with a C or better.

ECE 3300 Signals, Systems, and Transforms 3 (3) Study of systems models, analysis of signals, Fourier series and transforms, sampling and Z transforms, discrete Fourier transforms. Includes Honors sections. Preq: ECE 2620 and MATH 2080, each with a C or better.

ECE (CPSC) 3350 Programming Systems 3 (3) Second course in programming languages and systems. Topics include assemblers, compilers, and syntactical methods; string manipulation and list processing; concepts of executive programs and operating systems; introduction to time-sharing systems. May also be offered as CPSC 3520. Preq: ECE 2230; or CPSC 2120 and CPSC 2150, each with a C or better. Preq or concurrent enrollment: CPSC 2070 or MATH 4190, each with a C or better.

ECE 3600 Electric Power Engineering 3 (3) Presents the basic principles of electromagnetic induction and electromagnetic forces developed. Topics include synchronous machines, power transformers, electric power transmission, and distribution systems, DC motors, and induction motors. Preq: ECE 2620 and PHYS 2210, each with a C or better.

ECE 3710 Microcontroller Interfacing 3 (3) Discusses the programming and interfacing of microcontrollers in order to control their integrated devices and external peripherals. Topics include memory and I/O; interrupts, counters and timers; ADCs and DACs; PWMs; and parallel and serial communication. Preq: ECE 2620 and PHYS 2210, each with a C or better.

ECE 3720 Microcontroller Interfacing Laboratory 1 (3) Discusses the programming and interfacing of microcontrollers in order to control their integrated devices and external peripherals. Topics include memory and I/O; interrupts, counters and timers; ADCs and DACs; PWMs; and parallel and serial communication. Preq or concurrent enrollment: ECE 3710 with a C or better.

ECE 3800 Electromagnetics 3 (3) Introduction to electric fields and potentials, dielectrics, capacitance, resistance, magnetic field, forces, work and energy, inductance, time-varying fields, and Maxwell's equations. Preq: ECE 2620 and MATH 2060 and PHYS 2210, each with a C or better.

ECE 3810 Fields, Waves, and Circuits 3 (3) Covers foundations of circuit theory, transmission lines and circuits, plane-wave propagation, fiber optics, radiation and antennas, and coupled circuits. Preq: ECE 3800 and MATH 2080, each with a C or better.

ECE 3990 Creative Inquiry—Electrical and Computer Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Includes Honors sections. Preq: Consent of faculty member/mentor.

ECE 4040* Semiconductor Devices 3 (3) Consideration of the principles of operation, external characteristics, and applications of some of the more important semiconductor devices presently available. Preq: ECE 3200 with a C or better. Preq or concurrent enrollment: MATH 3110 or MATH 4340, each with a C or better.

ECE 4050 Design Projects in Electrical and Computer Engineering 3 (3) Individually defined projects oriented toward providing experience in establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. Develops student creativity through the solution of open-ended problems. Includes individual instruction in design methodology. May be repeated for a maximum of three credits. Preq: ECE 3300 or ECE 4020, each with a C or better; and consent of project supervisor.

ECE 4052* Introduction to Microelectronics Processing 3 (3) Microelectronic processing, MOS and bipolar monolithic circuit fabrication, thick and thin film hybrid fabrication, amplification to linear and digital circuits, fundamentals of device design. Preq: ECE 3200 with a C or better. Preq or concurrent enrollment: MATH 3110 or MATH 4340, each with a C or better.

ECE 4090 Continuous and Discrete Systems Design 3 (3) Introduction to classical linear control systems. Topics include continuous and discrete descriptions of systems, time and frequency response, stability, system specification, system design of continuous and discrete systems. Preq: ECE 3300 with a C or better.

ECE 4120 Electrical Machines Laboratory 1 (2) Selected experiments to familiarize students with characteristics of transformers, DC and AC motors and generators. Measurement techniques and component modeling are included. Preq or concurrent enrollment: MATH 4340 with a C or better; and ECE 3600 or ECE 4090, each with a C or better.

ECE 4170* Elements of Software Engineering 3 (3) Foundations of software design, reasoning about software, the calculus of programs, survey of formal specification techniques and design languages. Preq: ECE 3220 and ECE 3520 and MATH 4190, each with a C or better.

ECE 4180* Power System Analysis 3 (3) Study of power system planning and operational problems. Topics include load flow, economic dispatch, fault studies, transient stability, and control of problems. System modeling and computer solutions are emphasized through class projects. Preq: ECE 3600 and ECE 3800, each with a C or better.

ECE 4190* Electric Machines and Drives 3 (3) Performance, characteristics, and modeling of AC and DC machines during steady-state and transient conditions. Introduction to power electronics devices and their use in adjustable speed motor drives. Preq: ECE 3210 and ECE 3600 and ECE 3800, each with a C or better. Preq or concurrent enrollment: MATH 4340 with a C or better.

ECE 4200* Renewable Energy Penetration on the Power Grid 3 (3) Introduces the basic definition of electrical power, interfacing primary sources, generator/load characteristics, and renewable energy resources. Topics include solar energy grid interfacing, wind energy grid interfacing, battery charging/management, harmonic distortion, voltage sags, and national standards. Preq: ECE 2070 or ECE 3200, each with a C or better.

ECE 4220* Electronic System Design I 3 (2) Emphasizes the application of theory and skills to the design, building, and testing of an electronic system with both analog and digital components. Application varies each semester. Computer software tools are used extensively in the design process. Preq: ECE 3210 and ECE 3300 and ECE 3600 and ECE 3710 and ECE 3810, each with a C or better. Coreq: ECE 4221.

ECE 4221* Electronic System Design I Laboratory 0 (2) Non-credit laboratory to accompany ECE 4220. Coreq: ECE 4220.

ECE 4240 Communications Systems 3 (3) Study of communication systems design and analysis. Topics include signals and spectra, baseband signaling and detection in noise, digital and analog modulation and demodulation techniques, communications link budget analysis. Preq: ECE 3170 and ECE 3300, each with a C or better.

ECE 4290* Organization of Computers 3 (3) Computer organization and architecture. Topics include a review of logic circuits, bus structures, memory organization, interrupt structures, arithmetic units, input-output structures, state generation, central processor organization, control function implementation, and data communication. Registered Transfer Language (RTL) for description and design of digital systems. Preq: ECE 2720 with a C or better.

ECE 4300* Digital Communications 3 (3) Introduction to modern digital communication systems, emphasizing modulation and detection, taking into account the effects of noise. Includes Honors sections. Preq: ECE 3170 and ECE 3300, each with a C or better; and consent of instructor. Consent is not required for honors students.
ECE 4320* Instrumentation 3 (3) Theory and analysis of transducers and related circuits and instrumentation. Generalized configurations and performance characteristics of instruments are considered. Transducer devices for measuring physical parameters such as motion, force, torque, pressure, flow, and temperature are discussed. Preq: ECE 3210 with a C or better. Preq or concurrent enrollment: MATH 3110 or MATH 4340, each with a C or better.

ECE 4350* Grounding and Shielding 3 (3) Introduction to electromagnetic compatibility concepts and techniques for students who will be designing or working with electronic systems when they graduate. Topics include electromagnetic interference and noise control, crosstalk and signal integrity, grounding, filtering, shielding, circuit board layout, lighting and electrostatic discharge protection. Preq: ECE 3810 with a C or better.

ECE 4360* Microwave Circuits 3 (3) Analysis of microwave networks comprising transmission lines, waveguides, passive elements, interconnects, and active solid state microwave circuits. Use of modern CAD tools to design RF/Microwave passive/active networks. Fabrication of typical circuits. Preq: ECE 3810 with a C or better. Preq or concurrent enrollment: MATH 3110 or MATH 4340, each with a C or better.

ECE 4370* Microelectromechanical Systems 3 (3) Introduction to the basic materials in current microelectromechanical systems (MEMS), as well as the fundamental sensing and actuation mechanisms therein. Students also learn the basic fabrication techniques for bulk and surface micromachining, discuss the primary forces in MEMS devices, and study the basic micro mechanical structures and microfluidics. Preq: CH 1020 and PHYS 1220.

ECE 4380* Computer Communications 3 (3) Digital data transmission techniques, modems and communications channels, communications software and protocols, multiprocessors and distributed processing; concurrency and cooperation of dispersed processors. Preq: Senior standing in Electrical or Computer Engineering or Computer Science.

ECE 4390* Fiber Optics 3 (3) Covers the underlying principles of design for optical fibers in practical systems. Examines optical fiber as a waveguide using wave optics and ray optics. Discusses design criteria for using mono- and multi-mode fibers. Other topics include fabrication, measurement. Preq: ECE 3810 with a C or better. Preq or concurrent enrollment: MATH 4340 with a C or better.

ECE 4400* Performance Analysis of Local Computer Networks 3 (3) Introduction to the design and performance analysis of local computer networks. Emphasizes performance analysis of representative multi-access procedures. Three common types of networks are considered in detail. Preq: ECE 2720 and ECE 3170, each with a C or better.

ECE 4420* Knowledge Engineering 3 (3) Introduction to the theoretical and practical aspects of knowledge engineering or applied artificial intelligence. Topics include symbolic representation structures and manipulation, unification, production systems and structures, rule-based and expert systems, planning and AI system architectures; system design in PROLOG and LISP. Project is required. Preq: ECE 3220 and ECE 3520, each with a C or better.

ECE 4460* Antennas and Propagation 3 (3) Study of the theoretical and practical aspects of antenna design and utilization, input impedances, structural considerations, and wave propagation. Preq: ECE 3300 and ECE 3810; and one of MATH 3110 or MATH 4340, each with a C or better.

ECE 4490* Computer Network Security 3 (1) Hands-on practicum in the administration and security of modern network service emphasizing intrusion prevention techniques, detection, and recovery. Preq: Senior standing in Computer Engineering or Electrical Engineering. Coreq: ECE 4491.

ECE 4491* Computer Network Security Laboratory 0 (4) Non-credit laboratory to accompany ECE 4490. Coreq: ECE 4490.

ECE 4530 Software Practicum 3 (1) Preparation of a requirements and specifications document. The resulting system is tested for compliance. Preq: ECE 3220 and ECE 3520, each with a C or better. Coreq: ECE 4531.

ECE 4531 Software Practicum Laboratory 0 (6) Non-credit laboratory to accompany ECE 4530. Coreq: ECE 4530.

ECE 4550* Robot Manipulators 3 (3) Analysis of robot manipulators with a special focus on interaction of these technologies with society. Emphasis is on rigid-link robot manipulator systems. Topics include history of robot technologies, kinematics, dynamics, control, and operator interface. Case studies reinforce impact of robot technology on society and vice versa. Preq: MATH 2620 and MATH 3110, each with a C or better.

ECE (ME) 4570* Fundamentals of Wind Power 3 (3) Introduces wind turbine systems, including wind energy potential and application to power generation. Topics include wind energy principles, wind site assessment, wind turbine components, power generation machinery control systems, connection to the electric grid, and maintenance. May also be offered as ME 4570. Preq: ECE 2070 or ECE 3200 with a C or better.

ECE 4600 Computer-Aided Analysis and Design 3 (3) Principles and methods suited to the solution of engineering problems on the digital computer. Topics include widely used methods for the solution of the systems of algebraic and/or differential equations which arise in modeling of engineering systems, data approximation and curve fitting, continuous system simulation languages, and design-oriented programming systems. Preq: ECE 2620 and MATH 3110 and MATH 4340, each with a C or better.

ECE 4610* Fundamentals of Solar Energy 3 (3) Introduces solar energy conversion systems. Topics include environmental benefits of solar energy, solar thermal systems, concentration solar power, photovoltaic (PV) cell design and manufacturing, sizing of PV system, hybrid photovoltaic/thermal systems, energy storage, and urban/rural applications. Preq: ECE 3200 with a C or better.

ECE 4670* Introduction to Digital Signal Processing 3 (3) Introduction to characteristics, design, and applications of discrete time systems; design of digital filters; introduction to the Fast Fourier Transform (FFT). LSIs hardware for signal processing applications. Preq: ECE 3300 with a C or better.

ECE 4680* Embedded Computing 2 (3) Principles of using computing in the larger context of a system. Topics include bus and processor design types (e.g. microprocessor, microcontroller, DSP), codes, digital circuit power management, real time scheduling, and embedded operating systems. Lab work consists of projects on embedded hardware (e.g., PC-104+). Preq: ECE 2230 and ECE 3710, each with a C or better. Coreq: ECE 4681.

ECE 4681* Embedded Computing Laboratory 0 (2) Non-credit laboratory to accompany ECE 4680. Coreq: ECE 4680.

ECE 4700 Vehicle Electronics 3 (3) Introduction to vehicle electronic systems and networks. Topics include a review of electronic systems in automotive and aerospace applications; vehicle components, sensors and actuators; communication busses; electric power generation and distribution in vehicle systems; vehicle diagnostics; reliability; and trends in vehicle system design. Preq: ECE 3200 with a C or better.

ECE 4710 Electric Vehicles and Energy Storage 3 (3) Introduction to hybrid electric propulsion systems and energy storage systems. Topics include a review of fundamental systems of electric vehicles and hybrid electric vehicles architectures covering reasons for hybridization, energy analysis of architecture and components; overview of energy storage systems (batteries and supercapacitors); modeling of components; vehicle simulation; and supervisory control. Preq: ECE 3200 with a C or better.

ECE 4730* Introduction to Parallel Systems 3 (3) Introduces parallel computer architectures and their programming. Includes an introduction to MPI and OpenMP and a number of engineering problems, including numerical simulations. Introduces scalability analysis. Preq: ECE 3220 or ECE 3290, each with a C or better.
ECE (CPSC) 4780 General Purpose Computation on Graphical Processing Units 3 (3) Instruction in the design and implementation of highly parallel, GPU-based solutions to computationally intensive problems from a variety of disciplines. The OpenCL language with interoperable OpenGL components is used. Applications to models of physical systems are discussed in detail. May also be offered as CPSC 4780. Preq: CPSC 2120 or ECE 2230.

ECE 4910 Undergraduate Honors Research 1-6 (1-6) Individual research projects conducted under the direct supervision and guidance of a faculty member. May be repeated for a maximum of six credits.

ECE 4920 Special Problems 1-3 (1-3) Special assignment in electrical or computer engineering. Some typical assignments include computer programs, term papers, technical literature searches, hardware projects, and design project leadership. May be taken only once for credit.

ECE 4930 Selected Topics 1-3 (1-3) Classroom study of current and new technical developments in electrical and computer engineering. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

ECE 4950 Integrated System Design 1 2 (1) Considers engineering design of systems in a continuous process of project definition, planning, execution, and evaluation. This process includes consideration of both technical and non-technical factors in design. Strong emphasis is placed on the development of effective technical communications skills, particularly oral communications competency. Preq: Electrical Engineering major and ECE 3200 and ECE 3300 and ECE 3600 and ECE 3800, each with a C or better; or Computer Engineering major and ECE 3200 and ECE 3220 and ECE 3300 and ECE 3520 and ECE 3710, each with a C or better. Coreq: ECE 4951.

ECE 4951 Integrated System Design 1 Laboratory 0 (3) Non-credit laboratory to accompany ECE 4950. Coreq: ECE 4950.

ECE 4960 Integrated System Design II 2 (6) Projects-oriented course which brings together electrical and computer engineering students of dissimilar training in teams or project groups. Group assignments are designed to develop an appreciation for individual and creative thinking, as well as team effort. Preq: Electrical Engineering major and ECE 3210 and ECE 3710 and ECE 3810 and ECE 4090 and ECE 4950, each with a C or better; or Computer Engineering major and ECE 4090 and ECE 4950, each with a C or better.

ECE 4990 Creative Inquiry—Electrical and Computer Engineering 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Includes Honors sections. Preq: Consent of faculty member/mentor.

ECONOMICS

ECON 2000 Economic Concepts 3 (3) One-semester survey of basic economic concepts that offers an overview of both microeconomics and macroeconomics. Not intended for business majors or other students seeking a comprehensive introduction to economic analysis and its applications. Credit will not be given to students who have received credit for ECON 2110 or 2120.

ECON 2110 Principles of Microeconomics 3 (3) Introduction to economic reasoning and its application to the study of the behavior of consumers and business firms. Particular topics include competition, monopoly, international trade, and the impact of selected public policies. Intended as the first of a two-semester sequence in the foundations of economics. Includes Honors sections.

ECON 2120 Principles of Macroeconomics 3 (3) Continuation of ECON 2110 in which fundamental economic principles are applied to the study of aggregate economic performance. Topics include the forces determining the rates of inflation, unemployment, and economic growth, with particular emphasis on the influence of fiscal and monetary policies through financial markets. Includes Honors sections. Preq: ECON 2110.

ECON 3010 Economics of Labor 3 (3) Introduces students to the economics of the labor market and labor relations. Considers the theories of wages and employment, determination, unemployment, investments in human capital, discrimination, and public policy toward the labor market. Also considers the role of labor unions. May not be used to satisfy requirements for a degree in Economics. Preq: ECON 2110.

ECON 3020 Money and Banking 3 (3) Considers the function of money and banking in both the product and financial markets. Special emphasis is placed on monetary theory and current problems of monetary policy. May not be used to satisfy requirements for a degree in Economics. Preq: ECON 2110.

ECON 3030 Economics and Sports 3 (3) Introduces the economics of sports teams, leagues, and institutions. Analyzes basic economic issues using sports data. May not be used to satisfy requirements for a degree in Economics. Preq: ECON 2110.

ECON 3040 Behavioral Economics 3 (3) Introduces the economic, sociological, and psychological aspects of decision making under uncertainty. Presents the psychology of prediction, intuitive prediction, biases and corrective procedures. Topics also include framing, choice with costly information, and social influences on individual behavior. Preq: ECON 2110.

ECON 3070 Arbitration 3 (3) Analyzes dispute settlement procedures emphasizing mediation, fact-finding, and arbitration as they are used to resolve labor-management disputes in the public and private sectors. Preq: Consent of instructor.

ECON 3090 Government and Business 3 (3) Relationships between government and business, including, among other topics, government efforts to enforce competition; to regulate public utilities; and to protect the special interest of laborers, farmers, and consumers. May not be used to satisfy requirements for a degree in Economics. Preq: ECON 2110.

ECON 3100 International Economy 3 (3) Studies of the process of international commerce. Covers basic theory of trade and exchange rates, institutional and legal environment, current policy issues. Not open to students who have taken ECON 4120. May not be used to satisfy requirements for a degree in Economics. Preq: ECON 2110 and ECON 2120.

ECON 3140 Intermediate Microeconomics 3 (3) Analytical study of basic concepts of value and distribution under alternative market conditions. Includes Honors sections. Preq: ECON 2110.

ECON 3150 Intermediate Macroeconomics 3 (4) Macroeconomic problems of inflation and unemployment are focal points. Includes statistics (measures of real output and the price level) and theory (covering the sources of short-run fluctuations and long-run growth). Analyzes appropriate public policies addressing these issues. Includes Honors sections. Preq: ECON 2120.

ECON 3190 Environmental Economics 3 (3) Study of the application of economic logic to issues surrounding environmental management and policy. Examines individual, firm, and collective decision making as well as the evolution of regulatory approaches for controlling environmental use. Preq: ECON 3140.

ECON (ELE) 3210 Economics of Innovation 3 (3) Examines the nature of entrepreneurship and the contribution of innovation to economic growth. Investigates the organizational and institutional sources of innovation in different firms and different countries as well as the work of economic theorists concerning the role entrepreneurs play in bringing new products to market. May also be offered as ELE 3210. Preq: ECON 3060 or ECON 3140.

ECON 3250 Personnel Economics 3 (3) Study of various compensation and personnel practices firms employ. Explains when each of those practices should be followed to elicit the desired employee effort and labor force quality. Topics include piece-rate and time-rate systems, seniority-based incentive schemes, promotion contests, evaluation systems, mandatory retirement, and up-or-out rules. Preq: ECON 2110.

ECON 3400 Behavioral Economics 3 (3) Introduces the economic, sociological, and psychological aspects of decision making under uncertainty. Presents the psychology of prediction, intuitive prediction, biases and corrective procedures. Topics also include framing, choice with costly information, and social influences on individual behavior. Preq: ECON 2110.
ECON 3440 Economics of Institutions and Property Rights 3 (3) Study of fundamental property rights structures and institutions in the capitalist economy and the arrangements that create incentives to produce and exchange. Prereq: ECON 2110 and ECON 2120.

ECON 3500 Moral and Ethical Aspects of a Market Economy 3 (3) Can a market system produce results that are fundamentally just? Is justice possible without voluntary exchange? Applies both economic and philosophical analyses to these questions. Emphasizes the causes, consequences, and morality of the distribution of wealth and income in a free-market system. IncludesHonors sections. Prereq: ECON 3410.

ECON 3600 Public Choice 3 (3) Covers the economic approach to political activities and institutions. Topics include voting, voting rules, constitutions, political competition, political business cycles, vote trading, interest groups, bureaucracy, committees, legislators, executives, and judges. Designed for Economics and non-Economics majors and requires only basic skills in microeconomics. Prereq: ECON 2110.

ECON 3900 Junior Honors Research 1 (1) Readings and research in conjunction with an approved economics course at the 3000 or 4000 level. Honors status required. May be repeated for a maximum of three credits.

ECON 3970 Creative Inquiry—In Economics 1-14 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of four credits.

ECON 4010 Labor Market Analysis 3 (3) Develops the methods of economic analysis of labor markets. Requires students to apply these methods to problems of the labor market. Topics include the demand and supply, human capital, occupational choice, compensating wage differentials, organizational structures and incentive systems, unemployment, and discrimination. Prereq: ECON 3410.

ECON 4020 Law and Economics 3 (3) Application of economics to the law of property, torts, and contracts; regulation of markets, business organizations, and financial transactions; distribution of income and wealth; and criminal law. Prereq: ECON 2110.

ECON 4040 Comparative Economic Systems 3 (3) Comparative analytical and historical study of the principal economic systems which have been important in the modern world including, among others, capitalism and socialism. Prereq: ECON 3410.

ECON 4050 Introduction to Econometrics 4 (3) Introduction to methods of quantitative analysis of economic data. Reviews basic statistical methods and probability distribution. Topics include data management using professional statistical software applications; multiple regression analysis; hypothesis testing under conditions of multicollinearity, heteroscedasticity, and serial correlation. Prereq: ECON 2110 and ECON 2120; and either MATH 1080 or MATH 2070; and STAT 3090 or STAT 3300. Coreq: ECON 4051.

ECON 4051* Introduction to Econometrics Laboratory 0 (3) Non-credit laboratory to accompany ECON 4050. Coreq: ECON 4050.

ECON 4060 Advanced Econometrics 3 (3) Reviews statistical inference using multiple regression (OLS) analysis and model specification. Topics include multicollinearity, heteroscedasticity, and serial correlation; two-staged least squares and instrumental variables models; simultaneous equations models; limited dependent variable models using maximum likelihood estimation and time-series analysis; and presentation of results in technical writing. Prereq: ECON 4050.

ECON 4100 Economic Development 3 (3) Consideration and analysis of economic and related problems of underdeveloped countries. Attention is given to national and international programs designed to accelerate solution of these problems. Prereq: ECON 3410.

ECON 4110 Economics of Education 3 (3) Analysis of economic issues related to education. The decision to invest in education, elementary and secondary school markets and reform, the market for college education, teacher labor markets, and education’s effects on economic growth and income distribution. Prereq: ECON 3410.

ECON 4120 International Microeconomics 3 (3) Analysis of the essential aspects of international economic linkages. Discusses gains and redistributative effects of trade and the barriers to trade within the context of a variety of economic models. Also discusses the history of trade policy and the political economy of its determination. Prereq: ECON 3410.

ECON 4130 International Macroeconomics 3 (3) Examination of macroeconomic linkages between an individual country and the rest of the world and how these linkages are affected by the choice of exchange rate regimes. Topics include the relation between domestic and foreign interest rates and exchange rates and the ability to pursue independent monetary policies. Prereq: ECON 3410.

ECON 4150 Economics of Defense 3 (3) Examines the American defense establishment in terms of resources utilized, alternative uses, and the contribution to the national economy and scientific progress generated by resources in a defense use. Discusses economic problems inherent in shifting resources between defense and nondefense uses and alternative defense uses. Prereq: ECON 3410.

ECON 4180 Economics of Energy Markets 3 (3) This course examines the economics of energy markets and energy policy. The unique features and characteristics of these important and interrelated markets are explored, and participants gain practical experience in connecting economic concepts to recent energy-related events and energy policy issues. Prereq: ECON 3410.

ECON 4190 Topics in Mathematical Economics 3 (3) This course develops the mathematical tools underlying economic analysis and prepares students for doing advanced theoretical work in economics. The topics covered in this course provide excellent preparation for advanced economics courses, and lay the foundation for doing quantitative analysis associated with both career work and graduate study in economics. Prereq: ECON 4140; and either MATH 1080 or MATH 2070.

ECON 4240* Organization of Industries 3 (3) Empirical, historical, and theoretical analyses of market structure and concentration in American industry: the effects of oligopoly, monopoly, and cartelization upon price, output, and other policies of the firm; antitrust and other public policies and problems are studied. Prereq: ECON 3410.

ECON 4250 Antitrust Economics 3 (3) Analysis of the economic and legal issues created by the exercise of market power. The motivation and execution of government policy towards mergers, predatory conduct, and various restraints of trade are intensively examined. Prereq: ECON 3090 or ECON 3410.

ECON 4260 Seminar in Sports Economics 3 (3) Economic analysis of sports teams, leagues, and institutions. Topics include antitrust issues, public funding of sports venues, labor relations, wagering markets, athlete compensation, and application of economic principles to sports settings. Empirical research project is cornerstone of course. Includes Honors sections. Prereq: ECON 3410 and ECON 4050.

ECON 4270 Development of the American Economy 3 (3) Explores several topics relevant to understanding the American experience. Considers the institutions and developments critical to America’s ascendency from a small country to a dominant global economic power. Investigates immigration, innovation, education, finance, and the changing role of race and gender in the economy. Prereq: ECON 3410 and ECON 3510.

ECON 4280 Cost-Benefit Analysis 3 (3) Develops techniques for the appraisal of public expenditure programs with particular emphasis on investment in infrastructure. Topics include choice of an appropriate discount rate and the calculation of social costs and benefits in the presence of market distortions. Prereq: ECON 3410.

ECON 4290 Economics of Energy Markets 3 (3) This course examines the economics of energy markets and energy policy. The unique features and characteristics of these important and interrelated markets are explored, and participants gain practical experience in connecting economic concepts to recent energy-related events and energy policy issues. Prereq: ECON 3410.

ECON 4300 Topics in Mathematical Economics 3 (3) This course develops the mathematical tools underlying economic analysis and prepares students for doing advanced theoretical work in economics. The topics covered in this course provide excellent preparation for advanced economics courses, and lay the foundation for doing quantitative analysis associated with both career work and graduate study in economics. Prereq: ECON 4140; and either MATH 1080 or MATH 2070.

ECON 4350 Family Economics 3 (3) Analysis of economic aspects of the family. Economics of marriage, divorce, fertility, public policies affecting the family, women’s labor force participation, and the gender gap are studied using main economic theories and empirical studies. Prereq: ECON 3410.

ECON 4400 Game Theory 3 (3) Introduction to the formal analysis of strategic interaction among rational, self-interested rivals. Basic theoretical aspects of games are discussed and applied to such topics as bargaining, voting, auctions, and oligopoly. Prereq: ECON 3410 and MATH 1060; or ECON 4300.
ECON 4550* Applied Microeconomic Research 3 (3) Students conduct research in applied microeconomics. Topics vary according to student and professor interests. Students read papers in the literature, formulate their own economic hypotheses, and collect and analyze data to test those hypotheses. May be repeated for a maximum of nine credits, but only if different topics are covered. Preq: ECON 3140.

ECON (AGRB) 4570* Natural Resource Use, Technology, and Policy 3 (3) Focuses on economic analyses of actual, efficient, and sustainable uses of natural resources, impacts of technologies that affect these uses, and policies that affect development and use of such technologies. Resources-technology-policy combinations may vary, but an example is crude oil, hybrid automotive engines, and fuel economy standards. May also be offered as AGRB 4570. Preq: MATH 1020 or MATH 1060; and AGRB 3570 or ECON 3140.

ECON 4910 Senior Honors Thesis Research 3 (3) Reading and research for the Senior Honors Thesis. Preq: ECON 3140 and ECON 3150 and senior honors standing.

ECON 4920 Senior Honors Thesis Writing 3 (3) Writing and oral presentation of the Senior Honors Thesis. Preq: ECON 4910.

ECON 4960 Independent Study 1-3 (1-3) Research and writing on a selected economics topic chosen by the student. A written proposal must be approved by the instructor prior to the start of the semester. May be repeated for a maximum of six credits. Preq: ECON 3140.

ECON 4970 Creative Inquiry in Economics II 1-3 (1-3) Engages students in research projects selected by the Economics Department faculty. Research projects vary depending on faculty and student interest. May be repeated for a maximum of six credits. Preq: ECON 3140.

ECON 4980 Selected Topics in Economics 3 (3) In-depth treatment of topics not covered in regular courses. Topics vary from year to year. May be repeated for a maximum of nine credits but only if different topics are covered. Includes Honors sections. Preq: ECON 3140 and ECON 3150.

ECON 4990 Senior Seminar in Economics 1-3 (1-3) Discussion of topics of current interest in economics. Students conduct directed research on a particular topic. Preq: Consent of instructor.

EDUCATION
Associate Professor: S.N. Rosenblith, Chair

ED 1010 Effective Strategies for College Success 3 (3) Provides knowledge of specific strategies to increase academic success for college students. Includes instruction in strategies to address engagement and participation, organizational and study skills, test taking, note taking, reading content area text, and writing.

ED 1030 Introduction to Content Specific Learning Strategies 2 (2) Through direct experiences, students develop strategies to become proficient problem solvers, design and perform experiments to test hypotheses, analyze connections between core content areas, construct meaning from reading in various disciplines, identify and use resources to improve learning, and communicate effectively. Students must be accepted into and have completed the first two years of the Emerging Scholars pre-college program to enroll in this course.

ED 1050 Orientation to Education 2 (2) Introduction to teaching addresses basic program requirements, SoE Conceptual Framework, state evaluation system, the nature of the diverse and multicultural classroom, standards and practices of professional conduct and requirements in teaching. A field experience involving tutoring in a P-12 classroom is required. Coreq: ED 1051.

ED 1051 Orientation to Education Laboratory 0 (1) Non-credit laboratory to accompany ED 1050. Coreq: ED 1050.

ED 1900 Leadership, Citizenship, and Community Service 3 (3) Provides active learning opportunities for students to understand better the system of government, learn the mechanics of how leadership can influence education and other institutions, and develop interpersonal skills that will assist them throughout their professional lives. Culminates with a service learning plan for the students local community.

ED 1970 Creative Inquiry—Education I 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

ED 3970 Creative Inquiry—Education II 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

ED 3970 Creative Inquiry—Education III 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

EDC 1990 Creative Inquiry—Counselor Education 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of faculty member/mentor.

EDC 2340 Introduction to Addictions: Basic Education and Prevention 3 (3) Basic review of addictions and chemical dependence. Gives future educators skills in the identification of chemical abuse, techniques for intervention, and methods of prevention education. SOC 3960 and 3970 are recommended as follow-up courses for those interested in pursuing the topic.

EDC 2990 Creative Inquiry—Counselor Education 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of faculty member/mentor.
EDC 3900 Student Development Theory, Leadership, and Counseling Skills for Student Leaders 3 (3) Introduction to theoretical and practical applications of student development and leadership on the university campus. Develops skills assisting students with leadership development, problem solving, conflict resolution, confrontation, and referral. Explores legal and ethical issues for practitioners and effective utilization of resources available on the campus. May be repeated for a maximum of nine credits.

EDC 3990 Creative Inquiry—Counselor Education 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereg: Consent of faculty member/mentor.

EDC 4990 Creative Inquiry—Counselor Education 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereg: Consent of faculty member/mentor.

EARLY CHILDHOOD EDUCATION

Professor: D.A. Stegelin; Assistant Professor: A. Hall, S.M. Linder; Clinical Faculty: R.S.N. Wilson; Lecturer: J. Schumpert

EDEC 2200 Family, School, and Community Relationships 3 (3) Historical trends, theoretical models, and strategies of effective family/school/community relationships are examined. Special emphasis is placed on multicultural issues and on programs that support collaborative involvement with families that benefit children. Prereg: EDEC 3000. Coreq: EDEC 3020.

EDEC 3000 Foundations of Early Childhood Education 3 (3) Philosophical and historical foundations of early childhood education, societal changes and influences, needs of young children and families, program differentiation, and future trends are examined through coursework and experiential activities. Prereg ED 1050 and Sophomore standing. Coreq: EDEC 3010.

EDEC 3020 Practicum in Early Childhood Settings II 1 (3) Experiences in early childhood settings that provide opportunities for working with young children in a variety of settings. Practicum I and II focus on child care settings for children ages three to four. Practicum II emphasizes building relationships with families of young children. Prereg: EDEC 3010. Coreq: EDEC 2200.

EDEC 3030 Practicum in Early Childhood Settings III 1 (3) Experiences in early childhood settings that provide opportunities for working with young children in a variety of settings. Practicum III focuses on child care settings for children from birth to age two. This experience allows students to understand the developmental needs and capabilities of very young children. Prereg: EDEC 3020. Coreq: EDEC 3360.

EDEC 3040 Practicum in Early Childhood Settings IV 1 (3) Experiences in early childhood settings that provide opportunities for working with young children in a variety of settings. Practicum IV focuses on four-year-old kindergartens in public school settings. This experience emphasizes the transition to formal school settings for young children. Prereg: EDEC 3030. Coreq: EDEC 4200 and EDEC 4500.

EDEC 3360 Concepts of Play and Social Development of Infants and Young Children 3 (3) Study of the behavior of the preschool child from infancy through age five. Focus is placed on the role of play in influencing cognitive, social, emotional, physical, and language development. Includes Honors sections. Prereg: EDEC 2200. Coreq: EDEC 3030.

EDEC 4000 Observation and Assessment in Clinical Settings 3 (9) Clinical experiences in early childhood settings prior to student teaching provide opportunities for observing, guiding, and assessing young children, birth to age eight, in a variety of high quality preschool and primary settings. Practicum spans the entire semester. To be taken Pass/No Pass only. Prereg: EDEC 4500. Coreq: EDEC 4300 and EDEC 4400 and EDEC 4600.

EDEC 4200 Early Childhood Science 3 (2) Students develop knowledge, skills, and attitudes needed to foster science education among young children. Emphasizes teaching strategies and techniques appropriate for young children (birth to age eight), understanding the unique learning needs of special populations, and integrating science across the curriculum. Prereg: EDEC 3360. Coreq: EDEC 3040 and EDEC 4201 and EDEC 4500.

EDEC 4201 Early Childhood Science Laboratory 3 (2) Non-credit laboratory to accompany EDEC 4200. Coreq: EDEC 4200.

EDEC 4300 Early Childhood Mathematics 3 (3) Examination of theories and methods of teaching mathematics in terms of how young children develop mathematical thinking. Topics include problem solving, current issues, diversity, current technologies, reflective teaching, and applications of math in everyday life. Prereg: General Education mathematics requirement; admission to the professional level. Prereg: MATH 1150 and MATH 1160 and MATH 2160 and EDEC 4500. Coreq: EDEC 4000 and EDEC 4400 and EDEC 4600.

EDEC 4400 Early Childhood English Language Arts 3 (3) Examination of language arts across the early childhood curriculum and ways to develop and support children’s language arts practices across content areas. Prereg: EDEC 4500. Coreq: EDEC 4000 and EDEC 4300 and EDEC 4600.

EDEC 4500 Early Childhood Curriculum and Social Studies Methods 3 (3) Examination of how content related to social studies can be integrated with concepts across the early childhood curriculum. A focus is placed on identifying and understanding the curricular needs of young children and how to connect content areas through social studies concepts. Prereg: EDEC 3360. Coreq: EDEC 3400 and EDEC 4200.

EDEC 4600 Critical Issues and Cultural Diversity in Early Childhood Education 3 (3) In depth analysis of current and critical issues in early childhood education using a critical multicultural education framework. Topics include critical multiculturalism, curriculum for diverse learners, and use of tools, media, materials and techniques. Prereg: Admission to Elementary Education, Special Education or Early Childhood Education majors. Coreq: EDEL 3101.
EDEL 3101 Arts in the Elementary School Laboratory 0 (3) Non-credit laboratory to accompany EDEL 3100. Coreq: EDEL 3100.

EDEL 3110 Teaching Diverse Populations 3 (3) Preservice teachers examine the role of teachers as they relate to culturally appropriate curricula, instruction, and evaluation. Prq: Admission to the professional level.

EDEL 3210 Physical Education Methods and Content for Classroom Teachers 3 (3) Provides education majors with a basic understanding of the methods and techniques utilized in teaching elementary physical education. Emphasizes acquiring a basic understanding of the movement education approach and the ability to teach integrated lessons utilizing this approach. Prq: Junior standing and admission to the professional level; and EDF 3020 and EDF 3340. Prq or concurrent enrollment: EDEL 3100.

EDEL 4010 Elementary Field Experience 3 (1) Practical classroom experience prior to the student teaching semester for Elementary Education majors. For a twelve-week period, students spend two days per week in schools observing, tutoring individuals, conducting small group activities, and teaching the class. Students attend seminars on topics related to field experience. Prq: EDF 3340 and EDEL 3100 and EDEL 3210 and EDEL 4520; and admission to the professional level. Coreq: EDEL 4011.

EDEL 4011 Elementary Field Experience Laboratory 0 (6) Non-credit laboratory to accompany EDEL 4010. Coreq: EDEL 4010.

EDEL 4050 Social Justice and 21st Century Learners 3 (3) Using an integrated focus approach to social justice education, preservice teachers investigate an educational event and/or issue through a combination of race, gender or socioeconomic factors. Preservice teachers write personal classroom stories related to practice/praxis; and use technology to document stories of themselves, their teacher, and/or their teacher education preparation. Prq: Admission to the professional level. Coreq: EDEL 4670 and EDLT 4620 and EDLT 4630.

EDEL 4510 Elementary Methods in Science Teaching 3 (2) Development of process skills, technical skills, and attitudes needed to foster increased confidence and commitment to the teaching of elementary science, with emphasis on teaching strategies and techniques and their implications for what we know of how children learn science. Includes Honors sections. Prq: BIOL 1090 and PHSC 1170 and PHSC 1180; and admission to the professional level. Coreq: EDEL 4511.

EDEL 4511 Elementary Methods in Science Teaching Laboratory 0 (3) Non-credit laboratory to accompany EDEL 4510. Coreq: EDEL 4510.

EDEL 4520 Elementary Methods in Mathematics Teaching 3 (2) Special emphasis is given to the development of understanding, skills, and attitudes in the elementary curriculum with focus on strategies, techniques, and materials for teaching elementary mathematics. Includes honors sections. Prq: MATH 1150 and MATH 1160 and MATH 2160 and MATH 3160; and admission to the professional level. Coreq: EDEL 4521 and EDLT 4620.

EDEL 4521 Elementary Methods in Mathematics Teaching Laboratory 0 (3) Non-credit laboratory to accompany EDEL 4520. Coreq: 4520.

EDEL 4580 Health Education Methods and Content for the Classroom Teacher 3 (3) Study of the content, methodology, and resources materials necessary for teaching comprehensive health education in public schools. Emphasizes the National Health Education Standards and the health behaviors of youth that are allied with the Coordinated School Health Program. Prq: Minimum grade-point average of 2.0.

EDEL 4670 Principles and Strategies for Teaching English to Speakers of Other Languages in Elementary Schools 3 (3) Introduces preservice teachers to theories and principles related to second language acquisition as applied in culturally and linguistically responsive classrooms. Presents instructional models and strategies for teaching the language acquisition process within a context of academics supportive of English language learners (ELLs) and their needs. Prq: Admission to the professional level. Coreq: EDEL 4050 and EDLT 4620 and EDLT 4630.

EDEL 4820 Capstone Seminar in Elementary Teaching 3 (2) Students strengthen connections between theory and pedagogy; analyze and solve contemporary problems in elementary education; and reflect upon their personal growth as educators. Analyze and reflect upon their personal growth as educators. Prq: Admission to the professional level. Coreq: EDEL 4820.

EDEL 4821 Capstone Seminar in Elementary Teaching Laboratory 0 (3) Non-credit laboratory to accompany EDEL 4820. Coreq: EDEL 4820.

EDEL 4822 Directed Teaching in the Elementary School 0 (1) Supervised observation and teaching experience in cooperation with selected elementary schools. Restricted to seniors or graduates who have completed prerequisite courses. Prq: Admission to the professional level. Coreq: EDEL 4822.

EDEL 4870 Elementary Methods in Social Studies Teaching 3 (2) Introduction to methods, materials, and techniques needed to teach social studies in the elementary schools. Prq: GEOG 1030; and HIST 1010 or HIST 1020; and admission to the professional level. Coreq: EDEL 4870.

EDEL 4871 Elementary Methods in Social Studies Teaching Laboratory 0 (3) Non-credit laboratory to accompany EDEL 4870. Coreq: EDEL 4870.

EDEL 4880 Elementary Methods in Language Arts Teaching 3 (2) Introduction for pre-service teachers to the skills of the language arts other than reading and the methods, materials, and techniques needed to teach these skills to students in the elementary school. Prq: ENGL 1030 or ENGL 3850; and admission to the professional level. Coreq: EDEL 4880.

EDEL 4881 Elementary Methods in Language Arts Teaching Laboratory 0 (3) Non-credit laboratory to accompany EDEL 4880. Coreq: EDEL 4880.

EDUCATIONAL FOUNDATIONS

Professors: D.E. Barrett, R.P. Green Jr., D.M. Switzer; Associate Professor: S. N. Rosenblith; Chair: Assistant Professor: D.M. Boyer, D. Hero, F. Jamil, M. Qian, G. Ring P. Vargas; Clinical Faculty: R.D. Visser

EDF 3010 Principles of American Education 3 (3) Study of the legal basis, historical development, characteristics, and functions of educational institutions in the United States. Includes Honors sections. Prq: Sophomore standing and a 2.0 minimum grade-point average.

EDF 3020 Educational Psychology 3 (3) Introduction to classroom use of objectives, motivation theories, learning theories, tests and measurements, classroom management, and knowledge of exceptional learners. Includes Honors sections. Prq: Sophomore standing and a 2.0 minimum grade-point average.

EDF 3030 Classroom Assessment 3 (3) Introduction to classroom assessment and standardized testing. Prq: EDF 3020 and junior standing.

EDF (CTE) 3150 Technology Skills for Learning 2 (3) Students develop technology skills, such as creating Web pages and multimedia presentations in the context of general education class requirements. Products developed are linked within the School of Education e-portfolio. May also be offered as CTE 3150. Prq: Admission to Teacher Education program and ED 1050.

EDF (HIST) 3200 History of United States Public Education 3 (3) Historical survey of the development of United States public schools. May also be offered as HIST 3200. Prq: Junior standing.

EDF 3340 Child Growth and Development 3 (3) Introduction to lifespan development. Heavy emphasis is placed on the physical, social, emotional, and cognitive characteristics. Includes a minimum of five one-hour observation-participation visits to an elementary school. Includes Honors sections. Prq: Sophomore standing and a 2.0 minimum grade-point average.

EDF 3350 Adolescent Growth and Development 3 (3) Introduction to lifespan development. Emphasizes the physical, social, emotional, and cognitive characteristics of the 10- to 18-year old and the educational implications of those developmental characteristics. Includes Honors sections. Prq: Sophomore standing and a 2.0 minimum grade-point average.

EDF 4060 Philosophy, Schooling, and Educational Policy 3 (3) Analysis of the development of contemporary educational theory and its impact on current schooling practices and educational policy development.

EDF 4250 Instructional Technology Strategies 1 (2) Helps future teachers learn to use technology effectively in support of content area instruction. To be taken concurrently with either methods classes or during student teaching as directed by major. Prq: EDF 3150 or EDF 4800.
EDF 4800* Foundations of Digital Media and Learning 3 (2) Critical use of digital media for leadership and learning within societal and educational contexts. Course focuses on learner impact while exploring, developing, and evaluating technology-enhanced applications. Further develops competencies with new media literacies and addresses societal, cultural, ethical, and participatory issues and uses of digital media. Registration preference may be given to students enrolled in a teacher education program. Correq: EDF 4801.

EDF 4801* Foundations of Digital Media and Learning Laboratory 0 (2) Non-credit laboratory to accompany EDF 4800. Correq: EDF 4800.

EDF 4820* Advanced Educational Applications of Microcomputers 3 (2) Provides students with the knowledge and skills needed to apply microcomputer technology to the utilization and generation of educational software in accordance with sound educational principles. Prqg: AGED 4800 or EDF 4800. Correq: EDF 4821.

EDF 4821* Advanced Educational Applications of Microcomputers Laboratory 0 (2) Non-credit laboratory to accompany EDF 4820. Correq: EDF 4820.

EDF 4900* Classroom Management 3 (3) Aids students in developing strategies and plans to manage a classroom effectively. Topics include both time and behavioral management. Students learn how to prevent problems as well as address problems once they have occurred. Includes Honors sections. Prqg: EDF 3020 or PSYC 2010; and EDF 3340 or EDF 3350; and a 2.0 minimum grade-point ratio; or graduate standing.

EDF 4970* Instructional Media in the Classroom 3 (3) Integrated approach to the use of audiovisual media stressing systematic planning, selection, utilization, and evaluation as well as production of materials and equipment operation. Prqg: 2.0 minimum grade-point average.

LITERACY
Professor: L.B. Gambrell; Associate Professors: J.L. Dunston, S.K. Fullerton, J.C. McNair; Assistant Professors: C.C. Bates; Visiting Lecturer: M.A. McBride

EDLT 1030 Learning Strategies 2 (3) Students learn strategies of active learning and critical thinking skills, which become an integral part of their natural thinking processes. Students learn how to generalize and apply newly acquired strategies to a variety of settings and situations.

EDLT 4580 Early Literacy: From Birth to Kindergarten 3 (3) Provides Early Childhood Education majors with knowledge of theory and research-based, developmentally appropriate instructional practices related to children’s literacy development within the home and school from birth to kindergarten. Factors related to assessment and communication within and between the family, school, and teacher are addressed. Prqg: Admission to the professional level.

EDLT 4590 Teaching Reading in the Early Grades K-3 3 (3) Provides early childhood and Elementary Education majors an understanding of teaching reading in the elementary school setting in kindergarten through third grade. Students investigate general principles of language and literacy development and learn methods for teaching and assessing children’s literacy. Prqg: EDEC 3360 and EDF 3010 and EDF 3020 and admission to the professional level. Early Childhood Education majors must enroll in EDEC 4000 and EDLT 4590 during the same term.

EDLT 4600 Teaching Reading in the Elementary Grades 2-6 3 (3) Provides preservice teachers with an understanding of teaching reading in the elementary setting in grades 2–6. Students investigate general principles of language and literacy development and learn methods for teaching and assessing children’s literacy. Prqg: EDF 3010 and EDF 3020 and EDF 3340 and admission to the professional level.

EDLT 4610 Content Area Reading: Grades 4-6 3 (3) Provides preservice teachers with an understanding of teaching content area literacy in grades 4–6. Students investigate general principles of language and literacy development and learn methods for teaching and assessing children’s literacy. Prqg: EDF 3010 and EDF 3020 and EDF 3340 and admission to the professional level.

EDLT 4611 Content Area Reading: Grades 6-8 Laboratory 0 (3) Non-credit laboratory to accompany EDF 4610. Correq: EDF 4610.

EDLT 4620 Reading and Responding to Children’s Literature in the Elementary Classroom 3 (3) Introduces children’s literature across genres. Participants read literature for responding to literature’s content and literary elements. Prqg: EDF 3020 and EDF 3340 and admission to the professional level. Correq: EDEL 4520.

EDLT 4630 Teaching Reading and Writing to English Language Learners 3 (3) Within a framework of the dimensions of cross-cultural knowledge and knowledge of theories and principles related to second language acquisition, participants develop understanding of the reading and writing processes and instructional models, strategies and tools that offer supportive learning for English language learners. Prqg: EDLT 4600 and admission to the professional level.

EDLT 4980 Secondary Content Area Reading Laboratory 0 (2) Non-credit laboratory to accompany EDF 4970. Correq: EDF 4980.

EDLT 4981 Secondary Content Area Reading Laboratory 0 (2) Non-credit laboratory to accompany EDF 4970. Correq: EDF 4981.

EDLT 4985 Secondary Content Area Reading 3 (2) Designed for preservice teachers who are involved with field experiences prior to student teaching full time. Prepares content area teachers to teach the reading skills necessary for effective teaching of content area material. Prqg: Admission to professional level. Correq: EDF 4981.

SECONDARY EDUCATION
Associate Professors: S.M. Che, M.P. Cook, J.C. Marshall; Assistant Professors: S. Cridland-Hughes, L.J. King; Clinical Faculty: C.L. Hallwanger

EDSC 2260 A Professional Approach to Secondary Algebra 3 (3) Focuses on the pedagogical content knowledge needed to teach algebra effectively. It helps students master algebraic concepts, connections and representations at a deep level and solve meaningful real world problems. Students also explore the history of mathematical and algebraic thought and create meaningful and engaging lessons. Prqg: Secondary Education major in Mathematics Teaching Area or Mathematics Teaching major.

EDSC 3240 Practicum in Secondary English 3 (2) Preservice secondary English teachers gain both content and pedagogical knowledge by observing and reflecting upon the classroom practices of selected in-service high school English teachers. Correq: EDSC 3241.

EDSC 3241 Practicum in Secondary English Laboratory 0 (3) Non-credit laboratory to accompany EDSC 3240. Correq: EDSC 3240.

EDSC 3260 Practicum in Secondary Mathematics 3 (2) Preservice secondary mathematics teachers gain both content and pedagogical knowledge by observing and reflecting upon the classroom practices of selected in-service high school mathematics teachers. Correq: EDSC 3261.

EDSC 3261 Practicum in Secondary Mathematics Laboratory 0 (3) Non-credit laboratory to accompany EDSC 3260. Correq: EDSC 3260.

EDSC 3270 Practicum in Secondary Science 3 (2) Preservice secondary science teachers gain both content and pedagogical knowledge by observing and reflecting upon the classroom practices of selected in-service high school science teachers. Correq: EDSC 3271.

EDSC 3271 Practicum in Secondary Science Laboratory 0 (3) Non-credit laboratory to accompany EDSC 3270. Correq: EDSC 3270.

EDSC 3280 Practicum in Secondary Social Studies 3 (2) Preservice secondary social studies teachers gain both content and pedagogical knowledge by observing and reflecting upon the classroom practices of selected in-service high school social studies teachers. Correq: EDSC 3281.

EDSC 3281 Practicum in Secondary Social Studies Laboratory 0 (3) Non-credit laboratory to accompany EDSC 3280. Correq: EDSC 3280.

EDSC 4120 Directed Student Teaching in Secondary School Subjects 12 (1) Program of supervised observation and teaching in cooperation with selected public schools. Opportunities are provided for prospective teachers to obtain experiences in the subject area. Students are sectioned according to teaching fields: English, social science, mathematical sciences, modern languages, science. Enrollment is limited. Correq: EDSC 4121.

EDSC 4121 Directed Student Teaching in Secondary School Subjects Laboratory 0 (33) Non-credit laboratory to accompany EDSC 4120. Correq: EDSC 4120.
EDSC 4170 Teaching Internship in the Secondary School 6 (16) Full-time, supervised teaching internship for one semester in cooperation with a participating South Carolina secondary school. Reserved for students seeking certification in critical-need teaching areas. May be repeated for a maximum of 12 credits. To be taken Pass/No Pass only. Preq: EDF 3010 and EDF 3020 and EDF 3330 and EDLT 4980; and one of the following: EDSC 4240, 4250, 4260, 4270; and consent of School of Education by way of approving student’s application.

EDSC 4240 Teaching Secondary English 3 (2) Development of instructional practices and materials appropriate for secondary English; familiarization with curriculum materials; includes field experiences in local schools in preparation for student teaching. Taught fall semester only. Includes Honors sections. Preq: Second semester Junior standing, admission to the professional level, ED 1050 and EDF 3010 and EDF 3020 and EDF 3350; at least 18 hours of English coursework and a minimum grade-point average of 2.5. Preq or concurrent enrollment: EDLT 4980. Coreq: EDSC 4241.

EDSC 4241 Teaching Secondary English Laboratory 0 (2) Non-credit laboratory to accompany EDSC 4240. Coreq: EDSC 4240.

EDSC 4250 Teaching Secondary Modern Languages 3 (2) Development of instructional practices and materials appropriate for secondary modern languages; familiarization with curriculum materials; includes field experiences in local schools. Taught fall semester only. Includes Honors sections. Preq: Second semester Junior standing, admission to the professional level, ED 1050 and EDF 3010 and EDF 3020 and EDF 3350; at least 18 hours of English coursework and a minimum grade-point average of 2.5. Preq or concurrent enrollment: EDLT 4980. Coreq: EDSC 4251.

EDSC 4251 Teaching Secondary Modern Languages Laboratory 0 (2) Non-credit laboratory to accompany EDSC 4250. Coreq: EDSC 4250.

EDSC 4260 Teaching Secondary Mathematics 3 (2) Development of instructional practices appropriate for secondary mathematics; familiarization with curriculum materials, planning, and implementation of lessons; includes field experiences in local schools. Taught fall semester only. Includes Honors sections. Preq: Admission to the professional level, ED 1050 and EDF 3010 and EDF 3020 and EDF 3350; at least 18 hours of English coursework and a minimum grade-point average of 2.5. Preq or concurrent enrollment: EDLT 4980. Coreq: EDSC 4261.

EDSC 4261 Teaching Secondary Mathematics Laboratory 0 (2) Non-credit laboratory to accompany EDSC 4260. Coreq: EDSC 4260.

EDSC 4270 Teaching Secondary Science 3 (2) Development of instructional practices and materials for teaching secondary school science (biological, earth, and physical sciences); familiarization with secondary science curriculum materials; includes field experiences in local schools. Taught fall semester only. Includes Honors sections. Preq: Second semester Junior standing, admission to the professional level, ED 1050 and EDF 3010 and EDF 3020 and EDF 3350; at least 18 hours of English coursework and a minimum grade-point average of 2.5. Preq or concurrent enrollment: EDLT 4980. Coreq: EDSC 4271.

EDSC 4271 Teaching Secondary Science Laboratory 0 (2) Non-credit laboratory to accompany EDSC 4270. Coreq: EDSC 4270.

EDSC 4280 Teaching Secondary Social Studies 3 (2) Development of instructional practices and materials appropriate for secondary social studies; familiarization with curriculum materials; includes field experiences in local schools in preparation for student teaching. Taught fall semester only. Includes Honors sections. Preq: Second semester Junior standing, admission to the professional level, ED 1050 and EDF 3010 and EDF 3020 and EDF 3350; at least 18 hours of English coursework and a minimum grade-point average of 2.5. Preq or concurrent enrollment: EDLT 4980. Coreq: EDSC 4281.

EDSC 4281 Teaching Secondary Social Studies Laboratory 0 (2) Non-credit laboratory to accompany EDSC 4280. Coreq: EDSC 4280.

EDSC 4370 Technology in Secondary Mathematics 3 (3) Students learn how to integrate calculators, data collectors, and computers in the secondary mathematics curriculum. They solve problems from middle school, Algebra I, Geometry, and Algebra II courses. Preq: Second semester Junior standing, admission to the professional level.

EDSC 4440 Teaching Internship in Secondary English 9 (27) Interns design, implement, and critically reflect upon instructional units and teaching practices in supervised secondary English classes. Interns must provide evidence of performance that meets national and state teaching standards for secondary English. Taught spring semester only. Preq: EDSC 4240. Coreq: EDSC 4440.

EDSC 4441 Teaching Internship in Secondary English 9 (27) Interns design, implement, and critically reflect upon instructional units and teaching practices in supervised secondary English classes. Taught spring semester only. Preq: EDSC 4240. Coreq: EDSC 4441.

EDSC 4540 Secondary English Capstone Seminar 3 (2) Capstone seminar accompanying supervised secondary English mathematics teaching internship. Satisfies part of the requirements for South Carolina secondary certification. Taught spring semester only. Preq: EDSC 4260. Coreq: EDSC 4540 and EDSC 4561.

EDSC 4561 Secondary Mathematics Capstone Seminar 0 (3) Non-credit laboratory to accompany EDSC 4560. Coreq: EDSC 4561.

EDSC 4570 Secondary Science Capstone Seminar 3 (2) Capstone seminar accompanying supervised high school science teaching internship. Satisfies part of requirement for South Carolina secondary science certification. Offered spring semester only. Preq: EDSC 4270. Coreq: EDSC 4470 and EDSC 4571.

EDSC 4571 Secondary Science Capstone Seminar Laboratory 0 (3) Non-credit laboratory to accompany EDSC 4570. Coreq: EDSC 4571.

EDSC 4570 Secondary Social Studies Capstone Seminar 3 (2) Capstone seminar accompanying supervised high school social studies teaching internship. Satisfies part of requirement for South Carolina secondary certification. Offered spring semester only. Preq: EDSC 4280. Coreq: EDSC 4480 and EDSC 4581.

EDSC 4581 Secondary Social Studies Capstone Seminar Laboratory 0 (3) Non-credit laboratory to accompany EDSC 4580. Coreq: EDSC 4580.

EDSC (BIOI) 4820 Laboratory Techniques for Teaching Science 3 (1) Focuses on basic lab skills needed to plan, prepare, and conduct inquiry-based laboratories and to familiarize pre-service teachers with a variety of scientific equipment and their methodologies. Topics include ways to integrate technology into the classroom, lab safety, and the development of inquiry-based classroom activities. May also be offered as BIOL 4820. Preq: BIOL 1040 and BIOL 1060; or BIOL 1110. Coreq: EDSC 4821.

EDSC (BIOI) 4821 Laboratory Techniques for Teaching Science Laboratory 0 (6) Non-credit laboratory to accompany EDSC 4820. May also be offered as BIOL 4821. Coreq: EDSC 4820.

EDSC (ENGL) 4850 Composition and Language Studies for Teachers 3 (3) Examines the principles and practices of composing and teaching composition. Includes a historical study of English language with attention to phonology, morphology, syntax, semantics, and practical aspects of language grammars. Serves as a practicum in composing and assessing processes, collaborative learning, writers purposes, audience expectations, and language conventions. May also be offered as ENGL 4850. Preq: ENGL 3100.
EDSP 3700 Introduction to Special Education 3 (3) Survey of students with disabilities and with gifts/talents. Individuals with Disabilities Education Act is emphasized, including general educator's role in serving students with special needs. Characteristics, assessment, and effective instructional procedures for students of varying exceptionalities are addressed. Includes Honors sections. Students must have a minimum grade-point average of 2.0 to enroll in this course.

EDSP 3720 Characteristics and Instruction of Individuals with Learning Disabilities 3 (3) In-depth coverage of characteristics and identification procedures for individuals with learning disabilities. Effective instructional strategies are addressed. Students participate in field experiences throughout the semester. Offered fall semester only. Prereq: EDSP 3700. Coreq: EDSP 3721 and EDSP 3740.

EDSP 3721 Characteristics and Instruction of Individuals with Learning Disabilities Laboratory 0 (1) Non-credit laboratory to accompany EDSP 3720. Coreq: EDSP 3720.

EDSP 3730 Characteristics and Instruction of Individuals with Intellectual Disabilities and Autism 3 (3) In-depth study of the etiology, assessment procedures, learning and behavioral characteristics, and effective instructional strategies related to the education of individuals with intellectual disabilities and autism. Students participate in a field experience throughout the semester. Prereq: EDSP 3720 and EDSP 3740; and admission to professional level. Prereq or concurrent enrollment: EDSP 3730. Coreq: EDSP 3731 and EDSP 4910.

EDSP 3731 Characteristics and Instruction of Individuals with Intellectual Disabilities and Autism Laboratory 0 (1) Non-credit laboratory to accompany EDSP 3730. Coreq: EDSP 3730.

EDSP 3740 Characteristics and Strategies for Individuals with Emotional/Behavioral Disorders 3 (3) In-depth coverage of characteristics and identification procedures for individuals with emotional or behavioral disorders. Effective instructional strategies and behavior management are addressed. Students participate in field experiences throughout the semester. Prereq: EDSP 3730 and EDSP 3740; and admission to professional level. Coreq: EDSP 3740 and EDSP 4910.

EDSP 3741 Characteristics and Strategies for Individuals with Emotional/Behavioral Disorders Laboratory 0 (1) Non-credit laboratory to accompany EDSP 3740. Coreq: EDSP 3740.

EDSP 3750 Early Intervention Strategies for Young Children with Special Needs 3 (3) Provides students with a working knowledge of the history and legal precedent for providing early intervention services, the characteristics of young children with special needs and their families, and effective instructional techniques for working with this population. Students participate in field experiences throughout the semester. Prereq: EDSP 3700. Coreq: EDSP 3751.

EDSP 3751 Early Intervention Strategies for Young Children with Special Needs Laboratory 0 (1) Non-credit laboratory to accompany EDSP 3750. Coreq: EDSP 3750.

EDSP 4900 Teaching Writing to Students with Disabilities 1 (1) Prepares students to deliver writing instruction and to administer curriculum-based assessments. Effective instructional strategies for individuals with disabilities in the areas of written expression, writing mechanics and spelling are addressed. Prereq: EDSP 4910 and admission to the professional level. Coreq: EDSP 4920 and EDSP 4930 and EDSP 4940 and EDSP 4960 and EDSP 4970.

EDSP 4910 Educational Assessment of Individuals with Disabilities 3 (3) Introduction to assessment process (verification) in special education. Includes procedural safeguards; data collections via informal and standardized procedures; issues in assessment; psychometric properties of standardized tests; and administration, scoring, and interpretation of selected instruments. Offered spring semester only. Prereq: EDSP 3720 and EDSP 3740; and admission to the professional level. Coreq: EDSP 3730 and EDSP 4911.

EDSP 4911 Educational Assessment of Individuals with Disabilities Laboratory 0 (2) Non-credit laboratory to accompany EDSP 4910. Coreq: EDSP 4910.

EDSP 4920 Mathematics Instruction for Individuals with Mild Disabilities 3 (3) Prepares students to provide explicit instruction in mathematics for individuals with mild disabilities. Students learn to assess, structure, and teach math skills systematically. Offered fall semester only. Prereq: EDSP 4910; and admission to the professional level. Coreq: EDSP 4930 and EDSP 4940 and EDSP 4960 and EDSP 4970.

EDSP 4930 Classroom and Behavior Management for Special Educators 3 (3) Students describe various intervention strategies for increasing and maintaining appropriate behaviors and for decreasing or eliminating inappropriate behaviors. Students accurately recognize, record, and chart inappropriate behaviors; employ the least restrictive intervention; foster self-management skills; and develop preventive and classwide systems for managing academic and social behavior. Offered fall semester only. Prereq: EDSP 4910; and admission to the professional level. Coreq: EDSP 4940 and EDSP 4960 and EDSP 4970.

EDSP 4940 Teaching Reading to Students with Mild Disabilities 3 (3) Emphasizes the knowledge and skills necessary for teaching reading to students with mild disabilities. Offered fall semester only. Prereq: EDSP 4910; and admission to the professional level. Coreq: EDSP 4900 and EDSP 4920 and EDSP 4930 and EDSP 4940 and EDSP 4960 and EDSP 4970.

EDSP 4950 Communication and Collaboration in Special Education 3 (3) Focuses on effective communication skills for preservice special education teachers to encourage collaboration among relevant stakeholders and improve outcomes for individuals with disabilities. Prereq: EDSP 4960. Coreq: EDSP 4980.

EDSP 4960 Special Education Field Experience 3 (9) Supervised practical experience prior to Directed Teaching for preservice special education teachers preparing to teach individuals with mild/moderate disabilities. Offered fall semester only. Prereq: EDSP 4910; and admission to the professional level. Coreq: EDSP 4960 and EDSP 4970 and EDSP 4930 and EDSP 4940 and EDSP 4990.

EDSP 4970 Secondary Methods for Individuals with Disabilities 3 (3) Preparation for working with students with mild/moderate disabilities in secondary schools. Focus is on literature, methods, and materials for providing instruction in transition, self-determination, knowledge within content areas, functional skills, and integration into the community. Offered fall semester only. Prereq: EDSP 4910; and admission to the professional level. Coreq: EDSP 4900 and EDSP 4920 and EDSP 4930 and EDSP 4940 and EDSP 4960.

EDSP 4980 Directed Teaching in Special Education 12 (34) Comprehensive course providing a full-time, semester-long experience for preservice special education teachers who plan to teach individuals with mild/moderate disabilities. Generally the last course in the program; provides teaching experience under the supervision of University and school personnel. Offered spring semester only. Prereq: EDSP 4960 Coreq: EDSP 4950.

ENVIRONMENTAL ENGINEERING AND SCIENCE

EES 2020 Environmental Engineering Fundamentals I 3 (3) Overview of topics and engineering application areas that comprise the environmental engineering profession. Significant emphasis is given to development of oral and written communication skills needed by the engineering professional and application of engineering fundamentals to environmental systems. Prereq: CH 1010 and ENGR 1060 and MATH 1080, each with a grade of C or better. Prereq or concurrent enrollment: CHE 1300 or ENGR 1070.

EES 2021 Environmental Engineering Fundamentals II 4 (3) Overview of fundamentals related to environmental engineering processes, including water treatment, wastewater treatment, solid and hazardous waste management, air pollution control, risk assessment, and pollution prevention strategies. Laboratories cover measurement techniques and applications to process engineering. Prereq: CH 1020; and EES 2010; and CHE 1300 or ENGR 1090. Students must have a C or better in ENGR 1090 to meet the prerequisite requirement. Coreq: EES 2021.
EES 3000 Honors Seminar: Introduction to Research in Environmental Engineering 1 (1) Provides an introduction to environmental engineering research. Students attend seminars describing how a research program is developed, including the scientific method and hypothesis testing. Students are expected to write and revise a research proposal, which is reviewed by the faculty advisor. Preq: Consent of instructor and membership in Calhoun Honors College.

EES 3010 Honors Research in Environmental Engineering 1, 3 (9) In this portion of the under-graduate honors research program in environmental engineering, students begin their environmental engineering research project. Preq: EES 3000 and consent of instructor and membership in the Calhoun Honors College.

EES 3030 Water Treatment Systems 2 (2) Study of fundamental principles, rational design considerations, and operational procedures of the unit operations and processes employed in water treatment. Introduces the integration of unit operations and processes into water treatment systems. Preq: EES 2020. Coreq: EES 3040 and EES 3050.

EES 3040 Wastewater Treatment Systems 2 (2) Study of fundamental principles, rational design considerations, and operational procedures of the unit operations and processes employed in wastewater treatment. Both physicochemical and biological treatment techniques are discussed. Introduces the integration of unit operations and processes into wastewater treatment systems. Preq: EES 2020. Coreq: EES 3030 and EES 3050.

EES 3050 Water and Wastewater Treatment Laboratory 1 (3) Laboratory exercises to accompany EES 3030 and EES 3040 in selected water and wastewater treatment operations and processes. Emphasis is on understanding of fundamental principles and operational procedures, experimental design, data analysis, use of experimental data in engineering design applications, and writing of engineering reports. Preq: EES 2020. Coreqs: EES 3030 and EES 3040.

EES 3100 Introduction to Nuclear Engineering 3 (3) Technological, industrial and medical applications of the principles of radiation and radioactive materials. Topics to be covered include basic nuclear physics, interactions of radiation with matter, radiation detection and measurement, fission reactors, and the nuclear fuel cycle. Preq: MATH 2080 with a C or better.

EES 4000 Honors Research in Environmental Engineering II 1, 3 (9) Continuation of EES 3010. Students continue research work on their honors environmental engineering project. Preq: EES 3010 and consent of instructor and membership in the Calhoun Honors College.

EES 4010* Environmental Engineering 3 (3) Introduction to the field of environmental engineering. Topics include environmental phenomena, impact of pollutants in the aquatic environment, solid-waste management, air pollution control, radiological health, and simple water and wastewater treatment systems. Preq: Junior standing in engineering or consent of instructor. Preq: Junior standing in the College of Engineering and Science. Preq or concurrent enrollment: CE 3410 or CHE 2300 or ME 3080; or GEOL 4820 and either GEOL 4150 or MATH 2060.

EES 4020* Water and Waste Treatment Systems 3 (3) Study of fundamental principles, rational design considerations, and operational procedures of the unit operations and processes employed in water and waste treatment. Both physicochemical and biological treatment techniques are discussed. Introduces the integration of unit operations and processes into water and waste treatment systems. Preq: EES 2020 or EES 4010.

EES 4100* Environmental Radiation Protection 13 (3) Fundamental principles of radiological health and radiation safety. Topics include radiation fundamentals, basic concepts of environmental radiation protection, internal and external dosimetry, environmental dose calculations and radiation protection standards. Preq: PHYS 2210 with a grade of C or better.

EES 4110* Ionizing Radiation Detection and Measurement 3 (2) Laboratory exercises in ionizing radiation detection and measurements. Topics include nuclear electronics; counting statistics; radiation interactions; basic gas, scintillation, and semiconductor detectors; gamma-ray spectroscopy; health physics survey instrumentation; and luminescent dosimetry. Preq: EES 4110. Coreq: EES 4111.

EES 4111* Ionizing Radiation Detection and Measurement Laboratory 0 (3) Non-credit laboratory to accompany EES 4110. Coreq: EES 4110.

EES 4120 Nuclear Fuel Cycle and Radioactive Waste Management 3 (3) Materials flow throughout the nuclear fuel cycle emphasizing the handling of radioactive materials. Environmental aspects of fuel cycle activities; radioactive waste management; nuclear material proliferation and safeguards; nuclear forensics. Preq: EES 3010 or better. Preq or concurrent enrollment: EES 4100.

EES 4130* Air Pollution Engineering 3 (3) Introductory course in air pollution and its control. Topics include air pollutants and effects, sources, dispersion models, engineering controls, and air quality legislation. Preq: EES 2020 or EES 4010.

EES 4310* Biodegradation and Bioremediation 3 (3) Basic principles of biodegradation for major classes of organic and inorganic contaminants, including halogenated aliphatic and aromatic compounds, fuel hydrocarbons, pesticides and nitrate, energetic compounds, metals, and radionuclides. The basic science of microbiology and chemistry, and how these are used to develop bioremediation strategies and techniques, are discussed. Preq: One of EES 2020 or EES 4010; and one of CH 210 or CH 2230; and one of MCR 3050 or MCR 4130. EES 4500 Professional Seminar 1 (1) Covers various topics related to skills and techniques for evaluating career opportunities, seeking and obtaining environmental engineering employment, career development, professional registration, professional ethics, and other factors necessary for achieving success in a professional career. Course enables students to make decisions that will help them succeed in their careers. Preq or concurrent enrollment: EES 3030 and EES 3040 and EES 3050 and EES 4300.

EES (BE, FOR) 4510* Newman Seminar and Lecture Series in Natural Resources Engineering 1 (2) Topics dealing with development and protection of land, air, water, and related resources are covered by seminar with instructor and invited lecturers. Current environmental and/or resource conservation issues are addressed. Includes Honors sections. May also be offered as BE 4510 or FOR 4510. Preq: Senior standing.

EES 4750 Capstone Design Project 3 (1) Students apply creativity and their engineering knowledge to solve open-ended environmental engineering problems. Problems are formulated and solutions are evaluated by faculty and practicing engineers. Oral and written communication skills are developed through presentations, correspondence and project reports. Preq: CE 3410 and EES 3030 and EES 3040 and EES 3050 and EES 4300. Coreq: EES 4751.

EES 4751 Capstone Design Project Laboratory 0 (6) Non-credit laboratory to accompany EES 4750. Coreq: EES 4750.

EES 4800* Environmental Risk Assessment 3 (3) Quantitative estimation of human health risk posed by the release of a contaminant to the environment. Topics include methods for analyzing emission rate, environmental transport, exposure, and health effects; methods of uncertainty analysis; and the role of risk assessment in environmental regulation and environmental decision making. Preq: EES 2020 or EES 4010; and MATH 2080 with a grade of C or better.

EES (BE) 4840* Municipal Solid Waste Management 3 (3) Introduction to the problems, regulations, collection, handling, recycling, and disposal of municipal solid wastes in the urban and rural sectors. Emphasizes an integrated waste-management system with resource recovery, composting, incineration, landfill disposals, and their costs. May also be offered as BE 4840. Preq: EES 2020 or EES 4010.

EES 4850* Hazardous Waste Management 3 (3) Introduction to the problems, regulations, treatment, and ultimate disposal of hazardous and toxic materials. Spill cleanup, groundwater transport, land disposal, incineration, and treatment technologies are discussed. Preq: EES 2020 or EES 4010; and CH 210 or CH 2230.

EES 4860* Environmental Sustainability 3 (3) Topics include sustainable engineering and industrial ecology with emphasis on pollution prevention methods using source reduction, recycling assessments, treatment to reduce disposal, life-cycle assessment and design for the environment. Emphasizes case studies. Preq: Junior standing in College of Engineering and Science.

EES 4900* Special Projects 1-3 (1-3) Studies or laboratory investigations on special topics in the environmental engineering and science field. Arranged on a project basis with a maximum of individual student effort and a minimum of staff guidance. May be repeated for a maximum of three credits. Includes Honors sections. Preq: Consent of instructor.
**EXECUTIVE LEADERSHIP AND ENTREPRENEURSHIP**

Associate Professors: P.T. Gianiodis, W.H. Stewart; Assistant Professors: A.E. Ingram, J.W. Ridge; Lecturer: J.E. Hopkins

**ELE 3010 Introduction to Entrepreneurship 3 (3)**
An overview of entrepreneurship topics: opportunity creation and discovery, business concepts and business models, feasibility and business plans. Financial, managerial, legal, social and ethical issues are also addressed. Preq: EES 4000.

**ELE (MKT) 3140 New Venture Creation I 3 (3)**
ELE (MKT) 3140 New Venture Creation I 3 (3) Continuation of EES 4000. Students complete their honors thesis in enterprising engineering and give an oral presentation of the results. Preq: EES 4000 and consent of instructor and membership in the Calhoun Honors College.

**ELE 3010 Executive Leadership and Entrepreneurship II 3 (3)**
Continuation of ELE 3010 with extensive use of a computer-simulated business start-up. Preq: ELE 3010.

**ELE (AGM) 4190 Agribusiness Innovation and Entrepreneurship 3 (3)**
Emphasis on assessing students' abilities as agribusiness entrepreneurs, evaluating the feasibility of a business idea, creating strategies for organizing and marketing the agricultural business, exploring pricing for products or services, developing capital needs and sound financial statements, and researching, developing, and writing a comprehensive plan for the business. May also be offered as AGM 4190. Preq: AGM 2400 or AGM 3190 or AGRB 3020 or AGRIB 3190 or MGT 2010.

**ELE 4990 Executive Leadership and Entrepreneurship III 3 (3)**
Directed practical study of entrepreneurship and leadership. Students work closely with external infant firms to develop new products and bring existing products to market successfully. Preq: ELE 4010.

**ENGINEERING MECHANICS**

Professors: N.M. Aziz, S.D. Schiff; Assistant Professors: N.B. Kaye, W.H. Low, F.Y. Taw; Senior Lecturers: B.G. Nielsen, W.M. Steinhagen

**EM 2020 Engineering Mechanics: Dynamics 3 (3)**
Continuation of CE 2010. Principal topics are kinematics and kinetics of particles and rigid bodies of finite size. Techniques of vector mathematics are covered. Includes Honors sections. Preq: CE 2010 and MATH 2060.

**ENGLISH**

**ENGL 1010 Composition I 3 (3)**
Introduction to correct and effective expression in brief expository essays; review of the fundamentals of grammar and punctuation; instruction in common expository methods. Preq: ENGL 1010.

**ENGL 1030 Accelerated Composition Laboratory 0 (0)**
Non-credit laboratory to accompany ENGL 1010. Cones: ENGL 1030.

**ENGL 1110 English as a Second Language 3 (3)**
Special course for students learning English as a second language. Intensive study and drill in American English pronunciation and listening comprehension. Required of all foreign students who do not make a satisfactory grade on screening examination in oral English. To be taken Pass/No Credit. Carries no credit for graduation. Cones: ENGL 1110.

**ENGL 2120 World Literature 3 (3)**
Introduction to selected works from the Americas Africa, Asia, Europe, and the Middle East from ancient to modern eras, with emphasis on major authors. Includes Honors sections. Preq: ENGL 1030.

**ENGL 2130 British Literature 3 (3)**
Introduction to selected authors and major periods of the British literary tradition, from the Middle Ages to World War II, with attention to poetry, fiction, and drama. Includes Honors sections. Preq: ENGL 1030.

**ENGL 2140 American Literature 3 (3)**
Introduction to selected authors and major periods of the American literary tradition from 1620 to 1945. Includes Honors sections. Preq: ENGL 1030.

**ENGL 2150 Literature in 20th- and 21st-Century Contexts 3 (3)**
Introduction to major contemporary cultural movements via selected authors in 20th- and 21st-century literature, primarily American and British, with attention to poetry, fiction, and drama since World War II. Includes Honors sections. Preq: ENGL 1030.

**ENGL 2130 Introduction to Journalism 3 (3)**
Instruction and practice in writing for mass media; editorial responsibilities. Preq: ENGL 1030.

**ENGL 3000 Professional Development 2 (2)**
Orientation to the English major as a discipline and as a preparation for a range of careers. Introduction to and assistance with the compilation of the digital portfolio as a place to collect, synthesize and reflect on learning.
ENGL (GW) 3010 Great Books of the Western World 3 (3) Introduces Great Works minor. Includes readings about the Great Books concept, as well as various great books from the humanities, arts and natural and social sciences. Includes Honors sections. May also be offered as GW 3010. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3040 Business Writing 3 (3) Introduction to audience, context, purpose, and writing strategies for texts common in professional business settings: memoranda, letters, reports, and proposals. Includes individual and team projects. Preq: Junior standing.

ENGL 3100 Critical Writing About Literature 3 (3) Terms and techniques for literary analysis, including close reading, vocabulary for analysis, research and writing skills, casebook study of critical approaches. Discussion of poetry and genres preferred. Preq or concurrent enrollment: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3120 Advanced Composition 3 (3) Workshop in practical writing focusing on principles and style. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3140 Technical Writing 3 (3) Intensive, project-based application of principles of audience, context, purpose, and writing strategies of technical writing: proposals, reports, communication deliverables. Individual and team projects. Includes Honors sections. Preq: Junior standing.

ENGL 3150 Scientific Writing and Communication 3 (3) Study and practice of rhetorical conventions in professional scientific communication through the analysis and writing of major genres. Focuses on principles, strategies, and styles of scientific argumentation and audience adaptation in written, oral, and visual media. Intended for students majoring in the sciences. Preq: ENGL 1030; and BIOL 1030 or BIOL 1100; and Junior standing.

ENGL 3180 Critical Thinking 3 (3) Hands-on survey of visual communication theories and practices used by technical communicators in business and industry environments. Class meets regularly in computer classrooms. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3190 Writing for the News Media 3 (3) Practical experience in gathering and writing news and feature copy for the media, preparing for an array of writing styles as demanded by the broad spectrum of print and media outlets. Examination of the modern media specialist, laws governing the profession, and journalistic ethics. Preq: ENGL 2130.

ENGL 3370 Creative Inquiry: English 1-3 (1-3) Students pursue scholarly activities individually or in teams under the direction of a faculty member. Creative Inquiry projects may be interdisciplinary. Arrangements with faculty must be established prior to registration. May be repeated for a maximum of nine credits. Preq: Consent of instructor.

ENGL 3450 The Structure of Fiction 3 (3) Introduction to the creative writing and critical study of prose fiction.

ENGL 3460 The Structure of Poetry 3 (3) Introduction to the creative writing and critical study of poetry.

ENGL (THEA) 3470 The Structure of Drama 3 (3) Introduction to the creative writing and critical study of drama. May also be offered as THEA 3470.

ENGL 3480 The Structure of the Screenplay 3 (3) Introduction to the creative writing and critical study of the screenplay. Screenplays vary from semester to semester. May be repeated once for credit with consent of instructor.

ENGL 3490 Technology and the Popular Imagination 3 (3) Examines relationship between technology and fiction and creative nonfictional texts, including print, film, and electronic media. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3500 Mythology 3 (3) Study of the great myths of the world emphasizing their applications to literature. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3530 American Literatures of Race, Ethnicity and Migration 3 (3) Examination of U.S. American literary texts that respond to the histories and competing theories of race, ethnicity, migration, empire or diaspora. May include attention to Native American, African American, Latina/o, Chicano/a, Asian American, Jewish American and Arab American literature. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3540 Literature of the Middle East and North Africa 3 (3) A study of literary texts of the Middle East and North Africa, with emphasis on literature originally published in languages such as Arabic, Persian, Turkish or Hebrew. Attention may be given to tradition, diaspora and migration within or outside the region. Conducted in English. No knowledge of foreign languages is required. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3550 Global Studies in Popular Culture 3 (3) A critical study of popular culture and effect of global culture upon societies throughout or from the region. Conducted in English. May be given to translation, diaspora and migration. Specific topics announced each semester. Preq: Junior standing.

ENGL 3570 Film 3 (2) Examination of the film medium as an art form: its history, how films are made, why certain types of films (western, horror movies, etc.) have become popular, and how critical theories provide standards for judging film. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150. Coreq: ENGL 3571.

ENGL 3571 Film Laboratory 0 (0) Non-credit laboratory to accompany ENGL 3570. Coreq: ENGL 3570.

ENGL 3670 Special Topics for Honors Students 3 (3) Varied topics of general interest in literature, language, rhetoric, or culture for all honors students. Specific topics announced each semester. May be repeated for a maximum of nine credits. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3800 British and American Women Writers 3 (3) Poetry, drama, fiction, and prose by established and little-known women writers in Britain and America. Particular attention to works treating themes and issues concerning women’s lives. Readings on such topics as women and work, education, religion, creativity. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3850 Children’s Literature 3 (3) Reading and analysis in a wide range of authors, illustrators, and genres appropriate for children from preschool through eighth grade, classic as well as modern. Critical approaches include historical, thematic, and social. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3860 Adolescent Literature 3 (3) Reading and analysis of literature written for readers age 12–18. Emphasis is on historical context, chief themes and motifs, and censorship issues, as well as connections with classic literature. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3960 British Literature Survey I 3 (3) Includes lectures in British literature to 1789. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3970 British Literature Survey II 3 (3) Includes lectures in British literature from 1789 to the present. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3980 American Literature Survey I 3 (3) Includes lectures in American literature from beginnings of European settlement to the Civil War in historical context. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 3990 American Literature Survey II 3 (3) Includes lectures in American literature from the Civil War to the present in historical context. Preq: ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 4000* The English Language 3 (3) Studies in English usage and historical development of the language. Preq: ENGL 3100.

ENGL 4010* Grammar Survey 3 (3) Survey of modern grammars with a focus on exploring the impact structural grammar has had on traditional grammar. Recommended for English teachers. Preq: ENGL 3100.

ENGL 4030 The Classics in Translation 3 (3) Examination of Homer’s Iliad and Odyssey, Virgil’s Aeneid, and Ovid’s Metamorphoses. A few shorter works by other Greek and Roman writers may also be read. Preq: ENGL 3100.

ENGL 4070* The Medieval Period 3 (3) Selected works of Old and Middle English literature, exclusive of Chaucer. Preq: ENGL 3100.

ENGL 4080* Chaucer 3 (3) Selected readings in Middle English from The Canterbury Tales and other works by Chaucer. Preq: ENGL 3100.

ENGL 4100* Drama of English Renaissance 3 (3) Selected readings in non-Shakespearean dramatic literature of the 16th and 17th centuries. Preq: ENGL 3100.

ENGL 4110* Shakespeare 3 (3) Study of selected tragedies, comedies, and history plays of Shakespeare. Required of all English majors. Preq or concurrent enrollment: ENGL 3100.
ENGL 4140 Milton 3 (3) Development of Milton’s art and thought from the minor poems and selected prose through Paradise Lost, Paradise Regained, and Samson Agonistes, set against the background of the late Renaissance. Preq: ENGL 3100.

ENGL 4150* The Restoration and Eighteenth Century 3 (3) Readings in Dryden, Swift, Pope, and Dr. Johnson. Preq: ENGL 3100.

ENGL 4160* The Romantic Period 3 (3) Readings from the poetry and critical prose of Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, and other representative figures. Preq: ENGL 3100.

ENGL 4170* The Victorian Period 3 (3) Reading from the poetry and nonfiction prose of selected Victorian authors, including works of Carlyle, Tennyson, Browning, Arnold, and other representative figures. Preq: ENGL 3100.

ENGL 4180* The English Novel 3 (3) Study of the English novel from its 18th century beginnings through the Victorian Period. Preq: ENGL 3100.

ENGL 4190* Postcolonial and World Literatures 3 (3) Selected readings in postcolonial literature and theory, focusing on issues of nationalism, migration, race, culture, and postcolonialism. Preq: ENGL 3100.

ENGL 4200* American Literature to 1799 3 (3) Examination of the craft, technique and stylistic choices in major literary works from the classical era of Greece and Rome to the Renaissance. May also be offered as THEA 4290. Preq: ENGL 3100.

ENGL (THEA) 4210 Dramatic Literature I 3 (3) Principles and progress of drama from the Restoration to the present; analysis of representative plays; critical reports; discussion of trends in dramatic literature. May also be offered as THEA 4300. Preq: ENGL 3100.

ENGL 4220 Modern Poetry 3 (3) Modern tradition in English and American poetry from Yeats to the present; relevant critical essays. Preq: ENGL 3100.

ENGL 4240 Environmental Literature 3 (3) Survey of literature that examines the relationship between human beings and the natural world, including analysis of environmental themes in myths and legends and in selected poetry and prose of 19th- and 20th-century England and America. Preq: ENGL 3100.

ENGL 4250 Literary Criticism 3 (3) Major critical approaches to literature. Preq: ENGL 3100.

ENGL (WS) 4260 Feminist Literary Criticism 3 (3) Introduction to seminal works of feminist literary theory and criticism. Outlines the development of modern literary criticism by studying feminist versions of the major critical methodologies. May also be offered as WS 4310. Preq: ENGL 3100.

ENGL 4270* Directed Studies 1-3 (1-3) Class and/or internship work for students with special interests or projects in American, British, or European literature outside the scope of existing courses. Application must be approved during the registration period of the semester preceding the one in which directed studies will occur. May be repeated by arrangement with the department. Preq: ENGL 3100.

ENGL 4280 Departmental Honors Research 3 (3) Research for the preparation of an honors project. Preq: ENGL 3100.

ENGL 4290 Departmental Honors Project 3 (3) Preparation of an honors project. Preq: ENGL 4280.

ENGL 4300 Dramatic Literature II 3 (3) Examination of the historical and contemporary theories of world literature, including theories of worldliness, planetarity, globalism, and late capitalism. These theories are used in pursuit of world literature on a worldwide and planetary scale. Preq: ENGL 3100.

ENGL 4410* Renaissance Literature 3 (3) Reading of selected readings of the English novel from 1500–1660. Includes drama, poetry, and prose. Preq: ENGL 3100.

ENGL 4420* Fiction Workshop 3 (3) Workshop in the creative writing of prose fiction. May be repeated once for credit. Preq: ENGL 3450.

ENGL 4460* Poetry Workshop 3 (3) Workshop in the creative writing of poetry. May be repeated once for credit. Preq: ENGL 3460.

ENGL (THEA) 4470* Playwriting Workshop 3 (3) Workshop in the creative writing of plays. May be repeated once. May also be offered as THEA 4470. Preq: ENGL 3470 or THEA 3470.

ENGL 4480* Screenwriting Workshop 3 (3) Workshop in the creative writing of screenplays. May be repeated once for credit. Preq: ENGL 3480.

ENGL 4490* Creative Non-Fiction 3 (3) Advanced workshop in writing non-fiction prose for magazine and freelance markets. Preq: ENGL 3450 or ENGL 3460.

ENGL 4500* Film Genres 3 (2) Advanced study of films that have similar subjects, themes, and techniques, including such genres as the Western, horror, gangster, science fiction, musical, and/or screwball comedy. Also considers nontraditional genres, screen irony, genre theory, and historical evolution of genres. Topics vary. Preq: ENGL 3570. Coreq: ENGL 4501.

ENGL 4501* Film Genres Laboratory 0 (3) Non-credit laboratory to accompany ENGL 4500. Coreq: ENGL 4500.

ENGL (COMM) 4510 Film Theory and Criticism 3 (2) Advanced study into the theory of film/video making emphasizing understanding a variety of critical methods to approach a film. Examines the history of film theory and defines the many schools of film criticism, including realism, formalism, feminism, semiotics, Marxism, and expressionism. May also be offered as COMM 4510. Preq: ENGL 3570. Coreq: ENGL 4511.

ENGL (COMM) 4511* Film Theory and Criticism Laboratory 0 (3) Non-credit laboratory to accompany ENGL 4510. May also be offered as COMM 4511. Coreq: ENGL 4510.

ENGL 4520* Great Directors 3 (2) Intensive study of one to three film directors emphasizing understanding the entire canon of each director. Students study similarities in techniques, shifts in thematic emphasis, and critical methodologies for approaching the works of each director. Topics vary. Preq: ENGL 3570. Coreq: ENGL 4521.

ENGL 4521* Great Directors Laboratory 0 (3) Non-credit laboratory to accompany ENGL 4520. Coreq: ENGL 4520.
ENGL 4531* Sexuality and the Cinema Laboratory 0 (3) Noncredit laboratory to accompany ENGL 4530. Coreq: ENGL 4531.

ENGL (LANG) 4540 Selected Topics in International Film 3 (2) Presents subtitled films of specific world cultures and basic film theory and discourse applicable to the selected areas. Taught in English. May be repeated for a maximum of six credits with consent of department chair. May also be offered as LANG 4540. Prereq: ENGL 3100. Coreq: ENGL 4541.

ENGL (LANG) 4541 Selected Topics in International Film Laboratory 0 (3) Noncredit laboratory to accompany ENGL 4540. May also be offered as LANG 4541. Coreq: ENGL 4540.

ENGL 4550* American Humor 3 (3) Native American humor of the 19th and 20th centuries. Prereq: ENGL 3100.

ENGL (HUM) 4560* Literature and Arts of the Holocaust 3 (3) Addresses the Holocaust through literature, art, architecture, music, and film. Beginning with historical, political, and economic forces that contributed to the Holocaust, course then focuses on highly diverse creative responses to this event - responses that often reflect the difficulties and politics of these commemorative gestures. May also be offered as HUM 4560. Prereq: ENGL 3100.

ENGL 4590* Special Topics in Language, Criticism, Theory 3 (3) Advanced studies in topics not central to other English courses, such as certain authors, works, genres, themes, or areas of knowledge and culture. Specific topics are announced when offered. May be repeated for a maximum of six credits with consent of department chair's consent. Prereq: ENGL 3100.

ENGL 4600* Issues in Writing Technologies 3 (3) Examines writing technologies from different historical periods. Investigates how written language is understood, circulated, legislated, and protected in terms of its production technology. Prereq: ENGL 3100; and ENGL 2020 or ENGL 2120 or ENGL 2130 or ENGL 2140 or ENGL 2150.

ENGL 4630* Topics in Literature to 1699 3 (3) Selected readings in literature from antiquity through the 17th century for focused study of authors, movements, themes, critical approaches, and genres. Topics vary and are constructed by individual faculty. May be repeated for a maximum of six credits, but only if different topics are covered. Prereq: ENGL 3100.

ENGL 4640* Topics in Literature from 1700 to 1899 3 (3) Selected readings in 18th- and 19th-century literature for focused study of authors, movements, themes, critical approaches, and genres. Special topics vary and are constructed by individual faculty. May be repeated for a maximum of six credits, but only if different topics are covered. Prereq: ENGL 3100.

ENGL 4650* Topics in Literature from 1900 3 (3) Selected readings in 20th- and 21st-century literature for focused study of authors, movements, themes, critical approaches, and genres. Topics vary and are constructed by individual faculty. May be repeated for a maximum of six credits, but only if different topics are covered. Prereq: ENGL 3100.

ENGL 4750* Writing for Electronic Media 3 (3) Workshop in new forms of writing and hypertextual design for interactive electronic media, including social networks, online and video communities. May be repeated once for credit at the undergraduate level. Prereq: ENGL 3100.

ENGL 4780* Digital Literacy 3 (3) Examines how technology has expanded ideas of literacies and texts. Includes reading, studying and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Prereq: ENGL 3100.

ENGL 4820* African American Literature to 1920 3 (3) Critical examination of the development of the African American literary tradition from the Colonial Period to the Harlem Renaissance. Considers the historical and cultural contexts of a variety of texts, themes and theories. Prereq: ENGL 3100.

ENGL 4830* African American Literature from 1920 to the Present 3 (3) Critical examination of the development of the African American literary tradition from the Harlem Renaissance to the present. Considers historical and cultural contexts of a variety of texts, themes and literary movements. Prereq: ENGL 3100.

ENGL (EDSC) 4850* Composition and Language Studies for Teachers 3 (3) Examines the principles and practices of composing and teaching composition. Includes a historical study of English language acquisition to phonology, morphology, syntax, semantics and practical aspects of language grammars. Serves as a practicum in composing and assessing processes, collaborative learning, writers' workshops, audience expectations, and language conventions. Coreq: EDSC 4850.

ENGL (EDSC) 4880* Genre and Activity Theory 3 (3) Examination of the forms that texts take, of the print and digital media in which they are produced, and of the ways they circulate among professional, lay audiences. Includes reading, studying and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Prereq: ENGL 3100.

ENGL (HUM) 4980* Writing for Electronic Media 3 (3) Workshop in new forms of writing and hypertextual design for interactive electronic media, including social networks, online and video communities. May be repeated once for credit at the undergraduate level. Prereq: ENGL 3100.

ENGL 4820* African American Literature to 1920 3 (3) Critical examination of the development of the African American literary tradition from the Colonial Period to the Harlem Renaissance. Considers the historical and cultural contexts of a variety of texts, themes and theories. Prereq: ENGL 3100.

ENGL (EDSC) 4850* Composition and Language Studies for Teachers 3 (3) Examines the principles and practices of composing and teaching composition. Includes a historical study of English language acquisition to phonology, morphology, syntax, semantics and practical aspects of language grammars. Serves as a practicum in composing and assessing processes, collaborative learning, writers' workshops, audience expectations, and language conventions. Coreq: EDSC 4850.

ENGL (EDSC) 4880* Genre and Activity Theory 3 (3) Examination of the forms that texts take, of the print and digital media in which they are produced, and of the ways they circulate among professional, lay audiences. Includes reading, studying and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Prereq: ENGL 3100.

ENGL (EDSC) 4850* Composition and Language Studies for Teachers 3 (3) Examines the principles and practices of composing and teaching composition. Includes a historical study of English language acquisition to phonology, morphology, syntax, semantics and practical aspects of language grammars. Serves as a practicum in composing and assessing processes, collaborative learning, writers' workshops, audience expectations, and language conventions. Coreq: EDSC 4850.

ENGL (EDSC) 4880* Genre and Activity Theory 3 (3) Examination of the forms that texts take, of the print and digital media in which they are produced, and of the ways they circulate among professional, lay audiences. Includes reading, studying and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Prereq: ENGL 3100.

ENGL (EDSC) 4850* Composition and Language Studies for Teachers 3 (3) Examines the principles and practices of composing and teaching composition. Includes a historical study of English language acquisition to phonology, morphology, syntax, semantics and practical aspects of language grammars. Serves as a practicum in composing and assessing processes, collaborative learning, writers' workshops, audience expectations, and language conventions. Coreq: EDSC 4850.

ENGL (EDSC) 4880* Genre and Activity Theory 3 (3) Examination of the forms that texts take, of the print and digital media in which they are produced, and of the ways they circulate among professional, lay audiences. Includes reading, studying and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Prereq: ENGL 3100.

ENGL (EDSC) 4850* Composition and Language Studies for Teachers 3 (3) Examines the principles and practices of composing and teaching composition. Includes a historical study of English language acquisition to phonology, morphology, syntax, semantics and practical aspects of language grammars. Serves as a practicum in composing and assessing processes, collaborative learning, writers' workshops, audience expectations, and language conventions. Coreq: EDSC 4850.

ENGL (EDSC) 4880* Genre and Activity Theory 3 (3) Examination of the forms that texts take, of the print and digital media in which they are produced, and of the ways they circulate among professional, lay audiences. Includes reading, studying and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Prereq: ENGL 3100.

ENGL (EDSC) 4850* Composition and Language Studies for Teachers 3 (3) Examines the principles and practices of composing and teaching composition. Includes a historical study of English language acquisition to phonology, morphology, syntax, semantics and practical aspects of language grammars. Serves as a practicum in composing and assessing processes, collaborative learning, writers' workshops, audience expectations, and language conventions. Coreq: EDSC 4850.

ENGL (EDSC) 4880* Genre and Activity Theory 3 (3) Examination of the forms that texts take, of the print and digital media in which they are produced, and of the ways they circulate among professional, lay audiences. Includes reading, studying and analyzing print and digital texts to determine how digital techniques change patterns of reading and how readers make sense of electronic texts. Prereq: ENGL 3100.
ENGR 1020 Engineering Disciplines and Skills 2 (1) Provides solid foundation of skills to solve engineering problems. Students demonstrate problem solving techniques with spreadsheets, dimensions and units; use modeling techniques and interpret validity of experimental results. Students design projects on multi-discipline teams. Introduces professional and societal issues appropriate to engineering. Includes Honors sections. Preq: Score of 65 or better on the Clemson Mathematics Placement Test (CMPT).

ENGR 1021 Engineering Disciplines and Skills Laboratory 0 (2) Non-credit laboratory to accompany ENGR 1020. Coreq: ENGR 1020.

ENGR 1050 Engineering Discipline and Skills I 1 (2) Provides solid foundation of skills to solve engineering problems. Students demonstrate problem solving techniques with spreadsheets, dimensions and units. Introduces professional and societal issues appropriate to engineering. Includes Honors sections. Preq: MATH 1050; or MATH 1060 or MATH 1070 with a C or better; or a score of 65 or higher on the Clemson Mathematics Placement Test (CMPT).

ENGR 1060 Engineering Discipline and Skills II 1 (2) Continuation of topics introduced in ENGR 1050. Students demonstrate problem solving techniques using spreadsheet and modeling techniques, and by interpreting validity of experimental results. Students complete projects on multi-discipline teams. Various forms of technical communication are emphasized. Includes Honors sections. Preq: ENGR 1050 with a C or better.

ENGR 1070 Programming and Problem Solving 1 (2) Students formulate and solve engineering problems using MATLAB; estimate answers for comparison to computed solutions; read, interpret and write programs, instructions and output (both written and graphical); and debug. Includes Honors sections. Preq: ENGR 1050.

ENGR 1080 Programming and Problem Solving 2 (1) Continuation of topics introduced in ENGR 1070. Students formulate and solve engineering problems using MATLAB; read, interpret and write programs; utilize trends and graphs; evaluate and compose conditional statements; and debug. Includes Honors sections. Preq: ENGR 1060 and ENGR 1070 each with a C or better.

ENGR 1150 Engineering Design and Modeling 3 (2) Introduction to engineering graphics and machine design. Students use hand sketching and CAD tools to visualize, communicate, rapid prototype, and analyze engineering problems. SOLIDWORKS software is used. Credit toward a degree will be given for only one of ENGR 1150, 1160, 2080, 2090 or 2100. Coreq: ENGR 1151.

ENGR 1151 Engineering Design and Modeling Laboratory 0 (2) Non-credit laboratory to accompany ENGR 1150. Coreq: ENGR 1150.

ENGR 1160 Engineering Graphics and Computer-Aided Design 3 (2) Students use 2-D and 3-D drawing software to visualize and analyze engineering problems. 2-D applications include site plans, contour maps, watershed, floodplains, road design, and architectural drawings. 3-D applications include models, orthographic views, and rapid prototype. Credit toward a degree will be given for only one of ENGR 1150, 1160, 2080, 2090 or 2100. Coreq: ENGR 1161.

ENGR 1161 Engineering Graphics and Computer Aided Design Laboratory 0 (2) Non-credit laboratory to accompany ENGR 1160. Coreq: ENGR 1160.

ENGR 1300 Engineering Fundamentals 2 (1) Students formulate and solve engineering problems using advanced spreadsheet applications, dimensional analysis, graphical representation of various physical phenomena, mathematical models and statistics. Various forms of technical communication are emphasized. Credit toward a degree will be given for only one of ENGR 1300 or 1410. Preq: ENGR 1060. Preq or concurrent enrollment: MATH 1060 or MATH 1070. Coreq: ENGR 1301.

ENGR 1301 Engineering Fundamentals Laboratory 0 (2) Non-credit laboratory to accompany ENGR 1300. Coreq: ENGR 1300.

ENGR 1410 Programming and Problem Solving 3 (2) Students formulate and solve engineering problems using MATLAB; estimate answers for comparison to computed solutions; read, interpret and write programs, instructions and output; iterate; evaluate conditional statements and debug. Various forms of technical communication are emphasized. Credit toward a degree will be given for only one of ENGR 1300 or ENGR 1410. Includes Honors sections. Preq: ENGR 1200 with a C or better; or concurrent enrollment: ENGR 1060 with a C or better. Coreq: ENGR 1411.

ENGR 1411 Programming and Problem Solving Laboratory 0 (2) Non-credit laboratory to accompany ENGR 1410. Coreq: ENGR 1410.

ENGR 1490 Introduction to Engineering 2 (2) Introduction to the engineering profession and engineering disciplines, highlighting the industries based in South Carolina, for the purpose of assisting students in their selection of an engineering major. Professional, ethical and societal issues appropriate to engineering are introduced. Various forms of technical communication are emphasized. Credit toward a degree will be given for only one of ENGR 1150, 1160, 2080, 2090, or 2100. Includes Honors sections. Preq or concurrent enrollment for Honors students: ENGR 1410 and MATH 1080. Coreq: ENGR 2081.

ENGR 2081 Engineering Graphics and Machine Design Laboratory 0 (2) Non-credit laboratory to accompany ENGR 2080. Coreq: ENGR 2080.

ENGR 2090 Introduction to Engineering/Computer Graphics 2 (1) Introduction to engineering graphics and machine design. Sketching and CAD tools are used to visualize, communicate, rapid prototype and analyze engineering problems. Credit toward a degree will be given for only one of ENGR 1150, 1160, 2080, 2090, or 2100. Coreq: ENGR 2091.

ENGR 2091 Introduction to Engineering/Computer Graphics Laboratory 0 (3) Non-credit laboratory to accompany ENGR 2090. Coreq: ENGR 2090.
ENGR 2100 Computer-Aided Design and Engineering Applications 2 (1) Introduction to graphics applications for engineering and related professions. 2-D and 3-D drawings are used to visualize, communicate, rapid prototype and analyze engineering problems. Engineering applications include site plans, contour plots, grading, and architectural, transportation and hydrology drawings. Credit toward a degree will be given for only one of ENGR 1150, 1160, 2080, 2090, or 2100. Includes honors sections. Coreq: ENGR 2101.

ENGR 2101 Computer-Aided Design and Engineering Applications Laboratory 0 (2) Non-credit laboratory to accompany ENGR 2100. Coreq: ENGR 2100.

ENGR 2200 Evaluating Innovations: Fixtures, Fads and Flops 3 (3) Introduces foundational theories used to critically analyze the success of consumer products and other technological innovations. Case studies are utilized to exhibit the interactions between innovation and society. Critical thinking skills are emphasized.

ENGR 2900 Special Projects in Engineering II 1-3 (1-3) Individual or group projects in engineering. Projects may be interdisciplinary in nature and may involve analysis, design, and/or implementation. In instruction in use of necessary tools and test equipment is included when appropriate. May be repeated for a maximum of six credits. Includes Honors sections. Prereq: Sophomore standing and consent of instructor.

ENGR 3000 Special Projects in Engineering III 1-3 (1-3) Individual or group projects in engineering. Projects may be interdisciplinary in nature and may involve analysis, design, and/or implementation. Instruction in use of necessary tools and test equipment is included when appropriate. May be repeated for a maximum of six credits. Includes Honors sections. Prereq: Junior standing and consent of instructor.

ENGR 4000 Special Projects in Engineering IV 1-3 (1-3) Individual or group projects in engineering. Projects may be interdisciplinary in nature and may involve analysis, design, and/or implementation. Instruction in use of necessary tools and test equipment is included when appropriate. May be repeated for a maximum of six credits. Includes Honors sections. Prereq: Senior standing and consent of instructor.

ENR 1010 Introduction to Environmental and Natural Resources 1 (1) Informative overview of environmental and natural resources and their impact on society. Education and career opportunities are emphasized.

ENR 1020 Introduction to Environmental and Natural Resources II 1 (1) Survey of environmental and natural resource topics in the news and in primary literature. Emphasis is placed on learning to research and interpret scientific information. Aspects of technical writing and career development are also explored.

ENR 3020 Natural Resources Measurements 3 (2) Introduction to measurements of natural resources including land, vegetation, animal habitat, water quality and quantity, climate, and recreation. Remote sensing techniques are also introduced. May not be taken for credit by Forest Resource Management majors. Prereq or concurrent enrollment: STAT 2300. Coreq: ENR 3021.

ENR 3021 Natural Resources Measurements Laboratory 0 (3) Non-credit laboratory to accompany ENR 3020. Coreq: ENR 3020.

ENR 3120 Environmental Risks and Society 3 (3) Examines the perception, analysis and management of natural and technological risks in modern society, such as how society responds to natural or human-caused disasters and global environmental challenges and the roles of experts, the government and the general public. Case studies foster debate and critical analysis of controversial issues. Prereq: Junior standing. Students must have completed the General Education mathematics requirement. ENR (Biol) 4130 Restoration Ecology 3 (3) Applies ecological principles to the restoration of disturbed terrestrial, wetland, and aquatic ecosystems. Includes restoration of soils and waterways, of flora and fauna and of natural ecological processes such as plant succession and nutrient cycling. Students may also be offered and/or BIOL 4330. Prereq: BIOL 3100 or BIOL 4140 or WFB 3130.

ENR (FOR) 4340 Forest Policy and Administration 3 (3) Introduction to the development, principles, and laws of forest policy in the United States and an examination of administrative and executive management in forestry. May also be offered as FOR 4160.

ENR 4350 Environmental Law and Policy 3 (3) Develops an understanding of the three branches of government that affect and dictate use and protection of natural resources. Attention is given to major federal environmental statutes. Includes examination of how policy is developed, implemented, and evaluated in the public and private sectors. Prereq: Junior standing.

ENR (FOR) 4340 Geographic Information Systems for Natural Resources 3 (2) Develops competence in geographic information systems (GIS) technology and its application to various spatial analysis problems in natural resources. Topics include data development and management, spatial analysis techniques, critical review of GIS applications, needs analysis and institutional context. GIS hardware and software, hands-on application. Credit may be received for only one of ENR 4340 or FOR 4340. May also be offered as FOR 4340. Coreq: ENR 4341.

ENR (FOR) 4341 Geographic Information Systems for Natural Resources Laboratory 0 (3) Non-credit laboratory to accompany ENR 4340. May also be offered as FOR 4341. Coreq: ENR 4340.

ENR 4500 Conservation Issues 3 (3) Interactive study and discussion of issues related to the conservation of natural resources, emphasizing current issues in the conservation of biodiversity, identification of conflicting issues between consumptive and nonconsumptive resource management, and development of viable solutions for conservation of natural resources. Prereq: BIOL 3130 or WFB 3130.

ENVIRONMENTAL SCIENCE AND POLICY

Associate Professor: E.R. Carraway; Lecturer: S. Brame, M. Nammouz, M.L. Thompson

ENSP (GEOL) 1250 Sustainable Resource Use 3 (3) This course explores the challenges our society faces in making the transition to renewable resource use in a way that is truly sustainable environmentally, economically and socially. The conflicting demands of each system will be examined and used to critically examine possible solutions using a systems based approach. May also be offered as GEOL 1250.

ENSP 2000 Introduction to Environmental Science 3 (3) Basic principles of environmental science, including ecology, energy, resources, waste management; and air, water, and soil pollution. Consideration of issues, specific cases, investigative approaches, and remedial actions. Prereq or concurrent enrollment: Any course that satisfies the Natural Science with a Lab General Education requirement. See the Undergraduate Announcements for current listing of courses.

ENSP 2010 Introduction to Environmental Science for Education Majors 3 (3) Introduction to basic principles of environmental science, including physical science of the environment, energy, resources, waste management, and air and water pollution. Emphasizes the practical applications to demonstrations and activities appropriate for the elementary school classroom. Credit toward a degree will be given for only one of ENSP 2000 and ENSP 2010. Prereq: BIOL 1090 and PHSC 1170 and PHSC 1180. Prereq or concurrent enrollment: MATH 3160.

ENSP (PES) 3150 Environment and Agriculture 3 (3) Survey of the interrelationships of the environment and current agriculture and agricultural practices to include both the environmental impacts of agriculture and the role of agriculture in conservation and improving the environment. Includes Honors sections. May also be offered as PES 3150. Prereq: Sophomore standing and one of the following combinations: BIOL 1040 and BIOL 1060; or BIOL 1100 and BIOL 1110; or CH 1010 and CH 1020; or CH 1050 and CH 1060.

ENSP 4000 Studies in Environmental Science 3 (3) Study of historical perspectives, attitudes, and government policy within the framework of environmental case studies to illustrate the interaction between human and natural factors as they mutually affect the environment and man's ability to deal with that environment. Prereq: ENSP 2000 or EES 2020.
ENT 4040° Urban Entomology 3 (3) Study of pests common to the urban environment with emphasis on arthropod pest biology, pest importance, and management strategies. Students learn both theoretical and practical aspects of urban pest management. Includes Honors sections. Preq: BIOL 1030 and BIOL 1040; or BIOL 1100 and BIOL 1110; or ENT 3010.

ENT (PLPA) 4060° Diseases and Insects of Turfgrasses 2 (2) Host-parasite relationships, sympotmatology, diagnosis, economics, and control of infectious diseases of turfgrasses and life histories, diagnosis, and control of important insect pests of turfgrasses. May also be offered as PLPA 4060. Preq: ENSP 3010 and PLPA 3100.

ENT 4070° Applied Agricultural Entomology 3 (3) Topics include recognition, biology, damage, and control of economically important insects and mites found on major Southeastern field, fruit, nut, and vegetable crops. Principles and practices of crop protection, including pesticide application, economic basis for decision making, and development of scouting programs are introduced. Preq: ENT 3010. Coreq: ENT 4071.

ENT 4071° Applied Agricultural Entomology Laboratory 0 (3) Non-credit laboratory to accompany ENT 4070. Coreq: ENT 4070.

ENT (PLPA) 4080° Diseases and Insects of Turfgrasses Laboratory 1 (1) Laboratory to complement PLPA 4060 or ENT 4060 to teach symptomatology, diagnosis, and control of infectious diseases of turfgrasses and diagnostic damage caused by important insect pests of turfgrasses. May also be offered as PLPA 4080. Preq: PLPA 4060 or ENT 4060.

ENT 4150° Urban Entomology Laboratory 1 (1) Identification of household and structural pests common to the urban environment. Students also gain hands-on experience in termite and general pest control. IncludesHonors sections. Preq: BIOL 1030 and BIOL 1040; or BIOL 1100 and BIOL 1110; or ENT 3010. Preq or concurrent enrollment: ENT 4150.

ENT (BIOL) 4151° Insect Taxonomy 1 (1) Identification of the principal families of the major orders of adult insects. Laboratory work consists of intensive practice of such identification. Lecture material deals with theoretical discussion of taxonomic features observed in the laboratory. May also be offered as BIOL 4150. Preq: BIOL 4000 or ENT 4000. Coreq: ENT 4151.

ENT (BIOL) 4151* Insect Taxonomy Laboratory 0 (6) Non-credit laboratory to accompany ENT 4150. May also be offered as BIOL 4151. Coreq: ENT 4150.

ENT 4200° Systematics and Biodiversity 4 (3) Introduces systematic biology and the methods by which biologists recognize species, reconstruct the history of life, and use phylogenetic trees to study ecological and evolutionary processes. Preq: BIOL 1100 and BIOL 1110. Coreq: ENT 4201.

ENT 4201° Systematics and Biodiversity Laboratory 0 (3) Non-credit laboratory to accompany ENT 4200. Coreq: ENT 4200.
ENVIRONMENTAL TOXICOLOGY

ETOX 4000* Wildlife Toxicology 3 (3) Assessment of impacts of toxic substances on reproduction, health, and well-being of wildlife species; acute and chronic effects of agricultural chemicals, pesticides, hazardous waste, industrial waste, and oil releases are discussed. Preq: [BCHM 3010 or BCHM 3050; or both CH 2230 and CH 2270] and [BIOL 1040 and BIOL 1060; or BIOL 1110] and WFB 3500.

ETOX 4210* Chemical Sources and Fate in Environmental Systems 3 (3) Discusses chemical cycles in the environment on global and microcosm scales. Examines the dependence of fate processes on physical and chemical properties and environmental conditions. Addresses breakdown, movement, and transport of selected toxicants to illustrate the mechanisms that govern chemical fate. Includes Honors sections. Preq: CH 2230 and CH 2270 and CH 3130.

ETOX 4370* Ecotoxicology 3 (3) Study of the effects of stressors on the ecosystem. Explores the integrative relationships that comprise the field of ecotoxicology in a hierarchical format that focuses on the various levels of ecological organization. Preq: ETOX 4300.

ETOX 4460 Soil and Water Quality: Fundamentals 3 (3) Studies those aspects of water quality that are influenced by soil systems. Many water quality concerns arise from land-applied chemicals, natural or manufactured. Basic soil and water chemistry principles including sorption, solution chemistry, and soil chemical transport are studied. Preq: CH 2240.

ETOX 4470 Soil and Water Quality: Applications 3 (3) Potential for water quality concerns arising from land application of natural or manufactured chemicals is varied. Case studies of potential water quality concerns related to fertilizers, pesticides, biosolids, manures, and other sources are presented. Practices that can improve water quality are also studied and evaluated. Preq: CH 2240.

ETOX (GEOL, PES) 4850* Environmental Soil Chemistry 3 (3) Study of soil chemical processes (sorption, desorption, ion exchange, precipitation, dissolution, and redox reactions) of nutrients and inorganic and organic contaminants in soils and organic matter. Chemical complex equilibria and adsorption phenomena at the solid (soil, sediment, and mineral) water interface are emphasized. May also be offered as GEOL 4850 or PES 4850. Preq: CH 1020 or PES 2020.

FOOD SCIENCE

FDSC 1010 Introduction to Food Science and Human Nutrition 1 (1) Introductory course providing an overview of career opportunities in both food science and human nutrition disciplines. Provides an orientation to principles related to food and health. Preq: Food Science major or minor.

FDSC 1020 Perspectives in Food and Nutrition Sciences 1 (1) Discussion course covering topics related to food science and human nutrition. Subjects include topics of current interest and involve familiarization with scientific literature in nutrition and food sciences. Preq: Food Science major or minor.

FDSC 2010 Man and His Food 2 (2) Study of food and food products emphasizing nutrients, nutrient needs, and the relationship between nutrient intake and health. Also discusses food additives, nutritional awareness (including nutrition labeling), food protection, and the influence of processing on nutritional quality of food. Preq: Biotechnology and Food Science major.

FDSC 2140 Food Analysis and Society 3 (3) Introduces the basics of food science (food chemistry, food microbiology, and food processing principles) and relates advancements in food science to parallel societal advances and created social controversy. Preq: FDSC 2100.

FDSC 2151 Culinary Fundamentals 2 (1) Emphasizes the safe handling of food utilizing recognized procedures in equipment safety and sanitation. Cooking methods are investigated, along with ingredient functionality and flavor development. Organizational skills utilized in a real-world environment assist students in preparing, presenting, and evaluating their finished products. Preq: Food Science major. Coreq: FDSC 2151.

FDSC 2151 Culinary Fundamentals Laboratory 0 (0) Non-credit laboratory to accompany FDSC 2151. Preq: FDSC 2151.

FDSC 2160 Fundamentals of Baking Science 2 (1) Emphasizes the science of baking, ingredient functionality, formulas and Bakers Percentages, and various mixing methods used to produce an array of baked products. Organizational skills, utilized in a real world environment, assist students in preparing, presenting, and evaluating their finished products. Preq: Food Science major. Coreq: FDSC 2161.

FDSC 2161 Fundamentals of Baking Science Laboratory 0 (0) Non-credit laboratory to accompany FDSC 2160. Preq: Food Science major. Coreq: FDSC 2160.

FDSC 2500 Culinary Science Internship 0 (0) Study of the science and art of food preparation, with the ultimate objective of improving the ease of manufacture as well as the overall quality and nutrition of the food produced. Students are able to observe, interact, and practice principles of culinary sciences. To be taken Pass/No Pass only. Preq: FDSC 2150.

FDSC 3010 Food Regulation and Policy 1 (1) Identifies the role of the FDA and FSIS in food regulations, regulatory compliance and enforcement. Other agencies involved in peripheral decisions are also discussed (U.S. Customs, EPA, USDA-AMS, USDA-APHIS, etc.). Introduces food safety concepts, such as HACCP, GMPs, SSOPs, and food defense/security. Preq: Food Science major or minor or Packaging Science major or minor; and FDSC 2140 and BCHM 3050.

FDSC 3041 Evaluation of Dairy Products Laboratory 0 (2) Non-credit laboratory to accompany FDSC 3040. Coreq: FDSC 3040.

FDSC 3060 Institutional Foodservice Management 3 (3) Principles of management of resources in institutional food service systems. Emphasizes financial management, menu planning, principles of quantity food production, and safety and sanitation. Preq: Food Science major.

FDSC 3070 Restaurant Food Service Management 3 (3) Essentials of successful operation of restaurants, including menu design and pricing, marketing, customer satisfaction, purchasing, kitchen operations, and employment relationships.

FDSC 3500 Food Science Internship 0 (0) Summer internship offered by the Food, Nutrition and Packaging Sciences Department and the Clemson Micro-Creamery and Food Manufacturing Industries. Students observe, interact, and practice principles of food science within the food industry. To be taken Pass/No Pass only. Preq: FDSC 2140.

FDSC 4010* Food Chemistry I 3 (3) Basic composition, structure, and properties of food and the chemistry of changes occurring during processing utilization. Includes Honors sections. Preq: BCHM 3050; and Food Science major or minor or Packaging Science major or minor.

FDSC 4020* Food Chemistry II 3 (3) Application of theory and procedures for quantitative and qualitative analysis of food ingredients and food products. Methods for protein, moisture, lipid, carbohydrate, ash, fiber, rancidity, color, and vitamin analyses and tests for functional properties of ingredients are examined. Includes Honors sections. Preq: BCHM 3050; and Food Science major or minor.
FDSC 4030* Food Chemistry and Analysis 2 (1) Principles of analytical procedures and techniques used to quantitatively and qualitatively determine chemical composition of foods, and elucidate the physio-chemical properties of food materials. Laboratories provide experience in critical thinking, performing food analysis, and analyzing data. Prereq: BCHM 3050 and BIOL 4340 and FDSC 2140; and Food Science major or minor. Coreq: FDSC 4031.

FDSC 4031* Food Chemistry and Analysis Laboratory 0 (3) Non-credit laboratory to accompany FDSC 4030. Coreq: FDSC 4030.

FDSC 4040* Food Preservation and Processing 3 (3) Principles of food preservation applied to flow processes, ingredient functions, and importance of composition and physical characteristics of foods related to their processing; product recalls and product development concepts. Prereq: Food Science major or minor or Packaging Science major or minor; and BCHM 3050; and either FDSC 2140 or FDSC 3010; and one of PHYS 1220 or PHYS 2000 or PHYS 2070.

FDSC 4060* Food Preservation and Processing Laboratory I 1 (3) Laboratory exercises on preservation methods, equipment utilized, and processes followed in food manufacture. Prereq: FDSC 4040.

FDSC 4070* Quantity Food Production 2 (1) Principles of the production of food in quantity for use in food service systems. Emphasizes functions of components of foods and of ingredients in food, and focuses on the quality of the final product, on safe production of food, and on proper use of equipment. Prereq: Food Science major or minor, or Packaging Science major or minor. Coreq: FDSC 4071.

FDSC 4071* Quantity Food Production Laboratory 0 (3) Non-credit laboratory to accompany FDSC 4070. Coreq: FDSC 4070.

FDSC 4080* Food Process Engineering 4 (3) Study of basic engineering principles and their application in food processing operations. Emphasized is the relation between engineering principles and fundamentals of food processing. Prereq: Food Science major or minor; and CH 1020 and FDSC 2140; and one of MATH 1020 or MATH 1060; and one of PHYS 1220 or PHYS 2000 or PHYS 2070. Coreq: FDSC 4081.

FDSC 4081* Food Process Engineering Laboratory 0 (3) Non-credit laboratory to accompany FDSC 4080. Coreq: FDSC 4080.

FDSC (PKSC) 4090* Total Quality Management for the Food and Packaging Industries 3 (3) Introduction to the principles of modern quality management emphasizing quality standards and issues and the practices necessary for food processing and packaging companies to survive in a customer-driven marketplace. May also be offered as PKSC 4090.

FDSC 4100* Food Product Development 4 (3) A strategic and systems approach to integrated product development practices for developing new food products within a team setting. Focuses on the StageGate process for moving from product idea to launch and application of sensory analysis techniques. Prereq: Food Science major or minor; and Junior standing. Prereq or concurrent enrollment: FDSC 4030. Coreq: FDSC 4101.

FDSC 4101* Food Product Development Laboratory 0 (3) Non-credit laboratory to accompany FDSC 4100. Coreq: FDSC 4100.

FDSC 4170 Seminar 1 (1) Literature research and oral presentation of a current food science topic. Prereq: Food Science major.

FDSC 4180 Seminar 1 (1) Literature research and oral presentation of a current food science topic. Special topics in food science not covered in other courses. May be repeated for a maximum of 12 credits, but only if different topics are covered. Includes Honors sections. Prereq: Consent of instructor.

FDSC 4210 Special Problems in Food Science 1-4 (1-4) Independent research investigation in food science areas not conducted in other courses. May be repeated for a maximum of 12 credits. Includes Honors sections. Prereq: Consent of instructor.

FDSC 4301* Dairy Processing and Sanitation Laboratory 0 (3) Non-credit laboratory to accompany FDSC 4300. Coreq: FDSC 4300.

FDSC 4500 Creative Inquiry—Food Science 1-6 (1-6) Individual or small group research experience in close collaboration with a faculty member. Expands undergraduate learning by application of the scientific method. Research is selected by the student with approval of faculty. May be repeated for a maximum of 12 credits. Prereq: Food Science major and Junior standing and consent of department chair.

FINANCE

FIN 2010 Introduction to Personal Finance 1 (1) Provides an introductory overview of personal finance with an emphasis on budgeting, consumer credit, including student loans, credit cards, and basic bank loans; personal bank services; and purchasing an automobile and property insurance.

FIN 3010 Personal Finance 3 (3) Analysis of the preparations of personal financial plans. Topics include savings and budgeting, personal taxes, housing and automobile decisions, loans, insurance needs, investments, and retirement needs. May not be counted toward a major or minor in Financial Management.

FIN 3040 Risk and Insurance 3 (3) Studies the nature of risk and the role of insurance in risk management from individual and business viewpoints. Topics include probability, theory of the firm under uncertainty, insurance carriers and contracts, underwriting, and regulation. Prereq: FIN 3060 or FIN 3110.

FIN 3050 Investment Analysis 3 (3) Study of techniques useful in analyzing alternative investment opportunities with emphasis on corporate securities. Investment planning and portfolio management are considered. Prereq: FIN 3060 or FIN 3110, each with a C or better.

FIN 3060 Corporation Finance 3 (3) Introduction to financial management of nonfinancial firms. Includes such topics as analysis of financial statements, financial forecasting, capital budgeting, working capital management, and long-term financing decisions. Credit may not be received for both FIN 3060 and FIN 3110. Prereq: ACCT 2100; and one of the following courses: IE 3610 or MATH 3202 or PSYC 3090 or STAT 3203 or STAT 3090.

FIN 3070 Principles of Real Estate 3 (3) Acquaints students with the theories, practices, and principles that govern real estate markets. Major emphasis is on specifics of real estate brokerage, property rights, and ownership; making real estate investment decisions; and financing real estate investments. Prereq: FIN 3060 or FIN 3110, each with a C or better.

FIN 3080 Financial Institutions and Markets 3 (3) Study of the various types of financial institutions and of topics critical to the financial institutions practitioner. Topics include financial regulations, financial security types and their yields, interest rate risk management, foreign currency risks management, and stock index futures. Prereq: FIN 3060 or FIN 3110, each with a C or better.

FIN 3110 Financial Management I 3 (3) First in a two-course sequence to provide in-depth exposure to the theory and practice of corporate financial management and to demonstrate how financial management techniques are applied in decision making. Credit may not be received for both FIN 3060 and FIN 3110. Includes Honors sections. Prereq: ACCT 2100 with a C or better; and one of the following: IE 3610 or MATH 3202 or PSYC 3090 or STAT 3203 or STAT 3090.

FIN 3120 Financial Management II 3 (3) Continuation of the two-course sequence that begins with FIN 3110. Includes Honors sections. Prereq: FIN 3060 or FIN 3110, each with a C or better.

FIN 3980 Creative Inquiry—Finance 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Prereq: Consent of faculty member/mentor.

FIN 3990 Finance Internship 1-3 (1-3) Preplanned, pre-approved, faculty-supervised internships to give students on-the-job learning in support of classroom education. Internships must be no fewer than six full-time, consecutive weeks with the same internship provider. Restricted to students with a major or minor in Financial Management. To be taken Pass/No Pass only. Prereq: Consent of instructor.
FIN 4010 Corporate Financial Analysis 3 (3) In this course, students explore the potential needs of financial statement end users (managers, investors, creditors) so different perspectives can be considered when decisions are made. Students also learn to interpret and convert raw numerical data into information about profitability and risk in order to assess the value of a firm. Preq: ACCT 3110 and FIN 3120, each with a C or better; and Financial Management major.

FIN 4020 Corporate Valuation 3 (3) Study of the decision process and analytical techniques used in evaluating corporate investment and financing decisions. Topics include capital budgeting, capital structure and bankruptcy, valuation, corporate governance, executive compensation, mergers and acquisitions, and restructuring. Includes Honors sections. Preq: FIN 3120 with a C or better.

FIN 4030 Spreadsheet Applications in Finance 3 (3) Using a combination of lectures and assignments emphasizing small-scale applications, this course focuses on the development of spreadsheet skills in corporate finance. Beginning with the theoretical base established in previous courses, students work through problems related to the time value of money, capital budgeting, and valuation using spreadsheet analysis. Credit toward a degree will be given for only one of FIN 4030 or 4040. Preq: FIN 3120 with a C or better; and CPSC 2200 or MGT 2180.

FIN 4040 Financial Modeling 3 (3) Helps students develop the practical skills that combine theory, business planning, and forecasting needed to make financial decisions. Emphasizes the use of spreadsheet software used to set up and solve these models. Topics include financial statement analysis, valuation, and cost of capital. Includes Honors sections. Credit toward a degree will be given for only one of FIN 4030 and 4040. Preq: FIN 3120 with a C or better; and either CPSC 2200 or MGT 2180; and consent of instructor.

FIN 4050 Portfolio Management and Theory 3 (3) Introduction to portfolio management includes the underlying theory, managing the equity and the fixed-income portfolios, portfolio evaluation, options-pricing theory, futures markets and instruments. Includes Honors sections. Preq: FIN 3050 with a C or better.

FIN 4060 Analysis and Use of Derivatives 3 (3) Consideration of the option pricing theory and strategy techniques most commonly used in the market for options. Also considers an overview of the futures markets. Special emphasis is given to interest-rate futures, stock index futures, and foreign exchange futures. Includes Honors sections. Preq: FIN 3050 with a C or better.

FIN 4080 Management of Financial Institutions 3 (3) Detailed study of the operational, marketing, and regulatory aspects of the management of depository financial institutions. Emphasizes decision making through the extensive use of cases. Preq: FIN 3080 with a C or better.

FIN 4090 Professional Financial Planning 3 (3) Concepts and practical implementation of professional financial planning focusing on essentials of budgeting and saving, risk management, tax planning, investment planning, and retirement and estate planning. Emphasizes integrating these elements into a comprehensive personal financial plan. Preq: ACCT 4040 and ACCT 4080 and FIN 3040 and FIN 3050.

FIN 4100 Research in Finance I-3 (1-3) Directed research for students in careers in finance. Research topic is selected by student and approved by instructor. A formal research paper is required. Includes Honors sections. Preq: FIN 3060 or FIN 3120; and consent of instructor.

FIN 4110 International Financial Management 3 (3) Extension of the principles of finance to the international context. Focuses on implications of the existence of multiple currencies and the operations across borders of sovereign nation-states for the multinational corporation. Preq: FIN 3060 or 3120 with a C or better.

FIN 4150 Real Estate Investment 3 (3) Focuses on the structure and analysis of real estate investment emphasizing financial theory and analysis techniques. Case study and project-oriented homework assignments facilitate the understanding of real estate investments. Preq: FIN 3070 with a C or better.

FIN 4160 Real Estate Valuation 3 (3) Advanced course in real estate valuation. Topics include income capitalization, cash equivalency, highest and best use analysis, the cost approach, the direct sales comparison approach, and DCF analysis. Preq: FIN 3070 with a C or better.

FIN 4170 Real Estate Finance 3 (3) Advanced course in real estate financial analysis and theory to real estate. Emphasizes mortgage credit analysis and current financing techniques for residential and commercial properties. Topics include financial institutions, syndications, and construction financing. Preq: FIN 3070 with a C or better.

FIN 4180 Creative Inquiry–Finance 1-4 (1-4) In consultation with and under the direction of a faculty member, students will participate in scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Consent of faculty member/mentor.

FIN 4990 Special Topics in Finance 3 (3) In-depth examination of specialized topics in finance. Topics vary depending on developments in the profession and interests of faculty. May be repeated for a maximum of six credits if different topics are covered. Preq: FIN 3120 with a C or better.

FORESTRY AND NATURAL RESOURCES

Professors: J.D. Lanham, P.A. Layton, G.K. Yarrow, Chair; Associate Professors: R.F. Baldwin, E. Mikhailova, C.J. Post; Assistant Professors: D. Jachowski, Y. Kanno, Extension Associate: R.D. Willey

FNR 1020 Forestry and Natural Resources Freshman Portfolio 1 (1) Informative sketch of forestry, wildlife biology, and natural resources; education and career opportunities for natural resource professionals. Students initiate their Web-based student portfolios, which showcase their skills and experiences (e.g., resumes, accomplishments, and work samples) during their undergraduate degree. To be taken Pass/No Pass only. Restricted to students enrolled in one of the following majors: Environmental and Natural Resources; or Forest Resource Management; or Wildlife and Fisheries Biology.

FNR 2040 Soil Information Systems 4 (3) Includes input, storage, analysis, and output of soil information through the use of global positioning systems, direct/remote sensing, geographic information systems, and web soil survey. Provides fundamental knowledge of the role of soils in forest and wildlife management. Preq: One of the following combinations: CH 1010 and CH 1020; or CH 1050 and CH 1060. Coreq: FNR 2041.

FNR 2041 Soil Information Systems Laboratory 0 (3) Noncredit laboratory to accompany FNR 2040. Coreq: FNR 2040.

FNR 4660 Stream Ecology 3 (2) Covers the ecology of flowing water systems. Topics include geomorphology, physical and chemical factors of streams, biology of stream-dwelling organisms, trophic relationships, competition, colonization, drift, community structure, disturbance, and human impacts. Preq: Junior standing. Coreq: FNR 4661.

FNR 4661 Stream Ecology Laboratory 0 (3) Noncredit laboratory to accompany FNR 4660. Coreq: FNR 4660.

FNR 4700 Creative Inquiry 1-3 (1-3) Multisemester commitment to participate in forestry and natural resources research with a group of peers, mentored by a faculty member or advanced graduate student. Students learn to collect, analyze, evaluate, and present information. May be repeated for a maximum of six credits. Preq: Consent of instructor.

FNR 4900 Field Training in Natural Resources 3 (9) Four to eight week internship in which students work in natural resources. Students have supervised management responsibility. Total of 135 hours required. Must be arranged at least two months in advance. Preq: Senior standing in one of the following majors: Environmental and Natural Resources; or Forestry; or Wildlife and Fisheries Biology.

FNR 4910 Senior Honors Thesis 1 3 (3) Individual research for students in the Forestry and Natural Resources Honors Program. Focuses on developing a plan of research under the direction of a faculty advisory committee. Preq: Senior standing, membership in Calhoun Honors College, and consent of instructor.

</thead>
<tbody>
<tr>
<td>FNR 4920</td>
<td>Senior Honors Thesis II 3 (3) Individual natural resources research for students in the Forestry and Natural Resources Honors Program. Focuses on data collection, analysis, report writing, and oral presentation.</td>
<td>Preq: FNR 4910.</td>
</tr>
<tr>
<td>FNR 4990</td>
<td>Natural Resources Seminar 1 (3) Exploration of current literature and research in natural resources. Students participate in the analysis of research findings, utilizing skills acquired in their undergraduate programs. May be repeated for maximum of two credits.</td>
<td></td>
</tr>
<tr>
<td>FOR 2050</td>
<td>Dendrology 2 (1) Classification, nomenclature, and identification of the principal forest trees of the United States, their geographical distribution, ecological requirements, and economic importance. Includes field identification of native trees and commonly planted exotics of the Southeast.</td>
<td>Preq: BIOL 1030 and BIOL 1050. Conreq: FOR 2051 and FOR 2210.</td>
</tr>
<tr>
<td>FOR 2051</td>
<td>Dendrology Laboratory 0 (3) Non-credit laboratory to accompany FOR 2050.</td>
<td>Conreq: FOR 2050.</td>
</tr>
<tr>
<td>FOR 2060</td>
<td>Forestry Ecology 3 (2) Study of the nature of forests and forest trees, how they grow, reproduce, and their relationships to the physical and biological environment. Offered spring semester only.</td>
<td>Preq: BIOL 1030 and BIOL 1050; or FOR 2050; or PES 2020. Conreq: FOR 2661.</td>
</tr>
<tr>
<td>FOR 2061</td>
<td>Forestry Ecology Laboratory 0 (3) Non-credit laboratory to accompany FOR 2060.</td>
<td>Conreq: FOR 2060.</td>
</tr>
<tr>
<td>FOR 2210</td>
<td>Forest Biology 3 (3) Study of woody plant form and function, wood properties, general physiology and forest biomes of North America. Presented as a companion course to dendrology lab.</td>
<td>Preq: BIOL 1030 and BIOL 1050. Conreq: FOR 2050.</td>
</tr>
<tr>
<td>FOR 2270</td>
<td>Arboricultural Field Techniques 1 (3) Skills and techniques required to safely climb trees for tree maintenance. Emphasizes safety, proper equipment, and basic tree maintenance treatments.</td>
<td>To be taken Pass/No Pass only.</td>
</tr>
<tr>
<td>FOR 2510</td>
<td>Forest Communities 2 (6) Study of forest plant species and their successful status and habitat requirements with respect to landform, soil type, and other appropriate aspects of site classification.</td>
<td>Preq: FOR 2050.</td>
</tr>
<tr>
<td>FOR 2520</td>
<td>Forest Operations 1 (3) Introduction and tour of forest operations activities throughout South Carolina. Includes timber harvesting, site preparation, and applied silvicultural processes.</td>
<td>Preq: Junior standing.</td>
</tr>
<tr>
<td>FOR 2530</td>
<td>Forest Mensuration 4 (12) Introduction to measurements of land, individual trees, forest stands, forest products, and the application of mensurational techniques to the statistical and physical design of forest sampling methods, including measurement techniques of non-timber components of forest resources.</td>
<td>Preq: FOR 2050.</td>
</tr>
<tr>
<td>FOR 2540</td>
<td>Forest Products (Summer Camp) 1 (3) Tour of the forest products industry of South Carolina emphasizing those products and processes of some distinction or special interest.</td>
<td>Preq: FOR 2050.</td>
</tr>
<tr>
<td>FOR 3020</td>
<td>Forest Biometrics 2 (1) Application of statistical methods to forestry problems, including sampling theory and methods, growth measurements and prediction, and application of microcomputing to analysis of forestry data.</td>
<td>Preq FOR 2530. Preq or concurrent enrollment: STAT 2300. Conreq: FOR 3021.</td>
</tr>
<tr>
<td>FOR 3021</td>
<td>Forest Biometrics Laboratory 0 (3) Non-credit laboratory to accompany FOR 3020.</td>
<td>Conreq: FOR 3020.</td>
</tr>
<tr>
<td>FOR 3040</td>
<td>Forest Resource Economics 3 (3) Economic problems and principles involved in the utilization of forest resources and distribution of forest products. Includes analysis of integrated forest operations.</td>
<td>Preq: AGRB 2570 or ECON 2000 or ECON 2110 or ECON 2120.</td>
</tr>
<tr>
<td>FOR 3080</td>
<td>Remote Sensing in Forestry 2 (1) Introduction to remote sensing, aerial photo interpretation, computer mapping, aerial photo timber estimating, and geographical information systems.</td>
<td>Preq: FOR 2530 and FOR 2520 and FOR 2530 and FOR 2540. Conreq: FOR 3081.</td>
</tr>
<tr>
<td>FOR 3081</td>
<td>Remote Sensing in Forestry Laboratory 0 (3) Non-credit laboratory to accompany FOR 3080.</td>
<td>Conreq: FOR 3080.</td>
</tr>
<tr>
<td>FOR 3140</td>
<td>Harvesting and Forest Products 4 (3) Harvesting of forest products, structure and properties of economically important timbers, and production and properties of primary forest products.</td>
<td>Preq: FOR 2510 and FOR 2520 and FOR 2530 and FOR 2540. Conreq: FOR 3141.</td>
</tr>
<tr>
<td>FOR 3141</td>
<td>Harvesting and Forest Products Laboratory 0 (3) Non-credit laboratory to accompany FOR 3140.</td>
<td>Conreq: FOR 3140.</td>
</tr>
<tr>
<td>FOR 3410</td>
<td>Wood Procurement Practices in the Forest Industry 3 (3) Study of wood raw material procurement practices currently employed by the forest products industry, including pulp, paper, and related areas.</td>
<td>Preq: FOR 2510 and FOR 2520 and FOR 2530 and FOR 2540.</td>
</tr>
<tr>
<td>FOR 4061</td>
<td>Forested Watershed Management Laboratory 0 (3) Non-credit laboratory to accompany FOR 4060.</td>
<td>Conreq: FOR 4060.</td>
</tr>
<tr>
<td>FOR 4080</td>
<td>Wood and Paper Products 3 (3) Study of wood structures and identification; physical and mechanical properties of wood products; standard testing procedures; manufacture of lumber, plywood, oriented strand board; drying, preservation, grading, and use of wood products. Also discusses common grades of paper and paperboard; fiber sources; pulping and paper-making equipment and processes; chemical recovery process; and environmental issues.</td>
<td>Preq: Junior standing.</td>
</tr>
<tr>
<td>FOR 4101</td>
<td>Harvesting Processes Laboratory 0 (3) Non-credit laboratory to accompany FOR 4100.</td>
<td>Conreq: FOR 4100.</td>
</tr>
<tr>
<td>FOR 4131</td>
<td>Integrated Forest Pest Management Laboratory 0 (3) Non-credit laboratory to accompany FOR 4130.</td>
<td>Conreq: FOR 4130.</td>
</tr>
<tr>
<td>FOR 4150</td>
<td>Forest Wildlife Management 3 (2) Principles, practices, and problems of wildlife management emphasizing upland forest game species. Habitat manipulation through use of appropriate silvicultural practices in association with other techniques is evaluated.</td>
<td>Preq: FOR 4600. Conreq: FOR 4151.</td>
</tr>
<tr>
<td>FOR 4151</td>
<td>Forest Wildlife Management Laboratory 0 (3) Non-credit laboratory to accompany FOR 4150.</td>
<td>Conreq: FOR 4150.</td>
</tr>
<tr>
<td>FOR 4160</td>
<td>Forest Policy and Administration 3 (3) Introduction to the development, principles, and legal provisions of forest policy in the United States and an examination of administrative and executive management in forestry. May also be offered as ENR 4160.</td>
<td></td>
</tr>
<tr>
<td>FOR 4170</td>
<td>Forest Resource Management and Regulation 3 (3) Fundamental principles and analytical techniques in planning, management, and optimization of forest operations.</td>
<td>Preq: FOR 3020 and FOR 3080 and FOR 4180 and FOR 4650.</td>
</tr>
<tr>
<td>FOR 4180</td>
<td>Forest Resource Valuation 3 (3) Analysis of capital investment tools and their application to decision making among forestry investment alternatives; valuation of land, timber, and other resources associated with forestry, including the impact of inflation and taxes.</td>
<td>Preq: FOR 3040.</td>
</tr>
<tr>
<td>FOR 4190</td>
<td>Senior Problems 1-3 (1-3) Problems chosen with faculty approval in selected areas of forestry. With department chair’s approval, may be repeated once for credit. Preq: Senior standing.</td>
<td></td>
</tr>
<tr>
<td>FOR 4230</td>
<td>Current Issues in Natural Resources 2 (2) Lectures in various fields of forestry delivered by selected representatives from forest industries, consultants, agencies, associations, and other forestry operations. Will not be taught when enrollment is less than 15. To be taken Pass/No Pass only. Preq: Junior standing.</td>
<td></td>
</tr>
</tbody>
</table>

FOR 4251 Forest Resource Management Plans Laboratory 0 (3) Non-credit laboratory to accompany FOR 4250. Coreq: FOR 4250.

FOR 4260 Forest Resource Management Plans Seminar 1 (1) In-depth exploration of topics and problems presented in FOR 4250. To earn honors credit, students must be enrolled in corequisite FOR 4250 and earn a B or better in both courses. Includes Honors sections. Prq: Senior standing and consent of instructor. Prq or concurrent enrolment: FOR 4250.

FOR (HORT) 4270* Urban Tree Care 3 (3) Principles, practices, and problems of protecting and maintaining trees in urban and recreational areas. Examines environmental and biological factors affecting trees in high-use areas, their management and cultural requirements, and the practices necessary for their protection and care as valuable assets in the landscape. May also be offered as HORT 4270. Prq: FOR 2050 orHORT 3030.

FOR 4310* Recreation Resource Planning in Forest Management 2 (1) Analysis of forest recreation as a component of multiple-use forest management; techniques of planning; physical and biological effects on forest environments; and forest site, user, and facility management. Coreq: FOR 4311.

FOR 4331* GPS Applications Laboratory 0 (3) Non-credit laboratory to accompany FOR 4330. Coreq: FOR 4330.

FOR 4330* GPS Applications 3 (2) Develops competence in global positioning system (GPS) technology, including theory, methods, and application to natural resources mapping. Topics include basic concepts of GPS; projection systems; types of data; mission planning; and data capture, correction, and export to geographical information systems. Prq: FOR 2510. Prq or concurrent enrolment: FOR 4330.

FOR 4331* Recreation Resource Planning in Forest Management Laboratory 0 (3) Non-credit laboratory to accompany FOR 4331. Coreq: FOR 4331.

FOR 4340* Geographic Information Systems for Natural Resources 3 (2) Develops competence in geographic information systems (GIS) technology and its application to various spatial analysis problems in natural resources. Topics include data development and management, spatial analysis techniques, critical review of GIS applications, needs analysis and institutional context. GIS hardware and software, hands-on application. Credit may be received for only one of ENR 4340 or FOR 4340. May also be offered as ENR 4340. Coreq: FOR 4340.

FOR (ENR) 4340* Geographic Information Systems for Natural Resources Laboratory 0 (3) Non-credit laboratory to accompany FOR 4340. May also be offered as ENR 4340. Coreq: FOR 4340.

FOR 4410* Properties of Wood Products 3 (3) Basic properties of wood, including the hygroscopic, thermal, electrical, mechanical, and chemical properties; standard testing procedures for wood. Prq: Junior standing.

FOR 4420* Manufacture of Wood Products 3 (3) Study of the manufacture of lumber, plywood, poles, panels; drying, preservation, grading, and uses of wood products. Considers the manufacture of particleboard, flakeboard, oriented-strand board, fiberboard, and paper products. Includes physical, mechanical, and chemical properties and their applications. Prq: Consent of instructor.

FOR 4440* Forest Products Marketing and International Trade 3 (3) Study of marketing and international trade practices currently employed by the forest products industry and the application of basic marketing principles and global trade concepts in the industry's current and future environment. Prq: FOR 4420.

FOR 4470 Special Problems in Forest Products 1-3 (1-3) Laboratory, library, or field study of problems in selected areas of forest products. Emphasizes the planning and execution of research and the reporting of results. Research must be conducted under the guidance of a Forest Products faculty member. May be repeated for a maximum of three credits, but only if different topics are covered. Prq: Senior standing and consent of instructor.

FOR (BE, EES) 4510* Newman Seminar and Lecture Series in Natural Resources Engineering 1 (2) Topics dealing with development and protection of land, air, water, and related resources are covered by seminar with instructor and invited lecturers. Current environmental and/or resource conservation issues are addressed. Includes Honors sections. May also be offered as BE 4510 or EES 4510. Prq: Junior standing.

FOR 4610 Silviculture Honors Seminar I 1 (1) In-depth exploration of topics and problems presented in FOR 4650. To earn honors credit, students must be enrolled in FOR 4650 and earn a B or better in both courses. Prq: Junior standing and consent of instructor. Prq or concurrent enrolment: FOR 4650.

FOR 4630 Silviculture Honors Seminar II 1 (1) In-depth exploration of topics and problems presented in FOR 4650. To earn honors credit, students must be enrolled in FOR 4650 and earn a B or better in both courses. Prq: Junior standing and consent of instructor. Prq or concurrent enrolment: FOR 4650.

FOR 4650* Silviculture 4 (3) Discussion of the theory and practice of manipulating forests to meet the needs and values of landowners and society in accordance with biological, ecological, and economic principles. Prq: FOR 2060 and FOR 2510 and FOR 2520 and FOR 2530 and FOR 2540. Coreq: FOR 4651.

FOR 4651* Silviculture Laboratory 0 (3) Non-credit laboratory to accompany FOR 4650. Coreq: FOR 4650.

FOR 4800 Selected Topics in Urban Forestry 1-3 (1-3) Study of selected and varied topics, problems, and issues in urban forestry and arboriculture through readings, class discussion, and individual and group projects. Prq: FOR 4270 or HORT 4270.

FOR 4930 Selected Topics in Forest Resources 1-15 (1-15) Specialized topics not covered in other courses that explore current areas of research and management in forest resources in a format of lecture, lab, or both. May be repeated for a maximum of 15 credits, but only if different topics are covered. Prq: Junior standing.

FOR 4980 Senior Portfolio 1 (1) Collection of Web-based materials representing the creative and scientific papers, presentations, and resumes written by students to satisfy curriculum requirements. Students are informed in FNR 1020 and regularly thereafter regarding the format and content of their portfolios. Prq or concurrent enrolment: FOR 4250.

FRENCH

Associate Professors: J. Mai, E.R. Touya; Assistant Professor: K. Peebles; Lecturers: A. Sawyer, K. Widgren

FR 1010 Elementary French 4 (3) Multimedia course for beginners that combines video, audio, and print to teach the fundamentals of the French language and culture. Emphasizes communicative proficiency (listening comprehension, speaking, reading, and writing). Coreq: FR 1011.

FR 1011 Elementary French Laboratory 0 (1) Non-credit laboratory to accompany FR 1010. Coreq: FR 1010.

FR 1020 Elementary French 4 (3) Continuation of FR 1010; three hours a week of classroom instruction and one hour a week in the language laboratory. Coreq: FR 1021.

FR 1021 Elementary French Laboratory 0 (1) Non-credit laboratory to accompany FR 1020. Coreq: FR 1020.

FR 1040 Basic French 4 (3) Intensive one-semester program combining FR 1010 and 1020 for students who have previously studied French. Includes fundamentals of grammar and vocabulary as a foundation for building written and oral proficiency. Coreq: FR 1041.

FR 1041 Basic French Laboratory 0 (1) Non-credit laboratory to accompany FR 1040. Coreq: FR 1040.

FR 1510 French for Graduate Students 3 (3) Intensive program only for graduate students preparing for the reading examination in French. A minimum grade of B on a final examination will satisfy graduate school foreign language requirement. May be repeated once for credit. To be taken Pass/No Pass only. Prq: Graduate standing.

FR 2970 Creative Inquiry—French 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration. Prq: Consent of faculty member.
FR 2990 Foreign Language Drama Laboratory 1 (3) Participation in foreign drama productions. No formal class meetings, but an average of three hours per week in a foreign language drama workshop for production. May be repeated for a maximum of three credits. Prereq: Consent of instructor directing the play.

FR 3040 French Short Story 3 (3) Introduction to the study of French narrative literature and the elements of critical analysis through the examination of short stories spanning the medieval era to the present from both France and Francophone countries. Prereq: FR 3050.

FR 3050 Intermediate French Conversation and Composition I 3 (3) Practice in the spoken language stressing vocabulary building, pronunciation, intonation, and comprehension. Requires written work to increase accuracy and assignments in the language laboratory. Prereq: FR 2020.

FR 3060 Intensive Language and Culture in Belgium 3 (3) Intensive one-semester course for students participating in the Clemson French Immersion program in Belgium. Includes the study of language and Belgian cultural heritage with an emphasis on integration into local student life, immersion in contemporary Belgian society, and participation in cultural traditions. Prereq: FR 3050.

FR 3070 French Civilization 3 (3) Study of significant aspects of French culture from its origins to the present. Prereq: FR 3050.

FR 3090 French Linguistics II: Syntax and Semantics 3 (3) Study of the fundamental structures of French syntax and semantics. Prereq: FR 3040 or FR 3050.

FR 3100 Summer Immersion Program 6 (6) Conducted entirely in French for eight hours daily, this summer immersion program consists of activities that combine interrelating cultural topics with language skill practice. Frequent opportunities to converse with native speakers during meals and on excursions. Students receive six credits, three of which may be taken in lieu of FR 2020. Prereq: FR 2010.

FR 3120 Writing in French 1 3 (3) Study of the vocabulary, syntax, and stylistics in short compositions and creative papers in French, on both fiction and non-fiction topics. Prereq: FR 2020.

FR 3160 French for International Trade 1 3 (3) Spoken and written French common to the French-speaking world of business and industry, emphasizing business practices and writing and translating business letters and professional reports. Cross-cultural references provide opportunity for comparative and contrastive analyses of American and French cultural patterns in a business setting. Prereq or concurrent enrollment: FR 2020 and FR 3050.

FR 3170 Contemporary French Civilization 3 (3) Study of significant aspects of France today; the country, its economy, government, and society. Taught in French. Prereq: FR 3050.

FR 3200 Studies in French Theatre 3 (3) Explores a variety of genres (medieval farce, classical comedy and tragedy, romantic melodrama, and the Nouveau Théâtre) with emphasis on staging. Class materials consist of scripts, videotaped performances, and theoretical readings on issues pertaining to spectacle in social, political, and artistic terms. May be repeated for a maximum of six credits. Prereq: FR 2020.

FR 3570 Selected Topics in the Culture of Paris 3 (3) Onsite study of Paris and its relationship to France and Europe through readings, lectures, field trips, small student-group explorations, and reporting sessions. All activities are conducted in French. Prereq: FR 2020.

FR 3630 French and Francophone Poetry 3 (3) Study of traditions and major works of French and/or Francophone poetry in their historical, cultural, and aesthetic contexts. Topics may include genres, periods, traditions (romanticism, symbolism, surrealism), or themes. Prereq: FR 3050.

FR 3910 Survey of French Literature (Honors) I (1) One-week independent study to allow honors students to pursue supervised research on a topic relating to the literary, cultural, and artistic movements in France. Prereq: Membership in Calhoun Honors College. Prereq or concurrent enrollment: FR 3000.

FR 3970 Creative Inquiry—French I 4 (4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

FR 3980 Directed Reading I 3 (3) Directed study of selected topics in French literature, language, and culture. May be repeated for a maximum of six credits. Prereq: Consent of department chair.

FR 4000 Modern French Literature 3 (3) Study of selected works of 20th-century French literature in their artistic, cultural, and historical context. Prereq: FR 3050.

FR 4090 Writing in French II 3 (3) Intensive study of syntax and stylistics through composition and translations. Prereq: Senior standing.

FR 4100 Francophone Literature 3 (3) Study of selected works of francophone literature emphasizing Africa and the Caribbean in their artistic, cultural, historical, and political contexts. Prereq: FR 3050.

FR 4110 Advanced French Conversation and Composition 3 (3) Continuation of FR 3050 emphasizing greater fluency and sophistication in oral and written expression. Prereq: FR 3050.

FR 4120 French and Francophone Cinema I 3 (3) Examination of cinematic practice as a discourse and the role it plays in the representation of social relations, particularly race, ethnicity, class, power, sex, and gender in the French-speaking world. May include a study of major directors, genres, and movements. Taught in French. Films with English subtitles. Prereq: FR 3050. Coreq: FR 4121.

FR 4121 French and Francophone Cinema Laboratory 0 (3) Non-credit laboratory to accompany FR 4120. Coreq: FR 4120.

FR 4150 Translation Seminar 3 (3) Methods and theory of translation and a comparison of French and English structures. Practical exercises in translating from French to English and vice versa in a variety of texts. Prereq: FR 3050.

FR 4160 French for International Trade II 3 (3) Study of language and cultural environment of the French-speaking markets of the world, including the linguistic and cultural idioms that support global marketing in general and the international marketing of textiles, agricultural products, and tourism in particular. Prereq: FR 3160.

FR 4180 French Enlightenment, Revolution and Romanticism 3 (3) Cultural and literary studies of the century and a half (1715–1851) in which France occupied the center stage of world history and its modern institutions came into being. Emphasizes the free intellectual inquiry championed by philosophers and the romantic melancholy in the aftermath of the Revolution. Prereq: FR 3050.

FR 4380 French Honors Research 3 (3) Individual honors research conducted under the direction of Language Department faculty. May not be used to satisfy requirements for the major in Modern Languages—French or Language and International Trade or the minor in Modern Languages. Prereq: Junior standing and membership in Calhoun Honors College.

FR 4390 French Honors Thesis 3 (3) Individual honors research conducted and thesis completed under the direction of Language Department faculty member. May not be used to satisfy requirements for the major in Modern Languages—French or Language and International Trade or the minor in Modern Languages. Prereq: Junior standing and FR 4380 and membership in Calhoun Honors College.

FR 4750 Advanced French Seminar 3 (3) Concentrated research and discussion on an advanced topic in French literature, film, drama, music, or philosophy. May be repeated for a maximum of six credits, but only if different topics are covered. Prereq: FR 3040 or FR 3050 and Senior standing.

FR 4760 Advanced Seminar on French Thought 3 (3) Research and discussion of an advanced topic, text, or group of texts with a particular focus on French theory and philosophy but including works of French literature. Conducted in English. May be repeated for a maximum of six credits, but only if different topics are covered. Prereq: Senior standing.

FR 4770 Advanced Seminar on the French and Francophone Novel 3 (3) Examination of the French novel and/or narrative prose focusing on a theme, genre, or period. May be repeated for a maximum of six credits, but only if different topics are covered. Prereq: FR 3040 or FR 3050 and Senior standing.
FR 4910 Modern French Literature (Honors) 1 (1) Independent study to allow honors students to pursue in depth an author, work, movement, or genre related to contemporary French culture, art, or literature. Preq or concurrent enrollment: FR 4000 and membership in Calhoun Honors College.

FR 4920 The French Corporation (Honors) 1 (1) Independent study to allow honors students to pursue an in-depth study of the organization, structure, functions, and economic role of a French business enterprise. Preq or concurrent enrollment: FR 4170 and membership in Calhoun Honors College.

FR 4970 Creative Inquiry—French 1-4 (1-4) Continuation of research initiated in FR 3970. Students complete their projects and disseminate their research results. Preq: FR 3970.

FR 4980 Independent Study 1-3 (1-3) Designed study of a selected topic in French literature, language, or culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

FR 4990* Selected Topics in French Literature 3 (3) Selected topics that have characterized French literature, language, and culture. May be repeated for a maximum of six credits. Preq: Consent of department chair.

GRAPHIC COMMUNICATIONS

GC 1010 Orientation to Graphic Communications 1 (1) Introduction to the curriculum and the industry, including its processes, products, and careers. Emphasizes the attributes most desirable for successful entry and advancement up a variety of career ladders.

GC 1020 Computer Art and CAD Foundations 4 (4) Graphic Communications industries make extensive use of software and best practices from concept through production. This course provides a solid foundation in drawing, imaging and layout software; packaging structure and 3D CAD; design principles and problem solving relative to audience, need, typography, color, materials, printing and end use. Includes Honors sections. Coreq: GC 1021.

GC 1021 Computer Art and CAD Foundations Laboratory 0 (6) Non-credit laboratory to accompany GC 1020. Coreq: GC 1020.

GC 1030 Graphic Communications I for Packaging Science 4 (4) Emphasizes the interrelationships of packaging and graphic arts. Topics include theory and practice in packaging requirements relative to basic graphic arts concepts, principles, and practices; layout; design; electronic copy preparation; the printing processes of offset lithography; screen printing; gravure; and flexography. Includes digital and specialty printing processes, environmental, health, and safety concerns. Coreq: GC 1031.

GC 1031 Graphic Communications I for Packaging Science Laboratory 0 (6) Non-credit laboratory to accompany GC 1030. Coreq: GC 1030.

GC 1040 Graphic Communications I 4 (2) Emphasizes basic graphic arts industry concepts, principles, and practices, with laboratory applications in graphic design, digital layout, image capture/manipulation, offset lithography, screen printing, flexography, digital printing variable data, finishing operations and color management. Also covers gravure, letterpress, and specialty printing processes, along with environmental, health, and safety concerns. Includes Honors sections. Coreq: GC 1020. Coreq: GC 1041.

GC 1041 Graphic Communications I Laboratory 0 (6) Non-credit laboratory to accompany GC 1040. Coreq: GC 1040.

GC 1990 Creative Inquiry—Graphic Communications I 1-3 (1-3) Under the direction of a faculty member, students pursue approved scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Freshman standing and consent of faculty member/mentor.

GC 2070 Graphic Communications II 4 (2) Intermediate course for graphic communications and graphic arts specialists, which builds upon student experiences from previous courses. Emphasis is on theory and problem solving, as well as broadening skills in layout, copy preparation, lithographic and screen printing presswork. Additional areas of focus include type setting and justification, basic electronic halftone techniques, font technology and markets, basic camera work, quality control, computer hardware, software, and networks and servers for the graphic arts industry. Includes Honors sections. Coreq: GC 1010 and GC 1020 and GC 1040. Coreq: GC 1021.

GC 2071 Graphic Communications II Laboratory 0 (6) Non-credit laboratory to accompany GC 2070. Coreq: GC 2070.

GC 2400 Introduction to Web Design and Development 3 (2) Designed to build the students’ knowledge of web design and development to an intermediate level. Students learn the fundamental languages and markups for front-end web programming, and are introduced to some of the more complex web topics, including Web to Print, Responsive Web Design, and Server Technology. Preq: GC 1020 and GC 1040. Coreq: GC 2401.

GC 2401 Introduction to Web Design and Development Laboratory 0 (3) Non-credit laboratory to accompany GC 2400. Coreq: GC 2400.

GC 2510 Special Projects in Graphic Communications I 1-3 (1-3) Advanced projects covering theory and/or practices beyond the scope of regular coursework. The subject of work is determined by the instructor in consultation with the student, usually before the term begins or shortly thereafter. The student is expected to work independently and at a level consistent with the amount of work normally associated with the specific credit hours enrolled in. Written project approval is required prior to registration. May be repeated for a maximum of six credits with approval of advisor. Preq: Sophomore standing and consent of written proposal and consent of advisor.

GC 2990 Creative Inquiry—Graphic Communications II 1-3 (1-3) Under the direction of a faculty member, students pursue approved scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Sophomore standing.

GC 3400 Digital Imaging and eMedia 4 (2) Centered around digital imaging, this course explores digital graphic communications photography, video and web design. The photography segment concentrates on manual camera capture; the video segment introduces the basic process of filmmaking; and the web segment covers basic coding and design. Online marketing tools and social media are also explored. Preq: GC 1020 and GC 1040. Coreq: GC 3401.

GC 3401 Digital Imaging and eMedia Laboratory 0 (6) Non-credit laboratory to accompany GC 3400. Coreq: GC 3400.

GC 3460 Ink and Substrates 3 (2) Emphasizes the basic graphic arts industry concepts, principles and practices, with laboratory applications in graphics. This course provides an in-depth study of the properties of inks and substrates used in offset lithography, flexography, gravure, screen printing and digital printing applications. The relationship between inks, substrates and printing is examined. Preq: GC 2070. Coreq: GC 3461.

GC 3461 Ink and Substrates Laboratory 0 (3) Non-credit laboratory to accompany GC 3460. Coreq: GC 3460.

GC 3500 Graphic Communications Internship I 1 (1) Full-time supervised employment in an industrial in-plant setting for expansion of experience with materials and processes, production people, and organizations. Preq: GC 1040 and Graphic Communications major and consent of instructor. Preq or concurrent enrollment: COOP 2010.

GC 3510 Special Projects in Graphic Communications II 1-3 (1-3) Advanced projects covering theory and/or practices beyond the scope of regular coursework. The subject of work is determined by the instructor in consultation with the student, usually before the term begins or shortly thereafter. The student is expected to work independently and at a level consistent with the amount of work normally associated with the specific credit hours enrolled in. Written project approval is required prior to registration. May be repeated for a maximum of six credits with approval of advisor. Preq: Junior standing and acceptance of written proposal by and consent of advisor.

GC 3990 Creative Inquiry—Graphic Communications III 1-3 (1-3) Under the direction of a faculty member, students pursue approved scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Junior standing and consent of faculty member/mentor.
GC 4060* Package and Specialty Printing 4 (2) In depth study of the problems and processes for printing and converting in package label and specialty printing industries. Flexographic prepress, workflow, proofing, printing, die making, die cutting, converting, inventory marks, and consumer experience graphics are covered. New developments and trends are explored as well. Laboratory techniques in prepress, printing and converting. Includes Honors sections. Preq: GC 4060. Coreq: GC 4061.

GC 4061* Package and Specialty Printing Laboratory 0 (6) Non-credit laboratory to accompany GC 4060. Coreq: GC 4060.

GC 4070* Advanced Flexographic Methods 4 (2) In-depth study of the methods used in flexographic printing and converting of porous and nonporous substrates. Theory and laboratory applications include setting standards for process color, preparation of plate systems, ink mixing and color matching, testing of films and foils, analysis of recent developments, and prediction of future markets. Preq: GC 4060. Coreq: GC 4071.

GENETICS

W.R. Marcotte, Professors:

INTRODUCTORY GENETICS 1 (1) Introduction to biochemistry and genetics. The molecular basis of heredity and gene expression in prokaryotes and eukaryotes. Emphasizes Mendelian genetics, physical and chemical basis of heredity, and population genetics. Preq: BIOL 1030 or BIOL 1100.

MOLECULAR GENETICS AND MOLECULAR GENETICS II 2 (2) Rapidly-paced course covering Mendelian and molecular genetics, with introductory coverage of quantitative and population genetics. Emphasizes the molecular basis of heredity and gene expression in prokaryotes and eukaryotes and modern genetic technology. Includes Honors sections. Preq: BIOL 1100 with C or better.

BCHM 3040 Molecular Biology Laboratory 2 (4) Introduces fundamental molecular biology laboratory techniques commonly used in biochemistry, genetics, and molecular biology research. Principles and applications of these techniques are also discussed. May also be offered as BCHM 3040. Preq: BIOL 1100. Preq or concurrent enrollment: BCHM 3010 or GEN 3020.

BCHM (BIOL) 4050* Molecular Genetics of Eukaryotes 3 (3) Molecular analyses of eukaryotes in relation to mutations and repair, complex phenotypes, biochemical pathways, short- and long-term regulation of gene expression, and evolution. May also be offered as BIOL 4050. Preq or concurrent enrollment: BCHM 3010 or BCHM 3050; and GEN 3000 and GEN 3020.

BCHM 4210 Population and Quantitative Genetics 3 (3) Classical and computational genetics topics, including Mendelian vs. non-Mendelian inheritance, genetic variation, evolutionary, conservation, coalescent theory, molecular evolution, quantitative trait locus, and association mapping in the framework of population and quantitative genetics. Includes Honors sections. Preq: STAT 2300 and GEN 3020, each with C or better.

BCHM 4210* Population and Quantitative Genetics Laboratory 2 (4) Takes advantage of useful benefits and disadvantages of appropriate markers, and molecular markers are amplified, sequenced, and analyzed. Collected data are used to test hypotheses regarding possible modes of inheritance and for patterns of molecular evolution. Population and molecular evolutionary genetics concepts are also examined. Preq or concurrent enrollment: GEN 4100.

BCHM 4220* Molecular Genetics and Gene Regulation 3 (3) Molecular genetics, including replication, transcription and translation, gene expression, recombinant DNA technology, development, human, cancer, and behavioral genetics. Includes Honors sections. Preq: BCHM 3010 and GEN 3020, each with C or better.

BCHM 4220 Molecular Genetics and Gene Regulation Laboratory 2 (4) Introduces molecular genetics techniques (transformation, cloning, PCR, gel electrophoresis, Southern Blotting, reporter genes, gene mapping) using prokaryotic and eukaryotic organisms. Preq or concurrent enrollment: GEN 4220.

BCHM (BIOL) 4400* Bioinformatics 3 (3) Theory and application of computational technology to analysis of the genome, transcriptome, and proteome. Includes Honors sections. May also be offered as BCHM 4400. Preq: BCHM 3010 or BCHM 3050 or GEN 3000 or GEN 3020, with C or better.
GEN 4500* Comparative Genetics 3 (3) Outlines the genome structure, function, and evolution based on available complete genome sequences. Topics include the evolution of multigene families, origin of eukaryotic organelles, molecular phylogeny, gene duplication, domain shuffling, transposition, and horizontal gene transfer. Includes Honors sections. Preq: GEN 4200 with a C or better. Preq or concurrent enrollment: GEN 4400.

GEN 4760 Human Genetics 3 (3) Basic principles of inheritance; population, molecular and biochemical genetics; cytogenetics; immunogenetics; complex traits; cancer genetics; treatment of genetic disorders; genetic screening and counseling; and the Human Genome Project. Preq: GEN 3000 with a C or better; or GEN 3020 with C or better.

GEN 4900 Selected Topics in Genes 1-4 (1-4) Comprehensive study of selected topics not covered in other courses. May be repeated for a maximum of eight credits, but only if different topics are covered. Preq: Consent of instructor.

GEN 4910 Directed Research in Genetics 1-8 (3-24) Orientation in genetic research (i.e. experimental planning, execution, and reporting). May be repeated for a maximum of 20 credits. Includes Honors sections. Preq: Consent of instructor.

GEN 4920 Honors Thesis in Genetics 1 (1) Students complete a senior thesis and oral presentation detailing their honors research in genetics. Preq or concurrent enrollment: Students are expected to have completed or be concurrently enrolled in their second semester of an Honors section of GEN 4910 for a minimum of four credits when registering for this course.

GEN 4930 Senior Seminar 2 (2) Analysis and discussion of papers from the primary literature in the life sciences particularly in genetics. Students find pertinent articles in the primary literature and present and analyze the selected reading. Includes Honors sections. Preq: BCHM 3010 and GEN 3020, each with a C or better; and one of the following with a C or better: GEN 4100 or GEN 4200 or GEN 4500.

GEN (ENT) 4950* Insect Biotechnology 3 (3) Considers many unique genetic features exhibited by insects and describes the applications of biotechnology to enhance useful products from insects and to affect the control of destructive insects. May also be offered as ENT 4950. Preq: ENT 3010 and GEN 3020.

GEOGRAPHY
Associate Professor: C.A. Smith; Assistant Professor: W.C. Terry; Lecturer: L.F. Howard

GEOG 1010 Introduction to Geography 3 (3) Survey of the nature of geography emphasizing the discipline’s organizing themes of earth science, relations between people and their environments, interrelations between places, locational analysis, and area studies.

GEOG 1030 World Regional Geography 3 (3) Systematic and descriptive survey of the major regions of the world, including their physical and cultural features. Provides a global context for courses in the social sciences and humanities.

GEOG 1060 Geography of the Physical Environment 4 (3) Examines the condition of the physical environment, especially the earth’s surface and the processes that act on it. Topics range from earth-sun relations to the evolution of landscapes; human habitats and human alteration of the environment. Coreq: GEOG 1061.

GEOG 1061 Geography of the Physical Environment Laboratory 0 (3) Non-credit laboratory to accompany GEOG 1060. Coreq: GEOG 1060.

GEOG 3010 Political Geography 3 (3) Geographic basis of states: sovereignty, territory, power within states, relations between states. The geography of international affairs. Preq: GEOG 1010 or GEOG 1030.

GEOG 3020 Economic Geography 3 (3) Spatial analysis of economic activity emphasizing regional economics and development. Topics include world population; technology and economic development; principles of spatial interaction; and geography of agriculture, energy manufacturing, and tertiary activities. Preq: GEOG 1010 or GEOG 1030.

GEOG 3030 Urban Geography 3 (3) Historical and contemporary survey of the urban world, with particular attention paid to the relationship between people and urban places. Topics include the rise of cities, urban hierarchies, urban land use, and the social geography of cities. Preq: GEOG 1010 or GEOG 1030.

GEOG 3050 Cultural Geography 3 (3) Broad examination of the basic cultural variables in the human occupation of the earth: economic, ecological, spatial, regional, and historical approaches. Topics vary but may include cultural areas and distributions, cultural change, cultural landscape, and cultural ecology. Preq: GEOG 1010 or GEOG 1030.

GEOG 3060 Historical Geography 3 (3) Exploration of geographical change and the varied patterns of past human activities and people’s relationships with the physical environment. Case studies from around the world are used to emphasize key themes in historiographical geography. Preq: GEOG 1010 or GEOG 1030.

GEOG 3300 Geography of the Middle East and North Africa 3 (3) Thematic survey of a world region extending from Morocco to Afghanistan. Emphasizes climate, environment, social geography, historical development of the regional culture of Islam, and common problems facing the area today. Preq: GEOG 1010 or GEOG 1030.

GEOG 3400 Geography of Latin America 3 (3) Introduction to the physical, economic, political, and human/cultural geography of Latin America. Special focus is on regional unity and diversity and the historical interaction of man and environment.

GEOG 3600 Geography of Africa 3 (3) Study of how tropical, or sub-Saharan, Africa functions in the modern world. Africa’s physical environments, peoples and cultures, colonial and post-colonial history, and ideologies of economic development. Five basic themes are covered: population, natural resources, environmental quality, political organization, economic development. Preq: GEOG 1010 or GEOG 1030.

GEOG 3990 Creative Inquiry—Geography 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of nine credits. Preq: GEOG 1010 or 1030.

GEOG 4010 Studies in Geography 3 (3) Intensive study of the geography of a selected world region, such as North America, Europe, or the Middle East, or the geography of a topic, such as the geography of oil or the geography of underdevelopment. May be repeated once for credit with departmental consent. Preq: GEOG 1010 or GEOG 1030.

GEOG 4010* Geography of the American South 3 (3) Study of the geography of the American South in its changing complexities across almost 400 years of development. Preq: GEOG 1010 or GEOG 1030.

GEOG 4200* Historical Geography of the United States 3 (3) Survey that places the spatial concepts of geography into a time sequence with special emphasis upon the United States. Preq: GEOG 1010 or GEOG 1030.

GEOG (PRTM) 4300* World Geography of Parks and Equivalent Reserves 3 (3) Major international patterns in the provision and use of urban and rural parks and recreation are examined. May also be offered as PRTM 4300. Preq: 2.0 cumulative grade-point average.

GEOG 4400* Geography of Historic Preservation 3 (3) Aspects of historic preservation emphasizing sites and structures in their geographical, historical, and socioeconomic contexts. Examples are drawn from American architectural styles and settlement forms. Preq: GEOG 1010 or GEOG 1030.

GEOG 4990 Independent Study in Geography 3 (0) Study of selected topics in geography under the direction of a faculty member chosen by the student. Student and faculty member develop a course of study designed for the individual student and approved by the department chair prior to registration.

GEOLOGY
Professors: J.W. Castle, L.C. Murdoch, M.A. Schlaum; Associate Professors: S.M. Moysey, B.A. Powell; Assistant Professor: L. Shuller-Nickels; Lecturers: S. Brame, A. Coulson

GEOL 1000 Current Topics in Geology 1 (1) Lectures and demonstrations covering topics of current interest in the different fields of geology. Recent research developments and career opportunities in the geosciences are emphasized.

GEOL 1010 Physical Geology 3 (3) Study of the minerals and rocks that compose earth’s crust, their origins and transformations. Emphasizes geological processes, both internal and external, by which changes are produced on or in the earth. Includes Honors sections.

GEOL 1030 Physical Geology Laboratory 1 (2) Laboratory to accompany GEOL 1010. Provides instruction in the identification of minerals and rocks and in the interpretation of geologic processes through study of topographic maps. Field trips provide direct observation of processes and results. Includes Honors sections. Preq or concurrent enrollment: GEOL 1010.
GEOL 1120 Earth Resources 3 (3) Survey of earth’s mineral, energy, water, and land resources and environmental and societal impacts associated with the use of these resources.

GEOL 1140 Earth Resources Laboratory 1 (2) Laboratory to accompany GEOL 1120. Provides instruction in the identification of ore and gem minerals and of other earth materials of economic importance. Land and water resources are explored through the use of topographic maps, aerial photographs, remotely sensed images, and field trips.

GEOL 1200 Natural Hazards 3 (3) This class explains the scientific causes of various natural hazards (earthquakes, volcanoes, hurricanes, tsunamis, etc.) Additionally, topics explore how economic, social, and political factors influence our preparedness for and response to disasters. Discussions also examine moral dilemmas resulting from technological limits on our ability to predict and prevent such events.

GEOL (ENSP) 1250 Sustainable Resource Use 3 (3) This course explores the challenges our society faces in making the transition to renewable resource use in a way that is truly sustainable environmentally, economically and socially. The conflicting demands of each system will be examined and used to critically examine possible solutions using a systems based approach. May also be offered as ENSP 1250.

GEOL 2020 Earth History 4 (3) Survey of the earth’s geologic history emphasizing how the continents and ocean basins have evolved through geologic time. Evolution of life from the beginning of the fossil record through the present; identification of fossil plants and animals and interpretation of earths past through study of geologic maps. Field trips illustrate principles. Includes Honors sections. Prereq: GEOL 1010 and GEOL 1030. Coreq: GEOL 2021.

GEOL 2021 Earth History Laboratory 0 (3) Non-credit laboratory to accompany GEOL 2020. Coreq: GEOL 2020.

GEOL 2070 Mineralogy and Introductory Petrology Laboratory 1 (3) Identification of rock-forming minerals and important ore minerals based on their physical properties. Includes hand specimen petrology of igneous, sedimentary, and metamorphic rocks. Credit toward a degree will be given for only one of GEOL 2070 or GEOL 2080. Coreq: GEOL 2050.

GEOL 2080 Mineralogy and Petrography Laboratory 2 (6) Identification of rock-forming minerals and important ore minerals based on their physical and optical properties. Hand specimen petrology and petrography of igneous, sedimentary, and metamorphic rocks. Study of minerals in thin section using polarizing microscope. Credit toward a degree will be given for only one of GEOL 2070 or 2080. Prereg or concurrent enrollment: GEOL 2050.
GEOL 3161 Igneous and Metamorphic Petrology Laboratory 0 (3) Non-credit laboratory to accompany GEOL 3160. Coreq: GEOL 3160.

GEOL 3180 Introduction to Geochemistry 3 (3)
Introduction to distribution of elements in the core, mantle, and crust of the earth. Control of rock type on trace element content in soils and sediments. Weathering; soil and regolith formation; water-sediment interrelations; solubility, mobility and bioavailability in relation to redox, pH and complexation; biogeochemical cycles of selected elements. Prq: GEOL 2500.

GEOL 3600 Geology and Cultures of Scotland 3 (1)
Students spend two weeks in Scotland exploring its diverse geology and visiting medieval castles and ancient stone mountains. Highlights include studying the unconformity at Siccar Point made famous by James Hutton, the father of modern geology; and travelling “The Rock Route” through the Scottish Highlands, where modern ideas about mountain building were birthed. Coreq: GEOL 3601.

GEOL 3601 Geology and Cultures of Scotland Laboratory 0 (4) Non-credit laboratory to accompany GEOL 3600. Coreq: GEOL 3600.

GEOL 3700 Western United States Field Study 3 (1) Field excursion to a geologic region in the western United States. Students visit sites where the stratigraphy and structure are well exposed, studying a variety of landforms and the geologic processes responsible for their formation. Pre-trip sessions are held on campus. Additional fees are required. May be repeated for a maximum of six credits. Prq: GEOL 1010. Coreq: GEOL 3701.

GEOL 3701 Western United States Field Study Laboratory 0 (4) Non-credit laboratory to accompany GEOL 3700. Coreq: GEOL 3700.

GEOL 3750 Bahamian Field Study 3 (1) Students develop an understanding of Bahamian geology, culture, and social structure (including the influences of historical context and natural environments). Students stay one week on Andros Island in the Bahamas, traveling by van and boat to various sites. Additional fees are required. Includes Honors sections. Prq: At least Junior standing. Coreq: GEOL 3750.

GEOL 3751 Bahamian Field Study Laboratory 0 (4) Non-credit laboratory to accompany GEOL 3750. Coreq: GEOL 3750.

GEOL 3910 Research Methods I 2 (2) Required group learning and research experience for Geology majors (open to others with consent of instructor). Introduction to problem solving through case studies and interdisciplinary team approaches. Focus is on, but not limited to, research methods in geology. Social and ethical contexts, communication skills, and professional development are incorporated. Prq or concurrent enrollment: GEOL 2910.

GEOL 3920 Research Methods II 2 (2) Required group learning and research experience for Geology majors (open to others with consent of instructor). Introduction to problem solving through case studies and interdisciplinary team approaches. Focus is on, but not limited to, research methods in geology. Social and ethical contexts, communication skills, and professional development are incorporated. Prq: GEOL 3910. Prq or concurrent enrollment: GEOL 2910.

GEOL 4030* Invertebrate Paleontology 3 (2) Study of life of past geologic ages as shown by fossilized remains of ancient animals, with emphasis on the invertebrates. Prq: GEOL 1020. Coreq: GEOL 4031.

GEOL 4031* Invertebrate Paleontology Laboratory 0 (3) Non-credit laboratory to accompany GEOL 4030. Coreq: GEOL 4030.

GEOL 4050* Surficial Geology 4 (3) Study of surface features of the earth and the processes that produce them. Analysis of landforms including their form, nature, origin, development, and rates and patterns of change. Laboratory studies emphasize terrain analysis and the mechanics of surficial geological processes. Prq: GEOL 1020 and GEOL 3000. Coreq: GEOL 4051.

GEOL 4051* Surficial Geology Laboratory 0 (3) Non-credit laboratory to accompany GEOL 4050. Coreq: GEOL 4050.

GEOL 4090* Environmental and Exploration Geophysics 4 (3) Students develop an understanding of the principles and methods used to acquire, analyze, and interpret geophysical data. Emphasis on seismic/radar, gravimetric, and electromagnetic methods. Applications to hydrogeology, environmental engineering and science, soil science, contaminant transport and remediation, near surface geology, geotechnical problems, oil and gas exploration, and carbon sequestration. Includes Honors sections. Prq: At least Junior standing. Coreq: GEOL 4090.

GEOL 4091* Environmental and Exploration Geophysics Laboratory 0 (3) Non-credit laboratory to accompany GEOL 4090. Coreq: GEOL 4090.

GEOL 4110 Research Projects 1-3 (1-3) Field, laboratory, or library study of an approved topic in geology. Topic would be one not normally covered in formal courses, but may be an extension of a course taught either semester. May be repeated for a maximum of six credits. Includes Honors sections. Prq: Consent of instructor.

GEOL 4110* Stratigraphy 3 (2) Analysis of stratified rocks as the repository of earth history and the conceptual framework used to synthesize the world geologic record as a coherent whole. Emphasizes not only traditional lithostratigraphy but also modern seismic stratigraphy, biostratigraphy, magnetostratigraphy, and current stratigraphic issues. Prq: GEOL 3140. Coreq: GEOL 4131.

GEOL 4131* Stratigraphy Laboratory 0 (2) Non-credit laboratory to accompany GEOL 4130. Coreq: GEOL 4130.

GEOL 4151 Analysis of Geological Processes Laboratory 0 (3) Non-credit laboratory to accompany GEOL 4150. Coreq: GEOL 4150.

GEOL 4210* GIS Applications in Geology 3 (1) Introduction to geographic information systems with applications to current geological and hydrological problems. Topics include the use of global positioning systems, spatial analysis, and image analysis. Hands-on training with geographic information systems software and techniques is covered in lab. Prq: At least Junior standing. Coreq: GEOL 4211.

GEOL 4211* GIS Applications in Geology Laboratory 0 (4) Non-credit laboratory to accompany GEOL 4210. Coreq: GEOL 4210.

GEOL 4510* Selected Topics in Hydrogeology 1-4 (1-3) Selected topics in hydrogeology emphasizing new developments in the field. May be repeated for a maximum of six credits, but only if different topics are covered. Prq: Consent of instructor. Coreq: GEOL 4511.

GEOL 4511* Selected Topics in Hydrogeology Laboratory 0 (1-3) Non-credit laboratory to accompany GEOL 4510. Coreq: GEOL 4510.

GEOL 4590* Biogeochemistry 3 (3) Examines how biology directs mass and energy transfer between the lithosphere, biosphere, hydrosphere, and atmosphere. Scale of examination ranges from molecular to global. Topics include element cycling, the mineral-microbe/plant interface, biomineralization, and biogeochemical applications to bioremediation, ecology, environmental toxicology, and biotechnology. Prq: GEOL 3180; and CH 2010 or CH 2230.

GEOL 4750 Summer Geology Field Camp 6 (10) Introduction to field techniques emphasizing methods applied to hydrogeology. Includes description and mapping of hydrogeologic units and structures using outcrop data and lithologic and geophysical well logs. Also covers construction of potentiometric maps from water level data, performance of pumping tests on mapped aquifers, and analysis of data to determine aquifer characteristics. Prq: GEOL 2050 and GEOL 3020.

GEOL (ETOX, PES) 4850* Groundwater and Contaminant Transport 3 (3) Basic principles of groundwater hydrology and transport of contaminants in groundwater systems; groundwater system characteristics; steady and transient flow; well hydraulics, design, and testing; contaminant sources, movement and transformations. May also be offered as CE 4820. Prq: Junior standing in the College of Engineering and Science and GEOL 1010.

GEOL (ETOX, PES) 4850* Environmental Soil Chemistry 3 (3) Study of soil chemical processes (sorption, desorption, ion exchange, precipitation, dissolution, and redox reactions) of nutrients and inorganic and organic contaminants in soils and organic matter. Chemical complex equilibria and adsorption phenomena at the solid (soil, sediment, and mineral) water interface are emphasized. May also be offered as ETOX 4850 or PES 4850. Prq: CH 1020 or PES 2020.
GEOL 4910 Research Synthesis I 3 (2) Required capstone group learning and research experience for Geology majors (open to others with consent of instructor). Involves synthesis of applied geology and other approaches for problem solving through collaborative teams. Course is the culmination of a sequence of case studies incorporating social and ethical contexts, communication skills, and professional development. Coreq: GEOL 4911.

GEOL 4911 Research Synthesis I Laboratory 0 (3) Noncredit laboratory to accompany GEOL 4910. Coreq: GEOL 4910.

GEOL 4920 Research Synthesis II 3 (2) Required capstone group learning and research experience for Geology majors (open to others with consent of instructor). Involves synthesis of applied geology and other approaches for problem solving through collaborative teams. Course is the culmination of a sequence of case studies incorporating social and ethical contexts, communication skills, and professional development. Coreq: GEOL 4910. Coreq: GEOL 4921.

GEOL 4921 Research Synthesis II Laboratory 0 (3) Noncredit laboratory to accompany GEOL 4920. Coreq: GEOL 4920.

GERMAN

Professor: G.J. Love; Associate Professor: J. Schmidt; Assistant Professor: G. Stoica; Lecturers: L. Ferrell, H. King

GER 1010 Elementary German 4 3 (3) Course for beginners in which, through conversation, composition, and dictation, the fundamentals of the language are taught and a foundation is provided for further study and the eventual ability to read and speak the language. Three hours a week of classroom instruction and one hour a week in the language laboratory. Coreq: GER 1011.

GER 1011 Elementary German Laboratory 0 (1) Noncredit laboratory to accompany GER 1010. Coreq: GER 1010.

GER 1020 Elementary German 4 3 (3) Continuation of GER 1010; three hours a week of classroom instruction and one hour a week in the language laboratory. Coreq: GER 1021.

GER 1021 Elementary German Laboratory 0 (1) Noncredit laboratory to accompany GER 1020. Coreq: GER 1020.

GER 1040 Basic German 4 3 (3) Intensive one-semester program combining GER 1010 and 1020 for students who have previously studied German. Includes fundamentals of grammar and vocabulary as a foundation for written and oral proficiency. Coreq: GER 1041.

GER 1041 Basic German Laboratory 0 (1) Noncredit laboratory to accompany GER 1040. Coreq: GER 1040.

GER 1510 German for Graduate Students 3 (3) Intensive program only for graduate students preparing for the reading examination in German. A minimum grade of B on a final examination will satisfy graduate school foreign language requirement. May be repeated once for credit. To be taken Pass/No Pass only. Prq: Graduate standing.

GER 2600 Selected Topics in German Literature 3 (3) Study of significant aspects of German literature. Conducted in English.

GER 2970 Creative Inquiry—German 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration. Prq: Consent of faculty member.

GER 2990 Foreign Language Drama Laboratory 1 (1) Participation in foreign language drama productions. No formal class meetings, but an average of three hours per week in the foreign language drama workshop for production. May be repeated for a maximum of three credits. Prq: Consent of instructor directing the play.

GER 3050 German Conversation and Composition 3 (3) Training in spoken and written German emphasizing vocabulary acquisition, oral and written communication strategies, appropriate linguistic formulations for specific cultural contexts, and ethics. Prq: GER 2020.

GER 3060 German Short Story 3 (3) Examines the Austrian, German, and Swiss short story as a distinct literary genre that flourished particularly after 1945. Provides ample conversation and composition practice, as well as an introduction to principles of literary prose analysis. Prq: GER 2020.

GER 3100 Summer Immersion Program 6 (6) Conducted entirely in German for eight hours daily. Program consists of activities that combine interrelating cultural topics with language skill practice. Frequent opportunities to converse with native speakers during meals and on excursions. Students receive six credits, three of which may be taken in lieu of GER 2020. Prq: GER 2010.

GER 3160 German for International Trade I 3 (3) Spoken and written German common to the German-speaking world of business and industry emphasizing business practices and writing and translating business letters and professional reports. Cross-cultural references provide opportunity for comparative and contrasting analysis of American and German cultural patterns in a business setting. Prq: GER 2020. Prq or concurrent enrollment: GER 3050.

GER 3200 German Culture 3 (3) Examines the cultures of German-speaking nations from their origins to the present. Emphasizes the Federal Republic of Germany both before and after the German unification of 1990. Prq: GER 2020.

GER 3600 German Literature to 1832 3 (3) Examines selected topics in German literature from the Middle Ages to 1832. Readings may include works by Lessing, Goethe, Schiller, and the Romantics. Prq or concurrent enrollment: GER 3050 or GER 3060.

GER 3610 German Literature from 1832 to Modernism 3 (3) Examines drama, poetry, and prose from the Biedermeier period through naturalism and realism to the advent of modernism. Prq: GER 3050 or GER 3060.

GER 3690 Special Topics in German Literature 3 (3) Study of a significant aspect of German literature. May be repeated for a maximum of six credits, but only if different topics are covered. Prq: GER 3050 or GER 3060.

GER 3970 Creative Inquiry—German 1-4 (1-4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

GER 3980 Directed Reading 1-3 (1-3) Directed study of selected topics in German literature, language, and culture. May be repeated for a maximum of six credits. Prq: Consent of department chair.

GER 4050 Advanced Contemporary German Language 3 (3) Advanced study of spoken and written contemporary German based on modern autobiographical texts, eyewitness accounts of recent historical events, and media coverage of current events. Employs Internet, print and audio texts, TV programs, and photo series. Prq: One 300-level German course.

GER 4160 German for International Trade II 3 (3) Study of language and cultural environment of the German-speaking markets of the world, including linguistic and cultural idioms that support global marketing in general and the international marketing of textiles, agricultural products, and tourism in particular. Prq: GER 3160.

GER 4170 Topics in German for International Trade 3 (3) Examination and analysis of selected topics related to the business culture and economy of Germany, Austria, Switzerland, the European Union, or the European Free Trade Association. Topics may include the reconstruction of Eastern Germany’s economy, the expansion of the European Union, or current events of economic importance. May be repeated for a maximum of six credits, but only if different topics are covered. Prq: One 300-level German course.

GER 4500 Advanced Studies in German Drama 3 (3) Extensive study of a major theme or aspect of German drama. May include recorded live performances, stage design, theatre architecture, and the music and art of the theatre. Prq: GER 3050 or GER 3060.
Courses of Instruction

GER 4550 German Film 3 (2) Overview of German cinema including the expressionist classics of the Weimar Republic, entertainment and documentary movies of the Nazi era, classics of the postwar New German Wave (West Germany), distinctive East German films, and vanguard contemporary films. Preq: GER 3050 or GER 3060. Coreq: GER 4551. GER 4551 German Film Laboratory 0 (3) Non-credit laboratory to accompany GER 4550. Coreq: GER 4550.

GER 4600 Modernism in German Literature 3 (3) Study of major works of German literature and culture in the modernist era (1888-1933). May include drama, music, philosophy, and the plastic arts. Preq: GER 3050 or GER 3060.

GER 4610 German Literature Since 1933 3 (3) Study of selected authors, texts, or genres in contemporary German literature. Preq: GER 3050 or GER 3060.

GER 4750 Advanced German Seminar 3 (3) Concentrated research and discussion on advanced topics, works, or texts in German literature, film, art, drama, music, or philosophy. Conducted in German. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: One 4000-level German course.

GER 4760 Advanced Seminar in German Thought 3 (3) Concentrated research and discussion on advanced topics, works or texts in German literature, film, art, drama, music or philosophy. Conducted in English. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Senior standing.

GER 4970 Creative Inquiry—German 1-4 (1-4) Continuation of research initiated in GER 3970. Students complete their project and disseminate their research results. Preq: GER 3970.

GER 4980 Independent Study 1-3 (1-3) Supervised study of selected topics in German literature, language, or culture. May be repeated for a maximum of six credits. Preq: Consent of department.

GREAT WORKS

GW (ENGL) 3010 Great Books of the Western World 3 (3) Introduces Great Works minor. Includes readings about the Great Books concept, as well as various great books from the humanities, arts and natural and social sciences. Includes Honors sections. May also be offered as ENG 3010. Preq: ENG 2120 or ENG 2130 or ENG 2140 or ENGL 2150.

GW 4020 Great Works of Science 3 (3) Understanding of science in terms of its history and its approach to problem-solving through study of selected great works. Emphasis is on developing students’ abilities to reflect on the problems and methodologies encountered in the scientific method. Includes Honors sections.

GW 4030 Special Topics in Continental Literature 3 (3) Important primary texts written in modern European languages are taught in English. Content varies according to instructor. Includes Honors sections. Preq: ENG 2120 or ENG 2130 or ENG 2140 or ENGL 2150.

GW 4050 The Darwinian Revolution 3 (3) Examination of Charles Darwin’s The Origin of Species and its cultural impact from his time to ours. Topics include the contemporaneous reception of Darwin’s work, the Scopes Monkey Trial, and more recent controversies over Creationism and Intelligent Design. Includes Honors sections. Preq: ENG 2120 or ENG 2130 or ENG 2140 or ENGL 2150.

HEALTH CARE GENETICS

HCG (NURS) 3330 Health Care Genetics 3 (3) Focuses on the new genetics and the implications for health care professionals. Discussion includes applications of the evolving genetics technology and services to changing life stages. Issues of ethics relevant to various genetic disorders is also addressed. May also be offered as NURS 3330. Preq: BIOL 2220.

HEALTH, EDUCATION, AND HUMAN DEVELOPMENT

HEHD 1990 Creative Inquiry I 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue a first phase of scholarly activities in teams. These creative inquiry projects may be discipline-specific or interdisciplinary in nature. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Consent of instructor.

HEHD 2990 Creative Inquiry II 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue a second phase of scholarly activities in teams. These creative inquiry projects may be discipline-specific or interdisciplinary in nature. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Sophomore standing, consent of instructor.

HEHD 3990 Creative Inquiry III 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue a third phase of scholarly activities in teams. These creative inquiry projects may be discipline-specific or interdisciplinary in nature. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Junior standing, consent of instructor.

HEHD 4000 Creative Inquiry IV 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue a fourth phase of scholarly activities in teams. These creative inquiry projects may be discipline-specific or interdisciplinary in nature. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Preq: Senior standing and consent of instructor.

HISTORY

HIST 1010 History of the United States 3 (3) Political, economic, and social development of the American people from the period of discovery to the end of Reconstruction. Includes Honors sections.

HIST 1020 History of the United States 3 (3) Political, economic, and social development of the American people from the end of Reconstruction to the present. Includes Honors sections.

HIST 1220 History, Technology, and Society 3 (3) Topics in the history of technology with emphasis on how technology affects society and how society shapes technology. Emphasis is on 19th and 20th century America, but some material from other periods of Western Civilization and other world regions may be discussed. Includes Honors sections.
HIST 1240 Environmental History Survey 3 (3)
Introduction to environmental history, in the United States and globally, with emphasis on changing attitudes toward the environment and the interaction between science and public policy. Includes Honors sections.

HIST 1720 The West and the World I 3 (3)
Examines the history of the West from early times until 1648. After a comparative evaluation of the emergence of civilization around the globe, course concentrates on the history of the peoples of Europe up to the age of European exploration and overseas expansion. Includes Honors sections.

HIST 1730 The West and the World II 3 (3)
Surveys the history of the West in modern times, from the late 17th century to the present. Particular emphasis is placed on Europe’s interaction with non-western societies. Through cross-cultural comparisons, European history is placed in global context. Includes Honors sections.

HIST 1930 Modern World History 3 (3)
Political, economic, social, and cultural history of the modern world from the 19th century to the present.

HIST 1980 Current History 1 (1)
Exposes students to the works of the media emphasizing their historical context and possible range significance. May be repeated for a maximum of three credits. Does not count toward the requirements of the major or minor in History.

HIST 2000 Fort Hill Internship 1-3 (1-3)
Provides practical experience in public history museum work and/ or historical preservation in the setting of Fort Hill. May be repeated for a maximum of three credits. To be taken Pass/No Pass only. Prereq: Consent of internship director.

HIST 2010 Pre-Law Internship 1-3 (1-3)
Faculty-supervised internship in a law firm or other legal setting. Introduces students to the workings of the legal system. To be taken Pass/No Pass only. Prereq: History major and sophomore standing.

HIST 2020 Internship 1-3 (1-3)
Exposes History majors to hands-on experience in research projects, public presentation of historical scholarship, or internships. May include working with faculty on research projects, in museums or historical organizations, or at sites. May be repeated for a maximum of three credits. To be taken Pass/No Pass only. Prereq: Sophomore standing.

HIST 2890 Creative Inquiry--History 1-4 (1-4)
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of nine credits. Prereq: Consent of faculty member/mentor.

HIST 2990 Seminar: The Historians Craft 4 (3)
Writing and speaking intensive course to introduce History majors to study of what history is and what a historian does, including historiography, research techniques, ethics of the historical profession, and forms of presentation. Prereq: History major. Coreq: HIST 2991.

HIST 2991 Seminar: The Historians Craft Laboratory 0 (2)
Non-credit laboratory to accompany HIST 2990. Coreq: HIST 2990.
HIST 3280 United States Legal History to 1890
3 (3) Survey of the American legal system in its historical perspective from Colonial times to 1890. Emphasizes the relationship between law and society, the way in which the practice of law changed American society, and the way in which social development affected both the theory and practice of the law.

HIST 3290 United States Legal History Since 1890
3 (3) Examination of the social, cultural, intellectual, economic, and political forces that have helped shape the law in the U.S. since 1890.

HIST 3300 History of Modern China
3 (3) Growth and development of Chinese civilization from ancient times to the present. Emphasis is on 20th century China, particularly since the rise to power of the Communist regime.

HIST 3310 History of Modern Japan
3 (3) Origin and development of Japanese civilization with particular emphasis on modern Japan from mid-19th century to the present.

HIST 3340 Premodern East Asia
3 (3) Introduction to histories of China and Japan, from antiquity to approximately 1850. Political, religious, artistic, and other aspects of premodern society are examined and compared in order to gain significant insights regarding the premodern antecedents of these two dynamic and important nations.

HIST 3370 History of South Africa
3 (3) Examines the important trends in the history of South Africa from earliest times to the present. Topics include nature of precolonial society, European immigration, rise of industrial capitalism, advent of Apartheid, and the liberation struggle.

HIST 3380 African History to 1875
3 (3) Study of sub-Saharan Africa from antiquity to European colonial rule, exploring the development of Stone Age cultures; agricultural and pastoral societies; ancient civilizations; political, economic, and social systems; gradual shift of initiative from the interior to the coast; and various slave trades.

HIST 3390 Modern Africa, 1875 to the Present
3 (3) Study of sub-Saharan Africa from 1875 to the present, with focus on the development and decline of European imperialism, dilemmas of African independence, and ethnic struggles in Southern Africa.

HIST 3400 Latin America: From Conquest to Independence
3 (3) Examination of the encounters, collaborations, and clashes that characterized the conquest period and beyond in Latin America. Readings are assigned regarding the spiritual, biological, social, and political consequences of the meeting of Indians, Africans, and Europeans. Historical sources include images, artwork, letters, and memoirs.

HIST 3410 Modern Mexico
3 (3) Introduction to the geography of the region; origins and progress of the Independence movements; political, economic, and social developments after 1825; and current domestic and international problems.

HIST 3420 South America Since 1800
3 (3) Introduction to the geography of the region; origins and progress of the Independence movements; political, economic, and social developments after 1825; and current domestic and international problems.

HIST (REL) 3510 Ancient Near East
3 (3) History of the peoples and civilizations of the Near East from the Sumerians to the establishment of Roman power in this region. Includes geography, mythology, religious, and economic currents as well as the methods and discoveries of archaeology. May also be offered as REL 3310.

HIST 3520 Egypt in the Days of the Pharaohs
3 (3) Egyptian civilization from its beginning until the period of Roman conquest. Includes a survey of political history but also deals with daily life, making much use of archaeological evidence.

HIST 3530 Women in Antiquity
3 (3) Focuses on women in the ancient period in Mesopotamia, Israel, Egypt, Greece, Rome, and in the early Christian Church. Formation of gender roles and issues related to ancient sexuality also receive attention.

HIST 3540 The Greek World
3 (3) Study of Greek civilization from its beginning until the time of the Roman conquest, concentrating on the social institutions of the Greek city-states.

HIST 3550 The Roman World
3 (3) Considers the rise of Rome to world empire and the international civilization it dominated. Concentrates on the nature of the political change from Republic to monarchy with particular emphasis on city life and the causes of its decline.

HIST 3610 History of Britain to 1688
3 (3) Study of historical developments in the British Isles through the 17th century. Focus is on political institutions, warfare, social, economic trends, and cultural and legal developments.

HIST 3630 Britain since 1688
3 (3) Study of political, cultural, social, economic, and imperial issues in the history of the British Isles from the late 17th century to the present. Includes Honors sections.

HIST 3650 British Cultural History
3 (3) Examination of topics in British cultural history from the 19th century to the present. Emphasizes the 19th and 20th centuries.

HIST 3670 Modern Irish History
3 (3) Examines Irish history over the past four centuries, with particular attention to the 19th and 20th centuries. Irish political, social, economic, and cultural history, Anglo-Irish relations, and the Irish diaspora are considered.

HIST 3700 Medieval History
3 (3) Survey of the period from the eclipse of Rome to the advent of the Renaissance, emphasizing human migrations, feudalism, rise of towns, and cultural life.

HIST 3720 The Renaissance
3 (3) Examination of the transitional period of European civilization (ca. 1300–1500) emphasizing institutional, cultural, and intellectual developments.

HIST (REL) 3730 Age of the Protestant Reformation
3 (3) Evolution of Modern Europe (ca. 1500–1660), as affected by the Reformation, wars of religion, and growth of nation-states. Study includes intellectual advances and the beginnings of European expansion overseas. May also be offered as REL 3730.

HIST 3740 Europe in the Age of Reason
3 (3) Study of the quest for order and the consolidation of the European state system between 1660 and 1789 with emphasis on the idea of absolutism, the question of French hegemony, and the synthesis of the 18th-century Enlightenment.

HIST 3750 Revolutionary Europe
3 (3) History of Europe from the outbreak of the French Revolution through the Revolutions of 1848 emphasizing the conflict between the forces of change and those of conservatism, within the states and in Europe in general.

HIST 3770 Europe, 1914–1945
3 (3) Focuses on Europe during two major wars and the peacetime adjustments Europeans made, or failed to make, during the twenty-year interim between those wars.

HIST 3780 Europe Since 1945
3 (3) Focuses on how World War II completed the destruction of European global hegemony, creating a bipolar continent with the west dominated by the United States and the east by Soviet Russia, and how Europe adjusted to this situation.

HIST 3800 Imperial Germany
3 (3) German history from the beginning of the German Empire, 1870–71, through World War I. Emphasizes the influence of militarism, nationalism, anti-Semitism, and xenophobia on the German culture and political process.

HIST 3810 German History since 1918
3 (3) German history from the time of Germany’s defeat in World War I through the Nazi period and World War II. Concludes with the study of a divided Germany.

HIST 3840 History of Modern France
3 (3) French history from mid-19th century to the present with particular emphasis on France since 1900.

HIST 3850 History of Imperial Russia
3 (3) Survey of the formative years of the Russian Empire from the time of accession of Peter the Great to the time of the Russian Revolution. Social, political, diplomatic, and intellectual developments are given equal treatment.

HIST 3860 History of the Soviet Union
3 (3) Soviet history from the revolution to 1991. Surveys the creation and subsequent development of the communist political and social system, with attention given to culture and diplomacy.

HIST 3870 The Russian Revolution
3 (3) History of one of the most formative series of events of the 20th century. Follows the crisis of Imperial Russia, its downfall during World War I, and subsequent revolutionary upheaval leading to the formation of the USSR.

HIST 3890 Creative Inquiry—History I
1-4 (1-4)
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of nine credits. Preq: Consent of faculty member/mentor.

HIST 3900 Modern Military History
3 (3) Survey of the development of modern warfare and the influence of technological change on warfare. Particular attention is given to the major conflicts of the 20th and 21st centuries.

HIST 3910 Post World War II World
3 (3) Examines the world in the age of the Cold War; the breakdown of the colonial empires; and racial, religious, ethnic, national, and social tensions. The United States provides the central core to the class.
HIST 3920 History of the Environment of the United States 3 (3) Examination of the historical development of the attitudes, institutions, laws, people, and consequences that have affected the environment of the United States from pre-Columbian days until the present. Emphasizes the interaction of human beings within and with the environment.

HIST 3930 Sports in the Modern World 3 (3) Analysis of the global evolution and diffusion of sports in the industrial age emphasizing the linkage of sports structure and performance to the larger social context.

HIST 3940 Non-Western History 3 (3) Examines the role of the cinema in the construction and dissemination of history. May be repeated once for credit with departmental consent. Coreq: HIST 4201.

HIST 4000* Studies in United States History 3 (3) Particular emphasis on contemporary issues. May be repeated once for credit with departmental consent. Includes Honors sections.

HIST 4050 Civil Rights History 3 (3) Examines the development of American civil rights from the creation of the Constitution through the present. Emphasis is on the legal struggle of African Americans for civil rights, but how other groups fought for rights in the courts is also considered.

HIST 4060 The Middle East to 1800 3 (3) Examines the histories, cultures, and societies of the Middle East from the rise of Islam in the seventh century to the eve of European colonial penetration.

HIST 4070 Modern Middle East 3 (3) Examines the histories, cultures, and societies of the Middle East from the 18th century to the present day with particular emphasis on contemporary issues.

HIST 4090 Kennedy Assassination and Watergate 3 (3) Journey into the underbelly that examines the diverse elements of national security, divisive politics, the Cold War and Cuba, FBI, CIA, mob, fanaticism, anomic, and threats to the survivability of the republic that seem to have come together in Dallas in 1963 and in Watergate. Prereq: Any 3000-level history course.

HIST 4140 Introduction to the Study of History 3 (3) An introduction to the field of museology, covering the history, philosophy, and ethics of the profession; various types of museums, and different aspects of museum work; the museum’s role in the community; and the effects of philanthropy and government on museums. Prereq: Any 3000-level history course.

HIST 4150* Introduction to Digital Methods for History 3 (3) Introduces students to the philosophy and practice of digital methods for historical research and communication. Includes the use of new media by public historians to enhance their archival/museum/center’s visibility with the general public. Prereq: Any 3000-level history course.

HIST 4170* History and Tourism 3 (3) Introduces students to important scholarship in the heritage tourism field. Examines the origins and objectives of heritage tourism, and case studies of how professionals employ heritage tourism. Prereq: Any 3000-level history course.

HIST 4180* Oral History and Local History 3 (3) Introduces students to the most recent work in oral history and methodology with a focus on the history of the Upstate and Appalachia from the colonial era to the present. Students engage in their own local oral history project and produce a research paper based on their findings. Prereq: Any 3000-level history course.

HIST 4200* History and Film 3 (2) Analyzes the role of films in the construction and dissemination of history. May be repeated once for credit with departmental consent. Coreq: HIST 4201.

HIST 4250* History and Film Laboratory 0 (3) Non-credit laboratory to accompany HIST 4200. Coreq: HIST 4200.

HIST 4240 Topics in History of Medicine and Health 3 (3) Selected topics in the development of medicine and health care including public attitudes towards health and medicine.

HIST 4360* The Vietnam Wars 3 (3) Wars in Vietnam are seen in two phases. The First Indochina War, 1946-54, is covered briefly. Main body of the course covers the Second Indochina War, which began as a guerrilla conflict in 1959-60 and ended as a mostly conventional war in the Communist victory of 1975.

HIST 4380* Problems in African Historiography and Methodology 3 (3) Concentrates on major issues in the field of African history with an additional focus on methodological concerns. May be repeated once for credit with departmental consent.

HIST 4400* Studies in Latin American History 3 (3) Consideration of selected and varied topics in Latin American history including readings, discussions, and individual group projects. Special attention is given to the use of an inquiry or problem-solving method of historical analysis and to the cultivation of a comparative perspective. May be repeated once for credit with departmental consent.

HIST 4500* Studies in Ancient History 3 (3) Selected topics in ancient history ranging from pre-Biblical times to the fall of the Roman Empire. May be repeated once for credit with departmental consent.

HIST 4510* Alexander the Great 3 (3) Focuses on the career of Alexander the Great and deals with the history and archaeology of ancient Macedonia. Prereq: Any 3000-level history course.

HIST 4520* History of Early Christianity 3 (3) Study of the history, social and doctrinal, of early Christianity up to 600 A.D. May also be offered as REL 4520.

HIST 4600* Studies in British History 3 (3) Examination of selected themes, topics, or periods in British history from Anglo-Saxon times to the present. May be repeated once for credit with departmental consent. Includes Honors sections.

HIST 4700* Studies in Early European History 3 (3) Study of selected topics or themes in European history from the fall of the Roman Empire to the age of industrialization. May be repeated once for credit with departmental consent.

HIST 4710* Studies in Modern European History 3 (3) Study of selected topics or problems in European history from the end of the Old Regime to the present. May be repeated once for credit with departmental consent. Includes Honors sections.

HIST 4720* Medieval Conquests and Crusades 3 (3) Focuses on medieval conquests with particular emphasis on the era of the crusades. Investigates the origins and historical significance of the crusades from both Christian and Muslim perspectives, and examines crusader societies at home and abroad. Explores other medieval colonization movements and religious justifications for warfare outside the Holy Land.

HIST 4800 Museum Practicum 3 (3) Introduces critical issues and museum theoretical perspectives affecting museum curators and other museum professionals. Students integrate theory with practical experience in public history realm as they work with museum professionals. Prereq: HIST 4140.

HIST 4850* World War II and the World 3 (3) World War II was a catalyst of the twentieth century that touched every part of the globe and ushered into the atomic age. This course examines the war from its origins in the aftermath of World War I to the war crimes trials and the dawn of the Cold War. Prereq: Any 3000-level history course.

HIST 4880 Studies in Middle East History 3(3) Examination of selected themes and topics in the history of the Middle East. May be repeated for a maximum of six credits with departmental consent.

HIST 4900 Senior Seminar 3 (3) Seminar in current research themes in history. Students conduct directed research on a particular topic and learn research, writing, and oral presentation techniques. Seminar topics vary from section to section and from semester to semester. Prereq: History major and Senior standing and HIST 2990 with a C- or better.

HIST 4910* Studies in the History of Science and Technology 3 (3) Selected topics in the development of science and technology emphasizing their social, political, and economic effects. May be repeated once for credit with departmental consent. Includes Honors sections.

HIST 4920* Studies in Diplomatic History 3 (3) Selected topics and problems in international conflict and conflict resolution among nations. Concentration is usually in 20th century history. May be repeated once for credit with departmental consent.

HIST 4930* Studies in Social History 3 (3) Studies in the ways people have earned their livings and lived their lives, individually and as communities, in the confines of different societies. May be repeated once for credit with departmental consent.

HIST 4940* Studies in Comparative History 3 (3) Selected topics in comparative history, contrasting and comparing similar historic developments in different nations, geographic areas, or civilizations. May be repeated once for credit with departmental consent.

HIST 4950* Studies in the History of Ideas 3 (3) Selected topics and themes in the development of ideas that have had an impact on the behavior of individuals and civilizations. May be repeated once for credit with departmental consent.

HIST 4960* Studies in Legal History 3 (3) Study of selected problems in the development of law and the system of criminal and civil justice. May be repeated once for credit with departmental consent.
HIST 4970 Senior Honors Research 3 (3) Research for the preparation of senior honors thesis. Preq: Senior standing, completion of a 4000-level history course, approval of the History Department. May be repeated once for credit with departmental consent.

HIST 4980 Senior Honors Thesis 3 (3) Writing of the senior honors thesis. May be repeated once for credit with departmental consent. Preq: HIST 4970.

HIST 4990 Independent Study 1-3 (1-3) Study of selected problems in history under the direction of a faculty member chosen by the student. Student and faculty member develop a course of study designed for the individual student and approved by the department chair prior to registration. May be repeated once for credit with departmental consent. Preq: Consent of department chair.

HEALTH

HLTH 2020 Introduction to Public Health 3 (3) Examination of the forces that have influenced current health delivery systems, health practices, and trends. General systems theory is introduced. Health majors are given enrollment priority.

HLTH 2030 Overview of Health Care Systems 3 (3) Introduction to the health care delivery system including public health and health care components. Examines and discusses individual and public expectations of health care systems. Students review basic steps in the development of health communication messages and campaigns. May be repeated once for credit with departmental consent. Preq or concurrent enrollment: BIOL 2230.

HLTH 3150 Social Epidemiology 3 (3) Exploration of the current problems and issues associated with the health of population groups. The interrelationships of biological, sociocultural, behavioral, environmental, political, and economic risk factors and the health and illness patterns of those in population groups are examined. Preq: HLTH 2980 and HLTH 3800.

HLTH 3200 Health Maintenance for Men 3 (3) Exploration of specific health needs of men, with emphasis on understanding and preventing problems of men’s health. Health majors are given enrollment priority. Preq: Junior standing.

HLTH 3400 Health Program Planning 3 (3) Students develop skills to conduct community health needs assessments and to plan and evaluate theoretically grounded health promotion/intervention programs for diverse populations. Best practices for specific health behavior change interventions are identified. Preq: HLTH 2400 and HLTH 2980.

HLTH 3500 Medical Terminology and Communication 3 (3) Skills in building, analyzing, defining, pronouncing, and spelling medical terminology related to the human body are developed and applied through electronic communication. Preq: Junior standing.

HLTH (AGRB) 3610 Introduction to Health Care Economics 3 (3) Introductory course in which students learn the basic economics of the institutions comprising the health-care industry. Topics include the underlying supply, demand, and institutional factors impacting health-care availability and cost of health care. May also be offered as AGRB 3610.

HLTH 3800 Epidemiology 3 (3) Introduces epidemiological principles and methods used in the study of the origin, distribution, and control of disease. Health majors are given enrollment priority. Preq: STAT 2300 and at least one 2000-level HLTH course.

HLTH 3950 Honors Research Seminar 3 (3) Students review basic steps in the development of an honors research proposal and develop a draft of the proposal under the supervision of a faculty mentor. Students are also required to attend research presentations of senior departmental honors students. Preq: HLTH 3800 and Junior standing.

HLTH 3980 Health Appraisal Skills 1 (3) Utilizes laboratory experiences to measure health risk, interpret laboratory health data, and design personal health programs. Restricted to Health Science majors. Preq: HLTH 2980.

HLTH 4000 Selected Topics in Health 1-6 (3-18) Topics in health selected to meet special and individualized interests of students. May be repeated for a maximum of nine credits, but only if different topics are covered. Preq: Junior standing and consent of instructor.

HLTH 4010 Health Consumerism 3 (3) Exploration of consumer decisions regarding health products and services emphasizing strategies for decision making. Health majors are given enrollment priority. Preq: Junior standing.

HLTH 4020 Principles of Health Fitness 4 (3) Studies apply current theories concerning physiological effects of exercise to select populations; understand the relationship between exercise and various chronic diseases; and design, execute, and evaluate exercise programs in terms of safety and effectiveness. Students must be certified in CPR to enroll in this course. Preq: HLTH 3980. Preq or concurrent enrollment: BIOL 2230. Coreq: HLTH 4021.

HLTH 4021 Principles of Health Fitness Laboratory 0 (1) Non-credit laboratory to accompany HLTH 4020. Coreq: HLTH 4020.

HLTH 4100 Maternal and Child Health 3 (3) Focuses on key issues concerning the health status and needs of mothers and children. Topics include primary health care, measurement and indicators of health status, health of minorities, role of families, and major programmatic interventions towards the health needs of these two groups.

HLTH 4110 Health Needs of High Risk Children 3 (3) Analysis and evaluation of health needs of high-risk families and special needs children from the prenatal period to age six. Emphasizes health maintenance and early intervention strategies. Preq: HLTH 4100.

HLTH 4150 Public Health Issues in Obesity and Eating Disorders 3 (3) In-depth review of prevalence, risk factors, consequences, and treatments of obesity and other eating disorders. Focuses on the public health impact of cultural norms, prevention, and early intervention related to obesity and eating disorders. Preq: Junior standing in Health Science.

HLTH 4180 Professional Development for CVT 3 (3) Course addresses general academic and professional development requirements for students pursuing the Cardiovascular Imaging Leadership Concentration of the Health Science degree. Preq: Consent of instructor.

HLTH 4190 Health Science Internship Preparation Seminar 1 (1) Preparation for internship experience. Includes topics such as resumes, interviewing skills, internship agency selection, and responsibilities of student, department, and agency. Preq: Junior standing in Health Science and a minimum GPA of 2.0.

HLTH 4200 Health Science Internship 1-6 (1-6) Under supervision in an approved agency, students have an opportunity for on-the-job experiences. Students are placed in an agency and develop personal/professional goals and objectives appropriate to the setting, population, and health issues. Students create a comprehensive exit portfolio in a digital format. May be repeated for a maximum of six credits. Preq: HLTH 4190 and a minimum grade-point average of 2.0 and Junior standing in Health Science.
HLTH 4300* Health Promotion of the Aged 3 (3)
Focuses on analysis and evaluation of health issues and health problems of the aged. Emphasizes concepts of positive health behaviors. Health majors are given enrollment priority. Preq: HLTH 2980.

HLTH 4310 Public and Environmental Health 3 (3) Principles of environmental health emphasizing understanding various health concerns created by the interactions of people with their environment. Students evaluate the impact of environmental factors on public health policy decisions. Meets specific area of need in environmental health issues.

HLTH 4400 Managing Health Service Organizations 3 (3) Provides the conceptual and theoretical foundation of management and organizational theory of health service organizations. Focuses on the role of health services managers and how they modify and maintain organizations.

HLTH 4500* Applied Health Strategies 3 (3) Students plan, implement, and evaluate strategies to promote health through individual behavior changes. Both healthful and unhealthful behaviors are included. Examples include smoking cessation, weight management, and stress management. Preq: Health Science major.

HLTH 4600 Health Information Systems 3 (3) Focuses on the application of information systems to patient care and management support systems. Provides a general understanding of how the information needs of health professionals and health service organizations can be met through the proper acquisition, storage, analysis, retrieval, and presentation of data.

HLTH 4700 Global Health 3 (3) Deepens students’ knowledge of global health and how public health work is conducted internationally. Introduction to assessment of international health needs and designing, implementing, managing, and evaluating public health programs in international settings. Preq: HLTH 2980.

HLTH 4750 Principles of Health Care Organization, Management, and Research 3 (3) Provides a foundation in concepts, structure, and analysis that enables an understanding of the importance of production/operations management within health care organizations and systems. Includes training in operations research methods and objectives. Preq: Junior standing.

HLTH 4780 Health Policy Ethics and Law 3 (3) Critical examination of the legal and ethical dimensions of public health policy formation and change and how legal, ethical, and policy considerations influence health services administration and delivery. Health majors are given enrollment priority. Preq: HLTH 2020 and HLTH 2400 and HLTH 2980 and HLTH 3800.

HLTH 4900 Financial Management and Budgeting for Health Service Organizations 3 (3) Overview of basic principles of budgeting and financial management and analysis for health services organizations. Techniques for financial management are provided with an emphasis on health services environments. Preq: HLTH 4400.

HLTH 4950 Honors Thesis Seminar 3 (3) Senior honors thesis seminar in public health sciences. Independent research is conducted under the supervision and guidance of a faculty mentor for students enrolled in departmental honors program in support of an honors thesis/service learning research project. Preq: HLTH 3950 and Senior standing.

HLTH 4960 Honors Research Colloquium 1 (1) Students enrolled in departmental honors present independent research conducted under the supervision of a faculty member in a public research forum to other honors students and public health professionals and/or submit a paper or presentation based on this research for publication. Preq: HLTH 4950 and Senior standing.

HLTH 4970 Creative Inquiry—Public Health 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of 12 credits.

HLTH 4990 Independent Study 1-3 (1-3) Study of selected problems in health under the direction of faculty member chosen by the student. Student and faculty member develop a course of study designed for the individual student and approved by the department chair prior to registration. May be repeated for a maximum of six credits. Preq: Junior standing.

HONORS

HON 1900 Freshman Colloquium: Arts and Humanities (Non-Literature) (Honors) 3 (3) Intellectually intensive seminar that engages freshman honors students in dialogue about the idea of the University. Explores historical eras, intellectual and artistic movements, or cultures emphasizing multiple tools of analysis, including literature, art, music, and film. Topics vary. Preq: Membership in Calhoun Honors College.

HON 1920 Freshman Colloquium: Social Science (Honors) 3 (3) Intellectually intensive seminar that engages freshman honors students in dialogue about the idea of the University. Explores foundations and consequences of human thought and behavior at the individual and societal levels, with emphasis on concepts and tools that organize scholarly inquiry across the social and behavioral sciences. Topics vary. Preq: Membership in Calhoun Honors College.

HON 1930 Freshman Colloquium: Cross-Cultural Awareness (Honors) 3 (3) Intellectually intensive seminar that engages freshman honors students in dialogue about the idea of the University. Explores traditions, customs, and value systems of peoples and cultures. Examines concepts and tools that organize scholarly inquiry into world cultures emphasizing non-Western societies. Topics vary. Preq: Membership in Calhoun Honors College.

HON 1940 Freshman Colloquium Science and Technology in Society (Honors) 3 (3) Intellectually intensive seminar that engages honors students in dialogue about the idea of the University. Explores the interrelationships among the sciences and technology with society. Examines how science and technology are social enterprises and the impact of science and technology on attitudes, behaviors, and choices. Topics vary. Preq: Membership in Calhoun Honors College.

HON 2010 Structures and Society (Honors) 3 (3) Interdisciplinary honors seminar that examines selected structures regarded as monuments to artistic creativity and technological genius and the ways that structures affect and are affected by the societies that produce them. Preq: Membership in Calhoun Honors College.

HON 2020 Science, Culture, and Human Values (Honors) 3 (3) Interdisciplinary honors seminar that unifies natural scientific, social scientific, and humanistic disciplines into a holistic view of the modern world and its future. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 2030 Society, Art, and Humanities (Honors) 3 (3) Combines readings and methodologies from the social sciences, arts, and humanities to study the interrelationships among the disciplines and their societal effects. Subjects vary. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 2040 Honors Study/Travel 1 (3) Study/travel experience related to a three-credit Calhoun Honors Seminar. May be repeated for a maximum of three credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.
HON 2050 Current Issues (Honors) 1-3 (1-3)
Examination of a current issue or set of issues from a variety of academic perspectives. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 2060 Controversies in Science and Technology (Honors) 3 (3)
Interdisciplinary honors seminar that examines social issues related to science and technology, using perspectives from science, the social sciences, and humanities. May be repeated for a maximum six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 2070 Reasoning, Critical Thinking, and Problem Solving (Honors) 3 (3)
Interdisciplinary honors seminar that teaches a particular set of tools for thinking and analysis, showing how these tools can be applied to different kinds of problems in different disciplines. May be repeated for a maximum six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 2090 Border Crossings: Experiences in World Cultures (Honors) 1-3 (1-3)
Readings and studies that heighten understanding of world cultures and societies. Taken in conjunction with international educational experiences approved by Calhoun Honors College. May be repeated for a maximum of six credits, with a maximum of three credit hours per study abroad experience. Preq: Membership in Calhoun Honors College.

HON 2100 Experiencing the Arts (Honors) 3 (2)
Interdisciplinary exploration of the arts through seminar discussions and attendance at performing and visual arts events on campus. Exploration of arts and aesthetics leading to performance previews, reviews, and experiences of Brooks Center and Lee Gallery events. May be repeated for a maximum of nine credits. Preq: Membership in Calhoun Honors College. Coreq: HON 2101.

HON 2101 Experiencing the Arts (Honors) Laboratory 0 (3)
Non-credit laboratory to accompany HON 2100. Coreq: HON 2100.

HON 2200 Studies in Social Science (Honors) 3 (3)
Discipline specific social science seminar including a disciplinary introduction (anthropology, economics, history, political science, psychology or sociology) and a detailed examination of specific theories and methods within that discipline. May be repeated for a maximum of six credits, but only if different disciplines are covered. Preq: Membership in Calhoun Honors College.

HON 2210 Studies in Literature (Honors) 3 (3)
Introduction to selected authors and literary works focused around a specific topic. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 2220 Studies in Arts and Humanities (Honors) 3 (3)
Exploration of music, literature, film, philosophy or another area in humanities by examining a discipline specific topic. Focus may be on a particular scholar, era or culture idea or concept specific to a particular arts/humanities discipline. May be repeated for a maximum of six credits, but only if different disciplines are covered. Preq: Membership in Calhoun Honors College.

HON 2230 Studies in Communications (Honors) 3 (3)
Explores various topics in communications. Focus may be on a particular type of communication, medium or theory. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 2240 Global Issues (Honors) 3 (3)
Exploration of various global issues across time and space. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Membership in Calhoun Honors College.

HON 4000 Honors Contract 0 (0)
Advanced study and research taken in conjunction with any 3000- or 4000-level course. Contract requires prior approval by instructor and Honors Director. To be taken Pass/No Pass only. May be repeated once, but only if in conjunction with a different course. Preq: Membership in Calhoun Honors College.

HON 4010 Interdisciplinary Honors Independent Study 1 (1) Independent study taken in conjunction with another undergraduate course as part of the student’s approved interdisciplinary honors program. Preq: Membership in Calhoun Honors College.

HON 4990 Honors Research 1-12 (1-12)
Honors directed research in an academic discipline. Topics include, but are not limited to, literature review, research design and execution, and reporting of results. May be repeated for a maximum of 12 credits. Preq: Membership in Calhoun Honors College.

HORT 1010 Horticulture 3 (2)
Environmental factors and horticultural practices affecting optimum production of floral, fruit, ornamental, and vegetable crops. Includes a survey of the various areas of horticulture and their importance to society.

HORT 1020 Experience Horticulture 1 (3)
Students experience the art, science, business, and diversity of horticulture through visits to greenhouses, nurseries, botanical gardens, athletic fields, golf courses, orchards, farms, and research fields and laboratories. Students learn about horticulture from a cross section of professionals sharing their work experiences. Preq: Freshman or sophomore standing in Horticulture or Turfgrass.

HORT 2100 Turfgrass Culture Laboratory 0 (3)
Non-credit laboratory to accompany HORT 2100. Coreq: HORT 2101.

HORT 2101 Turfgrass Culture Laboratory 0 (3)
Non-credit laboratory to accompany HORT 2110. Coreq: HORT 2110.

HORT 2120 Introduction to Turfgrass Culture 3 (3)
Studies of the introductory principles associated with the art and science of turfgrass culture. Develops an understanding of the history and evolution of turfgrasses and turfgrass culture. Explores career potentials in turfgrass management. Explains the basic scientific principles and techniques associated with the propagation and establishment of fine turfgrasses. Preq: BIOL 1030 and BIOL 1040.

HORT 2130 Turfgrass Culture Laboratory 1 (2)
Provides hands-on activities and understanding of basic principles and techniques in turfgrass culture. Students learn all phases of turfgrass management including identification, turfgrass culture, common turfgrass pest identification and control. Preq or concurrent enrolment: HORT 2120.

HORT 2710 Internship 1-6 (1-6)
Preplanned, practical, supervised work experience to give beginning students on-the-job learning opportunities that support classroom experience. Students submit monthly reports and present a departmental internship seminar. Undergraduates may accumulate a maximum of six credits for participation in HORT 2710 and/or 4710. Preq: Consent of instructor.

HORT 3030 Landscape Plants 3 (2)
 Woody, ornamental plants and their aesthetic and functional uses in landscape developments. Study covers habit of growth, ultimate size, texture, effect, period of bloom, color, and cultural requirements. Coreq: HORT 3031.

HORT 3031 Landscape Plants Laboratory 0 (3)
Non-credit laboratory to accompany HORT 3030. Coreq: HORT 3030.

HORT 3040 Annuals and Perennials 3 (2)
Annual and perennial flowers’ aesthetic appeal and functional uses and needs. Color, texture, bloom time, form, size, and growth requirements as they relate to designing, planting, and maintaining colorful landscapes. Preq: HORT 2080 and HORT 3030. Coreq: HORT 3041.
HORT 3041 Annuals and Perennials Laboratory 0 (3) Non-credit laboratory to accompany HORT 3040. Coreq: HORT 3040.

HORT 3080 Sustainable Landscape Design, Installation and Maintenance 3 (3) Landscape planning of gardens using environmentally sensitive design, construction, and maintenance practices. Survey skills to obtain user perception and preference and environmental measurement skills are introduced. Offered fall semester only. Prq: HORT 1010.

HORT 3090 Sustainable Landscape Garden Design Laboratory 1 (3) Sustainable garden design including hand drawing, site assessment, client interview, user perception survey, plant selection, and professional presentation. Plant selection encourages establishing healthy ecosystems. Emphasis on interactions between design, installation, and maintenance phases. Prq or concurrent enrollment: HORT 3080.

HORT 3100 Growing Landscape Plants 3 (2) Principles, technologies, and techniques of landscape plant production and growth including environmental control and manipulation, water, nutrient and pest management, scheduling, propagation, and plant problem diagnostics. Emphasizes herbaceous ornamentals along with significant woody landscape plants. Prq: HORT 1010. Coreq: HORT 3101.

HORT 3101 Growing Landscape Plants Laboratory 0 (3) Non-credit laboratory to accompany HORT 3100. Coreq: HORT 3100.

HORT 4000 Selected Topics 1-6 (1-6) Advanced study of any aspect of horticulture and/or turfgrass not addressed in other courses. May be repeated for a maximum of six credits, but only if different topics are covered.

HORT 4040* Plant Propagation 3 (3) Practices of plant propagation from seeds, bulbs, divisions, layers, cuttings, grafting, and plant tissue culture are introduced. Physiological principles of propagation and seed biology, plant growth, regulators, source-sink relations, life cycles and developmental phases, transitions explain the practices. Environmental and economic contexts frame the preferred practices.

HORT 4050* Plant Propagation Techniques Laboratory 1 (1) Techniques of plant propagation, including sexual methods: germination, scarification, and stratification. Asexual methods, including grafting, budding, cuttings, layering, tissue culture divisions, and separations. Students visit local nurseries. Prq or concurrent enrollment: HORT 4040.

HORT 4080 Horticulture Discovery and Inquiry 1-3 (1-3) Students learn about horticulture through research, service learning, and/or creative inquiry projects. They explore a topic of interest with faculty, organize a quality proposal, complete the project, and report results to appropriate professional audiences. May be repeated for a maximum of nine credits.

HORT 4090 Senior Capstone Course 3 (3) Student cognitive, affective and psychomotor learning (skills) in the field of environmental horticulture is assessed using real world professional situations requiring the command, analysis and synthesis of knowledge and skills acquired during the undergraduate experience. Prq: Senior standing in Horticulture.

HORT 4120* Advanced Turfgrass Management 3 (2) Advanced principles and practices associated with turfgrass management for golf courses, sports fields, sod production, and commercial lawn care. Topics include turfgrass physiology, plant growth and development, construction, turfgrass nutrition, irrigation, drainage, pesticide use and fate, and development of effective management systems. Prq: PES 2020 or HORT 2120. Coreq: HORT 4121.

HORT 4121* Advanced Turfgrass Management Laboratory 0 (3) Non-credit laboratory to accompany HORT 4120. Coreq: HORT 4120.

HORT 4200* Applied Turfgrass Physiology 3 (3) Advanced course in turfgrass science and management. Provides the current status and development of turfgrass stress physiology and research. Main topics include temperature, drought, traffic, edaphic stresses, new developments in the turf industry and environmental stewardship. Prq: HORT 2120, and HORT 2130.

HORT (FOR) 4270* Urban Tree Care 3 (3) Principles, practices, and problems of protecting and maintaining trees in urban and recreational areas. Examines environmental and biological factors affecting trees in human-use areas, their management and cultural requirements, and the practices necessary to protect them and care as valuable assets in the landscape. May also be offered as FOR 4270. Prq: FOR 2050 or FOR 3030.

HORT (PES) 4330* Landscape and Turf Weed Management 3 (2) Weed management strategies that include cultural, biological, and chemical methods are studied for landscape and turfgrass areas. Problem-solving skills and herbicide characteristics are emphasized. May also be offered as PES 4330. Coreq: HORT 4331.

HORT (PES) 4331* Landscape and Turf Weed Management Laboratory 0 (2) Non-credit laboratory to accompany HORT 4330. May also be offered as PES 4331. Coreq: HORT 4330.

HORT 4550* Just Fruits 3 (3) Students explore the origins, biology, culture, and production of major temperate zone fruit–apples, berries, and cherries to pawpaws, peaches, and pomegranates, the familiar to the forbidden. They discover principles, practices, and technologies employed to grow, protect, and harvest the fruits that feed us from commercial orchards, organic farms, and backyards. Prq: HORT 1010.

HORT 4560* Vegetable Crops 3 (3) Introduction to vegetable production, value-added products and nutrition using a farm-to-table approach. Provides an overview of vegetable production (small to large scale), the links between agriculture and human health, and the concept of value addition. Attention is given to the nutritious, whole-food benefits of vegetables and how they are used to reduce global protein-, calorie- and micronutrient-malnutrition.

HORT 4610* Advanced Landscape Garden Design 4 (3) Garden design for urban or other highly visible locations. A specific specialty garden with environmental education potential will be designed. Finished plans include detailed planting, installation and maintenance, and communication. Emphasis is on establishing healthy plant communities, habitat linkages, and healthy water and soil. Includes Honors sections. Prq: HORT 3080 and HORT 3090, Coreq: HORT 4611.

HORT 4611* Advanced Landscape Garden Design Laboratory 0 (3) Non-credit laboratory to accompany HORT 4610. Coreq: HORT 4610.

HORT 4650* Plant Molecular Biology 3 (3) Study of fundamental plant processes at both the cellular and molecular levels. Topics include genome structure and organization (both nuclear and organelar); regulation of gene expression and its role in cellular and whole-plant processes; transposable genetic elements; applications for biotechnology. Prq: Junior standing; and GEN 3020; and either BIOL 3040 or BIOL 3050.

HORT 4710* Advanced Internship 1-6 (1-6) Prepared work experience under competent supervision in approved agency dealing with horticultural endeavors. Gives advanced students on-the-job learning opportunities to apply acquired knowledge and skills. Monthly reports and final departmental seminar required. Undergraduates may accumulate a maximum of six credits for participation in HORT 2710 and/or 4710. Prq: Junior standing.

HORT 4720* Landscapes + Health 3 (3) Explores the role of landscapes in human health and wellness. Historical healing places and contemporary urban environments are examined for evidence of psychological and physiological impacts. Readings include interdisciplinary research. Prq: Senior standing.

HUMANITIES
Professor: S.K. Eisminger; Associate Professor: A. Bennett

HUM 3010 Humanities 3 (3) Introduction to humanistic studies focusing on relationships among disciplines–painting, sculpture, architecture, music, literature, philosophy, and drama–beginning with prehistory and continuing to the Renaissance.

HUM 3020 Humanities 3 (3) Introduction to humanistic studies focusing on relationships among disciplines–painting, sculpture, architecture, music, literature, philosophy, and drama–beginning with the 17th century and continuing to the present.

HUM 3060 Creative Genius in Western Culture 3 (3) Investigation of creativity through study of great innovators in art, literature, music, and ideas. May be repeated once for credit.

HUM 3090 Studies in Humanities 3 (3) Interdisciplinary approach to the humanities. Special subject matter varies according to the instructor and as approved by the chair of the English Department. May be repeated once for credit.
Courses of Instruction

HUM (ENGL) 4560 Literature and Arts of the Holocaust 3 (3) Addresses the Holocaust through literature, art, architecture, music, and film. Beginning with historical, political, and economic forces that contributed to the Holocaust, course then focuses on highly diverse creative responses to this event - responses that often reflect the difficulties and politics of these commemorative gestures. May also be offered as ENGL 4560. Preq: ENGL 3100.

INDUSTRIAL ENGINEERING

IE 2000 Sophomore Seminar in Industrial Engineering 1 (1) Addresses the industrial engineering program, best student practices, and career paths. Invited lecturers, as needed, and faculty provide lectures and demonstrations. Preq: ENGR 1060 or ENGR 1090, each with a C or better.

IE 2100 Design and Analysis of Work Systems 3 (2) Introduction to the tools and techniques used to design and analyze work systems for human use, including process improvement, workplace design and an introduction to the field of human factors and ergonomics. Preq: ENGR 1060 with a C or better; and either ENGL 1020 or ENGL 1030 with a C or better. Coreq: IE 2101.

IE 2101 Design and Analysis of Work Systems Laboratory 0 (3) Non-credit laboratory to accompany IE 2100. Coreq: IE 2100.

IE 2680 Creative Inquiry Seminar in Industrial Engineering 1 (1) Students are introduced to critical inquiry methods, resources, and current activities in a seminar format. To be taken No Pass only. Includes Honors sections.

IE 2800 Deterministic Operations Research 3 (3) Introduction to operations research models, including linear programming, integer linear programming, transportation and assignment problems, and network flows. Preq: MATH 1060 or MATH 1070 with a C or better.

IE 3000 Junior Honors Seminar 1 (1) Acquaints students enrolled in the Departmental Honors Program with current research issues in the profession. This assists students in preparing a research proposal for the senior thesis. Preq: Junior standing and admission to Departmental Honors Program.

IE 3010 Systems Design 1 4 (3) Introduction to the design of industrial engineering systems. Design methodologies are introduced in the context of a design process that includes identifying user needs; developing a design specification; generating, evaluating, refining, and selecting design concepts; detail design; constructing, testing, and refining prototypes; and delivering the product to the customer. Preq: ENGR 1060 with a C or better; and ENGL 1020 or ENGL 1030 with a C or better. Coreq: IE 3011.

IE 3011 Systems Design 1 Laboratory 0 (3) Non-credit laboratory to accompany IE 3010. Coreq: IE 3010.

IE 3600 Industrial Applications of Probability and Statistics I 3 (3) Introduces central concept that overall system performance can be improved by taking uncertainty into account, especially through the reduction of variability. Specific industrial applications, such as decision analysis, reliability and probabilistic inventory models, are emphasized. Preq: MATH 2060.

IE 3610 Industrial Applications of Probability and Statistics II 3 (3) Introduces central concept that apparent conflict between productivity and quality can be resolved through improvements in processes by introducing statistical thinking. Specific industrial applications, such as (static) simulation, quality control and reliability models, are emphasized. Preq: IE 3600.

IE 3680 Professional Practice in Industrial Engineering 1 (1) Seminar to orient students to issues of professional development and professional practice of industrial engineering.

IE 3810 Probabilistic Operations Research 3 (3) Probabilistic modeling of engineering systems. Topics include calculus-based probability, Markov processes, Poisson processes, queueing, and other selected topics. Preq: IE 2800 and IE 4600.

IE 3840 Engineering Economic Analysis 3 (3) Basic principles and techniques of economic analysis of engineering projects. Consideration of time value of money, short- and long-term investments, replacement analysis, depreciation methods, cost allocation, and measures of cost effectiveness. Preq: MATH 1080.

IE 3860 Production Planning and Control 3 (3) Fundamentals of forecasting demand, scheduling production and controlling the movement and storage of material associated with production are studied. State-of-the-art manufacturing techniques are discussed. Preq: IE 2800 or MATH 4400.

IE 4000 Honors Thesis 1-6 (1-6) Individual or joint research project performed with a faculty mentor or committee of faculty. May be repeated to a maximum of six credits. Preq: IE 2680 and consent of mentor.

IE 4260 Creative Inquiry Research 1-6 (1-6) Research experience promoting reasoning, critical thinking, ethical judgment, communication skills, and an understanding of the scientific method and engineering design. These applied/basic research experiences are usually undertaken with a team under the mentorship of a faculty member or advanced graduate student. May be repeated for a maximum of six credits. Preq: Consent of mentor.

IE 4303 Creative Inquiry Project 1-3 (1-3) Project-oriented experience promoting reasoning, critical thinking, ethical judgment, communication skills, and an understanding of the scientific method and engineering design. Typical experiences include design projects in cooperative education or sponsored student competitions undertaken with a team, under the mentorship of a faculty member or advanced graduate student. May be repeated for a maximum of three credits. Preq: IE 2680 and consent of mentor.

IE 4305 Human Factors Engineering in Healthcare 3 (3) Focused on how industrial engineers help improve the quality and safety of patient care. Students learn how healthcare is different from traditional industrial engineering sectors. A substantial part of the course is focused on learning how to apply industrial engineering tools, specifically those grounded in human factors, to healthcare problems. Preq: IE 2100 or IE 4680 or PSYC 3640 or PSYC 3680 or PSYC 4350.

IE 4400 Decision Support Systems in Industrial Engineering 3 (2) Study of decision support systems for production and service systems based on operations research models. Includes use of spreadsheets, databases, and integrated software development environments to implement decision support systems. Preq: ENGR 1090; or both CHE 1300 and one of CPSC 1010 or CPSC 1110 or CPSC 1610. Coreq: IE 4401.

IE 4401 Decision Support Systems in Industrial Engineering Laboratory 0 (3) Non-credit laboratory to accompany IE 4400. Coreq: IE 4400.

IE 4410 Industrial Engineering Laboratory 0 (3) Non-credit laboratory to accompany IE 4410. Coreq: IE 4410.

IE 4440 International Perspectives in Industrial Management 1-6 (1-6) Provides an international perspective to industrial management via organized plant visits to businesses in a foreign country and lectures by and discussions with senior operations managers. Cultural visits and lectures are also organized to provide a holistic perspective to cover cultural and economic environment of the host country. Students are responsible for travel costs. May be repeated for a maximum of six credits. May also be offered as MGT 4440. Preq: Consent of instructor.

IE 4460 Modeling and Analysis of Manufacturing Systems 3 (3) Promotes competence in developing and applying quantitative models to improve the design and operation of manufacturing and assembly systems. Emphasis is placed on the underlying principles and analytical models for guiding how resources (humans, machines, tools, information) should be utilized to facilitate the flow of production jobs through a facility. Preq: IE 2800 and IE 3810 and IE 4400.

IE 4520 Reliability Engineering 3 (3) Probabilistic approach to assessing system reliability. Methods for analyzing serial, parallel, and complex systems. Reliability life testing and its acceleration are covered. Essential elements of maintainability are identified and related to system availability. Preq: IE 3610; or MATH 3020 and MATH 4000.

IE 4560 Supply Chain Design and Control 3 (3) Industrial engineering aspects of supply chains, including design and control of material and information systems. Preq: IE 3610 and IE 3860.

IE 4570 Transportation and Logistics Engineering 3 (3) Introduces transportation and logistics systems analysis from both analytical and practical perspectives. Covers methods for identifying key performance metrics and measuring system performance. Discusses key aspects of modeling, simulation, and other techniques for economic and quantitative analysis of transportation and logistics planning issues. Preq: Senior standing in an engineering, science, or management program; and MATH 1020 or MATH 1060 or MATH 1070.
IE 4600* Quality Improvement Methods 3 (3) Study of modern quality improvement techniques presented in an integrated, comprehensive context. Preq: MATH 1020 or MATH 1060 or MATH 1070; and junior standing.

IE 4610* Quality Engineering 3 (3) Design aspects of quality and the engineer's role in problems of quality in production systems. Preq: IE 3610.

IE 4620* Six Sigma Quality 3 (3) Study of DMAIC (Define, Measure, Analyze, Improve, and Control) elements of Six Sigma, project management, process analysis, quality function deployment, hypothesis testing, gage R&R, data analysis, multivariate analysis, design of experiments, statistical process control, and process capability analysis. Preq: One of STAT 3101 or STAT 4110 or IE 3600 or MATH 3010 or MATH 3020 or MATH 3090 or CHE 3070.

IE 4630* Quality in the Capital Projects Industry 3 (3) Covers topics in quality and lean principles relevant to the capital projects industry. Provides a broad overview on quality concepts and philosophies, quality management and inspection tools applicable to capital projects, Six Sigma Approach, lean concepts and value stream mapping. Preq: MATH 1020 or MATH 1060 or MATH 1070; and junior standing.

IE 4650* Facilities Planning and Design 3 (3) Study of the principles and techniques of facility planning and design. Discusses economic selection of materials handling equipment and integration of this equipment into the layout plan to provide effective product flow in production, distribution, and service contexts. Includes quantitative techniques for evaluation of facility design. Preq: IE 2100 and IE 2800 and IE 3810.

IE 4670 Systems Design II 3 (2) Provides students with the challenge of integrating and synthesizing general engineering knowledge into creatively solving real-world, open-ended problems. This includes developing the problem statement, objectives and design criteria; data collection; technical analysis; developing and integrating recommendations; and presenting results. Preq: All of the following Industrial Engineering courses: IE 2100, 2101, 2800, 3600, 3610, 3630, 3810, 3840, 3860, 4400, 4610, 4650, and 4820. Coreq: IE 4671.

IE 4671 Systems Design II Laboratory 0 (3) Non-credit laboratory to accompany IE 4670. Coreq: IE 4670.

IE 4690 Creative Inquiry Symposium in Industrial Engineering 1 (1) Provides a forum for exchange of results and ideas in creative inquiry student projects. To be taken Pass/No Pass only. Preq: IE 3680.

IE 4810* Applications of Probability Models in Industrial Engineering 3 (3) This second probabilistic operations research course provides a broader, more applied range of topics than the first (IE 3810 or IE 8030). Potential topics include decision making; utility theory; portfolio risk; optimization and hedging; inventory models for perishable products; revenue management; risk analysis; and static simulation. Preq: IE 2800 and IE 3600 and IE 3610 and IE 3840.

IE 4820* Systems Modeling 4 (4) The purpose, theory, and techniques of modeling systems with dynamic events. Students learn a powerful analytical process to use in the analysis and improvement of systems in several industries, including transportation, logistics, manufacturing and service systems. Incorporates professional simulation software as a tool in evaluating the system performance. Preq: IE 3610 and 3810; or MATH 4400 and MATH 4410 and MATH 3020.

IE 4840 Applied Engineering Economics 3 (3) Application of principles and techniques required to perform economic analysis of engineering projects in various sectors, such as manufacturing, public sector or the service sector. Topics include replacement analysis, project selection and selecting an analysis technique. Preq: One of CE 3520 or IE 3840; and one of IE 2800 or MATH 4400; and one of IE 3600 or MATH 4000; and one of IE 3610 or MATH 3020.

IE 4850* Survey of Optimization Methods and Applications 3 (3) Survey of deterministic and stochastic optimization methods, theory and algorithms. Modeling, analysis and applications of optimization to modern industrial engineering problems. Preq: One of IE 2800 or MATH 4400; and one of IE 3810 or MATH 4410.

IE 4860* Scheduling 3 (3) Introduction to the development and application of operations research approaches for sequencing and scheduling problems. Emphasis on probabilistic and optimization-based solution methods and how they relate to pragmatic analysis for scheduling and sequencing. Focus is on developing programming in any structured language or environment is required. Preq: CS/C++/VBA/Perl, etc. Preq: One of IE 3860 or MGT 3900; and one of CPSC 1110 or CPSC 1115 or IE 4000 or MATH 3600 or MATH 3650.

IE 4870* Industrial Safety 3 (3) Recognition and prevention of hazards; recognition and control of hazardous materials; developing and managing a safety program; designing inherently safe equipment and workplaces. Preq: MATH 1020 or MATH 1060 or MATH 1070; and junior standing.

IE 4880* Human Factors Engineering 3 (3) Introduction to human performance and limitations in the design of effective and efficient systems. Covers issues related to changes in technology, impact of design on society, ethical issues in design of systems, and the cost benefits from designing systems and environments that often challenge perceived notions of benefits. Preq: Junior standing; and MATH 1020 or MATH 1060 or MATH 1070; and junior standing.

IE 4890* Industrial Ergonomics and Automation 3 (2) Physical ergonomics and ergonomics in industrial settings, including work physiology, the physical environment, automated systems, and hybrid work systems. Preq: IE 2100. Coreq: IE 4891.

IE 4891* Industrial Ergonomics and Automation Laboratory 0 (3) Non-credit laboratory to accompany IE 4890. Coreq: IE 4890.

IE 4910 Selected Topics in Industrial Engineering 3 (3) Comprehensive study of any timely or special topic in industrial engineering not included in other courses. May be repeated for a maximum of 12 credits. Includes Honors sections.

INTEGRATED PEST MANAGEMENT

Professor: R.G. Bellinger

IPM 4010* Principles of Integrated Pest Management 3 (3) Origins, theory, and practice of integrated pest management. Relationships among crop production and protection practices are explored. Economics of various control strategies are considered. Integrated pest management field projects are studied. Conventional and integrated pest management approaches are compared. Multidisciplinary plant problem analysis is introduced. Preq: ENT 3010 or PES 4070 or PLPA 3100.

INTERNATIONAL STUDIES

IS 1010 Cross-Cultural Awareness International Experience 0 (0) Study of cross-cultural awareness as part of an international/study abroad experience. Minimum duration of the study abroad experience is four weeks. May be repeated. To be taken Pass/No Pass only.

IS 2100* Selected Topics in International Studies 3 (3) Topics in cross-cultural awareness and intercultural communications are studied in situ as part of a study abroad program. Addresses the impact of culture on behavior in intercultural contact in professional and personal contexts. May be repeated for a maximum of six credits, but only if different topics are covered.

ITALIAN

Lecturer: V. Lombardi, J. Schmidt

ITAL 1010 Elementary Italian 4 (3) Introductory course stressing grammar, pronunciation, oral practice, and reading skills. Attention is given to practical everyday living as well as cultural considerations. Coreq: ITAL 1011.

ITAL 1011 Elementary Italian Laboratory 0 (1) Non-credit laboratory to accompany ITAL 1010. Coreq: ITAL 1010.

ITAL 1021 Elementary Italian Laboratory 0 (1) Non-credit laboratory to accompany ITAL 1020. Coreq: ITAL 1020.

ITAL 2011 Intermediate Italian Laboratory 0 (1) Non-credit laboratory to accompany ITAL 2010. Coreq: ITAL 2010.

ITAL 3070 Italian Civilization and Culture 3 (3) Study of selected works from major 19th- and 20th-century Italian authors, including Manzoni, Verga, Svevo, Moravia, Ginzburg. Prereg: ITAL 2020.

ITAL 3600 Italian Literature to 1600 3 (3) Composition in Italy focused on the works of selected authors. Prereq: ITAL 3050.

ITAL 3970 Creative Inquiry—Italian 1-4 (1-4) Study and discussion of selected topics in Italian literature, language, and culture. May be repeated for a maximum of six credits. Prereg: Consent of faculty member.

ITAL 4551 Italian Film Laboratory 0 (3) Non-credit laboratory to accompany ITAL 4550. Coreq: ITAL 4550.

ITAL 4970 Creative Inquiry—Italian 1-4 (1-4) Study and discussion of selected topics in Italian literature, language, and culture. May be repeated for a maximum of six credits. Prereg: Consent of faculty member. Coreq: ITAL 4551.

ITAL 4980 Selected Topics 3 (3) Study of selected topics in Italian literature, language, and culture. Taught in Italian. May be repeated for a maximum of six credits, but only if different topics are covered. Prereg: Consent of department chair.

ITAL 4980 Selected Topics 3 (3) Study of selected topics in Italian literature, language, and culture. Taught in Italian. May be repeated for a maximum of six credits, but only if different topics are covered. Prereg: Consent of department chair.
LANG 2500 Introduction to World Languages 3 (3)  
Introduction to fundamental questions concerning the nature and use of human language throughout the world. Emphasizes the definition, genesis and theoretical characterization of language, as well as its role in social and political discourses. All readings and discussions are in English.

LANG 2540 Introduction to World Cinemas 3 (2)  
Introduction to the development of cinemas outside the United States through an examination of representative works, genres and movements in their cultural contexts. Conducted in English. All films are subtitled. Coreq: LANG 2541.

LANG 2541 Introduction to World Cinemas Laboratory 0 (3)  
Non-credit laboratory to accompany LANG 2540. Coreq: LANG 2540.

LANG 2970 Creative Inquiry—Language 1-14 (1-4)  
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration.

LANG 3000 Introduction to Linguistics and Foreign Language Learning 3 (3)  
Introduction to the field of linguistics, including the study of phonetics, phonology, morphology, syntax, and semantics. Includes discussion of issues pertaining to foreign language acquisition.

LANG 3030 Study Abroad Transfer 3-36 (3-36)  
Course for credit transfer of any course taken abroad during a department-approved study. Requires a minimum of two contact hours per week for at least 15 weeks or equivalent. Students may take a course outside their concentration. May be repeated for a maximum of six credits. To be taken Pass/No Pass only. Coreq: Consent of department chair.

LANG 3400 Cosmopolis The Myth of the City 3 (3)  
Cross-cultural inquiry into the idea of the city through literary, political, and philosophical texts as well as film and architecture. Coreq: Junior standing.

LANG 3420 Sacred and Profane Bodies 3 (3)  
Cross-cultural inquiry into the ambivalence surrounding female sexuality implied in images of women and, in particular, the division of women into earthly and divine categories. Coreq: Junior standing.

LANG 3560 Faces of Film 3 (3)  
Cross-cultural inquiry into evil as an ineradicable challenge to representation discussed by notions of the monstrous, the enemy, the infinite, and death in literature, cultural theory, and the arts. Coreq: Junior standing.

LANG (ANTH) 3710 Language and Culture 3 (3)  
Survey of topics, theories, and methodological approaches in linguistic anthropology. Examines the complex relationships among language, culture, and communicative behavior and provides students with conceptual tools that inform the study of language in its cultural contexts. Coreq: ANTH 3710. Coreq: Consent of department chair.

LANG 3970 Creative Inquiry—Language 1-14 (1-4)  
Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic. Coreq: ANTH 3710. Coreq: Consent of department chair.

LANG 4000 Phonetics 3 (3)  
Study of basic phonetic concepts used in the study of sounds in language.

LANG 4200 France and the Francophone World 3 (3)  
Selected masterpieces of French and Francophone Culture are considered within their historical and cultural context. All readings and instruction are in English. No knowledge of the foreign language is required. May be repeated for a maximum of six credits. Includes Honors sections. Coreq: Sophomore standing.

LANG 4500 Risk and Danger 3 (3)  
Cross-cultural inquiry into the meanings of risk and danger as they are articulated in various literary and philosophical texts and films about gambling, duels, stunts, bullfights, wilderness adventure, and smoking. Coreq: Junior standing.

LANG (ENGL) 4540 Selected Topics in International Film 3 (2)  
Presents subtitled films of specific world cultures and basic film theory and discourse applicable to the selected areas. Taught in English. May be repeated for a maximum of six credits with consent of department chair. May also be offered as ENGL 4540. Coreq: ENGL 3100. Coreq: LANG 4541.

LANG (ENGL) 4541 Selected Topics in International Film Laboratory 0 (3)  
Non-credit laboratory to accompany LANG 4540. May also be offered as ENGL 4541. Coreq: LANG 4540.

LANG 4550 Hispanic Film: Documentary and Feature 3 (3)  
Overview of theory and discourse on Hispanic film. Through lectures, discussions, and films, students become acquainted with film as a vehicle for understanding the Hispanic World. Taught in English. Films are in Spanish with English subtitles. Coreq: Sophomore standing.

LANG 4600 Propaganda and the Totalitarian Recreation of the World 3 (3)  
Cross-cultural inquiry into the various languages (philosophical, political, literary, and filmic, among others) that form a crucial weapon in the striving for hegemony over desire that marks the modern totalitarian project. Coreq: Junior standing.

LANG 4620 Borders 3 (3)  
Cross-cultural inquiry into representations of physical and non-physical borders. Provides a theoretical framework in which various forms of borders, limits, and boundaries can be studied through literature and other artistic media. Coreq: Junior standing.

LANG (POSC) 4850* Global Affairs and Governments 3 (3)  
Designed for teachers and education students who wish to learn how to incorporate global affairs more fully into high school curricula. Overview of major topics involving foreign policies and world politics is provided. May also be offered as POSC 4850.

LANG 4910 Senior Seminar in Japanese Literature 3 (3)  
Important authors and their representative works, genres and movements in Japanese drama, poetry, prose, religious traditions, cinema, and folklore/mythology. May be repeated for a maximum of six credits, but only if different topics are covered. Readings and discussions are in English. May not be used to satisfy general foreign language requirements.

LANDSCAPE ARCHITECTURE

Professors: M.C. Padua, Chair; T. Schurch; Associate Professors: R. Hewitt, H. Nassar, M. Powers; Assistant Professors: H. Chang, M. Holland, P. Russell; Visiting Assistant Professor: D. Lycke

LARC 1150 Introduction to Landscape Architecture 3 (3)  
Introduction to the foundations and contemporary sources of landscape architecture. The course surveys the relationship between landscape architecture and sustainability, medicine, engineering, art, the natural sciences, planning and development, psychology, recreation and tourism, architecture, preservation, and technology.
LARC 1160 History of Landscape Architecture
3 (3) History of design on the land from prehistory to the present. Overview of the interface of aesthetics, science, technology, and natural features that influence cultures in shaping places.

LARC 1280 Technical Graphics 3 (2) Introduction to rendering techniques, plan graphics, 3-D projection drawings, drafting skills, perspective drawing, and overview of computer graphics. Preq: Landscape Architecture major. Coreq: LARC 1281.

LARC 1281 Technical Graphics Laboratory 0 (2) Non-credit laboratory to accompany LARC 1280. Coreq: LARC 1280.

LARC 1510 Basic Design I 3 (6) Studio introduction to design fundamentals through 2-D and 3-D application of basic systems and development of attitudes essential to the creative design process. Preq: Landscape Architecture major.

LARC 1520 Basic Design II 6 (12) Further investigations into design fundamentals through 2-D and 3-D application of basic systems and development of attitudes essential to the creative design process. Preq: LARC 1510.

LARC 1990 Creative Inquiry—Landscape Architecture I 3 (3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. Preq: Consent of faculty member/mentor.

LARC 2510 Landscape Architecture Design Fundamentals 6 (1) Compositional skills introduced in LARC 1510 and 1520 are applied to design in the landscape. Through research, design assignments and discussions, students derive and apply design principles to place, study the processes of design and develop an understanding of how design principles, plant materials and structures are used in the landscape. Preq: LARC 1520. Coreq: LARC 2511.

LARC 2511 Landscape Architecture Design Fundamentals Laboratory 0 (10) Non-credit laboratory to accompany LARC 2510. Coreq: LARC 2510.

LARC 2520 Site Design in Landscape Architecture 6 (1) Students apply lessons from LARC 2510 to site designs considering planting design, responsible land management strategies and appropriate use of materials. Also included are participatory and social behavioral aspects of design. Readings and seminar discussions are emphasized as integral to the design and decision making process. Preq: LARC 2510. Coreq: LARC 2521.

LARC 2521 Site Design in Landscape Architecture Laboratory 0 (10) Non-credit laboratory to accompany LARC 2520. Coreq: LARC 2520.

LARC 2620 Design Implementation I 3 (1) Basics of landscape architecture construction methods and construction documents, including site information gathering, analysis, site grading and drainage, cut and fill, principles of stormwater management, sustainable land management related to implementation. Includes explorations in hand and computer graphic techniques used in construction drawings. Preq: Consent of instructor. Coreq: LARC 2621.

LARC 2621 Design Implementation I Laboratory 0 (3) Non-credit laboratory to accompany LARC 2620. Coreq: LARC 2620.

LARC 2930 Field Studies Internship 1-3 (1-3) Skill-based practical work experience to give beginning students on-the-job learning opportunities. Requires a minimum of five weeks of uninterrupted, supervised, practical experience with a preapproved commercial firm or public agency dealing with landscape architectural site issues. May be repeated for a maximum of six credits. To be taken Pass/No Pass only. Preq: Consent of instructor.

LARC 2990 Creative Inquiry—Landscape Architecture II 3 (3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. Preq: LARC 1990 and consent of faculty member/mentor.

LARC 3510 Regional Design and Ecology 6 (1) Study and analysis of natural and cultural landscapes at the regional scale. Introduction of landscape ecology as an informant to design. Basic overview of geographic information systems. Regional and ecological issues are applied in a final site design. Also includes relevant reading, discussion and writing. Preq: Senior standing. Coreq: LARC 3511.

LARC 3511 Regional Design and Ecology Laboratory 0 (10) Non-credit laboratory to accompany LARC 3510. Coreq: LARC 3510.

LARC 3520 Urban Design Studio 6 (1) Landscape architectural design in the urban context. Students study urban issues and offer design solutions for urban areas. The course includes a reading and theory component, as well as an opportunity to collaborate with architecture students. Students attend an international field trip during Spring Break. Preq: LARC 2510. Coreq: LARC 3521.

LARC 3521 Urban Design Studio Laboratory 0 (10) Non-credit laboratory to accompany LARC 3520. Coreq: LARC 3520.

LARC 3620 Design Implementation II 3 (1) Advanced landscape architecture construction methods and construction documents, including site information gathering, analysis, site grading and drainage, cut and fill, principles of stormwater management, sustainable land management related to implementation, materials research and use, sustainable planting strategies, site demolition and construction management. Includes explorations in appropriate graphic communication techniques. Preq: Consent of instructor. Coreq: LARC 3621.

LARC 3621 Design Implementation II Laboratory 0 (2) Non-credit laboratory to accompany LARC 3620. Coreq: LARC 3620.

LARC 3990 Creative Inquiry—Landscape Architecture III 3 (3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. Preq: LARC 2990 and consent of faculty member/mentor.

LARC 4050 Urban Genesis and Form 3 (3) Exploration of urban forms and developments within their historical context through off-campus, on-site lectures and exposure to historic cities and sites. Students visit historic and contemporary cities and analyze those places through readings and direct observations. Offered in the summer only. Preq: LARC 2520.

LARC 4180 Off-Campus Study Seminar 1 (1) Students study various cultural and environmental factors to inform and enhance their off-campus experiences in Istanbul, Barcelona, Genoa, or Charleston. Preq: Landscape Architecture major.

LARC 4190 Off-Campus Field Study 3 (3) Intensive study of place in an off-campus setting. Context for design. Numerous class trips to significant sites in the area of the off-campus programs. Bus trips to distant sites are also planned. Preq: LARC 4510.

LARC 4210 Landscape Architectural Seminar 3 (3) Lectures and seminars dealing with pertinent topics related to environmental, technological, and theoretical issues in landscape architecture, land planning, and urban design. May be repeated for a maximum of six credits. Preq: Junior standing.

LARC 4230 Environmental Issues in Landscape Architecture 3 (3) Overview of environmental and ecological issues and their relationship to landscape architecture practice and design. Preq: LARC 4520.

LARC 4280 Landscape Architecture Computer-Aided Design 3 (2) Introduces students to the use of computer technology in the landscape architectural design process. Covers the basics of computer applications used in the industry for conceptualizing, drafting, modeling, and graphic communications. Preq: Landscape Architecture major. Coreq: LARC 4281.

LARC 4281 Landscape Architecture Computer-Aided Design Laboratory 0 (2) Non-credit laboratory to accompany LARC 4280. Coreq: LARC 4280.

LARC 4330 Historic Preservation in Landscape Architecture 3 (3) Study of historic landscape preservation in a number of contexts, including gardens, vernacular landscapes, parks, cemeteries, and battlefields. Preq: LARC 4520.

LARC 4380 Advanced Computer-Aided Design 3 (2) Advanced study in computer-aided design for students wishing to develop their skills beyond LARC 4280. Students develop advanced skills in illustrative drawings, construction drawings, desktop publishing, and other computer-based applications. Preq: LARC 4280. Coreq: 4381.

LARC 4381 Advanced Computer-Aided Design Laboratory 0 (2) Non-credit laboratory to accompany LARC 4380. Coreq: LARC 4380.

LARC 4430 Community Issues in Landscape Architecture 3 (3) In-depth study of issues relevant to community design. Overview of physical design and related social issues. Preq: LARC 4520.

LARC 4510 Community Design Studio 6 (1) Studio focused on the study and design of communities and public spaces. Students explore multicultural, historical and ecological layers of community, as well as the role of landscape management and the creative design process to add new dimensions of meaning to these places. Preq: LARC 3520. Coreq: LARC 4511.
LARC 4511 Community Design Studio Laboratory 0 (10) Non-credit laboratory to accompany LARC 4510. Coreq: LARC 4510.

LARC 4521 Off-Campus Studio Laboratory 0 (10) Non-credit laboratory to accompany LARC 4520. Coreq: LARC 4520.

LARC 4530* Key Issues in Landscape Architecture 3 (3) Overview of research in landscape architecture and study of relevant research methods. Students write proposals for their own projects positioned within the larger context of research in the profession. Preq: Junior standing.

LARC 4620 Landscape Architectural Technology III 3 (2) Advanced overview of construction materials and methods used in project implementation. Study characteristics, strengths, nominal sizes and uses of materials (asphalt, brick, concrete, stone, wood). Field trips, exercises, and preparation of construction documents develop understanding of how design ideas are realized in built form. Preq: LARC 3620. Coreq: LARC 4621.

LARC 4621 Landscape Architectural Technology III Laboratory 0 (2) Non-credit laboratory to accompany LARC 4620. Coreq: LARC 4620.

LARC 4710 Chinese and Japanese Garden Traditions 3 (3) This course examines Chinese and Japanese classical garden traditions within the context of the classical arts. Emphasis is placed on understanding garden design principles that deal with scenery manipulation and visualization, as well as an in-depth study of the Chinese classical design language, grammar and vocabulary. Preq: Junior standing.

LARC 4720 South Carolina’s Landscapes: Then and Now 3 (3) This course investigates South Carolina’s designed and cultural landscapes. It addresses the human impacts and settlement patterns, the natural and physical environments, and focuses on South Carolina’s landscape legacy of the built environment. Preq: Junior standing.

LARC 4900 Directed Studies and Projects in Landscape Architecture 1-5 (1-5) Comprehensive studies and/or research of special topics not covered in other landscape architecture courses. May be repeated for a maximum of ten credits. Preq: Consent of instructor.

LARC 4910 Honors Research Methods for Landscape Architecture 1-3 (1-3) Students investigate various research methodologies in landscape architectural design or related areas and apply to student generated project(s). Students generate a proposal for Landscape Architecture Honors Research. Preq: Junior standing and membership in Calhoun Honors College and consent of Department Honors Program Advisor.

LARC 4930 Professional Office Internship 1-3 (1-3) Office experience for advanced students. On-the-job learning requires a minimum of five uninterrupted sequential weeks of employment under the direct supervision of a preapproved registered landscape architect, architect, urban planner, or civil engineer. May be repeated for a maximum of six credits. To be taken Pass/Fail only. Preq: LARC 3520 and LARC 3620 and consent of instructor.

LARC 4940 Landscape Architecture Honors Research 2-3 (2-3) Independent, student-generated research on a preapproved topic conducted under the supervision and weekly guidance of a faculty member. Second in a sequence of three required courses for students enrolled in Departmental Honors Program. Written interim report and presentation to faculty and honors students are required before the end of the semester. May be repeated for a maximum of six credits. Preq: LARC 4910 and membership in Calhoun Honors College.

LARC 4950* Landscape Architecture Honors Thesis 2-3 (2-3) Continuation of independent research, conducted under the supervision and weekly guidance of a faculty member. Third in a sequence of three required courses for students enrolled in Departmental Honors Program. Written thesis is submitted and presented before the end of the semester to qualify for Departmental Honors. Preq: LARC 4940.

LARC 4990 Creative Inquiry—Landscape Architecture IV 3 (3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. Preq: LARC 3990 and consent of faculty member/mentor.

LATIN
LATN 1010 Elementary Latin 4 (4) Course for beginners designed principally to teach the reading of the language.
LATN 1010 Elementary Latin 3 (3) Coreq: LATN 1010.
LATN 1020 Elementary Latin 3 (3) Continuation of LATN 1010.
LATN 1030 Intermediate Latin 3 (3) Review of the fundamental principles of grammar in conjunction with readings from the Classical period. Preq: LATN 1020.

LAW
Associate Professors: F.L. Edwards, M.E. Mowrey; Lecturers: J.R. Jahn, V.L.S. Ward-Vaughn

LAW 3220 Legal Environment of Business 3 (3) Examination of both state and national regulation of business. Attention is given to the constitution and limitations of power, specific areas in which governments have acted, and the regulations that have been imposed in these areas. Includes Honors sections. Preq: Junior standing.
LAW 3330 Real Estate Law 3 (3) The nature of real property and means of acquiring rights therein: conveyance of ownership, creation and execution of deeds, mortgages, etc., landlord and tenant relationships, shared concepts, and government regulation.

LAW 3990 Internship in Legal Studies 1-3 (1-3) Faculty-supervised legal internship to give students learning opportunities that support their classroom experiences. Requires a minimum of six full-time weeks. Course enrollment and internship must occur in the same semester. Simultaneous credit cannot be received for another internship offering. May be repeated for a maximum of three credits. To be taken Pass/No Pass only. Preq: Junior standing.

LAW 4560 Construction Law 3 (3) Provides a practical knowledge of legal principles applied to the construction process and legal problems likely to be encountered by practicing construction professionals. Topics include construction contracting, liability, claims and warranties, documentation, and responsibility and authority of contracting parties. Preq: LAW 3220 or LAW 3330.

LAW 4600 Sports Law 3 (3) Provides awareness of sport-related legal issues. Topics include contracts, torts, arbitration, mediation, criminal liability, intellectual property, gender equity, disabilities, drug testing, and professional and amateur organizations. Preq: LAW 3220 and Senior standing.

LAW 4900 Selected Topics 1-3 (1-3) In-depth examination of timely topics in legal studies. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Senior standing and consent of instructor.

LIBRARY

LIB 1990 Creative Inquiry—The Libraries 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

LIB 2990 Creative Inquiry—The Libraries 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.
LANGUAGE AND INTERNATIONAL TRADE

Professor: S. Oropesa, Chair; Associate Professors: T. Kishimoto, E. Touya, Interim Director; Lecturers: S. Chen, L. Ferrell, M. Zamora

LIB 3990 Creative Inquiry—The Libraries 1-4 (1-4)
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

LIB 4990 Creative Inquiry—The Libraries 1-4 (1-4)
In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits.

LIH 1270 Introduction to Language and International Health 1 (1) Survey of international health and related career opportunities, focusing on the two distinct emphasis areas of the major: community development and health administration. To be taken Pass/No Pass only.

LIH 2970 Creative Inquiry—Language and International Health 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration. May be repeated for a maximum of eight credits.

LIH 3970 Creative Inquiry—Language and International Health 1-4 (1-4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

LIH 4000 Language and International Trade Internship 1-3 (1-3) Mandatory internship with an international company in the U.S. or abroad. May be part-time or full-time during the summer or academic semester for a minimum of 1400 hours. After completing the internship, students register for three credits of LIH 4000 and write a research paper in the target language. To be taken Pass/No Pass only. Preq: Consent of faculty member.

LIH 4010 Internship Abroad 3 (3) One semester, full-time internship in a health care or a health administration setting abroad. To be taken Pass/No Pass only. Preq: Second semester Junior standing.

LIH 4970 Creative Inquiry—Language and International Health 1-4 (1-4) Continuation of research initiated in LIH 3970. Students complete their project and disseminate their research results. Preq: LIH 3970.

LEISURE SKILLS

LIT 1270 Introduction to Language and International Trade 1 (1) Survey of the nature of international trade and related career opportunities. Information and applications of specific relevance to tourism, agriculture, and textile industries are offered. To be taken Pass/No Pass only.

LIT 2970 Creative Inquiry—Language and International Trade 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration. May be repeated for a maximum of eight credits.

LIT 3970 Creative Inquiry—Language and International Trade 1-4 (1-4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

LIT 4000 Language and International Trade Internship 1-3 (1-3) Mandatory internship with an international company in the U.S. or abroad. May be part-time or full-time during the summer or academic semester for a minimum of 1400 hours. After completing the internship, students register for three credits of LIT 4000 and write a research paper in the target language. To be taken Pass/No Pass only. Preq: CHIN 3160 or FR 3160 or GER 3160 or JAP 3160 or SPAN 3160; and twelve credit hours in a Language and International Trade Technical option.

LIT 4020 Language and International Trade Directed Study 3 (0) Directed study of an individual project in language and international trade. To be taken Pass/No Pass only.

LIT 4970 Creative Inquiry—Language and International Trade 1-4 (1-4) Continuation of research initiated in LIT 3970. Students complete their project and disseminate their research results. Preq: LIT 3970.

LS 1130 Wood Carving 1 (3) Introduction to the art of wood carving. Students learn about types of wood, tools, carving, and shop safety.

LS 1250 Budget Travel 1 (3) Teaches the necessary skills to travel internationally on a budget. Students learn how to get the best airfares, research destinations, and build an itinerary. Packing, security, local transportation, and culture/reverse-culture shock are also discussed.

LS 1260 Group Initiatives 1 (2) Students learn to lead people in group initiatives, also called team building exercises, with the goal of developing trust, cooperation, risk-taking, and leadership among participants. Students learn specific initiatives to lead, as well as how to bring groups to their intended goals.

LS 1330 Women’s Shotgun Shooting 1 (3) Introduces basic shotgun shooting skills and firearm safety. Topics include gun fitting, skeet and trap shooting, and gun and range safety. Course is designed to provide women a comfortable environment in which to learn the necessary skills to participate in shotgun shooting.

LS 1330 Women’s Hunting Traditions 1 (3) Students receive hands-on instruction in shooting sports and the sport of hunting. Students are introduced to the safe and responsible use of firearms and archery, and learn how to participate safely in hunting.

LS 1350 Women’s Rifflery 1 (3) Introduces students to the basics of rifle shooting and safety. Students learn basic shooting skills and are exposed to more advanced topics, such as reloading, external ballistics and long range shooting. This course is designed to give women a comfortable environment to learn the skills necessary to participate in the sport of riflery.

LS 1410 Top Rope Climbing 1 (3) Basic rock climbing skills, including philosophy, safety, knots, climbing techniques, site and supplies selection, and nature/conservation issues are covered.

LS 1430 Mountain Biking 1 (3) Introduces the sport of mountain biking; guides students on techniques and procedures to plan and undertake rides. Covers both on-trail and off-trail bike mechanics used to keep bikes in proper working order.

LS 1440 Performance Cycling 1 (3) Provides aspiring cyclists with all the information necessary to be safe and successful cyclists. Students learn how to ride safely on open roadways, group riding skills, bike maintenance, and bike mechanics.

LS 1450 Camping and Backpacking 1 (3) Basic camping and backpacking skills including map and compass reading, outdoor cooking, camping hazards and safety, site selections, and trip planning.

LS 1470 Alpine Skiing 1 (3) Basic downhill snow skiing instruction including equipment selection, safety, and maintenance; parallel turns; edging; carved and linked turns; wedeling; and safety and etiquette. There is an additional fee for this course. Taught during Christmas recess. (Contact the Department of Parks, Recreation and Tourism Management in October.)
LS 1490 Snowboarding 1 (3) Basic snowboarding instruction including equipment selection; safety; conditioning and skills such as stopping, techniques for turning, and riding lifts. There is an additional fee for this course. Taught during Christmas recess. (Contact the Department of Parks, Recreation and Tourism Management in October.) May not be taken concurrently with LS 1470 or 3470.

LS 1560 Rifflery 1 (3) Introduces the basics of rifle shooting and firearm safety. Students progress from beginning rifle shooting to more advanced topics such as reloading, external ballistics, and long-range shooting.

LS 1570 Shotgun Shooting 1 (3) Introduces students to basic shotgun shooting skills and firearm safety. Topics include gun fitting, chokes, gauges, ammunition, and different shotgun disciplines such as skeet, trap shooting, and sporting clays.

LS 1580 Archery 1 (3) Introduces students to the basic principles and skills of archery and helps them develop proper shooting form and marksmanship.

LS 1590 Hunting Traditions 1 (3) Basic, hands-on instruction in the shooting sports (shotgun, rifle, and archery) and the sport of hunting. Designed to introduce students to the safe and responsible use of firearms and archery equipment and safe hunting practices. Students are required to complete the South Carolina Department of Natural Resources Hunter Education certification.

LS 1610 Turkey Hunting 1 (3) Exposes students to the skills, techniques, and history of turkey hunting. Students learn gun and hunting safety; shotguns, muzzleloading, and archery hunting techniques; tracking and basic calling techniques.

LS 1640 Whitewater Kayaking 1 (3) Flatwater and whitewater skills, techniques, safety, rescue, equipment selection and maintenance, and selection of routes/trips to participate in basic white-water kayaking. Students must possess basic swimming skills to enroll in this course.

LS 1650 Inland Kayak Touring 1 (3) Introduction to basic skills necessary for safe enjoyment of flat-water (non-tidal waters: lakes, slow moving rivers) kayaking. Students learn equipment selection, strokes, safety, and rescue techniques. Students must demonstrate swimming competence to enroll in this course.

LS 1670 Canoeing 1 (3) Basic instruction in the nomenclature, strokes, and safety techniques in canoeing. Students must possess basic swimming skills to enroll in this course.

LS 1690 Sailing 1 (3) Basic instruction in the nomenclature, safety and rescue techniques, and skills required to skipper sailing craft. Students must possess basic swimming skills to enroll in this course.

LS 1710 Windsurfing 1 (3) Basic windsurfing instruction including rigging, launching, tacking, jibbing, rig and foot steering, safety, maintenance, equipment selection, rules of the road, and racing techniques are covered. Offered Fall Break and first summer session.

There is an extra fee for this course. Students must have the ability to swim 3000 yards and tread water for five minutes to enroll in this course.

LS 1730 Bass Fishing 1 (3) Provides basic knowledge and skills necessary to participate successfully in bass fishing.

LS 1750 Fly Fishing 1 (3) Introductory course in the techniques of fly-fishing. Students learn casting, fly-tying, and equipment selection.

LS 1760 Beginning Fly Tying 1 (3) The art of fly tying. Students learn basic fly tying techniques and gain a knowledge of materials and tools used in fly tying.

LS 1770 Saltwater Fly Tying 1 (3) Introduction to fly tying flies for saltwater applications of fly fishing.

LS 1790 Scuba 1 1 3 Teaches basic open water diving techniques; prepares students to complete requirements for the open water diving certification. Certifications are granted by an internationally recognized and accepted certifying agency. Students are required to pass a swim test required by certifying agency.

LS 1830 Introduction to Rugby 1 (3) Introduces students to the sport of Rugby. Covers history of the game, rules, and skills such as passing, kicking, and decision making.

LS 1850 Bowling 1 (3) Basic instructional program on techniques of bowling.

LS 1870 Frisbee Sports 1 (3) Focuses on the rules, history, and skills necessary for participating in various frisbee sports. Heavy emphasis is placed on Ultimate Frisbee and Frisbee Golf.

LS 1880 Disc Golf 1 (3) Introduces students to basic disc golf skills and knowledge. Topics include development of basic throwing skills, rules of the game, game strategy and disc golf etiquette.

LS 1890 Tennis 1 (3) Fundamental course stressing rules, strokes, and strategy, with ample opportunity for practice.

LS 1940 Racquetball 1 (3) Basic rules, knowledge of rules, strategy, and basic strokes.

LS 1950 Intermediate Racquetball 1 (3) Builds on knowledge gained in LS 1940. Students learn advanced swing mechanics, game strategy, and other advanced skills. Preq: LS 1940. Students who have not taken LS 1940 may demonstrate that they possess equivalent skill and obtain a registration override.

LS 1960 Introduction to Billiards 1 (3) Introductory course in the history, rules, and skills necessary to participate in billiards. Students learn different types of games, proper shot techniques, and equipment selection.

LS 1980 Golf 1 (3) Fundamental course stressing rules, strategy, and basic strokes.

LS 1990 Intermediate Golf 1 (3) Builds on the knowledge gained in LS 1980. Students learn to apply rules to common golf situations, improve ball striking, and course management. The skills and strategies taught are designed to improve existing golf scores.

LS 2000 Traditional Sports 1 (3) Introductory course in the history, rules, and skills necessary to participate in traditional sports. Students learn about and participate in basketball, volleyball, football, and softball.

LS 2020 Field Hockey 1 (3) Introduces the fundamental skills, history, and rules of field hockey.

LS 2030 Lacrosse 1 (3) Introduces the fundamental skills, history, and rules of men’s and women’s lacrosse.

LS 2040 Soccer 1 (3) Introduces the history, rules, and fundamental skills of soccer.

LS 2100 Learn to Dance 1 (2) Students develop an understanding of the qualities of dance, recognize the importance of dance as a leisure pursuit, and learn to dance difference types of music. Dances include shag, waltz, cha-cha, foxtrot, as well as current dance trends.

LS 2110 Introduction to Belly Dance 1 (2) Introduces students to the Middle Eastern belly dance. In addition to learning choreography and belly dance skills, students are introduced to the traditions and origins of Middle Eastern belly dance.

LS 2120 Belly Dance 1 1 1 (2) Designed to build on the dance and musicality skills developed during Introduction to Belly Dance, this course also introduces students to choreography, additional dance styles, improvisation, and the use of finger cymbals when they participate as a member of a percussion section. Preq: LS 2110.

LS 2130 Middle Eastern Dance 1 (2) Explores the various dance styles associated with middle eastern countries. Students learn dances, rhythms and traditions from Egypt, Libya, Morocco, Saudi Arabia, Lebanon and Turkey.

LS 2140 Modern Dance 1 (3) Introduction to modern dance techniques with emphasis on developing the style of movement and understanding the dance art form.

LS 2160 Contra Dance 1 (2) Introduces students to the social dance of Contra. Students learn the origin and history of Contra along with the basic dance steps and styles.

LS 2180 Ballroom Dance 1 (2) Students develop an understanding of advanced dance methods, learn about dance at social and competitive levels, and increase knowledge of a variety of both smooth and Latin steps. Dances include tango, cha-cha, waltz, foxtrot, and swing.

LS 2190 Country Western Dance 1 (2) Introduces traditional country western dance. Students learn traditional couples dances, line dances, and barn dances.

LS 2200 Shag 1 (2) Develops an understanding of the South Carolina state dance, its history and impact on the state. Students learn more advanced steps in shag, including belleyroll, sugarfoot, slide step, tiptoe up the ladder, pivot, and the thirteen steps.

LS 2210 Intermediate Shag Dance 1 (2) Builds on skills learned in LS 2200. Students improve their ability to improvise, add style, and add many different moves to their dance vocabulary. Preq: LS 2200.

LS 2220 Advanced Shag 1 (2) Exposes students to a competition level of shag. Students learn to break down a dance routine and to choreograph short routines. Preq: LS 2210.

LS 2270 Introduction to Swing Dance 1 (2) Introduction to vintage swing dance created in the 1920’s-1950’s, including Charleston, Lindy Hop, Jitterbug, and optional acrobatic moves used in performance and competition.

LS 2280 Intermediate Swing Dance 1 (2) Builds on skills learned in LS 2270 by improving students’ ability to improvise, add style, and add many additional moves to add to their dance vocabulary. Preq: LS 2270.
LS 2290 Advanced Swing Dance 1 (2) Focuses on competition level and style of swing dance. Students learn to break down and teach a routine to beginners. Students also learn the skills necessary to create and choreograph a short routine. Prereq: LS 2280.

LS 2310 Bosu 1 (3) Introduces the group aerobic style of Bosu, which concentrates on physical stability, core strength, and general fitness.

LS 2320 Core Stability Training 1 (3) Teaches fundamentals of core training. Students learn basic anatomy, proper strength training, and how to design a program to fit their fitness goals.

LS 2330 Aerobic Dance 1 (3) Instruction in the development of skills for the safe improvement and maintenance of cardiovascular fitness, flexibility, and muscle tone utilizing dance movements and techniques.

LS 2350 Basic Yoga 1 (3) Develops flexibility, strength, sensitivity, energy, and a sense of relaxation through the study of basic yoga postures, conscious breathing, and meditation techniques.

LS 2360 Power/Ashtanga Yoga 1 (3) Power/Ashtanga Yoga is a comprehensive workout based on the Eastern philosophy of K. Pattabhi. Students learn the eight limbs of this philosophy and the rigorous series of postures that produce a high power, athletic workout with the purpose of detoxifying impurities in the body.

LS 2370 Kripalu Yoga 1 (3) Great emphasis is placed on learning breath work techniques to combine directly with the various kripalu yoga postures. The goal is to teach individuals the physiological reactions produced by this type of yoga in developing and restoring health.

LS 2380 Vinyasa Flow Yoga 1 (3) Explores the energetic, fluid movement of Yoga postures in sync with conscious breathing. Students study creative sequences using classical as well as innovative and advanced Yoga postures.

LS 2420 Meditation and Relaxation 1 (2) Exposes students to the benefits of relaxation and meditation techniques. Students learn different techniques used to relieve stress and promote relaxation.

LS 2450 Pilates 1 (3) Study of the history, philosophy, and fundamental movement concepts of Pilates.

LS 2460 Intermediate Pilates 1 (3) Course is designed to expand students’ knowledge and practice of the principles, techniques and exercises learned in the basic Pilates course. Prereq: LS 2450.

LS 2500 Marathon Training 1 (3) Provides students with the resources and knowledge to train for and successfully complete a marathon.

LS 2510 Running and Jogging 1 (3) Introduces the various components important to improving overall fitness level through a running or jogging activity. Topics include proper stretching exercises, nutrition, workout program design, and proper running techniques.

LS 2580 Self Defense 1 (3) Basic physical defense that incorporates risk avoidance and awareness techniques with basic physical defense options.

LS 2640 Aikido 1 (3) Introduces the modern Japanese martial art of Aikido.

LS 2660 Hapkido 1 (3) Introduces the fundamental skills and techniques of the self-defense based Korean martial art of Hapkido.

LS 2700 Sports Officiating 1 (3) Practical study of officiating for various sports. Includes studies and practical application of officiating rules and mechanics. Sports studied include football, basketball, softball, soccer, and introductions to a variety of other team sports.

LS 2750 Red Cross First Aid/CPR 1 (3) Gives students the knowledge and skills necessary to prevent, recognize, and provide basic care for infants, children, and adults with injuries and sudden illness.

LS 2760 First Aid/CPR for the Professional 1 (2) This American Red Cross CPR/FAED for the Professional Rescuer course teaches those with a duty to act the skills needed to respond appropriately to breathing cardiac emergencies, including the use of an Automated External Defibrillator (AED) to care for a victim of cardiac arrest.

LS 2770 Lifeguarding 1 (3) Students gain the knowledge and skills to prevent, recognize and respond to emergencies and to provide care for injuries and sudden illness. Upon course completion, students receive a lifeguarding certification from the American Red Cross.

LS 2780 Wilderness First Aid 1 (2) This American Red Cross Wilderness First Aid with Adult CPR course provides individuals involved with wilderness activities with the knowledge and skills to prevent, recognize and provide basic care for injuries and sudden illness when immediate advanced help is not immediately available.

LS 2910 Outdoor Leadership 1 (3) Introduces the skills necessary to lead others in a backcountry environment. Focus is on wilderness travel skills, risk assessment, group dynamics, leadership skills, and decision making. Course also includes certification in Wilderness First Aid.

LS 3470 Advanced Alpine Skiing 1 (3) Advanced downhill skiing instruction in such techniques as mogul skiing, chic turn, freestyle, and racing. There is an additional fee for course. Tught over Christmas break. Credit is awarded for spring semester. (Contact Department of Parks, Recreation and Tourism Management in October.) Prereq: LS 1470.

LS 3560 Riflery II 1 (2) Students build upon skills previously learned in the basic riflery course, and learn advanced skills, such as using ballistic software and chronographs, precision long range shooting and advanced reloading.

LS 3580 Advanced Shotgun Skeet 1 (2) Introduces students who have taken the basic shotgun course to the shotgun game of Skeet. Students learn the rules and techniques necessary to competitively participate in Skeet.

LS 3890 Intermediate Tennis 1 (3) Develops skills necessary to play at a competitive level of tennis. Students learn mechanically sound tennis skills, court positioning, court movement, proper shot selection, and strategic insight into the game. Prereq: LS 1890.

MATH 1010 Essential Mathematics for the Informed Society 3 (3) Topics include logic and computers, probability and statistics, and financial mathematics. Specific topics include Boolean algebra, digital data formats, randomness, graphical representation of data, inference and estimation; interest, annuities, and amortization. Not open to students who have received credit for MATH 3010, 3020, 3090, or STAT 3010. Prereq: Any MATH or STAT course or a score of 50 or higher on the Clemson Mathematics Placement Test.

MATH 1020 Introduction to Mathematical Analysis 3 (3) Intuitive approach to the concepts and applications of calculus. Topics include functions and graphing, differentiation, and integration. Applications from social, biological, and management sciences are presented. Not open to students who have received credit for MATH 1060. Prereq: Any MATH or STAT course or a score of 60 or higher on the Clemson Mathematics Placement Test.

MATH 1030 Elementary Functions 3 (2) Gateway course for MATH 1060. Comprehensive treatment of functions and analytic geometry with applications including polynomial, rational, algebraic, exponential, logarithmic, and trigonometric functions. Not open to students who have received credit for MATHS 105. To be taken Pass/No Pass only. Prereq: Any MATH or STAT course or a score of 65 or higher on the Clemson Mathematics Placement Test. Coreq: MATH 1031.

MATH 1031 Elementary Functions Laboratory 0 (2) Non-credit laboratory to accompany MATH 1030. Coreq: MATH 1030.
MATH 1040 Precalculus and Introductory Differential Calculus 4 (4) Relevant precalculus and algebra review, limits, continuity and introduction to differential calculus. The combination of MATH 1040 and MATH 1070 covers the same calculus material as MATH 1060. MATH 1040 alone cannot be substituted for any calculus course. To be taken Pass/No Pass only. Open to students who have received credit for MATH 1060. Prereq: Any MATH or STAT course or a score of 65 or higher on the Clemson Mathematics Placement Test.

MATH 1050 Precalculus 5 (4) Extensive treatment of topics chosen to prepare students for the study of calculus. Special emphasis is given to polynomial, rational, exponential, logarithmic, and trigonometric functions and their graphs, as well as basic and analytic trigonometry. Students who have received credit for any other mathematical sciences course will not be allowed to enroll in or receive credit for MATH 1050. To be taken Pass/No Pass only. Coreq: MATH 1051.

MATH 1051 Precalculus Laboratory 0 (2) Non-credit laboratory to accompany MATH 1050. Coreq: MATH 1050.

MATH 1060 Calculus of One Variable I 4 (4) Topics include analytic geometry, introduction to derivatives, computation and application of derivatives, integrals, exponential and logarithmic functions. Includes Honors sections. Prereq: MATH 1030 or MATH 1040 or MATH 1050 or a score of 80 or better on the Clemson Mathematics Placement Test.

MATH 1070 Differential and Integral Calculus 4 (4) Continuation of MATH 1040. Successful completion of MATH 1040 and MATH 1070 is equivalent to the completion of MATH 1060. Continuation of differential calculus and an introduction to integral calculus. Not open to students who have received credit for MATH 1060. Prereq: MATH 1040.

MATH 1080 Calculus of One Variable II 4 (4) Topics include transcendental functions, applications of integration, integration techniques, indeterminate forms, improper integrals, parametric equations, polar coordinates, and infinite series. Includes Honors sections. Prereq: MATH 1060 or MATH 1070.

MATH 1110 Calculus II for Biologists 3 (3) Cooperative learning groups, manipulatives, and concrete models are used to demonstrate logical reasoning, problem-solving strategies, sets and their operations, numeral systems, properties and operations of whole numbers, number theory, prime and composite numbers, divisibility, common factors and multiples. Open to Elementary, Early Childhood, and Special Education majors only. Prereq: Any MATH or STAT course or a score of 50 or higher on the Clemson Mathematics Placement Test.

MATH 1160 Contemporary Mathematics for Elementary School Teachers II 3 (3) Continuation of MATH 1150. Manipulatives and concrete models are used for properties, operations, and problem solving for integers, elementary fractions, rational numbers, and real numbers. Selected topics in statistics and probability are introduced with a hands-on approach to learning. Restricted to Elementary, Early Childhood, and Special Education majors. Prereq: MATH 1150.

MATH 1170 Mathematics for Elementary School Teachers I 3 (2) Problem-solving strategies, logic, algebraic thinking, sets, relations, functions, numeration systems, whole numbers, integers, number theory, fractions, decimals, applications of percent, real numbers with their computational algorithms and properties are explored. Content, according to state standards, is taught with appropriate methodology for teaching K–6. Prereq: MATH 1010. Coreq: MATH 1171.

MATH 1171 Mathematics for Elementary School Teachers I Laboratory 0 (2) Non-credit laboratory to accompany MATH 1170. Coreq: MATH 1170.

MATH 1180 Mathematics for Elementary School Teachers II 3 (2) Simple probability and descriptive statistics are reviewed. Two- and three-dimensional geometry including polygons, polyhedra and their properties; congruence, similarity, and constructions; coordinate system; standard measurement area, surface area, volume and motion geometry are explored. Content, according to state standards, is taught with appropriate methodology for teaching K–6. Prereq: MATH 1010. Coreq: MATH 1181.

MATH 1280 Mathematics for Elementary School Teachers II Laboratory 0 (2) Non-credit laboratory to accompany MATH 1180. Coreq: MATH 1180.

MATH 1190 Introduction to Discrete Methods 3 (3) Topics normally include elementary logic and methods of proof; sets, functions, and relations; graphs and trees; combinatorial circuits and Boolean algebra.

MATH 1370 Problem Solving in Discrete Mathematics 3 (2) Problem-solving approaches to learning mathematics is applied to topics in modern discrete mathematics. Typical selection of topics includes logic and proof, sets, relations, functions, mathematical induction, graphs and trees, counting techniques, recurrence equations. For Bachelor of Science and Bachelor of Arts majors in Mathematical Sciences only. Credit may not be received for both MATH 1390 and MATH 1290. Prereq: MATH 1060 or MATH 1070. Coreq: MATH 1290.

MATH 1290 Problem Solving in Discrete Mathematics Laboratory 0 (2) Non-credit laboratory to accompany MATH 1290. Coreq: MATH 1290.

MATH 1391 Problem Solving in Mathematics Laboratory 0 (2) Non-credit laboratory to accompany MATH 1390. Coreq: MATH 1390.

MATH 1390 Problem Solving in Mathematics 3 (2) Functions and graphs, mathematical modeling, and applications. Applications from management and life and social sciences are presented. Specific topics include linear, quadratic, polynomial, exponential, and logarithmic functions with emphasis on problem solving. Students who have received credit for any other mathematical sciences courses will not be allowed to enroll in or receive credit for MATH 1990. To be taken Pass/No Pass only. Coreq: MATH 1991.

MATH 1991 Problem Solving in Mathematics Laboratory 0 (2) Non-credit laboratory to accompany MATH 1990. Coreq: MATH 1990.

MATH 2060 Calculus of Several Variables 4 (4) Topics include real valued functions of several variables, multiple integration, differential calculus of functions of several variables, vector field theory. Includes Honors sections. Prereq: MATH 1080 or MATH 1110.

MATH 2070 Multivariable Calculus 3 (3) Introduction to the calculus of several variables, differential calculus and optimization of several variables, multiple integrals. Topics from the management sciences are used to illustrate the above concepts. May not be taken by students who have passed MATH 2060. Prereq: MATH 1020 or MATH 1060 or MATH 1070.

MATH 2080 Introduction to Ordinary Differential Equations 4 (4) Introduction to the study of differential equations. Topics include exact, series, and numerical solutions; solutions by means of Laplace transforms; and solutions of systems of differential equations. Includes Honors sections. Prereq: MATH 2060.

MATH 2100 Applied Matrix Algebra 3 (3) Introduction to the basic principles of matrix algebra with applications to the behavioral and managerial sciences. Major areas of application include linear programming, directed graphs, and game theory. Prereq: MATH 1020 or MATH 1060 or MATH 1070.

MATH 2160 Geometry for Elementary School Teachers 3 (3) Informal treatment of the basic concepts of geometry. Open to Elementary, Early Childhood, and Special Education majors only. Prereq: MATH 1160.

MATH 2500 Introduction to Mathematical Sciences 1 (1) Introduction to areas of study, degree options, career choices, and professional development in mathematical sciences. Includes guidelines and requirements for portfolio development and an introduction to ethical issues.

MATH 2990 Creative Inquiry—Mathematical Sciences 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of three credits. Prereq: Consent of faculty member/mentor.

MATH 3020 Statistics for Science and Engineering 3 (3) Calculus based statistics course in methodology for collecting, organizing, and interpreting data. Topics include understanding variability, graphical and numerical summarization of data, introductory probability, normal and related distributions, statistical inference, basic experimental design, and simple linear regression. Statistical software is used. Prereq: MATH 2060.

MATH 3080 College Geometry 3 (3) Theorems and concepts more advanced than those of high school geometry. Treatment of the various topics of the triangle, including the notable points, lines, and circles associated with it. Prereq: MATH 1060 or MATH 1070.
MATH 3110 Linear Algebra 3 (3) Introduction to the algebra of matrices, vector spaces, polynomials, and linear transformations. Includes Honors sections. Preq: MATH 1080 or MATH 1110.

MATH 3150 Advanced Topics in Mathematics for Elementary Teachers 3 (3) Course builds and expands upon content from previous elementary mathematics courses. Covers investigation of two- and three-dimensional shapes; scale and scale factor; ratio and proportional reasoning; relationships between perimeter, area, surface area and volume; relationships between fractions, decimals, and percents. Open to Elementary, Early Childhood, and Special Education majors only. Preq: MATH 2160.

MATH 3160 Problem Solving for Mathematics Teachers 3 (3) Course emphasizes problem solving and builds and expands upon previous mathematics content courses by examining connections between number and operations; algebra; data analysis and probability; geometry; and measurement. Open to Elementary, Early Childhood, and Special Education majors only. Preq: MATH 2160.

MATH 3190 Introduction to Proof 3 (3) Introduces mathematical proofs with topics that include proof techniques, elementary logic, induction, sets, functions, and relations. Preq: MATH 1080 or MATH 1110.

MATH 3600 Intermediate Mathematics Computing 3 (3) Intermediate-level introduction in using computers to solve problems in the mathematical sciences. Fundamental concepts of procedural programming including flow control, modular construction, primitive data structures, recursion, and graphics are applied to problems in applied mathematics, probability, statistics, discrete mathematics, and operations research. Preq: MATH 1080 or MATH 1110.

MATH 3650 Numerical Methods for Engineers 3 (3) Application of undergraduate mathematics and basic engineering principles with emphasis on numerical methods, computer programming, and the use of mathematical software packages in the solution of engineering problems. Preq: ENGR 1090 and MATH 2080, each with a C or better.

MATH 3820 Honors Seminar 1 (1) Weekly seminar to prepare students in Departmental Honors Program for independent senior research. At the end of the second semester, each student must have identified a research topic and a faculty advisor. May be repeated for a maximum of two credits. Preq: Junior standing in departmental honors program.

MATH 3990 Creative Inquiry—Mathematical Sciences 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of three credits. Preq: Consent of faculty member/mentor.

MATH 4020* Statistics for Science and Engineering II 3 (3) Principal topics include simple linear regression, multiple regression and correlation analysis, one-way analysis of variance, multiple comparison, multifactor analysis of variance, experimental design. Computation and interpretation of results are facilitated through use of statistical computer packages. Preq: MATH 3020.

MATH 4030* Introduction to Statistical Theory 3 (3) Principal topics include sampling distributions, point and interval estimation, maximum likelihood estimators, method of moments, least squares estimators, tests of hypotheses, likelihood ratio methods, regression and correlation analysis, introduction to analysis of variance. Includes Honors sections. Preq: MATH 4000.

MATH 4060* Sampling Theory and Methods 3 (3) Probability-based treatment of sampling methodology. Theory and application of estimation techniques are treated using simple and stratified random sampling, cluster sampling, and systematic sampling. Preq: MATH 4000; and one of MATH 3020 or STAT 2300 or STAT 3090.

MATH 4070* Regression and Time-Series Analysis 3 (3) Theory and application of the regression and time series. Approaches to empirical model building and data analysis are treated. Computation and interpretation of results are facilitated through the use of interactive statistical packages. Preq: MATH 4110 and MATH 4000; and one of MATH 3020 or STAT 2300 or STAT 3090.

MATH 4080* Exploration and Analysis of Secondary Mathematics 3 (3) In-depth exploration and analysis of important underlying ideas in the secondary mathematics curriculum. An emphasis is placed on assessing and proof as students investigate topics such as algebra, geometry, probability, functions, statistics, and calculus. Preq: MATH 2060.

MATH 4090* Number Theory 3 (3) Introduction to theory of integers and related number systems. Topics include historical development, principle of mathematical induction, divisibility, primes, congruences, number-theoretic functions, primitive roots, quadratic residues, and diophantine equations. Preq: MATH 1080 or MATH 1110.

MATH 4110* Introduction to Combinatorics 3 (3) Introductory course in combinatorial analysis. Topics include enumeration, graph theory, posets, and extremal combinatorics. Preq: MATH 3100; and either MATH 1190 or MATH 3190.

MATH 4120* Algebra I 3 (3) Provides a first introduction to algebra with topics including modular arithmetic, ring theory and group theory. Preq: MATH 3110 and MATH 3190.

MATH 4130* Algebra II 3 (3) A continuation of MATH 4120. Topics may include advanced group theory (including Sylow theorems, some classification of groups); advanced ring theory; field theory; and Galois theory. Preq: MATH 4120.

MATH 4190* Discrete Mathematical Structures I 3 (3) Applies theoretical concepts of sets, functions, binary relations, graphs, Boolean algebras, propositional logic, semigroups, groups, homomorphisms, and permutation groups to computer characterizations and design, words over a finite alphabet and concatenation, binary group codes, and other communication or computer problems. Includes Honors sections. Preq: MATH 3110.

MATH 4300 Actuarial Science Seminar I 1 (1) Problem-solving seminar to prepare students for the Society of Actuaries’ Exam P or the Casualty Actuarial Society’s Exam 1 (Probability). Preq: MATH 4000.

MATH 4310 Theory of Interest 3 (3) Comprehensive treatment of the theory of interest including from a calculus-based continuous viewpoint. Topics include simple and compound interest and discount, nominal and effective rates, force of interest, basic and general annuities, yield rates, amortization and sinking funds, and applications to bonds, mortgages, and other securities. Preq: MATH 2060.

MATH 4320 Actuarial Science Seminar II 1 (1) Problem-solving seminar to prepare students for the Society of Actuaries’ Exam FM or the Casualty Actuarial Society’s Exam 2 (Financial Mathematics). Preq: MATH 4310.

MATH 4340* Advanced Engineering Mathematics 3 (3) Fourier series, Laplace and Fourier transform, and numerical methods for solving initial value and boundary-value problems in partial differential equations are developed. Applications to diffusion wave and Dirichlet problems are given. Matrix methods and special functions are utilized. Preq: MATH 2080.

MATH 4350* Complex Variables 3 (3) Elementary functions; differentiation and integration of analytic functions; Taylor and Laurent series; contour integration and residue theory; conformal mapping; Schwartz-Christoffel transformation. Includes Honors sections. Preq: MATH 2060.

MATH 4400* Linear Programming 3 (3) Introduction to linear programming covering the simplex algorithm, duality, sensitivity analysis, network models, formulation of models, and the use of simplex codes to solve, interpret, and analyze problems. Includes Honors sections. Preq: MATH 2060 and MATH 3110.

MATH 4410* Introduction to Stochastic Models 3 (3) Introductory treatment of stochastic processes, finite-state Markov chains, queuing, dynamic programming, Markov decision processes, reliability, decision analysis, and simulation. Both theory and applications are stressed. Includes Honors sections. Preq: MATH 4000.

MATH 4420* Advanced Mathematical Programming 3 (3) Theory, methodology, and applications of integer and nonlinear programming. Topics include model development, computer solutions, branch and bound, unconstrained and constrained optimization algorithms, complexity and convergence analysis. Case studies are included. Preq: MATH 4400.

MATH 4500 Introduction to Mathematical Models 3 (3) Includes a study of the modeling process and examples of existing models chosen from physical, biological, social, and management sciences, depending on the instructor. Written and oral report is required for at least one of the models studied. May be repeated for a maximum of six credits. Preq: MATH 3600 or MATH 3650; and one of MATH 3020 or STAT 2300 or STAT 3090.

MATH 4530* Advanced Calculus I 3 (3) Basic properties of the real number system, sequences and limits, continuous functions, uniform continuity, and differentiation. Includes Honors sections. Preq: MATH 2060 and MATH 3190.
MECHANICAL ENGINEERING

ME 2000 Sophomore Seminar 1 (1) Seminars address the Mechanical Engineering program, the profession, best student practices, and career paths. Invited presenters and faculty provide lectures and demonstrations. Preq or concurrent enrollment: ME 2010 with a C or better.

ME 2010 Statics and Dynamics for Mechanical Engineers 5 (3) Vector analysis of the effects of forces, couples, and force-systems on rigid bodies. Conditions of static equilibrium for simple structures, including pulleys, trusses, beams, frames. Kinematics and kinetics of general rigid body motion in 2-D. Applications of Newton’s laws, energy methods, and impulse momentum methods to simple machine elements. Preq: MATH 2060 or MATH 1070, with a C or better; and MATH 1090 and PHYS 1220, each with a C or better, and ENGR 1070 and ENGR 1080, or ENGR 1410 with a C or better. Preq or concurrent enrollment: ENGR 1090 and ENGR 1050 and PHYS 1200 and MATH 2060, each with a C or better. Preq or concurrent enrollment: ME 2011.

ME 2011 Statics and Dynamics for Mechanical Engineering Laboratory 0 (4) Non-credit laboratory to accompany ME 2010 and ME 2010.

ME 2030 Foundations of Thermal and Fluid Systems 12 (6) Introduction to control volumes, conservation laws of mass, momentum, and energy. Concepts of work and heat are introduced, including rate forms. Properties of pure substances. Preq: MATH 2060 and PHYS 1210, each with a C or better. Preq or concurrent enrollment: ME 2220 with a C or better.

ME 2040 Mechanics of Materials 3 (3) Relationships between external loads on solid bodies or members and the resulting internal effects and dimension changes, including the derivation of rational formulas for stresses and deformations and the identification and use of important mechanical properties of engineering materials. Includes Honors sections. Preq: MATH 2060 and ME 2010, each with a C or better. Preq or concurrent enrollment: MATH 2080 and ME 2220 and MSE 2100, each with a C or better.

ME 2220 Mechanical Engineering Laboratory I 2 (6) Discovery of mechanical engineering principles and phenomena. Introduction to laboratory safety practices, instrumentation, calibration techniques, data analysis, and report writing. Introduction to basic manufacturing processes. Preq: PHYS 1220 and PHYS 1240 and MATH 1080, each with a C or better.

ME 2900 Creative Inquiry in Mechanical Engineering 1-3 (1-3) Students work in extended teams (including sophomores, juniors, seniors, and graduate students) addressing research and development problems under the supervision of a faculty lead. Engineering principles and best practices will be employed. Team work, professionalism, and communication skills are emphasized. May be repeated for a maximum of nine credits. Preq: consent of instructor.

ME 3000 Junior Honors Seminar 0 (0) Acquaints students enrolled in Departmental Honors Program with current research activities in the Department of Mechanical Engineering. Faculty provide seminars in which research interests are summarized. These seminars are planned to prepare students in choosing a research topic for the senior thesis. Preq: Junior standing in departmental honors program.

ME 3030 Thermodynamics 3 (3) Study of the second law and entropy. Includes applications to fixed mass systems and control volumes; vapor and gas power cycles; mixtures of gases; vapor psychrometrics; combustion and the third law. Thermochemical equilibrium. Preq: ME 2030 with a C or better.

ME 3100 Heat Transfer 3 (3) Study of steady and transient heat conduction, free and forced convection, radiation, and multi-mode heat transfer. Emphasizes analytical and numerical solutions to engineering heat transfer problems with a design orientation. Preq: MATH 2080 and ME 3080 each with a C or better. Preq or concurrent enrollment: MATH 3650 with a C or better.

ME 3550 Modeling and Analysis of Dynamic Systems 3 (3) Presents techniques for developing and analyzing models of mechanical, electrical, electromechanical, fluid and thermal systems. Transient, steady-state and frequency response are determined using analytical and numerical methods. Covers tools for stability analysis and state-space representation. Covers linear free- and forced-vibrations in single- and multi-degree-of-freedom systems with lumped-parameters representation, methods of vibration absorption and isolations. Preq: ECE 2070 and ECE 2080 and MATH 2080 and MATH 3650, each with a C or better. Preq or concurrent enrollment: ME 3070 with a C or better.

ME 3650 Fundamentals of Machine Design 3 (3) Introduction to failure theory and fatigue analysis. Integration of these topics with selected portions of mechanics of materials and application of them to the design and analysis of machine elements. Preq: ME 2040 and ME 3070, each with a C or better. Preq or concurrent enrollment: MATH 3650, with a C or better.

ME 3700 Foundations of Mechanical Systems 3 (3) Introduction to physical elements and mechanisms that define basic mechanical engineering systems. Application of kinematic and kinetic analysis to mechanisms and the role of design in mechanisms. Preq: ME 2010 with a C or better. Preq or concurrent enrollment: ME 2040 with a C or better.
ME 3080 Fluid Mechanics 3 (3) Behavior of fluids at rest or in motion, including the study of fluid properties. Emphasizes a rational, analytical approach from which are developed basic principles of broad applicability to all fields of engineering. Includes Honors sections. Preg: ME 2010 and ME 2030, each with a C or better. Preg or concurrent enrollment: MATH 2080 with a C or better.

ME 3100 Thermodynamics and Heat Transfer 3 (3) Introduction to thermodynamics and heat transfer for nonmajors: properties of liquids and gases, first and second law analysis, introduction to cycles for power and refrigeration, heat flow by conduction and radiation, and convective heat flow and heat exchangers. Preg: MATH 2060 and PHYS 2210, each with a C or better, and enrollment in an engineering curriculum other than Mechanical Engineering.

ME 3120 Manufacturing Processes and Their Application 3 (3) Fundamental principles associated with production processes and their application to the manufacture of products from metals, polymers, ceramics, and composites. Emphasizes the physical and quantitative aspects of processing, the selection of processes to create products, and the identification processes used to manufacture existing products. Preg or concurrent enrollment: ME 4010 with a C or better.

ME 3330 Mechanical Engineering Laboratory II 2 (6) Mechanical engineering principles and phenomena are reinforced through student conducted experiments. Presentation of fundamentals of instrumentation, calibration techniques, data analysis, and report writing in the context of laboratory experiments. Preg: MATH 2080 and ME 2030 and ME 2220, each with a C or better.

ME 3900 Creative Inquiry in Mechanical Engineering II 1-3 (1-3) Students work in extended teams (including sophomores, juniors, seniors, and graduate students) addressing research and development problems under the supervision of a faculty lead. Engineering principles and best practices will be employed. Team work, professionalism, and communication skills are emphasized. May be repeated for a maximum of nine credits. Includes Honors sections. Preg: Consent of instructor.

ME 4000 Senior Seminar 1 (1) Seminars address the problems encountered by engineering graduates in professional practice. Invited lecturers as well as faculty provide the lectures and demonstrations. Preg or concurrent enrollment: ME 4010 with a C or better.

ME 4010 Mechanical Engineering Design 3 (3) Project-oriented course in mechanical engineering emphasizing the role of analysis, synthesis, and evaluation in design and on written reporting of design solutions. Influence of economics and optimization, concurrent development, integration of design and manufacturing, and system creation are utilized for engineering design decisions. Preg: ENGL 3140 and ME 3030 and ME 3040 and ME 3050 and ME 3060, each with a C or better (concurrent enrollment in one of the preceding ME courses is permitted, but student must request a prerequisite override from the undergraduate coordinator). Preg or concurrent enrollment: ME 3120 with a C or better.

ME 4020 Internship in Engineering Design 3 (1) Creative application of general engineering knowledge in solving an open-ended design problem provided by a sponsor typically external to the University. Progress is evaluated by a faculty jury. Students present results to the jury and sponsor through written reports and oral presentations addressing University written/oral competency goals. Students must have completed all required 3000-level ME courses before enrolling in this course. Preg: ME 4010 with a C or better. Coreq: ME 4021.

ME 4021 Internship in Engineering Design Laboratory 0 (3) Non-credit laboratory to accompany ME 4020. Coreq: ME 4020.

ME 4030 Control and Integration of Multidomain Dynamic Systems 3 (3) Introduction of control theory with sensor, actuator, and dynamic plant integration to develop, model, control, and analyze mathematical models of dynamic systems, including mechanical, electrical, electromechanical, hydraulic and pneumatic systems. Transient dynamics are determined using analytical and numerical methods with feedback control systems. Strong emphasis is placed on system design using computer simulation tools. Preg: ME 3050 with a C or better.

ME 4150 Undergraduate Research 1-3 (1-3) Individual research projects conducted under the direct supervision and guidance of a faculty member. May be repeated for a maximum of six credits. Includes Honors sections. Preg: Consent of instructor.

ME 4170* Mechatronics System Design 3 (2) Mechatronics integrates control, sensors, actuators, and computers to create a variety of electromechanical products. Includes concepts of design, appropriate dynamic system modeling, analysis, sensors, actuating devices, and real time microprocessor interface and control. Laboratory experiments, simulation, and design projects are used to exemplify the course concepts. Preg: ME 3050 with a C or better. Coreq: ME 4171.

ME 4171 Mechatronics System Design Laboratory 0 (3) Non-credit laboratory to accompany ME 4170. Coreq: ME 4170.

ME 4180 Finite Element Analysis in Mechanical Engineering Design 3 (2) Introduction to the finite element method and solid modeling, finite element modeling and analysis using commercial codes; analysis strategies using finite elements; applications to heat transfer, fluid flow, and structures. Preg: ME 2040 and ME 3040 and ME 3080, each with a C or better. Coreq: ME 4181.

ME 4181 Finite Element Analysis in Mechanical Engineering Design Laboratory 0 (1) Non-credit laboratory to accompany ME 4180. Coreq: ME 4180.

ME 4200* Energy Sources and Their Utilization 3 (3) Provides the mechanical engineer with the basic concepts required to understand thermal-hydraulic behavior of nuclear reactors in normal operating conditions. Preg: ME 3040 with a C or better.

ME 4250 Aircraft Conceptual Design 3 (3) This course develops the aspects involved in the conceptual design of an aircraft. Focus is on the interplay between goals and constraints in the process of the design of a subsonic aircraft. Preg: ME 3080.

ME 4260* Nuclear Energy 3 (3) Engineering methods and science principles are considered for the design of components to nuclear power stations. A systems level understanding is emphasized. Includes nuclear fuel cycle and regulatory considerations. Preg: CE 3410; or CHE 3210; or EES 3100; or both ME 3030 and ME 3040; or ME 3100; or MSE 3270; or PHYS 3220; each with a C or better.

ME 4280 Thermal-Hydraulics of Nuclear Reactors 3 (3) Topics include friction factors, head loss, flow capacities, piping networks, flow measurement, pumps, control valves, and hydraulic and pneumatic components. Preg: ME 3080 and ME 3330, each with a C or better.

ME 4210* Introduction to Compressible Flow 3 (3) Introductory concepts to compressible flow; methods of treating one-dimensional gas dynamics including flow in nozzle-sand diffusers, normal shocks, moving and oblique shocks, Prandtl-Meyer Flow, Fanno Flow, Rayleigh Flow, and reaction propulsion systems. Preg: ME 3030 and ME 3080, each with a C or better.

ME 4220* Design of Gas Turbines 3 (3) Guiding principles in gas turbine cycles are reviewed. Turbine and compressor design procedures and performance prediction for both axial and radial flow machines are presented. Methods of design of rotary heat-exchangers and retrofitting gas turbine for regenerative operation are presented. Design projects are used to illustrate the procedures. Preg: ME 3080 with a C or better.

ME 4230* Introduction to Aerodynamics 3 (3) Basic theories of aerodynamics are presented for the purpose of accurately predicting the aerodynamic forces and moments which act on a vehicle in flight. Preg: ME 3080 with a C or better.

ME 4250 Aircraft Conceptual Design 3 (3) This course develops the aspects involved in the conceptual design of an aircraft. Focus is on the interplay between goals and constraints in the process of the design of a subsonic aircraft. Preg: ME 3080.

ME 4260* Nuclear Energy 3 (3) Engineering methods and science principles are considered for the design of components to nuclear power stations. A systems level understanding is emphasized. Includes nuclear fuel cycle and regulatory considerations. Preg: CE 3410; or CHE 3210; or EES 3100; or both ME 3030 and ME 3040; or ME 3100; or MSE 3270; or PHYS 3220; each with a C or better.

ME 4280 Thermal-Hydraulics of Nuclear Reactors 3 (3) Provides the mechanical engineer with the basic concepts required to understand thermal-hydraulic behavior of nuclear reactors in normal operating conditions. Preg: ME 3040 with a C or better.

ME 4290* Thermal Environmental Control 3 (3) Mechanical vapor compression refrigeration cycles, refrigerants, thermoelectrical cooling systems, cryogenics, thermodynamic properties of air, psychometric charts, heating and cooling coils, solar radiation, heating and cooling loads, insulation systems. Preg: ME 3030 and ME 3080, each with a C or better.

ME 4310 Applied Fluids Engineering 3 (3) Applications-oriented course in industrial fluids engineering, primarily directed toward the analysis and design of piping systems and components for liquid and gas flow. Topics include friction factors, head loss, flow capacities, piping networks, flow measurement, pumps, control valves, and hydraulic and pneumatic components. Preg: ME 3080 and ME 3330, each with a C or better.
ME 4320* Advanced Strength of Materials 3 (3) Topics in strength of materials not covered in ME 3020. Three-dimensional stress and strain transformations, theories of failure, shear center, unsymmetrical bending, curved beams, and energy methods. Other topics such as stress concentrations and fatigue concepts are treated as time permits. Preq: ME 2040 with a C or better.

ME 4400 Materials for Aggressive Environments 3 (3) Emphasizes the engineering aspects of selecting materials for applications in aggressive environments. Various types of materials degradation are discussed as are methods for wear and corrosion prevention, including especially engineering design and materials selection approaches. Structural metallic alloys are emphasized; however, technically important ceramics and polymers are also discussed. Preq: ME 3060 with a C or better.

ME 4440 Mechanical Engineering Laboratory III 2 (6) Continuation of ME 3330. Mechanical engineering principles and phenomena are reinforced through student-conducted experiments. Presentation of fundamentals of instrumentation, calibration techniques, data analysis, and report writing in the context of laboratory experiments. Preq: ME 3330; and MATH 3020 or STAT 4110, each with a C or better. Preq or concurrent enrollment: ME 3060 with a C or better.

ME 4530* Dynamic Performance of Vehicles 3 (3) Introduces techniques for analyzing the dynamic behavior of vehicles. Types of vehicles to be considered are chosen from aircraft, surface ships, automobiles and trucks, railway vehicles, and magnetically levitated vehicles. Preq: ME 3050 with a C or better.

ME 4540 Design of Machine Elements 3 (3) Design of common machine elements including clutches, brakes, bearings, springs, and gears. Optimization techniques and numerical methods are employed as appropriate. Preq: ME 3060 with a C or better.

ME 4550* Design for Manufacturing 3 (3) Concepts of product and process design for automatic manufacturing are considered. Topics include product design for automated manufacturing, inspection and assembly, using automation, industrial robotics, knowledge-based systems and concepts of flexible product manufacture. Preq: ME 3060 with a C or better. Preq or concurrent enrollment: ME 3120 with a C or better.

ME (ECE) 4570 Fundamentals of Wind Power 3 (3) Introduces wind turbine systems, including wind energy potential and application to power generation. Topics include wind energy principles, wind site assessment, wind turbine components, power generation machinery control systems, connection to the electric grid, and maintenance. May also be offered as ECE 4570. Preq: ECE 2070 or ECE 3200, with a C or better.

ME 4710* Computer-Aided Engineering Analysis and Design 3 (2) Students are exposed to geometric and solid modeling, finite elements, optimization, and rapid-prototyping. Students design an artifact, represent it on the computer, analyze it using FEA, then optimize before prototyping it. Emphasizes use of computer-based tools for engineering design. Preq: ENGR 1090 and ME 2020, each with a C or better. Coreq: ME 4711.

ME 4711* Computer-Aided Engineering Analysis and Design Laboratory 0 (3) Non-credit laboratory to accompany ME 4710. Coreq: ME 4710.

ME 4900 Creative Inquiry in Mechanical Engineering III 3 (3) Students work in extended teams (including sophomores, juniors, seniors, and graduate students) addressing research and development problems under the supervision of a faculty lead. Engineering principles and best practices will be employed. Team work, professionalism, and communication skills are emphasized. May be repeated for a maximum of nine credits. Preq: Consent of instructor.

ME 4930* Selected Topics in Mechanical Engineering 1-6 (1-6) Study of topics not found in other courses. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

MANAGEMENT

MGT 2010 Principles of Management 3 (3) Management’s role as a factor in economic production. Functions of management, principles of organization, and behavior in organizations. Includes Honors sections.

MGT 2150 Management—Personal Computer Applications 3 (3) Personal computer applications that support managers. Students learn from hands-on work rather than lecture.

MGT 2970 Creative Inquiry—Management 1-3 (1-3) Students plan, develop, and execute a research project related to the field of management and present their findings. The development of the project includes lectures about research design, conduct, and data analysis. May be repeated for a maximum of six credits. Includes Honors sections.

MGT 3050 Economics of Transportation 3 (3) Topics include history and structure of transportation systems in the United States, the nature of transportation costs and rates, transportation systems as factors in industrial location, transportation policy, and the role of transportation in national security. Preq: Junior standing.

MGT (ECON) 3060 Managerial Economics 3 (3) Uses tools of economic analysis in classifying problems in organizing and evaluating information, and in comparing alternative courses of action. Bridges the gap between economic theory and managerial practices. May not be used to satisfy requirements for a degree in Economics. May also be offered as ECON 3060. Preq: ECON 2110.

MGT 3070 Human Resource Management 3 (3) Principles, concepts, and techniques concerned with effective and efficient utilization of personnel. Emphasizes motivation, leadership, and human behavior related to employer-employee relations. Topics include personnel recruitment, classification, selection, training, development, and performance evaluation. Includes Honors sections. Preq: STAT 3090 or equivalent (IE 3610 or MATH 3020 or PSYC 3090).

MGT 3100 Intermediate Business Statistics 3 (3) Quantitative methods of the management scientist with applications to business and industrial problems. Topics include regression analysis, correlation analysis, analysis of variance, sampling, and nonparametric methods. Includes Honors sections. Preq: STAT 3090 or equivalent (IE 3610 or MATH 3020 or PSYC 3090); and MGT 2180 or equivalent (CPSC 2200).

MGT 3120 Decision Models for Management 3 (3) Exploration of ways in which management science decision models can help in making sound managerial decisions. Problem solving is Excel-based. Topics include linear programming, project scheduling, and simulation. Includes Honors sections. Preq: STAT 3090 or equivalent (IE 3610 or MATH 3020 or PSYC 3090); and MGT 2180 or equivalent (CPSC 2200).

MGT (ELE) 3150 New Venture Creation 3 (3) Through the development of a business plan, the course focuses on creating an organization capable of effectively exploiting a viable opportunity. Topics include organization strategy and design, start-up capital, operations and sourcing issues, leadership, team building, and management of rapid growth. May also be offered as ELE 3150. Preq: ELE 3010.

MGT 3170 Logistics Management 3 (3) Management of physical distribution and supply systems with emphasis on design concepts, cost determinants, and control. Preq: MGT 3120.

MGT 3180 Management of Information Systems 3 (3) Introduction to information systems concepts and applications in business. Topics include software, hardware, decision support and knowledge based systems, database, information systems design and implementation, and the management of information systems. Preq: MGT 210.

MGT 3500 Introduction to Business Analytics 3 (3) Introduces students to the common language, terminology and concepts related to business analytics, as well as to the business analyst profession. Students learn foundational technical, business and statistical concepts and skills. Preq: ACCT 3220 or MGT 3180.

MGT 3900 Operations Management 3 (3) Examines the role of operations management in both manufacturing and service organizations. Discusses the concepts, tools, and techniques for managing the operations function. Topics include operations strategy, design, planning, and control. Preq: STAT 3090 or equivalent (IE 3610 or MATH 3020 or PSYC 3090); and MGT 2180 or equivalent (CPSC 2200).
MGT 3980 Internship in Management 1-3 (1-3) Faculty-supervised management internship to give students learning opportunities that support their classroom experiences. Requires at least 150 hours of internship work per credit hour received. Course enrollment and internship must occur in the same semester. May be repeated for a maximum of three credits. To be taken Pass/No Pass only. Preq: Junior standing and a 2.0 cumulative grade-point average and consent of instructor.

MGT 4000 Management of Organizational Behavior 3 (3) Provides management students with a framework for understanding how behavior within business organizations is managed. Particular emphasis is on integrating management theory with recent developments in the behavioral sciences with distinct management applications. Theory, research, and business applications are considered. Preq: MGT 2010.

MGT 4020 Operations Planning and Control 3 (3) Managing, planning, and controlling production and service operations emphasizing demand forecasting, aggregate planning, production scheduling, and inventory management. Includes Honors sections. Preq: MGT 3900.

MGT 4030 Special Problems 1-3 (1-3) Courses of Instruction 2015-2016 Undergraduate Announcements

MGT 4110 Project Management 3 (3) Follows the Toyota Production System for continuous improvement, including a systematic approach to selecting improvement areas, determining how to improve, plan, and manage the improvement process. Topics include identifying root causes of problems, and developing and implementing solutions to problems. Preq: MGT 3900.

MGT 4120 Sourcing and Supplier Management 3 (3) Examines the use of scientific methods for the design of operating systems for both manufacturing and services. Special emphasis is on the development of the Toyota Production System for continuous improvement and the application of the relevant techniques to the design of facilities, jobs, and systems. Preq: MGT 3900.

MGT 4160 Special Topics in Human Resources 3 (3) In-depth examination of advanced topics in Human Resource Management based on the developments in the Human Resource profession and interests of faculty. Emphasizes the strategic formulation and application of these topics to support organizational leadership. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: MGT 3070 and MGT 4000.

MGT 4161 Special Topics in Management 3 (3) Survey of theoretical and institutional complexities of international business operations. Topics include exporting, importing, foreign investment, multinational corporations, and international payment system. Preq: Junior standing.

MGT 4162 Global Supply Chain Management 3 (3) Design, planning, control, and improvement of supply chains for competing effectively in the context of global operations. Topics include supply chain structure and configuration, approaches to intra-organizational and interfirm integration, and complexities of material, information, and cash flows across international borders. Preq: MGT 3900.

MGT 4163 Compensation Management 3 (3) Examination of compensation employees seek in exchange for their work and contributions. Topics include government and labor influences; job content analysis, description, and evaluation; developing pay structures; measuring and paying for performance; employee benefits; administration of the compensation plan; executive, managerial, professional, and sales. Preq: MGT 3070 and MGT 4000.

MGT 4164 Managing Continuous Improvement 3 (3) Examination of issues related to continuous improvement, including a systematic approach to selecting improvement areas, determining how to improve, plan, and manage the improvement process. Topics include selecting performance measurements, using teams to achieve breakthrough change, identifying root causes of problems, and developing and implementing solutions to problems. Preq: MGT 3900.

MGT 4165 Personnel Interviewing 3 (3) Helps students understand current interviewing theory, conduct an employment interview, and advise their future employers how to improve interviewing programs. Topics include job analysis, legal issues, types of interviews, and evaluating applicants. Preq: MGT 3070 or MGT 4000.

MGT 4166 White-Collar Crime 3 (3) White-collar crime and corruption are examined from a managerial perspective. Topics include financial crimes, crimes against consumers, environmental crimes, acts of institutional corruption, the impact of organized crime on legitimate businesses, and computer crime. Preq: Senior standing. Preq or concurrent enrollment: FIN 3060.

MGT 4167 Negotiation 3 (3) Focuses on principles and practice in business negotiations. Topics include negotiating concepts, strategies, situational applications, and practice in applied techniques. Situations include negotiation in sales, customer relations, global nuances in negotiation situations, employee management, and career development. Preq: Senior standing.

MGT 4168 International Perspectives in Industrial Management 1-6 (1-6) Provides an international perspective to industrial management via organized plant visits to businesses in a foreign country and lectures by and discussions with senior operations managers. Cultural visits and lectures are also organized to provide a holistic perspective to covering cultural and economic environment of the host country. Students are responsible for travel costs. May be repeated for a maximum of six credits. May also be offered as IE 4440. Preq: Consent of instructor.

MGT 4170 Project Seminar in Management 3 (3) Follows the traditional systems development life cycle (SDLC), although alternative methodologies are also discussed. Focuses on earlier phases of the SDLC, from IS planning through specification of structured requirements and on the methods, techniques, and tools used to determine information requirements and their unambiguous documentation. Preq: MGT 3180; or MGT 2010 and ACCT 3220; or MGT 2010 and CPSC 2150 and CPSC 2310.

MGT 4180 Systems Implementation 3 (3) Builds upon skills of programming, database, and systems analysis and design by involving students with the later phases of the systems development life cycle (SDLC). Students design and develop a system using various platforms. Focus is on the logical and physical system design. Preq: CPSC 4620 or MGT 4520.
MICR 4050* Advanced Microbial Ecology of Humans 3 (3) Investigation of the complex ecological relationships between microbes and their human hosts, including investigation of the normal microbial community in various body systems, factors that change the microbiota, and the role of the microbiota in normal development, health and disease of the host. Preq: MICR 4010 with a grade of C or better.

MICR 4070* Food and Dairy Microbiology 4 (3) Physical-chemical factors limiting survival and growth of microorganisms during processing and manufacturing of food and dairy products. Standard methods for enumerating and identifying indicator bacteria, yeasts, molds, and microbes producing food and food-borne illness. Starter cultures, fungal toxins, microbial cell injury and standards for food and dairy products. Includes Honors sections. Preq: MICR 3050; and one of BCHM 3050 or CH 2010 or CH 2230. Coreq: MICR 4071.

MICR 4110* Soil Microbiology 3 (3) Role of microorganisms in the decomposition of organic substances, transformation of nitrogen and mineral substances in the soil; interrelationships between higher plants and microorganisms; importance of microorganisms in soil fertility. Includes Honors sections. Preq: MICR 3050; and MICR 4100 or PES 4900.

MICR 4110* Pathogenic Bacteriology 3 (3) Study of pathogenic bacteria and their virulence mechanisms. Emphasizes host-microbe interactions, responses to infection and treatment, and research strategies for various topics of bacterial pathogenesis. Includes Honors sections. Preq: MICR 3050 and MICR 4120 and MICR 4140.

MICR 4120 Bacterial Physiology 3 (3) Consideration of the cytology, physiology, metabolism, and genetics of bacteria. Includes studies of growth and death, reproduction and mutation, nutrition and metabolic pathways, regulatory mechanisms, and effects of environment. Includes Honors sections. Preq: CH 2240 and MICR 3050; and either BCHM 3010 or BCHM 3050.

MICR 4130* Industrial Microbiology 3 (2) Microbial aspects of large-scale processes for the production of foods, antibiotics, enzymes, fine chemicals, and beverages. Topics include strain selection, culture maintenance, biosynthetic pathways, continuous cultivation and production of single cell protein. Includes Honors sections. Coreq: MICR 4131.

MICR 4131* Industrial Microbiology Laboratory 0 (3) Non-credit laboratory to accompany BIOL 4130. Coreq: MICR 4130.

MICR (AVS, BIOL) 4140* Basic Immunology 3 (3) Introduction to the immune system of vertebrate animals, with an emphasis on structure, function, regulation, and cellular and molecular mechanisms of immune responses. Includes honors sections. May also be offered as AVS 4140 or BIOL 4140. Preq: BIOL 4610 and MICR 3050.
MICR 4150* Microbial Genetics 3 (3) Investigates the molecular basis of microbial lives. Topics include essential genes involved in DNA, RNA and protein metabolism; mutations and genome evolution; global gene regulation; and genetic analysis, using both forward and reverse genetics. Includes Honors sections. Preq: MICR 4120 and BCHM 3010 or BCHM 3050. Non-Microbiology majors do not have to have taken MICR 4120, but must request a registration override from the instructor to enroll in this course.

MICR 4160 Introductory Virology 3 (3) Introduction to the field of virology, including animal, bacterial, and plant viruses. Topics include nomenclature and classification, biochemical and biophysical characteristics, mechanisms of replication, chemotherapy, and techniques for isolation, assay, and purification. Includes Honors sections. Preq: MICR 3050; and either BCHM 3010 or BCHM 3050.

MICR 4170* Cancer and Aging 3 (3) Discusses alterations that occur at cellular, tissue, cellular and tissue levels during cell transformation and aging. Topics include the cell cycle division, signal transduction pathways, oncogenes and tumor suppressors, cell death and cell aging. Includes Honors sections. Preq: MICR 3050 and BIOL 4610; and either BCHM 3010 or 3050.

MICR 4190* Selected Topics in Molecular Medicine 3 (3) Introduction to various areas of molecular medicine. Examines the latest research and developments in molecular medicine. Designed for students interested in medicine and biomedical research. Graduate students may repeat for a maximum of six credits. Preq: BCHM 3010 or BCHM 3050 or MICR 3050.

MICR 4210 Pathogenic Bacteriology Laboratory 1 (3) Complements the pathogenesis research topics covered in the pathogenic bacteriology lecture. These topics are important at practical levels for prevention and treatment of bacterial disease. Laboratory is used to teach pathogen handling, basic identification techniques, and modern molecular protocols for pathogen identification. Preq: MICR 4140. Preq or concurrent enrollment: MICR 4110.

MICR 4220 Bacterial Physiology Laboratory 1 (3) Laboratory topics corresponding to MICR 4120 lecture. The course will train students in the proper handling of bacteria and will teach techniques for growing and maintaining bacterial cultures while avoiding contamination. Preq or concurrent enrollment: MICR 4120.

MICR (AVS, BIOL) 4240 Immunology Laboratory 1 (3) This course is designed to apply the knowledge gained in MICR 4140, Immunology lecture, in an applied setting. The experiments in this beginning immunology laboratory are designed to study both the innate and acquired immune systems. Experimentation into the formation, function and detection of antibodies provides students with skills in basic immunologic techniques. May also be offered as AVS 4240 or BIOL 4240. Preq or concurrent enrollment: MICR 4140.

MICR 4250* Microbial Genetics Laboratory 1 (3) Complements the genetics topics covered in the Microbial Genetics lecture. These topics are important at practical levels for molecular and genetics studies. The laboratory is used to teach basic cloning techniques, the basis of blue/white screening, isolation of mutants, calculation of mutation rate, as well as gene regulation. Preq or concurrent enrollment: MICR 4150.

MICR 4270 Cancer and Aging Laboratory 1 (3) The laboratory is used to teach the basic molecular protocols for cancer and aging research, and will help students to understand the mechanisms of cancer and aging discussed in lecture. Preq or concurrent enrollment: MICR 4170.

MICR 4300* Soil Microbiology Laboratory 1 (3) Examines microbes residing in the soil and their effects on the soil substratum and resident plant communities. Topics include biogeochemistry, microbial isolation, micromos development, and characterization of soil microbial communities. Preq or concurrent enrollment: MICR 4100.

MICR 4310 Microbial Diversity and Ecology Laboratory 1 (3) Provides a laboratory experience to complement topics covered in the Microbial Diversity and Ecology lecture. These topics are important at practical levels to better understand the diversity of microbes in various ecosystems. The laboratory is used to learn sampling techniques, preparation of microbial media, basic identification techniques, and modern molecular protocols for microbe identification, such as PCR and 16S rDNA gene sequencing. Preq or concurrent enrollment: MICR 4100.

MICR 4500 Advanced Microbiology Laboratory I 2 (1) Application of knowledge and techniques learned in the Introductory Microbiology Lab with new topics on microbial ecology, diversity and physiology. Experiments in soil, marine and environmental microbiology will be conducted. Preq: MICR 4010. Coreq: MICR 4501.

MICR 4501 Advanced Microbiology Laboratory I Laboratory 0 (2) Non-credit laboratory to accompany MICR 4500. Coreq: MICR 4500.

MICR 4510 Advanced Microbiology Laboratory II 2 (1) Application of knowledge and techniques learned in the Advanced Microbiology Lab I with new topics in microbial cell biology and microbial genetics. Preq: MICR 4120 and MICR 4500. Coreq: MICR 4511.

MICR 4511 Advanced Microbiology Laboratory II Laboratory 0 (2) Non-credit laboratory to accompany MICR 4510. Coreq: MICR 4510.

MICR 4520 Advanced Microbiology Laboratory III 2 (1) Application of knowledge and techniques learned in the Advanced Microbiology Labs I and II with new topics on pathogenic bacteriology, parasitology, virology and immunology. Preq: MICRO 4510. Coreq: MICR 4521.

MICR 4521 Advanced Microbiology Laboratory III Laboratory 0 (2) Non-credit laboratory to accompany MICR 4520. Coreq: MICR 4520.

MICR (BIOL) 4560* Medical and Veterinary Parasitology 3 (3) Introduction to parasitism in the animal kingdom. Emphasizes basic and applied principles related to economically and medically important diseases. Classical and experimental approaches to the study of parasitism are examined in reference to protozoa, helminths, and arthropods. Includes Honors sections. May also be offered as BIOL 4560. Preq: BIOL 1040 and BIOL 1060 or BIOL 1110. Coreq: MICR 4570.

MICR 4570* Medical and Veterinary Parasitology Laboratory 2 (1) Laboratory to reinforce material presented in BIOL 4560. Introduces students to both live and preserved human/animal parasites. Also introduces techniques used in collection, preservation, and examination of animal parasites. Includes Honors sections. Coreq: MICR 4560 and MICR 4571.

MICR 4571* Medical and Veterinary Parasitology Laboratory 0 (2) Non-credit laboratory to accompany MICR 4570. Coreq: MICR 4570.

MICR 4910 Undergraduate Research in Microbiology 1-14 (1-4) Individually mentored research projects in various areas of microbiology that introduce undergraduate students to the planning, execution of research experimentation and the presentation of research findings. May be repeated for a maximum of eight credits with consent of instructor. Honors students must take at least six hours under a single research advisor over two semesters. Honors thesis is required. Includes Honors sections. Preq: Consent of instructor.

MICR 4920 Internship in Microbiology 0-4 (1-4) Preplanned internship at an advisor-approved facility to give students learning opportunities beyond their classroom experiences. Students submit a Student Internship Contract and a study plan before the internship and a comprehensive report within one week of the end of the internship. May be repeated for a maximum of six credits. To be taken Pass/No Pass only. Preq: Consent of instructor.

MICR 4930 Senior Seminar 2 (2) Capstone course engaging students in analysis and discussion of publications from the technical and non-technical literature in biological sciences and from current topics of biology appearing in other media. Students complete their undergraduate on-line digital portfolios. Emphasis is placed on ethical issues that arise as a result of biological research. Preq: Senior standing and COMM 1500 or COMM 2500 or ENGL 3150.

MICR (BIOL) 4940 Selected Topics in Creative Inquiry II 2-3 (1-3) Disciplinary and multidisciplinary group research projects with the goal of developing the students’ ability to discover, analyze, and evaluate data. Students are required to document their research activities in their portfolio. May be repeated for a maximum of six credits. Honors students must take at least six credits over a two-semester period with the same research advisor and write an honors thesis. These credits may include BIOL 3940, BIOL 4940 or both. Includes Honors sections. May also be offered as BIOL 4940. Preq: Consent of instructor. Coreq: MICR 4941.

MICR (BIOL) 4941 Selected Topics in Creative Inquiry II Laboratory 0-3 (0) Non-credit laboratory to accompany MICR 4940. May also be offered as BIOL 4941. Coreq: MICR 4940.
MICR 4950 Service Learning in Biology 2-4 (1-2) Combines service and academic learning while helping pre-college or college students learn about the fundamental aspects of science. Provides lecture and laboratory experiences as students learn to prepare and participate in supervised laboratory teaching for pre-college or college students. May be repeated for a maximum of six credits. Prereq: Consent of instructor. Concurr: MICR 4951.

MICR 4951 Service Learning in Biology Laboratory 0 (3-9) Non-credit laboratory to accompany MICR 4950. Concurr: MICR 4950.

MARKETING

MKT 2980 Creative Inquiry—Marketing 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Prereq: Consent of faculty member/mentor.

MKT 3010 Principles of Marketing 3 (3) Principles and concepts involved in planning, pricing, promotion, and distributing of goods and services. Includes Honors sections. Prereq: ECON 2000 or ECON 2110 or ECON 2120 or any 2000-level AGRB course; and sophomore standing.

MKT 3020 Consumer Behavior 3 (3) Examination of selected individual and group behavioral science concepts and their application to the understanding of consumer decision making. Prereq: MKT 3010.

MKT (ELE) 3140 New Venture Creation I 3 (3) First in a two-part series that continues with MKT (ELE) 3150 assessing entrepreneurial opportunities. Focuses on creativity, idea generation, market opportunity analysis, strategy, and methods of entry. Opportunity analysis may be developed into a full new venture plan in ELE 3150 or MGT 3150. May also be offered as ELE 3140. Prereq: Junior standing.

MKT 3210 Sports Marketing 3 (3) Exploration of the essentials of effective sports marketing. Topics include application of marketing principles in the sports area, licensing issues, sponsorships and endorsements, stadium and arena marketing, broadcasting and media considerations, public policy and sports, and unique marketing challenges for sport specific products (football, basketball, baseball, motorsports, etc.). Prereq: MKT 3010.

MKT 3310 Marketing Metrics and Analytics 3 (3) Examines the derivation, meaning, use and communication of marketing metrics used to facilitate decision making in various areas, including, but not limited to, online and social media strategy, advertising, pricing, branding and product development. Students are also introduced to database management, including the use of Microsoft Excel. Prereq: MKT 3010 and STAT 3090.

MKT 3900 Junior Honors Research 1 (1) Students select and complete a research project approved by a faculty advisor, in conjunction with an approved three-credit marketing course (other than MKT 3010 or 4310). Students are expected to display a command of marketing theory and an ability to apply theory to their research. Prereq: MKT 3010 and membership in Calhoun Honors College and consent of faculty member supervising research.

MKT 3980 Creative Inquiry—Marketing 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Prereq: Consent of faculty member/mentor.

MKT 3990 Marketing Internship 3 (3) Pre-planned, approved, faculty-supervised marketing internships. Credit is only given for internships of at least ten full-time, consecutive weeks with the same internship provider. To be taken Pass/No Pass only. May be taken only once. Prereq: MKT 3010 and consent of instructor.

MKT 4200 Professional Selling 3 (3) Current theories about the selling of goods and services to organizational buyers in the context of long-term relationships. Role playing, videotaped presentations, and other techniques are generally employed to enhance interpersonal communication skills. Prereq: Junior standing and MKT 3010.

MKT 4230* Promotional Strategy 3 (3) Emphasizes promotion as the communication function of marketing. Attention is given to communication theory and promotion's relation to mass and interpersonal communication. Factors affecting promotional decision-making process are explored. Emphasis on promotion as a competitive tool is examined. Prereq: MKT 3010.

MKT 4240 Sales Management 3 (3) Comprehensive examination of the planning, implementation, and control of professional sales organizations. Prereq: MKT 3010 and MKT 4200.

MKT 4250 Retail Management 3 (3) Retailing is studied from a decision-making approach. Topics include target market analysis, location analysis, merchandising, human resources, pricing and promotion. Prereq: MKT 3010.

MKT 4260 Business-to-Business Marketing 3 (3) Study and analysis of the unique aspects of marketing goods and services to organizational buyers rather than household consumers. Emphasis is on developing strategic responses to market opportunities given competitive behavior. Prereq: MKT 3010.

MKT 4270* International Marketing 3 (3) Study of marketing from the international point of view. Emphasis is on the necessary modification of marketing thinking and practice for foreign markets due to individual environmental differences. Prereq: MKT 3010.

MKT 4280* Services Marketing 3 (3) Exploration and study of the nature of service organizations and the principles that guide the marketing of their products. Emphasis is on a marketing mix that is fundamentally different than that found in traditional goods marketing. Prereq: MKT 3010.

MKT 4290* Public and Nonprofit Marketing 3 (3) Examines the role and application of marketing in public and nonprofit settings. Focuses on a conceptual understanding of the marketing discipline and marketing processes and shows how basic concepts and principles of marketing are applicable to public and nonprofit organizations. Prereq: MKT 3010.

MKT 4300* Marketing Product Management 3 (3) Management of the firm's product or service offerings. Topics include new product screening, evaluation, and development; product line and mix analysis, abandonment decisions, brand manager's role, new product development department, and others. Emphasis is on decision making. Prereq: MKT 3010.

MKT 4310 Marketing Research 3 (3) Research used in marketing decision making. Emphasizes methods and techniques used in planning, collecting, processing, and utilizing information. Topics include research design, sources of information, questionnaire design, sampling, data collection, and data analysis. Prereq: Marketing major and MKT 3010 and STAT 3090. Prereq or concurrent enrollment: MKT 3310.

MKT 4330 Sport Marketing Strategy 3 (3) Provides students with basic knowledge about brand management as it applies to sport. Addresses basic principles and guiding precepts of how sport-based organizations build strong brands. Prereq: MKT 3210.

MKT 4340 Sport Promotion 3 (3) Emphasizes the promotional function of sport. Topics include event sponsorship, developing media relationships, endorsements, promotion objective setting and budgeting, media planning and scheduling, and utilizing the tools of promotion within a sport context. Integrated Marketing Communication provides the theoretical and managerial framework for how these factors are utilized optimally. Prereq: MKT 3210.

MKT 4430 Advertising Strategy 3 (3) Advertising strategy emphasizing knowledge of target audiences, along with the messages to communicate effectively with them. Foundations include knowing, motivating, and changing behavior of target audience. Issues include models for decisions, tools for promotion, and integrated advertising plans. Prereq: MKT 3010.

MKT 4450 Macromarketing 3 (3) Examines the relationship between marketing and society, focusing on the social impact of marketing practices. Topics include technology, ethics, materialism, globalization, environmental sustainability, and the political and economic philosophy underlying marketing. Course is multidisciplinary and uses a variety of readings to cover each topic area. Prereq: MKT 3010 and junior standing.

MKT 4500 Strategic Marketing Management 3 (3) Application of marketing constructs in analyzing and solving marketing problems. Emphasizes information systems, data analysis, and critical-thinking skills in solving marketing problems in a wide range of managerial decision areas, including, but not limited to, new product development, pricing, advertising, personal selling, channels, and international marketing. Prereq: Marketing major and MKT 3010 and six credits of 4000-level marketing courses.
MILITARY LEADERSHIP

Professor: J. Mullinax, Chair; Assistant Professors: C. Crawford, E. Bonilla, R. Rozetar, M. Samuelson

ML 1010 Leadership Fundamentals I 2 (2) Study of leadership focused at the individual level. Students learn effective communicating skills, ethical decision making, small group management, mental and physical conditioning. Skills are applied in a variety of challenging training events during laboratory, including rappelling, water survival, land navigation, and team athletics. Coreq: ML 1011.

ML 1011 Leadership Fundamentals I Laboratory 0 (1) Non-credit laboratory to accompany ML 1010. Coreq: ML 1010.

ML 1020 Leadership Fundamentals II 2 (2) Continued study of leadership focused at the individual and team levels. Topics include problem solving, critical thinking, leadership styles, and group cohesion. Leadership laboratory training includes small tactics and weapons firing. Coreq: ML 1021.

ML 1021 Leadership Fundamentals II Laboratory 0 (1) Non-credit laboratory to accompany ML 1020. Coreq: ML 1020.

ML 2010 Leadership Development I 3 (2) Study of leadership focused at the team level. Students develop leadership skills through public speaking, managing small groups, and mentoring first-year students. Skills are applied in a variety of challenging training events during leadership laboratory, including rappelling, water survival, land navigation, and team-building exercises. Coreq: ML 2011.

ML 2011 Leadership Development I Laboratory 0 (2) Non-credit laboratory to accompany ML 2010. Coreq: ML 2010.

ML 2020 Leadership Development II 3 (2) Continued study of leadership at the team and small group levels. Focuses on moral leadership, officerhood, and the Army as a profession. Leadership laboratory training includes small unit tactics, airmobile operations, and weapons firing. Students lead teams throughout the semester. Coreq: ML 2021.

ML 2100 Leaders Training Course 4 (8) Five-week leadership camp conducted on an Army post. Students’ pay and expenses are provided by the U.S. Army. Environment is rigorous and focused on leadership development. No military obligation is incurred. Completion of this course qualifies students for entry into the Army ROTC Advanced Course.

ML 3010 Advanced Leadership I 4 (2) Study of leadership focused on decision making, planning, communicating, and executing. Address motivational techniques, the role of leader, and performance assessment. Provides students with leadership management tools and methodology. Students are responsible for training, developing, and mentoring Basic Course students. Students apply learned techniques in leadership laboratory. Coreq: ML 2020 or ML 2100. Coreq: ML 3011.

ML 3011 Advanced Leadership I Laboratory 0 (4) Non-credit laboratory to accompany ML 3010. Coreq: ML 3010.

ML 3020 Advanced Leadership II 4 (2) Continuation of leadership study focusing on collective skills training, tactics, and small group instruction. Synthesizes various components of training, leadership, and team-building learned during the Basic Course and ML 3010. Final step in students’ progression prior to the Leader’s Development and Assessment Course. Coreq: ML 3010, Coreq: ML 3021.

ML 3021 Advanced Leadership II Laboratory 0 (4) Non-credit laboratory to accompany ML 3020. Coreq: ML 3020.

ML 3900 American Military Experience 3 (3) Covers the purposes of the American military experience from its Colonial origins to today’s War on Terrorism. Topics include the evolution of U.S. joint forces and coalition operations, effects of United States society on its military, and how leaders utilize the military decision making process. How historical leaders developed critical thinking skills about the human dimensions of war is also discussed. Coreq: ML 3010. Coreq: ML 3020.

ML 4010 Organizational Leadership I 4 (2) Culmination of leadership study in preparation for commissioning as Army officers. Students continue exercising leadership and management skills as senior cadet leaders. Leadership instruction focuses on coordinating activities with staffs, communicating effectively, counseling and mentoring subordinates, training management and ethics. Coreq: ML 3020. Coreq: ML 4011.

ML 4011 Organizational Leadership I Laboratory 0 (4) Non-credit laboratory to accompany ML 4010. Coreq: ML 4010.

ML 4020 Organizational Leadership II 4 (2) Continuation of ML 4010. Focuses on the continued study of moral, ethical, and legal issues faced by leaders. Includes instruction in administrative and logistical management. Requires students to apply their knowledge individually and collectively to solve problems and improve the organization. Coreq: ML 4010. Coreq: ML 4021.

ML 4021 Organizational Leadership II Laboratory 0 (4) Noncredit laboratory to accompany ML 4020. Coreq: ML 4020.

ML 4510 Organizational Leadership III 3 (2) Transitional leadership development and training for completion cadets and others designed to enhance practical experiences in managing organizational training programs, develop leadership skills by serving in cadre staff positions, develop small group decision making and conflict management skills, and reinforce physical fitness and lifestyle skills required of leaders. May be repeated for a maximum of six credits. Coreq: ML 3020. Coreq: ML 4511.

ML 4511 Organizational Leadership III Laboratory 0 (3) Non-credit laboratory to accompany ML 4510. Coreq: ML 4510.

MATERIALS SCIENCE AND ENGINEERING

MSE 1010 Materials Technology in Everyday Life 3 (3) Introduces principles of materials science benefiting citizens. Students learn how to make intelligent choices about everyday materials and devices and present their informed opinions through class discussion and group projects involving controversial topics such as recycling, green manufacturing, and nanotechnology.

MSE 2010 Yarn Structures and Formation 4 (3) Study of fiber processing systems required to transform various fibrous materials into yarn. Involves the machine principles and theories, relationship of the fibers to the process and the resultant yarn structures, and subsequent analysis of the yarn structure to define quality and to determine suitable manufacturing practices. Coreq: MSE 2500. Coreq: MSE 2011.

MSE 2011 Yarn Structures and Formation Laboratory 0 (3) Non-credit laboratory to accompany MSE 2010. Coreq: MSE 2010.

MSE 2021 Fabric Structures, Design, and Analysis Laboratory 0 (3) Non-credit laboratory to accompany MSE 2100. Coreq: MSE 2020.

MSE 2100 Introduction to Materials Science 3 (3) Introductory course in materials science designed primarily for engineering students. Studies the relation between the electrical, mechanical, and thermal properties of products and the structure and composition of these products. All levels of structure are considered from gross structures easily visible to the eye through electronic structure of atoms. Prq: CH 1010 with a C or better. Prq or concurrent enrollment: MATH 1080.

MSE 2410 Metrics Laboratory 1 (3) Provides basic knowledge of statistical techniques and testing procedures used to evaluate materials. Includes sampling procedures, calculation of averages, confidence intervals, Weibull statistics, precision and accuracy to enable quality decision making. Prq or concurrent enrollment: MSE 2100.

MSE 2500 Polymer and Fiber Materials I 3 (3) Introduction to the broad fields of textile, fiber, and polymer science and engineering with emphasis on the scientific, technological, and business principles utilized in producing fibers, yarns, and fabrics; enhancing fabric functionality by dyeing, finishing, and printing; and establishing end-use products.

MSE 2510 Materials Science and Engineering Portfolio I 1 (1) Introduces students to the concept of self-paced professional development throughout their plans of study. Each student is assigned a faculty member to act as mentor and advisor. Prq: Consent of instructor.

MSE 3000 Honors Seminar I 1 (1) Acquaints students enrolled in the Departmental Honors Program with current research issues in the profession. This assists students in preparing a research proposal for the Senior Thesis. To be taken Pass/No Pass only. Prq: Junior standing and admission to departmental honors program.

MSE 3030 Textile Chemistry 3 (3) Studies fundamental properties and reactions of aliphatic and aromatic compounds. Emphasizes mechanistic interpretations and the development of synthetic schemes leading to polyfunctional compounds of the types encountered in the textile industry. Prq: CH 1020. Prq or concurrent enrollment: MATH 2060 or MATH 2070.

MSE 3190 Materials Processing III 3 (3) Introduction into the principles underlying the processing/manufacturing of ceramic, polymeric, and metallic materials. Prq or concurrent enrollment: MSE 2100.

MSE 3240 Statistics for Materials Science and Engineering 3 (3) Introduction to statistics with particular application to the material industry. Covers measures of central value and variation, probability, the normal curve, tests of hypotheses, elementary correlation, and regression. Prq: Sophomore standing.

MSE 3260 Thermodynamics of Materials 3 (3) Introduction to physical laws that govern the equilibrium products of chemical and thermal reactions. Covers the three laws of thermodynamics, phase equilibria, energy requirements for reactions, material corrosion, and environmental stability. Prq: CH 1020 and MSE 2100 and MATH 1080 and PHYS 2210.

MSE 3270 Transport Phenomena 3 (3) Kinetic aspects of mass, heat, and fluid transport as they relate to the processing and performance of materials. Prq or concurrent enrollment: MSE 2100 and MSE 2620 and MATH 2080.

MSE 3280 Phase Diagrams for Materials Processing and Applications 3 (3) Teaches students to use single component, binary, and ternary phase diagrams to analyze material processing routes and utilization. Considers reaction pathways by which material microstructure evolves and the relationship of reaction pathway to equilibrium phase diagrams. Also considers material interactions/degradation during use. Prq: CH 3310 or MSE 3260.

MSE 3420 Structure/Property Laboratory 2 (6) Provides a basic understanding of how microstructure interrelationships and processes affect the physical properties of materials and how environmental effects modify structure and mechanical behavior of materials. Prq: MSE 2410.

MSE 3610 Processing of Metals and Their Composites 3 (3) Examines the control of microstructure-property relationships in metallic materials and their composites through development and selection of innovative manufacturing methods. Prq or concurrent enrollment: MSE 2410.

MSE 3950 Honors Research I 1 (3) Individual research under the direction of a Ceramic and Materials Engineering faculty member. Prq or concurrent enrollment: MSE 3270.

MSE 4020 Solid State Materials 3 (3) Discussion of the properties of solids as related to structure and bonding with emphasis on electronic materials. Band structure theory, electronic, and optical properties are treated. Prq: CH 3310 or MSE 3260; and MATH 2080 and PHYS 2210.

MSE 4070 Senior Capstone Design 3 (1) Work with industrial partners who have materials-related processes or product problems. Emphasizes interdisciplinary approach and global perspective on materials and problems. Incorporates critical thinking, group effectiveness, and problem solving with materials and processes. Collaborative efforts between industry and student academic teams are employed. Prq: IE 3840. Coreq: MSE 4071.

MSE 4071 Senior Capstone Design Laboratory 0 (6) Non-credit laboratory to accompany MSE 4070. Coreq: MSE 4070.

MSE 4130 Noncrystalline Materials 3 (3) Study of the fundamentals of the noncrystalline state. Includes cooling kinetics and effects on formation as well as physical properties of noncrystalline substances in metallic, polymeric, and ceramic systems. Prq: MSE 3260. Prq or concurrent enrollment: MSE 4020.

MSE 4150 Introduction to Polymer Science and Engineering 3 (3) Chemistry of monomers and polymers and the chemical and physical properties of polymers are discussed emphasizing fiber forming, synthetic polymers. Includes molecular characterization, structure, morphology, and mechanical properties as they relate to the design of polymer systems for end uses in textiles, geotextiles, plastics and fiber-reinforced composite materials. Includes Honors sections. Prq: CH 2100 or CH 2240.

MSE 4160 Electrical Properties of Materials 3 (3) Covers a range of topics dealing with electrical and magnetic materials, including metal and polymer conductors, insulators, ceramic and polymer materials for dielectric applications, and ferroelectric, piezoelectric, pyroelectric, and electrooptic materials. Metal and ceramic magnetic materials are also discussed.

MSE 4220 Mechanical Behavior of Materials 3 (3) Covers the microstructural basis of deformation and fracture in ceramic, metallic, and polymeric systems. Prq: CE 2100 and MATH 2080.

MSE 4240 Optical Materials and Their Applications 3 (3) Introduces the interaction of materials with light. Specific topics include fundamental optical properties, materials synthesis, optical fiber and planar waveguides, and the componentry and systems-level aspects of optical communication systems. Prq: MSE 4020 and MSE 4130.

MSE 4320 Manufacturing Processes and Systems 3 (3) Plant layout and design for manufacturing of ceramic products. Emphasizes process control and verification of processing results. Includes adaptation of computers in process simulation/robotics and the use of programmable logic controllers and robotics in processing. Prq: MSE 3260.

MSE 4330 Combustion Systems and Environmental Emissions 3 (3) Study of the application of burners, burner controls, firing atmospheres, hydrocarbon fuels, and other energy resources to industrial kilns, furnaces, and firing operations. Topics include energy resources, fuel chemistry, combustion analysis, ratio control systems, flow and pressure measurement and control, kiln atmosphere controls, industrial burners, and flames. Prq: MSE 3260.

MSE 4410 Manufacturing Laboratory 1 (3) Provides students with the understanding of process optimization. Emphasizes the use of complex experimental design schemes to elucidate the interrelationships between processing, microstructural development, and resulting properties. Prq: MSE 3420.

MSE 4450 Practice of Materials Engineering 1 (1) Students working in groups present and discuss practical, ethical, safety, business, and selected technical topics. Invited speakers discuss various aspects of the engineering world. To be taken Pass/No Pass only. Prq: Senior standing.

MSE 4500 Materials Science and Engineering Portfolio 2 (2) Students working in groups present and discuss practical, ethical, safety, and business topics in the polymer and textile industries. Students are required to complete their electronic portfolios. To be taken Pass/No Pass only.

MSE 4510 Materials Science and Engineering Portfolio II 1 (1) Student continues self-paced professional development throughout the rest of his/her plan of study by working with the faculty member assigned to act as mentor and advisor. Prq: MSE 2510 and consent of instructor.

MSE 4550 Polymer and Fiber Laboratory 1 (3) High molecular weight polymers are prepared from monomers, and their chemical and physical properties are measured as functions of critical end use parameters using instrumental and physical methods. Prq or concurrent enrollment: MSE 4150.
MSE 4560* Polymer and Fiber Materials II 3 (2)
Chemicals used in the preparation of fabric for dyeing and finishing. Oxidizing and reducing agents and their control and effect on various fibers. Colloidal and surface active properties of various compounds and the fundamental factors influencing these properties. Prereq: MSE 4150. Coreq: MSE 4561.

MSE 4561* Polymer and Fiber Science II Laboratory 0 (2) Non-credit laboratory to accompany MSE 4560. Coreq: MSE 4560.

MSE 4570* Color Science 3 (3) Understanding of physical, chemical, and mechanical principles behind the application of colors and finishes to textiles. Requires an appreciation of fiber chemistry and morphology, dye and finish structures and reactivity, and mechanical principles behind equipment used to effect transfer of these chemicals onto the textile substrate. Includes Honors sections.

MSE 4580* Surface Phenomena in Materials Science and Engineering 3 (3) Introduction to surface phenomena focusing on fiber science. Fundamentals of interfacial phenomena embrace thermodynamics of surfaces, physics of adhesion, wetting, and finishing emphasizing specific features associated with interactions of liquids and chemicals with fibers and fibrous materials. Prereq: Junior standing in engineering or science.

MSE 4590 Color Science Laboratory 1 (3) Introduction to common dyeing and printing methods and to some of the machinery necessary to carry out dyeing operations. Prereq or concurrent enrollment: MSE 4570.

MSE 4600 Surface Phenomena in Materials Science and Engineering Laboratory 1 (3) Covers finishing in addition to dyeing operations and their instrumental control. Prereq or concurrent enrollment: MSE 4580.

MSE 4610 Polymer and Fiber Materials III 3 (2) Familiarizes students with the physical properties of textile and high performance fibers and how these properties influence process and end-use performance; method of measuring those properties, and how those properties are related to structural features of the fiber. Includes Honors sections. Coreq: MSE 4611.

MSE 4611 Polymer and Fiber Materials III Laboratory 0 (2) Non-credit laboratory to accompany MSE 4610. Coreq: MSE 4610.

MSE 4620* Properties of Textile Structures 3 (2) Yarn and fabric properties, their scientific significance and analysis. Dimensional, structural, and mechanical interrelationships are established and evaluated. Coreq: MSE 4621.

MSE 4621* Properties of Textile Structures Laboratory 0 (2) Non-credit laboratory to accompany MSE 4620. Coreq: MSE 4620.

MSE 4640* Nonwoven Structures 3 (2) Nonwoven fabric structures, their manufacture, properties, and applications. Methods of nonwoven fabric formation, resultant material characteristics and end-use applications are examined. Prereq: MSE 2010. Coreq: MSE 4641.

MSE 4641* Nonwoven Structures Laboratory 0 (2) Non-credit laboratory to accompany MSE 4640. Coreq: MSE 4640.

MSE 4900* Selected Topics in Materials Science and Engineering I-3 (1-3) Study of topics not ordinarily covered in other courses. Taught as the need arises. Typical topics could include current research in a specific area or technological advances. May be repeated for a maximum of six credits, but only if different topics are covered. Includes Honors sections.

MSE 4910 Undergraduate Research 1-3 (2-6) Investigation of a typical materials science and engineering research problem under the direct supervision of a faculty member. After completing the research, students prepare a formal written and oral report. May be repeated for a maximum of six credits. Prereq: Consent of instructor.

MSE 4950 Honors Research II 3 (9) Individual research under the direction of a Ceramic and Materials Engineering faculty member. Prereq: MSE 3950.

MSE 4970 Honors Thesis 1 (1) Preparation of honors thesis based on research conducted in MSE 3950 and 4950. Prereq: MSE 4950.

MUSIC

Professors: P.L. Buyer, L. Durais, L.U. Freder, L.L. Li-Bleuel; Associate Professors: N.M. Fischer, A.R. Levin, M. Specie, B.A. Whisler; Assistant Professor: J. Durham; Lecturers: M.T. Anderson, H.D. Baerle-
Hurlburt, E. Jacobo, R. Jacobus, L.K. Kibler, D.R.
Stevenson, L.T. Warfield. Warren

MUSIC 1010 Beginning Class Piano 1 (2) Thorough introduction of basic keyboard skills including solo and ensemble repertoire, technique, applied keyboard theory, and performance. Applied music fee is assessed.

MUSIC 1020 Intermediate Class Piano 1 (2) Continued work on keyboard skills, applied keyboard theory, solo and ensemble repertoire, and performance. Applied music fee is assessed. Prereq: MUSIC 1010.

MUSIC 1100 Beginning Class Guitar 1 (2) Introduction to basic guitar skills, including finger-style technique, strumming, and song accompaniment. Students develop skills and appreciation of the discipline through teacher-led drills, ensemble playing, and the exploration of guitar history, style, and the impact of various players and composers on the medium. Applied music fee is assessed.

MUSIC 1120 Intermediate Class Guitar 1 (2) Continued work on guitar skills, including finger-style, strumming, pick playing, ensemble playing, and soloing. Also includes music theory for guitarists such as keys, scales, and chord building, as well as discussions of the impact of various players and composers on the medium. Applied music fee is assessed. Prereq: MUSIC 1100.

MUSIC 1210 Beginning Class Voice 1 (2) Introduction to basic vocal skills, including breathing, tone production, diction, intonation, and interpretation. Includes solo and ensemble repertoire. In-class group and individual performances are required. Applied music fee is assessed.

MUSIC 1420 Music Theory I 3 (3) Introduces the materials of music theory, including notation, scales, keys, intervals, basic rhythms, and meter, triads and seventh chords, chord inversions, and non-chord tones. Coreq: MUSIC 1430.

MUSIC 1430 Aural Skills I 2 (2) Beginning aural skills, which include Solfege, singing and identifying intervals and scales, identifying triads and seventh chords, sight singing simple melodies in major and minor keys, and taking dictation of simple melodies in major and minor keys. Coreq: MUSIC 1420.

MUSIC 1440 Music Theory II 3 (3) Continuation of MUSIC 1420 with added emphasis on part writing, small and larger formal structures, and secondary functions and modulation, in both classical and popular genres. Prereq: MUSIC 1420. Coreq: MUSIC 1450.

MUSIC 1450 Aural Skills II 1 (2) Continuation of MUSIC 1430 with added emphasis on sight singing and taking dictation with more complex intervals and in various modes. Prereq: MUSIC 1430. Coreq: MUSIC 1440.

MUSIC 1510 Applied Music 1 (1) Individual study in performance medium (piano, voice, strings, woodwinds, brass, percussion, guitar, organ, or cello). One 30-minute lesson each week, for which a minimum of four hours practice is required. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereq: Consent of instructor, based upon a qualifying audition.

MUSIC 1520 Applied Music 1 (1) Continuation of MUSIC 1510. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereq: MUSIC 1510 and consent of instructor.

MUSIC 1530 Applied Music for Majors 1 (1) Individual study in vocal or instrumental performance (voice, woodwinds, brass, strings, percussion or keyboards). One 45-minute lesson each week. Jury required. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereq: Performing Arts major (Music Concentration) and consent of instructor, based upon qualifying audition.

MUSIC 1540 Applied Music for Majors 1 (1) Continuation of MUSIC 1530. Jury and performance on a recital are required. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereq: MUSIC 1530 and consent of instructor.

MUSIC 1801 Introduction to Music Technology Laboratory 0 (3) Non-credit laboratory to accompany MUSIC 1800. Coreq: MUSIC 1800.
MUSC 1950 Creative Inquiry—Music 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of instructor.

MUSC 2100 Music Appreciation: Music in the Western World 3 (3) Deepens students’ appreciation of their musical heritage through study of the elements of the musical language and its development in Western culture. Includes Honors sections.

MUSC 2430 Aural Skills III 1 (2) Continuation of MUSC 1450, with the addition of harmonic dictation in inversions, melodic/harmonic dictation, and the identification of formal structures through listening. Prq: MUSC 1450. Coreq: MUSC 2420.

MUSC 2510 Applied Music 1 (1) Continuation of MUSC 1520. Applied music fee is assessed. Prq: MUSC 1520 and consent of instructor.

MUSC 2520 Applied Music 1 (1) Continuation of MUSC 2510. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prq: MUSC 2510 and consent of instructor.

MUSC 2530 Applied Music for Majors 1 (1) Continuation of MUSC 1540. May be repeated for credit on other performance media with departmental approval. Jury is required. Applied music fee is assessed. Prq: MUSC 1540 and consent of instructor.

MUSC 2540 Applied Music for Majors 1 (1) Continuation of MUSC 2530. May be repeated on other performance media with departmental approval. Jury and performance on a recital are required. Applied music fee is assessed. Prq: MUSC 2530 and consent of instructor.

MUSC 2590 Creative Inquiry—Music 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of instructor.

MUSC (THEA) 3080 Survey of Broadway Musicals I 3 (3) Introduction to Broadway musical repertoire from the Golden Age of Broadway: 1943–1964. Emphasizes the music with attention to production detail, historical perspective, and social milieu. May also be offered as THEA 3080.

MUSC (THEA) 3090 Survey of Broadway Musicals II 3 (3) Survey of Broadway musical repertoire from new conceptual shows from 1965 to the present day. Emphasizes the music with attention to production detail, historical perspective, and social milieu. May also be offered as THEA 3090.

MUSC 310 History of American Music 3 (3) Music in America from 1620 to the present. Indigenous and borrowed influences are examined.

MUSC 3120 History of Jazz 3 (3) Comprehensive survey of jazz elements and styles. A historical perspective from Dixieland to bebop to jazz/rock is included.

MUSC 3130 History of Rock and Roll 3 (3) Comprehensive survey of rock elements, styles, and artists. Emphasizes the evolution of rock and roll including a broad examination of musical influences. Course content examines how rock and roll both reflected and influenced social issues.

MUSC 3140 World Music 3 (3) Introduction to etnomusicology and music of the world’s peoples. Emphasis is placed on music through culture.

MUSC 3170 History of Country Music 3 (3) Chronological study of country music origins, styles, and artists. Emphasizes the evolution of country music from a cultural expression of the South to a commercial art form of worldwide appeal.

MUSC 3180 History of Audio Technology 3 (3) Surveys the historical development of audio technology and its social impacts and consequences. Technologies include automatic instruments, recording devices, radio, amplification, consumer listening devices, and distribution formats.

MUSC 3230 Piano Accompanying I 1-5 (3-5) Group study in piano accompanying. Focuses on sight-reading and choral, vocal, and instrumental accompanying. Students take group lessons and accompany choral groups and/or applied music students.

MUSC 3250 CU Choralists 1 (1) Group study in playing the choral literature carillon. One two-hour meeting each week for which a minimum of two hours of individual practice is required. Participation in a recital is required. Students are expected to have musical keyboard experience.

MUSC (THEA) 3290 Musical Theatre Vocal Performance 3 (2) Train singer-actors in musical theatre repertoire. A study of repertoire via master classes, individual instruction, research of the historical context of Broadway music, studio performance, observation, and peer evaluation, culminating in a public showcase performance. May also be offered as THEA 3290. Coreq: MUSC 3290.

MUSC (THEA) 3291 Musical Theatre Vocal Performance Laboratory 0 (2) Non-credit laboratory to accompany MUSC 3290. May also be offered as THEA 3291. Coreq: MUSC 3290.

MUSC 3300 Small Ensemble 1 (3) Ensembles devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Enrollment in simultaneous sections is allowed.

MUSC 3310 Pep Band I 3 (3) Ensembles devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given in addition to the minimum rehearsal time. Simultaneous enrollment in multiple sections is allowed. Audition required.

MUSC 3320 Woodwind Quintet I 3 (3) Ensembles: advanced study of woodwind chamber music media. One one-hour class meeting each week, for which a minimum of two hours of ensemble practice is required. Audition required. Prq or concurrent enrollment: MUSC 3620.

MUSC 3330 String Quartet I 3 (3) Ensembles: advanced study of string quartet repertoire. Two 90-minute meetings each week for which a minimum of two hours of practice is required. Audition required. Prq or concurrent enrollment: MUSC 3690.

MUSC 3340 Flute Choir 3 (3) Ensembles: study of flute ensemble literature. One 60-minute meeting each week for which a minimum of two hours of practice is required. Audition required.

MUSC 3360 Percussion Ensemble I 2 (2) Ensembles: study and performance of percussion ensemble literature. One two-hour class meeting each week, for which a minimum of two hours of individual practice is required. Audition required. Prq or concurrent enrollment: MUSC 3310 or MUSC 3620 or MUSC 3630 or MUSC 3640 or MUSC 3690.

MUSC 3370 Steel Drum Band I 2 (2) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given in addition to the minimum rehearsal time. Rehearsals also include discussions of steel band history and performance practice. Audition required.

MUSC 3380 Men's Breakout Ensemble I 2 (2) Small ensembles: study of male a cappella/popular music on an advanced level. Audition required. Prq or concurrent enrollment: MUSC 3700 or MUSC 3720.

MUSC 3420 Women's Breakout Ensemble I 2 (2) Small ensembles: study of women's a cappella/popular vocal music on an advanced level. Audition required. This course may be repeated for credit with a maximum of 16 hours ensemble credit allowable toward a degree. Prq or concurrent enrollment: MUSC 3700 or MUSC 3710.

MUSC 3430 Men's Small Ensemble I 2 (2) Small ensembles: study of male a cappella/popular, barbershop, and nostalgic music on an advanced level. Prq or concurrent enrollment: MUSC 3700 or MUSC 3720.

MUSC 3440 Vocal Jazz Ensemble I 3 (3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Prq or concurrent enrollment: MUSC 3700 or MUSC 3710 or MUSC 3720.

MUSC 3510 Applied Music 1 (1) Continuation of MUSC 2520. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prq: MUSC 2520 and consent of instructor.

MUSC 3520 Applied Music 1 (1) Continuation of MUSC 3510. Students are required to perform an appropriate solo in a student recital. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prq: MUSC 3510 and consent of instructor.

MUSC 3530 Applied Music for Majors I 1 (1) Continuation of MUSC 2540. May be repeated on other performance media with departmental approval of differing performance media. Applied music fee is assessed. Prq: MUSC 2540 and consent of instructor.
MUSC 3540 Applied Music for Majors 1 (1) Continuation of MUSC 3530. May be repeated on other performance media with departmental approval. Juried half-recital performance is required. Applied music fee is assessed. Prereq: MUSC 3530 and consent of instructor.

MUSC 3610 Marching Band 1 (3) Ensembles: devoted to musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Offered fall semester only. This course may be repeated for credit with a maximum of 16 hours ensemble credit allowable toward a degree.

MUSC 3620 Symphonic Band 1 (3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. Audition required. This course may be repeated for credit with a maximum of 16 hours ensemble credit allowable toward a degree.

MUSC 3630 Jazz Ensemble 1 (3) Ensembles: devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. This course may be repeated for credit with a maximum of 16 hours ensemble credit allowable toward a degree.

MUSC 3640 Concert Band 1 (2) Devoted to the musical training of ensemble members through reading and rehearsal of appropriate music. Public performances are given periodically in addition to the minimum rehearsal time. This course may be repeated for credit with a maximum of 16 hours ensemble credit allowable toward a degree.

MUSC 3690 Symphony Orchestra 1 (3) Coreq: MUSC 3690. Students are required to perform an appropriate solo in a student recital. Applied music fee is assessed. Prereq: MUSC 3520 and consent of instructor.

MUSC 3950 Creative Inquiry—Music 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereq: Consent of instructor.

MUSC 3980 Special Topics in Music 3 (3) Consideration of select areas of study in music not addressed by other music courses. May be repeated once for credit.

MUSC 4000* Music in the Elementary Classroom 3 (3) Familiarizes teachers in the elementary classroom with traditional, Kodaly, Orff, and Kindermusik approaches in correlating music with language arts, mathematics, and social studies.

MUSC 4050 Instrumental and Vocal Arranging 3 (2) Advanced study of the properties of instruments and voices and their combination in various small and large ensembles. Emphasis is placed on applying this knowledge to the creation of instrumental and vocal arrangements. Prereq: MUSC 1800 and MUSC 1420. Coreq: MUSC 4051.

MUSC 4051 Instrumental and Vocal Arranging Laboratory 0 (3) Non-credit laboratory to accompany MUSC 4050. Coreq: MUSC 4050.

MUSC 4150 Music History to 1750 3 (3) Development of Western music from antiquity to 1750, emphasizing representative literature from various styles and periods. Music ensemble and/or lesson experience is recommended.

MUSC 4160 Music History Since 1750 3 (3) Development of Western music from 1750 to the present, emphasizing representative literature from various styles and periods. Music ensemble and/or lesson experience is recommended.

MUSC 4160 Conducting 3 (3) Study of choral and instrumental conducting. Emphasis is on manual conducting techniques, attitudes, philosophies, and responsibilities necessary for the preparation, planning, and execution of artistic conducting. Prereq: MUSC 1420.

MUSC 4150 Applied Music 1 (1) Continuation of MUSC 3520, guiding students in interpretation of advanced solo and ensemble literature. Students are required to perform an appropriate solo in a student recital. May be repeated for credit with departmental approval of differing performance media. Applied music fee is assessed. Prereq: MUSC 3520 and consent of instructor.

MUSC 4240 Conducting Laboratory 0 (3) Non-credit laboratory to accompany MUSC 4150. Coreq: MUSC 4150.

MUSC 4510 Applied Music 1 (1) Continuation of MUSC 3520, guiding students in interpretation of advanced solo and ensemble literature. Students are required to perform an appropriate solo in a student recital. Applied music fee is assessed. Prereq: MUSC 3520 and consent of instructor.

MUSC 4400* Music History Since 1750 3 (3) Development of Western music from 1750 to the present, emphasizing representative literature from various styles and periods. Music ensemble and/or lesson experience is recommended.

MUSC 4500 Creative Inquiry—Music 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereq: Consent of instructor.

MUSC 4510 Independent Studies 1-3 (1-3) Tutorial work for students with special interests in music study outside the scope of existing courses. May be repeated for a maximum of six credits. Prereq: Consent of department chair.

NONPROFIT LEADERSHIP

NPL 3000 Foundations in Nonprofit Leadership 3 (3) Course provides foundational knowledge and understanding of non-profit organizations, their development, governance, maintenance and operations within modern society. NPL courses may not substitute for courses in Accounting, Economics, Executive Leadership & Entrepreneurship, Finance, Management, or Marketing curricula.

NPL 3101 Understanding Stakeholders for Non-Profit Organizations 3 (3) Comprehensive review of identifying and reaching stakeholders in non-profit organizations. Material covers basic promotion of non-profit services, including use of media through advertising, public service announcements, events and partnerships, as well as approaches to copy writing, public speaking and working with local and regional governments. NPL courses may not substitute for courses in Accounting, Economics, Executive Leadership & Entrepreneurship, Finance, Management, or Marketing curricula. Prereq: NPL 3000.

NPL 3020 Funding and Accountability in Non-Profit Organizations 3 (3) This course prepares students to understand and participate in the fiscal management of non-profit organizations. Course focuses on understanding, producing, interpreting, and communicating financial information to staff, board members, volunteers and other stakeholders. NPL courses may not substitute for courses in Accounting, Economics, Executive Leadership & Entrepreneurship, Finance, Management, or Marketing curricula. Prereq: NPL 3000.

NPL 3030 Personnel Leadership in Non-Profit Organizations 3 (3) Introduces students to the principles of personnel leadership as related to paid, un-paid and seasonal employees of non-profit organizations. Recruitment, selection/hiring, retention and motivation, and evaluation as it pertains to the non-profit sector and its unique blend of paid and un-paid workers is discussed. NPL courses may not substitute for courses in Accounting, Economics, Executive Leadership & Entrepreneurship, Finance, Management, or Marketing curricula. Prereq: NPL 3000.
NPL 3040 Risk Management of Non-Profit Organizations 3 (3) Conceptual and practical aspects of risk management and legal issues associated with non-profit organizations are covered. Foundational knowledge of the non-profit organization as a legal entity, including risk identification, management, transfer and financing, liability, and ethics. NPL courses may not substitute for courses in Accounting, Economics, Executive Leadership & Entrepreneurship, Finance, Management, or Marketing curricula. Prereq: NPL 3000.

NPL 3900 Practicum I I (3) Under agency supervision, students spend 60 hours observing and implementing activities, events, and programs in a nonprofit, faith-based, grassroots, or organization approved by instructor. To be taken Pass/No Pass only. Prereq: NPL 3000.

NPL 4900 Non-Profit Leadership Preceptorship 3 (6) Provides students with the opportunity to gain practical experience in an environment where learning about non-profit operations and management is the chief objective. Under the guidance of a qualified professional supervisor, students apply theories, concepts, philosophies and techniques acquired in the classroom. To maximize the student's professional development, the practicum is to encompass as many operation and management aspects of the cooperating agency as possible. To be taken Pass/No Pass only. NPL courses may not substitute for courses in Accounting, Economics, Executive Leadership & Entrepreneurship, Finance, Management, or Marketing curricula. Prereq: NPL 3000.

NURSING

NURS 1020 Nursing Success Skills 2 (2) Introduction to a variety of topics critical to a student's success as a Nursing major and future professional. Topics include time management, goal setting, test taking, campus and nursing department resources and policies, critical thinking, and diversity. Students have the opportunity to discover and practice many procedures, techniques, and tips, as well as apply principles learned to their future career in nursing. Prereq: Nursing major.

NURS 1400 Computer Applications in Nursing 3 (3) Introduces students to nursing and the application of computer technology in the delivery of health care. Covers existing computer health-care applications, emerging trends and forecast future needs. Social and ethical issues related to technology are discussed. Prereq: Acceptance into the Nursing program.

NURS 1980 Creative Inquiry—Nursing 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of six credits. Prereq: Consent of faculty member/mentor.

NURS 2980 Creative Inquiry—Nursing 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereq: Consent of faculty member/mentor.

NURS 3000 Seminar in Health Care Topics 1-4 (1-4) Individualized in-depth study in a selected health care area; may have a clinical component and/or special projects. Open to non-Nursing majors. May be repeated for a maximum of six credits. Prereq: Consent of instructor.

NURS 3030 Medical-Surgical I Nursing of Adults 7 (3) Incorporates theoretical and empirical knowledge from physical and social sciences to use critical thinking to provide holistic, safe, individualized nursing care to adults, including health promotion, maintenance, restoration, and health teaching. Prereqs: NURS 3040 and NURS 3120 and NURS 3121 and NURS 3400. Coreqs: NURS 3031 and NURS 3050.

NURS 3031 Medical-Surgical I Nursing of Adults Laboratory 0 (12) Clinical experiences to accompany NURS 3030. Coreqs: NURS 3031.

NURS 3035 Pathophysiology for Health Care Professionals 1 (1) Focuses on disease mechanisms and recognition of the manifestations of these mechanisms in body systems. Discussion also includes pharmacologic and mechanical interventions commonly associated with specific disease processes and application to patient-care situations. Prereq: BIOL 2230 with a C or better and junior standing in Nursing.

NURS 3050 Psychosocial Nursing 3 (3) Lifespan approach to examine psychosocial, developmental, family, and cultural factors that influence individuals from diverse populations and their families in the promotion, maintenance, and restoration of health. The use of the nursing process, critical thinking, therapeutic communication, and psychosocial nursing interventions is explored. Coreqs: NURS 3030.

NURS 3070 Family Nursing in the Community 4 (3) Bridge course for registered nurse students that focuses on nursing care of families across the lifespan in the context of the community. Major emphasis is on practice activities to assist individuals in achieving or maintaining wellness in the family, home, and community environments. Coreqs: NURS 3071 and NURS 4250.

NURS 3071 Family Nursing in the Community Laboratory 0 (2) Non-credit laboratory to accompany NURS 3070. Coreq: NURS 3070.

NURS 3100 Health Assessment 3 (2) Introduces concepts of health, wellness, and illness. Focuses on physical, psychosocial, and cultural assessment for the well adult client with variations across the lifespan. Includes interviewing techniques. Coreqs: NURS 3101 and NURS 3120 and NURS 3400.

NURS 3101 Health Assessment Laboratory 0 (3) Non-credit laboratory to accompany NURS 3100. Coreq: NURS 3100.

NURS 3110 Health Promotion Across the Lifespan 2 (2) Focuses on health promotion and illness prevention activities across the lifespan for individuals and families in the community. Major emphasis is on nursing’s role in the acquisition and maintenance of health as well as the identification and modification of health risk factors. Prereqs: NURS 3010 and NURS 3120 and NURS 3210.

NURS 3120 Medical-Surgical I: Foundations of Nursing 4 (2) Focuses on therapeutic nursing interventions, including selected psychomotor skills, communication skills, and teaching/learning. Coreqs: NURS 3100 and NURS 3120 and NURS 3400.

NURS 3121 Medical-Surgical I: Foundations of Nursing Laboratory 0 (6) Non-credit laboratory to accompany NURS 3120. Coreqs: NURS 3120.

NURS 3180 Multidisciplinary Approach to End-of-Life Care 3 (3) Integrates principles of care to increase comfort at the end of life, presented within a framework that encompasses the physical, psychosocial, and spiritual dimensions of an individual. Coursework also includes ethical and legal issues related to advance directives, reimbursement, and regulatory topics. Prereq: PSYC 2010 or SOC 210.

NURS 3190 Health Assessment for RNs 3 (3) Expands knowledge of health assessment techniques utilized with well or ill adult clients. Emphasizes data collection as a basis for critical thinking in professional nursing practice. Prereq: Admission to RN/BS program.

NURS 3200 Professionalism in Nursing 3 (3) Application of critical thinking skills is the core of professional nursing roles in multidisciplinary approaches to health care. Analysis of the historical development of modern nursing. Examination of issues of providing nursing care to diverse populations within the context of professional standards. Includes medical nomenclature. Prereq: BIOL 2220.

NURS 3230 Gerontology Nursing 2 (2) Introduction of theories of aging. Focuses on complex health care issues of aging and chronic care, including promotion, maintenance, and restoration of health of the elderly. Scientific concepts address physiological, psychological, and sociological issues of aging and chronic illness. Prereqs: NURS 3100 and NURS 3120.

NURS 3280 Honors Seminar I 2 (2) Serves as the foundation for senior honors projects. Students identify a topic of interest, a faculty mentor, and team members for their honors project and begin to review the literature in their areas of interest. Prereq: Admission to Nursing Department Honors program.
NURS 3300 Research in Nursing 3 (3) Introduction to conceptual frameworks, models, and theories related to nursing. Analysis of reported research in nursing and related disciplines. Ethical, moral, and legal issues are discussed in relation to nursing research. Includes Honors sections. Prq: NURS 3100 and NURS 3120 and NURS 3200; or admission to the RN/BS or accelerated Nursing program.

NURS 3330 Health Care Genetics 3 (3) Focuses on the new genetics and the implications for health care professionals. Discussion includes applications of the evolving genetics technology and services to changing life stages. Issues of ethics relevant to various genetic disorders is also addressed. May also be offered as HCG 3330. Prq: BIOL 2220.

NURS 3340 Integrative Healing: Complementary/Alternative Healthcare 3 (3) Introduction to healing practices that are complementary with/ and alternative (C/A) for conventional Western medicine. Includes exploration of research, principles, techniques, and methods of C/A used in health and healing.

NURS 3400 Pharmacotherapeutic Nursing Interventions 3 (3) Focuses on the integration of nursing process with pharmacotherapeutics, administration, monitoring, and related client education. Includes major drug classifications, indications for use, side effects, interactions, routes of administration, usual dosages and contraindications. Prq: Junior standing in Nursing. Coreq: NURS 3100 and NURS 3120.

NURS 3510 Contemporary Health Care Ethics 3 (3) Students from diverse disciplines use knowledge of ethical theories/principles to critically reflect on current health care issues and policies. Students also examine methods of ethical decision making to conduct policy analysis. Current trends in the political, economic and legal arenas of health care are examined using the Socratic Method. Nursing majors are given registration priority.

NURS 3600 Social Determinants of Health in Low Resource Countries 3 (3) Examines the historic roots of global health and the impact of social determinants of health with specific focus on low resource countries. Topics include diseases common to impoverished populations, childhood and maternal morbidity, violence, occupational injuries, and malnutrition. Prq: Nursing, Public Health Sciences, Nutrition, Preprofessional Health Studies, Preoccupational Therapy, Prepharmacy, Prephysical Therapy, or Prephysician Assistant major.

NURS 3610 Leadership and Collaboration in Global Health 3 (3) Provides the foundation for leadership skills and collaboration for the delivery of global health care in low resource countries. Development of communication skills needed to work in collective, partnership-based agencies and communities as part of an inter-professional team is emphasized. Prq: Enrollment in Health Science, Language and International Health, Nursing, Nutrition and Dietetics, Prepharmacy, Prehabilitation Sciences, or Preprofessional Health program.

NURS 3620 Low Resource Country Field Experience 3 (9) In this study abroad course, students focus on language acquisition while working and living in a low resource country. Students participate in service-learning projects with community partnerships. Emphasis is placed on recognition of the social, economic and cultural contexts of the host country. Prq: Enrollment in Health Science, Language and International Health, Nursing, Nutrition and Dietetics, Prepharmacy, Prehabilitation Sciences, or Preprofessional Health program.

NURS 3980 Creative Inquiry—Nursing 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of faculty member/mentor.

NURS 4010 Mental Health Nursing 5 (3) Application of theories and the nursing process to identify, implement, and evaluate nursing interventions for the care of clients with psychiatric disorders. Prq: NURS 3030 and NURS 3031 and NURS 3110 and NURS 3230 and NURS 3300. Coreq: NURS 4011 and NURS 4120 and NURS 4121.

NURS 4011 Mental Health Nursing Laboratory 0 (6) Non-credit laboratory to accompany NURS 4010. Coreq: NURS 4010.

NURS 4030 Medical-Surgical III: Complex Nursing of Adults 5 (3) Focuses on the biological, psychological, philosophical, and sociocultural influences on complex health problems related to acute and traumatic conditions. Emphasizes the concepts of circulatory, respiration, homeostasis, and compensation in acutely ill adults. Prq: NURS 4010 and NURS 4110 and NURS 4120. Coreq: NURS 4031.

NURS 4031 Medical-Surgical III: Complex Nursing of Adults Laboratory 0 (6) Non-credit laboratory to accompany NURS 4030. Coreq: NURS 4030.

NURS 4050 Leadership and Management in Nursing 3 (3) Focuses on the role of the profession-nurse in managing nursing care. Theories and research related to leadership, power, management, organizations, regulation, and ethics are discussed. Directed laboratory experiences are provided. Prq: Admission to RN/BS program. Coreq: NURS 4051.

NURS 4051 Leadership and Management in Nursing Laboratory 0 (2) Non-credit laboratory to accompany NURS 4050. Coreq: NURS 4050.

NURS 4060 Issues in Professionalism 3 (3) Analysis of the development of professional nursing. Consideration of educational issues, legal and economic issues, health policy, leadership, cultural variations, and the influence of values in ethical decisions and nursing practice. Prq: Admission to RN/BS program.

NURS 4100 Leadership Management and Nursing Care Practicum 6 (3) Focuses on the role of the professional nurse in practicing and managing nursing care. Theories and research related to clinical practice, leadership, power, management, organizations, regulation, ethics, and licensure preparation are discussed. Directed lab experiences are provided under preceptor supervision. Coreq: NURS 4030 and NURS 4100.

NURS 4101 Leadership Management and Nursing Care Practicum Laboratory 0 (9) Non-credit laboratory to accompany NURS 4100. Coreq: NURS 4100.

NURS 4110 Nursing Care of Children 5 (3) Focuses on child health problems and health maintenance. Emphasizes biological, pathophysiological, psychological, and sociocultural concepts related to nursing care of children with acute, critical, and chronic illnesses. Includes strategies for alleviation of illnesses, restoration of wellness, promotion and maintenance of health, growth, and development. Prq: NURS 3030 and NURS 3035 and NURS 3110 and NURS 3230 and NURS 3300. Coreq: NURS 4100 and NURS 4111.

NURS 4111 Nursing Care of Children Laboratory 0 (6) Non-credit laboratory to accompany NURS 4110. Coreq: NURS 4110.

NURS 4120 Nursing Care of Women and Their Families 5 (3) Emphasizes biological, psychological, and sociocultural concepts; identification of appropriate nursing strategies to enhance individual capacity to achieve or maintain wellness in the family, home, community, and hospital environment. Prq: NURS 3030 and NURS 3050 and NURS 3110 and NURS 3230 and NURS 3300. Coreq: NURS 4100 and NURS 4121.

NURS 4121 Nursing Care of Women and Their Families Laboratory 0 (6) Non-credit laboratory to accompany NURS 4120. Coreq: NURS 4120.

NURS 4140 Community Health Nursing and Health Promotion 5 (3) Focuses on community health nursing of families and community groups, including community assessment, screening, health promotion and health education, with emphasis on the health of clients and population groups in homes, schools, industries and other community agencies and organizations. Prq: NURS 4010 and NURS 4110 and NURS 4120 and admission to the accelerated Nursing program. Coreq: NURS 4141.

NURS 4141 Community Health Nursing and Health Promotion Laboratory 0 (6) Non-credit laboratory to accompany NURS 4140. Coreq: NURS 4140.

NURS 4150 Community Health Nursing 4 (2) Consideration of health promotion activities for family and community groups with emphasis on community assessment, screening, and health teaching/counseling. Practice activities are related to health promotion in population groups and nursing care of homebound clients. Laboratory settings include homes, schools, industries, and other community organizations. Prq: NURS 4010 and NURS 4110 and NURS 4120. Coreq: NURS 4151.

NURS 4151 Community Health Nursing Laboratory 0 (6) Non-credit laboratory to accompany NURS 4150. Coreq: NURS 4150.

NURS 4160 Concepts in Transcultural Nursing 3 (3) Focuses on transcultural nursing concepts, theory and practices in order to provide culturally congruent nursing care. Culture care beliefs, values and practices of specific cultures are analyzed based on Leininger’s Culture Care Theory, using the ethnournsing method and research findings.

NURS 4200 Senior Honors I 2 (2) Students develop a proposal for a major thesis, directed study project, or research project under the guidance of a faculty preceptor. Prq: Honors section of NURS 3300.
NUTR 2030 Introduction to Principles of Human Nutrition 3 (3) Study of nutrient functions and requirements, food choices, dietary adequacy, and role of nutrition in physical fitness. Deals with social and scientific issues; evaluation and interpretation of nutrition sources from government, private, academic, and the health care sectors.

NUTR 2040 Nutrition Across the Life Cycle 3 (3) Using current evidence, course examines nutrition issues and requirements across the life cycle, including preconception, pregnancy, lactation, infancy, childhood, adolescence, adulthood, and aging. Methods of nutritional assessment for each stage of life are explored. Preq: NUTR 2030.

NUTR 2050 Nutrition for Nursing Professionals 3 (3) Investigation of targeted general and clinical nutrition topics, including principles of nutrition, life-cycle nutrition, relationship of diet to health and disease, and the role of nursing professionals and nutrition. Preq: Nursing major. Preq or concurrent enrollment: BIOL 2220.

NUTR 2100 Nutrition and Physical Activity 3 (3) Topics include role of carbohydrates, fats, and proteins on energy utilization during exercise; altering body composition and improving fitness with diet and physical activity; importance of fluid intake on performance; effectiveness of dietary supplements and ergogenic aids; and choosing a diet appropriate for individual physical activity levels. Preq: BIOL 1200; and one of BIOL 1210 or BIOL 1220 or BIOL 1230 or BIOL 1240.

NUTR 2160 Evidence-Based Nutrition 1 (1) Introduction to research methods, ethics in research, and evidence-based nutrition guidelines within the profession of nutrition and dietetics. Preq: Food Science major.

NUTR 4010* Fundamentals of Nutrition 3 (3) Biochemical and physiological fundamentals of nutrition applicable to man and domestic animals. Considers digestive processes and absorption and metabolism of carbohydrates, lipids, proteins, water, minerals, and vitamins. Discusses energy metabolism and comparative anatomy and physiology of digestive systems. Offered fall semester only. Includes Honors sections. Preq: BCHM 3050 or CH 2230.

NUTR 4180 Professional Development in Dietetics I 1 (1) Provides the steps for dietetic internship application process; career development in the dietetics field; and concepts of professional standards. Preq: Food Science major and Junior standing.

NUTR 4190 Professional Development in Dietetics II 1 (1) Career development strategies to assist students pursuing professional or graduate degrees. The focus is on standards used for admission, application preparation, and what to do when delayed. Preq: Food Science major and Junior standing.

NUTR 4200 Selected Topics in Nutrition 1-3 (1-3) Comprehensive study of special topics in nutrition not covered in detail or contained in other courses. Current developments in each area are stressed. May be repeated for a maximum of three credits, but only if different topics are covered. Preq: Food Science major and Senior standing.

NUTR 4210 Special Problems in Nutrition 1-4 (1-4) Independent research investigation in nutrition. Special emphasis is on developing a research proposal, conducting the research, and reporting the findings. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Food Science major and Senior standing.

NUTR 4240* Medical Nutrition Therapy I 4 (3) Principles of nutritional assessment, education, and counseling skills; development of medical nutrition therapy for individuals with obesity and eating disorders, gastrointestinal disorders, metabolic and renal disorders. Preq: Food Science major or minor; and BIOL 2220 and BIOL 2230 and NUTR 4510. Coreq: NUTR 4241.

NUTR 4241* Medical Nutrition Therapy I Laboratory 0 (3) Non-credit laboratory to accompany NUTR 4240. Coreq: NUTR 4240.

NUTR 4250* Medical Nutrition Therapy II 4 (3) Development of medical nutrition therapy for individuals with various disease states, including cardiovascular, hepatic, muscular-skeletal, and neoplastic disorders. Also considers sociocultural and ethnic aspects of food consumption and alternative nutrition therapies. Includes Honors sections. Preq: Food Science major or minor; and BIOL 2220 and BIOL 2230 and NUTR 4240. Coreq: NUTR 4251.

PERFORMING ARTS

PA 1010 Introduction to Performing Arts 3 (3) Overview of performing arts, including performance, careers, technology, production, management, community outreach, safety, sales, and marketing. Preq: Production Studies in Performing Arts major. Coreq: PA 1030.

PA 1030 Portfolio I 1 (3) Students develop discipline-specific portfolios that display creative design and contain samples of work that demonstrate integrated learning. Coreq: PA 1010.
PA 1950 Creative Inquiry—Performing Arts 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of instructor.

PA 2010 Career Planning and Professional Development 3 (2) Study of selected performing arts topics. Includes seminars and masterclasses with faculty and visiting artists and concert and theatre attendance and evaluation. Emphasis is placed on written communication skills. Prq: PA 1010 and Sophomore standing. Coreq: PA 2011.

PA 2011 Career Planning and Professional Development Laboratory 0 (3) Non-credit laboratory to accompany PA 2010. Coreq: PA 2010.

PA 2790 Performing Arts Practicum I 1 (3) Practical work on performing arts presentations including backstage technical work, multimedia support, and arts management.

PA 2800 Performing Arts Practicum II 1 (3) Continuation of practical work on performing arts presentations, with more specialized opportunities for backstage technical work, multimedia support, and arts management training. Prq: PA 2790.

PA 2950 Creative Inquiry—Performing Arts 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of instructor.

PA 3010 Principles of Arts Administration 3 (2) Continuation of PA 2010 with added focus on critical and ethical analysis of performing arts. Emphasis is placed on oral communication skills. Prq: PA 2010 and Junior standing. Coreq: PA 3011. PA 3011 Principles of Arts Administration Laboratory 0 (3) Non-credit laboratory to accompany PA 3010. Coreq: PA 3010.

PA 3950 Creative Inquiry—Performing Arts 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of instructor.

PA 3980 Special Topics in Performing Arts 1-3 (1-3) Select areas of study in performing arts not addressed by other performing arts course offerings. May be repeated for a maximum of six credits, but only if different topics are covered. Prq: PA 1010 and consent of instructor.

PA 3990 Internship 1-3 (1-3) Provides performing Arts majors an opportunity to apply technical, managerial, and artistic concepts in a performing arts environment through preplanned, preapproved, faculty-supervised internships. Minimum of 45 hours of work per credit hour. May be repeated for a maximum of six credits. To be taken Pass/No Pass only. Prq: PA 2790 and consent of instructor.

PA 4010 Capstone Project 3 (3) Capstone course for Performing Arts majors. Students research, prepare, execute, and assess a substantial project for the community as approved by a faculty committee. Students, with faculty guidance, manage all aspects of the project. Prq: PA 3010. Coreq: PA 4011 and PA 4030.

PA 4011 Capstone Project Laboratory 0 (3) Non-credit laboratory to accompany PA 4010. Coreq: PA 4010.

PA 4030 Portfolio II 1 (3) Students revise discipline-specific portfolios through use of current technologies. Further demonstration of integrated learning is provided with the incorporation of capstone project research content from PA 4010. Coreq: PA 4010.

PA 4910 Performing Arts Honors Research 3 (3) Research for the preparation of an honors project. Prq: PA 3010 and consent of department chair.

PA 4920 Performing Arts Honors Project 3 (3) Preparation and presentation of an honors project. Prq: PA 4910 and consent of department chair.

PA 4950 Creative Inquiry—Performing Arts 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of instructor.

PA 4990 Independent Studies 1-3 (1-3) Supervised study for students with special interests in performing arts outside the scope of existing courses. May be repeated for a maximum of six credits. Prq: Consent of department chair.

PAS 4300 Hip-Hop and African American Contemporary Culture 3 (3) Examines the controversial history and legacy of Hip-Hop culture, and explores how the artistic expression of the American underclass has evolved into worldwide cultural expression. Combines scholarship and theory with considerable audio and video exposure to various Hip-Hop songs and artists. Prq: Sophomore standing.

PAS 4710 Directed Studies on the Black Experience in Education 1-3 (1-3) Students conduct research and produce scholarship on academic, social, and historical issues that impact the Black experience in educational settings. Students may also participate in service learning activities to broaden their understanding and apply their knowledge in the community. May be repeated for a maximum of nine credits.

PAS 4980 Seminar on Pan African Studies 3 (3) Research/writing seminar on the African American experience. Selected topics and themes from 1900 to present. Prq: PAS 3100; and one of HIST 3110 or HIST 3120 or HIST 3390.

PEARCE CENTER FOR PROFESSIONAL COMMUNICATION

PCPC 4990 Pearce Center Internship 1-3 (1-3) Students work in the Class of 1941 Studio for Student Communication on projects involving multimodal communications, public relations, graphic design, and publishing. Students edit copy, pitch stories, research and write articles for print, web, and/or video publication, create ePubs, develop and execute social media strategies, design marketing material, develop public relations strategies, design websites, and other related tasks. Prq: Consent of instructor.

PLANT AND ENVIRONMENTAL SCIENCES

PES 1040 Introduction to Plant Sciences 3 (3) Fundamental course in plant sciences, including agronomic and horticultural crops of the major agricultural areas of the world and emphasizing the crops of South Carolina. Includes Honors sections.

PES 2020 Soils 4 (3) Introduces world land resources, soil formation, classification, and mineralogy. Emphasizes basic chemical and physical properties of soil. Also discusses soil microorganisms, plant nutrients, and fertilization. Soil properties are related to growth. Prq: CH 1010 or CH 1020 or GEOL 1010. Coreq: PES 2021.

PES (ENSP) 3150 Environment and Agriculture
3 (3) Survey of the interrelationships of the environment and current agriculture and agricultural practices to include both the environmental impacts of agriculture and the role of agriculture in conservation and improving the environment. Includes Honors sections. May also be offered as ENSP 3150. Preq: Sophomore standing and one of the following combinations: BIOL 1040 and BIOL 1060; or BIOL 1100 and BIOL 1110; or CH 1010 and CH 1020; or CH 1050 and CH 1060.

PES 3350 Agricultural Biotechnology 3 (2)
Strategies for the best use of biotechnology and genetic resources to alleviate constraints in global hunger, environmental sustainability, and health. Includes genetic enhancement and chromosome engineering of plant, animal, and microbial systems; issues related to commercial implementation; the impact on developing countries, environmental impact, and governmental policies. Preq: GEN 3000. Coreq: PES 3351.

PES 3351 Agricultural Biotechnology Laboratory 0
(2) Non-credit laboratory to accompany PES 3350. Coreq: PES 3350.

PES (BIOL) 3400 Medical Botany 3 (3)
Study of use of compounds of plant and fungal origin as poisons, hallucinogens, and pharmaceuticals. May also be offered as BIOL 3400. Preq: BIOL 1040 and BIOL 1060 and CH 1020.

PES 3500 Practicum 1-6 (1-6)
Prepared practical or research experience related to student-selected Plant and Environmental Sciences concentration. Practicum is undertaken with an approved advisor or agency. May be repeated for a maximum of six credits. Prp: Plant and Environmental Sciences major.

PES 4010 Academic and Professional Development 1
(1) Students work with Career Center staff and the instructor to develop interview skills, resumes and professional goals, as well as identify skills necessary to be competitive. The importance of ethics in science careers is discussed.

PES 4030* Soil Genesis and Classification 2 (1)

PES 4031* Soil Genesis and Classification Laboratory 0
(3) Non-credit laboratory to accompany PES 4030. Coreq: PES 4030.

PES 4050* Plant Breeding 3 (3)
Application of genetic principles to the development of improved crop plants. Principal topics include the genetic and cytophenetic basis of plant breeding, mode of reproduction, techniques in selfing and crossing, methods of breeding, inheritance in the major crops, and biometrical methods. Offered spring semester only. Preq: GEN 3000. Coreq: PES 4051.

PES 4051* Plant Breeding Laboratory 0
(2) Non-credit laboratory to accompany PES 4050. Coreq: PES 4050.

PES 4060* Special Problems 1-3 (1-3)
Acquaints students with the scientific method. Literature investigation, planning, and execution of an experiment are integral parts of the course. Not open to students who have taken or are taking PES 4910 and PES 4920. May be repeated for a maximum of six credits. Preq: Senior standing.

PES (BE) 4080* Land Treatment of Wastewater and Sludges 3 (3)
Principles for designing environmentally acceptable land application systems using municipal and industrial wastewater and sludges are presented. Topics include land-limiting constituent analysis; soil-plant interactions; system equipment and design; system operation and management; public acceptance, social, and regulatory issues. Case studies and field trips are planned. May also be offered as BE 4080. Preq: Senior standing.

PES 4090* Biology of Invasive Plants 3 (3)
Introductory course covering mechanisms of plant invasions. Emphasizes unique traits that confer invasiveness and/or weediness to plants, and how these plant traits interact with the environment to facilitate invasion of agricultural lands, forests, rangelands and less-managed landscapes. Covers various cultural, chemical and biological control aspects. Preq: BIOL 1040 and BIOL 1060; or BIOL 3040.

PES 4210* Principles of Field Crop Production 3 (3)
Principles for production of field crops. Topics include botany and physiology, tillage, harvesting, storage, and crop quality. Principles are illustrated using examples from various crops. Preq: PES 2020 and PES 1040.

PES 4220* Major World Crops 3 (3)
Examines the distribution, adaptation, production, and utilization of major agronomic crops of the world. Emphasizes crops important to U.S. agriculture. Specific crops discussed in more detail include corn, wheat, rice, sugarcane, sorghum, tobacco, and peanuts. Preq: PES 3400 and 1040.

PES 4230* Field Crop Crops—Forages 3 (3)

PES (AGR) 4260* Cropping Systems Analysis 3 (3)
Application of agronomic and economic principles in solving problems related to the production and marketing of agronomic crops. Major part of the course is a case study in which detailed analysis of a farm, agribusiness, or environmental situation is made with students making formal written and oral presentations of results. May also be offered as AGR 4260. Preq: PES 1040; and Junior standing; and AGRB 2020 or ECON 2000 or ECON 2110. Coreq: PES 4261.

PES (AGR) 4261* Cropping Systems Analysis Laboratory 0
(2) Non-credit laboratory to accompany PES 4260. May also be offered as AGR 4261. Coreq: PES 4260.

PES (HORT) 4330* Landscape and Turf Weed Management 3 (2)
Weed management strategies that include cultural, biological, and chemical methods are studied for landscape and turfgrass areas. Problem-solving skills and herbicide characteristics are emphasized. May also be offered as HORT 4330. Coreq: PES 4331.

PES (HORT) 4331* Landscape and Turf Weed Management Laboratory 0
(2) Non-credit laboratory to accompany PES 4330. May also be offered as HORT 4331 Coreq: PES 4330.
PHIL 3400 Technology, Environment, and Sustainability 3 (3) Philosophical examination of how technology contributes to significant environmental change. Considers role of science in justifying claims about (for example) global climate change, role of technology in responding to these changes, how technology affects relations between humans and the extra-human world, and ethical implications of various kinds of technology.

PHIL 3430 Philosophy of Law 3 (3) Explanation of the nature of legal theory and the law through a critical examination of the basic concepts and principles of these fields.

PHIL 3440 Business Ethics 3 (3) Study of ethical issues created by business activities, relating them to fundamental questions of ethics generally. Representative topics may include hiring, firing, promotions, business and minorities, organizational influence in private lives, consumer interests, economic justice, and reindustrialization.

PHIL 3450 Environmental Ethics 3 (3) Study of ethical problems in our dealings with the rest of nature and of how they relate to ethics in general. Representative topics include the basis of ethics, nature and intrinsic value, duties to future generations, economics and the environment, rare species, animal rights, ethics and agriculture, energy doctrine.

PHIL 3460 Medical Ethics 3 (3) Examines ethical dilemmas facing modern medicine. Topics may include controversies surrounding death, reproductive technologies, abortion, allocation of resources, the concept of disease, the doctor-patient relationship, and medical research.

PHIL 3470 Ethics in Architecture 3 (3) Interdisciplinary course focused on the architectural profession and the practices of design, building, and other processes in a social and business context. Consideration is given to both general moral principles and particular case studies.

PHIL 3480 Philosophies of Art 3 (3) Examination of the predominant attempts to understand art in ancient and modern philosophy and also considers a variety of contemporary views and controversies about the nature, meaning, value, and future of art.

PHIL (WS) 3490 Theories of Gender and Sexuality 3 (3) Examines the philosophical dimensions of contemporary debates about the relation of sex, gender, and sexuality. May also be offered as WS 3490.

PHIL 3500 Technology and Philosophy in Nursing 3 (3) Analyzes influence of increasing application of scientific technology to health care delivery and concomitant ethical issues.

PHIL 3510 Philosophy of Emotion 3 (3) Considers a range of classic and contemporary readings on the nature and function of emotion. Topics include cognitive, physiological, and constructionist approaches to understanding emotion, emotion and reason, emotion and morality, and select individual emotions.

PHIL 3550 Philosophy of Mind and Cognitive Science 3 (3) Critical examination of philosophical and scientific theories of mental phenomena and of the relationship between mental and material phenomena. Theories of Mind-Body Dualism, Monism, Functionalism, Eliminative and Reductive Materialism, Connectionism, and the status of folk psychology versus cognitive neuroscience are studied.

PHIL 3600 Symbolic Logic 3 (3) Introduction to the basic concepts of modern symbolic logic, including the symbolization of statements and arguments and the techniques of formal proof.

PHIL 3700 Philosophy of War 3 (3) Examines war from both ethical and strategic perspectives: the nature of a just war, the aims of war, and the kinds of general strategies appropriate for achieving those aims.

PHIL 3750 Minds and Machines 3 (3) Examines controversial questions in artificial intelligence and the Computational Theory of Mind. Topics may include: “Can machines think?” “What’s involved in being able to think?” “Can machines reason, understand, be conscious, be self-aware, learn, be creative, have emotions, and use natural language?” Focus is on man-made computers and the mind as computer.

PHIL 3990 Philosophy Portfolio 2 (2) Creation of a digital portfolio to demonstrate competence in reasoning, critical thinking, and problem-solving skills as well as critical judgment. Course also serves as a resource for academic and professional development. Prerequisite standing in Philosophy.

PHIL 4010 Studies in the History of Philosophy 3 (3) In-depth study of a selected philosopher, philosophical school, or movement. Topics vary. With departmental consent, may be repeated once for credit. Current topics and course descriptions are available in the department’s course offering brochure.

PHIL 4020 Topics in Philosophy 3 (3) Thorough examination of a particular philosophical topic, issue, or problem. Topics vary. May be repeated once for credit with departmental consent. Current topics and course descriptions are available in the department’s course offering brochure.

PHIL 4220 Anarchism 3 (3) Philosophical study of the roots of anarchist thought and its current articulations.

PHIL 4750 Philosophy of Film 3 (3) Pursues several issues at the center of recent debate in the philosophy of film. Questions investigated include whether film has an essence that distinguishes it from other art forms, whether films ought to be thought of as having authors or narrators, and whether films can themselves philosophize.

PHIL 4900 Law, Liberty and Justice Prelaw Internship 1-3 (1-3) Faculty-supervised internship designed for students in the Law, Liberty and Justice emphasis area of the Philosophy major. Interns are placed with law offices or with institutions and agencies in fields related to law and social policy. May be repeated for a maximum of six credits. To be taken Pass/No Pass only. Prq: Philosophy major and Junior standing and consent of internship coordinator.

PHIL 4920 Creative Inquiry—Philosophy 14 (1-4) Small group work on particular issues with emphasis on involving students in research. Content varies. May be repeated for a maximum of nine credits. Prq: Consent of instructor.

PHIL 4970 Philosophy Honors Research 3 (3) Students conduct research, clearly define the topic, and complete an annotated bibliography under the supervision of the thesis advisor. Prq: Consent of department chair and thesis advisor.

PHIL 4980 Philosophy Honors Thesis 3 (3) In consultation with the thesis advisor and committee, students write, revise, defend, and complete the thesis. Prq: PHIL 4970 and consent of department chair and thesis advisor.

PHIL 4990 Independent Study 1-3 (1-3) Course of study designed by the student in consultation with a faculty member who agrees to provide guidance, discussion, and evaluation of the project. Student must confer with the faculty member prior to registration. May be repeated for a maximum of six credits. Prq: Consent of instructor.

PHYSICAL SCIENCE

PHSC 1070 Introduction to Earth Science 4 (3) Survey of topics in geology, meteorology, astronomy, and oceanography, emphasizing comprehension and practical application of earth science concepts to experiments. Credit toward a degree will be given for only one of PHSC 1070 or 1170. Coreq: PHSC 1071.

PHSC 1071 Introduction to Earth Science Laboratory 0 (3) Non-credit laboratory to accompany PHSC 1070. Coreq: PHSC 1070.

PHSC 1080 Introduction to Physical Science 4 (3) Survey of topics in chemistry and physics emphasizing comprehension and practical application of physical science concepts to experiments Credit toward a degree will be given for only one of PHSC 1080 or 1180. Coreq: PHSC 1081.

PHSC 1081 Introduction to Physical Science Laboratory 0 (3) Non-credit laboratory to accompany PHSC 1080. Coreq: PHSC 1080.

PHSC 1170 Introduction to Chemistry and Earth Science for Elementary Education Majors 4 (3) Integrates topics in chemistry, earth science and environmental science. It emphasizes the interconnectedness among the various science disciplines and the practical application to experiments and activities appropriate for the elementary classroom. Credit toward a degree will be given for only one of PHSC 1070 or 1170. Prq: Elementary Education major. Coreq: PHSC 1171.

PHSC 1171 Introduction to Chemistry and Earth Science for Elementary Education Majors Laboratory 0 (3) Non-credit laboratory to accompany PHSC 1170. Coreq: PHSC 1170.

PHSC 1180 Introduction to Physics, Astronomy, and Earth Science for Elementary Education Majors 4 (3) Integrates topics in physics, astronomy, and earth science. It emphasizes the interconnectedness among the various science disciplines and the practical application to experiments and activities appropriate for the elementary classroom. Credit toward a degree will be given for only one of PHSC 1080 or 1180. Prq: PHSC 1170. Coreq: PHSC 1181.
PHSC 1181 Introduction to Physics, Astronomy, and Earth Science for Elementary Education Majors Laboratory 0 (3) Non-credit laboratory to accompany PHSC 1180. Coreq: PHSC 1180.

PHYSICS

PHYS 1010 Current Topics in Modern Physics 1 (0) Demonstrations and lectures serving as an introduction to different areas of physics and astronomy presented by various members of the staff. Open to all students. Coreq: PHYS 1000. Credit for a degree will be given for only one of PHYS 1240 or 2090.

PHYS 1220 Physics with Calculus I 3 (3) Continuation of PHYS 1210; Introduction to modern physics. Includes elements of mechanics, waves, fluids, and heat. Credit for a degree will be given for only one of PHYS 2230 or 2240. Coreq: PHYS 2220.

PHYS 2090 General Physics I Laboratory 1 (2) Introductory laboratory course for students who are not majoring in physical science or engineering. Covers such topics as mechanics, waves, fluids, and thermal physics. Credit for a degree will be given for only one of PHYS 2080 or 2210. Coreq: PHYS 2070.

PHYS 2100 General Physics II Laboratory 1 (2) Covers such topics as electricity, magnetism, electromagnetic waves, optics, and modern physics. Credit for a degree will be given for only one of PHYS 2080 or 2210. Coreq: PHYS 2070.

PHYS 2210 Physics with Calculus II 3 (3) Continuation of PHYS 2200. Includes Honors sections. Coreq: PHYS 2220. Credit for a degree will be given for only one of PHYS 2230 or 2240. Coreq: PHYS 2220.

PHYS 2220 Physics with Calculus III 3 (3) Continuation of PHYS 2210. Includes Honors sections. Coreq: PHYS 2220.

PHYS 2230 Physics Laboratory I 1 (3) Introduction to experimental physics with emphasis on mechanical systems, including oscillatory motion and resonance. Computer use is minimal. Credit for a degree will be given for only one of PHYS 1240 or 2090. Coreq: PHYS 1220.

PHYS 2240 Physics Laboratory III 1 (3) Experiments in heat and thermodynamics, electromagnetism, waves, and quantum physics. Credit for a degree will be given for only one of PHYS 2080 or 2210. Coreq: PHYS 2220.

PHYS 2270 Physics Laboratory II 1 (3) Experiments in heat and thermodynamics, electromagnetism, waves, and quantum physics. Credit for a degree will be given for only one of PHYS 2080 or 2210. Coreq: PHYS 2220.

PHYS 2800 Physics and Reality 3 (3) Non-technical study of the content and meaning of modern physics. Includes first principles of physics. Evaluates concepts of substance, matter, motion, and time. Special topics include quantum mechanics, relativity, and the Wabeck Theorem. Intended for a broad audience, including specialists and non-specialists.

PHYS 2900 Physics Research 1-3 (1-3) Individual research project in any area of experimental or theoretical physics or astronomy supervised by a physics or astronomy faculty member. Project need not be original but must add to students' ability to carry out research. May be repeated for a maximum of six credits. Students must have a 3.0 minimum grade-point average to enroll in this course. Coreq: Consent of instructor.

PHYS 3110 Introduction to the Methods of Theoretical Physics 3 (3) Survey of methods and techniques of problem-solving in physics. Includes the application of mathematical techniques to the solution of problems of vectors, fields, and waves in mechanics, electromagnetism, and quantum physics. Coreq: PHYS 2210.

PHYS 3120 Methods of Theoretical Physics II 3 (3) Continuation of PHYS 3110 focused on introducing various mathematical notions widely used in upper level physics courses, such as differential equations, special functions and complex numbers, and complex functions. Coreq: PHYS 3110.

PHYS 3150 Introduction to Computational Physics 3 (3) Basic numerical methods important for data interpretation and modeling in physics, such as interpolation, derivatives, integration, solving differential and matrix equations, and Monte Carlo simulation. Methods are applied to physics problems, including realistic projectile motion, harmonic oscillators, chaotic pendulum, nonlinear systems, and Ising model. Coreq: PHYS 2220.

PHYS 3210 Mechanics I 3 (3) Statics, motions of particles and rigid bodies, vibratory motion, gravitation, properties of matter, flow of fluids. Coreq: PHYS 2210.

PHYS 3220 Mechanics II 3 (3) Dynamics of particles and rigid bodies, Lagrangian and Hamiltonian formulations, vibrations of strings, wave propagation. Coreq: PHYS 2210.

PHYS 3250 Experimental Physics I 3 (1) Introduction to experimental modern physics, measurement of fundamental constants, repetition of crucial experiments of modern physics (Stern-Gerlach, Zeeman effect, photoelectric effect, etc.). Coreq: PHYS 2220.

PHYS 3251 Experimental Physics I Laboratory 0 (4) Non-credit laboratory to accompany PHYS 3250. Coreq: PHYS 3250.

PHYS 3260 Experimental Physics II 3 (1) Continuation of PHYS 3250. Includes Honors sections. Coreq: PHYS 3261.
PHYS 3261 Experimental Physics II Laboratory 0 (4) Non-credit laboratory to accompany PHYS 3260. Coreq: PHYS 3260.

PHYS 3550 Modern Physics 3 (3) Study of the topics of modern physics, including relativity, atomic physics, quantum mechanics, condensed-matter physics, nuclear physics, and elementary particles. Includes Honors sections. Preq: PHYS 2220 and MATH 2060.

PHYS 3990 Creative Inquiry—Physics and Astronomy 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of faculty member/mentor.

PHYS 4010 Senior Thesis 1-3 (1-3) Semi-original theoretical, experimental, or computational research project performed under the direction of a faculty member. Fields available include astronomy, astrophysics, atmospheric physics, biophysics, high energy physics, relativity, solid state physics, and statistical mechanics. May be repeated for a maximum of six credits. Includes Honors sections. Preq: Nine credits of physics at the 3000- or 4000-level.

PHYS 4170 Introduction to Biophysics I 3 (3) Introduction to the application of physics to biological problems. Topics include review of elementary chemical and biological principles, physics of biological molecules, and fundamentals of radiation biophysics. Includes Honors sections. Preq: MATH 2060 and PHYS 2210.

PHYS 4200 Atmospheric Physics 3 (3) Study of physical processes governing atmospheric phenomena. Topics include thermodynamics of the atmosphere, moist air, solar and terrestrial radiative processes, convection and cloud physics, precipitation processes, hydrodynamic equations of motion and large-scale motion of the atmosphere, numerical weather prediction, atmospheric electricity. Preq: MATH 1080; and PHYS 2080 or PHYS 2210.

PHYS 4240 Optics 3 (3) Covers a selection of topics, depending on the interest of the student. Topics may include the formation of images by lenses and mirrors, design of optical instruments, electromagnetic wave propagation, interference, diffraction, optical activity, lasers, and holography. Includes Honors sections. Preq: PHYS 2210.

PHYS 4410 Electromagnetics I 3 (3) Study of the foundations of electromagnetic theory. Topics include electric fields, electric potential, dielectrics, electric circuits, solution of electrostatic boundary-value problems, magnetic fields, and magnetostatics. Includes Honors sections. Preq: PHYS 2210 and MATH 2080.

PHYS 4420 Electromagnetics II 3 (3) Continuation of PHYS 4410. Study of foundations of electromagnetic theory. Topics include magnetic properties of matter, microscopic theory of magnetization, electromagnetic induction, magnetic energy, AC circuits, Maxwell’s equations, and propagation of electromagnetic waves. Other topics may include waves in bounded media, antennas, electrodynamics, special theory of relativity, and plasma physics. Includes Honors sections. Preq: PHYS 4410.

PHYS 4450 Solid State Physics I 3 (3) Topics include an overview of crystal structures, chemical and atomic bonding, and periodicity in relation to solid materials. Covers electronic, thermal, and magnetic properties of materials, electrical conduction in metals and semiconductors. Overview of the role of electrons and phonons and their interactions is presented. Preq: PHYS 2210.

PHYS 4460 Solid State Physics II 3 (3) Continuation of PHYS 4450, including selected topics in solid-state physics such as optical properties, superconductivity, non-crystalline solids, dielectrics, ferroelectrics, and nanomaterials. Plasmons, polarons, and excitons are discussed. Brief introduction to methods of solid-state synthesis and characterization tools is presented. Includes Honors sections. Preq: PHYS 4450.

PHYS 4520 Nuclear and Particle Physics I 3 (3) Study of our present knowledge concerning subatomic matter. Experimental results are stressed. Topics include particle spectra, detection techniques, Regge phenomenology, and models, proton structure, nuclear reactions, and reactions. Includes Honors sections. Preq: PHYS 3220.

PHYS 4530 Quantum Physics I 3 (3) Discussion of solutions of the Schrödinger equation for free particles, the hydrogen atom, and the harmonic oscillator. Includes Honors sections. Preq: PHYS 3220.

PHYS 4550 Quantum Physics II 3 (3) Continuation of PHYS 4530. Application of principles of quantum mechanics as developed in PHYS 4550 to atomic, molecular, solid state, and nuclear systems. Includes Honors sections. Preq: PHYS 4550.

PHYS 4650 Thermodynamics and Statistical Mechanics 3 (3) Study of development of the laws of thermodynamics and their application to thermodynamic systems. Introduction to low temperature physics is given. Includes Honors sections. Preq: PHYS 3210.

PHYS 4750 Selected Topics I 3-1 (1-3) Comprehensive study of a topic of current interest in the field of physics. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Consent of instructor.

PHYS 4810 Physics of Surfaces 3 (3) Introduction for advanced undergraduates to the physics and chemical physics of solid surfaces and to the interaction of atoms and molecules with those surfaces. Preq: PHYS 3120 and PHYS 3220 and PHYS 3250 and PHYS 3260 and PHYS 4410.

PHYS 4821 Surface Experiments Laboratory 0 (3) Non-credit laboratory to accompany PHYS 4820. Coreq: PHYS 4820.

PHYS 4990 Creative Inquiry—Physics and Astronomy 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of faculty member/mentor.

PACKAGING SCIENCE

PKSC 1010 Packaging Orientation 1 (1) Overview of the various principles and practices in packaging science, historical development, packaging as a career.

PKSC 1020 Introduction to Packaging Science 2 (2) Considers functions of a package; materials, processes, and technology used in package development; and the relationship of packaging to the corporation, consumer, and society as a whole.

PKSC 1030 Packaging Science E-Portfolio 1 (1) Packaging Science majors initiate professional electronic portfolios that showcase their skills and experiences and lead to career e-portfolios. Students demonstrate proficiency in using important software tools; are introduced to Packaging Science faculty; emphasis areas, and targeted library services; and discuss academic integrity. Preq: PKSC 1010. Preq or concurrent enrollment: PKSC 1020.

PKSC 2010 Packaging Perishable Products 3 (3) Covers fundamental characteristics and applications of various materials and systems used to package perishable products such as foods and pharmaceuticals. Discusses packaging issues regarding food, pharmaceutical, and medical packaging. Includes product/package interactions and packaging requirements to address basic theory in food and pharmaceutical protection. Preq or concurrent enrollment: CH 210 and PKSC 2020 and PKSC 2021.

PKSC 2030 Packaging Research Fundamentals 2 (2) Principles, methods, and resources for organizing, researching, and reporting technical work in packaging science. Preq: PKSC 1020 and PKSC 1030 and ENGL 1030 and Packaging Science major.
PKSC 2040 Container Systems (Rigid and Flexible) 3 (3) Examination of all the packages and containers used to develop systems to distribute products. Compatibility of product and package, structural design, costs, and merchandising considerations are stressed. Preq: PKSC 2020. Coreq: PKSC 2060.

PKSC 2060 Container Systems Laboratory 1 (3) Laboratory practice in sample making, designing and constructing various containers. Coreq: PKSC 2040.

PKSC 2200 Product/Package Design and Prototyping 4 (2) Overview of structural and graphic development tools for product and packaging design. Focus on digital creation, photo rendering, wide-format plotting/proofing, rapid prototyping, visualization and real-time 2d/3d design. Course utilizes online lectures and hands-on laboratory experience at The Sonoco Institute. Coreq: PKSC 2201.

PKSC 2201 Product/Package Design and Prototyping Laboratory 0 (6) Non-credit laboratory to accompany PKSC 2200. Coreq: PKSC 2200.

PKSC 2990 Creative Inquiry—Packaging Science 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. To be taken Pass/No Pass only. Preq: Consent of faculty member/mentor.

PKSC 3200 Packaging Design Theory 3 (2) Study of human factors psychology as it relates to product and package development. Lecture topics center on psychological factors that influence consumer motivation, memory, and perception of packages. Laboratory focuses on developing retail packaging and emphasis is placed on organizing a research proposal, conducting research, and reporting results. May be repeated for a maximum of 15 credits. Preq: Consent of instructor.

PKSC 3201 Packaging Design Theory Laboratory 0 (3) Non-credit laboratory to accompany PKSC 3200. Coreq: PKSC 3200.

PKSC 3680 Packaging and Society 3 (3) Study of the role of packaging in society as it specifically relates to the responsibilities of the packaging scientist in protecting people and the environment. Includes study of packaging and environmental regulations and guidelines currently in place to achieve these goals. Ability to make informed decisions and ethical judgments is an encompassing goal. Includes Honors sections.

PKSC 3990 Creative Inquiry—Packaging Science 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. To be taken Pass/No Pass only. Preq: Consent of faculty member/mentor.

PKSC 4010 Packaging Machinery 3 (3) Systematic study of types of machinery used to form, fill, seal, and handle various packaging, products, and packaging materials. Emphasizes basic mechanical, electrical, pneumatic, and hydraulic components of packaging machinery along with packaging machinery terminology. Discusses methods for machine line optimization and layout. Preq: Packaging Science major or minor; and PKSC 2040; and one of PHYS 2060 or PHYS 2210.

PKSC 4030 Packaging Career Preparation 1 (1) Preparation for a successful career in Packaging Science by completing the professional portfolio and finalizing a resume and career e-portfolio. Refines career skills through role playing. Topics include presentations, interviewing, effective collaboration and communication, business and foreign travel etiquette. Preq: Packaging Science major or minor. Coreq: PKSC 4200.

PKSC 4040* Mechanical Properties of Packages and Principles of Protective Packaging 3 (3) Study of the mechanical properties of products and packages and standard methods of determining these properties. Focuses on the functional properties of packages related to shock and vibration isolation and compression. Includes Honors sections. Preq: Packaging Science major or minor; and junior standing; and MATH 1060 and PKSC 2040; and one of PHYS 1220 or PHYS 2070.

PKSC (FDS) 4090 Total Quality Management for the Food and Packaging Industries 3 (3) Introduction to the principles of modern quality management emphasizing standards and topics related to the responsibilities of the packaging scientist in providing products and services that are acceptable to the customer in the marketplace. May also be offered as FDS 4090.

PKSC 4160* Application of Polymers in Packaging 4 (3) Detailed study of polymer science and engineering as applied to packaging science. Includes polymer morphology, rheology, physical properties, processing methods, and polymerization. Emphasizes relationships among processing, structure, and properties. Preq: Packaging Science major or minor; and PKSC 2040 and PKSC 2060; and one of PHYS 1220 or PHYS 2070; and one of CH 210 or CH 2230. Coreq: PKSC 4161.

PKSC 4161* Application of Polymers in Packaging Laboratory 0 (3) Non-credit laboratory to accompany PKSC 4160. Coreq: PKSC 4160.

PKSC 4200* Package Design and Development 3 (2) Study of the principles and methods practiced in designing and developing packages and packaging systems and of methods used to coordinate and analyze package development activities including interfacing with product development, manufacturing, marketing, purchasing, and accounting. Preq: Packaging Science major or minor and second semester Senior standing; and PKSC 3200 and PKSC 3680 and PKSC 4400. Preq or concurrent enrollment: PKSC 4010 and PKSC 4040 and PKSC 4160 and PKSC 4300 and PKSC 4450 and PKSC 4640. Coreq: PKSC 4030 and PKSC 4201.

PKSC 4201* Package Design and Development Laboratory 0 (3) Non-credit laboratory to accompany PKSC 4200. Coreq: PKSC 4200.

PKSC 4210 Special Problems in Packaging Science 1-4 (1-4) Independent research investigations in packaging science related to packaging materials, machinery, design, and applications. Special emphasis is placed on organizing a research proposal, conducting research, and reporting results. May be repeated for a maximum of 15 credits. Preq: Consent of instructor.

PKSC 4220 Selected Topics in Packaging Science 1-3 (1-3) Comprehensive study of selected topics in packaging science not covered in detail or contained in other courses. Contemporary developments in each area are stressed. May be repeated for a maximum of 15 credits, but only if different topics are covered. Preq: Consent of instructor.

PKSC 4230 3D Parametric Design Online 3 (3) Provides an overview of the techniques used in designing 3D parametrics solid parts for packaging science applications. The course begins with a basic overview of design software and progresses to cover advanced applications, including simulation, surface modeling, tooling, photorealism, rendering, and sustainability. Additionally, this course prepares students for a professional certification exam. Recommended for students who have experience with design software.

PKSC 4240* Structural Packaging Design Online 3 (3) Provides a comprehensive overview of how to design structural packaging for paperboard and corrugated mediums. This course begins with a basic overview and transitions into covering advanced applications. Access to design software (vector-based 2D CAD software, such as Illustrator or ArtiosCAD) is required. Recommended for students with design software experience.

PKSC 4300* Converting for Flexible Packaging 3 (1) Study of materials, methods, processes, and equipment used in converting web materials for flexible packaging. Laboratory provides hands-on experience preparing and operating pilot-scale converting equipment. Preq: Packaging Science major or minor; and PKSC 2040. Coreq: 4301.

PKSC 4301* Converting for Flexible Packaging Laboratory 0 (6) Non-credit laboratory to accompany PKSC 4300. Coreq: PKSC 4300.

PKSC 4400* Packaging for Distribution 3 (3) Packages are exposed to various shipping methods and numerous hazards during distribution. To ensure adequate product protection, packaging professionals need to understand the fundamental principles of packaging design and packaging in the food and packaging industries. Topics include ASTM and ISTA packaging test methods, packaging design guidelines for distribution, terminology, transport modes, distribution hazards, and protective packaging materials. Preq: Packaging Science major or minor; and PKSC 4400.

PKSC 4540* Product and Package Evaluation Laboratory 1 (3) Laboratory experiments to determine properties of packaging materials and to evaluate the response of packages and products to shock, vibration, and compression. Students operate standard testing equipment and become familiar with industry recognized test methods and standards. Preq: Packaging Science major or minor. Preq or concurrent enrollment: PKSC 4040.
PKSC 4640* Food and Health Care Packaging Systems 4 (3) Characteristics, engineering properties, and applications of various materials and systems used in the packaging of foods, pharmaceuticals, and medical devices. Packaging systems for specific food and medical applications are considered. Laboratory and field exercises on food and medical packaging operations and packaging materials are included. Emphasis is on evaluation methods. Includes Honors sections. Prereq: Packaging Science major or minor or Food Science major or minor; and one of PKSC 2010 or FDSB 2140; and PKSC 2040. Coreq: PKSC 4641.

PKSC 4641* Food and Health Care Packaging Systems Laboratory 0 (3) Non-credit laboratory to accompany PKSC 4640. Coreq: PKSC 4640.

PKSC 4980 Creative Inquiry Laboratory 1-3 (3-9)

In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams based on laboratory experimentation. Projects may be interdisciplinary in nature. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits, but the combined credits earned from PKSC 4980 and 4990 may not exceed eight.

PKSC 4990 Creative Inquiry—Packaging Science 1-3 (1-3) Students engage in creative inquiry projects such as surveys or literature research that do not require a laboratory component. Projects may be interdisciplinary in nature. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits, but the combined credits earned from PKSC 4980 and 4990 may not exceed eight.

PLANT PATHOLOGY

Professors: S.N. Jeffers, S.B. Martin, S.W. Scott; Associate Professors: P. Agudelo, J. Kerrigan

PLPA 2130 Fungi and Civilization 3 (3) Overview of how fungi, along with the lives of humans, both currently and historically. Addresses the diversity of fungi and the tremendous roles fungi play on the planet with respect to the biological, social and ethical consequences. The general nature of this course makes it beneficial to all students.

PLPA 3020 Plant Pathology Research 1-3 (1-3) Research experience in a plant pathology project for undergraduates who understand basic concepts of research. Students develop research objectives, procedures, and collect data. A written report includes interpretation of results. To be taken Pass/No Pass only. Includes Honors sections. Prereq: Consent of instructor.

PLPA 3100 Principles of Plant Pathology 3 (2) Introduction to diseases caused by biotic and abiotic agents, symptom development, diagnosis, economics, control, and relationship of plant diseases to human welfare, including the uses of genetic engineering to develop disease resistant crops. Prereq: BIOL 1110; or BIOL 1040 and BIOL 1060. Coreq: PLPA 3100.

PLPA 3101 Principles of Plant Pathology Laboratory 0 (3) Non-credit laboratory to accompany PLPA 3100. Coreq: PLPA 3100.

PLPA (ENT) 4060* Diseases and Insects of Turfgrasses 2 (2) Host-parasite relationships, symptomatology, diagnosis, economics, and control of infectious diseases of turfgrasses and life histories, diagnosis, and control of important insect pests of turfgrasses. May also be offered as ENT 4060. Prereq: ENT 3010 and PLPA 3100.

PLPA (ENT) 4080* Diseases and Insects of Turfgrasses Laboratory 1 (3) Laboratory to complement PLPA 4060 or ENT 4060 to learn symptomatology, diagnosis, and control of infectious diseases of turfgrasses and diagnosis of damage caused by important insect pests of turfgrasses. May also be offered as ENT 4080. Prereq: PLPA 4060 or ENT 4060.

PLPA 4110* Plant Disease Diagnosis I 3 (2) Methods and procedures used in the diagnosis of plant diseases, especially late spring and early summer diseases. Basic techniques of pure culture and identification of plant pathogens and Koch's postulates are taught. Diagnosis of a wide variety of diseases of cultivated and wild plants is carried out. Offered summer session only. Prereq: PLPA 3100. Coreq: PLPA 4111.

PLPA 4111* Plant Disease Diagnosis I Laboratory 0 (3) Non-credit laboratory to accompany PLPA 4110. Coreq: PLPA 4110.

PLPA (BIOL) 4250* Introductory Mycology 3 (3) Introduction to the biology of all the groups of fungi and some related organisms, with considerations of the taxonomy, morphology, development, physiology, and ecology of representative forms. May also be offered as BIOL 4250. Prereq: BIOL 1040 and BIOL 1060; or BIOL 1110. Coreq or concurrent enrollment: BIOL 4260 or PLPA 4260.

PLPA (BIOL) 4260* Mycology Practicum 2 (1) Application of the principles of mycological techniques, microscopic study of fungi. Examples from all major groups of fungi are included. May also be offered as BIOL 4260. Prereq or concurrent enrollment: BIOL 4250 or PLPA 4250. Coreq: PLPA 4261.

PLPA (BIOL) 4261* Mycology Practicum Laboratory 2 (2) Non-credit laboratory to accompany PLPA 4260. May also be offered as BIOL 4261. Coreq: PLPA 4260.

PLPA (BIOL) 4540* Plant Virology 4 (3) Study of plant viruses: their morphology, biochemistry, purification, and transmission; symptoms resulting from viral infection; virus vector relationships. Serological and nucleic acid hybridization procedures. Diagnosis of viral diseases and the identification of causal agents. Replication of plant viruses, the interaction between viral host and plant genome. Control of plant viral diseases. May also be offered as BIOL 4540. Prereq: BCHM 3010 or POSC 1010 or BIOL 3010 and BIOL 3020. Coreq: PLPA 4541.

PLPA (BIOL) 4541* Plant Virology Laboratory 0 (3) Non-credit laboratory to accompany PLPA 4540. May also be offered as BIOL 4541. Coreq: PLPA 4540.

PLPA 4590* Plant Nematology Laboratory 0 (3) Noncredit laboratory to accompany PLPA 4590. Coreq: PLPA 4590.

PLPA 4700* Molecular Plant Pathogen Interactions 3 (3) Study of the interactions of plants and pathogens at the molecular level. Investigates the molecular and genetic components of plant disease and how these can be used for improvement and understanding of how diseases occur and how these can be used for possible disease management. Prereq: PLPA 3100.

PORTUGUESE

PORT 1010 Elementary Portuguese 4 (3) Introduction to speaking, listening, and writing. Attention is given to the sound system of Portuguese to develop basic communication skills. Coreq: PORT 1011.

PORT 1011 Elementary Portuguese Laboratory 0 (3) Non-credit laboratory to accompany PORT 1010. Coreq: PORT 1010.

PORT 1021 Elementary Portuguese Laboratory 0 (3) Non-credit laboratory to accompany PORT 1020. Coreq: PORT 1020.

PORT 2010 Intermediate Portuguese 3 (3) Intermediate course with more emphasis on communication skills and structure. Reading and writing practice in and outside the classroom, with special attention to idiomatic usage. Introduction to perspectives through readings and cultural activities. Prereq: PORT 1020.

POLITICAL SCIENCE

POSC 1010 American National Government 3 (3) Introduction to American national government and politics examining topics such as the Constitution, federalism, political institutions, political behavior, and political participation. Includes Honors sections.

POSC 1020 Introduction to International Relations 3 (3) Overview of both theory and practice in contemporary global politics. Topics include the structure of and primary actors in the international system; reasons conflict occurs; and roles of international institutions, law, and policy. Includes Honors sections.

POSC 1030 Introduction to Political Theory 3 (3) Introduction to major themes and thinkers in the Western tradition of political thought. Students examine classic primary texts of the ancient and modern periods, including Plato, Aristotle, Hobbes and Locke, to acquire a working conceptual vocabulary of normative and theoretical terms, political ideologies, and basic patterns of political organization. Includes honors sections.
POSC 1040 Introduction to Comparative Politics 3 (3) Introduction to the study of comparative politics in the post-Cold War era, with emphasis on theories and applications. Topics include democratic and nondemocratic systems; ideology; political culture; party systems; and legislative, executive, and judicial structures. Includes Honors sections.

POSC 1990 Introduction to Political Science 1 (1) Introduction to political science as a discipline. Topics include an overview of the subfields within political science, core research methodologies and source materials, and ethical issues related to the study of political science.

POSC 3020 State and Local Government 3 (3) Introduction to American state and local governments, including examination of nature and scope of non-national governments and their interaction with the U.S. federal system. Emphasis is on structural features, functions, and policies of non-national governments.

POSC 3050 Creative Inquiry—Political Science 1-3 (1-3) Engages students in faculty-led research projects. May be repeated for a maximum of six credits. No more than three hours from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied toward a Political Science major, minor, or a Global Politics minor. Preq: Consent of instructor.

POSC 3100 Political Science Internship 1-3 (1-3) Off-campus internship for at least one semester-equivalent. May be repeated for a maximum of three credits. No more than three hours from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied toward a Political Science major, minor, or a Global Politics minor. No more than six hours from POSC 3100, 3110, 3120, 3130 may be applied toward any other degree. Preq: Consent of instructor.

POSC 3110 Model United Nations 1 (1) United Nations simulation exercises. May be repeated for a maximum of six credits. No more than three hours from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied toward a Political Science major, minor, or a Global Politics minor. No more than six hours from POSC 3100, 3110, 3120, 3130 may be applied toward any other degree.

POSC 3120 State Student Legislature 1 (1) State student legislature simulation exercises. May be repeated for a maximum of six credits. No more than three hours from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied toward a Political Science major, minor, or a Global Politics minor. No more than six hours from POSC 3100, 3110, 3120, 3130 may be applied toward any other degree.

POSC 3130 Clemson University Model United Nations Conference 1 (1) Facilitation of annual high school Model United Nations conference held on Clemson campus. No more than three hours from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied toward a Political Science major, minor, or a Global Politics minor. No more than six hours from POSC 3100, 3110, 3120, 3130 may be applied toward any other degree. May be repeated for a maximum of three credits.

POSC 3210 Public Administration 3 (3) Introduction to public administration, including the elements of organization, personnel and financial management, administrative law, and administrative responsibility. Preq: Sophomore standing.

POSC 3410 Quantitative Methods in Political Science 3 (3) Introduction to quantitative research methods in political science. Topics include research design, measurement, data collection, sampling procedures, and applications of statistical techniques to research problems in political science. Also stresses computer use for elementary data analysis.

POSC 3430 Mass Media in American Politics 3 (3) Role and impact of the mass media in the American political system, emphasizing the media’s role in shaping public opinion and in influencing government and public policy. Preq: POSC 3100.

POSC 3610 International Politics in Crisis 3 (3) Factors contributing to the prevalence of tension and conflict in the contemporary global arena are identified and analyzed, with particular emphasis on political, economic, and military elements. Includes Honors sections. Preq: Sophomore standing.

POSC 3620 International Organizations 3 (3) Examines normative and institutional foundations of civil society. Explains the formal institutions, decision-making processes, and multilateral capacities of international governmental and nongovernmental organizations. Preq: Sophomore standing.

POSC 3630 United States Foreign Policy 3 (3) American foreign policy in historical perspective, with particular emphasis on the decision-making process, contemporary American capabilities and challenges, and an analysis of key issues. Preq: Sophomore standing.

POSC 3710 European Politics 3 (3) Major emphasis on European governments and issues of importance in the European context. Current methods of comparison are studied and applied to the formal and informal functioning of European governments. Preq: Sophomore standing.

POSC 3720 Political Culture of East Asia 3 (3) Introduction to political culture that commonly characterizes East Asian countries, with emphasis on the political subcultures of different nations, and on the analysis of the mutual influence between publics and culture. Preq: Sophomore standing.

POSC 3750 European Integration 3 (3) Survey course analyzing increasing institutional cooperation between European countries with a focus on the European Union. Includes Honors sections. Preq: Sophomore standing.

POSC 3810 African American Politics 3 (3) Examination of African American political thought, interests and agenda setting, and dynamics of African Americans’ participation in political and governmental decision making. Preq: Sophomore standing.

POSC 3890 Selected Topics 1-3 (1-3) Study of a selected area of political science. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Junior standing.

POSC 3950 Junior Honors Research Seminar 1 (1) Readings and discussion to prepare for the Junior Research Project and the Senior Thesis. Preq: Junior standing and membership in Calhoun Honors College.

POSC 3960 Senior Honors Research Seminar 1 (1) Readings and research in conjunction with an approved political science course at the 3000 or 4000 level. Preq: Junior standing and membership in Calhoun Honors College.

POSC 4030 United States Congress 3 (3) Examination of the evolution of Congress, congressional elections, the organization of the legislative branch, congressional rules and procedures, decision making, styles of representation, and policymaking. Preq: Sophomore standing.

POSC 4050 The American Presidency 3 (3) Examines the evolution of the presidency, the powers of the chief executive, the public presidency, executive branch organization and staffing, decision making, and political relations with Congress and the federal judiciary. Preq: Sophomore standing.

POSC 4070 Religion and American Politics 3 (3) Examines the impact of religion on American politics, including an analysis of the role of religion in politics, political behavior of major religious groups, constitutional issues and voting behavior. Preq: Sophomore standing.

POSC 4090 Directed Study in American Politics 1-3 (1-3) Supervised reading/research in selected areas of American politics. May be repeated for a maximum of six credits. No more than three hours from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied toward a Political Science major, minor, or a Global Politics minor. Preq: Consent of instructor.

POSC 4100 Directed Study in International Politics 1-3 (1-3) Supervised reading/research in selected areas of international/comparative politics. May be repeated for a maximum of six credits. No more than three hours from POSC 3050, 3100, 3110, 3120, 3130, 4090, 4100 may be applied toward a Political Science major, minor, or a Global Politics minor. Preq: Consent of instructor.

POSC 4160 Interest Groups and Social Movements 3 (3) Empirical and normative examination of the origins, roles, and influence of interest groups and social movements in the United States and of the relationships among interest groups, social movements, and democratic theory. Preq: Sophomore standing.

POSC 4210 Public Policy 3 (3) Introduction to the major approaches to public policy making in American government. Topics include theories and models of policy making, the identification of policy problems, agenda setting, the formulation and adoption of policy, implementation, and program evaluation. Preq: Sophomore standing.

POSC 4230 Urban Politics 3 (3) Examines the nature and scope of politics in urban communities and offers an analysis of urban governance, especially in the interaction of public authority and private institutions in metropolitan areas. Emphasis is on the structure, processes, and problems challenging governments in urban America. Preq: Sophomore standing.

POSC 4240 Federalism and Intergovernmental Relations 3 (3) Introduction to the historical, theoretical, legal, and fiscal aspects of constitutionally divided government. Federal, state, and local division of responsibility for public services is emphasized, along with the emerging devolution of those responsibilities from the federal government to states and localities. Preq: Sophomore standing.
POSC 4280* National Security Policy 3 (3) National security threats and policy decision making. Issues covered include weapons of mass destruction, terrorism, organized crime, narcotics, arms control, intelligence, and homeland security. Students deliberate and assess threat priorities and crisis management. Preq: Sophomore standing.

POSC 4290* Global Issues 3 (3) Analysis, assessment, and management of the principal threats facing global security today. Topics include rogue nations, regional superpowers, alliances, organized crime, illegal weapons proliferation, and corruption. Emphasis is on the strategies available to the international community for dealing with these threats. Preq: Sophomore standing.

POSC 4300 Public Policy Evaluation 3 (3) Discussion of the role of policy analysis in government. Applications of analytical and computer tools to substantive policy areas such as transportation, economic/community development, education, poverty, and health. Students focus on assessing a policy from a set of options based on analytic criteria as well as developing policy alternatives. Preq: POSC 3410 or STAT 2300 or STAT 3300.

POSC 4360 Law, Courts, and Politics 3 (3) Introduces the principal features of the American legal system. Analyzes how and why legal actors and institutions operate as they do. Explores how the law functions as both a tool and a institution of government, as well as how the court system affects the formation and implementation of public policies. Preq: Sophomore standing.

POSC 4570* American Constitutional Law: Rights and Liberties 3 (3) Examination and analysis of Supreme Court decisions and other legal materials in the areas of civil rights and civil liberties, with an emphasis on freedom of speech, freedom of religion, equal protection of the laws, and privacy rights. Preq: Sophomore standing.

POSC 4580* American Constitutional Law: Structures of Government 3 (3) Examination and analysis of Supreme Court decisions and other legal materials in the areas of national power, federalism, the separation of powers, and the role of the judiciary. Preq: Sophomore standing.

POSC 4420* Political Parties and Elections 3 (3) Study of the distinctive features of the American two-party system with emphasis on presidential elections. Parties are examined as formal organizations, coalitions of voters and interest groups, coordinators of nomination and election processes, and managers of policy-making institutions. Preq: Sophomore standing.

POSC 4430 Political Behavior 3 (3) Offers students a comprehensive introduction to how individuals think, act and behave in their engagement in politics. Preq: Sophomore standing.

POSC 4470 International Law 3 (3) Study of the inherently political nature of international law and the ways in which international law relates closely to both international and domestic politics. This course examines the use, design and consequences of international law for a wide range of players in world politics. Preq: Sophomore standing.

POSC 4480* International Political Economy 3 (3) Provides students with background knowledge and conceptual tools for understanding the politics of contemporary international economic relations. Students are introduced to the major issues of the international political economy and different perspectives approaching these issues. Preq: Sophomore standing.

POSC 4490 Political Theory of Capitalism 3 (3) Examines the ethical foundations of capitalism. Focuses primarily on the major ethical theories that have supported or criticized capitalism throughout history. Topics include justification of private property, role of corporations, the profit motive, and the source of wealth creation. Preq: Sophomore standing.

POSC 4500 Special Topics in Political Theory 3 (3) Intensive examination of a selected political philosopher, conceptual area within political theory, or political thought of a particular era. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Sophomore standing.

POSC 4530 American Political Thought 3 (3) American political philosophy from the 17th century to the present with emphasis on political and social developments since the 1770's. Preq: Sophomore standing.

POSC 4540* Southern Politics 3 (3) Examination of the unique political environment of the American South, with emphasis on the events and social forces that shaped politics in the region since World War II. Course material is approached from a variety of perspectives, including history, literature, and themes, and political culture. Preq: Sophomore standing.

POSC 4550 Political Thought of the American Founding 3 (3) Intensive seminar of the principles and practices of America's founders (e.g., Washington, Adams, Jefferson, Madison, and Hamilton) examines how American revolutionaries between 1765 and 1788 to develop new ideas about rights, liberty, equality, constitutions, republicanism, separation of powers, representation, federalism, etc. Preq: Sophomore standing.

POSC 4560 Diplomacy: The Art of Negotiation 3 (3) Examines the conduct of foreign policy in the historical and contemporary context. Explores theories and key concepts of international negotiation, offering a comparative look at the behavior and practice of major powers. Preq: Sophomore standing.

POSC 4570* Political Terrorism 3 (3) Examination and analysis of the international phenomenon of terrorism in terms of origins, operations, philosophy, and objectives. Preq: Sophomore standing.

POSC 4580* Political Leadership 3 (3) Comparative examination of political leaders, focusing particularly on types, methods, and consequences of leadership and on the relationship between leaders and followers. Preq: Sophomore standing.

POSC 4590 Ethnic Violence 3 (3) Examination of both theories and case studies of ethnic violence in today's world, with emphasis on understanding potential strategies of conflict resolution. Preq: Sophomore standing.

POSC 4600* American Diplomacy and Politics 3 (3) Analyzes the process of making and implementing strategies to protect and promote American national interests. Focuses on the role of government agencies and executive-legislative relations, as well as the participation and influence of interest groups and the media. Includes a five-day seminar in Washington, DC. Preq: Consent of instructor.

POSC 4660 African Politics 3 (3) Comprehensive survey of major regional blocks, as well as analysis of individual states and thematic concepts. Preq: Sophomore standing.

POSC 4710 Russian Politics 3 (3) Comprehensive examination of the Russian Federation since the fall of the Soviet Union. The successes and failures of democratic transition are analyzed, with topics covering political participation, organized crime and corruption, center-periphery conflict, and ethnic/religious unrest. Preq: Sophomore standing.

POSC 4760 Middle East Politics 3 (3) Comprehensive thematic and empirical analysis of the Middle East region. Issues covered include democratization, political and religious freedom, oil, the role of women, and terrorism. States analyzed include Syria, Jordan, Iran, Iraq, Saudi Arabia, Turkey, and the Gulf States. Preq: Sophomore standing.

POSC 4770 Chinese Politics 3 (3) Concepts and operation of contemporary China's political system; emphasizes institutional innovation and political economy in recent reforms. Preq: Sophomore standing.

POSC 4780 Latin American Politics 3 (3) Survey of prominent trends in Latin American politics, with a focus on major countries in the region and major issues affecting the region. Relations between Latin America and the United States and other prominent countries are also considered. Preq: Sophomore standing.

POSC 4800* Gender and Politics 3 (3) Examination of the role of gender in politics in the United States and in other countries. Particular emphasis on the role of women in electoral politics, issues of gender, women's rights as human rights, and feminist theory. Preq: Sophomore standing.

POSC 4820 Political Novel and Film 3 (3) Examination of political novels and films. Emphasizes the development of these media as art forms; the relationship between political novels and films and politics at large; and the role of these media in shaping public opinion. Preq: Sophomore standing.

POSC (LANG) 4850* Global Affairs and Governments 3 (3) Designed for teachers and education students who wish to learn how to incorporate global affairs more fully into high school curricula. Overview of major topics involving foreign policies and world politics is provided. May also be offered as LANG 4850.

POSC 4890* Selected Topics 1-3 (1-3) Intensive examination of a selected area of political science. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Junior standing.

POSC 4900 Senior Honors Thesis Research 3 (3) Reading and research related to the senior honors thesis. Preq: POSC 3960 and Senior standing and membership in Calhoun Honors College.
PARKS, RECREATION AND TOURISM MANAGEMENT

PRTM 1010 Concepts of Leisure 3 (3) Introduces recreation professions and organizations: government, voluntary, and commercial; overviews professional preparation; outlines development of man’s uses of leisure and evolution of recreation, city parks, natural resources conservation, and preservation movements as philosophical forces affecting leisure services. Restricted to Parks, Recreation and Tourism Management majors.

PRTM 1980 Creative Inquiry—Parks, Recreation and Tourism Management I 1-4 (1-3) Introduces students to the leisure patterns and constraints of diverse contexts, including members of ethnic and racial minorities, people of diverse socioeconomic status, women, older adults, people with disabilities, and people with alternative lifestyles. Coreq: PRTM 2050. Pass only. Preq: PRTM 1010.

PRTM 2051 Program and Event Planning Laboratory 0 (2) Non-credit laboratory to accompany PRTM 2050. Coreq: PRTM 2050.

PRTM 2060 Practicum I 1 (3) Students conduct a recreation program in a supervised setting. A minimum of 90 hours with a leisure agency approved by the University is required. To be taken Pass/No Pass only. Preq: PRTM 2270.

PRTM 2070 Practicum II 1 (3) Continuation of PRTM 2060. Experience in a leisure situation different from the PRTM 2060 experience. A minimum of 90 hours with a leisure agency approved by the University is required. To be taken Pass/No Pass only. Preq: PRTM 2270.

PRTM 2100 Serving Diverse Populations in Parks, Recreation and Tourism Management 3 (3) Introduces students to the leisure patterns and constraints of diverse contexts, including members of ethnic and racial minorities, people of diverse socioeconomic status, women, older adults, people with disabilities, and people with alternative lifestyles. Coreq: PRTM 2050. Pass only. Preq: Consent of faculty member/mentor. Coreq: PRTM 1981.

PRTM 2221 Program and Event Planning in Parks, Recreation and Tourism Management Laboratory 0 (2) Non-credit laboratory to accompany PRTM 2221. Coreq: PRTM 2221.

PRTM 2230 Administration/Management Laboratory 0 (2) Non-credit laboratory to accompany PRTM 2230. Coreq: PRTM 2230.

PRTM 2240 Legal Aspects of Parks, Recreation and Tourism 2 (2) Introduces legal foundations and legislative processes, contracts and tort law, regulatory agents and methods of compliance, safety, emergency, and risk management as they relate to recreation, park resources, and leisure services. Preq: PRTM 2000.

PRTM 2260 Foundations of Management and Administration in Parks, Recreation and Tourism Management 6 (5) Course covers the learning outcomes related to the management and administration of leisure services required for program accreditation by National Recreation and Parks Association. Topics include basic management history and functions, personnel and labor law, marketing, finance, and strategic management as they relate to the Parks, Recreation and Tourism Management field. Coreq: PRTM 2261 and PRTM 2270 and PRTM 2290.

PRTM 2261 Foundations of Management and Administration in Parks, Recreation and Tourism Management Laboratory 0 (2) Non-credit laboratory to accompany PRTM 2260. Coreq: PRTM 2260.

PRTM 2270 Provision of Leisure Service Experiences 5 (4) Course covers the learning outcomes related to the provision of leisure service experiences required for program accreditation by National Recreation and Parks Association. Topics include program design, facilitation, and evaluation as they relate to the Parks, Recreation and Tourism Management field. Coreq: PRTM 2260 and PRTM 2271 and PRTM 2290.

PRTM 2271 Provision of Leisure Service Experiences Laboratory 0 (2) Non-credit laboratory to accompany PRTM 2270. Coreq: PRTM 2270.
PRTM 2290 Distributed Competency Integration in Parks, Recreation and Tourism Management 3 (3) Covers and reinforces critical and creative thinking processes, ethical judgment, oral communication skills, and written communication skills as applied to the Parks, Recreation and Tourism Management field. In addition, students are given refresher/enhancement seminars on spreadsheets, presentation software and word processing software. Coreq: PRTM 2260 and PRTM 2270.

PRTM 2410 Introduction to Community Recreation, Sport and Camp Management 3 (3) Conceptual examination of community recreation, including the history and structure of public and private nonprofit recreation agencies with an emphasis on programs and services, career opportunities, funding mechanisms, the role of government, and current trends and issues impacting delivery of services.

PRTM 2540 Introduction to Sport Management 3 (3) Development of a conceptual understanding of sport management, career opportunities in sport management, and the necessary competencies for the different career fields.

PRTM 2600 Foundations of Recreational Therapy 3 (3) Examines the history, philosophy, concepts, roles and functions involved in recreational therapy services. Topics include service-delivery models, ethics, standards of practice, credentialing, use of the clinical process in various treatment settings, collaborative interdisciplinary practice and professional behavior specific to therapeutic relationships and practitioner/client interactions. Students must have a 2.0 cumulative grade-point average to enroll in this course. Coreq: PRTM 2650.

PRTM 2650 Terminology in Recreational Therapy Practice 1 (1) Provides students with the opportunity to learn about the language of health care, including basic term components, medical terms and health care records, and terms associated with body systems. Students must have a 2.0 cumulative grade-point average to enroll in this course. Coreq: PRTM 2600.

PRTM 2700 Introduction to Recreation Resources Management 3 (3) Fundamentals of recreation resources management are presented to include the framework of management, management of specific resources, management of visitors, and management of services. Includes Honors sections.

PRTM 2810 Introduction to Golf Management 3 (2) Development of a conceptual understanding of the golf industry, career opportunities in professional golf management, and specific introductory competencies utilized within the field. Prereq: Professional Golf Management concentration and consent of instructor. Coreq: PRTM 2811.

PRTM 2811 Introduction to Golf Management Laboratory 0 (3) Non-credit laboratory to accompany PRTM 2810. Coreq: PRTM 2810.

PRTM 2820 Principles of Golfer Development 3 (3) Introduction to golf instruction. Provides knowledge and skills necessary to develop successful golf programs. Prereq: PRTM 2820.

PRTM 2830 Advanced Methods of Teaching Golf 3 (3) Provides students with the knowledge and skills necessary to succeed as golf instructors. Particular emphasis is on golf swing mechanics, learning styles and motivation theory, the business of teaching golf, and the use of advanced technology in golf instruction. Prereq: PRTM 2820.

PRTM 2950 Professional Golf Management Seminar II 1 (1) Introduction to the golf industry, professionalism, and current issues of interest in the industry with special emphasis on topics covered in the PGA/PGM Training Program Level I. Prereq: PRTM 1950.

PRTM 2980 Creative Inquiry—Parks, Recreation and Tourism Management II Laboratory 0 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prereq: Consent of faculty member/mentor. Coreq: PRTM 2981.

PRTM 2981 Creative Inquiry—Parks, Recreation and Tourism Management II Laboratory 0 (1-3) Non-credit laboratory to accompany PRTM 2980. Coreq: PRTM 2980.

PRTM 3010 Recreation and Society 3 (3) Investigation of the role of recreation in a technologically and work-oriented society. Particular emphasis is on recreation behavior, resources, and programming in public and private organizations that serve the public wants. Not open to Parks, Recreation and Tourism Management majors; may not be substituted for other use to meet Parks, Recreation and Tourism Management area requirements. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3040 Challenge Course Facilitation 3 (2) Development of knowledge and skill in planning, directing, and evaluating group performance in an adventure challenge course environment; emphasis is placed on low and high ropes elements, processing, assessment, safety, and course management. Students must have a 2.0 cumulative grade-point average to enroll in this course. Coreq: PRTM 3041.

PRTM 3041 Challenge Course Facilitation Laboratory 0 (2) Non-credit laboratory to accompany PRTM 3040. Coreq: PRTM 3040.

PRTM 3050 Safety and Risk Management in Parks, Recreation and Tourism Management 3 (3) Provisions of safe services, facilities, and activities in the parks, recreation, and tourism domain are studied through the application of German concepts from the areas of safety, risk management, and liability. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3070 Facility Planning and Operations 3 (3) Introduction to recreation facility planning and operations processes. Design, planning, financing, construction, budgeting, personnel, operating policies and procedures, maintenance, and equipment considerations are covered. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3080 Leadership and Group Processes in Recreation 3 (3) Leadership is analyzed through experience-based learning. Examines various styles of leadership and communication and their probable consequences. Considers techniques for planning large and small group meetings. Examines literature in the field of leadership and group processes. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3090 Behavioral Concepts in Parks, Recreation and Tourism 3 (3) Studies social psychological concepts concerning leisure behavior in various park, recreation, and tourism settings. Students learn to apply those theories and behavioral concepts required to understand and manage leisure activities and environments. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3100 Seminar in Therapeutic Recreation 1 (1) Examination and discussion related to evidence-based practice in therapeutic recreation settings. Prereq: PRTM 2000 or PRTM 2060 or PRTM 2570 or PRTM 2200 or PRTM 3110.

PRTM 3110 Therapeutic Recreation 3 (3) Examination of the profession of therapeutic recreation by analyzing the history, philosophy, concepts, roles, and functions involved in the therapeutic recreation services. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3170 Group Initiatives 3 (2) Examination and development of initiative modalities used by therapeutic recreationists to teach teamwork, problem-solving communication, goal setting, leadership and personal interaction to diverse populations in a variety of settings. Students must have a 2.0 cumulative grade-point average to enroll in this course. Coreq: PRTM 3171.

PRTM 3171 Group Initiatives Laboratory 0 (2) Non-credit laboratory to accompany PRTM 3170. Coreq: PRTM 3170.

PRTM 3180 Leisure Lifestyle Management 3 (3) Examines principles and techniques applicable to guiding disabled as well as nondisabled individuals in an exploration of leisure needs, barriers, consequences, and accessibility. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3200 Recreation Policymaking 3 (3) Structures and processes for public park and/or recreation policy formation in the United States. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3210 Recreation Administration 3 (3) Analysis of the internal organization of a recreation department dealing with finances and accounting, records and reports, publicity and public relations, state and federal legislation, staff organization, coordination of community resources. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course.
PRTM 3220 Facilitation Techniques in Recreational Therapy 3 (3) Covers basic concepts, methods and techniques associated with the selection and implementation of therapeutic facilitation techniques and interventions for use in recreational therapy practice. Preq: PRTM 2600. Coreq: PRTM 3230 and PRTM 3240.

PRTM 3230 Professional Preparation for Recreational Therapy Practice 3 (3) Course is designed to prepare students for their recreational therapy field placement experience, as well as assist them in their preparation for job-seeking, job-attainment, and career development following graduation. This course provides the academic preparation necessary to ensure entry level skills and determine the preferred placement based on identification of recreational therapy students’ career goals. Preq: PRTM 2600 and PRTM 2650. Coreq: PRTM 3220 and PRTM 3240.

PRTM 3240 Assessment and Planning in Recreational Therapy 4 (4) Provides the information and tools for the first two steps of the recreational therapy process: assessment and planning. Through this course, students develop the necessary skills to complete a comprehensive assessment of clients in a therapeutic environment, and develop an appropriate, evidence-based treatment plan. Preq: PRTM 2600. Coreq: PRTM 3220 and PRTM 3230.

PRTM 3250 Global Perspectives in Leisure, Recreation and Tourism 3 (3) Advanced topics in serving diverse populations in Parks, Recreation and Tourism Management, including lifespan, cultural and global perspectives, as well as other dimensions of diversity.

PRTM 3260 Recreational Therapy Implementation and Evaluation: Physical Health Conditions 3 (3) Examines the various health conditions and the role of recreational therapy in treatment settings for individuals with physical health conditions. In addition, students apply current recreational therapy implementation techniques and evaluation methods across physical health diagnoses and treatment settings. Preq: PRTM 3220 and PRTM 3240. Coreq: PRTM 3270 and PRTM 3280.

PRTM 3270 Recreational Therapy Implementation and Evaluation: Mental Health Conditions 3 (3) Examines the various health conditions and the role of recreational therapy in treatment settings for individuals with mental health conditions. In addition, students apply current recreational therapy implementation techniques and evaluation methods across mental health diagnoses and settings. Preq: PRTM 3220 and PRTM 3240. Coreq: PRTM 3260 and PRTM 3280.

PRTM 3300 Visitor Services and Interpretation 3 (3) Introduces the philosophy and principles of the art of environmental interpretation. Comprehensive survey of interpretive theory as it applies to the recreation and parks practitioner and the varying settings within the profession. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3420 Introduction to Tourism 3 (3) Survey of travel and tourism in the United States with a focus on terminology, demographics, financial significance, and trends. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3430 Spatial Aspects of Tourist Behavior 3 (3) Spatial patterns of national and international leisure travel destinations are explored and analyzed regarding their tourism attractiveness. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3440 Tourism Markets and Supply 3 (3) Acquaints students with the principles of marketing, tourism markets and supply. Students examine the strategies used in developing markets. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3450 Tourism Management 3 (3) Examines the management issues associated with offering tourism products and experiences to travelers. The private and public sectors for the purpose of enhancing visitor opportunities, making a profit and affecting change in destinations.

PRTM 3460 Heritage Tourism 3 (3) Heritage is an important part of tourism and can be the focal point of many journeys. Students are introduced to key concepts and issues in heritage tourism, including management of heritage tourism resources, policies of heritage tourism and the relationship between heritage tourism and authenticity.

PRTM 3470 Sport Tourism 3 (3) Sport tourism is one of the largest and most important segments of the global tourism industry. With a focus on the global sports environment, course introduces students to the fundamentals of sport tourism, including the creation, impacts and future trends of sport tourism development.

PRTM 3490 Survey of Tourism Sites 1 (3) On-site study of various exemplary components of the travel and tourism industry in the Southeast. There are additional costs to students to cover travel. To be taken Pass/No Pass only. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: PRTM 3420 and Junior standing in Parks, Recreation and Tourism Management and consent of instructor.

PRTM 3510 Risk Management and Certifications in Parks, Recreation and Tourism Management 3 (2) Reviews basics of risk management relative to the administration of recreation programs. Certifies students in Red Cross Wilderness First Aid, First Aid for Sports, and CPR for the Professional Rescuer. Coreq: PRTM 3511.

PRTM 3511 Risk Management and Certifications in Parks, Recreation and Tourism Management Laboratory 0 (2) Non-credit laboratory to accompany PRTM 3510. Coreq: PRTM 3510.

PRTM 3520 Camp Organization and Administration 3 (3) Surveys the development and trends of camping in America. Considers programming for the operations of agency and private camps. Enables students to master the techniques of group living. Laboratory offers practical experience in camp craft including trips and outdoor cooking. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3530 Foundations of Camp Counseling 3 (3) Introduces concepts, principles and skills essential to personnel working within a camp context. Topics include supervising campers, interacting with campers, understanding the developmental needs of campers, and dealing with camper behavior. Group dynamics, leadership techniques and issues such as abuse are also discussed.

PRTM 3540 Youth Development in Camp 3 (3) Provides camp professionals with an understanding of concepts and theories in youth development relative to camp settings. Topics include the developmental needs of campers through various ages and stages, activity planning and structure, programming for individuals with disabilities or special medical needs, and creating positive youth development outcomes.

PRTM 3550 Trends and Issues in Camp Management 3 (3) Advanced course designed for students to examine the most current principles and practices in the organized camp profession. Topics include evaluation of programs, professional development, fund development, social media and research within a camp context.

PRTM 3600 Recreation and Amateur Sport Management 3 (3) Explores the theoretical foundations and basic skills, methods and techniques necessary for the effective design and delivery of recreational sport programs offered in public, not-for-profit, collegiate, and private agencies and organizations.

PRTM 3610 Recreational Sport Facility and Venue Management 3 (3) An overview of the management of recreational sport facilities and venues. Topics include in depth discussion and application of planning models, project management principles, financing capital projects, risk management and legal liability, and current issues and trends in facility and venue management.

PRTM 3620 Programming and Trends in Community Sport 3 (3) An overview of program development and issues and trends in community sport. This course outlines the development and evolution of community recreational sport programming to serve youth and adults.

PRTM 3630 Programming and Trends in Campus Recreation 3 (3) An overview of program development and issues and trends in campus recreation. This course outlines the development and evolution of campus recreation programming designed to serve the entire campus. Concentration areas in the field, professional opportunities, and the role of campus recreation are also covered.

PRTM 3640 Programming and Trends in Intercollegiate Athletics 3 (3) Current trends in intercollegiate athletics in the United States and abroad are identified and examined. Topics include programs, programming, organizational structure, education, policies, funding, governance and communication as they relate to intercollegiate athletics.
PRTM 3600 Community Sport Practicum 3 (6) Students gain practical experience in community-based recreational sport management to aid in discovery and application of PRTM core and recreational sport management course content within a municipal/community-based recreation agency or equivalent setting. To be taken Pass/No Pass only. Preq: PRTM 3600 and PRTM 3610 and PRTM 3620.

PRTM 3660 Campus Recreation Practicum 3 (6) Students gain practical experience in an area or areas of a campus recreation program to aid in discovery and application of PRTM core and recreational sport management course content. To be taken Pass/No Pass only. Preq: PRTM 3600 and PRTM 3610 and PRTM 3630.

PRTM 3670 Intercollegiate Athletics Practicum 3 (6) Students gain practical experience in an area of intercollegiate athletics, and apply knowledge gained in PRTM core courses and other recreation sport management courses in the field. Preq: PRTM 3600 and PRTM 3610 and PRTM 3640.

PRTM 3800 Community Recreation in South Carolina 3 (1) Students study indoor and outdoor recreation facilities, governmental jurisdiction, funding, programming, management, and staffing at community recreation agencies throughout South Carolina during a hands-on five-day field trip. Students must have a 2.0 cumulative grade-point average to enroll in this course. Coreq: PRTM 3801.

PRTM 3801 Community Recreation in South Carolina Laboratory 0 (4) Non-credit laboratory to accompany PRTM 3800. Coreq: PRTM 3800.

PRTM 3830 Golf Shop Operations 3 (3) Provides students with the knowledge and skills necessary to succeed as managers of golf shops. Special emphasis is on fundamental business planning, development of policies and procedures, merchandising, inventory control, pricing, and customer service. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: PRTM 3830.

PRTM 3900 Independent Study in Parks, Recreation and Tourism Management 1-6 (1-6) Comprehensive studies and investigation of special topics not covered in other courses. Emphasizes field studies, community service, and independent readings. May be repeated for a maximum of six credits. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: Junior standing and consent of instructor.

PRTM 3910 Selected Topics in Parks, Recreation and Tourism Management 2-3 (2-3) In-depth examination of developing trends in parks, recreation, and tourism that warrant timely study. May be repeated twice for a maximum of six credits, but only if different topics are covered. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: Junior standing.

PRTM 3920 Special Event Management 3 (3) Students acquire an in-depth knowledge about the field of special event management. Planning techniques, strategies, and requirements for planning, implementing, and evaluating community events are included. Emphasizes ordinances, planning, funding, and marketing. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 3950 Professional Golf Management Seminar III 2 (2) Covers advanced teaching methods, golf club fitting, and player development programs. This course is designed to assist students in gaining the knowledge and skills necessary to successfully complete the PGA/PGM Training Program Level II. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: PRTM 2950.

PRTM 3980 Creative Inquiry—Parks, Recreation and Tourism Management III 1-4 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Coreq: PRTM 3981.

PRTM 3990 Introduction to Field Training and Research (Honors) 1 (1) For students pursuing departmental honors, provides an initial orientation to the internship and research requirements including identification of a faculty mentor to supervise these activities. Preq: PRTM 2010 and consent of instructor.

PRTM 4020 Professional Golf Management Alternative Internship 3 (3) Under the guidance of a qualified professional supervisor, students gain practical experience and apply knowledge acquired in the classroom to the workplace. May be repeated for a maximum of six credits. Preq: PRTM 2060 and PRTM 2070 and PRTM 2040; and Parks, Recreation and Tourism Management major in the Professional Golf Management Concentration; and approval of advisor.

PRTM 4030 Elements of Recreation and Park Planning 3 (3) Basic recreation and park planning principles, processes, and trends in area and facility development combine to form the basis for formulation of a relevant knowledge of planning. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: Senior standing.

PRTM 4040 Field Training I 1 (1) Preparation for field training experience, including topics such as résumé development, interviewing techniques, internship agency selections, and responsibilities of the student, department, and agency. To be taken Pass/No Pass only. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: Senior standing.

PRTM 4050 Field Training II 18 (18) Minimum ten weeks (400 hours) of uninterrupted, supervised work in a park, recreation or tourism management agency. Under agency supervision, students observe, organize, and implement activities, events, and programs. To be taken Pass/No Pass only. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: PRTM 2060 and consent of instructor. Preq or concurrent enrollment: PRTM 2070.

PRTM 4170 Therapeutic Recreation Processes I 4 (3) Examination of models, principles, and procedures applicable to comprehensive program planning, specific program plans, individualized care plans, activity analysis, documentation, and evaluation. Students must have a 2.0 cumulative grade-point average and have completed three credit hours of human anatomy and physiology to enroll in this course. Coreq: PRTM 4171.

PRTM 4180 Therapeutic Recreation Processes II 4 (3) Examination of theories and concepts that guide therapeutic recreation interventions, including knowledge and use of communication skills, therapeutic relationships, counseling theories, and group processing techniques. Students must have a 2.0 cumulative grade-point average to enroll in this course. Preq: PRTM 4170. Coreq: PRTM 4181.

PRTM 4181 Therapeutic Recreation Processes Laboratory 0 (2) Non-credit laboratory to accompany PRTM 4180. Coreq: PRTM 4180.
PRTM 4190 Therapeutic Recreation and Aspects of Disability Across the Lifespan 3 (3) Examination of characteristics and diagnoses of individuals with various disabilities (cognitive, affective, and/or psychomotor domains) across the lifespan. Application of theories and concepts that guide therapeutic recreation interventions as well as examination of disability theory and concepts. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 3110 and BIOL 2220 and BIOL 2230.

PRTM 4200 Therapeutic Recreation Trends and Issues 3 (3) Advanced principles and practices of therapeutic recreation, including philosophy, ethics, professional development, standards of practice, certification, recreation inclusion, and marketing services. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 4160 and PRTM 4180.

PRTM 4210* Recreation Financial Resources Management 3 (3) Analysis of recreation financial resources management. Deals with revenue sources and their allocation. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 2410.

PRTM 4220 Management of Recreational Therapy Services 3 (3) Presents the foundation for understanding the contemporary health care system, as well as developing systematic program design, implementation and management of recreational therapy services. Students achieve a comprehensive understanding of the insurance and reimbursement systems; relevant guidelines and standards related to health care organizations; the process of program development; and program management principles. Prq: PRTM 3260 and PRTM 3270 and PRTM 3280.

PRTM 4260 Trends and Issues in Recreational Therapy 3 (3) Capstone course provides insight into the contemporary issues in the recreational therapy profession. The course requires students to synthesize previous course content and experiential learning and appraise personal and professional philosophies to elucidate their role as an entry-level practitioner. Prq: PRTM 4220.

PRTM (GEOG) 4300* World Geography of Parks and Equivalent Reserves 3 (3) Major international patterns in the provision and use of urban and rural parks and recreation are examined. May also be offered as GEOG 4300. Prq: 2.0 cumulative grade-point average.

PRTM 4310* Methods of Environmental Interpretation 3 (2) Practice and instruction in the use of equipment and methods available to the interpreter in public contact work. Coaching in presentation and evaluation of live programs and in design, execution, and evaluation of mediated programs is the major emphasis. Programs are delivered to public audiences in the Clemson area. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 3300 and Senior standing in Parks, Recreation and Tourism Management and consent of instructor. Coreq: PRTM 4311.

PRTM 4311* Methods of Environmental Interpretation Laboratory 0 (3) Non-credit laboratory to accompany PRTM 4310. Coreq: PRTM 4310.

PRTM 4410* Commercial Recreation 3 (3) Components of offering leisure services and products to the public by individuals, partnerships, and corporations for the purpose of making a profit. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 4440* Tour Planning and Operations 3 (3) Provides the opportunity to understand the psychology of touring, with emphasis on packaged and group tours and how tours of different types and scale are planned, organized, marketed, and operated. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 3420 and consent of instructor.

PRTM 4450* Conference/Convention Planning and Management 3 (3) Provides the opportunity to understand the problems of and solutions to conference and convention planning and management from both the sponsoring organization’s and facility manager’s perspectives. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 4460* Community Tourism Development 3 (3) Provides a community-based perspective of organizational, planning, development and operational needs for a successful tourism economy at the local level. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 3420 and consent of instructor.

PRTM 4470 Perspectives on International Travel 3 (3) Using the United States as a destination, international travel patterns and major attractions are presented. Factors that restrict foreign travel to the United States are analyzed. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 4510 Seminar in Community Recreation, Sport and Camp Management 3 (3) Capstone course where studies applied to management issues focused on community recreation, sport and camp management. Prq: PRTM 2060 and PRTM 2070 and PRTM 4050.

PRTM 4520 Campus Recreation 3 (3) Study of the basic components required for administration of successful college union and intramural-recreation sport programs. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 4530 Sports Information and Event Management 3 (3) Introduction to basic techniques, tools, and procedures associated with sports information and event management activities. Focuses on the application of sports information and event management activities building upon knowledge from personal interviews, selected readings, event management brochures and field experience. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 4540* Trends in Sport Management 3 (3) Examination of trends in the sport management area that allows PRTM majors to obtain an updated knowledge base of the field. Students are able to relate their academic studies to the current trends, problems, and management strategies confronting and being used within the sport management industry. Students must have a 2.0 cumulative grade-point ratio to enroll in this course.

PRTM 4550 Advanced Program Planning 3 (3) Advanced recreation programming techniques with an emphasis on funding, outcome measurement, customer service, program development, marketing, specialized populations, and current trends and issues impacting the delivery of recreation programs. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 2410.

PRTM 4600 Leisure Across the Lifespan 3 (3) Introduces students to ways in which leisure affects human development and human development affects leisure behavior. Students must have a 2.0 cumulative grade-point average to enroll in this course.

PRTM 4740 Advanced Recreation Resources Management 3 (3) Advanced topics in recreation resource management focusing on recreation strategies and techniques for addressing common resource and social problems in recreation resource management. Case studies and problem analysis are emphasized. Includes Honors sections. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq or concurrent enrollment: COOP 1040 and COOP 1050.

PRTM 4900 Senior Independent Study 1-6 (1-6) In cooperation with and under supervision of a faculty member, students develop and execute a field study or community project. May be repeated for a maximum of six credits. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: Senior standing and consent of instructor.

PRTM 4950 Professional Golf Management Seminar IV 1 (1) Covers golf shop merchandising and inventory management and supervising and delegating. Emphasizes topics covered in the PGA/PGM Training Program Level III checkpoint. Students must have a 2.0 cumulative grade-point average to enroll in this course. Prq: PRTM 3950.

PRTM 4980 Creative Inquiry—Parks, Recreation and Tourism Management IV 1-3 (1-3) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. These creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Prq: Consent of faculty member/mentor. Coreq: PRTM 4981.

PRTM 4981 Creative Inquiry—Parks, Recreation and Tourism Management IV Laboratory 0 (1-12) Non-credit laboratory to accompany PRTM 4980. Coreq: PRTM 4980.
PSYC 4090 or 4100. Preq: PSYC 3100. Coreq: PSYC 3100.

PSYC 3240 Physiological Psychology 3 (3) Study of human neuroanatomy with emphasis on the function of the nervous and endocrine systems. Discusses the biological basis of behavior in its normal and abnormal dimensions. Preq: PSYC 2010.

PSYC 3250 Physiological Psychology Laboratory 1 (3) Demonstrations and techniques of selected physiological procedures are presented to explain the principles discussed in PSYC 3240. Preq: PSYC 2010. Preq or concurrent enrollment: PSYC 3240.

PSYC 3300 Motivation 3 (3) Various aspects of motivation are considered. Focus is on the various approaches to motivation, development, maintenance, and attraction of successful work behaviors are discussed. Topics include the organization’s responsibilities to the community, implementing a disease- and accident-free workplace, and the effects of consumerism. Preq: PSYC 2010.

PSYC 3680 Organizational Psychology 3 (3) Analysis of individual behavior for the purpose of investigating problems in organizations and increasing organization effectiveness. Topics include psychological factors affecting communication, decision making, conflict, leadership, work stress, power, and organizational change. Preq: PSYC 2010.

PSYC 3690 Leadership in Organizational Settings 3 (3) Broad survey of theory and research on leadership in formal organizations. A detailed explanation and critical evaluation of major theories (including participative and charismatic leadership) are bridged with helpful remedies and prescriptions for effective leadership in organizations. Preq: PSYC 2010.

PSYC 3700 Personality 3 (3) (Historical and contemporary views of individual differences in behavior, affect, health, coping, and motivation. Covers topics such as personality development and structure, personality assessment, cross-cultural issues, and applications of personality psychology. Preq: PSYC 2010.

PSYC 3830 Abnormal Psychology 3 (3) Introduction to the diagnosis and treatment of mental illnesses. Uses current diagnostic standards for mental disorders as a framework for understanding the symptoms, causes, and treatments of the most commonly observed maladaptive behaviors. Includes Honors sections. Preq: PSYC 2010.

PSYC 3900 Honors Seminar in Psychology 3 (3) Variable topic seminar for Honors students from all majors. Topics are announced prior to registration for each semester. May be repeated once for credit, but only if different topics are covered. Preq: PSYC 2010.

PSYC 4080 Women and Psychology 3 (3) Explores the wide variety of psychological issues that concern women. Emphasizes empirical research on topics such as motherhood, sex differentiation, motivation, and psychological disorders. Preq: PSYC 2010.

PSYC 4150 Systems and Theories of Psychology 3 (3) Study of the development of psychology, particularly during the past 1000 years. Emphasis is on giving students a better perspective of present-day psychology. Focus is on the various approaches taken by influential psychologists and the conflicts among these approaches. Preq: PSYC 2010.
PSYC 4220 Sensation and Perception 3 (3) Study of psychophysical techniques of measurement and sensory and perceptual processes related to vision, hearing, and the other senses. Includes Honors sections. Prereq: PSYC 2010.

PSYC 4230 Sensation and Perception Laboratory 1 (2) Selected experiments are conducted to demonstrate the phenomena involved in sensation and perception. Prereq: PSYC 3090. Prereq or concurrent enrollment: PSYC 4220.

PSYC 4260 Advanced Physiological Psychology 3 (3) Advanced studies of the biological basis of behavior with emphasis on functional neuroanatomy and endocrinology. Topics may vary. May not be repeated for credit. Prereq: PSYC 3240.

PSYC 4350 Human Factors Psychology 3 (3) Analyses of theoretical issues and research methods related to the interaction between people and machines and human performance. Topics include information processing theory, human control systems and displays, task simulation, perceptual and motor factors limiting human performance. Prereq: PSYC 2010.

PSYC 4430 Infant and Child Development 3 (3) Cognitive, emotional, and social development from conception through childhood (up to age 12). Major theories and research findings are covered. Prereq: PSYC 2010 and PSYC 3400.

PSYC 4470 Moral Development 3 (3) Explores the development of moral reasoning, judgment, and character from a descriptive psychological point of view. Examines the theoretical and empirical work of Jean Piaget, Lawrence Kohlberg, and Elliot Turiel as well as prosocial, eudaemonistic, and cross-cultural alternatives to these ideas. Prereq: PSYC 2010; and one of PSYC 3400 or PSYC 3440 or PSYC 3450.

PSYC 4560 Applied Psychophysiology 3 (3) Explores the various measures used in psychophysiology to study mind-body interactions. Exposes students to the practice of psychophysiology through integrated hands-on laboratory experience in which students learn about psychophysiological measures by applying them. Prereq: PSYC 2010.

PSYC 4710 Psychological Testing 3 (3) Introduction to the theory of psychological testing, emphasizing the principles of measurement and psychometric characteristics of a good psychological test. Issues in test development, administration, and interpretation are reviewed. Educational, industrial, and clinical uses of tests are examined. Prereq: PSYC 2010 and 3090.

PSYC 4750 Brain and Behavior: An Evolutionary Approach 3 (3) Examines the interactions between the human brain and behavior from an evolutionary perspective. Topics can include: hunger, stress, sleep, sexual attraction, memory, decision making, in-out groups, male-female interaction, and maladaptive behaviors. Includes Honors sections. Prereq: PSYC 2010 and Junior or Senior standing.

PSYC 4820 Positive Psychology 3 (3) Examines the research, theories, and applications of the psychology of human strengths and well-being. Fundamental research into the cultural, emotional, personality, cognitive/motivational, and developmental correlates of strengths and well-being is examined, as well as application of these principles to a variety of organizational settings. Prereq: PSYC 2010.

PSYC 4880* Theories of Psychotherapy 3 (3) Survey of alternative theories of psychological treatment for behavioral and emotional disorders. Various theoretical assumptions, techniques, and applications of each approach are examined and compared, and case examples are considered. Prereq: PSYC 3700 or PSYC 3830.

PSYC 4890* Selected Topics 3 (3) Seminar in current topics in psychology. Topics change from semester to semester and are announced prior to each semester's registration. May be repeated once for credit, but only if different topics are covered. Prereq: PSYC 2010.

PSYC 4900 Senior Division Honors Research 1-4 (2-4) Preparation and defense of a research proposal. Proposed project should be empirical, historical, or theoretical in nature. Prereq: Junior standing and consent of instructor.

PSYC 4910 Senior Division Honors Research II 2-4 (2-4) Completion of the proposed research project resulting in a written thesis. Prereq: PSYC 4900.

PSYC 4920 Senior Laboratory in Psychology 1 (2) Students complete an integrative review of topics in psychology in the context of producing a reflective portfolio. Prereq: Senior standing.

PSYC 4940 Practicum in Clinical Psychology 3 (1) Students apply classroom theory in solving individual and community problems through interaction with community agencies and other professionals in the mental health area. Students have limited but well-controlled contact with actual clinical problems as they occur in the community. Prereq: PSYC 3830, Coreq: PSYC 4931.

PSYC 4950 Practicum in Clinical Psychology Laboratory 0 (5) Non-credit laboratory to accompany PSYC 4930. Coreq: PSYC 4930.

PSYC 4950 Practicum in Applied Psychology 3 (1) Students are provided practical experience in the area of applied psychology. Students usually are involved in a project designed to help solve an industrial problem through a direct application of industrial or social psychology. Prereq: Consent of instructor. Coreq: PSYC 4951.

PSYC 4951 Practicum in Applied Psychology Laboratory 0 (5) Non-credit laboratory to accompany PSYC 4950. Coreq: PSYC 4950.

PSYC 4970 Directed Studies in Psychology 1-4 (1-4) Study under the direction of a faculty member of a particular topic agreed upon by the student and faculty member. May be repeated for a maximum of 12 credits. Includes Honors sections. Prereq: Consent of instructor.

PSYC 4980* Team-Based Research 1-4 (1-4) Students conduct psychological research and learn about phases of the research process with a team of their peers under the direction of a faculty member. The collaborative nature of psychological research is emphasized. May be repeated for a maximum of 18 credits. Includes Honors sections. Prereq: Consent of instructor.

REL 1010 Introduction to Religion 3 (3) Study of the variety of religious experience and expression in human life.

REL 1020 World Religions 3 (3) Survey of major religious traditions of the world. Includes Honors sections.

REL 3000 Studying Religion: Theories and Methods 3 (3) Discussion-and-presentation-based seminar in which students read the writings of the great theorists of religion since the eighteenth century. Social-scientific, phenomenological, and cultural approaches to the study of religion are explored. Basic methodologies and tools for studying religion are also introduced. Prereq: Sophomore standing.

REL 3010 The Old Testament 3 (3) Survey of the books of the Old Testament with special consideration given to the development of the concepts, institutions, and theology of the ancient Hebrews.

REL 3030 The Quran 3 (3) Survey of Islamic Scripture, its origins, content, and interpretation, with attention to the development of Hadith and Sunna as well.

REL 3050 Constructing Scripture 3 (3) Historical exploration of the development of Jewish and Christian scriptures. Emphasis is given to reading texts that were excluded from the Hebrew Bible and the New Testament and the role the canonical played in constructing “orthodoxy.”

REL 3060 Judaism 3 (3) Examines the development of Judaism from biblical to modern times.

REL 3070 The Christian Tradition 3 (3) Examination of the development of Christianity in Western civilization from the post-New Testament period to the present, stressing institutional growth and changes, theological currents, and interaction of Christianity with culture.

REL 3080 Religions of the Ancient World 3 (3) Selected religious movements in ancient Mesopotamia, Egypt, Canaan, and the Greco-Roman world with emphasis on movements outside the Judeo-Christian tradition.

REL (P.A.) 3100 History of Religion in the United States 3 (3) Development of religion in the U.S. from the Colonial period to the 20th century. Attention is devoted to analyzing the broad currents in religious movements and religious thought that have given shape to the American pluralistic experience. May also be offered as HIST 3100.

REL 3110 African American Religion 3 (3) Study of the religious milieu in the U.S. rooted in our African heritage. Background on African tribal religion is included, along with Christian denominations and new religions such as Nation of Islam, Rastafarianism, Voudou, Santeria, and Candobble.
REL 3120 Hinduism 3 (3) A study of the history, practices, ideas, and social institutions associated with the variety of Indian religious traditions commonly called “Hinduism” from their origins to the present.

REL 3130 Buddhism 3 (3) A study of the history, practices, ideas, and social institutions associated with the variety of Buddhist traditions found throughout the world. Discussion topics focus on the development of classical Buddhism in India and its expansion into Tibet, and includes a treatment of the distinctive developments in China and Japan.

REL 3140 Buddhism in China 3 (3) Study of Buddhism in Chinese history since the second century. Examination of the translation and interpretation of the texts, major Chinese Buddhist schools, monastic life, and the comprehensive influence of Buddhism on Chinese culture and society. All readings and discussions are in English.

REL 3150 Islam 3 (3) A study of the origins, development, and history of the religion of Islam and Islamic cultures from the time of the Prophet to the present.

REL 3200 Jesus in History, Faith and Film 3 (3) An investigation of the genre of ancient biography, the diverse portrayals of Jesus’ life in early Christianity, and the post-Enlightenment “Quest for the Historical Jesus.” The course also analyzes contemporary cinematic portrayals of Jesus’ life as a way of further exploring the relationship between producer, social location, and constructions of the past. Preq: Sophomore standing.

REL 3300 Contemporary Issues in Religion 3 (3) Examination of a variety of issues of broad concern to scholars of religion today. Issues may vary. May be repeated for a maximum of six credits with departmental consent.

REL (HIST) 3510 Ancient Near East 3 (3) History of the peoples and civilizations of the Near East from the Sumerians to the establishment of Semitic power in this region. Includes geography, myth, history, and economic currents as well as the methods and discoveries of archaeology. May also be offered as HIST 3510.

REL (HIST) 3730 Age of the Protestant Reformation 3 (3) Evolution of Modern Europe (ca. 1500–1660), as affected by the Reformation, wars of religion, and growth of nation-states. Study includes intellectual advances and the beginnings of European expansion overseas. May also be offered as HIST 3730.

REL 3990 Junior Research Colloquium 3 (3) Colloquium offered each spring for junior Religious Studies majors. Students enroll individually with a faculty member of their choice and develop, in consultation with him or her, a research project suited to the student’s interests. All students meet four times a week to present the discussion research. Preq: Junior Religious Studies major.

REL 4010* Holy Lands 3-6 (3-6) Rotating study abroad trips to areas of historical importance to Judaism, Christianity, Islam and other religious traditions. Students visit archaeological sites, museums, and sacred spaces of global importance and gain needed world-perspective as they encounter other cultures.

REL (HIST) 4520* History of Early Christianity 3 (3) Study of the history, social and doctrinal, of early Christianity up to 600 A.D. May also be offered as HIST 4520.

REL 4900 Senior Seminar 3 (3) Capstone-style seminar offered each fall for senior year Religious Studies majors, who conduct research, make presentations, and engage in weekly discussions on a topic chosen by the faculty member organizing the seminar. Course represents the final synthesis of skills developed throughout the major. Preq: Senior Religious Studies major.

REL 4920 Creative Inquiry: Religion 1-4 (1-4) Small group work is performed on particular issues with emphasis on involving students in research. Content varies. May be repeated for a maximum of nine credits. Preq: Consent of instructor.

REL 4970 Religion Honors Research 1-3 (1-3) Students conduct research, clearly define the topic, and complete an annotated bibliography under the supervision of a thesis advisor. Preq: Consent of department chair and thesis advisor.

REL 4990 Independent Study 1-3 (1-3) Study of selected problems, issues, or movements in religion under the direction of a faculty member chosen by the student. Students and faculty member develop an individualized course of study approved by the department chair prior to registration. May be repeated for a maximum of six credits. Preq: Consent of instructor.

RUSSIAN

Professor: G.L. Love; Lecturer: J. Bridgwood

RUSS 1010 Elementary Russian 4 (3) Training in pronunciation, grammatical forms, and syntax with a view to giving the student the fundamentals necessary to hold simple conversations and to read simple Russian texts. Coreq: RUSS 1011.

RUSS 1011 Elementary Russian Laboratory 0 (1) Non-credit laboratory to accompany RUSS 1010. Coreq: RUSS 1010.

RUSS 1021 Elementary Russian Laboratory 0 (1) Non-credit laboratory to accompany RUSS 1020. Coreq: RUSS 1020.

RUSS 1031 Intermediate Russian Laboratory 0 (1) Non-credit laboratory to accompany RUSS 2010. Coreq: RUSS 2030.

RUSS 2970 Creative Inquiry—Russian 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration. Prereq: Consent of faculty member.

RUSS 3050 Russian Conversation and Composition 3 (3) Practice in spoken Russian emphasizing vocabulary building, pronunciation, and comprehension. Written exercises promote accuracy. Prereq: RUSS 2020.

RUSS 3070 Russian Civilization 3 (3) Introduction to significant elements of Russian civilization. Emphasis is on social, geographical, political, and artistic aspects of modern Russia. Taught in Russian. Prereq: RUSS 2020.

RUSS 3400 Russian Culture of the Nineteenth Century 3 (3) Study of achievements in art, science, music, and literature in Russia during the 19th century. Taught in English.

RUSS 3600 Russian Literature to 1910 3 (3) Study of key texts in the modern literary tradition in Imperial Russia from Pushkin to Chekhov. Readings and lectures are in English.

RUSS 3610 Russian Literature Since 1910 3 (3) Study of key texts in modern Russian and Soviet literature with particular focus on Russian modernist movements and Socialist Realism. Readings and lectures are in English.

RUSS 3970 Creative Inquiry—Russian 1-4 (1-4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

RUSS 3980 Directed Reading 1-3 (1-3) Directed study of selected works in Russian. May be repeated for a maximum of six credits. Prereq: RUSS 2020.

RUSS 4600 Tolstoy and Dostoevsky 3 (3) Examines a selection of major works by Leo Tolstoy and Fyodor Dostoevsky with particular focus on their literary, political, and philosophical aspects as well as their importance within the modern European literary tradition. Readings and lectures are in English. Prereq: Junior standing.

RUSS 4970 Creative Inquiry—Russian 1-4 (1-4) Continuation of research initiated in RUSS 3970. Students complete their project and disseminate their research results. Prereq: RUSS 3970.

SOCIOLOGY

Professors: M.T. Britz, D.K. Sturkie, B.J. Vander Mey, F.C. Mobley, W.M. Wentworth; Associate Professors: E.M. Granberg, Chair; W.H. Haller, Y. Luo, S.E. Winslow; Assistant Professor: A. Whitehead; Senior Lecturers: J.C. Holland, S. Southworth; Lecturers: M. Barr, J. Edwards, W.C. White

SOC 2010 Introduction to Sociology 3 (3) Sociological perspective: the study of contemporary groups, organizations, and societies in terms of human social behavior, social change, social structure, and social institutions. Includes Honors sections.

SOC 2020 Social Problems 3 (3) Social problems involving the family, education, health care, political and legal systems, economy, population, environment, community; and special problems associated with age, economics, racial status, and gender inequality.

SOC 2050 Introductory Sociology Laboratory 1 (3) Overview of major sociological fields. Examines core competencies and the Sociology major. Relevant career and academic development issues are investigated. Esportsfolios are established and expanded. Prereq or concurrent enrollment: SOC 2010 or SOC 2020.

SOC 2350 Introduction to Leadership 3 (3) Introduction to leadership in various organizational settings from a sociological perspective. Examines the concept of leadership, leadership traits, types of leadership, and the evolution of leadership behaviors in the 19th and 20th centuries.

SOC 3020 Social Research Methods I 3 (3) This course is the first in a two-semester methods sequence, and focuses on conceptual issues relating to research design, and on examples of array of data collection and analysis techniques. Topics include the research process, linking theory and methods, conceptualization and measurement, sampling, research design, and research ethics. Prereq: SOC 2010 or SOC 2020. Prereq or concurrent enrollment: SOC 2030.

SOC (RS) 3030 Methods of Social Research I 4 (3) Introduction to methods of social research; research design, sampling, reliability, and validity, the relationship between theory and research. Coordinating laboratory introduces students to computer techniques throughout research. Required of all Sociology majors. Includes Honors sections. May also be offered as SOC 3030. Prereq: SOC 2010 and one of STAT 2300 or STAT 3300. Coreq: SOC 3031.

SOC (RS) 3031 Methods of Social Research I Laboratory 0 (3) Non-credit laboratory to accompany SOC 3030. May also be offered as RS 3031. Coreq: SOC 3030.

SOC 3030 Social Research Methods II 4 (3) This course is the second in a two-semester methods sequence, and provides a brief review of research design and a concentrated focus on statistical analysis. Topics include organizing and coding data, indexes and scales, measures of central tendency and variability, and univariate, bivariate and multivariate statistics. Includes Honors sections. Prereq: SOC 3020 and one of STAT 2300 or STAT 3090 or STAT 3300. Coreq: SOC 3041.

SOC 3041 Social Research Methods II Laboratory 0 (1) Non-credit laboratory to accompany SOC 3040. Coreq: SOC 3040.

SOC 3100 Marriage and Intimacy 3 (3) Examination of mate selection, living together, marital relations, family planning, conflict resolution, divorce and remarriage, later life adjustments, and singlehood as a lifestyle in the U.S. Includes Honors sections.

SOC 3110 The Family 3 (3) Introduction to the family as a social institution. Primary focus is on families in the U.S. with comparisons to other cultures. Topics include history of the family, trends in family formation and dissolution, division of labor, intergenerational relationships, family violence, and policy. Analyses of race, class, and gender are incorporated. Includes Honors sections. Prereq: SOC 2010 or SOC 2020.

SOC 3300 Work and Occupations 3 (3) Introduces changes in the structure of work from preindustrial to postindustrial periods. Topics include the effects of stratification on career decisions, career paths and implications for life changes, social effects of scientific management of work, unionization, globalization, the rise of multinational corporations, and cross-cultural comparisons of management styles. Prereq: SOC 2010 or SOC 2020.

SOC 3310 Urban Sociology 3 (3) Urbanization as a social process and related conditions of work, family structure, social mobility, crime, lifestyle, technology, and development of urban areas in the Third World. Prereq: SOC 2010 or SOC 2020 and sophomore standing.

SOC 3500 Self and Society 3 (3) Social psychology from the sociological viewpoint. Examines interaction and group influences on such individual conditions as childhood and life-course development, language, emotions, motives, sexuality, deviance, and selfconcept. Prereq: SOC 2010 or SOC 2020 or PSYC 1010.

SOC (ELE, PSYC) 3560 Social Science of Entrepreneurship 3 (3) Examines those areas of the social sciences that have direct relevance for entrepreneurs. Topics include processes by which entrepreneurs are shaped by social institutions such as the family and community, public policy implications and influences on entrepreneurship, risk perception, decision making, motivation, leadership, and group dynamics. May also be offered as ELE 3560 or PSYC 3560. Prereq: SOC 2010 or SOC 2020 or SOC 2350 or PSYC 2010 or POSC 1010 or POSC 1020 or POSC 1040.

SOC 3600 Social Class and Poverty 3 (3) Overview of economic stratification and inequality. Topics include measuring and explaining inequality, how inequality is reproduced in society, and the consequences for life outcomes. Course also focuses on poverty, including its nature, causes, demographics and consequences. Prereq: SOC 2010 or SOC 2020.

SOC 3800 Introduction to Social Services 3 (3) Fundamentals of casework practice, including philosophy and values, models of group work, and ethics in social services work. Prereq: SOC 2010 or SOC 2020.

SOC 3880 The Criminal Justice System 3 (3) Social systems analysis of criminal justice agencies. Primary focus is on law enforcement and corrections and their interagency relationship with courts and prosecution.

SOC 3890 Criminology 3 (3) Study of nature and causes of criminal behavior; societal attempts to control crime; social responses to crime, criminals, and the criminal justice system.

SOC 3920 Juvenile Delinquency 3 (3) Study of nature, extent, and causes of juvenile delinquency; societal attempts to control delinquent conduct and gang violence; emergence of the juvenile justice system. Prereq: SOC 2010 or SOC 2020.
SOC 3940 Sociology of Mental Illness 3 (3) Mental illness as a social phenomenon, including cultural and social influence, organizational settings of mental health-care delivery, legal issues, patient-therapist relationships, and mental illness intervention as social control. Includes Honors sections.

SOC 3970 Substance Abuse: Social Causes, Consequences and Treatment 3 (3) Examination of the history and impact of substance use in our culture, from a sociological perspective. Topics include the various reasons individuals and groups partake of drugs and alcohol, our cultural obsession with substances, theories regarding addiction, drug and alcohol control policy and benefits and costs of substance use. Preq: SOC 2010 or SOC 2020.

SOC (RS) 4010* Human Ecology 3 (3) Analysis of the interrelationships between the physical world, modifications in natural environments, human settlement patterns, and institutions that both encourage and regulate environmental modification. Emphasizes conditions whereby natural resources become public policy concerns. May also be offered as RS 4100. Preq: Junior standing.

SOC 4040* Sociological Theory 3 (3) Survey of the development of sociological theory. Required of all Sociology majors. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4080 Honors Thesis Research I 3 (3) Reading and research related to senior honors thesis. Completion of junior honors requirements and approval of department chair and thesis advisor required. Preq: Honors status and SOC 3020.

SOC 4090 Honors Thesis Research II 3 (3) Research and writing related to the senior honors thesis. Preq: Honors status and honors section of SOC 3040 and SOC 4080.

SOC 4100 Policy and Social Change 3 (3) Uses the sociological perspective to examine policy development, implementation, and evaluation in the public and private sectors. Specifically, focuses on values and ethics and effects of social change efforts on the outcomes of policy formation, social planning, and implementation. Preq: SOC 2010 or SOC 2020; and Junior standing.

SOC 4300 Sociology of Organizations 3 (3) Analysis of administrative organizations and voluntary associations; applied analysis of their formal and informal group relations, communications, and effectiveness. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4320 Sociology of Religion 3 (3) Sociological analysis of religious systems and movements and their influence on other social institutions. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4330* Globalization and Social Change 3 (3) Examination of the social and historical causes of development and underdevelopment. Various sociological theories of development are reviewed. Selected countries are examined in an international context. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4440 Sociology of Education 3 (3) Examines the relationship between education and society. Topics include theoretical perspectives, school organization, social mobility and stratification in schools, race and gender, tracking and school reform. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4500 Sociology of Groups and Group Processes 3 (3) Sociological perspectives on groups, group dynamics and group performance. Topics include status, power, justice, legitimacy and leadership. Preq: SOC 2010 or SOC 2020 or PSYC 255.

SOC (RS) 4590* The Community 3 (3) Close analysis of the development of contemporary communities and their place in society. Continuing effects of industrialization, migration, and technological change on community location and structure are examined. Structural relations of social class, status, and the associations among institutions are explored. May also be offered as RS 4590. Preq: Junior standing.

SOC 4600* Race and Ethnicity 3 (3) Investigation of sociological perspectives on race, ethnic relations, and social stratification. Includes an analysis of the impact of social class on minority movements. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4610 Sociology of Sex and Gender 3 (3) Examination of theoretical and empirical approaches to the sociology of sex and gender, focusing primarily on contemporary American society. Focuses on how gender intersects with race, class, social class and sexuality, and how major institutions in society are sites for the maintenance and reproduction of gender roles, expectations and differentiation. Includes Honors sections. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4620 Men, Masculinity, and Society 3 (3) Consideration of masculinity and social order: norms, roles, relationships, and activities; identity and socialization: work, family, sexuality, war, sports, including subcultural comparisons. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4680 Sociology of Criminal Evidence 3 (3) Introduction to the types of evidence, collection of evidence, chain of custody, and procedures relating to the introduction of evidence into judicial proceedings. Attention is given to Fourth Amendment constitutional issues, the development of law within American boundaries, and the cross-cultural development of law. Preq: SOC 3880.

SOC 4800* Medical Sociology 3 (3) Study of sociocultural factors in the etiology and treatment of physical illness, medical occupations and professions, and the organization of health care delivery systems. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4810* Aging and Death 3 (3) Sociological orientation to aging populations focusing on the impact of health care, welfare, and retirement systems. Includes dying as a social phenomenon, suicide, euthanasia, and funerals. Preq: SOC 2010 or SOC 2020 and Junior standing.

SOC 4840* Child Abuse and Treatment 3 (3) Comprehensive examination of child abuse, neglect, and exploitation as major social problems; causes, effects, and prevalence of physical, sexual, and emotional maltreatment; definitional controversies; social policy and legal considerations; therapeutic approaches for children and their caretakers; child maltreatment and the judicial system. Preq: Junior standing.

SOC 4860 Creative Inquiry—Sociology 1-3 (1-3) Investigates topics and engages in action research projects selected by faculty and students. Goals, research, activities, and outcomes vary from semester to semester and project to project. May be repeated for a maximum of 12 credits. Preq: Consent of instructor.

SOC 4910* The Sociology of Policing 3 (3) Introduction to the major issues of contemporary policing in the U.S. from a sociological perspective. Topics include the changing functions and structure of policing, the police subculture, and the role of the police in a liberal democracy. Preq: SOC 3880.

SOC 4930* Sociology of Corrections 3 (3) Analysis of correctional alternatives. Topics include sentencing strategies and their impact, prison populations (male, female, and juvenile), inmate social structures, treatment and custody issues, community-based alternatives (probation, parole, electronic monitoring, and work release), and correctional management issues. Preq: SOC 3880.

SOC 4940* Sociology of Organized Crimes 3 (3) Examines the multifarious aspects of criminal organizations, namely their structure, methods, and networks. Specific topics may include white-collar crime and traditional, nontraditional, and transnational organized crime. Preq: SOC 3880.

SOC (RS) 4950 Field Experience 3 (1) Students participate in selected field placements under supervision for eight hours weekly and in a one-hour seminar per week. May be repeated once for credit. May also be offered as RS 4950. Preq: SOC 2010 or SOC 2020; and Junior standing; and consent of instructor. Coreq: SOC 4951.

SOC (RS) 4951 Field Experience Laboratory 0 (8) Non-credit laboratory to accompany SOC 4950. May also be offered as RS 4951. Coreq: SOC 4950.

SOC 4970 Sociology Senior Laboratory 1 (3) Concludes overview of theory, research, methodology, and fields of sociology. Students add to and finalize complete portfolio, and prepare for post- degree careers and major field test. Students must have a 2.0 cumulative grade-point ratio to enroll in this course. Preq: SOC 2050 with a passing grade and Senior standing.
SPANISH

SPAN 1010 Elementary Spanish 4 (3) Course for students with no previous experience in Spanish study. The fundamentals of grammar and vocabulary are taught, and a foundation is provided for building oral and written proficiency. Three hours a week of classroom instruction and one hour a week in the language laboratory. Coreq: SPAN 1011.

SPAN 1011 Elementary Spanish Laboratory 0 (1) Non-credit laboratory to accompany SPAN 1010. Coreq: SPAN 1010.

SPAN 1020 Elementary Spanish 4 (3) Continuation of SPAN 1010. Coreq: SPAN 1021.

SPAN 1021 Elementary Spanish Laboratory 0 (1) Non-credit laboratory to accompany SPAN 1020. Coreq: SPAN 1020.

SPAN 1040 Basic Spanish 4 (3) Condensed first-year course for students who have previously studied Spanish. Upon completion, students are prepared to enter Intermediate Spanish. Coreq: SPAN 1041.

SPAN 1041 Basic Spanish Laboratory 0 (1) Non-credit laboratory to accompany SPAN 1040. Coreq: SPAN 1040.

SPAN 1510 Spanish for Graduate Students 3 (3) Intensive program only for graduate students preparing for the reading examination in Spanish. A minimum grade of B on a final examination will satisfy graduate school foreign language requirements. May be repeated once. To be taken Pass/No Pass only. Coreq: Graduate standing.

SPAN 2011 Intermediate Spanish Laboratory 0 (1) Non-credit laboratory to accompany SPAN 2010. Coreq: SPAN 2010.

SPAN 2210 Accelerated Spanish II 6 (6) Accelerated intermediate course that may be taken in lieu of SPAN 2100 and 2120. Through conversation, composition, dictation, and intensive grammar review, proficiency is stressed. Includes literary readings and cultural perspectives. May not be taken by students who have completed SPAN 2100 or 2120. Coreq: SPAN 2100.

SPAN 2970 Creative Inquiry—Spanish 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Arrangements with faculty members must be established prior to registration. Coreq: Consent of faculty member.

SPAN 3040 Introduction to Hispanic Literary Forms 3 (3) Introduction to the basic structures and elements of fiction, poetry, drama, and essay, including literary and critical theory, with readings in 19th and 20th-century Spanish and Spanish-American literature. Coreq: SPAN 3020 or SPAN 3050.

SPAN 3050 Intermediate Spanish Conversation and Composition 1 3 (3) Practice in spoken Spanish with emphasis on vocabulary, pronunciation, intonation, and comprehension. Includes written work to increase accuracy and assignments in the language laboratory. Coreq: SPAN 2020.

SPAN 3060 Spanish Composition for Business 3 (3) Intensive practice of business writing skills through compositions, general overview of grammatical structures, and exposure to business vocabulary and concepts. Coreq: SPAN 2020.

SPAN 3070 The Hispanic World: Spain 3 (3) Introduction to the significant aspects of the culture of Spain from its origins to the present. Emphasizes the artistic, social, historical, political, and contemporary issues of the Iberian Peninsula. Coreq: SPAN 2020.

SPAN 3080 The Hispanic World: Latin America 3 (3) Introduction to the significant aspects of the culture of Spanish-American countries. Emphasis is placed on the development of the political, economical, geographical, social, and artistic aspects of Spanish America from the indigenous period to the present. Coreq: SPAN 2020.

SPAN 3100 CLIP Summer Immersion Program 6 (6) Conducted entirely in Spanish for eight hours daily. Consists of activities that combine interrelating cultural topics with language skill practice. Frequent opportunities to converse with native speakers during meals and on excursions. Students receive six credits, three of which may be taken in lieu of SPAN 2010. Coreq: SPAN 2010.

SPAN 3110 Survey of Spanish-American Literature 3 (3) Literary movements, influences, authors, and works from the Colonial period to the present. Coreq: Six credits in Spanish at the 3000 level, including at least one course in literature or culture.

SPAN 3130 Survey of Spanish Literature 1 3 (3) Literary movements, influences, and authors from the beginning to the end of the 17th century; representative works, discussions. Coreq: Six credits in Spanish at the 3000 level, including three credits of literature or culture.

SPAN 3140 Hispanic Linguistics 3 (3) Familiarizes students with the theory and practice of linguistics applied to Spanish, in order to deepen their knowledge of phonetics, morphology, syntax, semantics and linguistic change. Coreq: SPAN 3020.

SPAN 3160 Spanish for International Trade 1 3 (3) Introduction to commercial Spanish; study of the spoken and written language, protocol, and cultural environment of the Spanish-speaking business world. Business vocabulary, basic business and cultural concepts, and situational practice. Reading and analysis of commercial texts. Coreq: Two 3000-level Spanish language, literature, or culture courses.

SPAN 3180 Spanish Through Culture 3 (3) Topic-generated conversation course in Spanish through a broad array of artistic manifestations in the Hispanic World emphasizing conversation and short written exercises. Focuses on one Hispanic culture topic which provides a basis for class discussion and short written compositions in Spanish. Coreq: One 3000-level course in Spanish.

SPAN 3910 Honors Introduction to Hispanic Literary Forms 1 (1) One-hour independent study to allow honors students to pursue supervised research on some aspect of Hispanic literature. Coreq: Membership in Calhoun Honors College.

SPAN 3920 Survey of Spanish Literature (Honors) 1 (1) Independent study allowing honors students to pursue supervised research on witchcraft in 15th and 16th-century Spain. Coreq: Membership in Calhoun Honors College. Coreq or concurrent enrollment: SPAN 3130.

SPAN 3930 The Hispanic World: Latin America (Honors) 1 (1) One-hour independent study to allow honors students to pursue supervised research on a topic related to Hispanic American history, politics, geography, economics, social institutions, or artistic movements. Coreq: Membership in Calhoun Honors College. Coreq or concurrent enrollment: SPAN 3080.

SPAN 3970 Creative Inquiry—Spanish 1-4 (1-4) Students focus on a special research area under the guidance of a faculty member. After acquiring the requisite background, students formulate hypotheses for a group project, develop a critical framework, and initiate research on a specific topic.

SPAN 3980 Directed Reading 1-3 (1-3) Directed study of selected topics in Spanish literature, language, and culture. May be repeated for a maximum of six credits. Coreq: Consent of department chair.
SPAN 4010 New Spanish Fiction 3 (3) Study of selected readings by popular emerging and established authors of Spain, with emphasis on current cultural trends. Readings include, but are not limited to, detective novels, regional fiction, and fiction from marginalized groups in Spain. Prq: SPAN 3000-level literature course.

SPAN 4030 Spanish American Writers 3 (3) In-depth study of selected literary works by Spanish American women. Representative authors are studied within their philosophical and sociopolitical contexts. Prq: Spanish 3000-level literature course.

SPAN 4040 Nineteenth and Twentieth Century Spanish Literature 3 (3) Selected readings from major authors in Spain. Emphasis is on readings in poetry, theatre, short story, and novels from the 19th to the early 20th century. Prq: SPAN 3000-level literature course.

SPAN 4050 International Trade, Film, and Literature 3 (3) Readings on the social, economic, and political changes of the Hispanic world. Prq: Spanish 3000-level literature or culture course.

SPAN 4060 Hispanic Narrative Fiction 3 (3) Topic-generated readings from Spanish America and/or Spain. Readings consider gender issues, the family, ethnicity, religion, politics, history, or socioeconomic issues in the Hispanic world. Prq: Spanish 3000-level literature or culture course.

SPAN 4070 Hispanic Film 3 (3) Films are read as texts that mirror Hispanic society. Besides learning about cinematographic techniques in Spanish, topics include comparative analysis of film and literature, film as propaganda, film as blockbuster, and the cinematic depiction of social, cultural, and historical realities of Hispanic nations. Prq: Spanish 3000-level language, literature, or culture course.

SPAN 4090 Comprehensive Writing in Spanish 3 (3) Study of stylistics in addition to grammar review; writing paragraphs, short compositions, and creative papers in Spanish on both fictional and nonfiction topics. Prq: Any 3000-level Spanish course.

SPAN 4110 Advanced Spanish Conversation and Composition 3 (3) Continuation of SPAN 3050 with emphasis on greater fluency and sophistication in oral and written expression. Prq: SPAN 3050.

SPAN 4150 Spanish for Health Professionals 3 (3) Medical concepts and terminology in Spanish; designed for students who plan to work in professions related to public health care. Prq: Six credits in Spanish at the 3000 or 4000 level.

SPAN 4160 Spanish for International Trade II 3 (3) Study of more complex business vocabulary, cultural concepts, and environment of Hispanic markets. Social, political, and economic issues related to Spanish-speaking countries and their current economies in global marketing. Economic geography of Hispanic countries, company organization, management, banking, investment, goods and services, and marketing. Prq: SPAN 3160.

SPAN 4170 Professional Communication 3 (3) Skill-oriented course, taught in a seminar format. Students learn established protocol for addressing various Spanish-speaking audiences and learn to give professional presentations in Spanish. Prq: Spanish 3000-level course.

SPAN 4180 Technical Spanish for Health Management Professionals 3 (3) Technical health communication course in Spanish with emphasis on managerial and business aspects of the international health industry. Prq: SPAN 4150 and six additional credits in Spanish at the 3000 or 4000 level.

SPAN 4190 Health and the Hispanic Community 3 (3) Study of cultural aspects of health and health services in Hispanic populations. Taught in Spanish. Prq: Six credits in Spanish at the 3000 or 4000 level.

SPAN 4200 Hispanic Drama 3 (3) Exploration of contemporary Hispanic theatre. The production and reception of the plays are analyzed paying particular attention to notions of dramatic genre. Focuses on the change and continuity of the plays as well as their historical, cultural, and ideological backgrounds. Prq: Two 3000-level Spanish literature or culture classes.

SPAN 4210 Spanish-American Modernism and Postmodernism 3 (3) In-depth study of Spanish-American modernism and postmodernism with focus on narrative and poetry. Prq: Any 3000-level Spanish literature course.

SPAN 4220 The Contemporary Spanish-American Novel 3 (3) New trends in the development of the Spanish-American novel from the 1940s to the present. Prq: Spanish 3000-level literature course.

SPAN 4230 Advanced Topics in Hispanic Linguistics 3 (3) Continuation of SPAN 3140 with advanced topics. May be repeated for a maximum of six credits, but only if different topics are covered. Prq: SPAN 3140.

SPAN 4350 Contemporary Hispanic Culture 3 (3) Study of social, political, economic, and artistic manifestations of contemporary Hispanic culture. Prq: Spanish 3000-level civilization or culture course.

SPAN 4380 Spanish Honors Research 3 (3) Individual honors research conducted and thesis completed under the direction of a Language Department faculty. May not be used to satisfy requirements for the major in Modern Languages-Spanish or Language and International Trade or the minor in Modern Languages. Prq: Junior standing and membership in Calhoun Honors College.

SPAN 4390 Spanish Honors Thesis 3 (3) Individual honors research conducted and thesis completed under the direction of Language Department faculty. May not be used to satisfy requirements for the major in Modern Languages-Spanish or Language and International Trade or the minor in Modern Languages. Prq: Junior standing and SPAN 4380 and membership in Calhoun Honors College.

SPAN 4910 Hispanic Narrative Fiction (Honors) 1 (1) One-hour independent study to allow honors students to pursue supervised research on the socio-political climate under Franco’s dictatorship, with emphasis on contemporary literary theory. Prq: Membership in Calhoun Honors College. Prq or concurrent enrollment: SPAN 4060.

SPAN 4920 Contemporary Latin American Novel (Honors) 1 (1) One-hour independent study to allow honors students to pursue supervised research in the literary and cinematographic images of magic realism. Prq: Membership in Calhoun Honors College. Prq or concurrent enrollment: SPAN 4220.

SPAN 4970 Creative Inquiry—Spanish 14 (1-4) Continuation of research initiated in SPAN 3970. Students complete their project and disseminate their research results. Prq: SPAN 3970.

SPAN 4980 Independent Study 13 (1-3) Directed study of selected topics in Spanish language, literature, and culture. May be repeated for a maximum of six credits. Prq: Consent of department chair.

SPAN 4990 Special Topics 3 (3) Study of timely or special topics in Spanish. May be repeated for a maximum of six credits, but only if different topics are covered. Prq: Consent of department chair.

EXPERIMENTAL STATISTICS

STAT 2220 Statistics in Everyday Life 3 (3) Focuses on the role of statistics in a variety of areas including politics, medicine, environmental issues, advertising, and sports. Students explore common statistical misconceptions and develop an understanding of how principles of probability and statistics affect many aspects of everyday life. Not open to students who have received credit for MATH 3020 or STAT 3090. Prq: Any MATH course or a 50 or better on the Clemson Mathematics Placement Test.

STAT 2300 Statistical Methods I 3 (2) Basic concepts and methods of statistical inference; organization and presentation of data, elementary probability, measures of central tendency and variation, tests of significance, sampling, simple linear regression and correlation. Stresses the role of statistics in interpreting research and the general application of the methods. Statistical microcomputer software is used. Not open to students who have received credit for MATH 3090 or STAT 3090. Coreq: STAT 3090.

STAT 2300 Statistical Methods I 3 (2) Basic concepts and methods of statistical inference; organization and presentation of data, elementary probability, measures of central tendency and variation, tests of significance, sampling, simple linear regression and correlation. Stresses the role of statistics in interpreting research and the general application of the methods. Statistical microcomputer software is used. Not open to students who have received credit for MATH 3090 or STAT 3090. Coreq: STAT 3090.
STAT 3090 Introduction to Business Statistics 3 (3) Introductory probability and statistics for business students, particularly those who will take MGT 300. Topics include descriptive statistics, probability distributions, analysis of categorical data, introduction to multiple linear regression, experimental design, analysis of variance, and non-parametric methods. Statistical computer software is used. Not open to students who have received credit for MATH 1060 or MATH 1070 or MATH 2070 or MATH 2100.

STAT 3300 Statistical Methods II 3 (3) Principle topics include collecting and summarizing data, probability distributions, analysis of categorical data, introduction to multiple linear regression, experimental design, analysis of variance, and non-parametric methods. Statistical computer software is used. Not open to students who have received credit for MATH 4020. Preq: MATH 3020 or STAT 2300.

STAT 4020* Introduction to Statistical Computing 3 (3) Introduction to statistical computing packages. Topics include data input/output, basic descriptive statistic computation, basic graphic preparation, and statistical analysis methods and procedures. Preq: IE 3610 or MATH 3020 or MGT 3000 or STAT 2300.

STAT 4110* Statistical Methods for Process Development and Control 3 (3) Experimental design techniques for use in process development, application of screening experiments and response surface experiments, techniques for process control with implications for product quality control. Includes discussions of the use of statistical computer analyses and interpretations including computer-generated graphics. Preq: MATH 2060.

STAT 4620 Statistics Applied to Economics 3 (3) Continuation of EXST 3010 emphasizing statistical methods used in the collection, analysis, presentation, and interpretation of economic data. Special attention is given to time-series analysis, the construction of index numbers, and the designing of sample surveys in the social science fields. Preq: STAT 2300.

SCIENCE AND TECHNOLOGY IN SOCIETY

STS 1010 Survey of Science and Technology in Society 3 (3) Surveys historical, philosophical, and social studies of science; introduces the basic requisites for scientific and technological literacy; and considers the problems of responsible participation in a scientifically and technologically advanced society.

STS 1020 Ideas, Machinery, and Society 3 (3) Interdisciplinary discussion course introducing the fundamental themes of STS: the influence of social groups on the development of science and technology and the effects of science and technology on society.

STS 1200 Topics in Science and Technology in Society 3 (3) Explores ethical, policy and social issues raised by the complex interactions among science, technology and society. Topics vary depending on the instructor.

STS 1710 Scientific Skepticism 3 (3) Investigation of unusual phenomena using scientific methodology. Explores the interplay of science, pseudoscience, and society through development of critical thinking skills. Discussion-oriented course that focuses on case studies of extraordinary claims.

STS 2150 A Critical Approach to the Global Challenge of Technological Revolutions 3 (3) This course takes a broad, humanistic perspective for understanding the challenges posed by scientific and technological revolutions, including innovations like nanotechnology, environmental preservation, bio-technology, digital technology, and nuclear fusion. Students learn skills and strategies for thinking critically about the nature of radical change in science and technology as it affects society.

STS 2160 Critical Analysis of a Current STS Issue 3 (3) Critical analysis of a current science and technology issue with significant controversial and societal consequences (e.g., global warming, methods of energy production). Students retrieve, analyze, evaluate, present and discuss relevant information to develop basic competence in science and mathematics and in the evaluation of scientific and technological issues. May be repeated for a maximum of six credits, but only if different topics are covered. Preq: Sophomore standing.

STS 3010 Science in Context 3 (3) Development of an understanding of the social character of scientific activity. Through the study of current work by leading historians, sociologists, and philosophers of science, students develop a comprehensive grasp of the social foundations of modern scientific inquiry.

STS 3030 Technology, Culture and Society 3 (3) Addresses issues that arise from the interaction of technology with the natural and cultural context. To better understand how technologies relate to societies and cultures, students learn to use the analytic tools required to evaluate the significance of technology, as well as its relations to social endeavors and cultural endeavors.

STS 4980 Creative Inquiry 1-3 (1-3) Students conduct research on Science and Technology in society with a team of their peers under the direction of a faculty member. The collaborative character of research in science and technology in society is emphasized. Includes Honors sections. May be repeated for a maximum of 12 credits.

STS 4990 Independent Study 1-3 (1-3) Study of selected topics under direction of a faculty member selected by the student. Student and faculty member develop a course of study designed for the individual student and approved by the STS program coordinator prior to registration. May be repeated for a maximum of six credits. Students are expected to have completed their General Education Science and Technology in Society Requirement before enrolling in this course. Preq: Consent of instructor.

THEATRE

Professor: D.J. Hartmann, Chair; Associate Professor: K.L. Johnson, A.M. Penna, S. Robert; Assistant Professors: K. Seymour, R. St. Peter; Senior Lecturer: C. Collins; Lecturer: J. Alkins

THEA 1950 Creative Inquiry—Theatre 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of instructor.

THEA 2160 Theatre Appreciation 3 (3) Examination of the theatre event approached through historical context, play reading, analysis of production practices, and field trips to live dramatic performances. Includes Honors sections.

THEA 2670 Stage Makeup Techniques 3 (2) Practical study of basic stage makeup techniques for the acting student including corrective makeup, modeling with paint, three-dimensional makeup, prosthesis with latex, and makeup for other media. Coreq: THEA 2671.

THEA 2671 Stage Makeup Techniques Laboratory 0 (1) Non-credit laboratory to accompany THEA 2670. Coreq: THEA 2670.

THEA 2770 Production Studies in Theatre 3 (3) Study of technical production and design including scenery, costume, and lighting through the examination of plays in production.

THEA 2780 Acting I 3 (2) Fundamentals of acting; basic stage techniques; exercises in interpretation, improvisation, characterization; experience in supervised scene study. Coreq: THEA 2781.

THEA 2781 Acting I Laboratory 0 (3) Non-credit laboratory to accompany THEA 2780. Coreq: THEA 2780.

THEA 2790 Theatre Practicum 1 (3) Practical work in theatre on a production designed for public presentation. May be repeated for a maximum of four credits.

THEA 2880 Introduction to Computer-Aided Drafting 3 (2) Introduction to the basics of computer-aided drafting. Software applications include AutoCAD, Vectorworks, and WYSIWYG. Coreq: THEA 2881.

THEA 2881 Introduction to Computer-Aided Drafting Laboratory 0 (3) Non-credit laboratory to accompany THEA 2880. Coreq: THEA 2880.

THEA 2950 Creative Inquiry—Theatre 1-4 (1-4) In consultation with and under the direction of a faculty member, students pursue scholarly activities individually or in teams. Creative inquiry projects may be interdisciplinary. Arrangements with mentors must be established prior to registration. May be repeated for a maximum of eight credits. Preq: Consent of instructor.

THEA (MUSC) 3080 Survey of Broadway Musicals 1-3 (1) Introduction to Broadway musical repertoire from the Golden Age of Broadway: 1943–1964. Emphasizes the music with attention to production detail, historical perspective, and social milieu. May also be offered as MUSC 3080.

THEA (MUSC) 3090 Survey of Broadway Musicals II 3 (3) Survey of Broadway musical repertoire from new conceptual shows from 1965 to the present day. Emphasizes the music with attention to production detail, historical perspective, and social milieu. May also be offered as MUSC 3090.

THEA 3150 Theatre History I 3 (3) Historical survey of Western and non-Western theatre. Emphasis is placed on the changing roles of the playwright, director, actor, technician, and spectator from antiquity to the Renaissance. Preq: Sophomore standing.

THEA 3160 Theatre History II 3 (3) Historical survey of Western theatre. Emphasis is placed on the changing roles of the playwright, director, actor, technician, and spectator from the Renaissance to the present. Preq: Sophomore standing.

WCIN 4550 History of Non-Western Cinemas 3 (2) Close study of the development of a specific nation- or regional non-Western cinema (e.g., Japanese, Indian, Chinese, African, Middle Eastern) in terms of its aesthetic, theoretical and sociopolitical dimensions. Cinematographic and storytelling techniques in Western and non-Western filmmaking forms are compared. Preq: ENGL 3570. Coreq: WCIN 4551.

WCIN 4551 History of Non-Western Cinemas Laboratory 0 (3) Non-credit laboratory to accompany WCIN 4550. Coreq: WCIN 4550.

WCIN 4571 Global Hollywood Laboratory 0 (3) Non-credit laboratory to accompany WCIN 4570. Coreq: WCIN 4570.

WCIN 4580 Adaptations of World Classics 3 (2) Study of selected film and/or other media adaptations of classics in world literature, with attention to adaptation theory, language, form, history and culture. Topics vary. Preq: ENGL 3570. Coreq: WCIN 4581.

WCIN 4581 Adaptations of World Classics Laboratory 0 (3) Non-credit laboratory to accompany WCIN 4580. Coreq: WCIN 4580.

WCIN 4620 World Documentary 3 (2) Introduces students to the history, theory and form of documentary practice in international context. Through a selection of representative works, students examine the ethical, legal, aesthetic and social concerns inherent in the genre. Preq: ENGL 3570. Coreq: WCIN 4621.

WCIN 4621 World Documentary Laboratory 0 (3) Non-credit laboratory to accompany WCIN 4620. Coreq: WCIN 4620.

WCIN 4760 Filmmaking for Mobile Media 3 (2) Students apply their knowledge of film theory and techniques through low-to-no-budget digital videos for dissemination on mobile media devices such as smartphones and tablet computers. Students will learn to operate low-budget video equipment and edit video on professional editing software in a hands-on workshop. Preq: DPA 3070 or ENGL 3570. Coreq: WCIN 4761.

WCIN 4761 Filmmaking for Mobile Media Laboratory 0 (3) Non-credit laboratory to accompany WCIN 4760. Coreq: WCIN 4760.

WCIN 4960 Capstone Seminar 3 (2) In-depth exploration and analysis of a special topic in World Cinema, culminating in a capstone project documented in written, oral, visual and multimedia presentation. Students apply their expertise to produce research of publishable quality and scope. Senior standing in World Cinema major. Coreq: WCIN 4961.

WCIN 4961 Capstone Seminar Laboratory 0 (3) Non-credit laboratory to accompany WCIN 4960. Coreq: WCIN 4960.

WCIN 4990 World Cinema Practicum 3-6 (3-6) In-depth exploration and analysis of a special topic in World Cinema, culminating in a capstone project documented in written, oral, visual and multimedia presentation. Students apply their expertise to produce research of publishable quality and scope. Senior standing in World Cinema major. Coreq: WCIN 4961.

WFB 3000 Wildlife Biology 3 (3) Study of the biological bases for the conservation of flora, fauna, and habitats. Biological factors that influence the decision-making process are also addressed. May also be offered as BIOL 3130. Preq: BIOL 1030 and BIOL 1050 and BIOL 1040 and BIOL 1060; or BIOL 1100 and BIOL 1110.

WFB 3500 Principles of Fish and Wildlife Biology 3 (3) Introduction to principles of fisheries and wildlife biology on which sound management practices are based. Interrelationships of vertebrate and invertebrate biology, habitat, and population dynamics are covered. Preq: One of the following combinations: BIOL 1030 and BIOL 1050 and BIOL 1040 and BIOL 1060; OR BIOL 1100 and BIOL 1110.

WFB 4100* Wildlife Management Techniques 3 (1) Covers field and laboratory methods commonly used in wildlife management and research. Students interact with wildlife professionals. Topics include research methodology, estimating wildlife population characteristics, condition measures, food habits; species determination, sex, and age; capture; population monitoring methods; GIS and mapping techniques; habitat evaluation and improvement. Preq: WFB 3000 and WFB 3500. Coreq: WFB 4101.

WFB 4101* Wildlife Management Techniques Laboratory 0 (6) Non-credit laboratory to accompany WFB 4100. Coreq: WFB 4100.

WFB 4120* Wildlife Management 3 (2) Basic principles and general practices of wildlife management and conservation are covered. Major problems concerning the management of wildlife resources, with emphasis on upland game species. Laboratory work includes practical work on the Clemson University woodlands and field trips to several areas where wildlife management is being practiced. Includes Honors sections. Preq: WFB 3000 and WFB 3500. Coreq: WFB 4121.

WFB 4121* Wildlife Management Laboratory 0 (6) Non-credit laboratory to accompany WFB 4120. Coreq: WFB 4120.

WFB 4140* Wildlife Nutritional Ecology 3 (3) Concepts of how terrestrial wildlife obtains and utilizes energy and nutrients in wild ecosystems are taught. Energy and nutrient availability are discussed in the ecological context of distribution, flow, and cycling in natural and modified foraging areas. Physiology of digestion is discussed for major homeotherms. Preq: WFB 3000 and WFB 3500.

WFB 4150* Quality Deer Management 3 (3) Quality Deer Management (QDM) is a stewardship philosophy that provides desirable hunting experiences by producing white-tailed deer herds with a natural age and sex structure and population size appropriate for habitat conditions. The course will emphasize herd management, habitat management, hunter management and herd monitoring. Online course. Preq: Junior standing.

WFB 4160* Fishery Biology 3 (2) Principles underlying freshwater fish production. Introduction to major groups of freshwater fishes and their habitats. Topics include identification, age and growth, fecundity, food habits, populations estimation, environmental evaluation, management practices, and fish culture. Preq: WFB 3000 and WFB 3500. Coreq: WFB 4161.
WFB 4400 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 3500. WFB 4500 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4160. WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 4600. WFB 4690 Aquatic Insects 3 (1) Field-intensive introduction to the identification, habitats, and life history of common and aquatic insects. Laboratory study examines morphology and functional morphology of aquatic insects. Preq: WFB 4690.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4400 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 3500. WFB 4500 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4160. WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 4600. WFB 4690 Aquatic Insects 3 (1) Field-intensive introduction to the identification, habitats, and life history of common and aquatic insects. Laboratory study examines morphology and functional morphology of aquatic insects. Preq: WFB 4690.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4400 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 3500. WFB 4500 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4160. WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 4600. WFB 4690 Aquatic Insects 3 (1) Field-intensive introduction to the identification, habitats, and life history of common and aquatic insects. Laboratory study examines morphology and functional morphology of aquatic insects. Preq: WFB 4690.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4400 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 3500. WFB 4500 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4160. WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 4600. WFB 4690 Aquatic Insects 3 (1) Field-intensive introduction to the identification, habitats, and life history of common and aquatic insects. Laboratory study examines morphology and functional morphology of aquatic insects. Preq: WFB 4690.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 3000. WFB 4300 Wildlife Conservation Policy 3 (3) Covers the philosophical, sociological, and biological aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4400 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.

WFB 3500. WFB 4500 Urban Wildlife Management 3 (3) Focuses on social, scientific, and economic aspects of managing wildlife in the urban setting. Basic wildlife management techniques as applied to wildlife resources in the urban setting. Also includes management of non-game species. Preq: WFB 3000 and WFB 3500.

WFB 4160. WFB 4930 Selected Topics 1-4 (1) Students serve as research workers. Includes Honors sections. May be repeated for credit. Preq: Junior standing and consent of instructor.

WFB 4931 Selected Topics Laboratory 0 (1-4) Non-credit laboratory to accompany WFB 4930. Coreq: WFB 4930.
WS (ANTH) 4230* Women in the Developing World 3 (3) Comparative anthropological study of women and their status in developing countries around the world. A survey of women’s daily lives in a global context, emphasizing education, economics, and the environment. Case studies include microfinance, literacy, reproductive rights and practices, and the impact of religious fundamentalism on women. May also be offered as ANTH 4230. Preq: Sophomore standing.

WS (ENGL) 4360* Feminist Literary Criticism 3 (3) Introduces the seminal works of feminist literary theory and criticism. Outlines the development of modern literary criticism by studying feminist versions of the major critical methodologies. May also be offered as ENGL 4360. Preq: ENGL 3100.

WS 4590 Selected Topics in Women's Studies 1-3 (1-3) Topics change from semester to semester and are announced prior to registration. May be repeated for a maximum of six credits, but only if different topics are covered.

WS 4900 Creative Inquiry 1-3 (1-3) Small group work on particular issues with emphasis on involving students in research. Content varies. May be repeated for a maximum of six credits. Preq: Consent of instructor.

WS 4950 Independent Study 1-3 (1-3) Course of study designed by the student in consultation with a faculty member who agrees to provide guidance, discussion, and evaluation of the project. Student must confer with faculty member prior to registration. May be repeated for a maximum of six credits. Preq: Consent of instructor.

YOUTH DEVELOPMENT PROGRAM

YDP 3000 Youth Development in Society 3 (3) The course provides an overview of youth development in society. It examines social change and its impact on youth development, the historical development of youth programs, programs and plans designed to be responsive to youth issues, and supports to assist youth in becoming healthy, productive, and engaged citizens. Preq: Youth Development Studies major.

YDP 3050 Theory and Philosophy of Youth Development Work 3 (3) This course examines the philosophical, conceptual, and theoretical frameworks of positive youth development from the perspective of real-world application within developmental systems. Students explore both the distinctiveness and complementarity between problem-focused and youth development approaches to youth work, and work on building a common language for the field. Preq: Youth Development Studies major.

YDP 3100 Youth Development and the Family 3 (3) This course focuses on youth in the context of family development and interpersonal family dynamics. Students gain knowledge and skills to strengthen families and foster youth well being. Students also gain the skills to develop effective programs involving the family unit and the ability to conceptualize youth development from a systemic perspective. Preq: Youth Development Studies major.

YDP 3150 Community and Youth Development Systems 3 (3) This course focuses on organizations and systems that offer opportunities for youth to reach their potential and develop competencies and assets. These approaches include studying educational systems that foster success, community organizations that engage youth in becoming leaders and contributing members, and environments that are conducive to youth well being. Preq: Youth Development Studies major.

YDP 3200 Youth Development in Sport and Physical Activities 3 (3) This course examines the role of community-based sports in developing healthy youth, specifically the ways in which sport programs can be designed to maximize physical, intellectual, emotional, and social outcomes. Focus is on the role of key adults and institutions in the delivery of youth sport experiences. Preq: Youth Development Studies major.

YDP 3250 Working with Diverse Youth 3 (3) This course focuses on diversity in youth-oriented programs and settings, and provides an understanding of how race, ethnicity, gender, religion, disability, and social class affect youth development work. An emphasis is placed on building a working knowledge of cultural awareness and sensitivity as applied to the design of youth activities. Preq: Youth Development Studies major.

YDP 3300 Designing Effective Youth Programs 3 (3) This course introduces students to a variety of approaches to youth development programming. The main focus is on intentions or purposeful program planning designed to achieve targeted youth outcomes. A key class, students design a youth development program that is delivered as a component of YDP 3400. Preq: Youth Development Studies major.

YDP 3350 Youth Activity Facilitation and Leadership 3 (3) This course provides a foundation for effective activity leadership to meet the needs of diverse youth populations. The course focuses on applying experiential learning approaches; different activity types; choosing activities based on intentionality, specificity, and applicability; activity sequencing; building individual and group efficacy; and activity debriefing and processing. Preq: Youth Development Studies major.

YDP 3400 Delivering Effective Youth Programs 3 (3) This course provides students with the knowledge and tools to deliver and present effective and intentional youth development programs. The course builds on the content of YDP 3300, and focuses on key programming issues, such as animation plans, equipment and facilities, program flexibility, risk management, and format and summative assessment. Preq: Youth Development Studies major.

YDP 3450 Creative Activities for Youth 3 (3) This course examines the use of various creative activities in youth programs. Students explore the cognitive strengths of various creative activities, how to integrate creativity into youth programs, the importance of creative activities in community identity, and the availability of community resources. Preq: Youth Development Studies major.

YDP 3500 Community Development and Assessment 3 (3) Youth development has generated best practice programs as a consequence of evidence-based assessment and evaluation. This course familiarizes students with current best practice programs. Evaluation design concepts and strategies provide a knowledge base that prepares students with the skills to employ in evaluations of youth development programs. Preq: Youth Development Studies major.

YDP 4450 Administration of Youth Development Organizations 3 (3) This course examines approaches and strategies for the successful administration of youth organizations. Students explore organizational missions, structures, personnel management, legal issues, promotion, financial management, assessment, and strategic planning within the context of public, not-for-profit, and private youth-serving agencies and organizations. Preq: Youth Development Studies major.

YDP 4500 Professional Issues and Ethics in Youth Development 3 (3) This course provides an intensive study and culminating discussion of contemporary problems, techniques, and ethical issues in youth development. In addition, students are introduced to the process of developing original research questions in the youth development field. Preq: Youth Development Studies major.

YDP 4550 Youth and Technology 3 (3) This course examines the uses of technology by youth. Students explore the current uses of technology by different types of youth, the ethical issues related to youth and technology, and socio-cultural changes resulting from the use of technology by youth. Preq: Youth Development Studies major.

YDP 4900 Youth Development Fieldwork 3 (2) This course provides practical experience linking students to new hands-on learning opportunities in youth serving agencies/organizations. Students are required to complete a minimum of 60 hours of experiential learning in a supervised youth services setting. Students develop a professional portfolio and special project as part of this experience. Preq: Youth Development Studies major.

YDP 4991 Youth Development Fieldwork Laboratory 0 (4) Non-credit laboratory to accompany YDP 4990. Coreq: YDP 4990.
Faculty 2015-2016 Undergraduate Announcements
Ivanco, Andrej, Research Assistant Professor, Automotive Engineering, MS, 2006, PhD, 2009, Czech Technical University in Prague, Czech Republic; PhD, University of Orleans (France), 2009
Jachowski, David S., Assistant Professor, Forestry & Environmental Conservation, BS, University of Montana-Missoula College of Technology, 1999; MS, 2007, PhD, 2012, University of Missouri-Columbia
Jackson, Debra B., Assistant to the President/Associate Provost for Institutional Effectiveness & Assessment, Assessment; Professor, Public Health Sciences. BSN, Medical University of South Carolina, 1971; MEd, University of South Carolina, 1975; PhD, Georgia State University, 1983
Jacobs, John J., Lecturer, Graphic Communications. BS, 1991, MS, 2010, Clemson University
Jacobsohn, Lute G., Assistant Professor, School of Materials Science & Engineering. BS, 1992, MS, 1994, University of Tennessee; MS, 1993, PhD, 1999, Petroleum Catholic University of Rio de Janeiro (Brazil)
Jahn, Judson R., Senior Lecturer, School of Accountancy & Finance. BS, Limestone College, 1991; MBA, Clemson University, 1998; JD, Mercer University, 1994; LLM, University of Alabama, 2012
Jalimiyi, Andrew G., Adjunct Assistant Professor, Bioengineering, BSc, 1996, PhD, 2002, University of Calgary (Canada)
James, Joseph B., Adjunct Assistant Professor, Agricultural & Environmental Sciences. BS, Wofford College, 1968; MS, Wake Forest University, 1972; PhD, University of North Carolina, 1979
James, Kevin L., Professor, Mathematical Sciences. BS, 1991, PhD, 1997, University of Georgia
Jamil, Faiza M., Assistant Professor, Education & Human Development; BA, Bryn Mawr College, 1999; MED, College of New Jersey, 2005; PhD, University of Virginia
Jawarakas, Anand, Associate Professor, Agricultural & Environmental Sciences, BE, Bangalore University (India), 1997, PhD, 2002, 2006, Ohio State University
Jeffers, Steven N., Professor, Agricultural & Environmental Sciences. BS, University of California-Davis; MS, 1980, PhD, 1985, Cornell University
Jeffries, James B., Senior Lecturer, Mathematical Sciences. BA, University of Colorado, 1989; ME, University of California-Santa Barbara, 2008
Jenkins, Eleni V., Associate Professor, Mathematical Sciences. BS, Wofford College, 1986; MS, Clemson University, 1990; PhD, North Carolina State University, 2000
Ji, Ye, Adjunct Professor, Bioengineering. BS, University of Illinois, 1992; MS, 1994, University of Illinois, 1992
Jerzmanowski, Michal M., Associate Professor, Economics, MA, University of Warsaw (Poland), 2001; MPhil, 2002; PhD, 2003, Brown University
Jennings, Elliot D., Assistant Professor, Food, Nutrition, & Packaging Sciences. BS, Wofford College, 1988; MS, Clemson University, 1990; PhD, North Carolina State University, 2000
Johnson, Jason P., Adjunct Instructor, Agricultural & Environmental Sciences. BS, 1998, MS, 1996, Clemson University
Johnson, Alan R., Assistant Professor, Forestry & Environmental Conservation, BS, Colorado State University, 1980; PhD, University of Tennessee, 1988
Johnson, Cassandra Y., Adjunct Assistant Professor, Forestry & Environmental Conservation. BBA, 1987, MA, 1995, PhD, 2001, University of Georgia
Johnson, Charles C., Lecturer, Visiting Lecturer, Mathematics. BS, 2005, MS, 2007, West Virginia University; PhD, Clemson University, 2014
Johnson, Christa C., Lecturer, Mathematical Sciences. BS, Western Carolina University, 2008; MS, Clemson University, 2012
Johnson, Eric G., endowed Chair, Electrical & Computer Engineering. BS, Purdue University, 1985; MS, University of Central Florida, 1989; PhD, University of Alabama, 1996
Johnson, Johanna E., Lecturer, Animal & Veterinary Sciences. BS, Michigan State University, 2004; MS, 2007, PhD, 2011, Pennsylvania State University
Johnson, Kendra L., Associate Professor, Performing Arts. BA, James Madison University, 1987; MFA, University of Tennessee
Johnson, Terri A., Senior Lecturer, Mathematical Sciences. BS, Ball State University, 1974; MS, University of South Carolina, 1982; PhD, Clemson University
Johnson, William H., Lecturer, School of Accountancy & Finance. BBA, 1969, MBA, 1972, Emory University
Jones, Carol D., Senior Lecturer, Graphic Communications. BS, 1988, MHRD, 1996, Clemson University
Jones, James H., Lecturer, School of Computing. BS, Clemson University
Jones, Jeryl C., Professor, Animal & Veterinary Sciences. BS, Clemson University, 1979; DVM, University of Georgia, 1982; PhD, Auburn University, 1994
Jones, Karyn O., Department Head and Associate Professor, Communication Studies. BS, Georgia Southern University, 1992; MA, 1994, PhD, 2003, University of Georgia
Jones, Michael A., Associate Professor, Agricultural & Environmental Sciences. BS, 1989, MS, 1991, PhD, 1994, North Carolina State University
Jones, Robert H., Sr Vice President, Provost & Vice President for Academic Affairs. BS, 1979, MS, 1981, Clemson University; PhD, State University of New York at College of Environmental Science and Forestry, 1986
Jones, Roy I., Associate Professor, Call Me Mister Program; Associate Professor, Educational & Organizational Leadership Development. BS, University of Massachusetts-Amherst, 1972; MA, Adrian College, 1976; PhD, University of Georgia, 1981
Jones, William M., Jr, Adjunct Assistant Professor, Electrical & Computer Engineering. BS, 1999, MS, 2002, PhD, 2005, Clemson University
Jorgensen, Jo Anne, Senior Lecturer, Psychology. BS, Baylor University, 1979; MFA, Southern Methodist University, 1988; PhD, Clemson University, 2006
Joseph, Anjali, Assistant Professor of Architecture. BArch, School of Planning and Architecture-Delhi (India), 2015; MArch, Kansas State University, 2001; PhD, Georgia Institute of Technology, 2006
Joseph, Paul F., Professor, Mechanical Engineering. BA, Franklin and Marshall College, 1979; MS, 1982, PhD, 1987, Lehigh University
Juang, Changhwein, Professor, Civil Engineering. BS, 1974, MS, 1976, National Cheng Kung University (Taiwan); PhD, Purdue University, 1981, MS, National Cheng Kung University, 1982

Shanley, Ellen, Adjunct Assistant Professor, Bioengineering. BS, 1992, MS, 1996, Tulane University, 1996, MS, Kansas State University, 1997.

Sharp, Benjamin E, Visiting Lecturer, Mathematical Sciences. BS, University of Missouri, 1999, MS, Montana State University-Bozeman, 2007; PhD, Clemson University, 2013

Sharp, Julia L, Adjunct Assistant Professor, Mathematical Sciences. BS, University of Evansville, 1998; MS, 2001, PhD, 2007, Montana State University-Bozeman.

Sheffield, Kathryn M, Assistant Librarian, University Libraries. BS, 2006, MS, 2008, Clemson University; MLS, University of Maryland, 2009.

Shelnut, Gregory W, Department Head and Professor, Art, BFA, East Carolina University, 1985; MFA, University of Georgia, 1998.

Shen, Hai Y, Associate Professor, Electrical & Computer Engineering. BS, Tongji University (China), 2000, MS, 2002, PhD, 2006, Wayne State University.

Sherrill, Windsor W, Associate Vice President for Health Research, Professor, Public Health, Wake Forest University, 1987; MHA, MBA, University of Alabama-Birmingham, 1989; PhD, Brandeis University, 1999.

Shi, Lu, Assistant Professor, Public Health, BA, Peking University (China); MPhil, 2005, PhD, 2008, Beijing Graduate School of Policy Studies.

Shick, Laura J, Lecturer, Mathematical Sciences. BS, MS, 1981, University of Delaware.

Shirvash, B, Adjunct Professor, Biological Sciences. BS, 1991, PhD, 1995, University of Minnesota.

Siano, Nkemere S, Assistant Professor, Institute on Family & Neighborhood Life, BS, MPhil, 2005, PhD, 2009, University of Georgia, 2003.

Simmons, E, Senior Lecturer, Bioengineering. BS, 1989, MS, 1994, University of Georgia.

Simons, D, Adjunct Professor, Bioengineering. BS, 1981, PhD, 1990, University of California, 1996.

Simons, M, Adjunct Professor, Agricultural & Environmental Sciences. BS, East Carolina University, 1980; MS, 1983, PhD, 1987, University of Kentucky.

Simmons, Donna M, Adjunct Professor, Mathematical Sciences. BS, 1990, MS, 1993, Clemson University.

Simpson, Roger K., Senior Lecturer, Languages. BS, 1976, MEd, 1977, Clemson University.

Sims, Cynthia M, Associate Professor, Educational & Organizational Leadership Development. BS, Lake Forest College, 1977; MEd, Harvard University, 1978; PhD, University of Maryland-Eastern Shore.

Sinclair, Robert R., Professor, Psychology. BA, University of Maine-Fort Kent, 1990; MA, 1992, PhD, 1995, Wayne State University.

Singapolu, Ravikiran B, Research Assistant Professor, Institute on Biological Interfaces of Engineering. BTech, Jawaharlal Nehru Technological University (India), 2004; MS, 2007, PhD, 2012, Clemson University.

Singh, Rajendra, D. Houper Banks Professor, Electrical & Computer Engineering. BS, Agra University (India), 1965; MS, Charuari Charan Singh University (India), 1968; MS, Dalhousie University (Canada), 1974; PhD, McMaster University (Canada), 1979.

Sinnell, Nicole B, Assistant Professor, Teaching & Learning. BS, College of Charleston, 1999, MS, Clemson University, 2001, PhD, University of Washington, 2005.

Sitaraman, Murali, Professor, School of Computing, RE, University of Madras (India), 1983; ME, Indian Institute of Science (India), 1984; PhD, Ohio State University, 1990.

Skewes, Peter, Professor, Animal & Veterinary Sciences. BS, University of New Haven, 1979; MS, University of Florida, 1982; PhD, Virginia Tech, 1985.

Skinner, Steven A, Adjunct Professor, Biological Sciences. BS, Wofford College, 1975; MD, Medical University of South Carolina, 1979

Skropta-Bates, Agnieszka, Associate Professor, English. BA, Macalester College, 1984; MA, 1986; PhD, 1990, State University of New York/Albany.

Skagit, William T, Adjunct Professor, Agricultural & Environmental Sciences. BS, 1988, MS, 1990, Northeast Louisiana University; PhD, University of Southern Mississippi, 1996.

Small, Timothy R, Adjunct Lecturer, Civil Engineering. BS, Pennsylvania State University, 1990; MS, Georgia Institute of Technology, 1994

Snell, Mark A, Professor, Institute on Family & Neighborhood Life. BA, MA, 1985, University of Nevada-Las Vegas; JD, 1989, PhD, 1990, University of Nebraska

Smiley, E, Thomas, Adjunct Professor, Agricultural & Environmental Sciences. BS, University of Wisconsin, 1971; MS, Colorado State University, 1979; PhD, Michigan State University, 1985.

Smith, Christa A, Associate Professor, History. BA, 1987, MA, 1990, Marshall University; PhD, University of Tennessee, 2002.

Smith, Cynthia M, Lecturer, Bioengineering. BS, Clemson University, 1996; MS, Virginia Tech, 1998; PhD, University of Arizona, 2005.

Smith, Dane E, Adjunct Faculty, Institute on Biological Interfaces of Engineering, MD, Louisiana State University Health Sciences Center-Shreveport.

Smith, Daniel J, Adjunct Professor, Languages. BA, Bob Jones University, 1979; MEd, University of Georgia, 1985; PhD, University of Texas, 2002.

Smith, Dennis W, Jr, Adjunct Professor, Chemistry. BS, 1988, PhD, 1992, University of Florida.

Smith, Douglas P, Adjunct Associate Professor, Food, Nutrition, & Packaging Sciences. BA, 1984, BS, 1987, PhD, 1991, University of Georgia

Smith, Gordon L, Adjunct Associate Professor, Food, Nutrition, & Packaging Sciences. BS, University of Tennessee, 1994; MS, 1998, PhD, 1999, Texas A&M University.

Smith, James A, Adjunct Professor, Construction Science & Management. BS, 2003, MS, 2010, Brigham Young University;

Smith, John D, Adjunct Professor, Automotive Engineering. BS, Clemson University, 2002; MSc, 2005, PhD, 2009, Queens University (Canada).

Smith, Jonathan C, Department Head and Professor, Industrial Engineering. BS, Clemson University, 1996; PhD, Virginia Tech, 2000.

Smith, Kelly C, Adjunct Professor, Philosophy & Religion. BA, George State University, 1986; MS, 1991, PhD, 1994, University of South Carolina.

Smith, Kelly J, Lecturer, School of Naming. BS, 1992, MS, 2000, Clemson University.

Smith, Kerry S, Adjunct Professor, Genetics & Biochemistry. BS, George Institute of Technology, 1986; PhD, University of Pennsylvania, 1993.
Wang, Gaofeng G
Wang, Kuang-Ching
Wang, Yongqiang
Wang, Liang Jiang
Wong, Po-Keung, Adjunct Professor, Forestry & Environmental Conservation, B.S.C., 1977, M.Phil., 1979, Chinese University of Hong Kong (China); PhD, University of California-Davis, 1993
Wood, Daniel H., Assistant Professor, Economics. BA, Swarthmore College, 2000, PhD, Harvard University, 2008
Woodard, James D., Strom Thurnulf Chair of Government and Professor, Political Science. BS, Albion Christian University, 1970; MA, American University, 1973; PhD, Vanderbilt University, 1978
Woodward-Dietrich, Denise C., Director, Rafael E. Lee Gallery, Senior Lecturer, AFT, Wichita State University, 1993; MFA, Alfred University, 1992
Woolbright, Nona L., Associate Professor, Photographic Communications. BA, California State University-Chico, 1983; MS, Central Missouri State University, 1986; EdD, Clemson University, 1995
Woodruff, Megan, E., Lecturer, English. BA, 2002, MA, 2005, Southern Illinois University; PhD, University of Missouri-Columbia, 2013
Wrangle, Anderson, Associate Professor, Art, BA, University of the South, 1992; MFA, University of Houston, 2003
Wright, Brett A., Interim Dean, College of Health, Education, & Human Development; Professor, Parks, Trauma &Recruitment Management. BA, 1975, MA, 1976, Morehead State University; PhD, Texas A&M University, 1985
Wright, Christopher C., Adjunct Associate Professor, Bioengineering. BA, 1982, MD, 1987, Rangers University.
Wright, Julia S., Lecturer, Educational & Organizational Leadership Development. BA, 1975, MA, 1979, Morehouse State University
Wu, Yi, Assistant Professor, Anthropology, BA, Beijing University (China), 1989; MA, State University of New York-Binghamton, 1996; MPhil, 2001, PhD, 2010, Columbia University
Wueste, Daniel E., Director, Institute in China Studies; Professor, Philosophy and Religion. BA, 1976, MA, 1979, University of Wisconsin-Madison, 1986
Wuvt, Douglas E., Adjunct Associate Professor, Environmental Engineering & Earth Sciences, BA, University of Tennessee, 1980; MS, Vanderbilt University, 1983; PhD, University of Colorado Boulder, 1988
Wyfelds, Jennifer, Adjunct Professor, Animal & Veterinary Sciences. BA, Bradley University, 1991; PhD, Western Illinois University, 2011
Xiao, Fei, Named Professor, Mechanical & Electrical Engineering. BS, 1993, MS, 1993, Tianjin University (China); PhD, University of Missouri, 1997
Xu, Wanqian, Assistant Professor, School of Accountancy & Finance. Tianjin University (China), 1999; MS, 1998, PhD, 2002, Columbia University
Yao, Hai, Associate Professor, Bioengineering. BS, 1991, 1996, Xi'an Jiaotong University (China); PhD, University of Miami, 2004
Yarow, Greg K., Department Head and Professor, Forestry & Environmental Conservation, BS, University of Southern Mississippi, 1977; MS, Mississippi State University, 1979; DF, Stephen F. Austin State University, 1987
Yeung, K. F., Assistant Professor, Biochemistry, B.Sc., University of Hong Kong (China), 1987; PhD, University of British Columbia, 1991
Zehnter, Geoffrey W., Coordinator, Integrated Pest Management & Sustainable Agriculture, BS, Agricultural & Environmental Sciences. BS, University of California-Davis, 1976; MS, 1980, PhD, 1984, University of California-Riverside
Zheng, Yi, Associate Professor, Bioengineering. BS, 1984, MS, 1987, Tongji University (China); PhD, Clemson University, 1994
Zhang, Lingling, Associate Professor, Bioengineering. BS, 1995, MS, 1997, PhD, 2001, China University of Science and Technology (Korea), 2000; MPA, Kansas State University, 2003; MS, Carnegie Mellon University, 2004; DS, Harvard University, 2011
Zhang, Yanhua, Associate Professor, Languages. BA, Beijing Normal University (China), 1983; MA, Chinese Academy of Social Sciences (China); PhD, 1992, 1999, University of Hawaii
Zhao, Huijuan, Assistant Professor, Mechanical Engineering. BS, 2000, MS, 2002, Tsinghua University (China); PhD, University of Illinois, 2010
Zhao, Xin, Assistant Professor, Mechanical Engineering. BS, 2006, MS, 2008, Tsinghua University (China); PhD, Purdue University, 2014
Zheltovvseva, Tessa N., Research Associate Professor, CU Genomics Institute. BS, 1977, MS, 1977, PhD, 2013, Leningrad State University (Russia)
Zheng, Yi, Associate Professor, Environmental Engineering & Earth Sciences. BE, Fuzhou University (China), 2000; ME, Beijing University of Chemical Technology (China); PhD, 2003; PhD, University of California-Davis, 2007
Zhu, Lin, Warren H. Owen Associate Professor, Electrical & Computer Engineering. BS, 2000, MS, 2003, Tsinghua University (China); MS, 2004, PhD, 2008, California Institute of Technology
Zile, Michael R., Adjunct Professor, Bioengineering. BA, Knox College, 1974; MD, Rush University Medical School, 1977
Zimany, Valerie A., Assistant Professor, Art. BFA, University of the Arts, 1993; MFA, Kanazawa College of Art (Japan), 2002
FACULTY EMERITI

Abbott, Albert G., Ph.D., Professor Emeritus of Genetics and Biochemistry
Abney-Wilson, Linda Y., BS, County Extension Agent Emerita
Acker, Thomas Waring, BS, County Extension Agent Emeritus
Acorn, John Thomson, MFA, Chair and Professor Emeritus of Art
Acton, James C., Ph.D., Sterling Professor Emeritus of Food Science and Human Nutrition
Adams, Clementina, PhD, Professor Emeritus of Languages
Adams, Jesse, III, MAEd, Regional Director Emeritus
Aitken, James Bruce, PhD, Professor Emeritus of Horticulture
Alam, Khursheed, PhD, Professor Emeritus of Mathematical Sciences
Alberty, Harold Edward, PhD, Professor Emeritus of Political Science
Albrecht, John E., PhD, Professor Emeritus of Animal and Veterinary Science
Allen, Joe Frank, PhD, Professor Emeritus of Chemistry
Allen, William H., PhD, Professor Emeritus of Biosystems Engineering
Alston, Rowland Poole, Jr., MS, County Extension Agent Emeritus
Alwerson, David Roy, PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Anand, Subhash C., PhD, Professor Emeritus of Civil Engineering
Anand, Vera Barata, MS, Professor Emeritus of Engineering
Anderson, Luther Perdue, PhD, Dean Emeritus, College of Agricultural Sciences; Professor Emeritus of Agronomy and Soils
Armistead, Myra Ann, MA, Librarian Emerita
Arnold, Edwin Pratte, MA, Professor Emeritus of German
Ashley, Kathy Littlefield, MS, County Extension Agent Emerita
Aspland, J. Richard, PhD, Professor Emeritus of Materials Science and Engineering
Baird, Betty Evans, MS, County Extension Agent Emeritus
Baird, William V., PhD, Alumni Distinguished Professor and Professor Emeritus of Horticulture
Ballard, Robert E., PhD, Professor Emeritus of Biological Sciences
Barfield, Rayford E., PhD, Professor Emeritus of English
Barkey, David L., PhD, Professor Emeritus of Applied Economics and Statistics
Barlage, William Berdell, Jr., PhD, Associate Dean Emeritus, College of Engineering; Professor Emeritus of Chemical Engineering
Barnes, Peter A., PhD, Professor Emeritus of Physics and Astronomy
Barnett, Bobby Dale, PhD, Professor Emeritus of Poultry Science
Baron, William, PhD, Professor Emeritus of Civil Engineering
Barron, Charles Henson, DSc, Professor Emeritus of Chemical Engineering
Barth, Clyde Lewis, PhD, Professor Emeritus of Agricultural and Biological Engineering
Bass, Samuel David, County Extension Agent Emeritus
Bauer, Larry L., PhD, Professor Emeritus of Applied Economics
Bauld, Nelson Robert, Jr., PhD, Professor Emeritus of Mechanical Engineering and Engineering Mechanics
Baxa, Ernest Granville, Jr., PhD, Professor Emeritus of Electrical and Computer Engineering
Beard, John Nelson, Jr., PhD, Professor Emeritus of Chemical Engineering
Beck, Mary McLean, PhD, Professor Emeritus of the School of Agricultural, Forest, and Environmental Sciences
Becker, Robert H., PhD, Professor Emeritus of Parks, Recreation, and Tourism Management
Beckham Jr, Lewis R., BS, County Extension Agent Emeritus
Beckwith, William Frederick, PhD, Professor Emeritus of Chemical Engineering
Bednar, John C., PhD, Professor Emeritus of Languages
Behr, Hassan Mohamed, PhD, Professor Emeritus of Textiles
Bell, Lunford C., PhD, Professor Emeritus of Civil Engineering
Bennett, Archie Wayne, PhD, Senior Vice Provost and Dean Emeritus of Graduate School; Professor Emeritus of Electrical and Computer Engineering
Bennett, John Everett, PhD, Professor Emeritus of Electrical and Computer Engineering
Berger, Leonard, PhD, Professor Emeritus of Psychology
Beyerlein, Adolph Louis, PhD, Chair and Professor Emeritus of Chemistry
Biga, Thomas Michael, MS, County Extension Agent Emeritus
Bishop, Carl Barnes, PhD, Professor Emeritus of Chemistry
Bishop, Eugene Harlan, PhD, Alumni Professor Emeritus of Mechanical Engineering
Bishop, Mariel Bonita, PhD, Professor Emerita of Chemistry
Black, John Olar, MS, Professor Emeritus of Agronomy and Soils
Black, Jonathan, PhD, Professor Emeritus of Bioengineering
Blackston, William Edward, BS, County Extension Agent Emeritus
Blair, Dudley W., PhD, Director of MBA Program; Professor Emeritus of Economics
Bodine, Ashley B., PhD, Professor Emeritus of Animal and Veterinary Science
Book, Norman Loyd, PhD, Professor Emeritus of Construction Science and Management
Bookmeyer, Beverly Brandon, PhD, Professor Emeritus of Physics and Astronomy
Boone, James Edward, BS, County Extension Agent Emeritus
Bodell, Francis Alvin, MEd, Professor Emeritus of Industrial Education
Boe, Anil Kumar, PhD, Professor Emeritus of Mathematical Sciences
Boswell, John Smith, Jr., County Extension Agent Emeritus
Bozeman, William P., PhD, Professor Emeritus of Wildlife Ecology and Environmental Toxicology
Box, Benton McElmurray, DB, Professor Emeritus of College of Forest and Recreation Resources; Professor Emeritus of Forest Resources Education
Johnson, Joseph F., Jr., MA, Dean of Libraries and Librarian Emeritus
Bradford, Barnett Lowell, PhD, Professor Emeritus of Agrical- tural and Applied Economics
Bragg, David W., PhD, Professor Emeritus of Horticulture
Brown, Herbert T., PhD, Head and Professor Emeritus of Parks, Recreation, and Tourism Management
Brown, Joel B., PhD, Alumni Distinguished Professor Emeritus of Mathematical Sciences
Briscoe, Ida Carolyn, EdD, Professor Emerita of Curriculum and Instruction
Brittain, Jere Alonzo, PhD, Professor Emeritus of Horticulture and Integrated Pest Management
Brock, Julia Ashley, County Extension Director Emerita
Brooks, Afton Dewayne, EdD, Professor Emeritus of Curriculum and Instruction
Brown, Bennie Mae Porter, MEd, County Extension Agent Emerita
Brown, Carolyn Scruvy, PhD, Professor Emerita of Biochemistry
Brown, Farrell Blenn, PhD, Interim Dean Emeritus of Graduate School; Professor Emeritus of Chemistry
Brown, Russell H., PhD, Professor Emeritus of Civil Engineering
Brown, Thomas M., PhD, Professor Emeritus of Entomology
Brown, William Glynis, Jr., PhD, Professor Emeritus of Animal, Dairy, and Veterinary Sciences
Bruner, David E., PhD, Professor Emeritus of Agricultural and Biological Engineering
Bryan, Edward Lewis, DBA, Professor Emeritus of Accounting
Bryan, Jones Woodrow, DVM, Director of Livestock Poultry Health Emeritus
Bryant, Hallman Bell, PhD, Professor Emeritus of English
Buckner, Sam Levi, EdD, Professor Emeritus of Curriculum and Instruction
Burch, Elmer Earl, Jr., PhD, Professor Emeritus of Business Administration and Mathematical Sciences
Burg, Karen J.L., PhD, Hunter Endowed Chair and Professor Emerita of Bioengineering
Burkett, Byron Vernon, Jr., PhD, Professor Emeritus of Technology and Human Resource Development
Burnett, G. Wesley, PhD, Professor Emeritus of Parks, Recreation, and Tourism Management
Bussey, Marie Martin, County Extension Agent Emerita
Butler, Chalmers M., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Butler, John Harrison, EdD, Head and Professor Emeritus of Music
Butler, John Kenrick, Jr., DBA, Professor Emeritus of Management
Byars, Edward Ford, PhD, Executive Assistant Emeritus to the President; Professor Emeritus of Mechanical Engineering and Engineering Mechanics
Cabana, Jose, Masters, Professor Emeritus of Architecture
Caldwell, Judith, PhD, Professor Emerita of Horticulture
Caley, Paul Cochran, PhD, Professor Emeritus of Industrial Education
Calvez, Daniel J., PhD, Professor Emeritus of Languages
Campbell, Alice Young, MS, County Extension Agent Emerita
Card, Edith Bryson, PhD, Professor Emeritus of Music
Carr, Gerald R., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Caster, Earl Thomas, EdD, Head and Professor Emeritus of Agricultural Education
Carroll, Jane Langley, BS, District Extension Director Emerita
Carder, George E., Jr., PhD, Associate Dean of Undergraduate Academic Services and Professor Emeritus of Plant Pathology and Physiology
Caskaer, Claire Omar, MA, Professor Emeritus of English
Castro, Walter Ernest, PhD, Professor Emeritus of Mechanical Engineering and Engineering Mechanics
Ceballos, Joseph Eugene, MS, County Extension Agent Emeritus
Chamberlain, Frances F., Masters, Professor Emeritus of Planning, Development, Preservation and Landscape Architecture
Chapin, Jay, PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Chapman, Stephen R., PhD, Professor Emeritus of Agronomy and Soils
Charney, Mark, Ph.D., Professor Emeritus of Performing Arts
Cheatham, Samuel Augustus, MA, County Extension Agent Emeritus
Chihasi, III, Charles P., MS, County Extension Agent Emeritus
Chisman, James Allen, PhD, Professor Emeritus of Industrial Engineering
Cholewinski, Frank Michael, PhD, Professor Emeritus of Mathematical Sciences
Christenburg, Gerald Davis, PhD, Professor Emeritus of Agricultural and Biological Engineering
Christenburg, Joyce Hovell, MEd, Professor Emeritus of Family and Youth Development
Christopher, Laverne McKay, MA, Professor Emeritus of English
Church, Ernest Y., MS, County Extension Agent Emeritus
Clair, Alison L., PhD, Professor Emeritus of Accounting
Clark, James Edwin, PhD, Professor Emeritus of Civil Engineering
Clark, Lawrence S., MA, Professor Emeritus of Accountancy
Clare, Richard L., PhD, Professor Emeritus of Management
Clements, Stanley Gordon, Jr., Distinguished Area County Agent Emeritus
Colacino, James M., PhD, Associate Professor Emeritus of Agricultural Economics and Statistics
Collburn, Frances Louise, MLS, Librarian Emerita
Cole, Christine W., PhD, Professor Emeritus of Material Science and Engineering
Cole, Spurgeon Northen, PhD, Professor Emeritus of Psychology
Colllier, John A., PhD, Professor Emeritus of Agricultural and Biological Engineering
Collins, Donald Lynn, MS, Professor Emeritus of Planning and Landscape Architecture
Collins, Joyce Smith, County Extension Agent Emerita
Collins, Thomas Frank, MS, Professor Emeritus of Physics and Astronomy
Connors-Greene, Patricia A., PhD, Alumni Professor Emerita of Psychology
2015-2016 Undergraduate Announcements

Faculty
Lane, Samuel, County Extension Agent Emeritus
Laskar, Renu C., PhD, Professor Emeritus of Mathematical Sciences
Lathrop, Jay Wallace, PhD, Professor Emeritus of Computer Engineering
LaTorre, Jebel Gillam, MA, Professor Emeritus of Mathematics and Computer Sciences
Law, E. Harry, PhD, Professor Emeritus of Mechanical Engineering
Lawson, John W., PhD, Professor Emeritus of Biological Sciences
Layne, Desmond R., PhD, Professor Emeritus of Pathology
Lea, Terry L., PhD, Professor Emeritus of Management
Leathrum, James Frederick, PhD, Professor Emeritus of Electrical and Computer Engineering
LeBlanc, Janet B., PhD, Associate Professor Emerita of Art
Lee, Andy W., PhD, Professor Emeritus of Forestry
Lee, Burtrand L., PhD, Professor Emeritus of Materials Science and Engineering
Lee, Daniel Dixon, Jr., PhD, Professor Emeritus of Animal and Veterinary Sciences
Lee, Evelyn J., Professor Emerita of Nursing
Lee, Peter Roald, MArch, Alumni Distinguished Professor Emeritus of Architecture
Leigh, Herbert D., III, PhD, Professor Emeritus of Materials Science and Engineering
Leonard, Michael S., PhD, Professor Emeritus of Industrial Engineering
Leonard, William H., PhD, Professor Emeritus of Teacher Education
Leuschner, William Albert, PhD, Professor Emeritus of Forest Resources
Lew, William W., PhD, Emeritus Professor of Art
Lewis, Gordon, PhD, Professor Emeritus of Ceramic and Materials Engineering
Lewis, Stephen A., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Ligon, James Toddie, PhD, Professor Emeritus of Agricultural and Biological Engineering
Linthi, Dale Edward, PhD, Professor Emeritus of Agriculture and Bioengineering
Lippert, Robert M., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Locke, Ernest Lyle, County Extension Agent Emeritus
Logan, Barbara N., Professor Emerita of Nursing
Louderback, Joseph Girard, PhD, Professor Emeritus of Accounting
Lovedahl, Gerald Gray, PhD, Professor Emeritus of Technology and Human Resource Development
Loyd, Max Ira, PhD, Professor Emeritus of Agricultural and Applied Economics
Lukawecz, Stanley Michael, PhD, Professor Emeritus of Mathematical Sciences
Lumpkin, Oliver Reese, PhD, Professor Emeritus of Education
Lupo, Barbara H., MS, County Extension Agent Emeritus
Mac, Jacobo Berr, MAT, Professor Emeritus of French
Madison, Alan Wayne, PhD, Associate Professor Emeritus of School of Computing
Maloney, Michael T., PhD, Professor Emeritus of Economics
Manley, Donald G., PhD, Professor Emeritus of Entomology
Manson, Joseph R., PhD, Professor Emeritus of Physics and Astronomy
Marbut, Samuel Alexander, BS, Professor Emeritus of Forestry
Marinski, Allan, Professor Emeritus of Forestry and Natural Resources
Martin Jr, Joseph A., BS, County Extension Agent Emeritus
Martin, John Campbell, PhD, Professor Emeritus of Electrical and Computer Engineering
Martin, Mary Virginia, MA, Extension Associate Emeritus
Martini, Joseph Albert, PhD, Professor Emeritus of Agronomy and Soils
Mathews, Andrew Clark, PhD, Professor Emeritus of Botany
Mathis, Lee Terrell, Jr., Distinguished County Agent Emeritus
Matthews, James Edward, EdD, Dean Emeritus, College of Education; Professor Emeritus of Education
Matthewson, Charles, PhD, Chair and Professor Emeritus of Construction Science and Management
Maurer, Donald Edwin, EdD, Professor Emeritus of Industrial Education
Maurice, Dencil V., Ph.D., Professor Emeritus of Animal and Veterinary Sciences
Mazur, Anthony Robert, PhD, Professor Emeritus of Crop and Soil Environmental Science
McCollough, Joe Lawrence, PhD, Professor Emeritus of Philosophy
McConnell, James Calvin, Jr., PhD, Professor Emeritus of Animal and Veterinary Sciences
McCormack, Jack Clark, LLD, Alumni Professor Emeritus of Civil Engineering
McCormick, Robert M., PhD, Professor Emeritus of Economics
McCUTCHEON, GLORIA S., PhD, Professor Emerita of Entomology, Soils, and Plant Sciences
McDaniel, Martha Huggins, Area County Extension Agent Emerita
McDowell, Helen Camp, BA, County Extension Agent Emerita
McElreath, Robert B., PhD, Professor Emeritus of Finance
McGregor, Rob Roy, Jr., PhD, Professor Emeritus of French and Latin
McGuire, Francis A., PhD, Alumni Distinguished Professor Emeritus of Parks, Recreation, and Tourism Management
McKee, James McLeod, Jr., PhD, Professor Emeritus of Biomedical Sciences
McKale, Donald M., PhD, Class of 1941 Memorial and Professor Emeritus of History
McLaughlin, John Joseph, PhD, Professor Emeritus of English
McLean, Edward Lee, PhD, Professor Emeritus of Agricultural and Applied Economics
McLellan, Margaret K., PhD, Associate Professor Emerita of Parks, Recreation, and Tourism Management
McNatt, Jo Ann, PhD, Professor Emeritus of Forest Resources
McNulty, Peter J., PhD, Professor Emeritus of Physical and Astronomy
Melsheimer, Stephen S., PhD, Professor Emeritus of Chemical Engineering
Melton, Judith M., PhD, Associate Professor and Professor Emerita of Languages
Melton, Tony, BS, County Extension Agent Emeritus
Menke, Warren Wells, PhD, Professor Emeritus of Management
Miller, Anne Ellen, PhD, Professor Emeritus of Forest Resources
Miller, Donald Pippin, PhD, Professor Emeritus of Physics
Miller, James A., PhD, Associate Professor Emeritus of History
Miller, James Cleo, Jr., PhD, State Extension Leader Emeritus
Miller, Robert Walker, Jr., PhD, Professor Emeritus of Plant Pathology and Plant Physiology
Miller, Stephen H., Professor Emeritus of Applied Economics
Miller, Timothy Holliday, MS, Staff Development Specialist Emerita
Minton, Robert Floyd, MA, Professor Emeritus of Spanish
Mitch, Fred J., III, Distinguished Scientist and Professor Emeritus, Environmental Education and Earth Sciences
Montanucci, Richard R., PhD, Associate Professor Emeritus of Biological Sciences
Moran, Ronald Wesson, PhD, Associate Dean Emeritus, College of Architecture, Arts, and Humanities; Professor Emeritus of English
Morr, Charles Vernon, PhD, Stender Professor Emeritus of Food Science
Morris, Michael A., PhD, Professor Emeritus of Political Science
Morse, John C., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Moss, William F., PhD, Alumni Distinguished Professor Emeritus of Mathematical Sciences
Moyle, David D., PhD, Associate Professor Emeritus of Bioengineering and Physics
Mullins, Joseph Chester, PhD, Professor Emeritus of Chemical Engineering
Muson, Priscilla G., MLS, Librarian Emeritus
Murdock, Janice W., PhD, Professor Emeritus of Psychology and Vice Provost and Dean of Undergraduate Studies
Murrow, Elizabeth Jean, PhD, Professor Emeritus of Nursing
Nance, John William, BA, County Extension Agent Emeritus
Newton, Alfred Franklin, EdD, Head and Professor Emeritus of Industrial Education
Nicholas, David M., Jr., PhD, Kathryn and Calhoun Lemon Professor Emeritus of History
Nix, Larry Edward, PhD, Professor Emeritus of Forestry and Natural Resources
Noble, Gayle P., PhD, Professor Emeritus of Biological Sciences
Nocks, Barry C., PhD, Professor Emeritus of Planning, Development, and Preservation Landscape Architecture
Nowack, Robert E., LL.D, Alumni Professor Emeritus of Civil Engineering
Nunnery, Henry Grady, III, MA, County Extension Agent Emeritus
Nyanzori, James C. O., PhD, Professor Emeritus of Agricultural Economics
Odom, Stephen, Jr., MS, County Extension Director Emeritus
Ogle, Wayne Leroy, PhD, Professor Emeritus of Horticulture
Oglesby, Frances Madelyn, PhD, Professor Emerita of Nursing
Okafor, Chinwezul, Assistant Professor Emeritus, Public Health Sciences
Olson, Larry W., PhD, Associate Professor Emeritus of Animal and Veterinary Sciences
Owens, Emma M., PhD, Professor Emeritus of Curriculum and Instruction
Owens, Ramseth Richard, PhD, Professor Emeritus of History
Owens, Walton Harrison, Jr., PhD, Professor Emeritus of Political Science
Owings, Marvin Alpheus, PhD, Head and Professor Emeritus of English
Owings, Laval, MS, County Extension Agent Emeritus
Oxner, John W., MS, County Extension Agent Emeritus
Padgett, Adriam Lewis, MS, Professor Emeritus of Agricultural Economics and Rural Sociology, Provost and Research and Development Center
Padilla, Michael J., PhD, Professor Emeritus of Teacher Education
Page, Edward W., III, PhD, Professor Emeritus of Computer Science
Palmer, James Howell, PhD, Professor Emeritus of Agronomy and Soils
Pandue, Fred Eugene, PhD, Professor Emeritus of Animal, Dairy, and Veterinary Sciences
Pandue, John Cecile, Jr., BS, Area County Extension Agent Emeritus
Park, Lauretta Irene, PhD, Professor Emeritus of Psychology
Parker, David Andrew, MS, County Extension Agent Emeritus
Parks, Clyde Leonard, PhD, Professor Emeritus of Agronomy and Soils
Parks, Thomas Ilon, PhD, Professor Emeritus of Educational Leadership
Pate, Dow Henry, Jr., EdD, Professor Emeritus of Technology and Human Resource Development
Paul, Catherine E., PhD, Professor Emerita of English
Pearson, L. Wilson, PhD, Professor Emeritus of Electrical and Computer Engineering
Peck, John Charles, PhD, Professor Emeritus of Computer Science
Pennington, William Walter, EdD, Professor Emeritus of Education
Peppers, Larry G., PhD, Professor Emeritus of Sociology
Perry, Philip Rodney, MA, County Extension Agent Emeritus
Perritt, Alton Joseph, Jr., PhD, Professor Emeritus of Horticulture
Peters, Chris L., PhD, Associate Professor Emeritus of Teacher Education
Pinkerton, Bruce W., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Pipkin, Toni Scott, BS, Extension Associate Emerita
Pivorunas, Edward B., PhD, Professor Emeritus of Biological Sciences
Platts, Rebecca Gaines, BA, County Extension Director Emerita
Polk, George Merritt, Jr., MArch, Professor Emeritus of Architecture
Porter, Nancy M., PhD, Professor Emeritus of Family Outreach
Potts, Thomas D., PhD, Professor Emeritus of Parks, Recreation, and Tourism Management
Powell, Gary L., PhD, Professor Emeritus of Genetics and Biochemistry
Price, Dawn Louisia, BS, County Extension Agent Emerita
Privette, Charles Victor, Jr., MS, Professor Emeritus of Agricultural and Biological Engineering
Proctor, Thomas Gilmer, PhD, Professor Emeritus of Mathematical Sciences
Quisenberry, Virgil L., Ph.D., Professor Emeritus of Agronomy and Soils
Toler, Joe, PhD, Professor Emeritus of Applied Economics and Statistics
Trapnell, Jerry Eugene, PhD, Dean Emeritus, College of Business and Behavioral Science and Professor Emeritus of Accountancy
Trent, Buford Earl, MED, Professor Emeritus of Parks, Recreation, and Tourism Management
Turk, Donald Earl, PhD, Professor Emeritus of Food Science
Turner, Albert Joseph, Jr., PhD, Professor Emeritus of Computer Science
Turner, Raymond Clyde, PhD, Alumni Distinguished Professor Emeritus of Physics
Turnipseed, Samuel G., PhD, Professor Emeritus of Entomology, Soils, and Plant Sciences
Tyler, Thomasina Cooper, Distinguished County Agent Emerita
Ulbrich, Carlton Wilbur, PhD, Professor Emeritus of Physics
Ulbrich, Holley Hewitt, PhD, Alumni Professor Emeritus of Economics
Underwood, Richard Allan, PhD, Professor Emeritus of English
Van Dijk, Howard J., PhD, County Extension Agent Emeritus
Van Lear, David H., PhD, Robert A. Bowen Professor Emeritus of Forestry
Vaughn, Edward A., PhD, Professor Emeritus of Materials Science and Engineering
Vergano, Peter J., PhD, Professor Emeritus of Packaging Science
Vines, Dwight T., PhD, Associate Professor Emeritus of Animal and Veterinary Sciences
Wadde, Gerald Lee, PhD, Professor Emeritus of Marketing
Wagner, Donald Finch, PhD, Professor Emeritus of Horticulture
Wagner, John R., PhD, Professor Emeritus of Environmental Engineering and Earth Sciences

APPENDIX

ENGLISH FLUENCY

Clemson University has established a policy to assure that all instructional activities are conducted by individuals possessing appropriate proficiency in written and oral use of the English language. Instructional activities include lectures, recitation or discussion sessions, and laboratories. The individuals to be certified include full-time and part-time faculty, graduate teachers of record, graduate teaching assistants, and graduate laboratory assistants for whom English is not the first language.

A student who experiences difficulty with an instructor's written or oral English and who wishes to seek relief must do so prior to the seventh meeting of a 50-minute class and prior to the fifth meeting of a 90-minute class in regular semesters. In summer sessions, relief must be sought prior to the third class meeting.

The procedure is summarized as follows:

a. The student must quickly bring the problem to the attention of the instructor's department chair either directly or through a faculty member such as the student's advisor. That department chair will assess the complaint and, if deemed valid, offer an appropriate remedy within two days.

b. A student who is not satisfied with the department chair's decision or the relief suggested, may appeal within two days to a five-member hearing panel comprised of three faculty members and two students appointed by the Dean of Undergraduate Studies.

Students with questions should contact the Associate Dean of Undergraduate Studies, E-103 Martin Hall.

EQUAL OPPORTUNITY/ NON DISCRIMINATION/ AFFIRMATIVE ACTION

Clemson University is committed to a policy of equal opportunity for all persons and does not discriminate on the basis of race, color, religion, sex, sexual orientation, gender, pregnancy, national origin, age, disability, veteran's status, genetic information or protected activity (e.g., opposition to prohibited discrimination or participation in any complaint process, etc.) in employment, educational programs and activities, admissions and financial aid.

Clemson University conducts its programs and activities involving admission, access, treatment, employment, teaching, research, and public service in a nondiscriminatory manner as prescribed by Federal laws and regulations.

In conformance with University policy and pursuant to Executive Order 11246, as amended, Section 503 of the Rehabilitation Act of 1973, and Section 402 of the Vietnam Era Veterans Readjustment Act of 1974, and South Carolina Human Affairs Law, Clemson University is an Affirmative Action/Equal Opportunity Employer.

Inquiries concerning the above may be addressed to the following:

Director, Office for Access and Equity and Title IX Coordinator
110 Holtzendorff Hall
Clemson University
Clemson, SC 29634

Director, Office for Civil Rights
Department of Education
Washington, DC 20201

U.S. Equal Employment Opportunity Commission
Washington, DC 20507

FAMILY PRIVACY PROTECTION ACT

The South Carolina Family Privacy Protection Act (SC Code 30-2-10 et.seq) defines personal information as "...information that identifies or describes an individual including, but not limited to, an individual's photograph or digitized image, social security number, date of birth, driver's identification number, name, home address, home telephone number, medical or disability information, education level, financial status, bank account(s) number(s), account or identification number issued by and/or used by any federal or state governmental agency or private financial institution, employment history, height, weight, sex, other physical details, signature, biometric identifiers, and any credit records or reports."

Some of the information in documents which students provide to Clemson University may be personal information as defined above. Pursuant to Section 30-2-40 B, students are advised that this information may be subject to public scrutiny or release. They are also advised that personally-identifiable information contained in these educational records falls under the federal Family Educational Rights and Privacy Act of 1974, as amended (FERPA). If students elect to opt out of the release of directory information under FERPA, the University will not release any personal information except as otherwise required or authorized by law.

Visit http://www.clemson.edu/privacypolicy.html for additional information.

HARASSMENT

In general, harassment is unwelcome verbal or physical conduct, based upon race, color, religion, sex, sexual orientation, gender, pregnancy, national origin, age, disability, status as a military veteran, genetic information or protected activity (e.g., opposition to prohibited discrimination or participation in the statutory complaint process), that unreasonably interferes with the person's work or educational performance or creates an intimidating or hostile work or educational environment. Examples may include, but are not limited to, epithets, slurs, jokes or other verbal, graphic or physical conduct.

Title IX of the Educational Amendments of 1972 (amending the Higher Education Act of 1965) is a federal gender equity law that prohibits discrimination based on sex in education programs and activities that receive federal funding. Sexual harassment, which includes sexual violence and other forms of nonconsensual sexual misconduct, is a form of sex discrimination and is prohibited under this law.

The entire text of the University's policy on harassment and additional information on Title IX and sexual harassment can be obtained from the Office of Access and Equity, 110 Holtzendorff, (864) 656-3201 or at www.clemson.edu/access/policies.html.

INFORMATION RESOURCES FOR STUDENTS

Clemson University computing resources are the property of Clemson University, to be used for university-related business. Students have no expectation of privacy when utilizing university computing resources, even if the use is for personal purposes. The university reserves the right to inspect, without notice, the contents of computer files regardless of medium, the contents of electronic mailboxes and computer conferencing systems, systems output such as printouts, and to monitor network communications when:

1. It is considered reasonably necessary to maintain or protect the integrity, security or functionality of university or other computer resources or to protect the university from liability;
2. There is reasonable cause to believe that the users have violated this policy or otherwise misused computing resources;
3. An account appears to be engaged in unusual or unusually excessive activity;
4. It is otherwise required or permitted by law.

Any suspected violations of this policy or any other misuse of computer resources by students normally should be referred to the Office of Student Conduct. That office will investigate the allegations and take appropriate disciplinary action. Violations of law related to misuse of computing resources may be referred to the appropriate law enforcement agency.

Notwithstanding the above, Clemson Computing and Information Technology may temporarily suspend, block or restrict access to an account, independent of university disciplinary procedures, when it appears reasonably necessary to do so in order to protect the integrity, security or functionality of...
university or other computer resources, to protect the university from liability, or where the emotional or physical well-being of any person is immediately threatened. When CCIT unilaterally takes such action, it will immediately notify the account holder of its actions and the reason for them in writing. The account holder may appeal the action taken by CCIT in writing to the Chief Information Officer.

Access will be restored to the account holder whenever the appropriate investigatory unit of the university determines that the protection of the integrity, security or functionality of university or other computing resources has been restored and the safety and well being of all individuals can reasonably be assured, unless access is to remain suspended as a result of formal disciplinary action imposed through the Office of Student Conduct or as a result of legal action.

Use of University computing resources, including network facilities, account numbers, data storage media, printers, plotters, microcomputer systems, and software for computing activities other than those authorized by the university is strictly prohibited. Unauthorized use of such resources is regarded as a criminal act in the nature of theft, and violators are subject to suspension, expulsion, and civil and criminal prosecution.

Use of university computing resources, including network facilities, account numbers, data storage media, printers, plotters, microcomputer systems, and software for computing activities other than those authorized by the university is strictly prohibited. Unauthorized use of such resources is regarded as a criminal act in the nature of theft, and violators are subject to suspension, expulsion, and civil and criminal prosecution.

The following are examples of misuse of computing resources:

1. Unauthorized duplication, distribution or alteration of any licensed software. This includes software licensed by the university and licensed software accessed using the computing networks.

2. Attempting to gain unauthorized access to any computing resource or data, or attempting to disrupt the normal operation of any computing resource or network – at Clemson or anywhere on the Internet.

3. Attempting to use another student’s or employee’s computer account or data, without their permission.

4. Using the university electronic mail system to attack other computer systems, falsify the identity of the source of electronic mail messages. Sending harassing, obscene or other threatening electronic mail. Attempting to read, delete, copy or modify the electronic mail of others without their authorization. Sending, without official university authorization, “for-profit” messages, chain letters or other unsolicited “junk” mail.

5. Knowingly infecting any computing resource with a software virus.

6. Tampering with the university computer network or building wiring or installing any type of electronic equipment or software that could be used to capture or change information intended for someone else.

7. Participating in a “denial of service” attack on any other computer, whether on or off campus.

8. Using university computing or network resources for personal gain or illegal activities such as theft, fraud, copyright infringement, piracy (e.g., sound or video recording), or distribution of child pornography or obscenities.

PATENTS AND COPYRIGHTS

All students enrolling in Clemson University do so with the full understanding that students working on sponsored projects and/or who use Clemson University resources other than for lecture-based coursework or other course-related assignments are subject to the Clemson University Intellectual Property Policy.

1) In accordance with the University Intellectual Property Policy, student Creators do not hold rights to intellectual property created, developed, or generated:

i. In the course of rendering compensated services to the University; or

ii. As part of sponsored research projects; or

iii. Pursuant to an agreement that requires the University and/or student to assign his or her rights either to the University or to a third party; or

iv. Using pre-existing or background intellectual property belonging to the University or a third party with whom the University has a contract under which such background intellectual property rights are already allocated.

v. Notes:

1. Student retains a non-exclusive, royalty-free, perpetual, irrevocable license to use, reproduce, and publicly distribute, for educational and/or research purposes, copies of intellectual property created by student.

2. If intellectual property is developed or generated as a group class project, joint ownership by the collaborators will be assumed unless a prior written agreement exists among the collaborators.

A Creator is defined as an author of, inventor of, or person who discovers, develops, or generates any type of intellectual property. Inventorship and authorship shall be determined in accordance with patent law and copyright law, respectively.

Section 5.c. of the University Intellectual Property Policy, November 23, 2009

2) All Creators have a duty to promptly disclose intellectual property authored, invented, created, discovered, developed, or generated by Creator(s) to the Clemson University Intellectual Property Committee (IPC). See Appendix III, University Intellectual Property Policy, November 23, 2009.

3) Except as set forth in other related University policies, this applies to all types of intellectual property, including, but not limited to, any invention, discovery, creation, know-how, trade secret, technology, scientific or technological development, mask work, trademark, research data, work of authorship,
