

Variable Credit Hours
(Students)

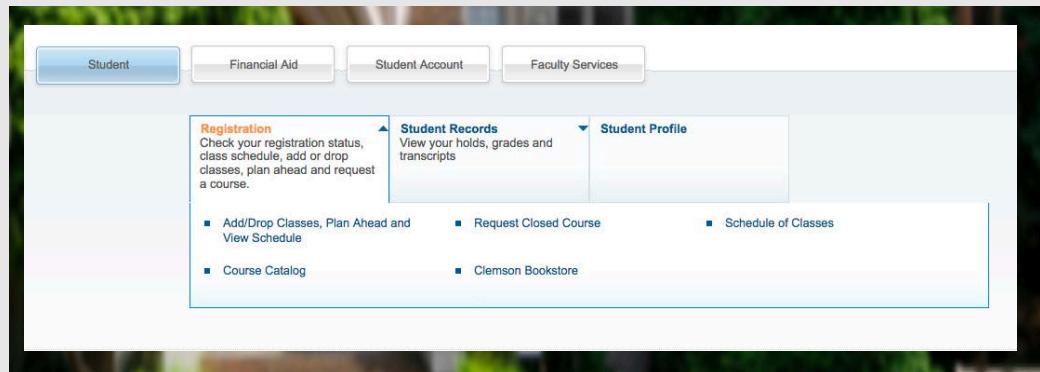

1. Go to iRoar and log in.
When you see this page click on the button listed under dashboard that says iRoar (SSB)

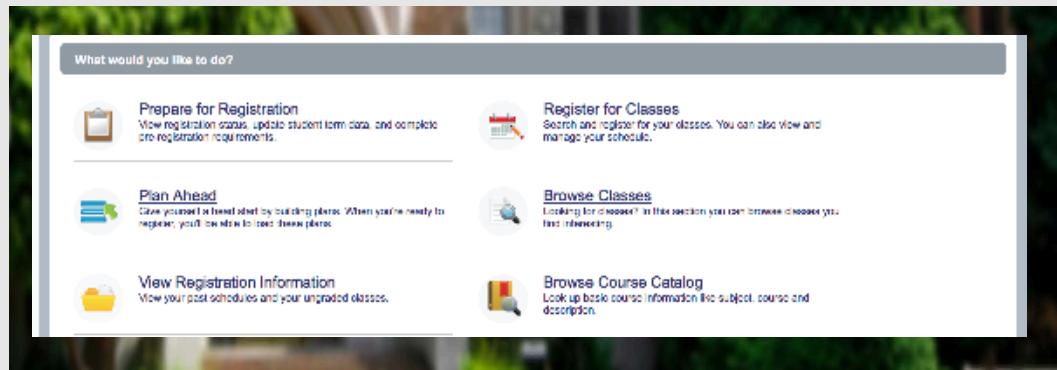

2. Click on the student tab

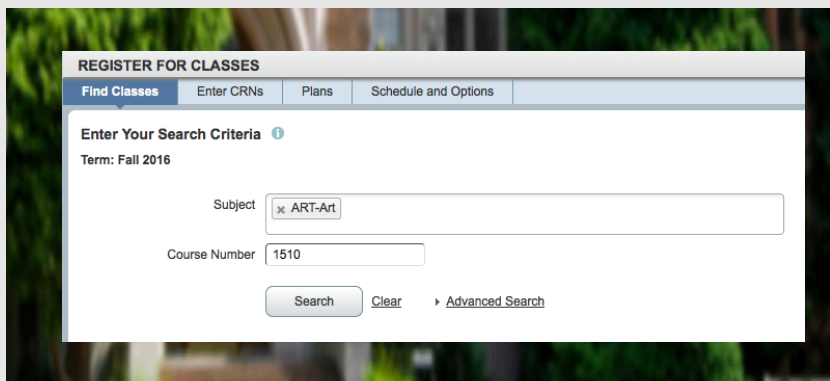

3. Click on registration and then select 'add/drop classes, Plan Ahead, and View schedule' from the options that populate below

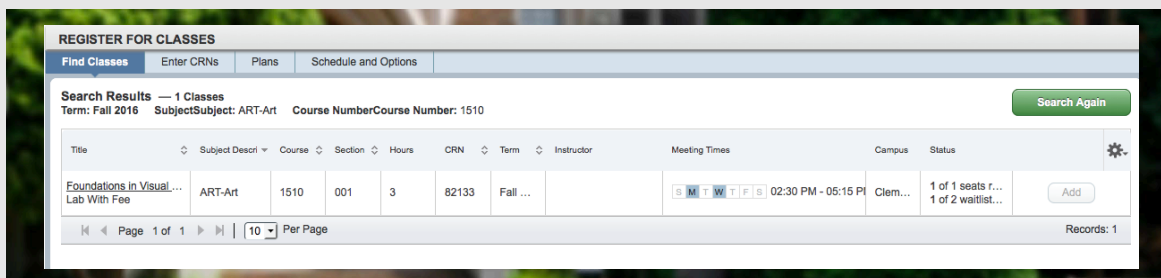

4. Click on 'Register for Classes'

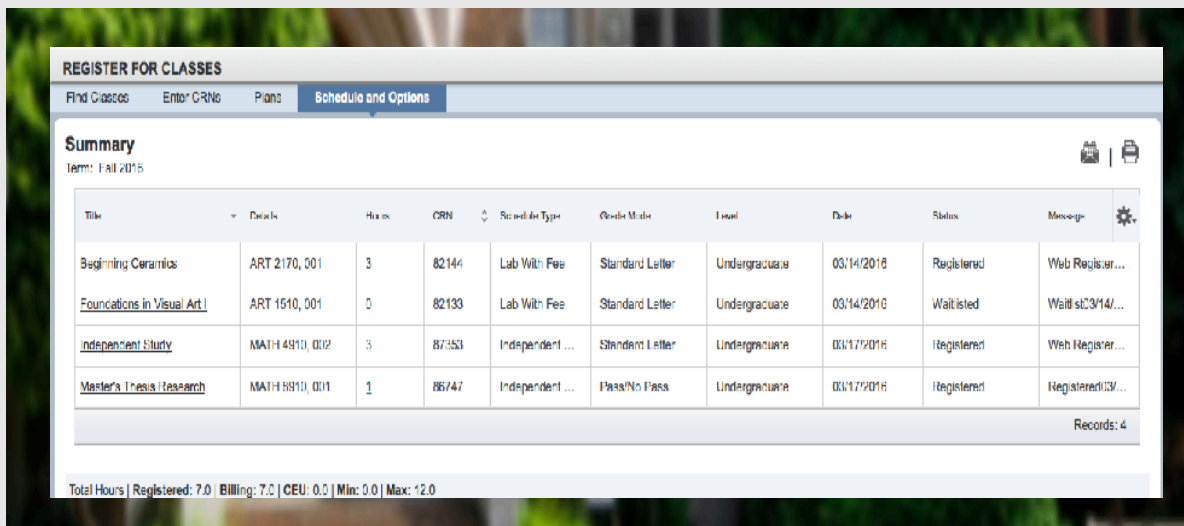

5. Type in the subject and course number of the class you wish to take in the appropriate boxes. Then click search.

6. When you find the course you want click add and then submit at the bottom to register for the course.

7. On the same screen, Go to schedule and options at the top and click that. If it is a variable credit hours course, the credit hour will be underlined on this page. Click the number that is underlined and adjust it to the desired credit hours. Then click submit at the bottom like before

*When you have done this, you should see the new credit hours reflected in the summary of your courses scheduled.
