Curriculum Notes

1. Select from one of these lecture lab combinations:
 - BIOL 1030 plus BIOL 1050
 - CPSC 1010 plus CPSC 1011 or CPSC 1060 plus CPSC 1061
 - GEOL 1010 plus GEOL 1030
2. See the General Education requirements for more detail. Required courses include two Arts & Humanities (one literature and one non-literature) and two Social Sciences (must be from different areas). Also required is a course in the area of Cross Cultural Awareness and a course in the area of Science & Technology in Society. Some Gen Ed courses satisfy two requirements.
3. Select from MATH 2080, MATH 3020, MATH 3110.
4. Select CH 4010 or CH 4020.
5. A course with significant chemistry content.
 - Any 3000- or 4000-level CH course.
 - BCHM 3050 – Essential Elements of Biochemistry
 - BCHM 4060 – Physiological Chemistry
 - BCHM 4230 – Principles of Biochemistry
 - EES 4110 – Ionizing Radiation Detection and Measurement
 - EES 4850 – Hazardous Waste Management
 - ETOX 4210 – Chemical Sources and Fate in Environmental Systems

6. Pick from one of the following American Sign Language, Arabic, Chinese, French, German, Italian, Japanese, Latin, Portuguese, Russian or Spanish.
7. The BA Chemistry major is accompanied by a required minor. A minor consists of at least 15 credit hours in an area other than chemistry. Of the 15 credit hours no fewer than nine credits must be at the 3000 level or higher. Courses may not be used to fulfill both the major and minor requirements. See the catalogue for the list of minors and minor requirements.
8. Pick from EDLT 4980, ENGL 3040, ENGL 3120, ENGL 3140, ENGL 3150, ENGL 3450, ENGL 3460, ENGL 3480, ML 4020, or THEA 3470. The course usually taken is ENGL 3140 – Technical Writing.
